(Alternate I shall only be used for time and materials task orders)

52.212-4 CONTRACT TERMS AND CONDITIONS –COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES - ALTERNATE I (NOV 2021)

---Addendum to 52.212-4---

DIAR 1452.201-70 AUTHORITIES AND DELEGATIONS (SEP 2011)

(a) The Contracting Officer is the only individual authorized to enter into or terminate this contract, modify any term or condition of this contract, waive any requirement of this contract, or accept nonconforming work.

(b) The Contracting Officer will designate a Contracting Officer's Representative (COR) at time of award. The COR will be responsible for technical monitoring of the contractor's performance and deliveries. The COR will be appointed in writing, and a copy of the appointment will be furnished to the Contractor. Changes to this delegation will be made by written changes to the existing appointment or by issuance of a new appointment.

(c) The COR is not authorized to perform, formally or informally, any of the following actions:

- (1) Promise, award, agree to award, or execute any contract, contract modification, or notice of intent that changes or may change this contract;
- (2) Waive or agree to modification of the delivery schedule;
- (3) Make any final decision on any contract matter subject to the Disputes Clause;
- (4) Terminate, for any reason, the Contractor's right to proceed;
- (5) Obligate in any way, the payment of money by the Government.

(d) The Contractor shall comply with the written or oral direction of the Contracting Officer or authorized representative(s) acting within the scope and authority of the appointment memorandum. The Contractor need not proceed with direction that it considers to have been issued without proper authority. The Contractor shall notify the Contracting Officer in writing, with as much detail as possible, when the COR has taken an action or has issued direction (written or oral) that the Contractor considers to exceed the COR's appointment, within 3 days of the occurrence. Unless otherwise provided in this contract, the Contractor assumes all costs, risks, liabilities, and consequences of performing any work it is directed to perform that falls within any of the categories defined in paragraph (c) prior to receipt of the Contracting Officer's response issued under paragraph (e) of this clause.

(e) The Contracting Officer shall respond in writing within 30 days to any notice made under paragraph

(d) of this clause. A failure of the parties to agree upon the nature of a direction, or upon the contract action to be taken with respect thereto, shall be subject to the provisions of the Disputes clause of this contract.

(f) The Contractor shall provide copies of all correspondence to the Contracting Officer and the COR.

(g) Any action(s) taken by the Contractor, in response to any direction given by any person acting on behalf of the Government or any Government official other than the Contracting Officer or the COR acting within his or her appointment, shall be at the Contractor's risk.

(End of Clause)

52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

Federal Acquisition Regulation: <https://www.acquisition.gov/far>

Department of the Interior Acquisition Regulation: <https://www.acquisition.gov/diar>

(End of clause)

DOI-AAAP-0028 ELECTRONIC INVOICING AND PAYMENT REQUIREMENTS-INVOICE PROCESSING PLATFORM (IPP) (FEB 2021)

Payment requests must be submitted electronically through the U. S. Department of the Treasury's Invoice Processing Platform System (IPP).

'Payment request' means any request for contract financing payment or invoice payment by the Contractor. To constitute a proper invoice, the payment request must comply with the requirements identified in the applicable Prompt Payment clause included in the contract, or the clause 52.212-4 Contract Terms and Conditions - Commercial Items included in commercial item contracts. The IPP website address is:

<https://www.ipp.gov>.

Under this contract, the following documents are required to be submitted as an attachment to the IPP invoice:

The contractor must receive approval from the Contracting Officer's Representative on the Invoice before submission into IPP. The IPP Invoice attachment must contain the Contracting Officers Representative's signature on the invoice itself. The Contractor shall also submit an electronic copy of the signed IPP invoice to the following: Contracting Officer: lbaughbon@usbr.gov Contract Specialist: rdoaks@usbr.gov Procurement Technician: scolt@usbr.gov Failure to email the invoice may cause significant delay or possible rejection of your payment request.

The Contractor must use the IPP website to register access and use IPP for submitting requests for payment. The Contractor Government Business Point of Contact (as listed in SAM) will receive enrollment instructions via email from the Federal Reserve Bank of St. Louis (FRBSTL) within 3 - 5 business days of the contract award date. Contractor assistance with enrollment can be obtained by contacting the IPP Production Helpdesk via email IPPCustomerSupport@fiscal.treasury.gov or phone (866) 973-3131.

If the Contractor is unable to comply with the requirement to use IPP for submitting invoices for payment, the Contractor must submit a waiver request in writing to the Contracting Officer with its proposal or quotation.

(End of Local Clause)

DOI-AAAP-0050 CONTRACTOR PERFORMANCE ASSESSMENT REPORTING SYSTEM (DEC 2015)

- 1) FAR 42.1502 directs all Federal agencies to collect past performance information on contracts. The Department of the Interior (DOI) has implemented the Contractor Performance Assessment Reporting System (CPARS) to comply with this regulation. One or more past performance evaluations will be conducted in order to record your contract performance as required by FAR 42.15.
- 2) The past performance evaluation process is a totally paperless process using CPARS. CPARS is a web-based system that allows for electronic processing of the performance evaluation report. Once the report is processed, it is available in the Past Performance Information Retrieval System (PPIRS) for Government use in evaluating past performance as part of a source selection action.
- 3) We request that you furnish the Contracting Officer (CO) with the name, position title, phone number, and email address for each person designated to have access to your firm's past performance evaluation(s) for the contract no later than 30 days after award. Each person granted access will have the ability to provide comments in the Contractor portion of the report and state whether or not the Contractor agrees with the evaluation, before returning the report to the Assessing Official (AO). Information in the report must be protected as source selection sensitive information not releasable to the public.
- 4) When your Contractor Representative(s) are registered in CPARS, they will receive an automatically generated email with detailed login instructions. Further details, systems requirements, and training information for CPARS is available at <https://www.cpars.gov/>.
- 5) Within 60 days after the end of a performance period, the AO will complete an interim or final past performance evaluation, and the report will be accessible at <https://www.cpars.gov/>.
 - a) Contractor Representatives may then provide comments in response to the evaluation, or return the evaluation without comment.
 - b) Your comments should focus on objective facts in the AO's narrative and should provide your views on the causes and ramifications of the assessed performance.
 - c) All information provided should be reviewed for accuracy prior to submission.
 - d) If you elect not to provide comments, please acknowledge receipt of the evaluation by indicating "No comment" in the space provided, and then selecting "Accept the Ratings and Close the Evaluation".
 - e) Your response is due within 60 calendar days after receipt of the CPAR. On day 15, the evaluation will become available in PPIRS-RC marked as "Pending" with or without comments and whether or not it has been closed.
 - f) If you do not sign and submit the CPAR within 60 days, it will automatically be returned to the

Government and will be annotated: "The report was delivered/received by the contractor on (date). The contractor neither signed nor offered comment in response to this assessment."

