(7) Small Business Participation Past Performance. All Offerors shall submit information substantiating the Offerors past performance in complying with FAR 52.219-8, Utilization of Small Business Concerns, maximizing opportunities for U.S. small business subcontractors. Offerors shall also provide a statement indicating whether any negative information has been reported in the past six years concerning the Offerors past compliance with FAR 52.219-8. If any such negative information has been reported, the Offeror may submit explanations or comments responding to such negative information. Offerors with no prior contracts containing FAR 52.219-8 shall certify the same.

(iii) VOLUME III Small Business Participation: Offerors are responsible for including sufficient detail to permit a complete evaluation. Any information provided as part of the Small Business Participation Factor Volume may be used to correlate the evaluation of the other proposal volumes.

(1)This provision applies to every Offeror (U.S. and non-U.S.), regardless of size status or locations of working facilities or headquarters. For proposal preparation purposes, the Offeror's Small Business Participation proposals shall be consistent with any subcontracting references/identification contained elsewhere in any other Factor Volume. Percentages are calculated using proposed total contract price as calculated in accordance with D.5.b.iv This price becomes the denominator and include first-tier subcontractors only. For the purpose of evaluating Small Business Participation, the total contract price is computed by summing the weighted evaluated prices for Initial FAT, Subsequent FAT and the Production CLINs, computed from the prices proposed in Attachment 0002. Offerors shall also

Name of Offeror or Contractor:

explain their rationale as to why the percentage of SB participation being utilized for this effort is appropriate for their company. Offerors shall describe their approach and efforts undertaken to utilize small businesses (SB). SB targets will be incorporated into any resulting prime contract and contractors will be required to report SB participation.

(2)All Offerors, including Offerors who are themselves U.S. small business concerns based on the NAICS code assigned to this requirement, are to identify the extent to which U.S. small business concerns will be utilized as first-tier subcontractors in the performance of this proposed contract. U.S. small business concerns are defined (1) in FAR 19.001 and (2) by the criteria and size standards in FAR 19.102 for the applicable NAICS code. U.S. small business concerns include Small Businesses (SBs), Small Disadvantaged Businesses (SDBs), Woman-Owned Small Businesses (WOSBs), HUBZone Small Businesses (HUBZone SBs), Veteran-Owned Small Businesses (VOSBs), and Service Disabled Veteran-Owned Small Businesses (SDVOSBs).

(3) If the Offeror (to include any U.S. small business concerns who are proposing as part of a joint venture or teaming arrangement) is itself a U.S. small business concern, the Offeror's own participation as a SB, SDB, WOSB, HUBZone SB, VOSB, or SDVOSB will also be considered small business participation for the purpose of this evaluation. In this event, the extent of the Offeror participation as a U.S. small business concern shall be detailed in the same manner as subcontracts to first-tier U.S. small business concerns.

(4) Small Business Amounts: All Offerors shall address anticipated U.S. small business concern participation and subcontracting based on the total contract dollars proposed by the Offeror.

(5) The Offeror shall provide information for small business participation and subcontracting in a table format in accordance with the following example:

Business	\$ Cost All	\$ of SB	Cost Total	
par Category	Contracts	Participation	Subcontractor	

Contract Total Price	\$43.00M			

SB	\$10.34	24.00%	\$10.34 of \$43.00	

SDB	\$2.86	6.65%	\$2.86 of \$43.00	

SDB	\$2.36	5.50%	\$2.36 of \$43.00	

WOSB	\$1.55	3.60%	\$1.55 of \$43.00	

HUBZone SB	\$1.08	2.50%	\$1.08 of \$43.00	

VOSB	\$1.55	3.60%	\$1.55 of \$43.00	

SDVOSB	\$1.46	3.40%	\$1.46 of \$43.00	

(6)Guidance for filling in the above "Small Business Participation"

Table:ar Include first-tier subcontractors only. Note that members of a joint venture may be considered the Offeror or the first tier subcontractors, depending on the legal form of the joint venture as defined in its agreement document.

If the Offeror is a U.S. small business concern, detail the extent of the Offeror participation as a U.S. small business concern in the same manner as subcontracts to first tier U.S. small business concerns.

(c) Percentages should be rounded to the nearest tenth of a percent.

(7) Additional Guidance for particular Business Categories:

For "Contract Total Price": Include the Offeror's proposed Total Contract Price on this line.

For SB: Include U.S. small business concerns from all categories (i.e. SB, SDB, WOSB, HUBZone SB, VOSB, and SDVOSB and in the dollars and percentage on this line. The SDB, WOSB, HUBZone SB, VOSB and SDVOSB are subcategories of SB and the dollars in each of these may not add to match the total dollars in the SB line due to the following: In some cases the same dollars may be reported in more than one block (i.e., a \$10,000 subcontract to a Woman-Owned Small Business that is also a Service-Disabled Veteran-Owned Small Business

Name of Offeror or Contractor:

should be entered on four rows: \$10,000 under SB, \$10,000 under WOSB, \$10,000 under VOSB and \$10,000 under SDVOSB). Be sure that the dollars are counted in the SB line only once and not four times (e.g. \$40,000 representing the same firm participating at \$10,000 in differing categories). Note that the SB percentage is not simply a total of the percentages of each SB subcategory and must be calculated separately as shown in the chart.

