

Notice of Intent: Maintenance agreement for Thermo TSQ Altis liquid chromatography mass spectrometry system

(75N98026Q00334)

The National Institutes of Health intends to award a Firm-Fixed-Price Purchase Order to Zef Scientific, Inc.

In accordance with FAR Part 6.302-1, Zef Scientific, Inc is the only known responsible source who can provide the products/services that meet our standards. No other source has been identified who can provide the requirements listed below.

The Clinical Mass Spectrometry Core requires a multi-year, full-service maintenance agreement for a Thermo Scientific Altis liquid chromatography tandem mass spectrometry system and associated liquid chromatography components. This system supports biomedical research focused on diabetes, digestive diseases, kidney diseases, and metabolic disorders and is used to measure trace levels of biological molecules in blood and tissue samples in support of federally funded research studies. The service plan includes unlimited repair visits, all replacement parts, all labor, one scheduled preventive maintenance visit per year, and a maximum on-site response time of seventy-two hours.

The objective of this purchase order is to obtain a full-service maintenance agreement to ensure the continued reliable operation of the Thermo TSQ Altis LC-MS/MS system and associated components. This maintenance agreement will ensure system uptime and reliability, maintain calibration and analytical performance, provide preventive maintenance and repair services, minimize research downtime, and support NIDDK's biomedical research mission.

This notice is not a request for competitive quotes. Zef Scientific, Inc is the service provider. However, any available small businesses (e.g., 8(a), service-disabled veteran owned small business, HUBZone small business, small disadvantaged business, veteran-owned small business, and women-owned small business) as stated herein may submit a written capability statement that clearly supports and demonstrates their ability to perform the requirement. A determination by the Government to compete this proposed award based upon responses to this notice is solely within the discretion of the Government.

It is anticipated that an award will be issued approximately five (5) days after the date of this notice unless the Government determines that another vendor has the capability to meet this requirement.

Please email responses to david.shen@nih.gov no later than 7:00 a.m. EDT on May 17, 2026.
