

ANL-528 (April 24, 2024)

APPENDIX A

Argonne Terms and Conditions

(For Labor Hour and Time and Materials Contracts)

The clauses below that reference Federal Acquisition Regulation (FAR) and Department of Energy Acquisition Regulation (DEAR) citations are based on such clauses with modifications to identify appropriate parties and are not quoted verbatim from such regulations. The clause dates provided are for the most recent versions of the clause current as of the contract issuance date or as reflected in UChicago Argonne, LLC's prime contract with the United States Department of Energy available at <http://www.anl.gov/contract>. Full text of all FAR/DEAR clauses are available at: <https://www.acquisition.gov>. To the extent a FAR/DEAR clause is inapplicable, it is deemed null, void, and deleted for the purposes of this purchase.

Definitions: As used herein, "Argonne National Laboratory," "Argonne," "ANL" and "Laboratory" are used interchangeably to mean Argonne National Laboratory, operated by UChicago Argonne, LLC, acting under Prime Contract No. DE-A02-06CH11357 between UChicago Argonne, LLC and the Government for the operation of Argonne National Laboratory. "Government" means the United States of America and includes the United States Department of Energy ("DOE") or any duly authorized representative thereof. "Laboratory Procurement Official" means the person identified in the body of the agreement as the authorized contact for the contractor. The Micro-Purchase Threshold is currently \$10,000 and the Simplified Acquisition Threshold (SAT) is currently \$250,000.

1. APPLICABLE LAW (OCT 1999)

To the extent that Federal law does not exist and State law could become applicable to this contract, the law of Illinois shall apply.

2. ASSIGNMENT (OCT 1999)

Neither this contract nor any interest therein nor claim there under shall be assigned or transferred by the contractor except as expressly authorized in writing by the Laboratory; provided, that the contractor or its assignee's rights to be paid amounts due as a result of performance of this contract may be assigned to a bank, trust company or other financing institution, including any Federal lending institution. The Laboratory may assign this contract to a successor operator of the Laboratory.

3. CONDUCT OF EMPLOYEES (SEP 2023)

The contractor acknowledges the Laboratory's Code of Conduct and shall be responsible for maintaining satisfactory standards of employee competency, conduct, and integrity. The contractor shall be responsible for taking such disciplinary action with respect to its employees as may be necessary. The contractor shall immediately remove from the work any employee of the contractor who, in the sole discretion of the Laboratory, fails to meet the expectations found in the Laboratory's Code of Conduct or in contractor's own substantially similar code of conduct with respect to technical performance or personal conduct. The Laboratory's Code of Conduct may be found at <https://www.anl.gov/argonne-code-of-business-ethics-and-conduct>.

4. CONFLICTS IN DOCUMENTATION (APR 2023)

Any discrepancy, inconsistency, or conflict in the Article entitled "Applicable Documentation" which can be reasonably ascertained by the Contractor shall be immediately submitted to the Laboratory for its written decision. Any work undertaken by the contractor without such decision shall be at the Contractor's own risk.

Any inconsistency in the contract shall be resolved by giving precedence in the following order:

- a) Contract document
- b) The Terms and Conditions including FAR and DEAR clauses incorporated by reference
- c) Other documents, exhibits, attachments, enclosures listed in the contract as incorporated documents
- d) Technical documents such as Specifications, Statement of Work, Drawing, Sketches

5. CONSIDERATION AND ALLOWABLE COSTS (JAN 2024)

In full and complete monetary consideration for the performance of work under this contract, the Laboratory shall pay the contractor for the following items of allowable costs:

