CAUTION NOTICE

1. Offerors are required to submit offers via Defense Logistics Agency Internet Bid Board System (DIBBS).

See page 4: Submission Instructions for link to DIBBS. Upload of offer to DIBBS is the only authorized method of proposal submittal. Offers submitted by email, postal mail, or physical delivery ARE NOT AUTHORIZED.

2. Subcontracting Plan

Pursuant to the requirements of Public Law 95-507, all large business offerors must submit a subcontracting plan with their offer. All large business concerns are required to have an approved subcontracting plan for contracts valued over \$750,000 before the Government can award a contract (see FAR 52.219-9 for details). Offerors must submit a currently approved commercial plan or a new plan for review and approval.

Instructions for submitting the subcontracting plan are included in FAR 52.212-1 Addendum 2. Contractors are required to report progress on subcontracting goals to the electronic Subcontracting Reporting System (eSRS) twice a year. eSRS is an internet-based tool that streamlines the process of reporting on subcontracting plans and provides agencies with access to analytical data on subcontracting performance.

3. Assessments/Reports

As prescribed in FAR Part 42.15, DLA Troop Support evaluates contractor performance on all contracts that exceed \$250,000.00 and shares those evaluations with other federal government agencies. The FAR requires that the contractor be provided an opportunity to comment on past performance evaluations prior to each report closing. To fulfill this requirement, DLA Troop Support will be using an online database, the Contractor Performance Assessment Reporting System (CPARS). Annual reporting of past performance will be completed at <https://www.cpars.gov> and uploaded to Past Performance Information Retrieval System (PPIRS).

4. Contractor Code of Business Ethics

FAR Part 3.1002(a) requires all Government contractors to conduct themselves with the highest degree of integrity and honesty. Contractors should have a written code of business ethics and conduct within thirty days of award. To promote compliance with such code of business ethics and conduct, contractors should have an employee business ethics and compliance training program that facilitates timely discovery and disclosure of improper conduct in connection with Government contracts and ensures corrective measures are promptly instituted and carried out. A contractor may be suspended and/or debarred for knowing failure by a principal to timely disclose to the Government, in connection with the award, performance, or closeout of a Government contract performed by the contractor or a subcontract awarded there under, credible evidence of a violation of federal criminal law involving fraud, conflict of interest, bribery, or gratuity violations found in title 18 of the United States Code or a violation of the False Claims Act. (31 U.S.C. 3729-3733)

If this solicitation or contract includes FAR clause 52.203-13 - CONTRACTOR CODE OF BUSINESS ETHICS AND CONDUCT; the contractor shall comply with the terms of the clause and have a written code of business ethics and conduct; exercise due diligence to prevent and detect criminal conduct; promote ethical conduct and a commitment to compliance with the law within their organization; and timely report any violations of federal criminal law involving fraud, conflict of interest, bribery or gratuity violations found in title 18 of the United States Code or any violations of the False Claims Act. (31 U.S.C. 3729-3733). When FAR 52.203-13 is included in the contract, contractors must provide a copy of its written code of business ethics and conduct to the contracting officer upon request by the contracting officer.

(1) An identifier assigned to entities located in the United States or its outlying areas by the Defense Logistics Agency (DLA) Commercial and Government Entity (CAGE) Branch to identify a commercial or Government entity; or

(2) An identifier assigned by a member of the North Atlantic Treaty Organization (NATO) or by the NATO Support and Procurement Agency (NSPA) to entities located outside the United States and its outlying areas that the DLA Commercial and Government Entity (CAGE) Branch records and maintains in the CAGE master file. This type of code is known as a NATO CAGE (NCAGE) code.

(b) Contractors shall ensure that the CAGE code is maintained throughout the life of the contract. For contractors registered in the System for Award Management (SAM), the DLA Commercial and Government Entity (CAGE) Branch shall only modify data received from SAM in the CAGE master file if the contractor initiates those changes via update of its SAM registration. Contractors undergoing a novation or change-of-name agreement shall notify the contracting officer in accordance with subpart 42.12. The contractor shall communicate any change to the CAGE code to the contracting officer within 30 days after the change, so that a modification can be issued to update the CAGE code on the contract.

(c) Contractors located in the United States or its outlying areas that are not registered in SAM shall submit written change requests to the DLA Commercial and Government Entity (CAGE) Branch. Requests for changes shall be provided at <https://cage.dla.mil>. Change requests to the CAGE master file are accepted from the entity identified by the code.

(d) Contractors located outside the United States and its outlying areas that are not registered in SAM shall contact the appropriate National Codification Bureau (points of contact available at <http://www.nato.int/structur/AC/135/main/links/contacts.htm>) or NSPA at <https://eportal.nspa.nato.int/AC135Public/scage/CageList.aspx>.

(e) Additional guidance for maintaining CAGE codes is available at <https://cage.dla.mil>

(f) If the contract includes Federal Acquisition Regulation clause 52.204-2, Security Requirements, the contractor shall ensure that subcontractors maintain their CAGE code(s) throughout the life of the contract.

The Contractor’s representations and certifications, including those completed electronically via the System for Award Management (SAM), are incorporated by reference into the contract.

FAR 52.216-21 Requirements (OCT 1995)

(a) This is a requirements contract for the supplies or services specified and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(c) Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.

(d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(f) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after the last outstanding delivery is received for orders placed by the expiration date of the contract.

