Description of the supplies or services required, the estimated price/cost, and required delivery date or period of performance.

The Navy aims to engage with potential recruits in environments that reflect its core values built on grit, endurance, discipline, and overcoming mental/physical obstacles. Atlantic Park Surf naturally attract individuals primed for military service and provide an ideal platform for Navy recruiters to engage. By participating in Atlantic Park Surf events, the Navy can showcase its commitment to excellence and attract individuals who resonate with these values. Navy's presence at Atlantic Park Surf events fosters valuable recruiting and referral opportunities, contributing directly to recruitment success. As a result, NRC has the potential to achieve a significant portion of its FY-26/27 new contract goals. The period of performance will run from 1 June 2026 through 31 May 2027.

The estimated dollar value for this procurement is [REDACTED], with no options included. The Independent Government Estimate (IGE) of [REDACTED] was based on market research conducted via online sources and phone inquiries. When benchmarked against alternative ways to spend a [REDACTED] budget in the same market, the Atlantic Park sponsorship is the superior investment. Unlike a traditional media buy or a standard local venue sponsorship, it is the only option that guarantees absolute category exclusivity, blocking all other military branches from a premier local destination. Furthermore, it offers deeper value through direct lead generation and strong community integration via "owned" events, targeting a perfectly aligned demographic of physically fit individuals. This is in stark contrast to the passive, untargeted nature of advertising or the superficial engagement of other local sponsorships, making the Atlantic Park partnership a far more effective and efficient use of resources.

The associated PSC code for this requirement is R701 and the NAICS code is 541850.

The list of Atlantic Park Surf deliverables below includes a range of services and outreach initiatives designed to support NRC's recruiting efforts during the period of 1 June 2026 – 31 May 2027.

Describe in detail why only this source(s) can furnish the requirements to the exclusion of other sources.

The U.S. Navy is committed to fostering strong community ties and developing future leaders. Atlantic Park Surf is a major new landmark, attracting a significant portion of Virginia Beach's estimated 19 million annual visitors in addition to a strong local following. The combination of a world-class surf park, a major concert venue, and extensive retail and dining ensure it will be a high-traffic hub year-round. The venue naturally attracts a physically fit, adventurous demographic that is highly aligned with the Navy's recruiting needs for its most challenging and rewarding career fields and has the potential to present a high-visibility platform to enhance public awareness and strengthen recruitment outcomes.

The Navy requires a large-scale, nationwide marketing and recruiting platform that provides sustained and meaningful engagement with a population demonstrating exceptional physical fitness, mental resilience, and a goal-oriented mindset. Atlantic Park Surf offers more than a simple event sponsorship; it is an investment to achieve near-total brand dominance at a premier destination in one of the most important Navy communities in the world. The package provides a powerful mix of permanent physical branding, targeted event ownership, and continuous digital outreach that would be difficult and likely more expensive to replicate through traditional advertising channels. Market research confirms that while other local venues and advertising agencies exist, none can provide sponsorship rights to Atlantic Park's specific, intrinsic assets. These exclusive assets include the permanent "Year-round Navy Viewing Deck," a high-traffic outdoor LED billboard, multiple interior wall displays, and the exclusive right to host Navy-branded events such as the "Navy Warrior Challenge" and the First Responder Career Expo on its property. Since no other vendor can sell access to or control over these proprietary assets and event rights, Atlantic Park is definitively the only source capable of satisfying the requirement. The cost of [REDACTED] has been determined to be fair and reasonable, representing strong value when considering the market cost of the individual advertising assets, the production of multiple custom events, and the invaluable benefit of year-long category exclusivity.

Declining this partnership would significantly hinder Navy's talent acquisition efforts by forfeiting a uniquely target-rich environment. The park serves as a magnet for a concentrated, self-selecting talent pool of physically fit individuals who seek challenges, making it an ideal recruiting ground for demanding roles such as SEALs, SWCC, Divers, and Rescue Swimmers. Navy would face the direct loss of a high-quality lead generation machine; the "owned" events are specifically designed for data capture, and non-participation means losing thousands of contact points for pre-qualified candidates who have explicitly demonstrated interest. This loss is further amplified by the inability to leverage a year-round presence, as the Navy would miss the constant, passive brand reinforcement of a permanent recruiting station that engages with millions of annual visitors, a benefit far exceeding the impact of a transient weekend event.