For HUBZone SB: Include only "SBA certified" HubZone SBs. Note that this is different from some of the state HUB certifications.

(8) Small Business List: All Offerors shall provide the names and CAGE codes of small business concerns (including the Offeror if a small business concern) who would participate in accomplishing the proposed contract; the small business classification of each U.S. small business concern (i.e. SB, SDB, WOSB, HUBZone SB, VOSB and SDVOSB); a short description of the specific services to be provided by each small business concern; and the estimated total dollars for each service or product.

(a) This data shall be provided in a table format in accordance with the following example:

Name of SB	Cage		Description of	Total \$	
	Concern	Code	Location	SB Class	Supply or Service (in Millions)
ABC Co	123XX	City, USA	SB	Wire	\$0.50

(iv) VOLUME IV Price: The volume shall be organized into the following sections:

(1) Electronic Copy. Offerors shall not propose prices in Section B. Offerors shall submit their prices in the Price Matrix provided in Section J, Attachment 0002 of the Solicitation. Prices from the Price Matrix will be utilized in the performance of a price analysis in accordance with FAR 15.404-1(b). However, if deemed necessary by the Contracting Officer, a cost analysis may be performed per FAR 15.404-1(c). The Offerors Price Matrix and any documentation that is based on or includes mathematical calculations (e.g., calculations for rental value of government property in the Offerors possession, calculations where there is the appearance of unbalanced pricing, etc.) shall be submitted in electronic, executable format utilizing Microsoft Excel. PDFs are not acceptable. Any additional information necessary to explain the proposed pricing that does not contain mathematical calculations may be submitted in Adobe, Microsoft Word or Microsoft Excel format. Electronic links are only permissible within the Price Volume. If files contain links, the links must be intact and maintained through all revisions. The Offeror shall not include pivot tables in Excel spreadsheets.

(2) Compliance. Failure to comply with the solicitation requirements for Price information may result in an adverse assessment of an Offerors proposal and reduce or eliminate its chance of being selected for award. Offerors shall ensure that the information presented in this volume is consistent and correlates with the information contained in the other proposal volumes. Also, the Offeror shall ensure that the information submitted in this volume is consistent with and fully supports the amounts set forth in the Standard Form (SF) 33 and continuation sheets.

(3) General Instructions. In accordance with FAR 15.402 and 15.403-1, certified cost or pricing data are not required based on the fact that adequate competition is expected for this procurement. Information other than certified cost or pricing data may be provided in contractor format providing that sufficient information is made available. Information submitted shall be prepared following the instruction in FAR 15.403-5. If after receipt of proposals the Contracting Officer determines that there is insufficient information available to determine price reasonableness and none of the exceptions at FAR 15.403-1 apply, the Offeror may be required to submit cost or pricing data. There are no page limitations for this volume. Proposal information included in this volume which is not directly related to Price will be disregarded.

(4) Single Offer Received. In the event that adequate competition is not obtained (i.e., single responsible Offeror), the Contracting Officer will incorporate FAR 52.215-20 entitled, Requirements for Cost or Pricing Data or Information Other Than Cost or Pricing Data, into the solicitation and request a Certificate of Current Cost or Pricing Data. In accordance with Defense FAR Supplement 215.371-3, the Contracting Officer shall obtain additional cost or pricing data, if needed to determine a fair and reasonable price. If the acquisition exceeds the certified cost or pricing data threshold and an exception to the requirement for certified cost or pricing data at FAR 15.403-1(b)(2) through (5) does not apply, the cost or pricing data shall be certified. If the offered price can still not be determined fair and reasonable, the Contracting Officer shall enter into negotiations with the Offeror to establish a fair and reasonable price. The negotiated price will not exceed the offered price.

The proposed unit prices for production CLINs shall be inclusive of all fabricating, testing, inspection, packaging and delivery of the solicited item. ar

(7) In accordance with FAR 45.202(a), the Government shall consider any potentially unfair competitive advantage that may result from an Offeror using Government property already in the Offerors or subcontractors possession. To eliminate the competitive advantage, a rental equivalent evaluation factor shall be added to each offer which is predicated on the use of Government property. Offerors shall propose the per unit value of Government property for each CLIN/specified quantity in accordance with FAR 52.245-9, Use and Charges in the Price Matrix attachment to the solicitation. Offerors shall provide detailed calculations demonstrating how the per unit rental value was derived and documentation supporting the rental charges in sufficient detail to permit verification of the rental charges and evaluation of the per unit rental value.

(8) Unbalanced Pricing. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more line items is significantly over or understated as indicated by the application of cost or price analysis techniques. The greatest risks associated with unbalanced pricing occur when (a) Startup work, mobilization, first articles, or first article testing are separate line items; (b) Base quantities and option quantities are separate line items; or (c) The evaluated price is the aggregate of estimated quantities to be ordered under separate line items of an indefinite-delivery contract. Offerors shall provide documentation, including data, calculations and supporting rationale, for any apparent unbalanced pricing which will be used to determine if the proposed prices are balanced.