6) The following guidelines apply concerning your use of the past performance evaluation:

a) Protect the evaluation as source selection information. After review, transmit the evaluation by completing and submitting the form through CPARS. If for some reason you are unable to view and/or submit the form through CPARS, contact the CO for instructions.

b) Strictly control access to the evaluation within your organization. Ensure the evaluation is never released to persons or entities outside of your control.

c) Prohibit the use of or reference to evaluation data for advertising, promotional material, pre-award surveys, responsibility determinations, production readiness reviews, or other similar purposes.

7) If you wish to discuss a past performance evaluation, you should request a meeting in writing to the CO no later than seven days following your receipt of the evaluation. The meeting will be held in person or via telephone or other means during your 60-day review period.

8) A copy of the completed past performance evaluation will be available in CPARS for your viewing and for Government use supporting source selection actions after it has been finalized.

52.217-2 CANCELLATION UNDER MULTI-YEAR CONTRACTS (OCT 1997)

52.242-15 STOP-WORK ORDER (AUG 1989)

52.216-18 ORDERING (AUG 2020)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from date of award through five (5) years..

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) A delivery order or task order is considered "issued" when—

(1) If sent by mail (includes transmittal by U.S. mail or private delivery service), the Government deposits the order in the mail;

(2) If sent by fax, the Government transmits the order to the Contractor's fax number; or

(3) If sent electronically, the Government either—

(i) Posts a copy of the delivery order or task order to a Government document access system, and notice is sent to the Contractor; or

(ii) Distributes the delivery order or task order via email to the Contractor's email address.

(d) Orders may be issued by methods other than those enumerated in this clause only if authorized in the

contract.

(End of clause)

52.216-19 ORDER LIMITATIONS (OCT 1995)

(a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than \$1,000.00, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) Maximum order. The Contractor is not obligated to honor-

(1) Any order for a single item in excess of \$1,000,000;

(2) Any order for a combination of items in excess of \$1,000,000; or

(3) A series of orders from the same ordering office within 10 days that together call for quantities exceeding the limitation in paragraph (b)(1) or (2) of this section.

(c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(d) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 3 days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

(End of clause)

52.216-22 INDEFINITE QUANTITY (OCT 1995)

(a) This is an indefinite-quantity contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies and services specified in the Schedule are estimates only and are not purchased by this contract.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. The Contractor shall furnish to the Government, when and if ordered, the supplies or services specified in the Schedule up to and including the quantity designated in the Schedule as the 'maximum.' The Government shall order at least the quantity of supplies or services designated in the Schedule as the 'minimum.'

(c) Except for any limitations on quantities in the Order Limitations clause or in the Schedule, there is no limit on the number of orders that may be issued. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after 365 days after the expiration of the contract..

(End of clause)

52.216-32 TASK-ORDER AND DELIVERY-ORDER OMBUDSMAN - ALTERNATE I (SEPT 2019)

(d) Contracts used by multiple agencies.

(2) The ordering activity has designated the following task-order and delivery-order Ombudsman for this order:

Kaprice Tucker

U.S. Department of the Interior Office of Acquisition and Property Management

1849 C Street NW Washington, DC 20240

Email: kaprice_tucker@ios.doi.gov

Phone: 202-208-3466

(3) Before consulting with the task-order and delivery-order Ombudsman for the ordering activity, the Contractor is encouraged to first address complaints with the ordering activity's Contracting Officer for resolution. When requested by the Contractor, the task-order and delivery-order Ombudsman for the ordering activity may keep the identity of the concerned party or entity confidential, unless prohibited by law or agency procedure.

WBR 1452.201-80 CONTRACTING OFFICER'S REPRESENTATIVE'S AUTHORITIES AND LIMITATIONS -- BUREAU OF RECLAMATION (MAY 2018)

a) Performance of the work under this contract shall be subject to the technical direction of the Reclamation Contracting Officer's Representative (COR). The term "technical direction" is defined to include, without limitation:

(1) Inspecting and accepting or rejecting work performed under the contract.

(2) Representing the Government in technical phases of the work. The COR is responsible for the technical administration of the contract and will provide instructions and interpretations to the Contractor on all technical matters relating to the contract. The COR will supervise or oversee all Government technical and administrative personnel assigned to assist the COR.

(3) Reviewing and, where required by the contract, approving submittals of technical data, shop drawings, samples, literature, plans, or other data required to be delivered by the Contractor to the Government.

(b) The Contractor will receive a copy of the written COR designation from the Contracting Officer. It will specify the extent of the COR's authority to act on behalf of the Contracting Officer.

(c) Technical direction must be within the scope of work stated in the contract. Only the Contracting Officer is authorized to determine if a change is within the scope of the contract; therefore, the COR does not have the authority to, and may not, issue any technical direction that -

(1) Constitutes a direction of additional work outside the Contract requirements;

(2) Constitutes a change as defined in the contract clause entitled "Changes;"

(3) In any manner causes an increase or decrease in the total contract cost, or the time required for contract performance;

(4) Changes any of the expressed terms, conditions or specifications of the contract; or

(5) Interferes with the Contractor's right to perform the terms and conditions of the contract.