- a) Labor. For time worked in the performance of this contract by contractor personnel (excluding travel time) at the appropriate loaded hourly rates specified for the pertinent labor classifications. The appropriate loaded hourly rates shall apply during the term(s) specified. Said loaded rates shall include wages, overhead, general and administrative expense and profit (as appropriate); provided, however, that the loaded hourly rates shall not be varied by virtue of the contractor having performed work on an overtime basis. Said loaded hourly rates shall not be subject to adjustment for the specific periods stated. Additional labor classifications and their applicable hourly rates may be added by written agreement of the parties (whether or not by formal modification of this contract).
- b) Materials, Supplies, Computer Time. The actual direct cost to the contractor for materials, supplies, and computer time necessary for the performance of the work under this contract; provided, however, that the contractor shall, to the extent of his ability, procure materials at the most advantageous prices available with due regard to securing prompt delivery of satisfactory materials, and take all cash and trade discounts, rebates, allowances, credits, salvage, commissions, and other benefits. When unable to take advantage of such benefits, it shall promptly notify the Laboratory to that effect, and give the reason therefore. Credit shall be given to the Laboratory for cash and trade discounts, rebates, allowances, credits, salvage, the value of resulting scrap when the amount of such scrap is appreciable, commissions, and other amounts which have been accrued to the benefit of the contractor, or would have so accrued except for the fault or neglect of the contractor. Such benefits lost through no fault or neglect on the part of the contractor, or lost through fault of the Laboratory, shall not be deducted from gross costs.
- c) Travel. In connection with furnishing the services under this contract it may be necessary for contractor personnel to make authorized trips from time to time on official business. It is noted that travel time is not compensable (see Paragraph (a) Labor above) and travel expenses are reimbursable in accordance with the following rules:
 - 1) Travel required by contractor personnel for performance of services at a location away from the contractor's base must be approved by the appropriate Laboratory Division Director or his/her designee. In no case should such travel be accomplished unless it has been approved by the Laboratory.
In addition, any foreign travel charged directly shall be subject to the prior approval of the Laboratory and the DOE, regardless of whether funds for such travel are contained in an approved budget. Foreign travel is defined as any travel outside of the United States and its territories and possessions, Puerto Rico and Northern Mariana. Requests for approval, if required, shall be submitted in accordance with DOE procedures prior to the planned departure date, be on a Request for Approval of Foreign Travel form (DOE F 551.1), and when applicable, include a notification and other requirements respecting proposed sensitive foreign nations travel.
Transportation of personnel or property outside the United States, the District of Columbia, the Commonwealth of Puerto Rico and possessions of the United States should be on a U. S.-flag air carrier to the extent that service by these carriers is available. In situations where it is not, a "Statement of Unavailability of U. S.-Flag Air Carriers" shall be included on vouchers indicating that a U. S.-flag air carrier was not available or the specific reasons should be given as to why it was necessary to use foreign flag air carrier service.
 - 2) As full reimbursement for transportation, lodging, meals, and incidental expenses incurred by contractor personnel in connection with the performance of services away from the contractor's base and travel authorized in accordance with paragraph 1., above, the contractor shall be reimbursed its allowable travel costs. Allowable travel costs will be determined in accordance with Federal Acquisition Regulation (FAR) 31.205-46 Travel Costs in effect as of the date of this agreement, however, the foregoing notwithstanding each expenditure of \$25.00 or more must be supported by a receipt. Contractors will only be reimbursed for a travel expenditure over \$25.00 that is supported by a receipt.
- d) Subcontracts and Consultants. The actual direct cost to the contractor of such subcontractor or consultant services as are expressly approved in writing by the authorized Laboratory Procurement Official.
- e) In connection with any discount offered for early payment, time shall be computed from the date the invoice is received at the Laboratory. For the purpose of computing the discount earned, payment shall be considered to have been made on the date which appears on the payment check or the date on which an electronic funds transfer was made.
- f) Submission of Transportation Documents. Upon the Laboratory's request, the contractor shall submit to ap@anl.gov, transportation documents on which the United States will assume freight charges that were paid by the Contractor and added to the invoice for contractor supplied goods and/or services, or by a first-tier subcontractor and added to the invoice for contractor supplied goods and/or services. Freight charges must reflect actual costs incurred.

6. DATA BREACH (APR 2023)

Contractor agrees that it will adopt and implement its own commercially reasonable policies, procedures and systems to provide security as to the Laboratory data or information to be received, stored, transmitted or accessed under this Agreement ("Data") in a secure manner to prevent loss, theft or unauthorized access to the Data ("Data Breach"). Upon becoming aware of a Data Breach, Contractor shall: (1) notify the Laboratory as promptly as reasonably practicable (and, in any event, within 10 business days); (2) provide timely information relating to the Data Breach as it becomes known or as is reasonably requested by the Laboratory; (3) promptly take reasonable steps to contain and investigate any Data Breach; and (4) work with the Laboratory to agree who will issue notification of the Data Breach to relevant third parties if the Data Breach is relevant to both the Contractor and the Laboratory.

