

PERFORMANCE WORK STATEMENT (PWS)

For Non-Sewer Portable Latrines and Hand Wash Stations

April 24, 2026

32 MONTH ORDERING PERIOD OF PERFORMANCE

1 August 2026 – 31 March 2029

Part 1

General Information

1. General: This is a non-personal services contract to provide lease non-sewer portable latrines and hand wash stations. The Government shall not exercise any supervision or control over the contract provider providing leased latrines and hand wash stations herein. Contractor is responsible for providing leased equipment to the Government.

1.1 Description of Leasing/Introduction: This Performance Work Statement (PWS) describes the requirement to provide non-sewer portable latrines and hand-wash stations in support of the training and facilities at various sites within the National Training Center (NTC) and Fort Irwin, California. Specifically, latrines and hand-wash stations shall be placed throughout the entire NTC, Barstow/Daggett, Marine Corps Logistics Base (MCLB) Yermo, and the Southern California Logistics Airport (SCLA) located in Victorville, California.

1.2 Background: Fort Irwin & the National Training Center is a world-class training center for America's Military, known for its excellent desert training, vast recreational opportunities, and history. The mission of the NTC is to provide tough, realistic, joint and combined arms training in multi-national venues across the full spectrum of conflict set in a contemporary operating environment to assist Commanders in developing trained, competent leaders and Soldiers by presenting them with current problem sets to improve the force and prepare for success and to "Win the First Fight."

1.3 Scope: This requirement is to provide non-sewer portable latrines and hand wash stations in support of the training mission at various sites within the boundaries of the National Training Center (NTC), Fort Irwin and surrounding areas described in paragraph 1.1. Lease of portable latrines and hand wash stations include delivery, relocation, and pick-up/removal of maintained usable leased equipment. Latrines and hand wash stations are to always be in a usable/functional status during the lease period. Historically, the ratio of latrines has been one (1) latrine for every 25 males or 18 females. The hand wash station ratio has been approximately one (1) for every ten (10) latrines. Combined requirements typically consist of placement/movement of 700 to 8,000 latrines and hand wash stations simultaneously.

1.4 Objectives: Desert sand-colored latrines and hand wash stations are required in keeping with the desert background, which aids in making the training environment as realistic as possible and does not present a distraction. Desert terrain conditions consist of open areas, mountain ranges, valleys and hills. In many areas, the terrain is rough and there are no paved

roads outside of the main cantonment area. Temperatures average from a summer high of 120 degrees Fahrenheit to a low in winter of 37 degrees Fahrenheit. Average precipitation is four (4) to six (6) inches per year. High severe winds are common.

Period of Performance (POP): The Government anticipates award of a single Indefinite Delivery, Indefinite Quantity (IDIQ) contract for a base year with two (2) option periods beginning the date of award.

1.5 General Information:

1.5.1 Quality Control Plan (QCP): The Contractor shall develop, implement, and maintain a QCP and program to ensure all work described in this contract is performed at or above the standard defined in the Performance Requirements Summary (PRS) (**Deliverable #1**). The Contractor shall develop and maintain a QCP to ensure services are performed in accordance with (IAW) this PWS. The Contractor shall develop and implement procedures to identify, prevent, and ensure non-recurrence of defective services. The Contractor's QCP is how it assures that the work provided complies with the requirements of the contract.

The Contractor shall develop and implement procedures to identify, prevent, and ensure non-recurrence of defective services. The Contractor shall submit their QC Plan as part of the Contractor's proposal. The QCP shall be submitted within thirty (30) days of contract award. After acceptance of the QCP, the Contractor shall receive the contracting officer's (KO) acceptance in writing of proposed changes to the QC procedures. The Contractor shall submit QCP changes within five (5) days to the KO and Contracting Officer's Representative (COR) for review and approval prior to implementation.