(d) All technical direction shall be issued in writing by the COR.

(e) The Contractor must proceed promptly with the performance of technical direction duly issued by the COR in the manner prescribed by this clause and within its authority under the provisions of this clause. If, in the opinion of the Contractor, any instruction or direction by the COR falls within one of the categories defined in (c)(1) through (c)(5) of this clause, the Contractor must not proceed and must notify the Contracting Officer in writing within five (5) working days after receipt of any such instruction or direction and must request the Contracting Officer to modify the contract accordingly. Upon receiving the notification from the Contractor, the Contracting Officer must -

(1) Advise the Contractor in writing after receipt of the Contractor's letter that the technical direction is within the scope of the contract effort and does not constitute a change under the Changes clause of the contract; or

(2) Advise the Contractor that the Government will issue a written change order.

(f) A failure of the Contractor and Contracting Officer either to agree that the technical direction is within the scope of the contract or to agree upon the contract action to be taken with respect to the technical direction will be subject to the provisions of the clause entitled "Disputes."

(End of clause)

WBR 1452.209-82 PROHIBITION ON RELEASE OF INFORMATION -- BUREAU OF RECLAMATION (MAR 2022)

(a) The Contractor shall not disclose information pertaining to the services performed under this contract to anyone other than Government or other personnel authorized by the Contracting Officer. The Contractor agrees that it will protect any information obtained from other companies during the performance of this contract from unauthorized use or disclosure for as long as the information remains proprietary and shall refrain from using such information for any purpose other than that for which it was furnished.

(b) In the event that the Contractor intends to employ individuals other than its own staff or other firms in the performance of the contract, each individual or firm shall be required to furnish the same written certification.

(c) The contractor shall insert, in any subcontract that requires the performance of work similar to that being performed by the Contractor, terms that shall conform substantially to the language of this clause, including this paragraph (c).

(End of clause)

WBR 1452.237-80 SECURITY REQUIREMENTS -- BUREAU OF RECLAMATION (MAR 2022)

(a) General Security Requirements:

(1) This clause addresses security requirements, including general procedural requirements, information security requirements, contractor employee suitability requirements, identification card requirements, site security requirements, vessel exclusion barriers, and information technology security requirements. Within this clause, COR means Contracting Officer's Representative. If there is no COR appointed and identified to the Contractor, the term instead will mean the Program Manager or any other authorized individual responsible for technical oversight under the contract. "Work site" means the Government facility, office, construction site, and any other area within the Government office or facility that the Contractor must access to accomplish work under this contract.

(2) The work performed under this contract shall only be accomplished by individuals (in the employment of the Contractor or any subcontractors) whose conduct and behavior is consistent with the efficiency of the Federal Service and the requirements of this contract, and who are acceptable to the contracting officer. If Reclamation finds a Contractor employee to be unsuitable or unfit for his or her assigned duties, the contracting officer will direct the Contractor to remove the individual from the contract and access to the Federal facility at which the contract activities are occurring.

(3) The Contractor's employees governed by this contract may need access to sensitive information and/or sensitive areas. The Federal Government (Government) reserves the right, in its sole discretion, to determine suitability of Contractor personnel and deny access to any sensitive information or project specific area to any personnel for any cause.

(4) The Contractor is responsible for informing and ensuring compliance by its employees with any applicable security procedures of the Government facility where work may be performed under this contract.

(5) Any Contractor employee that will have access to a Federally-controlled facility or information system will be required to have a Government-issued identification card, consisting of a Personal Identity Verification (PIV) Card, a temporary identification card, or a visitor badge. (Note: within the Department of the Interior this card is known as a DOI Access Card.) During performance of the contract, the Contractor shall keep the COR apprised of any changes in personnel, or changes in personnel access or duration, to ensure that performance is not delayed by compliance with credentialing processes.

(6) A Contractor employee will not be provided access to a Government facility or information system until a Government PIV Card, temporary identification card, or visitor identification badge has been

issued to the Contractor employee. For those individuals that will be receiving a PIV Card, the Government may, at its discretion, issue a temporary identification card or visitor identification badge after the electronic background investigation forms have been received and the investigation is initiated.

(7) All Contractor employees shall access the facility via the facility's entry screening system and visibly display the Government-issued PIV Card, temporary identification card, or visitor identification badge at all times. Contractor employees must visibly wear the Government-issued identification card at all times they are on Government facilities. Contractor employees are responsible for the safekeeping of all Government-issued identification cards, whether on-site or off-site. Cards that have been lost, damaged, or stolen must be reported to the COR and DOI Access Sponsor immediately, but not later than within 24 hours. The Contractor shall return all identification cards and card keys and any other Government property and information upon completion of performance or when personnel depart permanently or for a period of 7 days or more. The Contractor may be required to turn in access control cards or identification cards on a daily basis.

(8) Misuse or loss of access control or identification cards, or failure to comply with required surrender of such cards may, at Government discretion, result in Contractor personnel being denied access to the work site, at no cost to Government. The Contractor may be charged up to \$500 for each occurrence for any required replacement of Government-issued access control or identification cards due to loss or misuse. At the end of contract performance, or when a Contractor employee is no longer working under this contract, the Contractor shall ensure that all access control and identification cards are returned to the COR.

(9) All Contractor personnel, including subcontractor personnel, with access to the work site shall be U.S. citizens or foreign individuals legally residing in, or legally admitted to, the U.S. For all non-U.S. citizens working under this contract, irrespective of length of time working on the contract, the Contractor shall provide to the COR, legible and valid copies of the individual's passport and visa (unless individual is on the Visa Waiver Program) a minimum of 14 calendar days prior to beginning work or arriving at the facility. A driver's license is not acceptable identification. In addition, a completed form I-94 shall be submitted to the COR upon the individual's arrival at the work facility and prior to beginning work.

(10) The Contractor shall report all contacts with entities, individuals, and counsel/representatives (including foreign entities and foreign nationals) who seek in any way to obtain unauthorized access to sensitive information or areas. The Contractor shall report any violations of contract provisions, laws, executive orders, regulations, and guidance to the contracting officer. The Contractor shall report any information raising a doubt as to whether an individual's eligibility for continued employment or access to sensitive information is consistent with the interests of National Security and the Public Trust.

