Section C - Description/Specifications/Statement of Work

NAVAIR Headquarters On-Site Shredding Service

Statement of Work

Patuxent River, MD 20670

1.0. Scope

NAVAIR requests on-site shredding at locations in and around Patuxent River Naval Air Station. Please see the locations, number of bins and other information on the attached building service list. Request drop off and leave behind the prescribed number of bins at each specified building(s) for a total of 93 (39-Gallon) consoles. Contractor will return once a month to shred the contents of the bins on-site.

Reserve the option to add up to 5 additional 39-gallon bins. Removal of the bins at the end of the contract. Request flat rate pricing and no other fees associated with service.

Include CLINS for (2) unscheduled shredding events that will provide weekly shredding of 20 (39-Gallon Bins) for 4 weeks, each event to be executed only if needed.

2.0 Controlled Unclassified Information (CUI)

Controlled Unclassified Information (CUI) policy requires that agencies and organizations destroy CUI in a manner that makes it unreadable, indecipherable, and irrecoverable. The task of document destruction shall be conducted from start to finish on-site at the designated NAVAIR location listed in the NAVAIR shred table and witnessed by a Government employee or, if authorized by NAVAIR, a contractor employee may act as witness. The NAVAIR Headquarters shred table lists building facilitators who may act as witnesses.

3.0 Secure Collection Containers

The contractor shall provide secure lockable containers to collect and store materials to be shredded until such time destruction of the materials occurs. The contractor shall be required to provide containers that are adequate in size to accommodate the need of the office or centralized location (smaller containers for low volume, larger containers for higher volume). All containers and carts shall possess locking mechanisms and locks that can be opened with a master key.

4.0 Paper-based CUI Disposal

To dispose of paper-based CUI one of two methods can be used: single-step destruction or multi-step destruction.

5.0 Guidelines for Single-Step Destruction:

Use cross-cut shredders that produce 1mm x 5mm (0.04in x 0.2 in) particles (or smaller); or Pulverize /disintegrate paper using disintegrator devices equipped with a 3/32 in (2.4mm) security screen.

6.0 Guidelines for Multi-Step Destruction:

Ensure CUI is secure while awaiting destruction. Many agencies use a locked container to store CUI waiting to be shredded (commonly referred to as "shred bins").

Determine whether material will be shredded on-site or at another location. Material that an agency consolidates and collects or stores, or that it shreds to a degree not meeting the CUI destruction standard and then consolidates and collects or stores, at interim storage facilities (or by subcontractors) must be protected within a controlled environment that prevents access by unauthorized individuals. Procedures must be in place to account for and track consolidated CUI until it is destroyed to the standards of the CUI Program.

Establish the frequency of destruction or "pick-up" to ensure large quantities of CUI are not being accumulated unnecessarily.

Verify and ensure the physical safeguarding measures for all stages of the destruction process, including, as applicable: consolidation locations, pick-up, transportation to storage locations, any interim storage locations, transportation to interim or final shredding, recycling, or destruction sites, and storage at such sites while awaiting shredding, recycling, or destruction. This requirement extends to any contractor or subcontractor facilities where consolidated CUI is stored prior to final destruction or recycling.

Limit the time between pick-up and final destruction.

Ensure that only authorized and vetted employees are given access to any interim storage locations.

Ensure that all material provided for destruction has been completely destroyed and has not been misplaced during any step in the process.

Ensure and verify that the end product is unreadable, indecipherable, and irrecoverable.

Establish a validation/inspection time line and quality control process to ensure that destruction is occurring as expected and in compliance with all requirements.

Document any multi-step destruction methods used.

7.0 Personnel Requirements

Performance of work under this contract will require access to sensitive information. The Contractor shall coordinate and execute security processes and/or the provision of badges to allow access to designated locations and handing of materials up to CUI per government direction. The Contractor shall comply with all applicable security requirements, abide by direction given by military police or other security personnel, and adhere to installation traffic laws.