FAR 52.217-9 Option to Extend the Term of the Contract (MAR 2000)

(a) The Government may extend the term of this contract by written notice to the Contractor at any time during the term of the contract; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least 30 days before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed five years.

If the solicitation includes the provision [52.222-18](#), Certification Regarding Knowledge of Child Labor for Listed End Products, or the equivalent at [52.212-3\(i\)](#), the Contractor agrees to cooperate fully with authorized officials of the contracting agency, the Department of the Treasury, or the Department of Justice by providing reasonable access to records, documents, persons, or premises upon reasonable request by the authorized officials.

(c) *Violations.* The Government may impose remedies set forth in paragraph (d) for the following violations:

(1) The Contractor has submitted a false certification regarding knowledge of the use of forced or indentured child labor for listed end products.

(2) The Contractor has failed to cooperate, if required, in accordance with paragraph (b) of this clause, with an investigation of the use of forced or indentured child labor by an Inspector General, Attorney General, or the Secretary of the Treasury.

(3) The Contractor uses forced or indentured child labor in its mining, production, or manufacturing processes.

(4) The Contractor has furnished under the contract end products or components that have been mined, produced, or manufactured wholly or in part by forced or indentured child labor. (The

FAR 52.232-39 Unenforceability of Unauthorized Obligations (JUN 2013)

(a) Except as stated in paragraph (b) of this clause, when any supply or service acquired under this contract is subject to any End User License Agreement (EULA), Terms of Service (TOS), or similar legal instrument or agreement, that includes any clause requiring the Government to indemnify the Contractor or any person or entity for damages, costs, fees, or any other loss or liability that would create an Anti-Deficiency Act violation (31 U.S.C. 1341), the following shall govern:

(1) Any such clause is unenforceable against the Government.

(2) Neither the Government nor any Government authorized end user shall be deemed to have agreed to such clause by virtue of it appearing in the EULA, TOS, or similar legal instrument or agreement. If the EULA, TOS, or similar legal instrument or agreement is invoked through an "I agree" click box or other comparable mechanism (e.g., "click-wrap" or "browse-wrap" agreements), execution does not bind the Government or any Government authorized end user to such clause.

(3) Any such clause is deemed to be stricken from the EULA, TOS, or similar legal instrument or agreement.

(b) Paragraph (a) of this clause does not apply to indemnification by the Government that is expressly authorized by statute and specifically authorized under applicable agency regulations and procedures.

(2) Supplies shall be delivered to the destination consignee's wharf (if destination is a port city and supplies are for export), warehouse unloading platform, or receiving dock, at the expense of the Contractor. The Government shall not be liable for any delivery, storage, demurrage, accessorial, or other charges involved before the actual delivery (or "constructive placement" as defined in carrier tariffs) of the supplies to the destination, unless such charges are caused by an act or order of the Government acting in its contractual capacity. If rail carrier is used, supplies shall be delivered to the specified unloading platform of the consignee. If motor carrier (including "piggyback") is used, supplies shall be delivered to truck tailgate at the unloading platform of the consignee, except when the supplies delivered meet the requirements of Item 568 of the National Motor Freight Classification for "heavy or bulky freight." When supplies meeting the requirements of the referenced Item 568 are delivered, unloading (including movement to the tailgate) shall be performed by the consignee, with assistance from the truck driver, if requested. If the contractor uses rail carrier or freight forwarded for less than carload shipments, the contractor shall ensure that the carrier will furnish tailgate delivery, when required, if transfer to truck is required to complete delivery to consignee.

(b) The Contractor shall-

(1) (i) Pack and mark the shipment to comply with contract specifications; or
(ii) In the absence of specifications, prepare the shipment in conformance with carrier requirements;

(2) Prepare and distribute commercial bills of lading;

STATEMENT OF WORK

1. Background

The Defense Logistics Agency (DLA) Troop Support, Directorate of Medical Materiel provides pharmaceutical products for the Department of Defense (DoD) to its customers through its Pharmaceutical Prime Vendor program. The Department of Veterans Affairs (VA) provides pharmaceutical products to its customers as well as the Indian Health Service (IHS) and the Bureau of Prisons (BoP) through the VA Pharmaceutical Prime Vendor Program. Hereafter these programs are collectively referred to as the “PPV.” A prime vendor is an independent business concern that functions as a purchaser's primary source for specified classes of products and is responsible for the delivery of goods produced by various suppliers. As a part of the Pharmaceutical Prime Vendor Program, this solicitation will establish a national contract for the items listed in the schedule. The PPV Programs consist of separate contracts which establish the fees for the distribution of pharmaceutical products

that are distributed through the PPV Programs on Federal Government (i.e., Federal Supply Schedules, DLA National Contracts) contracts. The awardee consents to allow VA and DLA Troop Support Prime Vendors to distribute the listed products in the schedule.

2. Purpose and Objective

A contract resulting from this solicitation will establish a national supply source, in accordance with FAR 52.216-21 Requirements, to provide the drugs listed in the schedule for purchase by DLA and VA customers through the PPV. The annual usage for DoD, VA, BoP and IHS customers served through the Prime Vendor Programs is estimated in the Schedule of Supplies. The objective of the contract is to ensure availability and consistency of product and to obtain volume-based, committed use pricing.

