J&A-26-0117

This justification is in accordance with Federal Acquisition Regulation (FAR) [16.507-7 \(Class Deviation 26-04](#), REV 1.¹).

1. Agency and Contracting Activity.

The Department of Homeland Security (DHS), U.S. Immigration and Customs Enforcement (ICE), Office of Acquisition Management (OAQ) proposes to award an IDIQ delivery order on behalf of the Office of Chief Information Officer (OCIO), Operations (OPS) Division/Enterprise Services Branch (ESB) resulting from a solicitation containing a brand-name specification.

2. Nature and/or description of the action being approved.

(a) Name of the ICE, DHS, or Multiple-Agency Multiple Award Contract that the delivery/task order or modification is being placed under. Include the Reference PIID: New Delivery Order via NASA SEWP V

(b) If applicable, identify the functional category, size category, or other sub-section of awardees which will be provided a fair opportunity to be considered:

(c) Contract Type: Firm Fixed Price

(d) Identify whether **new** action or **modification** to an existing action: New

(e) Dollar amount for this justification: \$ [REDACTED]

(f) Title of the required brand-name manufacturer and product: Entuity Licensing support via Park Place Technologies.
Park Place Technologies (Entuity)
5910 Landbrook Drive
Cleveland, OH 44121

(g) Type of Funding: Annual Base funding Operations

¹ FAR Class Deviation 26-04 REV 1 is implemented as a result of Revolutionary FAR Overhaul, referred to as RFO, following Executive Order 14275, *Restoring Common Sense to Federal Procurement*. All citations in this document follow applicable DHS RFO Deviations therefore are referred to as RFO.

RFO FAR 16.507-7**

- (h) Year of Funding: Fiscal Year 2026
- (i) Solicitation Number: [REDACTED]
- (j) Background information about the requirement: ICE requires ongoing maintenance and licensing for its Entuity suite, which is essential for managing the agency's network infrastructure across the enterprise. The Entuity application enables ICE to monitor, configure, and analyze endpoints throughout its network, ensuring operational reliability and security. Continued support for this application is necessary to maintain effective oversight and performance of ICE's network systems.

3. Description of Supplies/Services.

- (a) This requirement is to provide one (1) year Monitoring software plus Operations and Maintenance (O&M) Support for the ICE network environment. This support delivers real-time visibility into ICE's network infrastructure, enabling proactive monitoring, automated alerts, performance analytics, and fault detection. The renewal includes access to software updates, technical support, and maintenance services, ensuring that ICE's Entuity deployment remains current, secure, and fully operational. These services help ICE maintain the availability, reliability, and performance of critical IT systems—including immigration and law enforcement databases, surveillance systems, and enforcement platforms—by rapidly identifying and resolving network issues before they impact operations. The contract also ensures compliance with cybersecurity standards and supports operational mandates for secure and stable network environments.
- (b) The period of performance will consist of 12 months
- (c) Include a table similar to the following for all actions:

Period	Time	Price	Total
Base	12 mos.	[REDACTED]	[REDACTED]

Exception:

The specific exception for providing for brand-name awards under multiple award contracts is Federal Acquisition Regulation (FAR) Subpart 16.505(a)(4). An item

**ITEMS PARTICULAR TO ONE MANUFACTURER (BRAND-NAME)
WHEN PLACED UNDER AN INDEFINITE DELIVERY INDEFINITE QUANTITY (IDIQ) CONTRACT
RFO FAR 16.507-7**

peculiar to one manufacturer can be a particular brand-name, product, or a feature of a product peculiar to one manufacturer. A brand-name item, even if available on more than one contract, is an item peculiar to one manufacturer.

Rationale:

Market Research was conducted during February 2026 where we obtained a quote from vendors who could provide Entuity renewal license and product support services for our ICE owned perpetual licenses that are currently established on the ICE network. There are multiple NASA SEWP vendors that are authorized resellers and can provide the Brand Name Entuity Licensing O&M support.

There are no competing products for this requirement as this is for the yearly Software maintenance renewal for Entuity perpetual ICE owned licenses that were purchased in 2022. When this application was initially stood up in 2022, we evaluated several different applications (CA/Broadcom, OPSView and NetScout) and Entuity was determined to be best suited for our network. Entuity was the only one that could provide the automate operation and Application Path Analysis features.

- Automate Operation - reduces after-hour costs by automating remediation tasks such as restarting an application service or process, cleaning up temp space and provisioning additional capacity.
- Application Path Analysis- identifies network path convergences by reviewing real-time network performances issues such as bottlenecks, configuration changes, and total loss of network connectivity, and reduces the Mean Time to Repair (MTTR); and allowance of Virtual End-User Experience which monitors end-user experience using synthetic transaction data to establish baselines and to measure expected performance. Entuity will not be refreshed until it reaches End-of-Life (EOL) and at that time all other competitors will be considered.

4. Determination by the contracting officer that the anticipated cost to the Government will be fair and reasonable.

The contracting officer determined that the anticipated price(s) will be fair and reasonable based on adequate price competition. Multiple NASA SEWP V vendors provide these brand name products. The Government has a reasonable expectation that at least two quotes will be received.

**5. Any other facts supporting the justification.

- 6. A statement of the actions, if any, the agency may take to remove or overcome any barriers that led to the exception to fair opportunity before any subsequent acquisition for supplies or services is made.**

It is not likely that ICE's infrastructure will change before this contract ends. However, to increase competition, OAQ will seek and solicit as many authorized resellers as possible of Entuity software.

- 7. If the total dollar value of this action exceeds \$40,000, OAQ intends to:**
- ☐ Post the justification and supporting documentation on the agency website used to solicit offers for orders under the contract in accordance with RFO FAR 16.507-7 (c)(1)(i);
- ☒ Provide the justification and supporting documentation along with the solicitation to all (IDIQ) contract awardees under the [name the IDIQ functional category or tract being used] in accordance with RFO FAR 16.507-7(c)(1)(ii).

- 8. Technical/Requirements Personnel Certification.**

I certify that this requirement meets the Government's minimum need and that the supporting data, which form a basis for the Brand-Name Justification, are accurate and complete.

- 9. Contracting Officer's Certification and Approval.**

I hereby certify that the Brand-Name Justification is accurate and complete to the best of my knowledge and belief.