The Government will review and either notify the Contractor in writing of acceptance of the plan or return their comments to the Contractor within fifteen (15) days. If the Government has provided comments, the Contractor shall then have 30 days to submit a Final QCP. After the receipt of the Final QCP, the Contractor may receive the Contracting Officer's acceptance in writing. Any proposed changes to the accepted QCP are required to be resubmitted for acceptance by the Contracting Officer no later than 30 days prior to the anticipated change and before implementation by the Contractor. The timeline noted above will apply for review and acceptance of proposed changes.

The QCP shall address as a minimum:

1.5.1.1 Inspection Program: Included shall be a quality control inspection program covering all general and specific tasks included in the contract scope of work. It shall specify tasks or areas to be inspected on a scheduled or unscheduled basis, the way inspections are to be conducted, the titles of the individuals who will perform the inspections, and the percentage of the work that will be inspected on a recurring basis. In developing this inspection program, the Contractor shall identify the key activities and associated characteristics in each process that have a significant influence on specific services and provide for methods for evaluation of the selected characteristics. A chart showing the organizational structure and lines of authority, the names, qualifications, duties, responsibilities, and classification of each member of the Contractor's Quality Control Team.

1.5.1.2 Deficiency Identification: The QCP shall include a method of identifying deficiencies in the quality of services performed before the level of performance becomes unacceptable as defined in the PRS. This shall contain processes for corrective action without dependence upon Government direction.

1.5.1.3 Deficiency Correction: The program shall contain process control and process performance measurement procedures that shall include how the Contractor shall implement preventive corrective actions. The Contractor shall demonstrate that it has designed quality into the delivery of services thereby mitigating the risk(s) associated with delivery of deficient or nonconforming services.

1.5.1.4 Documentation and Enforcement: The QCP shall include a method of documenting and enforcing quality control operations of both prime contractor and subcontractor work; including inspection and testing. The Contractor will file and save all Quality Control related documents for the life of the contract plus 5 years.

1.5.1.5 Trend Analysis: The QCP shall include a method of performing trend analysis and assessments through the use of metrics.

1.5.1.6 Surveillance Methods: The QCP shall contain specific surveillance techniques for all contract services. The surveillance methods shall be comprehensive and adaptable to the reporting system of the plan.

1.5.2 Quality Assurance: The Government will evaluate the Contractor's performance under this contract in accordance with the Quality Assurance Surveillance Plan (QASP). This plan is primarily focused on what the Government must do to ensure that the Contractor has performed in accordance with the performance standards. It defines how the performance standards will be applied, the frequency of surveillance, and the acceptable quality levels (performance thresholds).

1.5.3 Recognized Federal Holidays: The Contractor shall be required to provide non-sewer portable latrines and hand-wash stations on holidays. The following provides information on recognized holidays for the purpose of the PWS. If submittal of any documentation (e.g. deliverables, submittals, etc.) deadlines fall on a holiday, the closest workday prior to the holiday will apply as the deadline for submittal.

New Year's Day (1 January)
Martin Luther King Jr. Birthday (Third Monday in January)
President's Day (Third Monday in February)
Memorial Day (Last Monday in May)
Juneteenth Day (19 June)
Independence Day (4 July)
Labor Day (First Monday in September)
Columbus Day (Second Monday in October)
Veterans Day (11 November)

Thanksgiving Day (Fourth Thursday in November)
Christmas Day (25 December)

1.5.4 Operating Hours: The Government facility office hours, facility operating hours, and the Contractor support hour requirements often coincide, however, they may differ. Please refer to the following:

1.5.4.1 Government Hours of Operation: The Contractor is responsible for conducting business during daylight hours, including Saturday, Sunday and Federal and local holidays except for a Government facility closure due to local or national emergencies, administrative closings, or similar Government directed facility closings. The Contractor will adhere to the national emergencies guidance and contact the KO for further instructions. Contingency Operating hours will be in conjunction with the operational tempo of the tasking and needs of the installation per Task Order.