Contractor shall indemnify and hold the Laboratory the University of Chicago, and the United States Government, and their directors, officers, trustees, agents, servants, and employees harmless with respect to any and all losses, costs, damages and/or expenses incurred in connection with any such Data Breach or unauthorized disclosure or loss, including, without limitation, costs of notice provided by the Laboratory to affected persons.

7. ENVIRONMENTAL PROTECTION (MAY 2001)

In performing this contract, the Contractor shall comply with the requirements set forth in all applicable Federal and non-Federal environmental protection laws, codes, ordinances, Executive Orders, regulations, and directives.

8. INCONSISTENCY BETWEEN ENGLISH VERSION AND TRANSLATION OF AGREEMENT (FEB 2000)

In the event of inconsistency between any terms of this agreement and any translation into another language, the English language meaning shall control.

9. INFORMATION TECHNOLOGY ACQUISITIONS (MAR 2009)

Prior to use under this Contract, all information technology shall be compliant with the appropriate information technology security policies and requirements, including use of common security configurations available from the National Institute of Standards and Technology's website at <http://checklists.nist.gov> commensurate with the mission of the contract and conducive to the research and development efforts of the Contractor. This requirement shall be included in all subcontracts, as appropriate, which are for information technology acquisitions.

10. INTEGRATION CLAUSE (MAY 2001)

This contract represents the full understanding of the parties and is the entire agreement between the parties. All negotiations between the parties have been merged into the contract, and there are no understandings or agreements other than those incorporated into this contract.

11. LABORATORY SITE ACCESS, SAFETY AND HEALTH (APR 2024)

In addition to any and all other environmental, health, and safety requirements contained in this contract, if the contractor is performing work at a Laboratory site, as a precondition to performing such work contractor must complete all Laboratory Site Access documents and requirements. Contractor shall take all reasonable precautions in activities carried out under this contract to protect the safety and health of others and to protect the environment. Contractor must comply with all applicable safety, health, access to information, security and environmental regulations and the requirements of the Government and Laboratory, including the specific requirements of the Laboratory. In the event that the contractor fails to comply with said regulations and requirements, Laboratory may, without prejudice to any other legal or contractual rights, issue an order stopping all or any part of contractor's activities at the Laboratory site.

A REAL ID will be required to gain access to the Laboratory for individuals 18 years of age or older. The Laboratory's site entry requirements and a link to information on REAL ID are available at <https://www.anl.gov/site-entry-requirements>. Failure to provide valid site access credentials or valid, REAL ID-compliant photo identification will result in denial of access to the site. The Laboratory is not responsible or liable for, and contractor shall not attempt to invoice for, any delays or costs resulting from or arising out of site entry denial due to contractor's failure to comply with this provision.

Contractor is responsible for contacting the Argonne Info Line at (630) 252-4636 during inclement weather prior to arrival on-site in the event of site closure.

12. LABORATORY SITE ACCESS AND/OR PARTICIPATION IN ACTIVITIES BY NON-U.S. NATIONALS (DEC 2004)

Site Access

Site access, including cyber access utilizing a Laboratory account, by all non-U.S. citizens must be reviewed and approved by the Laboratory Director or his designee. All new requests must be submitted on Form ANL-593. Non-U.S. citizens are either visitors (on site for 30 days or less) or assignees (on site for more than 30 days in a 12-month period). A certified host must be assigned for each visit or assignment. Form ANL-593 should be submitted as far in advance as possible (a minimum of 30 days for a sensitive assignment, 7 days for a non-sensitive country assignment or visit or sensitive visit.)

For assignments (more than 30 days) involving a foreign national from a "Sensitive Country", and/or access to a security area of the Laboratory or access to a sensitive subject, at least 30 days advance notice should be provided to ensure that Security, Counterintelligence, and Export Control reviews can be accomplished, and a DOE indices check can be completed prior to approval. In such cases, a specific security plan is required to be submitted to the Foreign Visits and Assignments Office with the ANL-593 form requesting the visit by the Hosting Division. An indices check normally takes 30 days after completion of all required pre-clearance documents, but can take considerably longer (once obtained, an indices check is valid for two years).