(11) Unsanctioned, negligent, or willful inappropriate action on the part of the Contractor (or its employees) may result in termination of the contract or removal of some Contractor employees from Reclamation facilities at no cost to the Government. These actions include, but are not limited to, exploration of a sensitive system and/or information, introduction of unauthorized and/or malicious software, inappropriate release of sensitive information, or failure to follow prescribed access control policies and/or security procedures. Failure to comply with Reclamation policies, procedures, or other published security requirements may result in termination of the contract or removal of some contracted employees from Reclamation buildings and/or facilities at no cost to the Government.

(12) All provisions of this clause shall equally apply to all subcontractors. The Contractor shall incorporate the substance of this clause in all subcontracts.

(13) These security requirements apply to all sections of this Contract including Contract Drawings and other Contract Specifications as applicable. Related documents include other general provisions of Construction or Operations and Maintenance type Contracts, including FAR clauses by reference or as amended by related documents.

(b) Information Security Requirements.

(1) Sensitive Information. The term "sensitive information" means any information which warrants a degree of protection and administrative control as defined by Reclamation or that meets the criteria for exemption from public disclosure set forth under Sections 552 and 552a of Title 5, United States Code: the Freedom of Information Act and the Privacy Act. Sensitive information is generally categorized as CONTROLLED UNCLASSIFIED INFORMATION (CUI), but in some cases may include other unclassified information. (The protection of National Security information is beyond the scope of this clause. If any work on National Security information is required under this contract, it is addressed under other contract clauses.) The Contractor shall protect this type of information from unauthorized release into public domain, or to unauthorized persons, organizations, or subcontractors. Information which, either alone or in aggregate, is deemed sensitive by Reclamation shall be handled and protected in accordance with Reclamation Directives and Standards SLE 02-01 Identifying and Safeguarding Controlled Unclassified Information (CUI), which is available from the COR or at <http://www.usbr.gov/recman/DandS.html#sle>.

(i) Any Government-furnished information or material does not become the property of the Contractor and may be withdrawn at any time. Upon expiration or termination of the contract, all documents released to the Contractor and any material created using data from such documents shall be returned to the COR for final disposition. Government-furnished information residing on any electronic systems (laptops, servers, desktops, media) shall be deleted from those systems using a COR-approved data erasure solution. Only with prior authorization from the contracting officer may the Contractor retain the material. The Contractor or subcontractor shall not disclose or release the materials provided to the Contractor to any individuals of the Contractor's organization not directly engaged in providing services under the contract or that do not have a valid need-to-know. All technical data provided to the Contractor by the Government shall be protected from public or private disclosure in accordance with the markings printed on them. All other information relating to the items to be delivered or the services to be performed under this contract shall not be disclosed by any means without prior approval of the contracting officer. Prohibited dissemination or disclosure includes, but is not limited to: permitting access to such information by foreign nationals or by immigrant aliens who may be employed by the Contractor, publication of technical or scientific papers, advertising, disclosure to Contractor staff not investigated and deemed acceptable at the appropriate information sensitivity level, and any other public release. The Contractor shall maintain, and furnish upon request of the contracting officer, records of the names of individuals who have access to sensitive material in its custody and the sensitive material to which the individuals had access. All questions regarding information security, access, and control shall be referred to the COR.

(ii) The Contractor shall not release to anyone outside the Contractor's organization any sensitive, or otherwise protected information, regardless of medium in which it is contained (for example, film, tape, document, electronic), pertaining to any part of this contract or any Reclamation program or activity, unless the contracting officer has given prior written approval. This includes, but is not

limited to, news releases, marketing promotions, articles, interviews, reports, social media posts, and any other media releases. Requests for approval shall identify the specific information to be released, the medium to be used, the purpose for the release, and a description of the need-to-know. The Contractor shall submit its request to the contracting officer ten business days before the proposed date for release. Subcontractors shall submit requests for authorization to release through the prime Contractor to the contracting officer.

(iii) The Contractor shall notify the COR immediately when known or suspected loss/compromise of sensitive information or other documents, notes, drawings, sketches, reports, photographs, exposed film or similar information which may affect the security interests of Government has occurred. This requirement extends to employees and other personnel working on behalf of the Contractor, and expands responsibility to include prompt reporting of security issues, including observed or subsequently discovered efforts by unauthorized persons to gain unauthorized access to sensitive information.

(2) Classified Information.

(i) The disclosure of U.S. Government documents by third parties can result in damage to our national security. While this contract may not deal directly with classified information, each contractor is obligated to protect classified information pursuant to all applicable laws and to use Government information technology systems in accordance with agency procedures so that the integrity of such systems is not compromised.

(ii) Unauthorized disclosures of classified documents (whether in print, on a blog, or on websites, or other electronic or non-electronic media) do not alter the documents' classified status or automatically result in declassification of the documents. To the contrary, classified information, whether or not already posted on public websites or disclosed to the media, remains classified, and must be treated as such by Federal employees and contractors, until it is declassified by an appropriate U.S. Government authority. Executive Order 13526, Classified National Security Information (December 29, 2009), Section 1.1.(c) states, "Classified Information shall not be declassified automatically as a result of any unauthorized disclosure of identical or similar information." Although the Department has taken steps to prevent access to publicly disclosed classified materials from Departmental computers, it is important to understand our continuing duties and responsibilities in this regard.

(iii) Contractors (which include all employees of the contractor, as well as subcontractors and its employees performing work for the contractor) are reminded of the following obligations with respect to the treatment of classified information and the use of unclassified government information technology systems:

(iv) The contractor shall not, while using unclassified Government computers or other devices (such as phones or tablets) access documents that are marked classified (including classified documents made publicly available by a third party), as doing so risks that material still classified will be placed onto unclassified systems. This requirement does not restrict contractor access to unclassified, publicly available news reports (and other unclassified material) that may in turn discuss classified material, as distinguished from access to underlying documents that themselves are marked classified (including if the underlying classified documents are available on public web sites or otherwise in the public domain).

