

JUSTIFICATION FOR SOLE SOURCE
(Simplified Procedures - MPT to SAT)

Purchase Request/Document number: [REDACTED]

The supplies or services described herein are being solicited on a sole source basis and competition is precluded in accordance with FAR 13.106-1(b)(1) for reasons indicated below. There are no substitutes available for the supplies or services.

Restricted to the following source.

☒ **Service:**

Contractor:	Comcast Cable Communications, LLC
Cage Code:	3D5A8

☐ **Supply:**

Original Manufacturer Name:	
☐ Check here if obtaining product through authorized resellers of the manufacturer.	

Description of the supplies or services required, the estimated price/cost, and required delivery date or period of performance.

This requirement is for the renewal of existing Comcast Fiber Internet, phone, and cable services for Cryptologic Warfare Group Six (CWG-6) and the Fleet and Family Services Center (FFSC) located in Building 306, Suites 175 and 350, at the National Business Park (NBP), Fort Meade, MD.

Estimated Annual Price: [REDACTED]

Period of Performance: The contract will include a 12-month base period, four (4) 12-month options, and an option of six-month extension of services that may be exercised at the discretion of the Government.

Describe in detail why only this source(s) can furnish the requirements to the exclusion of other sources.

Comcast is the only provider that can meet the Government's requirement at this location. This is an existing service, and continuity is required to prevent mission failure for critical operations. The requirement is to continue services with the only available provider that has the necessary infrastructure in place at National Business Park Building 306.

☒ *The supplies or services must be compatible in all aspects (form, fit and function) with existing systems presently installed/performing. Describe the equipment/function you have now and how the new item/service must coordinate, connect, or interface with the existing system.*

Description: The existing infrastructure for internet, phone, and cable services within Building 306, Suites 175 and 350, is proprietary to Comcast. To avoid a complete and costly overhaul of the on-site infrastructure and prevent a significant disruption to mission-critical operations for CWG-6 and FFSC, the services must be procured from the incumbent provider, Comcast. Any other provider would lack the existing, in-place

infrastructure required to deliver service without substantial delay and additional cost to the Government.

Other information to support a sole source action:

- The ITPR form [REDACTED] justifies this as an "urgent necessity to prevent operational stoppage and cure an ongoing fiscal violation," which further highlights the need to continue with the established provider to ensure mission continuity. Discontinuing service with Comcast would result in a complete stoppage of operations.

TECHNICAL/REQUIREMENTS CERTIFICATION:

I CERTIFY THAT THE INFORMATION PROVIDED ABOVE IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE. I UNDERSTAND THAT THE PROCESSING OF THIS SOLE SOURCE JUSTIFICATION PRECLUDES THE USE OF FULL AND OPEN COMPETITION.