For visits or assignments involving a foreign national from a "Terrorist Supporting Country", (which currently include: Cuba, Iran, Libya, North Korea, Sudan, Syria), specific approval of the visit/assignment by the Secretary of Energy or his designees is required. This approval, if granted, may take up to one year after the internal approvals have been processed.

The time frames indicated above shall not constitute the basis for any equitable adjustment or claim to the contract price or performance/delivery period.

For assistance in preparing a request, contact the Argonne Technical Investigator associated with your activity.

Activity Participation

Due to Department of Energy directives and Department of Commerce regulations, persons who are born in (and who are not naturalized U.S. Citizens) or are citizens of any "Terrorist Supporting Country" may be denied access and/or participation in activities with Argonne National Laboratory. The requirement is to be flowed-down to all subcontractors at any tier.

13. LIMITATION OF LIABILITY (OCT 2018)

Except as otherwise provided by an express warranty, the Contractor will not be liable to the Laboratory for consequential damages resulting from any defect or deficiencies in accepted items.

14. LIMITATIONS PERIOD (MAY 2001)

Any action brought by the contractor for breach of contract, request for equitable adjustment, or any other claim arising under the contract must be identified in writing to the Laboratory Procurement Official. Such written notification must be received by the Laboratory Procurement Official within two (2) years (unless an earlier period is stated elsewhere in the contract) after the completion of work under the contract or after the contractor knew or should have known that a cause of action has arisen, whichever occurs first, otherwise the contractor shall be barred from pursuing such action.

15. MAINTENANCE, SERVICE, REPAIR, OR DISPOSAL OF REFRIGERATION EQUIPMENT AND AIR CONDITIONERS (AUG 2021) Based upon FAR Clause 52.223-12 (JUN 2016)

(a) Definitions. As used in this clause—

"Global warming potential" means how much a given mass of a chemical contributes to global warming over a given time period compared to the same mass of carbon dioxide. Carbon dioxide's global warming potential is defined as 1.0.

"High global warming potential hydrofluorocarbons" means any hydrofluorocarbons in a particular end use for which EPA's Significant New Alternatives Policy (SNAP) program has identified other acceptable alternatives that have lower global warming potential. The SNAP list of alternatives is found at 40 CFR Part 82 subpart G with supplemental tables of alternatives available at (<http://www.epa.gov/snap/>).

"Hydrofluorocarbons" means compounds that only contain hydrogen, fluorine, and carbon.

- (b) The Contractor shall comply with the applicable requirements of Sections 608 and 609 of the Clean Air Act (42 U.S.C. 7671g and 7 671h) as each or both apply to this contract.
- (c) Unless otherwise specified in the contract, the Contractor shall reduce the use, release, or emissions of high global warming potential hydrofluorocarbons under this contract by—
 - (1) Transitioning over time to the use of another acceptable alternative in lieu of high global warming potential hydrofluorocarbons in a particular end use for which EPA's SNAP program has identified other acceptable alternatives that have lower global warming potential;
 - (2) Preventing and repairing refrigerant leaks through service and maintenance during contract performance;
 - (3) Implementing recovery, recycling, and responsible disposal programs that avoid release or emissions during equipment service and as the equipment reaches the end of its useful life; and
 - (4) Using reclaimed hydrofluorocarbons, where feasible.
- (d) For equipment and appliances that normally each contain 50 or more pounds of hydrofluorocarbons or refrigerant blends containing hydrofluorocarbons, that will be maintained, serviced, repaired, or disposed under this contract, the Contractor shall—
 - (1) Track on an annual basis, between October 1 and September 30, the amount in pounds of hydrofluorocarbons or refrigerant blends containing hydrofluorocarbons added or taken out of equipment or appliances under this contract by—
 - (i) Type of hydrofluorocarbon (e.g., HFC-134 a, HFC-125, R-410 A, R-404 A, etc.);
 - (ii) Contract number;
 - (iii) Equipment/appliance; and
 - (2) Report that information to Mark Pfeiffer, email address: mpfeiffer@anl.gov —
 - (i) No later than September 30 of each year during contract performance; and
 - (ii) At the end of contract performance.
- (e) The Contractor shall refer to EPA's SNAP program to identify alternatives. The SNAP list of alternatives is found at 40 CFR part 82 subpart G with supplemental tables available at <http://www.epa.gov/snap/>.
- (f) The Contractor shall only use EPA certified technicians to perform work on refrigerant-containing appliances as outlined in 40 CFR Part 82 – Protection of Stratospheric Ozone.
- (g) The Contractor shall only use EPA certified recovery equipment on refrigerant-containing appliances as outlined in 40 CFR Part 82 – Protection of Stratospheric Ozone.
- (h) The Contractor shall perform maintenance and repair of refrigerant-containing appliances according to industry best practices and in conformance with 40 CFR Part 82 – Protection of Stratospheric Ozone.
- (i) The Contractor shall promptly notify the Laboratory of any refrigerant leak from a refrigerant-containing appliance upon discovery.
- (j) The Contractor shall properly dispose of refrigerant-containing appliances as outlined in 40 CFR Part 82 – Protection of Stratospheric Ozone.
- (k) The Contractor shall maintain and provide to the Laboratory the required records from maintenance, repair, and disposal of refrigerant-containing appliances as outlined in 40 CFR Part 82 – Protection of Stratospheric Ozone.

