

QUESTIONS AND ANSWERS (Q&A) #1

Sources Sought Notice

Notice Number: FA480326BL01

Project Title: Commercial cloud-based Weather Intelligence Service

ADMINISTRATIVE UPDATE: SHORTENED RESPONSE DEADLINE

Please be advised that the response deadline for this Sources Sought Notice has been shortened. All capability statements and responses are now due no later than **13 MAY 2026 at 12:00PM EST**.

Disclaimer: *The following questions and answers are provided for informational and market research purposes only. In accordance with FAR 15 regulations regarding Requests for Information:*

(i) The Government does not intend to award a contract on the basis of this RFI or otherwise pay for the information requested; and

(ii) Responses will be treated as information only and not as a proposal.

This document does not constitute a Request for Proposal (RFP) or Request for Quotation (RFQ). All projected timelines are estimates and are subject to change.

SAM.gov Vendor Questions Compilation:

Q1: Is this a new requirement or existing work? Is there a current incumbent providing a weather intelligence or environmental forecasting service to ACC (and if so, what is the contract number)?

A1: This Sources Sought Notice is issued specifically on behalf of Air Forces Central (AFCENT) at Shaw AFB. The Government cannot provide contract data for the entirety of Air Combat Command (ACC). For this specific AFCENT requirement, this is a new contract effort and there is no incumbent contractor or prior contract number.

Q2: When does your office expect to release the solicitation?

A2: The release of any formal solicitation is strictly contingent upon the availability of funds, which are not currently available. Should funding become available, the Government tentatively anticipates releasing a solicitation within the next 1 to 2 weeks. However, this timeline is an estimate and is subject to change at the Government's discretion.