1.5.4.2 Government Facility Office/Operating Hours: Reserved.

1.5.4.3 Contractor Support Hours: The Contractor shall always maintain an adequate workforce for the uninterrupted performance of all tasks defined within this PWS when the Government facility is not closed for the above reasons. When hiring personnel, the Contractor shall keep in mind that the stability and continuity of the workforce is essential.

1.5.4.3.1 Contractor Work Plan: Contractor shall prepare and maintain a Work Plan. The plan, as a minimum, shall identify regularly scheduled work (to include location, work to be completed, timeline, etc). The Contractor's proposed Work Plan shall be submitted to the Contracting Officer via the COR for review within thirty (30) days after date of contract award (**Deliverable #2**). the Government will review and either accept or return their comments to the Contractor within ten (10) days. The Contractor shall then have three (3) days to submit a Final Work Plan. Any proposed change to the accepted Final Work Plan is required to be resubmitted via the COR for review and acceptance by the Contracting Officer at a minimum thirty (30) days.

1.5.5 Training Holidays: Reserved.

1.5.6 Place of Performance: Portable latrines shall be delivered on a Task Order basis at various sites within the boundaries of the NTC and surrounding areas of Fort Irwin California.

1.6 Security Requirements: The following information is provided on security related matters:

1.6.1 Security Program: Reserved.

1.6.2 Personnel Security Clearance Requirements: Contractor personnel performing work under this contract must have an active personnel security clearance as a Tier 1 Non-Sensitive Position Level. This means at minimum personnel must have a National Agencies Check Inquiry in the Defense Information System for Security (DISS) at time of the proposal

submission and must maintain the level of security required for the life of the contract. The security requirements are IAW the DoD Contract Security Classification Specification DD Form 254. The Contractor shall ensure that contractor employees and subcontractor employees performing services under this contract comply with FAR 52.204-2 Security Requirements when the employee has access to information classified "Confidential", "Secret", or "Top Secret." The Contractor shall ensure the employee complies with the DOD Security Agreement (DD Form 441), and the NISPOM rule at 32 Code of Federal Regulation (CFR) Part 117, effective 28 Feb 2026. The NISPOM is the National Industrial Security Program Operating Manual to which contractors must implement and comply.

1.6.3 Access and general protection/security policy and procedures: Contractor and all associated subcontractor employees shall comply with applicable installation, facility and area commander installation/facility access and local security policies and procedures (provided by Government representatives). The employees performing services under this contract shall also provide all information required for background checks to meet installation access requirements to be accomplished by installation Provost Marshal Office, Director Of Emergency Services or Security Office. Contractor workforce must comply with all personal identity verification requirements (FAR clause 52.204-9), Personal Identity Verification of Contractor Personnel) as directed by DOD, HQDA, and/or local policy. In addition to the changes otherwise authorized by the changes clause of this contract, should the US Government Force Protection Condition (FPCON) at any individual facility or installation change, the Government may require changes in contractor security matters or processes IAW DoDI 2000.16. The current FPCON is "BRAVO." During FPCON Charlie and Delta, only contract services will resume when the FPCON is reduced to Bravo or lower.

1.6.3.1 Escorts: (As Determined by AT/OPSEC Review): Reserved.

1.6.3.2 Installation Access: The Contractor shall provide the Contracting Officer, via the COR, with an initial Fort Irwin Access Request within three (3) calendar days after contract award (**Deliverable #3**) and see **Attachment 7** for a Fort Irwin Access Request Memorandum example. The Access Request memorandum must at a minimum contain the following information: Personnel Full Last and First Name, State Driver license and Date of Birth. The Access Request memorandum shall be updated as employees are added or removed. The Access Request memorandum shall be current and available at any time upon request by the Government and submitted to the COR within five (5) days after any changes (**Deliverable #3**).

1.6.3.3 Individual Termination or Expiration of Employment: The Contractor shall collect the installation access passes the same day employment of an individual has expired or has been terminated and shall return them to the issuing office within seven (7) days.

1.6.3.4 Contract Termination or Cancellation: Upon termination or cancellation of this contract, the Contractor shall collect all outstanding installation access passes and return them to the issuing office within seven (7) days.

