

RFP# 36C26226R0015 Questions

Reference: Section D.1 – Price Worksheet (Unit “DY”; Estimated Quantities 1 / 3 / 16)

1. **Question:** Please define what “DY” represents for each CLIN (e.g., one staffed shift of 8.5 hours, one 24-hour day, or another unit of measure), and confirm whether the quantity “16” for Monitors represents the total number of Monitor shift-posts per 24-hour day (not FTE headcount).

Answer: Day

Reference: PWS Section 4.1 – Staffing Plan / Shift Hours

2. **Question:** Please confirm whether the shift times listed (8:00–4:30, 4:00–12:30, 12:00–8:30) are fixed requirements, and whether the 30-minute overlaps are mandatory (or may be adjusted as long as 24/7 coverage is maintained).

Answer: Shift hours may be adjusted as needed, but there must be at least a 30-minute overlap to allow for proper handoff and reporting to the next Shift Lead Monitor.

Reference: PWS Section 4.1 vs. D.1 Quantities – Lead Monitor Coverage

3. **Question:** The PWS requires 1 Lead Monitor per shift (3/day), and D.1 lists Lead Monitor quantity as “3 DY.” Please confirm the intended pricing basis is **one Lead Monitor per shift** (3 shifts/day), and not a single Lead Monitor covering multiple shifts.

Answer: Bidders must use Section B.2, Schedule of Services and Price, to indicate the daily cost for one (1) Lead Monitor or Monitor. This section is intended to show the cost of a single unit, not for performance purposes. Additionally, bidders must use Section D.1, Price Worksheet, to provide pricing based on the estimated quantities.

Reference: PWS Section 4.1 – Program Manager Schedule

4. **Question:** The Program Manager shift is “to be determined by contract awardee.” Please confirm the minimum required on-site presence (hours/day and days/week), and whether remote work is permitted for any portion of Program Director duties.

Answer: Program Director is required to complete the entire shift onsite.

Reference: Section B.2 – IDIQ Structure / Continuous Coverage Assumption

5. **Question:** Although the contract is IDIQ, the PWS describes 24/7/365 coverage. Please confirm whether the Government intends to issue **one task order for continuous full staffing** for the POP, or whether task orders may vary staffing levels (and if so, how changes will be communicated and timed).

Answer: The VA will provide a Task Order for the period of performance of each year

Reference: Section D.1 – Estimated Quantities Subject to Change

6. **Question:** Please provide the expected range of variation for the estimated daily quantities (especially the “16 Monitors”) and indicate whether there is a historical average daily staffing demand different from the stated baseline.

Answer: Please refer to the estimated quantities listed in the Price Worksheet for the expected range. Historically, staffing has included at least one (1) Lead Monitor and six to seven (6–7) Monitors for both day and evening shifts, and one (1) Lead Monitor with four (4) Monitors for the overnight shift.

Reference: PWS Sections 3–4 – CTRS/Safe Parking Population and Capacity (Workload Driver)

7. **Question:** Please provide the current and projected **number of tiny shelter units**, typical nightly occupancy, and the **Safe Parking capacity/average vehicles**, since staffing workload includes Safe Parking meal distribution and site setup/breakdown.

Answer: The facility includes 135 units, of which 5 are double units and 12 are double drop-in units, providing a maximum capacity of 164 individuals. Additionally, the Safe Parking program can accommodate up to 15 vehicles.

Reference: PWS 5.1.12–5.1.17 – Meals and Snacks Responsibilities

8. **Question:** Who provides and pays for daily meals and snacks (VA, another VA contractor, or the awardee)? If the awardee must provide any food/snacks, please specify required meal counts, dietary standards, and funding mechanism.

Answer: The contract awardee is not responsible for providing daily meals, as these are supplied under a separate contract.

Reference: PWS 5.1.15 – Meal Distribution to Safe Parking

9. **Question:** How many Safe Parking participants are anticipated per day/evening for meal distribution, and during what time window is meal distribution expected?

