

STATEMENT OF WORK

NASA GSFC

XRISM Project Science Office

February 19th, 2026

Scope

The X-ray Imaging and Spectroscopy Mission (XRISM) Project Science Office at NASA Goddard Space Flight Center will host the *2nd International XRISM Science Symposium* in Detroit, Michigan from June 1-4, 2027. This meeting will be open to all members of the worldwide astronomical community. This meeting is part of the international agreement between NASA and the Japan Aerospace Exploration Agency (JAXA) to operate the XRISM mission and to disseminate, share, and promote the science of XRISM within the worldwide community of scientists.

The meeting will be organized by the [REDACTED] in Ann Arbor, MI. The university has the resources and personnel to organize and manage this 4-day event for approximately 300 scientists.

Requirements

[REDACTED] should meet the following requirements.

- Provide event space to accommodate the approximately 300 attendees with audio visual equipment for the June 1-4, 2027 meeting.
- A mechanism to collect registration fees from attendees and use these funds to partially offset meeting costs, reducing costs to NASA and the US Government.
- Wi-fi access throughout the meeting venue
- Provide food and beverages (snacks) during morning and afternoon breaks
- Nearby restaurant options for breakfast, lunch, and dinner
- Ability to walk from hotel to venue and dining options
- A venue for a meeting banquet, to be paid for by attendees.

Deliverables or Delivery Schedule

- [REDACTED] will provide meeting space for both the meeting of approximately 300 attendees.
- [REDACTED] will ensure the meeting space will provide beverages and snacks for attendees during breaks throughout the meeting
- [REDACTED] will ensure the meeting space provides audio/visual and wi-fi availability

Place of Performance

Detroit, MI

Period of Performance

June 1-4, 2027
