RATIONALE FOR JUSTIFICATION TYPE SELECTED ABOVE TO INCLUDE RELEVANT INFORMATION GAINED THROUGH YOUR MARKET RESEARCH TO SUPPORT THE JUSTIFICATION TYPE:

As the Original Equipment Manufacturer (OEM) of the above item, Eaton Aeroquip LLC. (Cage Code 00624) owns all rights to the technical data, specifications, and drawings required for manufacture. The component to be manufactured is complex and must meet critical operational and reliability requirements, the achievement of which require unique production techniques and extensive and/or sophisticated testing. The Government does not own or possess any rights to the technical data, specifications, and drawings required to manufacture this component and it has been determined that it is uneconomical to purchase it. This component is the only one approved by the USCG's Aircraft Configuration Control Board for use on the MH-60T helicopter. In addition, USCG Aviation Engineering has assigned this component an Acquisition Method Code (AMC) of 5. An AMC code of 5 indicates to acquire directly from the prime contractor although engineering data identifies the Commercial and Government Entity Code (CAGE) and part number of a source other than the prime contractor. Therefore, the USCG is conducting a brand name acquisition.
