QUANTITY RANGE PRICING

The Government intends to purchase a total of 14 each of Starter. These requirements are for FMS customers which are typically more volatile and could impact the quantity on the potential award (higher or lower quantities). Therefore, the Government is requesting range pricing for the following ranges. Please provide range pricing below.

1 to 2 EA	\$ _____
3 to 4 EA	\$ _____
5 to 10 EA	\$ _____
11 to 15 EA	\$ _____
16 EA +	\$ _____

This solicitation includes a First Article requirement of 1 EA on Item No. 0001AB. Please provide your price for the First Article in the space designated for Item No. 0001AB. All other pricing for the production items will be completed using the table above.

The Item No.'s (starting on page 4) list best estimated quantities. These Item No.'s will be unpriced (except for the First Article as explained above) as all other pricing should be completed in the table above.

In the event of competition, the Government will be awarding based on the total quantities needed at the time of award. The Government will evaluate competitive proposals based on the needed quantity price range. If a First Article is required, then that price will be added to the quantity range pricing to determine total evaluated price for Bid A.

***In the event the ranges listed above do not reflect appropriate range pricing, the contractor is able to provide alternate quantity ranges.**

On Time Delivery Improvement

In accordance with the 448th Supply Chain Management Wing (448th SCMW), Air Force Sustainment Center Contracting Directorate (AFSC/OK) and Defense Logistics Agency (DLA) Aviation Contracting On-Time Delivery (OTD) Improvement Initiative. DLA Contracting has established the following OTD requirements with the intent to improve OTD.

As detailed in section B of the Solicitation, the government has developed a Required Delivery Schedule (RDS), which is reflective of the customer need date as well as projected Production Lead Time (PLT). The government RDS considered such factors as historical data and active contracts. In developing your response, the government requests your company review the RDS provided and propose an achievable delivery schedule based on your internal PLT review.

With input from suppliers, the Contracting Officer may negotiate an updated RDS representative of all factors stated above along with any new information that may become available.

1. By submitting a quotation or offer, the contractor is confirming it currently has, or will obtain before delivery, and shall retain supply chain traceability documentation, as described in paragraph (2) of this procurement note, demonstrating the item conforms to the technical requirements, and, for part numbered items, is from an approved manufacturer.

2. Supply Chain Traceability Documentation

(i) Supply chain traceability documentation shall include: basic item description; part number; drawing or specification; national stock number; manufacturing source; manufacturing source's Commercial and Government Entity (CAGE) code; and clear identification of the name and location of all supply chain intermediaries between the manufacturer to the contractor to Government acceptance.

(ii) Supply chain traceability documentation shall also include, when available, the manufacturer's batch identification for the item(s), such as date codes, lot codes, or serial numbers.

For part numbered items, contractors can find examples of acceptable supply chain traceability documentation at the Counterfeit Detection and Avoidance Program (CDAP) website

SECTION F
DELIVERIES OR PERFORMANCE

52.211-8 TIME OF DELIVERY (JUN 1997)
(IAW FAR 11.404(a)(2))

(a) The Government requires delivery to be made according to the following schedule:

DELIVERY FOR EACH ITEM IS ANNOTATED IN THE SCHEDULE (PART I SECTION B) UNDER EACH LINE ITEM.

The Government will evaluate equally, as regards time of delivery, offers that propose delivery of each quantity within the applicable delivery period specified above. Offers that propose delivery that will not clearly fall within the applicable required delivery period specified above, may be considered nonresponsive and rejected. The Government reserves the right to award under either the required delivery schedule or the proposed delivery schedule, when an offeror offers an earlier delivery schedule than required above. If the offeror proposes no other delivery schedule, the required delivery schedule above will apply.

ANNOTATE YOUR PROPOSED DELIVERY, IF ANY, UNDER THE GOVERNMENT'S DELIVERY SET FORTH UNDER EACH ITEM IN THE SCHEDULE.