1.6.3.5 Common Access Cards (CAC) and CAC Log: Reserved.

1.6.4 Reserved.

1.6.5 Background Checks: (As Determined by AT/OPSEC Review): The Contractor shall ensure contractor employees and subcontractor employees performing services under this contract have passed a security check conducted by the State Police Department of their U.S. residence. Security checks that have been completed as part of a personnel security clearance background investigation, or a previous background check that was a condition of employment, meet this requirement. Documentation of these checks will be made available to the KO or COR upon request. The Government retains the right to exclude any employee from performance of duties under this contract if a background security check reveals an employee is a security risk. The exclusion of an employee for security reasons will not relieve the Contractor from performance of services required under this contract. If the Government determines additional background checks are required, at a minimum, and upon request from the Government, the Contractor shall provide to the KO or COR, the following information on any contractor or subcontractor employee performing services under this contract:

- Full birth name
- Married name (if applicable)
- SSN or local equivalent (ID card number)
- Date of birth
- Place of birth (city, country)

1.6.5.1 Background Check Notification Requirements: If a background check on any employee or subcontractor employee performing services under this contract, whether the check was conducted as a condition of employment or as part of the contract with the Government, reveals any information from any source (including host country law enforcement) of criminal activity by contractor employees, subcontractors, or subcontractor employees, the Contractor shall immediately notify the KO and COR of that information. The Contractor shall make notification of:

(1) Traffic violations, other than parking, will be reported to the KO or COR only if the contract is for drivers for the Government;

(2) Any suspicious activity by contractor employees, subcontractors, or subcontractor employees the Contractor believes may pose a risk to U.S. or host nation national security or imminent risk of deadly bodily harm to any person; and

(3) Any actions taken against contractor employees, subcontractors, or subcontractor employees pursuant to this requirement.

1.6.5.2 Remedies: In addition to other remedies available to the Government, the Contractor's failure to comply with the requirements of this paragraph may result in requiring the Contractor to remove a contractor employee or employees from the performance of the contract.

1.6.5.3 Subcontracts: The Contractor shall include the substance of this paragraph and the preceding paragraph in all subcontracts.

1.6.6 Uncleared Contractor Common Access Card (CAC) Credentialing and Access Procedures: Reserved.

1.6.6.1 Contractor Common Access Card (CAC) Eligible Requirements: Reserved.

1.6.6.1.1 Federal Installation/Facility Access: (As Determined by AT/OPSEC Review): See paragraph 1.6.3.

1.6.6.2. Contractor Non CAC Eligible Requirements for DOD Facility and Installation Access: (As Determined by AT/OPSEC Review): Contractor and all associated subcontractor employees shall comply with adjudication standards and procedures using the National Crime Information Center Interstate Identification Index (NCIC-III) and Terrorist Screening Database (TSDB) (Army Directive 2014-05/AR 190-13), applicable installation, facility and area commander installation/facility access and local security policies and procedures (provided by Government representatives), or, at OCONUS locations, in accordance with status of forces agreements and other theater regulations.

1.6.7 Access to Government Information Systems: (As determined by AT/OPSEC Review): All contractor employees and subcontractor employees performing services under this contract who have access to a Government information system must be registered in the ATCTS (Army Training Certification Tracking System) at commencement of services and must successfully complete the DoD Information Assurance Awareness training prior to accessing the information system, and then annually thereafter.

1.6.8 Physical Security: The Contractor shall safeguard all Government equipment, information, and property provided for Contractor use. At the close of each work period, Government facilities, equipment, and materials shall be secured IAW the Army Physical Security Program (AR 190-13).

1.6.9 Operations Security (OPSEC) Requirements: Contractor personnel shall adhere to facility security policies and restrictions. The Contractor shall immediately report suspicious activities to security personnel. Government issued access badges shall not be worn outside designated facilities where visible to the public.