16. NON-WAIVER OF DEFAULTS (OCT 1999)

Any failure by the Laboratory at any time, or from time to time, to enforce or require the strict keeping and performance of any of the terms or conditions of this contract shall not constitute a waiver of such terms or conditions and shall not affect or impair such terms or conditions in any way, nor the right of the Laboratory at any time to avail itself of such remedies as it may have for any breach or breaches of such terms or conditions.

17. OZONE-DEPLETING SUBSTANCES AND HIGH GLOBAL WARMING POTENTIAL HYDROFLUOROCARBONS (AUG 2021) Based upon FAR clause 52.223-11 (JUN 2016) *Time and Material Only*

- (a) Definitions. As used in this clause—

"Global warming potential" means how much a given mass of a chemical contributes to global warming over a given time period compared to the same mass of carbon dioxide. Carbon dioxide's global warming potential is defined as 1.0.

"High global warming potential hydrofluorocarbons" means any hydrofluorocarbons in a particular end use for which EPA's Significant New Alternatives Policy (SNAP) program has identified other acceptable alternatives that have lower global warming potential. The SNAP list of alternatives is found at 40 CFR Part 82 subpart G with supplemental tables of alternatives available at (<http://www.epa.gov/snap/>).

"Hydrofluorocarbons" means compounds that only contain hydrogen, fluorine, and carbon.

"Ozone-depleting substance," means any substance the Environmental Protection Agency designates in 40 CFR part 8 as—

 - (1) Class I, including, but not limited to, chlorofluorocarbons, halons, carbon tetrachloride, and methyl chloroform; or
 - (2) Class II, including, but not limited to, hydrochlorofluorocarbons.
- (b) The Contractor shall label products that contain or are manufactured with ozone-depleting substances in the manner and to the extent required by 42 U.S.C. 7671j(b), (c), (d), and (e) and 40 CFR part 82, subpart E, as follows:
Warning

Contains (or manufactured with, if applicable) * _____, a substance(s) which harm(s) public health and environment by destroying ozone in the upper atmosphere.

*The Contractor shall insert the name of the substance(s).

- (c) Reporting. For equipment and appliances that normally each contain 50 or more pounds of hydrofluorocarbons or refrigerant blends containing hydrofluorocarbons, the Contractor shall—
 - (1) Track on an annual basis, between October 1 and September 30, the amount in pounds of hydrofluorocarbons or refrigerant blends containing hydrofluorocarbons contained in the equipment and appliances delivered to the Government under this contract by—
 - (i) Type of hydrofluorocarbon (e.g., HFC-134 a, HFC- 125, R-410 A, R-404 A, etc.);
 - (ii) Contract number; and
 - (iii) Equipment/appliance;
 - (2) Report that information to Mark Pfeiffer, email address: mpfeiffer@anl.gov
 - (i) Annually by September 30 of each year during contract performance; and
 - (ii) At the end of contract performance.
- (d) The Contractor shall refer to EPA's SNAP program (available at <http://www.epa.gov/snap>) to identify alternatives. The SNAP list of alternatives is found at 40 CFR part 82 subpart G with supplemental tables available at <http://www.epa.gov/snap>.
- (e) The Contractor shall conform to EPA's SNAP program requirements (available at <http://www.epa.gov/snap>) for new appliances. New appliances must contain an acceptable alternative for the use and type of appliance as determined by EPA. No new appliance will contain an Ozone Depleting Substance except as narrowly allowed by EPA.