3. Purchase Compliance

Ordering activities will purchase the selected contractor's product for the items listed in the Schedule of Supplies section of this Solicitation through the DLA or VA PPV contractors except when: (1) the contracted items is/are unavailable to meet the needs of the Government or (2) an alternate is requested by the prescribing healthcare provider, or (3) the contract holder does not participate in third party reimbursement programs, such as the Medicaid Rebate Program (#3 applies to IHS requirements only).

4. Extent of Obligation

The contractor shall provide the products specified in the schedule to all DLA and VA PPV contractors in order to facilitate the products' availability for all eligible DoD, VA, BoP, and IHS ordering activities.

5. Contract Price Effective Date

The Contract Price Effective Date shall be no more than 60 calendar days after award but no sooner than June 21, 2026.

6. Contract Performance Date

The contract performance date shall be 45 calendar days (or sooner upon mutual agreement) after the date of contract award. This is the date the contractor shall be ready to fill orders from the PPV contractors.

The contract prices shall be effective 15 calendar days after the contract performance date. Before the contract performance date, the PPVs will begin placing orders with the contractor for delivery to multiple PPV distribution centers for distribution to the participants under this contract. See Appendix A for the current list of PPVs. The current PPV contractors may change and the contractor will be notified of any changes in PPV contractors during the term of the contract resulting from this solicitation. The contractor shall ensure that sufficient inventory of contract items awarded under this solicitation is available to ensure delivery to the PPV distribution centers within 15 days of the contract performance date. In order to facilitate the sale of the awardee's product to Government ordering activities through the DLA and VA PPV contractors, the awardee shall enter into business-to-business agreements with each of the DLA and VA PPV contractors. Payment terms, time and place of delivery to PPV distribution centers, and other relevant terms shall be agreed upon between the PPV

contractors and the contractor awarded a contract from this solicitation in these agreements. The Government is not obligated to become involved in or assume any responsibility for financial or other disputes involving these agreements. Offerors may approach the PPV contractors regarding establishing business-to-business agreements prior to submitting an offer in response to this solicitation. Within 15 days from receipt of award, the Contracting Officer shall be notified by the contractor if any business-to-business-agreements cannot be reached with the PPV contractors.

7. Chargeback Agreements

Chargeback arrangements shall be coordinated between the prime vendors and the successful contractor.

8. Special Contract Considerations

As discussed in Section 2, this solicitation establishes a supply source to provide the drugs listed in the schedule for purchase through the PPV programs. Additionally, as outlined in Section 6, the awarded contractor under this solicitation must reach a business-to-business agreement with each of the DLA and VA PPV contractors. Because the PPV contractors distribute the supplies sourced from this solicitation, special contract considerations apply.

Under this resulting contract, the contractor will be receiving payments from the PPV contractors instead of directly from the Government. Due to this unique payment structure, the contractor cannot assign its rights to receive payment under this contract. Additionally, disputes arising between the awardee and the PPV contractors do not give rise to a “claim” under the Disputes Clause. Finally, no invoices will be provided from the contractor to the Government ordering facilities. Instead, the contractor shall submit invoices in accordance with the business-to-business agreements reached with the PPV contractors.

9. Delivery

The complete order quantity shall be delivered to the PPV contractors within 15 calendar days after receipt of order.

Other delivery requirements including but not limited to product quantities, time and place of delivery and method of delivery for products awarded as a result of this procurement action will be determined by the contract awardee and the prime vendors.

10. Transition Period

After the effective date a short phase-in period may be needed to convert patients and medical centers to the awarded products. Every effort will be made to begin transitioning as many patients as possible by the contract performance date.

11. Contract Duration

The contract resulting herein will be for a one-year base period and include four option years for a maximum possible term of five years. The contract will not exceed five years.

12. Ordering and Acceptance of Orders

The contractor agrees to accept orders that are placed by, and provide items to, the prime vendors for use by medical treatment facilities, formularies, eligible beneficiaries and other ordering activities served by the DLA and VA PPV contractors. The Government reserves the right to delete ordering sites/activities which are current prime vendor customers during the effective period of this contract. In addition, the Government reserves the right to add Government pharmacies and ordering activities, including the pharmacies and ordering activities of agencies, which are not current PPV customers, during the effective period of this contract. There is no expressed or implied guarantee that the estimated quantity will be purchased under this contract. Actual quantities purchased may exceed or be less than those represented.

The Government also reserves the right to add other federally funded customers, including those that are not served by the DLA PPV contractors, during the life of the awarded contract. However, the estimated quantities in Appendix B: Agency Annual Demand Projections are based on DoD, Department of VA, IHS, and BoP demand. Offeror's proposals should be based on the estimated quantities in Appendix B.

The price the Government pays a PPV contractor for the awardee's product will be adjusted by the distribution fees established by the terms of that PPV contractor's separate contract with the Government. All of the DLA PPV contractors' contracts with the Government currently contain negative distribution fees. This means that the price paid by the Government to a PPV contractor for the awardee's product may be less than the unit price established by a contract awarded from this Solicitation.

13. Initial Orders

Ordering activities (DoD, VA, IHS, and BoP) may place initial orders with the PPV contractors totaling up to 30% of each agency's stated estimated annual contract quantities, located in Appendix B: Agency Annual Demand Projections, immediately upon the contract effective date. The Contract Price Effective Date shall be no more than 60 days after award. Initial orders totaling up to 30% of each agency's stated estimated annual contract quantities may be placed by the PPV contractors with the national contract awardee of this solicitation to fulfill the initial order requirements.

