Justification and Approval for Other than Full and Open Competition

1. Contracting Activity: US Army Engineer District, Corps of Engineers, PO Box 59, Louisville, KY 40201-0059

2. Description of Action: This justification and approval (J&A) is being prepared for the use of a brand name item, Monaco BT-XM radio alarm transceiver, in the firm fixed price new construction contract for the construction of a new Army Reserve Center at Marine Corps Logistics Base (MCLB) in Albany, GA (MILCON). The Government will not purchase the Monaco BT-XM radio alarm transceiver directly, but rather brand name specifications will be included in the solicitation.

3. Description of the Supplies/Service: The receiver selected for use on the MCLB Albany, GA Army Reserve Center construction project are produced by Monaco.

The estimated overall value of this J&A is approximately [REDACTED] The estimated value of the overall contract is [REDACTED] which includes the cost of the receiver covered in this J&A. The J&A action is approximately 0.03% of the total estimated contract cost.

4. Authority Cited: The statutory authority permitting acquisition of the requirement by other than full and open competition is 10 United States Code (U.S.C.) 3204(a)(1), as implemented by Federal Acquisition Regulation (FAR) 6.302-1(a)(2) "Only One Responsible Source and No Other Supplies or Services Will Satisfy Agency Requirements." This authority is applicable to brand name justifications in accordance with FAR 6.302-1(c)(1).

5. Reason for Authority Cited:

a) Background: The new 200-member Army Reserve Center will be located at MCLB in Albany, GA. Primary facilities include land acquisition and construction of an Army Reserve Center, a Vehicle Maintenance Shop, and an Unheated Storage Building. Supporting facilities include site development, utilities and connections, military equipment parking, non-organizational parking, a bi-level equipment loading ramp, and landscaping.

b) Justification: The fire alarm and mass notification systems will report to the emergency services department at MCLB and shall have full capability in communications with the existing base receiving station at MCLB. MCLB uses Monaco Enterprises, Inc (D-21 system). Consequently, the project will require a Monaco BT-XM radio alarm transceiver in each building to connect with the base wide Monaco D-21 system. No other system meets the technical specifications to be able to integrate into the current MCLB system.

c) Impact: Monaco is used exclusively in buildings throughout MCLB Albany. It is the only brand used throughout the installation. If the Monaco transceiver is not used, the fire alarm will not connect to the base wide system.

d) Alternatives: None viable to achieve a fully functioning system for the reasons noted above in paragraph 5. b) and c).

6. Efforts to Obtain Competition: None. Technical capabilities of various manufacturers were reviewed for compatibility with the current MCLB base wide system. None of the various manufacturers' equipment would ensure compatibility with the existing system, which currently uses Monaco Enterprises, Inc. equipment.

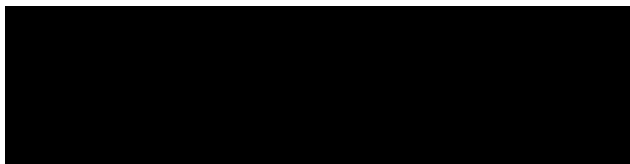

7. Actions to Increase Competition: None, for the reasons cited above.

8. Market Research: Market research was not performed. After a technical review, only the Monaco BT-XM radio alarm transceiver will ensure seamless compatibility with the existing base wide system.

9. Interested Sources: A Notice of Intent (NOI) was posted to the Government-wide Point of Entry (GPE), SAM.gov on 29 April 2025 with a due date of 14 May 2025. If any responses are received this JA will be updated.

10. Other Facts: N/A

11. Technical Certification: I certify that the supporting data under my cognizance, which are included in this justification, are accurate and complete to the best of my knowledge and belief.

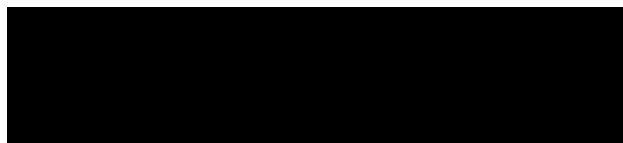

Project Manager

12. Requirements Certification: I hereby determine that the supporting data under my cognizance, which are included in this justification, are accurate and complete to the best of my knowledge and belief.

Project Engineer

13. Fair and Reasonable Cost Determination/Contracting Officer Certification: I hereby determine that the anticipated cost of the Monaco BT-XM radio alarm transceiver for the construction of a new Army Reserve Center at Marine Corps Logistics Base (MCLB) in Albany, GA will be fair and reasonable based upon the estimate outlined in paragraph 3. At the time of evaluating the proposal price, the overall proposed price will be evaluated for fair and reasonableness. I recommend this approach to the prompt attainment of services for the upcoming construction.

Contracting Officer

14. I hereby determine that the information herein is legally sufficient, and I concur with the sole source procurement.

Assistant District Counsel
