

The following questions were received by the Department of the Army (DA) on 5 May at the Fort Drum Industry Days in reference to the Request for Proposals DACA27-1-26-204. The questions and DA's responses are provided below.

Q.1. Will the property be fenced off from the base?

A.1. Yes. Access will be the lessees responsibility.

Q.2. Is there excess water capacity?

A.2. Water will have to be accessed from the local community. There is currently capacity but depends on requirement.

Q.3. What is the standard power rate?

A.3. Varies- depends on requirement. Need to work through National Power Grid, local provider, for electricity needs.

Q.4. Are there local or state incentives?

A.4. There are potential tax incentives. Recommend talking with local and state economic development groups (Empire State development authority, development authority of the north country).

Q.5. Backup power or generators would be offerors responsibility?

A.5. Yes and power would be charged separately from Fort Drum.

Q.6. Will Drum offer snow removal services?

A.6. Drum does not have capacity at this time. Recommend working through local county for contract.

Q.7. Do you have experience leasing 50 year long leases?

A.7. Our privatized housing leases are 50 year leases. Army has experience with this duration lease through the installations.

Q.8. Is there shipping on St Lawrence River?

A.8. Yes.

Q.9. Recommendations to include in the proposal?

A.9. Follow the RFP. Talk to the community impact, job creation, other benefits to the community and Army. Talk to the national security impacts. Viability of the project, financial security, timelines etc. follow the RFP.