14. National Contract Backorders

The ability of the DoD, VA, BoP, and IHS to provide quality healthcare to its patient population is severely impaired when a national contract product is not available due to backorders. The purpose of this paragraph is to provide guidance to the awarded contractor regarding a temporary solution to national contract item backorders that may be implemented in lieu of the Government terminating the contract for cause. However, nothing in this section will waive any of the Government's rights to terminate the contract for cause in accordance with FAR 52.212-4(m).

For purposes of this contract, a backorder occurs when a PPV contractor issues an order with the contractor awarded a contract for the products in this solicitation, and the complete order quantity is not delivered to the PPV contractor within 15 calendar days after receipt of order.

This includes initial Consolidated Mail Order Pharmacy (CMOP) orders. If a national contract item is backordered by a PPV contractor, the contracting officer will review the backorder to determine the cause of the backorder. The awarded contractor shall inform the contracting officer within 4 calendar days after a backorder occurs or is foreseen. In addition to informing the contracting officer of the backorder, the awardee shall provide an estimated date when the backorder will be shipped and may propose a solution to satisfy the Government's needs for the contract items until the backorder is resolved. The Government reserves the right to accept or reject any possible solutions that the awardee may propose to alleviate a national contract backorder situation. In the event of a back order, the Government may authorize the PPV contractors to acquire the same or similar items from another source. If the contracting officer determines that the back order is awardee-caused, the contracting officer will bill the awardee for any excess procurement costs. In other words, if the government purchases product from another vendor because of an awardee-caused backorder, the awardee will issue credit or reimburse the Government for the difference between the purchase price and the contract price within 30 calendar days after receipt of notification. The awardee shall also provide written verification to the Contracting Officer when credits or reimbursement have been made within 30 calendar days from date of reimbursement. After an awardee-caused backorder, the Government's decision to implement the process described above will not deprive the Government of its right under Clause 52.212-4 (m) to terminate the contract.

Preservation and packaging shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to and from the receiving activity and shall conform to the applicable carrier's rules and regulations. Tablets/capsules must be compatible with automated dispensing units (Baxter ATC Canisters, OptiFill, etc.).

All unit of use packaging (identified in schedule of supplies beginning on Page 5) must contain a child proof closure (safety cap) and a bottle with a minimum required size of 100cc volume. The safety cap must not exceed the diameter of the bottle. The bottle must have a cylindrical body and minimum of 5.75" circumference. The bottle must fit a label with dimensions of 5.25" x 2". The 0.5" additional space is required to keep the bar code exposed and/or allow for the display of the expiration date and lot number. Sample pictures (bar code exposed) of how the label must fit the offered bottle are below:

Glass bottles are not acceptable.

Tablets/capsules must be compatible with automated dispensing units (Baxter ATC Canisters, OptiFill, etc.).

17. Labeling

All pharmaceutical products provided under this contract shall include bar code labeling at the unit-of-use package level. The bar code labeling must be in a linear format that conforms to all GS1-128 (formerly EAN.UCC) or Health Industry Business Communication Council (HIBCC) Health Industry Bar Code (HIBC) supplier labeling standards. The bar code symbology must comply with all GS1 or HIBCC parameters including but not limited to: symbology type or encoded pattern, bar and space dimensions and tolerances and allowable ratio of wide to narrow elements.

The bar code may be any linear bar code symbology such as GS1-128 (formerly EAN.UCC), GS1 DataBar (formerly RSS) or Universal Product Code (if the UPC contains the National Drug Code or NDC). The bar code must encode the NDC, either alone or within the GS1 data structure (Global Trade Item Number (GTIN)). The bar code printing must be American National Standards Institute (ANSI) / International Organization for Standardization (ISO) / IEC quality grade C or better. Manufacturers and packagers must ensure that production runs include an initial verification check, as well as routine audits to ensure the bar code is printed clearly and consistently to meet the quality standard of grade C or better. Contractors shall be responsible for ensuring that bar code labels meet the quality requirements specified in this clause prior to shipping pharmaceutical products to any Government prime vendor or authorized ordering activity under this contract.

The bar code must be on the outside container or wrapper of the medication as well as on the immediate container, unless the bar code is readily visible and machine readable through the outside container or wrapper. When the bar code is not easily machine readable through the over-wrap, the over-wrap should contain the bar code. The bar code must go on each cell of a blister pack. Furthermore, the bar code must remain intact under normal conditions of use; thus, it should not be printed across the perforations of a blister pack.

When applicable to the symbology used, bar codes shall be surrounded by sufficient quiet zone so that the bar code can be scanned correctly. Bar code placement shall minimize curvature of the bar code. For example, bar codes should be placed in “ladder orientation” on vials or bottles to minimize curvature of the bar code. Bar code labeling shall not be placed solely on outer packaging.

It is required that bar code labeling also include the lot number and expiration date. If two separate distinctive bar codes are used, one for NDC and the other for lot number/expiration date; the lot number and expiration date bar code must not be in close proximity to the NDC barcode or in a format that may be confused with the NDC bar code. When applicable, all Healthcare Distribution Management Association (HDMA) guidelines shall be followed.

Drug Supply Chain Security Act (DCSA): The contractor shall follow all appropriate requirements as implemented in the Drug Supply Chain Security Act (DCSA), including all applicable traceability and licensing requirements.