18. PERMITS OR LICENSES (OCT 1999)

Except as otherwise directed by the Laboratory, the contractor shall procure all necessary permits or licenses and abide by all applicable laws, regulations, and ordinances of the United States and of the state, territory, and political subdivision in which the work under this contract is performed.

19. PROPERTY (NOV 2023)

- (a) Property shall mean all tangible personal property as identified in Argonne Form PD-150, Control of Government Property – Contractor Requirements, in the section entitled, "IDENTIFICATION" that has been purchased by the Contractor in the performance of the contract for which cost the Contractor is entitled to be reimbursed as a direct item of cost under this contract or for which the Contractor has included the cost for such property in the fixed price charged to the Laboratory.
- (b) All INVOICES submitted under contracts which contain Argonne Form PD-150, Control of Government Property – Contractor Requirements, shall be accompanied by the completed form entitled, Argonne National Laboratory Subcontract Property Management Government Property Acquisition Record, ANL-661.

THE LABORATORY WILL NOT ISSUE PAYMENT UNLESS A COMPLETED FORM ANL-661 IS INCLUDED WITH ALL INVOICES (REGARDLESS IF PROPERTY IS BEING INVOICED ON A PARTICULAR INVOICE OR NOT.)

20. PUBLIC RELEASE OF INFORMATION (JUL 2023)

The Argonne National Laboratory (Laboratory) does not endorse products or services. Accordingly, the Supplier agrees not to use the Laboratory's name or the University of Chicago or UChicago Argonne on any of its projects or programs, or identifying characteristics of any of these for advertising, marketing, or other promotional purposes, raising of capital, recommending investments, sale of securities, or in any way that implies endorsement by the Laboratory, University of Chicago, or DOE. Any media releases concerning this Agreement are prohibited without written consent by the Procurement Specialist.

21. REPORTS AND FORMS (MAY 2023)

The contractor shall furnish intermediate reports to the Laboratory from time to time when requested, in such form and number as may be required by the Laboratory, summarizing activities of the contractor under this contract and shall make such final reports as may be required by the Laboratory. All reports delivered to the Laboratory under this contract shall contain a signature page which will identify the persons preparing the report and the persons approving the report. Any information or other forms, such as closeout documents, required to be submitted to the Laboratory shall be in a form prescribed by the Laboratory.

22. RESPONSIBILITY FOR TECHNOLOGY EXPORT CONTROL (SEPT 2021)

The parties understand that materials and information resulting from the performance of this Subcontract may be subject to export control laws and that each party is responsible for its own compliance with such laws in accordance with DEAR 970.5225-1 COMPLIANCE WITH EXPORT CONTROL LAWS AND REGULATIONS, incorporated herein by reference.

23. STATE AND LOCAL TAXES (APR 1984)

Notwithstanding the terms of the Federal, State, and Local Taxes clause, the contract price excludes all State and local taxes levied on or measured by the contract or sales price of the services or completed supplies furnished under this contract. The Contractor shall state separately on its invoices taxes excluded from the contract price, and the Laboratory agrees either to pay the amount of the taxes to the Contractor or provide evidence necessary to sustain an exemption.

24. SURVIVAL (APR 2023)

The indemnity obligations in this Agreement, together with any other obligations which by their nature or essential purpose should survive termination or expiration of the Agreement shall survive termination or expiration of the Agreement.