1.6.9.1 Operations Security (OPSEC) SOP/Plan Requirements: (As determined by AT/OPSEC Review): The Contractor shall implement and maintain an OPSEC program for preventing the disclosure of critical information or sensitive information which could jeopardize the Government's ability to execute its mission or to adequately protect its personnel and/or equipment. The Contractor shall develop an OPSEC Standing Operating Procedure (SOP)/plan within 90 calendar days of contract award to the Contracting Officer Representative (COR) or Contracting Officer (KO) to be reviewed and approved by the Government OPSEC Officer on the supporting installation. The SOP must contain a training

plan that includes an initial OPSEC brief, continuous awareness, and annual OPSEC training. This plan will include a process to identify critical information, where it is located, who is responsible for it, how to protect it and why it needs to be protected. The Contractor shall implement OPSEC measures as ordered by the commander. Awareness/training shall include, but is not limited to information disclosure via letters, conversations, photographs, resumes, electronic mail (e-mail), social media/networking sites, dissemination of information and document disposal. OPSEC Program shall fully comply with the provisions of AR 530-1, Operations Security shall have an identified certified Level II OPSEC coordinator.

1.7 Key Control: Reserved.

1.8 Post Award Conference/Periodic Progress Meetings: The Contractor shall attend post award conference convened by the contracting activity or contract administration office in accordance with FAR Subpart 42.5. The Contracting Officer, COR, and other Government personnel, as appropriate, may meet periodically with the Contractor to review the Contractor's performance. At these meetings the Contracting Officer will apprise the Contractor of how the Government views the Contractor's performance and the Contractor shall apprise the Government of problems, if any, being experienced. Appropriate action shall be taken to resolve outstanding issues. These meetings shall be at no additional cost to the Government.

1.8.1 The Contractor shall attend, participate in, and furnish input to scheduled and unscheduled meetings, conferences, and briefings that relate to the functions and services herein as required by the Government to provide effective communication and impart necessary information. The Contract Manager or designated representative shall attend meetings as requested by the Government. Meeting attendees shall at times include Contractor managerial, supervisory, and other personnel knowledgeable of the subject matter. Meetings may start or end outside of regular duty hours.

1.9 Contracting Officer's Representative (COR): Refer to Part 2 of this PWS for the definition of a COR. As determined by the Contracting Officer, a COR will be appointed and identified by letter of designation, a copy of which will be provided to the Contractor by the Contracting Officer. The designation letter states the responsibilities and limitations of the COR, especially with regard to changes in cost or price, estimates, or changes in delivery dates. The COR is not authorized to change any of the terms and conditions of the resulting order. The COR monitors all technical aspects of the contract and assists in contract administration. The COR is not authorized to obligate the Government. If the work is not written in the contract, the COR is not authorized to request new work. The COR is authorized to perform the following functions: assure that the Contractor performs the technical requirements of the contract, perform inspections necessary in connection with contract performance, maintain written and oral communications with the Contractor concerning technical aspects of the contract, issue written interpretations of technical requirements, including Government drawings, designs, specifications, monitor Contractor's performance and notifies both the Contracting Officer and Contractor of any deficiencies, coordinate availability of Government property, and coordinate site entry of Contractor personnel.

1.9.1 Type of Contract: The Government intends to award a firm fixed priced IDIQ contract. The ordering period for this contract is for one (1) Base Year with two (2) Option Year periods from date of award. Ordering against this contract will be limited to MICC-Fort Irwin contracting activities only.

1.10 Key Personnel: The following personnel are considered key personnel by the Government: Contract Manager and Alternate Contract Manager. The Contractor shall provide a Contract Manager who shall be responsible for the performance of the work. The name of this person and an Alternate Contract Manager, who shall act for the Contractor when the Contract Manager is absent, along with a resume for each of these individuals, shall be provided with proposal. The Contract Manager and Alternate Contract Manager shall have full authority to act for the Contractor on all contract matters relating to daily operation of this contract. The Contract Manager or Alternate Contract Manager shall be available during the number of hours per day the Contractor provides services IAW the contract.

a. Contract Manager: Must demonstrate, at a minimum, three (3) years of experience working as a Contract Manager and be able to provide resumes that demonstrate experiences with Latrine and Hand Wash Station distribution.

b. Alternate Contract Manager: Must demonstrate, at a minimum, two (2) years of experience working as a Contract Manager and be able to provide resumes that demonstrate experiences with Latrine and Hand Wash Station distribution.