18. Therapeutic Equivalence

Drug products are considered to be therapeutic equivalents only if they are pharmaceutical equivalents and if they can be expected to have the same clinical effect and safety profile when administered to patients under the conditions specified in the labeling. Only Federal Drug Administration (FDA) approved products with therapeutic equivalence evaluations that resulted in a FDA Therapeutic Equivalence Code (TE Code) of “A” will be considered, unless all drugs in the family group are “B” rated. If all products in a family group have a “B” TE Code, no award will be made to other than the innovator unless the non-innovator vendor submits acceptable data demonstrating bioequivalence.

19. Drug Application

By signing this solicitation, the offeror certifies that it has on file (if any of the following are required by FDA for the offered drugs) an FDA approved New Drug Application (NDA), an approved abbreviated NDA (ANDA), or a Biologic License approval, as appropriate for the items offered in response to the solicitation. The NDA, ANDA, or Biologic License must be approved no later than the time of the solicitation’s closing. An offeror utilizing an NDA, ANDA, or Biologic License that is pending approval with the FDA at the time of the solicitation’s closing, but has not yet been approved, is technically unacceptable and will not be considered for award. Such an offeror will remain technically unacceptable even if the NDA, ANDA, or Biologic License receives approval from the FDA after the solicitation’s closing, but prior to the award of a contract.

20. Manufacturing Facilities

If at any time during the term of the contract, the contractor's facility or the source from which the contractor obtains any of the products supplied by this contract is informed in a FDA "warning letter" that it fails to meet FDA current Good Manufacturing Practices (cGMP) (21 CFR Part 210 and 211), the contractor shall immediately communicate the facility or source's unacceptable FDA cGMP status to the Contracting Officer. Once the Contracting Officer is aware that the contractor's facility or the source from which the contractor obtains any of the products provided fails to meet FDA cGMP, the procedures outlined in the paragraph below will apply. These procedures will apply regardless of whether the unacceptable cGMP status of the contractor's facility or the source from which the contractor obtains the products was brought to the Contracting Officer's attention by the contractor or by other means.

The DLA Troop Support Contracting officer will review the contractor's (or its source's) unacceptable cGMP status with appropriate DLA clinical staff and will either:

- Instruct the contractor to stop the shipment of products listed on this contract that were manufactured, packaged, and/or packed in a facility with unacceptable cGMP status, or
- Authorize the contractor to continue to supply such contract products for 90 days from the date when the unacceptable cGMP status was brought to the Contracting Officer's attention, provided that the products have not been subjected to a consumer-level recall. Additional periods of 90 days may be authorized at the discretion of the DLA Contracting Officer.

Contractors are cautioned that products that were manufactured, packaged, and/or packed in a facility with unacceptable cGMP status and then shipped without written authorization from the DLA Contracting Officer shall be returned to the contractor at the contractor's risk and expense, regardless of whether the contractor was aware of the facility's unacceptable cGMP status at the time the products were shipped. The contractor (or its source) shall have corrected all significant cGMP deficiencies or have an acceptable plan with the FDA for the correction of such deficiencies which led to unacceptable status by the end of the 90-day authorization period and any extensions of such period granted by the DLA Contracting Officer. Additionally, the contractor is responsible for keeping the DLA Contracting Officer informed of all corrections made and shall provide the DLA Contracting Officer with: 1) written documentation of the correction plan, 2) notification from FDA of acceptance of the plan, and 3) a copy of any re-inspection requests and subsequent reports, when they are available. If the FDA's evaluation of contractor's (or its source's) compliance efforts and/or re-inspection of the non-compliant facility does not result in an acceptable rating by the FDA within 90 days from the date when unacceptable cGMP status was brought to the Contracting Officer's attention, or by the end of a DLA Contracting Officer's authorization period (whichever is the greater period of time), the contract may be terminated for cause in accordance with FAR Clause 52.212-4(m). The contractor's (or its source's) failure to correct the cGMP deficiencies in a timely manner shall not constitute or give rise to any "excusable delays" pursuant to FAR Clause 52.212-4(f). Nothing in this clause shall be read as limiting the recognized grounds upon which a Contracting Officer may terminate this contract or delete products pursuant to any clause in this contract or any other applicable law or authority.

The contractor (or its source) shall use only the FDA-inspected manufacturing facilities referenced in the contract for the duration of the contract, unless substitution of manufacturing facilities is approved by the DLA Contracting Officer. In case of any manufacturing facility relocation or substitution of manufacturing facilities, the contractor shall notify the DLA Contracting Officer of the change, and the contractor shall request approval from the DLA Contracting Officer to supply the contracted products from the new location. If the change is approved by the DLA Contracting Officer after an inquiry to FDA for cGMP status of the new location, approval will be provided by means of a formal contract modification.