"Current" means-

(1) With regard to Conditional Cybersecurity Maturity Model Certification (CMMC) Status-

(i) Not older than 180 days for Conditional Level 2 (Self) assessments and Conditional Level 2 (certified third-party assessment organization (C3PAO)) assessments, with-

(B) A corresponding affirmation of continuous compliance by an affirming official (see 32 CFR 170.4); and

(ii) Not older than 180 days for Conditional Level 3 (Defense Industrial Base Cybersecurity Assessment Center (DIBCAC)) assessments, with-

(A) No changes in compliance with the requirements at 32 CFR part 170 since the Conditional CMMC Status date (see 32 CFR 170.18); and

(B) A corresponding affirmation of continuous compliance by an affirming official;

(2) With regard to Final CMMC Status-

(i) Not older than 1 year for Final Level 1 (Self), with-

(ii) Not older than 3 years for Final Level 2 (Self) assessments and Final Level 2 (C3PAO) assessments, with-

(A) No changes in compliance with the requirements at 32 CFR part 170 since the Final CMMC Status date (see 32 CFR 170.16 and 170.17); and

(B) A corresponding affirmation of continuous compliance, not older than 1 year, by an affirming official; and

(3) With regard to affirmation of continuous compliance (32 CFR 170.22), not older than 1 year with no changes in compliance with the requirements at 32 CFR part 170.

"Cybersecurity Maturity Model Certification (CMMC) status" means the result of meeting or exceeding the minimum required score for the corresponding assessment. The potential statuses are as follows:

(1) Final Level 1 (Self).

"Federal contract information (FCI)" means information, not intended for public release, that is provided by or generated for the Government under a contract to develop or deliver a product or service to the Government. It does not include information provided by the Government to the public, such as on public websites, or simple transactional information, such as information necessary to process payments.

"Plan of action and milestones" means a document that identifies tasks to be accomplished. It details resources required to accomplish the elements of the plan, any milestones in meeting the tasks, and scheduled completion dates for the milestones, as defined in National Institute of Standards and Technology Special Publication 800-115 (32 CFR 170.21).

(b) *Framework.* The Cybersecurity Maturity Model Certification (CMMC) is a framework for assessing a contractor's compliance with applicable information security protections (see 32 CFR part 170).

(c) *Duplication.* The CMMC assessments will not duplicate efforts from any other comparable DoD assessment, except for rare circumstances when a reassessment may be necessary, for example, when there are indications of issues with cybersecurity and/or compliance with CMMC requirements.

(4) Ensure all subcontractors and suppliers complete prior to subcontract award, and maintain on an annual basis, an affirmation, by the affirming official (see 32 CFR 170.4), of continuous compliance with the requirements associated with the CMMC level required for the subcontract or other contractual instrument for each of the subcontractor information systems that process, store, or transmit FCI or CUI and that are used in performance of the subcontract; and

(5) If the Contractor has a CMMC Status of Conditional, successfully close out a valid plan of action and milestones (32 CFR 170.21) to achieve a CMMC Status of Final.

(e) *Reporting.* The Contractor shall-

(1) Submit to the Contracting Officer-

(3) Complete in SPRS on an annual basis and maintain as current an affirmation of continuous compliance by the affirming official (see 32 CFR 170.4) for each self-assessment, C3PAO assessment, or DIBCAC assessment required under the contract in SPRS.

(f) *Subcontracts.* The Contractor shall-

(1) Insert the substance of this clause, including this paragraph (f) and excluding paragraph (e)(1), in subcontracts and other contractual instruments, including those for the acquisition of commercial products or commercial services, excluding commercially available off-the-shelf items, if the subcontract or other contractual instrument will contain a requirement to process, store, or transmit FCI or CUI; and

(2) Prior to awarding a subcontract or other contractual instrument, ensure that the subcontractor has a current CMMC certificate or current CMMC status at the CMMC level that is appropriate for the information that is being flowed down to the subcontractor based on the requirements at 32 CFR 170.23.