1.11 Identification of Contractor Employees: All Contractor personnel attending meetings, answering Government telephones, and working in other situations where their Contractor status is not obvious to third parties must identify themselves, to include proper marking of signature blocks in correspondence, to avoid creating an impression in the minds of members of the public that they are Government officials. The Contractor shall ensure that all documents or reports, produced by Contractors are suitably marked as Contractor products or that Contractor participation is appropriately disclosed.

1.12 Uniform: (As determined by AT/OPSEC Review): Reserved.

1.13 Contractor Travel: Reserved.

1.14 Other Direct Costs (ODCs): Reserved.

1.15 Data Rights: The Government has unlimited rights to all documents and materials produced under this contract. All documents and materials, to include the source codes of software, produced under this contract shall be Government owned and are the property of the Government with all rights and privileges of ownership and copyright belonging exclusively to the Government. These documents and materials may not be used or sold by the Contractor without written permission from the Contracting Officer. All materials supplied to the Government shall be the sole property of the Government and may not be used for any other purpose. This right does not abrogate any other Government rights.

1.16 Non-Disclosure Requirements: Performance under this contract may require the Contractor to access data and information proprietary to a Government agency, another Government Contractor, or of such nature that its dissemination or use other than as specified in this work statement would be adverse to the interests of the Government or others. The Contractor and Contractor personnel, shall not divulge or release data or information developed, or obtained under performance of this PWS, except to authorized Government personnel or upon written approval of the Contracting Officer. The Contractor shall not use, disclose, or reproduce proprietary data, which bears a restrictive legend, other than as specified in this PWS. All documentation showing individual names or other personal information shall be controlled and protected under the provisions of the Privacy Act of 1974, Public Law 93-579, 5 United States Code (U.S.C.) Section 552a.

1.17 Protection of Government and Contract Information: Per Public Use Notice of Limitations stated by Defense Media Activity (formerly known as the Defense Imagery Management Operations Center) and contained at www.dma.mil the Contractor shall not cite any information (e.g., contract information, pictures, locations, etc.) obtained through this contract on any hard copy or digital marketing tools to include its company website.

1.18 Non-Disclosure Statements: Reserved.

1.19 Advertisement and Social Media: The Contractor shall NOT post information to public websites or social media locations, personal or professional, that in any way disclose names, locations, hotel data, participants, discussions, pictures, etc. before, during or after the contract period of performance without the express consent of the Government. The use of propaganda violates DoD Commercial Use of Imagery Guidelines stated at www.dma.mil. The Contractor shall not cite any information (e.g., contract information, pictures, locations, etc.) obtained through this contract on any marketing tools to include its company website.

1.20 Information Assurance: At no time will the Contractor or associated subcontractor employees transmit Government documents or information over using methods that do not meet the security requirements specified in the National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, "Protecting Controlled Unclassified Information (CUI) in Nonfederal Information Systems and Organizations" such as personal electronic mail accounts, public digital data storage sites (cloud storage), social media platforms or instant messaging. Approved Government sites such as DoD SAFE at <https://safe.apps.mil>, or other transmission means determined by the Government must be used.