21. Recalls

If a drug recall is initiated for any drug provided under this contract, regardless of whether it is a voluntary recall by the manufacturer or a recall required by the U.S. Food and Drug Administration (FDA) or, if the FDA withdraws their approval to manufacture any drug that is included on this contract, the following action shall immediately be taken by the contractor:

- a. **Quarterly Sales Report.** The contractor shall report all sales under this contract and submit cost recovery fees as follows:
- i. The contractor shall accurately report the dollar value, in U.S. dollars and rounded to the nearest whole dollar, of all sales made under this contract by calendar quarter. Reported sales must include all sales made to all authorized contract users, whether shipped directly to the users or through prime vendor contractors. The report shall reflect sales by contract line item. A cost recovery fee equivalent to 0.5 percent of the current contract price shall be collected from all contract users. The 0.5 percent cost recovery fee shall be imbedded in the awarded contract prices and offers submitted in response to this solicitation shall include the cost recovery fee in every line item price offered. The reported contract sales shall include the cost recovery fee and each quarterly report shall show the total cost recovery fee amount collected on the reported sales. The contractor shall maintain a consistent accounting method of sales reporting, based on the contractor's established commercial accounting practice.
 - ii. Contract sales reports are due to the DLA contracting officer within 60 calendar days following the completion of each reporting quarter or completion of the contract, whichever occurs first. A report is required even when no billings or invoices are issued or no orders are received during the reporting period.

- i. To ensure that the payment is credited properly, the contractor shall identify the check or electronic transmission as a "Cost Recovery Fee" and include a copy of the applicable sales report. SOLICITATION PROVISIONS

FAR 52.212-1 Instructions to Offerors – Commercial Products and Commercial Services (SEP 2023)

(a) *North American Industry Classification System (NAICS) code and small business size standard.* The NAICS code(s) and small business size standard(s) for this acquisition appear elsewhere in the solicitation. However, the small business size standard for a concern that submits an offer, other than on a construction or service acquisition, but proposes to furnish an end item that it did not itself manufacture, process, or produce is 500 employees or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition—

- (1) Is set aside for small business and has a value above the simplified acquisition threshold;
- (2) Uses the HUBZone price evaluation preference regardless of dollar value, unless the offeror waives the price evaluation preference; or
- (3) Is an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(b) *Submission of offers.* Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show --

- (1) The solicitation number;
- (2) The time specified in the solicitation for receipt of offers;
- (3) The name, address, and telephone number of the offeror;

- (4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;
 - (5) Terms of any express warranty;
 - (6) Price and any discount terms;
 - (7) "Remit to" address, if different than mailing address;

 - (10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and
 - (11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.
- (c) *Period for acceptance of offers.* The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.
- (d) *Product samples.* When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.
- (e) *Multiple offers.* Offerors are encouraged to submit multiple offers presenting alternative terms and conditions, including alternative line items (provided that the alternative line items are consistent with FAR subpart 4.10), or alternative commercial products or commercial services for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.
- (f) *Late submissions, modifications, revisions, and withdrawals of offers.*
- (1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for

receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)

(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is “late” and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and—

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government’s control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact

time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) *Contract award (not applicable to Invitation for Bids)*. The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) *Multiple awards*. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(i) Availability of requirements documents cited in the solicitation.

(4) Nongovernment (voluntary) standards must be obtained from the organization responsible for their preparation, publication, or maintenance.

(j) *Unique entity identifier.* (Applies to all offers that exceed the micropurchase threshold, and offers at or below the micropurchase threshold if the solicitation requires the Contractor to be registered in the System for Award Management (SAM).) The Offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation “Unique Entity Identifier” followed by the unique entity identifier that identifies the Offeror's name and address. The Offeror also shall enter its Electronic Funds Transfer (EFT) indicator, if applicable. The EFT indicator is a four-character suffix to the unique entity identifier. The suffix is assigned at the discretion of the Offeror to establish additional SAM records for identifying alternative EFT accounts (see subpart 32.11) for the same entity. If the Offeror does not have a unique entity identifier, it should contact the entity designated at www.sam.gov for unique entity identifier establishment directly to obtain one. The Offeror should indicate that it is an offeror for a Government contract when contacting the entity designated at www.sam.gov for establishing the unique entity identifier.

(k) Reserved.

(l) *Debriefing.* If a post-award debriefing is given to requesting offerors, the Government shall disclose the following information, if applicable:

(1) The agency’s evaluation of the significant weak or deficient factors in the debriefed offeror’s offer.

Offers that have an FDA Warning Letter may not be considered to be technically acceptable and may not be included in the competitive range, dependent on the nature of the Warning Letter and the Contracting Officer's discretion. If there is an FDA Warning Letter and / or Corrective Action Plan, the aforementioned document(s) shall be submitted in the past performance section, tab 3 of the offeror's proposal.

Extraneous Data: Offerors are not to include extraneous data such as, annual reports, marketing brochures, catalogs, etc.

In conducting the evaluation, the Defense Logistics Agency (DLA) will use information provided by the offeror in the proposal. 1. Lowest Price Technically Acceptable Acquisition,

This is a lowest price technically acceptable (LPTA) acquisition. The contract will be issued to the responsible offeror whose proposal is determined to be technically acceptable and provides the lowest evaluated aggregate price. The lowest evaluated aggregate price will be determined by multiplying the estimated quantity for each line item, including options, by the offered unit price and then adding the total of each line.

Pricing and the Veteran's Health Care Act of 1992

Offerors shall comply with Department of Veterans Affairs (VA) policy contained in DVA letter dated March 31, 2004 (or the most current letter expressing this policy). This Federal Ceiling Price (FCP) policy is pursuant to Pub.L.102-585, the Veterans' Health Care Act of 1992. Contractor shall copy the contracting officer on the letter to DVA referenced on Page 2, item (A) of the DVA's 3/21/2004 "Dear Manufacturer" letter.

The first five numbers of the eleven-digit NDC number for each product proposed shall identify the offeror.