Answer: Safe Parking has a maximum capacity of 15 vehicles. Meals are delivered directly to the site Monday through Thursday and to CTRS Bldg# 801 on Fridays to cover Friday, Saturday, and Sunday. The awardee will be responsible for distributing Friday–Sunday meals to the Safe Parking location.

Reference: PWS 5.1.6–5.1.7 – Laundry Supplies and Linens

10. Question: Please confirm whether the contractor is required to provide/purchase laundry supplies and linens (and approximate weekly quantities), or whether these are Government-furnished supplies with contractor staff only controlling access and distribution.

Answer: The Government shall furnish all required supplies and linens. The Contractor shall be responsible for controlling access to these items and managing their distribution.

Reference: PWS 5.1.32–5.1.36 – Toiletries, Hygiene Kits, Welcome Bags

11. Question: Are toiletries, hygiene kits, and welcome bags Government-furnished items, or is the contractor responsible for purchasing/assembling them? If contractor-provided, please provide estimated monthly issue quantities.

Answer: Yes, These items are provided by the VA.

Reference: PWS 14 – Holidays / Staffing and Billing

12. Question: Please confirm whether pricing is expected to be the same for holidays versus non-holidays (since coverage is 24/7/365), and whether any holiday premium is allowable/expected within the fixed unit rate.

Answer: This procurement is an IDIQ Firm Fixed Price contract; as stated in Section B.2, unit rates must be all-inclusive and the Government will not reimburse costs outside those fixed rates for services required 24/7/365 under the PWS.

Reference: Section D.3 – Wage Determination Mapping

13. Question: Please identify the intended SCA/Wage Determination labor classifications that correspond to **Monitor** and **Lead Monitor** and confirm whether the Program Director is SCA-covered or treated as exempt/administrative.

Answer: For information regarding the Wage Determination please contact Department of Labor at <https://www.dol.gov/agencies/whd>

Reference: PWS 5.4.2–5.4.3 – Required Certifications (CPR/First Aid/Narcan/Food Handler)

14. Question: Please confirm whether the contractor must pay for initial and renewal certifications, whether online equivalents are acceptable, and what documentation must be provided to the COR.

Answer: The contractor is responsible for all costs associated with obtaining and renewing certifications. Online courses are acceptable provided they are offered by an accredited provider.

15. Question: For laundry usage, what all does the contractor have to provide (i.e., washer, dryer, detergent, dryer sheets, etc).

Answer: Onsite laundry facilities shall be available for use. The Contractor shall monitor both Veteran utilization and the condition of the laundry facilities.

16. Question: The Schedule of Service has a pre-populated #1 for each Item Number, can a blank one be provided so it aligns with the Price Worksheet or does the Quantity of 1 equate to the total cost per position provide on the Price Worksheet?

Answer: Bidders must use Section B.2, Schedule of Services and Price, to indicate the daily cost for one (1) Program Director, Lead Monitor or Monitor. This section is intended to show the cost of a single unit.

17. Question: How many Tiny Shelters are there?

Answer: The facility includes 135 units, of which 5 are double units and 12 are double drop-in units, providing a maximum capacity of 164 individuals. Additionally, the Safe Parking program can accommodate up to 15 vehicles.

18. Question: How many people can live in one Tiny Shelter?

Answer: Single unit – one (1) person, Double Unit – Two (2) people.

19. Question: Are male and female veterans served in this program?

Answer: Yes.

20. Question: What's the average total number of veterans being monitored daily?

Answer: 164; maximum capacity.

Question: May we ask for an estimate on how many veterans and tiny shelters would the monitors need to supervise?

Answer: The facility includes 135 units, of which 5 are double units and 12 are double drop-in units, providing a maximum capacity of 164 individuals. Additionally, the Safe Parking program can accommodate up to 15 vehicles.

21. Question: Can the VA confirm the **expected average daily Veteran population** at CTRS and Safe Parking sites?

Answer: 164; maximum capacity.

22. Question: Are there anticipated changes or expansions to CTRS capacity during the contract period?

Answer: No.