1.21 Organizational Conflict of Interest (OCI): Contractor and subcontractor personnel performing work under this contract may receive, have access to or participate in the development of proprietary or source selection information (e.g., cost or pricing information, budget information or analyses, specifications or work statements, etc.) or perform evaluation services which may create a current or subsequent OCI as defined in FAR Subpart 9.5. The Contractor shall notify the Contracting Officer immediately whenever it becomes aware that such access or participation may result in any actual or potential OCI and shall promptly submit a plan to the Contracting Officer to avoid or mitigate any such OCI (**Deliverable #4**). The Contractor's OCI Mitigation Plan will be determined to be acceptable solely at the

discretion of the Contracting Officer. In the event the Contracting Officer unilaterally determines that any such OCI cannot be satisfactorily avoided or mitigated, the Contracting Officer may affect other remedies as he or she deems necessary, including prohibiting the Contractor from participation in subsequent contracted requirements which may be affected by the OCI. The OCI Mitigation Plan is submitted by the Contractor to the Contracting Officer during the time of Proposal.

1.22 Phase In /Phase Out Period: To minimize decreases in productivity and to prevent possible negative impacts on additional services, the Contractor shall have personnel on board, during the thirty (30) day phase in/ phase out periods. During the phase in period, the Contractor shall become familiar with performance requirements in order to commence full performance of services on the contract start date.

1.23 Safety: The following provides information pertaining to Safety and Accident Prevention:

1.23.1 Safety Laws and Regulations: The Contractor shall comply with FAR 52.236-13, Accident Prevention (November 1991). The requirements under FAR 52.236-13 include, but are not limited to the following: Before initiation of work at the job site, an Accident Prevention Plan, written by the Contractor for the specific work and hazards of the contract and implementing in detail the pertinent requirements of FAR 52.236.13; will be reviewed for acceptance by designated Government personnel (**Deliverable #5**). The Accident Prevention Plan is due thirty (30) days after award to the KO or COR.

1.23.1.1 In addition to other requirements for accident prevention specified in this contract, the Contractor shall comply with all Federal and State requirements governing safety and health protection on construction sites and other applicable occupational safety codes.

1.23.1.2 The Contractor shall indicate its plan for compliance considering conditions of the work described by the design, technical proposal, operational activities of the Government or others in the area of the work, identification of the coordinator, and implementation of all other accident prevention provisions of this contract.

1.23.1.3 The Contractor shall complete and provide safety notifications required by Local, State, and Federal authorities and will provide documented proof to the Contracting Officer, via the COR, no later than seven (7) days, that such notifications were made.

1.24 Environmental Compliance, Plan, and Program: Reserved.

1.25 Required Training: The following provides information on training requirements:

1.25.1 Anti-Terrorism (AT) Level I Training: All Contractor employees, including subcontractor employees, who are employed under the contract, shall complete AT Level I Training within thirty (30) days (**Deliverable #6**) after contract start date or effective date of the incorporation of this requirement into the contract, whichever applies, or thirty (30) days after employment of new personnel. Contractor personnel travelling overseas shall complete area of

responsibility (AOR) specific AT awareness training for U.S. based Contractor employees and associated subcontractor employees. The Contractor shall submit certificates of completion (**Deliverable #6**) for each affected Contractor employee and subcontractor employee to the COR (or to the Contracting Officer, if a COR is not assigned) within thirty (30) days after completion of this training by all employees and subcontractor personnel. AT Level I awareness training is available at <https://jkodirect.jten.mil>. Contractor personnel shall complete refresher training (**Deliverable #6**) every twelve (12) months except AOR specific AT Level I training which shall be completed as required by local AT policies.

1.25.1.1 If training cannot be conducted on the website, the Contractor shall coordinate with the COR who will contact the local AT Officer at their assigned location for classroom training. Contractor personnel completing training in the classroom will receive a certificate or the training attendance roster signed by the AT Officer. Verification of the training shall be provided to the COR within thirty (30) days after completion of the training (**Deliverable #6**).

1.25.2 OPSEC Training: All Contractor employees, including subcontractors, shall complete Level I OPSEC training within thirty (30) days of employment under this contract (**Deliverable #6**). Verification of the training shall be provided to the COR within within thirty (30) days after completion of the training (**Deliverable #6**). OPSEC Level I training is available at www.cdse.edu. Contractor personnel must complete refresher training every 12 months (**Deliverable #6**). Verification of the training shall be provided to the COR within thirty (30) days after completion of the training (**Deliverable #6**).