FAR 52.212-2 Evaluation--Commercial Products and Commercial Services (NOV 2021)

- (a) An award will be made to the responsible offeror whose proposal is determined to be technically acceptable and provides the lowest evaluated aggregate price. In order for an offer to be determined technically acceptable the proposal must receive an acceptable rating for both Non-Price Factors, resulting in an overall rating of acceptable. Vendor must meet minimum requirements of Technical Requirements (a) through (h) and Past Performance (a) through (c), under 52.212-1.
- (b) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).
- (c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

Evaluation Criteria

- (a) An award will be made to the responsible offeror whose proposal is determined to be technically acceptable and provides the lowest evaluated aggregate price. For an offer to be determined technically acceptable, the proposal must receive an acceptable rating for both Non-Price Factors, resulting in an overall rating of acceptable.

i. Technical Requirements

To receive an acceptable rating for Technical Requirements, the offeror must comply with all terms and conditions of the Statement of Work and Solicitation. A proposal will be determined acceptable or unacceptable in accordance with the definitions set forth below.

Technical Requirements	
Rating	Description
Acceptable	Offeror complies with all terms and conditions of the Statement of Work and Solicitation.
Unacceptable	Offeror did not comply with all terms and conditions of the Statement of Work and/or Solicitation. The vendor did not satisfactorily submit all applicable information requested in solicitation section FAR 52.212-1, including sections a. through h. under Required Documentation for Technical Requirements.

ii. Past Performance

The Past Performance assessment is based on the offeror's record of relevant and recent past performance information that pertains to the products and/or services outlined in the solicitation requirements.

Past Performance Relevancy/Recency	
Rating	Description
Relevant/Recent	Present/past performance involved recent effort and similar scope and magnitude of effort based on the past performance evaluation criteria below.
Not Relevant/Not-recent	Present/past performance involved not-recent effort and/or little and/or none of the scope and magnitude of effort based on the past performance evaluation criteria below.

An offeror's overall past performance factor rating is based on the offeror's performance record on recent contracts of similar scope and complexity and the status and severity of any FDA warning letters, FDA violations or failed inspection disclosures. To be considered Acceptable, the Government must have a reasonable expectation that the offeror will successfully perform the required effort or the offeror's performance record is unknown.

Past contract history information will be considered Recent if it is from the three-year period prior to the issuance date of the solicitation. Offerors should

not submit past contract history information from prior to the three-year period prior to the issuance date of the solicitation; past contract history information from prior to the three-year period prior to the issuance date of the solicitation will be considered Not Recent and will not be considered as part of the past performance evaluation.

Contract performance will be considered Relevant if performed within the three-year period discussed above and is for the supply of pharmaceuticals (or other similar products) to Government or commercial customers and is for contracts of a similar complexity, contract length, dollar value, and contract type as this procurement. Past performance information that is considered Not Relevant will not be considered as part of the past performance evaluation.

The past performance evaluation should determine how well the offeror performed on the prior contracts. The past performance evaluation performed in support of a current proposal does not establish, create, or change the existing record and history of the offeror's past performance on past contracts. Past performance will be rated on an "acceptable" or "unacceptable" basis using the ratings in the Past Performance Evaluation Ratings Table.

Past Performance Evaluation Ratings	
Rating	Description
Acceptable	Based on the offeror's performance record, the Government has a reasonable expectation that the offeror will successfully perform the required effort, or the offeror's performance record is unknown. (See note below.)
Unacceptable	Based on the offeror's performance record, the Government has no reasonable expectation that the offeror will be able to successfully perform the required effort.

Note: In the case of an offeror without a record of relevant and recent past performance for the timeframes specified, or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the offeror may not be evaluated favorably or unfavorably on past performance (see FAR 15.305 (a)(2)(iv)).

Therefore, the offeror shall be determined to have unknown past performance. In the context of acceptability/unacceptability, "unknown" shall be considered "acceptable."

iii. Overall Non-Price Evaluation.

The overall evaluation will result in a rating of acceptable or unacceptable for each offeror. This rating will be based on the individual ratings for the technical

acceptability of the proposal and past performance. An offeror must have an acceptable rating for both the Technical Requirements factor and Past Performance factor to receive an overall acceptable rating.

Overall Acceptable/Unacceptable Ratings	
Ratings	Descriptions
Acceptable	Offeror received an acceptable rating for the technical requirements factor and received an acceptable rating for past performance.
Unacceptable	Offeror received an unacceptable rating for the technical requirements factor and/or received an unacceptable rating for past performance.

After the evaluation of proposals against the Technical Requirements and Past Performance are completed and documented, the Defense Logistics Agency (DLA) Troop Support will prepare a report with its identification of offerors rated “overall acceptable” and “overall unacceptable.”

Offers determined to be overall acceptable will be considered for award. Lack of adequate documentation in a proposal to support any portion of the Technical Requirements or Past Performance factors may result in an “Unacceptable” evaluated rating; however, if award will be made without conducting discussions, offerors may be given the opportunity to clarify the lack of documentation. If discussions are held, offerors may be permitted to provide revised/additional supporting documentation to support an “acceptable” rating.

iv. Lowest Evaluated Price.

Telephonic negotiations and email negotiations may be conducted for all offers in the competitive range. Offerors will be able to submit revised prices during the Final Proposal Revision (FPR).

Offerors are required to provide pricing information for line items 0001-0006. The offeror’s proposed prices are to be expressed in dollars (USD) as a unit price per bottle.

