

Question 1:

My issues and concerns include the following:

The contract proposal is written like a 7 day per week job.

It would not be realistic for me to attempt a schedule like that.

The wage scale for El Paso is somewhat lower than expected.

It would be likely that my proposal is on the higher end of the hourly range.

Would it be possible for this contract to go 5 days per week, Wednesday to Sunday, 6 hours per day?

Answer:

Please see the updated PWS. Please refer to the PWS Part 1.4.3. for information on workdays and hours. PWS Part 5 "SPECIFIC TASKS" provides more detail on what is required. Please use the attachment labelled TE3 – Estimated Workload Data for an estimate of the expected hours over a 12 month period. Proposals are priced by the range provided by the vendor. The wage determination posted includes the minimums required by the Federal Government to be compliant with Labor Laws.

Question 2:

There does not appear to be a section in the contract that permits the priest to attend the mandatory trainings required by the Military Archdiocese.

These trainings include an annual training required for all priests worldwide, not just military chaplains or military contract priests.

These trainings also include a bi-annual training for all priests who are affiliated with the military archdiocese.

This training takes place during the odd year, last one was 2025, next ones will be 2027, 2029, and 2031.

Depending on how the contract is written, the 2031 training may fall outside the contract window.

Answer: There will be time set aside to attend required training. The training needed will be accommodated with zero to near zero impact on regularly expected duties.