25. SUSPECT COUNTERFEIT PARTS (DEC 2007)

Notwithstanding any other provisions of this contract, the contractor warrants that all items provided to the Laboratory shall be genuine, new and unused unless otherwise specified in writing by the Laboratory. Contractor further warrants that all items used by the contractor during the performance of work at the Argonne National Laboratory include all genuine, original, and new components, or are otherwise suitable for the intended purpose. Furthermore, the contractor shall indemnify the Laboratory, its agents, and third parties for any financial loss, injury, or property damage resulting directly or indirectly from material, components, or parts that are not genuine, original, and unused, or not otherwise suitable for the intended purpose. This includes, but is not limited to, materials that are defective, suspect, or counterfeit; materials that have been provided under false pretenses; and materials or items that are materially altered, damaged, deteriorated, degraded, or result in product failure. Types of material, parts, and components known to have been misrepresented include (but are not limited to) fasteners; hoisting, rigging, and lifting equipment; cranes; hoists; valves; pipe and fittings; electrical equipment and devices; plate, bar, shapes, channel members, and other heat-treated materials and structural items; welding rod and electrodes; and computer memory modules. The contractor's warranty also extends to labels and/or trademarks or logos affixed, or designed to be affixed, to items supplied or delivered to the Laboratory. In addition, because falsification of information or documentation may constitute criminal conduct, the Laboratory may reject and retain such information or items, at no cost, and identify, segregate, and report such information or activities to cognizant Department of Energy officials.

26. TECHNICAL STANDARDS PROGRAM (OCT 2023)

This article applies if any Contractor personnel participate in development, review or selection activities related to DOE Technical Standards.

- (1) In the performance of this contract, the Contractor, when participating in the development of Department of Energy (DOE) Technical Standards, conducting technical standards review activities, and selecting technical standards for use to support assigned DOE missions and functions, must:
- (2) Select, use, and adhere to appropriate voluntary consensus standards (VCSs), except where use of VCSs is inconsistent with law or impractical. (Note: VCSs are defined as standards developed or adopted by voluntary consensus standards bodies, both domestic and international.)
- (3) Participate as appropriate in development and review of those DOE Technical Standards where the Contractor has technical or programmatic interests, or will be affected by the content of DOE Technical Standards under development, or as directed by the Laboratory Procurement Official.
- (4) Designate and provide support for a coordinator for technical standards activities, including identification of the appropriate Subject Matter Experts to review draft DOE Technical Standards.
- (5) Flow down this requirement to subcontractor(s) at any tier to the extent necessary to ensure the Contractor's compliance with these requirements.

27. TIME IS OF THE ESSENCE (MAR 2023)

Time is of the essence for contractor's performance.

28. VEHICLE LIABILITY INSURANCE COVERAGE AND DRIVING PRIVILEGES (MAY 2020)

In the event a Government or Laboratory vehicle (including Laboratory-rented vehicle) will be utilized by the Contractor during the course of work under this contract, Contractor agrees to obtain and maintain appropriate levels of automobile liability coverage for property damage and bodily injury and such

insurance shall be primary. Contractor employees using such vehicles regularly may be required to submit information on those drivers and their use of such vehicles may be subject to maintaining a satisfactory driving record.

29. WARRANTY OF SUPPLIES (OCT 2015)

The contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

U. S. Department of Energy

Worker Protection for DOE Contractor Employees

Policy:

U.S. Department of Energy (DOE) contractor employees shall be provided with safe and healthful working conditions in accordance with the standards prescribed pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, and the Department of Energy Health Act of 1970, Public Law 91-596. Please refer to DOE O 440.1A for details.

DOE Contractors:

DOE has determined that _____

is subject to DOE Acquisition Regulation (DEAR), Subpart 970.23, and is, therefore, required to comply with applicable DOE-prescribed Occupational Safety and Health Administration (OSHA) standards listed therein. This Order and the standards are available for employee review at _____.

As delineated in DOE Order 440.1A, Attachment 2, Contractor Requirements Document, the DOE contractor is required to:

1. Implement a written worker protection program that provides a place of employment free from recognized hazards that are causing or are likely to cause death or serious physical harm to employees.
2. Establish written policy, goals, and objectives for the worker protection program.
3. Use qualified worker protection staff to direct and manage the worker protection program.
4. Assign worker protection responsibilities, evaluate personnel performance, and hold personnel accountable for worker protection performance.
5. Encourage employee involvement in the development of program goals, objectives and performance measures and in the identification and control of hazards in the workplace.
6. Inform workers of their rights and responsibilities by appropriate means, including posting this poster in the workplace where it is accessible to all workers.
7. Identify existing and potential workplace hazards and evaluate the risk of associated worker injury or illness.
8. Implement a hazard prevention/abatement process to ensure that all identified hazards are managed through final abatement or control. For existing hazards identified in the workplace, abatement actions prioritized according to risk to the worker shall be promptly implemented pending final abatement and workers shall be protected immediately from imminent danger conditions.
9. Provide workers, supervisors, managers, visitors and worker protection professionals with worker protection training.