(v) For contracts that require access to classified information, the contractor is responsible for obtaining the required national security clearance through the Department of the Defense National Industrial Security Program Operating Manual (NISPOM). Any classified contracts will be coordinated through the Reclamation Chief Security Officer, or for IT requirements, the Bureau Chief Information Security Officer. No contractor shall access classified information unless proper clearances have been obtained and transmitted to Reclamation. For further information, refer to 443 DM 1 or DOD NISPOM 5220.22-M dated February 28, 2006 (incorporating change 2 dated May 18, 2016).

(vi) Classified information shall not be removed from official premises.

(vii) Classified information shall not be disclosed without proper authorization.

(c) Reserved

(d) Reserved

(e) Reserved

(f) Reserved

(End of clause)

52.219-14 LIMITATIONS ON SUBCONTRACTING (Oct. 2022)

(a) This clause does not apply to the unrestricted portion of a partial set-aside.

(b) *Definition.*

Similarly situated entity, as used in this clause, means a first-tier subcontractor, including an independent contractor, that—

- (1) Has the same small business program status as that which qualified the prime contractor for the award (*e.g.*, for a small business set-aside contract, any small business concern, without regard to its socioeconomic status); and
- (2) Is considered small for the size standard under the North American Industry Classification System (NAICS) code the prime contractor assigned to the subcontract.

(c) *Applicability.* This clause applies only to—

- (1) Contracts that have been set aside for any of the small business concerns identified in [19.000\(a\)\(3\)](#);
- (2) Part or parts of a multiple-award contract that have been set aside for any of the small business concerns identified in [19.000\(a\)\(3\)](#);
- (3) Contracts that have been awarded on a sole-source basis in accordance with subparts [19.8](#), [19.13](#), [19.14](#), and [19.15](#);
- (4) Orders expected to exceed the simplified acquisition threshold and that are—
 - (i) Set aside for small business concerns under multiple-award contracts, as described in [8.405-5](#) and [16.505\(b\)\(2\)\(i\)\(F\)](#); or
 - (ii) Issued directly to small business concerns under multiple-award contracts as described in [19.504\(c\)\(1\)\(ii\)](#);
- (5) Orders, regardless of dollar value, that are—

- (i) Set aside in accordance with subparts [19.8](#), [19.13](#), [19.14](#), or [19.15](#) under multiple-award contracts, as described in [8.405-5](#) and [16.505\(b\)\(2\)\(i\)\(F\)](#); or
 - (ii) Issued directly to concerns that qualify for the programs described in subparts [19.8](#), [19.13](#), [19.14](#), or [19.15](#) under multiple-award contracts, as described in [19.504\(c\)\(1\)\(ii\)](#); and
 - (6) Contracts using the HUBZone price evaluation preference to award to a HUBZone small business concern unless the concern waived the evaluation preference.
 - (d) *Independent contractors*. An independent contractor shall be considered a subcontractor.
 - (e) *Limitations on subcontracting*. By submission of an offer and execution of a contract, the Contractor agrees that in performance of a contract assigned a North American Industry Classification System (NAICS) code for—
 - (1) Services (except construction), it will not pay more than 50 percent of the amount paid by the Government for contract performance to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 50 percent subcontract amount that cannot be exceeded. When a contract includes both services and supplies, the 50 percent limitation shall apply only to the service portion of the contract;
 - (2) Supplies (other than procurement from a nonmanufacturer of such supplies), it will not pay more than 50 percent of the amount paid by the Government for contract performance, excluding the cost of materials, to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 50 percent subcontract amount that cannot be exceeded. When a contract includes both supplies and services, the 50 percent limitation shall apply only to the supply portion of the contract;
 - (3) General construction, it will not pay more than 85 percent of the amount paid by the Government for contract performance, excluding the cost of materials, to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 85 percent subcontract amount that cannot be exceeded; or
 - (4) Construction by special trade contractors, it will not pay more than 75 percent of the amount paid by the Government for contract performance, excluding the cost of materials, to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 75 percent subcontract amount that cannot be exceeded.
 - (f) The Contractor shall comply with the limitations on subcontracting as follows:
 - (1) For contracts, in accordance with paragraphs (c)(1), (2), (3) and (6) of this clause—
[Contracting Officer check as appropriate.]
 - ☐ By the end of the base term of the contract and then by the end of each subsequent option period; or
 - ☐ By the end of the performance period for each order issued under the contract.
 - (2) For orders, in accordance with paragraphs (c)(4) and (5) of this clause, by the end of the performance period for the order.
 - (g) A joint venture agrees that, in the performance of the contract, the applicable percentage specified in paragraph (e) of this clause will be performed by the aggregate of the joint venture participants.
 - (1) In a joint venture comprised of a small business protégé and its mentor approved by the Small Business Administration, the small business protégé shall perform at least 40 percent of the work performed by the joint venture. Work performed by the small business protégé in the joint venture must be more than administrative functions.
 - (2) In an 8(a) joint venture, the 8(a) participant(s) shall perform at least 40 percent of the work performed by the joint venture. Work performed by the 8(a) participants in the joint venture must be more than administrative functions.
- (End of clause)

52.204-7 System for Award Management – Registration (Nov 2024)

52.222-56 Certification Regarding Trafficking in Persons Compliance Plan (Oct 2025)

52.229-11 Tax on Certain Foreign Procurements—Notice and Representation (Jun 2020)

**SPECIFICATION REQUIREMENTS
PASSIVE INTEGRATED TRANSPONDERS (PIT)
TAGS, READERS, and IMPLANTERS**

1. SCOPE

1.1 OBJECTIVE – The objective of this contract is to acquire Passive Integrated Transponder (PIT) tags, PIT tag readers, and PIT tag implanters.