(b) Attention is directed to the Contract Award provision of the solicitation that provides that a written award or acceptance of offer mailed, or otherwise furnished to the successful offeror, results in a binding contract. The Government will mail or otherwise furnish to the offeror an award or notice of award not later than the day award is dated. Therefore, the offeror should compute the time available for performance beginning with the actual date of award, rather than the date the written notice of award is received from the Contracting Officer through the ordinary mails. However, the Government will evaluate an offer that proposes delivery based on the Contractor's date of receipt of the contract or notice of award by adding (1) five calendar days for delivery of the award through the ordinary mails, or (2) one working day if the solicitation states that the contract or notice of award will be transmitted electronically. (The term "working day" excludes weekends and U.S. Federal holidays.) If, as so computed, the offered delivery date is later than the required delivery date, the offer will be considered nonresponsive and rejected.

(The above Clause/Provision has been modified.)

52.211-8 TIME OF DELIVERY -- ALTERNATE I (APR 1984)
(IAW FAR 11.404(a)(2))

If the delivery schedule is expressed in terms of specific calendar dates or specific periods and is based on an assumed date of award, the contracting officer may substitute the following paragraph (b) for paragraph (b) of the basic clause. The time may be expressed by substituting "on or before"; "during the months ..."; or "not sooner than ... or later than ..." as headings for the third column of paragraph (a) the basic clause.

(b) The delivery dates or specific periods above are based on the assumption that the Government will make award by 00
0000. Each delivery date in the delivery schedule above will be extended by the number of calendar days after the above date that the contract is in fact awarded. Attention is directed to the Contract Award provision of the solicitation that provides that a written award or acceptance of offer mailed or otherwise furnished to the successful offeror results in a binding contract. Therefore, the offeror should compute the time available for performance beginning with the actual date of award, rather than the date the written notice of award is received from the Contracting Officer through the ordinary mails.

(The above Clause/Provision has been modified.)

252.204-7024 NOTICE ON THE USE OF THE SUPPLIER PERFORMANCE RISK SYSTEM
(MAR 2023)
(IAW DFARS 204.7604)

(a) *Definitions.* As used in this provision—

Item risk means the probability that a product, based on intended use, will introduce performance risk resulting in safety issues, mission degradation, or monetary loss.

Price risk means a measure of whether a proposed price for a product or service is consistent with historical prices paid for that item or service.

Supplier risk means the probability that an award may subject the procurement to the risk of unsuccessful performance or to supply chain risk (see Defense Federal Acquisition Regulation Supplement 239.7301).

(b) The Supplier Performance Risk System (SPRS), available at <https://piee.eb.mil/>, will be used in the evaluation of the Quoter or Offeror's performance. SPRS retrieves item, price, quality, delivery, and contractor information on contracts from Government reporting systems in order to develop risk assessments.

(c) The Contracting Officer will consider SPRS risk assessments during the evaluation of quotations or offers received in response to this solicitation as follows:

- (1) Item risk will be considered to determine whether the procurement represents a high performance risk to the Government.
- (2) Price risk will be considered in determining if a proposed price is consistent with historical prices paid for a product or a service or otherwise creates a risk to the Government.
- (3) Supplier risk, including but not limited to quality and delivery, will be considered to assess the risk of unsuccessful performance and supply chain risk.

(d) SPRS risk assessments are generated daily. Quoters or Offerors are able to access their risk assessments by following the access instructions in the SPRS user's guide available at <https://www.sprs.csd.disa.mil/reference.htm>. Quoters and Offerors are granted access to SPRS for their own risk assessment classifications only. SPRS reporting procedures and risk assessment methodology are detailed in the SPRS user's guide. The method to challenge a rating generated by SPRS is also provided in the user's guide. SPRS evaluation criteria are available at https://www.sprs.csd.disa.mil/pdf/SPRS_DataEvaluationCriteria.pdf.

