

A. Recommended Labor Mix

Offerors' proposals may not deviate from the total number of hours included in Section B.

Offerors have the latitude to propose the labor mix they believe is best to accomplish the requirements identified within the PWS in a high quality, efficient, and cost effective manner. Nevertheless, the Government has provided the below labor mix estimate to serve as a reference for prospective Offerors to better understand the overall distribution of skills throughout this effort. As this estimate is based on Government knowledge and experience with the support needed, this estimate will be considered in evaluating proposals. It is noted that other labor categories, such as Logisticians or Data Scientists could be proposed and used depending on the expertise and experience level. The Offeror may deviate but such deviation shall be explained in the Offeror's Staffing Plan Narrative. If the proposed labor mix differs from the estimate provided below, the Offeror shall describe how/why the proposed labor mix will result in a high quality, efficient, and cost effective solution. If the Offeror does not explain deviations from the above labor mix it may result in upward cost adjustments or one or more weaknesses/deficiencies during evaluation.

For each of the Labor CLINs, the Government strongly recommends offerors provide the following labor mix:

Labor Category	Base Year Hours	Option Year 1 Hours	Option Year 2 Hours	Option Year 3 Hours	Option Year 4 Hours	Total Hours for All Years
Program Manager	1,920	1,920	1,920	1,920	1,920	9,600
Senior Engineer	3,840	3,840	3,840	3,840	3,840	19,200
Senior Engineer- OT	520	520	520	520	520	2,600
Engineer II	19,200	26,880	32,640	32,640	32,640	144,000
Engineer II- OT	2,600	3,640	4,420	4,420	4,420	19,500
Engineer I	5,760	9,600	11,520	11,520	11,520	49,920
Engineer I- OT	780	1,300	1,560	1,560	1,560	6,760
Total Hours	34,620	47,700	56,420	56,420	56,420	251,580

B. Government Defined Labor Categories:

The table below lists the labor categories desired education, experience, and certifications, as well as, required security clearance for the support to be provided under the PWS paragraph(s). If the Contractor does not identify the labor categories listed below by the same specific title in its proposal, then the Contractor shall provide a cross reference which lists its applicable labor category designation as it corresponds to those identified below. Any substantive differences are to be identified. The equivalents and pay ranges from the Bureau of Labor Statistics (BLS) Standard Occupational Classification (SOC) May 2024 report that was used for each position are noted below.

N6572626R3000 – Attachment 4 – Personnel Qualifications

PWS Paragraph	Description
5.10	Project Manager SR *Key Personnel*
	Job Description: • Supports achievement of programmatic goals • Plans, coordinates, evaluates and reviews all phases of project control including the interpretation of and compliance with contract requirements • Makes continuing reviews and studies of incoming project planning, execution and related material and program activities and keeps currently informed on all phases of planning and execution • Ensures that all contract deliverables, to include cost and status reports are submitted as required • Consults with and coordinates activities with representatives of government and industry on plans and requirements, new developments, and methods to accomplish identified program requirements • Ensures proper staffing of the contract • Assists with complex problems relating to the operation of the contract • May lead and direct the work of more junior contractor employees • A wide degree of creativity and latitude is desired • Relies on experience and judgment to plan and accomplish goals Desired Experience: 7+ Years in a related position Desired Education: Baccalaureate degree in a logistics, business, management, or technical field
	Security Clearance Required: Secret
	Closest BLS SOC: 11-1021, General and Operations Managers Recommended Pay Range: National: 0% to +10% of 75th Percentile Annual Wage
5.1, 5.2, 5.3, 5.4, 5.5, 5.6, 5.7, 5.8, 5.9	Senior Engineer *Key Personnel*
	Job Description: • Review technical data packages for adherence to engineering standards • Review engineering and technical referrals in accordance with established processes • Assist with the design and implementation of quality control / assurance systems • Review, validate and develop technical data, technical manuals and provisioning packages • Review performance data and developed Readiness Based Sparing (RBS) models • Performs a variety of complicated engineering related tasks • May lead and direct the work of more junior contractor employees • A wide degree of creativity and latitude is desired • Relies on experience and judgment to plan and accomplish goals Required Experience: 2+ years of modeling experience using OPUS Suite software Desired Experience: 7+ years in a related position Desired Education: Baccalaureate degree in Mechanical or Electrical Engineering
	Security Clearance Required: Secret
	Closest BLS SOC: 17-2141, Mechanical Engineers Recommended Pay Range: National: 0% to +10% of 75th Percentile Annual Wage
5.1, 5.2, 5.3, 5.4, 5.5, 5.6,	Engineer II
	Job Description: • Review technical data packages for adherence to engineering standards • Review engineering and technical referrals in accordance with established processes • Assist with the design and implementation of quality control / assurance systems • Review, validate and develop technical data, technical manuals and provisioning packages • Review performance data and developed Readiness Based Sparing (RBS) models

N6572626R3000 – Attachment 4 – Personnel Qualifications

5.7, 5.8, 5.9	• Assists with complicated engineering related tasks • Works under general supervision of employer • A certain degree of creativity and latitude is desired <u>Desired</u> Experience: 4 – 7 years in a related position; 2 years of modeling experience using OPUS Suite software or a similar modeling software <u>Desired</u> Education: Baccalaureate degree in Mechanical or Electrical Engineering Security Clearance Required: Secret Closest BLS SOC: 17-2141, Mechanical Engineers Recommended Pay Range: National: -5% to +5% of 50th Percentile Annual Wage
5.1, 5.2, 5.3, 5.4, 5.5, 5.6, 5.7, 5.8, 5.9	Engineer I Job Description: • Review technical data packages for adherence to engineering standards • Review engineering and technical referrals in accordance with established processes • Assist with the design and implementation of quality control / assurance systems • Review, validate and develop technical data, technical manuals and provisioning packages • Review performance data and developed Readiness Based Sparing (RBS) models • Performs a variety of engineering related tasks • A limited degree of creativity and latitude is desired • Works under immediate supervision of employer <u>Desired</u> Experience: 0 – 3 years in a related position <u>Desired</u> Education: Baccalaureate degree in Mechanical or Electrical Engineering Security Clearance Required: Secret Closest BLS SOC: 17-2141, Mechanical Engineers Recommended Pay Range: National: -5% to +5% of 25th Percentile Annual Wage