10. Ensure that subcontractors performing work on DOE-owned or -leased facilities comply with these requirements and the contractor's own site worker protection standards (where applicable).

Contractors are also required to comply with the Federal regulations and national standards listed in section 1.2 of Attachment 2 to DOE O 440.1A. In addition DOE O 440.1A contains requirements for the following specific functional areas, if the contractor is involved in these activities: construction safety, fire protection, firearms safety, explosives safety, industrial hygiene, occupational medical, pressure safety, motor vehicle safety, and suspect and counterfeit item controls. Please refer to DOE O 440.1A for details.

Employees:

DOE contractor employees have the right to:

1. accompany DOE worker protection personnel during workplace inspections;
2. participate in the activities provided for in DOE O 440.1A, Attachment 2, on official time;
3. express concerns related to worker protection;
4. decline to perform an assigned task because of a reasonable belief that, under the circumstances, the task poses an imminent risk of death or serious bodily harm to that individual, coupled with a reasonable belief that there is insufficient time to seek effective redress through the normal hazard reporting and abatement procedures established in accordance with the requirements herein;
5. have access to DOE worker protection publications, DOE-prescribed standards, and the organization's own worker protection standards or procedures applicable to the workplace;
6. observe monitoring or measuring of hazardous agents and have access to the results of exposure monitoring;
7. be notified when monitoring results indicate they were overexposed to hazardous materials; and
8. receive results of inspections and accident investigations upon request.

Inspections:

All activities under this contract are subject to inspection by DOE. When an inspection under DOE O 440.1A is conducted, a contractor management representative and a representative authorized by the employees will be given an opportunity to accompany the DOE inspector.

Where there is no representative authorized by the employees, the DOE inspector will consult with a reasonable number of employees concerning safety and health conditions in the workplace.

Concerns:

Employees or former employees may file a concern with the contractor management or with the local DOE office, as

described in DOE O 442.1A. Concerns may be submitted either verbally or by calling the local DOE office employee concerns hotline, telephone _____, or in writing. An example report form is available adjacent to each hotline poster, or one may be obtained from the Employee Concerns Manager at the local DOE office.

Imminent Danger:

DOE Contractors are required to implement procedures to allow workers, through their supervisors, to stop work when they discover employee exposures to imminent danger conditions or other serious hazards. The procedure shall ensure that any stop work authority is exercised in a justifiable and responsible manner.

Nondiscrimination:

No contractor shall discharge or in any manner discriminate against any employee by virtue of the filing of a complaint, or in any other fashion, exercising on behalf of himself or herself or others any action set forth in DOE O 440.1A or DOE O 442.1A.

It is the policy of DOE that employees of contractors at DOE facilities should be able to provide information to DOE, to Congress, or to their contractors concerning violations of law, danger to health and safety, or matters involving mismanagement, gross waste of funds, or abuse of authority, to participate in proceedings conducted before Congress or pursuant to this part, and to refuse to engage in illegal or dangerous activities without fear of employer reprisal. Contractor employees who believe that they have been subject to such reprisal may submit their complaints to DOE for review and appropriate administrative remedy as provided in 10 CFR Part 708.

Inquiries:

Inquiries should be addressed to the contractor; however, additional inquiries may be addressed to the local DOE office:

(DOE Office)

(P.O. Box or Street Address)

(City, State and Zip Code)

Posting Requirements:

Copies of this notice must be posted in a sufficient number of places in Government-owned plants and facilities operated by DOE contractors subject to DOE Acquisition Regulation (DEAR), Subpart 970.23 and DOE O 440.1A, to permit employees working in or frequenting any portion of the plant to observe a copy on the way to or from their workplace.
