

STATEMENT OF NEED
Echoview Software Maintenance and Technical Support
143051-26-0030

PURPOSE:

The National Oceanic and Atmospheric Administration (NOAA) National Marine Fisheries Service (NMFS) Southwest Fisheries Science Center (SWFSC) is in need of Echoview Maintenance and Technical Support (MATS) for License #EV0547 (formerly SFSC60-1) with an additional module (Habitat Classification), License #SFSC-4L1 and License #SFSC6, for a period of performance of one (1) base year and four (4) option years for each License. The Advanced Survey Technologies Group requires this mission critical software for oceanographic and acoustic surveys. This software is highly specialized for acoustic data collection and processing. All License agreements are highly specialized with module selections customized for specific program needs and requirements. Echoview software is integral to data collection and for consistency with past data collection.

TECHNICAL SPECIFICATIONS: Renewal of the following licenses;

- Echoview Maintenance and Technical Support (MATS)
 - Echoview software license number #EV0547 (formerly SFSC60-1) including the following modules:
 - Essentials
 - Survey Suite
 - Automation
 - Advanced Operators
 - School Detection
 - Multibeam Fish Tracking
 - Multibeam School Detection
 - Echoview software license number #SFSC-4L1 including the following modules:
 - Essentials
 - Survey Suite
 - Automation
 - Advanced Operators
 - Echoview software license number #SFSC-6 including the following modules:
 - Essentials
 - Automation
 - Advanced Operators
 - Echoview software license number #EV0547 including the following module:
 - Habitat Classification

PERIOD OF PERFORMANCE:

Base Year: 2026 - 2027

Option Year 1: 2027 - 2028

Option Year 2: 2028 - 2029

Option Year 3: 2029 - 2030

Option Year 4: 2030 - 2031