1.2 BACKGROUND –The Department of the Interior uses PIT tags and related equipment for many applications including tracking and recording the locations of animals, primarily fish, and other objects. These tags and associated equipment are required to meet the needs of various agencies to continue to conduct research and monitoring activities of animals using PIT tags. The contract(s) awarded under this solicitation will be accessible to any of the other DOI agencies that have the authority to make the purchase.

2. SPECIFICATIONS

2.1 PIT TAGS - The following salient characteristics for PIT tags are considered essential to the minimum needs of the Government. These characteristics will be used by the Government for evaluation purposes to determine if proposed products meet the minimum specifications. PIT tags shall also be compatible with readers and antenna systems manufactured and sold through Biomark Inc.

2.1.1 PHYSICAL MEASUREMENTS OF THE PIT TAGS

- a. ISO 11784 and 11785 compliant
- b. Full Duplex and Half Duplex tags will be included in the schedule upon award
- c. Glass encapsulated and bio-compatible
- d. Operate at frequency of 134.2 kHz ISO
- e. Operating temperature -25° -- +100° Celsius
- f. Implantable with syringe or similar method

Specific for 8mm FDX Tags

- a) Weight – 0.03 grams or less
- b) Length – Less than or equal to 8.4mm
- c) Width – Less than or equal to 1.4mm
- d) Coding – 13 digit with the first 3 numbers indicating manufacturer (no generic prefixes e.g. 900 decimal or 384 hexadecimal)

Specific for 9mm FDX Tags

- a) Weight – 0.07 grams or less
- b) Length – Less than or equal to 9mm
- c) Width – Less than or equal to 2.12mm
- d) Coding – 13 digit with the first 3 numbers indicating manufacturer (no generic prefixes e.g. 900 decimal or 384 hexadecimal)

Specific for 12mm FDX and HDX Tags

- a) Weight – 0.11 grams or less
- b) Length – Less than or equal to 12.5mm
- c) Width – Less than or equal to 2.05mm
- d) Coding – 13 digit with the first 3 numbers indicating manufacturer (no generic prefixes e.g. 900 decimal or 384 hexadecimal)

Specific for 23-30mm FDX and HDX Tags

- a) Weight – less than or equal to 0.7g
- b) Length – less than 30mm
- c) Width – less than 4mm
- d) Coding – 13 digit with the first 3 numbers indicating manufacturer (no generic prefixes e.g. 900 decimal or 384 hexadecimal)

2.1.2 OPERATING SPECIFICATIONS

Measured on Pacific States Marine Fisheries Commission automated PIT Tag Test System (APTTS).

Read Distance – All tags will have a reading efficiency of 100% under the conditions listed below. The tests will be conducted using a 4'x4' square antenna and Biomark Inc. IS1001 reader. PIT tags submitted for testing must meet the minimum specifications stated below, an increase in read distance beyond these minimum requirements will result in a higher ranking.

Minimum read distance (inches)	Ambient Noise Level ^a	Tag Orientation to the Antennae
8"	10%	0°
6"	10%	45°

^aNoise is generated by a signal generator within the antennae's field at a frequency slightly different than the tag frequency (e.g., 132.2 kHz).

Read Speed – All tags tested must demonstrate a 95% reading efficiency (i.e., 95% of tags tested must be readable at this speed) under the conditions described below. The antennae used for determining this specification is an antennae coil wrapped around a 12" inside diameter, PVC, schedule 40 pipe.

Minimum read speed (meters/second)	Ambient Noise Level ^a	Tag Orientation to the Antennae
12	10%	0°
12	10%	45°

^aNoise is generated by a signal generator within the antennae's field at a frequency slightly different than the tag frequency (e.g., 132.2 kHz).

Electrical Properties

- a) PIT tags with resonant frequency values of 131.7-137.7 kHz.
- b) PIT tags with turn on voltage values ≤ 700 mV.
- c) PIT tags with modulation values $> 80\%$.
- d) PIT tags with band width values < 7 kHz.

2.2 PIT TAG READERS – Several reader types are required, including “pocket type” readers, portable readers, readers that can be deployed to operate remotely for extended periods (e.g., 7 days or more), and multiple-antenna readers (commonly called multiplexers or master controllers) that can read from multiple antennas and operate in remote conditions using minimal power supplies. PIT tag readers should also be compatible with antenna systems and PIT tags manufactured and sold through Biomark Inc., Boise, Idaho that have been installed and used throughout the Colorado and Columbia River basins. The following salient characteristics are considered essential to the minimum needs of the Government:

- a. Must read 134.2 kHz PIT tags
- b. It is highly desirable (but not essential) that some portable and pocket readers also read 400.0 kHz tags

140R4026R0003 Passive Integrated Transponders (PIT) Tags and Related Equipment IDIQ

- c. Must read both half and full duplex tags
- d. Must be ISO compliant
- e. Readers shall be rechargeable or capable of operating using an alternative power source for 4 hours
- f. Readers shall be updateable to accommodate software upgrades
- g. Readers shall be operational at temperatures of -20°--55° Celsius
- h. Multiplexers or master controllers shall be operational at temperatures up to 70° C and tested at higher temperatures
- i. Multiplexers and master controllers shall have capability to store at least 5000 tag numbers without an external data logger
- j. Multiplexers and master controllers shall be capable of powering and monitoring at least 4 antennae
- k. Contractor shall provide technical support from the manufacturer
- l. All portable models shall be Bluetooth compatible for wireless linkage to data loggers
- m. Handheld readers shall have a waterproof rating of at least IP67

2.3 PIT TAG IMPLANTERS OR GUNS – The PIT tag implanters and injectors shall be compatible with the pit tags described above. Several types of PIT tag implanters are required including multiple and single use injectors. Implanters and injectors shall be capable of quickly inserting the PIT tag into the fish and withdrawn, leaving a small incision that quickly heals. Implanters also shall be compatible with preloaded PIT tags.