The offeror is required to submit its offered prices for each line item for the base and all option years as stated above as part of the offeror’s price proposal. The FPR process, telephonic negotiations and/or email negotiations may be used to determine the lowest price evaluated (unit price per bottle).

The overall lowest evaluated aggregate price will be determined by multiplying the estimated quantity for each line item, including options, by the offered unit price and then adding the total of each line.

v. Initial Evaluation Results and Establishment of a Competitive Range

Following the initial evaluation for overall acceptability, the Government reserves the right to make an award based on the initial offers submitted. However, if discussions are held, the initial price submission will be used to establish the competitive range. Overall unacceptable offers may be included in the competitive range if the SSA finds that their proposals are susceptible to being made acceptable through discussions. Offerors whose proposals are so deficient that they are not reasonably deemed to be susceptible to being made acceptable through discussions may be excluded from the competitive range. Overall acceptable offers may be included in or excluded from the competitive range based on consideration of their initial price submission compared to the other offerors' price submissions.

The Government may hold discussions with offerors in the competitive range to rectify any aspects of their proposal that do not meet the requirements of the solicitation. Offerors not determined to be in the competitive range will be notified in writing and are therefore not considered for an award.

vi. Final Evaluation Results.

If discussions are held and a competitive range is established, the lowest price offerors will be determined based on FPR. Price discussions may be conducted using the FPR. All offerors whose proposals are included in the competitive range will be notified of the date and time of the FPR.

DLA Troop Support intends to conduct a price analysis to validate the price reasonableness of the offered price. The price analysis will not only evaluate competition but will also compare the final offered price to historical data of the same or similar type contracts and/or commercial prices.

This solicitation is subject to DFARS 225.4 - Trade Agreements as implemented by DFARS 252.225-7021 contained in this solicitation. Additionally, evaluations will be in accordance with DFARS Subpart 225.5.

vii. Award Selection.

The Source Selection Authority (SSA) will determine which proposal is the lowest price technically acceptable. The lowest price technically acceptable offeror will receive the contract award if determined to be responsible in accordance with FAR Subpart 9.1 and otherwise eligible for award. The overall lowest evaluated aggregate price will be determined by multiplying the estimated quantity for each line item, including options, by the offered unit price and then adding the total of each line.

(b) Options: The Government will evaluate offers for award purposes by adding the

total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

- (c) A written notice of award, or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer, whether there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(h) *Certification Regarding Responsibility Matters (Executive Order 12689)*. (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) ☐ Are, ☐ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ☐ Have, ☐ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples.*

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). DLAD 5452.233-9001 Disputes: Agreement to Use Alternative Dispute Resolution (JUN 2020)
--

(a) The parties agree to negotiate with each other to try to resolve any disputes that may arise. If unassisted negotiations are unsuccessful, the parties will use alternative dispute resolution (ADR) techniques to try to resolve the dispute. Litigation will only be considered as a last resort when ADR is unsuccessful or has been documented by the party rejecting ADR to be inappropriate for resolving the dispute.

(b) Before either party determines ADR inappropriate, that party must discuss the use of ADR with the other party. The documentation rejecting ADR must be signed by an official authorized to bind the contractor (see FAR 52.233-1), or, for the Agency, by the contracting officer, and approved at a level above the contracting officer after consultation with the ADR Specialist and legal counsel. Contractor personnel are also encouraged to include the ADR Specialist in their discussions with the contracting officer before determining ADR to be inappropriate.

(c) If you wish to opt out of this clause, check here ☐ . Alternate wording may be negotiated with the contracting officer.

Procurement Notes

L02 Electronic Order Transmission (JUN 2020)

Offerors shall select one of the following alternatives for paperless order transmission:

() American National Standards Institute (ANSI) X12 Standards through a value added network (VAN) approved by DLA Transaction Services; or () Electronic mail (email) award notifications containing web links to electronic copies of the Department of Defense (DD) Form 1155, Order for Supplies or Services. Offerors must register on the DLA Internet Bid Board System (DIBBS) (<https://www.dibbs.bsm.dla.mil/>) to receive email notification. If the offeror elects ANSI/VAN order transmission, DLA will send Electronic Data Interchange (EDI) transaction sets at time of award. The contractor shall acknowledge receipt of transaction sets with a functional acknowledgement or order receipt message within 24 hours. If the contractor receives the award transaction set on a weekend or Federal holiday, the contractor shall acknowledge receipt on the next business day. This acknowledgement will confirm that the contractor's interface with the system is working as needed for contract ordering. Offerors can obtain information regarding EDI, ANSI X12 transactions, and VANs approved by DLA Transaction Services at Defense Automatic Addressing System (DAAS) Value Added Network List (<https://www.transactionservices.dla.mil/daashome/edi-vanlist-dla.asp>). Offerors should direct questions concerning electronic ordering to the appropriate procuring organization point of contact below: DLA Land and Maritime, Helpdesk.EBS.L&M.LTCs@dla.mil DLA Troop Support, dlaedigroup@dla.mil DLA Aviation, avnprocsysproceddiv@dla.mil, phone # 804-279-4026

Independent review by the CCO is an alternative to consideration by the contracting officer and is not available as an appellate review of a contracting officer decision on a protest previously filed with the contracting officer. Absent a clear indication of the intent to file an agency level protest with the CCO for independent review, protests will be presumed to be protests to the contracting officer.
