52.247-65	F.O.B. Origin - PrePaid Freight - Small Package Shipments	JAN 1991

F02 - TIME OF DELIVERY

Deliveries for items repaired/modified hereunder shall be made within the Repair Turn Around Time (RTAT) set forth in Attachment A. RTAT is measured from asset Return to the date of asset acceptance under the terms of the contract (days). For purposes of this section, Return is defined as physical receipt of the F-condition asset at the contractor's facility as reflected in the Action Date entry in the Commercial Asset Visibility (CAV) system. In accordance with the CAV Statement of Work, the contractor is required to accurately report all transactions (receipt, condition code changes, and proof of shipment) by the end of the fifth regular business day after the occurrence of a reportable event. If the reportable event occurred prior to the CAV transaction, then the Action Date in CAV must nevertheless be dated to reflect the actual date of the reportable event. One exception is that the Contractor is required to report shipment transactions in CAV 24 hours prior to the physical shipment of material.

For ATAC shipments, the shipment transaction in CAV alerts ATAC to schedule pickup. The Contractor is still required to report shipment transactions in CAV 24 hours prior to physical shipment even if ATAC is not used for shipping. Business days exclude Federal holidays and weekends.

In the event the articles are received for which there are no open delivery orders, the contractor shall refer to Section C01 of this Contract.

F03 - PLACE OF DELIVERY – FOB ORIGIN (REPAIR AND REPAIR PARTS)

- Subject to FAR 52.247-29 "FOB Origin," the articles to be furnished shall be delivered FOB Origin at the plant or plants where the articles will be offered for acceptance.
- Shipment will be made at Government expense to the destinations specified in each order. The method of shipment will be specified by the cognizant Government inspector when the articles are ready for shipment.
- The Government shall have the right to change the destinations specified. Any adjustment in contract price or time of delivery due to resulting changes in packing or marking shall be subject to the clause of this contract entitled "Changes."
- Unless otherwise directed by the PCO, articles repaired on orders issued hereunder shall be shipped as directed at the order level.

F05 – NAVSUPWSSFA24 - COMMERCIAL ASSET VISIBILITY (CAV) REPORTING

Commercial Asset Visibility (CAV) reporting is required under this purchase order/contract, and all proposed pricing must include any costs associated with this requirement. Detailed information on CAV reporting requirements can be found in the CAV Statement of Work (SOW) located at:

<https://www.navsupsup.navy.mil/NAVSUP-Enterprise/NAVSUP-Weapon-Systems-Support/Provisions-Instructions-and-Contract/>

Contractors participating in the Direct Ship program can find additional information in the CAV SOW.

CAV registration requires the contractor to purchase a commercial PKI certificate, complete web-based information assurance training (approximately 1 hour to complete) and submit a System Authorization Access Request (SAAR). Access to CAV is authenticated based on a valid PKI certificate registered in the NAVSUP Master Directory and an active CAV account. The contractor is required to access the account at least one time within every 30 days, regardless of whether there are transactions to report, in order to keep the account active. Questions regarding CAV registration/implementation can be addressed to NAVSUPWSSCAVSOW@navy.mil for NAVSUP WSS Philadelphia solicitations and contracts (document numbers beginning with N00383) and to NAVSUPWSSM.CAVSOW@navy.mil for NAVSUP WSS Mechanicsburg solicitations and contracts (document numbers beginning with N00104).

Contractors not already registered for or reporting via CAV are required to initiate registration no later than 10 days following receipt of this purchase order/contract by providing their point of contact information to the appropriate CAV email address above. All contractor actions for registration (PKI certificate, training, and SAAR) must be completed within 30 days of receipt of this order/contract for U.S. contractors and within 60 days for non-U.S. contractors. If government property is received or assets are ready for delivery to the Government prior to implementation of CAV, the contractor must send a notification to the appropriate email address above, and must also notify the NAVSUP WSS contracting officer identified on the purchase order/contract. The contractor should notify the contracting officer if a response from a CAV representative is not received within 3 working days.