2.4 PRELOADED PIT TAG NEEDLES, SINGLE USE, STERILE – The preloaded tags shall meet all specifications as outlined above under the PIT Tag Requirements. Individual PIT tag needles (for use in appropriate tag guns described below) are pre-loaded with **sterile** PIT tags of specifications listed above. These are intended to increase tagging speed and efficiency during tagging operations in the field and in the hatchery.

2.5 PRELOADED PIT TAG NEEDLES, SINGLE USE, NONSTERILE – The preloaded tags shall meet all specifications as outlined above under the PIT Tag Specifications. Individual PIT tag needles (for use in appropriate tag guns described below) are pre-loaded with **non-sterile** PIT tags of specifications listed above. These are intended to increase tagging speed and efficiency during tagging operations in the field and in the hatchery.

2.6 PRELOADED PIT TAG NEEDLES, IN TAGGING TRAYS OR DISPENSERS, STERILE OR NONSTERILE – These preloaded tags shall meet all specifications as outlined above under the PIT Tag Requirement. Individual PIT tag needles (for use in appropriate tag guns, injectors, or implanters) are pre-loaded with sterile or nonsterile PIT tags of specifications listed above. Pre-loaded needles shall be available in trays, strips or dispensers containing at least 50 tags. These are intended to increase tagging speed and efficiency during large-scale tagging projects of several thousands of animals.

2.7 PIT TAG IMPLANTER NEEDLES – Replacement PIT tag implanter needles are required to replace worn, broken, or lost needles on the implanters. Several types of needles are required including single use and multiple use.

2.8 SOFTWARE – Software is required to operate the PIT tag scanners, download data from scanners, and to archive information on PIT tags in a database. Software must be:

- a. Compatible with readers and data
- b. Incorporate a minimum of information for each tag including tag number, date, time, species, length, weight, location of capture, and user-specified notes
- c. Must be compatible with Windows 10 or later
- d. Software that can download and process data from single and multiple antenna systems. Compatibility with Android devices (tablets, phones, etc.) is also highly desirable.
- d. Must produce open format files that are compatible with Windows Excel and Access, including but not limited to

.csv and/or .txt format

- e. All software updates shall be included with the software price
- f. Readable from remote locations using both cell and satellite modems

2.9 PIT TAG ANTENNAS – Various styles, shapes (round and square), and types of antennas are required including (but not limited to) table-top antennas, racquet antennas, portable antennas with handles, submersible and fully autonomous antennas, floating antennas, and fixed pass through and flat plate antennas of all sizes (e.g., 5', 10', 15' 20', etc.). Antennas shall meet the requirements listed in 2.9.1 below. All antennas should be compatible with Biomark Inc., Boise, Idaho products, which are installed and used throughout the Colorado and Columbia River basins.

2.9.1 SALIENT CHARACTERISTICS FOR ANTENNAS

Construction – Antennas can be constructed of various materials including plastic, ABS, fiberglass, or PVC. All antennas provided for field installation shall at a minimum meet MIL-STD-810G METHOD 512.5 for immersion and waterproofness.

Read Distance – All antennas offered should be capable of detecting a 12mm long, 134.2 kHz PIT tag at 0° orientation at a minimum of 18 inches with 10% noise in the antenna field. Preferred capability is for antennas that can read 24" or greater. Offeror should provide read distance information for each antenna offered, but submission of example antennas will not be required for proposal evaluation.

2.10 MISCELLANEOUS EQUIPMENT – Various types and quantities of miscellaneous equipment related to PIT tags, antennas, readers, and remote-detection systems are also required. This may include, but not limited to, communication cables, modems, cases, storage boxes for detection systems, replacement batteries commonly used for readers and detectors, solar power systems and supplies that are compatible with remote antenna systems and detectors, charging kits, antenna-attachment kits, thermoelectric generators that are compatible with remote antennas and detectors, antenna installation kits and other supplies and equipment that are required for installation, operation and maintenance of PIT tag antenna systems.

2.11 DELIVERY – The vendor shall be able to ship to within the Continental United States. The required delivery dates/period of performance shall be established in each applicable task order/delivery order. Orders may be placed from a variety of Interior Agencies.

3.1 SENIOR ENGINEER—This position is required to assist with consulting on the design and construction of PIT tag antenna systems and resolving highly-complex issues regarding engineering structures and electronics problems. An example of this type of labor required would be to consult on the installation of a remote PIT tag antenna system in an area of high turbulence and shear stress (in water flows or at a dam site). This staff member will have experience commensurate with 3+ years of experience with designing, constructing, installing, troubleshooting, and maintaining PIT Tag antennas and associated detection systems (i.e., master controllers, data loggers, modems, antenna nodes, etc.).

3.2 ELECTRONIC TECHNICIAN—This position is required to assist with troubleshooting and repairing PIT tag antenna systems and electronic issues related to master controllers and other electronics equipment. An example of this type of labor required would be to assist in the installation, repair, or replacement of a piece of equipment that is covered under the contract. Another example would be to consult on the installation of antenna systems in high-noise environments such as those at dam sites or with variable frequency drive motors that can cause interference with PIT tag equipment. This staff member will have experience commensurate with 1+ years of experience with installing, troubleshooting, maintaining and repairing PIT Tag antennas and associated detection systems (i.e., master controllers, data loggers, modems, antenna nodes, etc.).

3.3 ANTENNA INSTALLATION SPECIALIST—This position is required to assist in the installation and

maintenance of remote PIT Tag antenna systems. An example of this type of labor required would be to assist government personnel during the installation of equipment that is listed under the contract, such as large remote antenna systems. This staff member will have experience commensurate with 1+ years of experience working on fisheries projects.

3.4 TRAVEL – Travel may be required to accommodate the services listed in paragraph 3.12 above. The locations and dates of the travel will be defined in the task order/delivery order. All travel will be in accordance with, and shall not exceed the allowed amounts in, the Federal Travel Regulations (<https://www.gsa.gov/portal/content/104877>).

