

LFT-3000

Goal. Extinguish an **aircraft fuel spill fire**.

Requirement.

Given appropriate PPE, extinguishing agent, ARFF apparatus, and a fuel fire; as a member of a crew conduct the following:

- Agent selection
- Agent application using the proper techniques with turrets
- Agent application using the proper techniques with handlines
- Ensure fire is completely extinguished

LFT-3005

Goal. Demonstrate the knowledge and operational skills necessary to extinguish an **aircraft interior fire**.

Requirement.

Given appropriate PPE, extinguishing agent, ARFF apparatus, and an interior fire; conduct the following:

- Agent selection
- Agent application utilizing proper techniques with handlines, extinguishers, or turrets
- Fire is completely extinguished
- Inspection and mitigation for potential re-flash

LFT-3010

Goal. Demonstrate the knowledge and operational skills necessary to extinguish an **aircraft auxiliary power unit (APU) fire**.

Requirement.

Given appropriate PPE, extinguishing agent, ARFF apparatus, and an APU fire; conduct the following:

- Agent selection
- Agent application utilizing proper techniques with handlines, extinguishers, or turrets

NAVMC 3500.114 ARFF T&R (Excerpt of Live Fire Job Performance Standards)

- Fire is completely extinguished
- Inspection and mitigation for potential re-flash

LFT-3015

Goal. Demonstrate the knowledge and operational skills necessary to extinguish an **aircraft engine fire.**

Requirement.

Given appropriate PPE, extinguishing agent, ARFF apparatus, and an aircraft engine fire; conduct the following:

- Agent selection
- Agent application utilizing proper techniques with handlines, extinguishers, or turrets
- Fire is completely extinguished
- Inspection and mitigation for potential re-flash

LFT-3020

Goal. Demonstrate the knowledge and operational skills necessary to extinguish an **aircraft wheel/brake fire.**

Requirement.

Given appropriate PPE, extinguishing agent, ARFF apparatus, and an aircraft wheel/brake fire; conduct the following:

- Agent selection
- Agent application utilizing proper techniques with handlines, extinguishers, or turrets
- Fire is completely extinguished
- Inspection and mitigation for potential re-flash

LFT-3025

Goal. Demonstrate the knowledge and operational skills necessary to extinguish an **aircraft electronics and electric (E and E) compartment fire.**

Requirement.

Given appropriate PPE, extinguishing agent, ARFF apparatus, and an aircraft (E and E) compartment fire; conduct the following:

NAVMC 3500.114 ARFF T&R (Excerpt of Live Fire Job Performance Standards)

- Agent selection
- Agent application utilizing the proper techniques with handlines, extinguishers, or turrets
- Fire is completely extinguished
- Inspection and mitigation for potential re-flash

LFT-3030

Goal. Demonstrate the knowledge and operational skills necessary to extinguish an **aircraft three-dimensional running fuel fire.**

Requirement.

Given appropriate PPE, extinguishing agent, ARFF apparatus, and a three-dimensional aircraft running fuel fire; conduct the following:

- Agent selection
- Agent application utilizing proper techniques with handlines, extinguishers, or turrets
- Fire is completely extinguished
- Inspection and mitigation for potential re-flash

LFT-3035

Goal. Demonstrate the knowledge and operational skills necessary to extinguish an **aircraft incident or accident debris fire.**

Requirement.

Given appropriate PPE, extinguishing agent, ARFF apparatus, and an aircraft incident or accident debris fire conduct the following:

- Agent selection
- Agent application utilizing proper techniques with handlines, extinguishers, or turrets
- Fire is completely extinguished
- Inspection and mitigation for potential re-flash