(e) The Contracting Officer may consider any other available and relevant information when evaluating a quotation or an offer.

**CONDITIONS FOR WAIVER OF REQUIREMENT FOR SUBMISSION OF
FIRST-ARTICLE**

(a) The contractor shall deliver one or more first-articles according to the applicable clause of this contract respecting the submission and approval of first-articles; provided, however, that the contractor may request a waiver of this requirement under any of the following conditions:

(i) The contractor was a prime contractor under a contract awarded by the **Air Force**, has manufactured and delivered production quantities of the same or substantially-similar item under that contract, has completed the latest deliver under that contract within **36** months of the date of the contractor's request for waiver under this contract, and neither the government nor the contractor have evidence of any patent or latent defects in the items so delivered.

(ii) The contractor was a subcontractor or vendor to a prime contractor performing a contract awarded by the **Air Force**, has manufactured and delivered to the prime contractor production quantities of the same or substantially-similar item has completed the latest delivery under that subcontract or order within **36** months of the date of the contractor's request for waiver under this contract, and neither the government nor the prime contractor nor the contractor seeking the waiver have evidence of any patent or latent defects in the items so delivered.

(iii) The contractor is performing a contract awarded by the **Air Force** for the same or substantially-similar item, has submitted one or more first-articles according to the terms of that contract, has received written notice of first-article approval from the individual or organization identified in that contract as authorized to approve first-articles, has not received final payment under that contract, and neither the government nor the contractor have evidence of any patent or latent defects in the items delivered under that contract.

(b) The burden of proof to demonstrate condition (a)(i), (a)(ii), or (a)(iii) is with the contractor. The contractor shall submit any request for waiver to the contracting officer. In consultation with the engineer, item manager, or any other knowledgeable person, the contracting officer shall determine, as applicable, whether the quantities alleged to have been delivered were "production quantities," whether they were the "same or substantially-similar" items specified in this contract, and whether the request otherwise satisfied the condition or conditions upon which the contractor relies. The contracting officer shall promptly notify the contractor of his or her decision.

(c) Unless and until the contractor receives notice that its request is approved the contractor shall comply with the applicable clause respecting submission and approval of first-articles. If the contractor fails to deliver any first-article report on time, or the contracting officer notifies the contractor that the government has disapproved the first article, the contractor shall be deemed to have failed to make delivery within the meaning of the Default clause of this contract. The Default clause provides that the government may, subject to certain conditions, terminate the contract in whole or in part and acquire supplies similar to those terminated, in which case the contractor shall be liable to the government for any excess costs of those supplies. As provided by FAR 9.207, the government may also determine that the contractor will no longer be identified as meeting the standards specified for qualification.

(d) The critical nature of the part requires a First Article from a contractor who has never produced the item or has not produced the item for an extended period of time. The Government reserves the right to assure all materials and process certifications are correct and to test the item to any or all drawings, specifications and other contract requirements. A vendor will normally be allowed only one attempt to receive full or conditional approval. Failure to receive approval of First Article inspection will, at the discretion of the Government, result in termination of the contract. The contractor shall produce a report on the subject item with all dimensions and tolerances specified on the manufacturing data listed in one column and the actual corresponding reading obtained from the inspection of the part listed in another column. Materials utilized in the manufacture of First Article items shall be identified and certified along with a copy of material purchase requests as conforming to

applicable data requirements. Material processing, including finish requirements-plating, casting, forging, heat treatment, welding, inspecting, anodize, painting, etcutilized in the manufacture of First Article items shall be identified and certified along with a copy of material purchase requests as conforming in applicable data requirements. A copy of the purchase order certifying the process accomplished at other than the contractor's facility shall be included. First Article waiver approvals as well as similar item determination are solely the responsibility of the Cognizant Engineering Organization. The Cognizant Engineering Organization shall determine First Article testing requirements based on component criticality and complexity, regardless of PR value.