4.0 ON/OFF RAMP

4.1 ON RAMP - After contract award and throughout the life of the IDIQ, the Contractor may request in writing to the CO to add additional PIT tags, PIT tag readers, PIT tag implanters, PIT tag antenna systems, miscellaneous PIT-tag related equipment, and software to their contract. The items requested to be added must be of equal or greater performance capability as the items originally awarded and must meet the minimum specifications listed above. It is at the Government's discretion as to whether additional items will be added to the contract. Each request will be evaluated by the IDIQ CO, who will make the final determination and if approved, the items will be added to the contract through a bilateral modification.

4.2 OFF RAMP – If a contractor under this IDIQ does not receive an awarded delivery/task order within a two-year timeframe, the contractor will be off ramped from the IDIQ contract and will not receive additional orders.

Provisions

52.212-1 INSTRUCTIONS TO OFFERORS—COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (SEP 2023)

---Addendum to 52.212-1---

52.204-7 SYSTEM FOR AWARD MANAGEMENT (AUG 2024)

---End of Addendum to 52.212-1---

52.212-2 Evaluation—Commercial Products and Commercial Services (Nov 2021)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

TECHNICAL CAPABILITY 1. Compliance with minimum Technical Specifications. Proposals must demonstrate that all offered PIT tags, readers, antennas, and associated equipment meet or exceed the specified technical requirements, including ISO compliance, read distance, and operating temperature ranges. See the referenced attachment below for pit tag testing protocols. The testing will be at a place of contractors choosing after proposals due date. The testing will be scheduled to allow government personnel be present to verify test results.

See attachment titled -Attachment 3 -Pit Tag Testing Protocol 2026.04.16

All additional items being proposed on, including PIT Tag Antennas, Software, and/or items the offeror submitted in addition to those listed on Attachment 1 – Pricing Schedule B, will be evaluated based on the documentation provided to determine if items meet the minimum requirements listed in the Specifications.

- Services Experience - Information provided will be evaluated to assess the offeror's experience level on recent contracts for similar work. The greater the extent to which the offeror can demonstrate successful completion of projects similar in scope, complexity and magnitude as the example provided in the instructions to offerors, the more favorably the proposal will be rated.

PAST PERFORMANCE

1. Evaluation will be based upon how well past projects of similar complexity and duration were performed. The Government reserves the right to obtain information for use in the evaluation of past performance from any and all sources including sources outside of the Government. Offerors lacking relevant past performance history will receive a neutral rating for past performance. However, the proposal of an offeror with no relevant past performance history, while rated neutral in past performance, may not represent the most advantageous proposal to the Government and thus, may be an unsuccessful proposal when compared to the proposals of other offerors. The offeror must provide the information

140R4026R0003 Passive Integrated Transponders (PIT) Tags and Related Equipment IDIQ requested above for past performance evaluation.

2. The Government may also use past performance information obtained from other than the sources identified by the offeror. Information obtained from the Past Performance from SAM.gov is one of the sources that may be utilized.

PRICE

1. Award will be made to the responsible offeror(s) submitting a proposal which conforms to the solicitation and is most advantageous to the Government considering the factors listed in this provision.
2. Pursuant to FAR 15.305, a cost or price evaluation will be performed to determine the reasonableness of costs or prices proposed and the offeror's understanding of, and ability to perform, the prospective contract.
3. Pursuant to FAR 15.404-1(g), the prices proposed will also be evaluated to determine if the prices are unbalanced.
4. The Government will multiply the unit prices for all calendar years found in Attachment 1 – Pricing Schedule B by the Government estimated quantity to determine the total evaluated price per CLIN.

Technical Capability and Past Performance are equally important. In the evaluation of proposals, technical and past performance, when combined, are considered to be significantly more important than cost or price.

FIRST DELIVERY ORDER: The pricing information submitted for Attachment 2 – First Delivery Order Pricing Schedule B will not be evaluated to determine which offerors receive award for the IDIQ. Rather, the information contained in Attachment 2 will be evaluated after the decision is made of who will be the IDIQ awardee(s) and will be used in evaluating which awardee(s) receives an award for the first Delivery Order. A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(a) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(b) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

SMALL BUSINESS PARTICIPATION EVALUATION FACTOR

All offerors (both other than small businesses and small businesses) will be evaluated on the extent of proposed participation/commitment to use U.S. small businesses in the performance of this acquisition (as small business prime offerors or small business subcontractors) relative to the objectives and requirements

established herein. Small business offerors self-certified in SAM.gov will receive the maximum credit for this evaluation factor and do not need to submit any documentation supporting this evaluation factor. For all other offerors the Government will evaluate the following in no order of importance:

1. The extent of identification and participation of small and socio-economic business subcontractors in terms of the value of the total acquisition (total contract value).
2. The extent to which offerors met or exceed DOI subcontracting goals for small and socio-economically disadvantaged businesses. Offerors that propose small or socio-economic subcontractors that met or exceed DOI's prior year subcontracting performance will be evaluated favorably.

Small or Socio-Economic Business Type	DOI Goal	Most Recent Prior Year Subcontract Performance
Small Business	45.87	5
Socio-Economically Disadvantaged Small business (SDB)	5%	5
Women Owned Small Business (WOSB)	5%	5
Service Disabled Veteran Owned Small Business (SDVOSB)	3%	5
Historically Underutilized Business District Small Business (HUBZone)	3%	3
Indian Small Business Economic Enterprises (ISBEE)	N/A	3

3. The extent to which offerors demonstrate substantive commitment to small business firms, such as, letters of commitment, Joint Ventures, mentor/protégé agreements, or other demonstrations of commitment (i.e., binding commitments will become enforceable/contractual requirements)
4. Identification of the type and variety of the work small firms are to perform (i.e., binding commitments will become enforceable/contractual requirements)
5. The extent to which the offeror provides detailed explanations/documentation supporting the proposed quantitative participation
6. The extent to which the offeror complied with requirements of FAR 52.219-8, Utilization of Small Business Concerns

The Government will evaluate the proposal to determine which offeror proposes the best value in terms of Small Business Participation. Offers submitted by a small business prime offeror will also be evaluated and will receive the maximum score for this evaluation criteria.

(End of evaluation factor)