1.25.2.1 If training cannot be conducted on the website, the Contractor shall coordinate with the COR, who will contact the local OPSEC Officer at their assigned location for classroom training. Contractor personnel completing training in the classroom will receive a certificate or the training attendance roster signed by the OPSEC Officer. Verification of the training shall be provided to the COR within thirty (30) days after completion of the training (**Deliverable #6**).

1.25.3 iWATCH Training: The Contractor and all associated subcontractors shall brief all employees on the local iWATCH program (training standards provided by the requiring activity ATO). This locally developed training will be used to inform employees of the types of behavior to watch for and instruct employees to report suspicious activity to the COR. This training shall be completed within thirty (30) days after the contract is awarded and within thirty (30) days after new employees commence contract performance, with the results reported to the COR within thirty (30) days. Verification of the training shall be provided to the COR within thirty (30) days after completion of the training (**Deliverable #6**).

1.25.4 Information Assurance (IA) / Information Technology (IT) Training: Reserved.

1.25.5 Army Training Certification Tracking System (ATCTS): Reserved.

1.25.6 Combating Trafficking in Persons: The Contractor shall notify its employees of the United States Government's zero tolerance policy described in FAR 52.222-50(c) paragraph (b) the actions that will be taken against employees for violations of this policy within 30 days of employment under the contract. Such actions may include, but are not limited to, removal

from the contract, reduction in benefits, or termination of employment. This training shall be completed within thirty (30) days after the contract is awarded and within thirty (30) days after new employees commence contract performance, with the results reported to the COR within thirty (30) days. Verification of the training shall be provided to the COR within thirty (30) days after completion of the training (**Deliverable #6**)

1.25.7 Threat Awareness Reporting Program (TARP Training): Within 30 calendar days after contract start date or effective date of incorporation of this requirement into the contract, whichever applies, or 30 calendar days after employment of new personnel, all Contractor employees, including subcontractor employees, who are employed under the contract and require a security clearance, shall complete TARP training within 30 calendar days after contract start date or effective date of incorporation of this requirement into the contract, whichever applies. The Contractor shall submit certificates of completion for each affected Contractor employee and subcontractor employee to the Government Representative within 30 calendar days after completion of training by all employees and subcontractor personnel (**Deliverable #6**). TARP training is available at the Army Learning Management System (ALMS) <https://www.lms.army.mil/>. Training must have been completed within the last 12 months and maintained yearly thereafter. If training cannot be conducted on the website, the Contractor will coordinate with the local Counter Intelligence (CI) Officer at their assigned location for classroom training and a copy of either the training certificate or the training attendance roster signed by the CI Officer will be maintained by the Contractor. Verification of the training will be provided to the Contracting Officer (KO) or Contracting Officer Representative (COR) within 30 calendar days after completion of the training.

1.25.8 NTC Range Safety Training: The Contractor shall ensure all employees attend and complete the NTC Range Safety Course within 30 days of employment under the contract. Contractor is responsible for contacting Range Operations at (760) 380-3878 and schedule the course for their employees.

1.25.8.1 If training cannot be conducted on the website, the Contractor shall coordinate with the COR, who will contact the local OPSEC Officer at their assigned location for classroom training. Contractor personnel completing training in the classroom will receive a certificate or the training attendance roster signed by the Range Officer. Verification of the training shall be provided to the COR within thirty (30) days after completion of the training (**Deliverable #6**).

1.25.9 Personally Identifiable Information (PII): Reserved.

1.26 Government Property and Services: Reserved.

1.27 Safety Requirements:

1.27.1 The Contractor shall comply with all OSHA, State, U.S. Army Fort Irwin, CA and other applicable industry safety standards.

1.27.2 The Contractor shall observe and comply with all local policies and procedures concerning fire, safety, environmental protection, sanitation, security, and possession of firearms or other lethal or illegal weapons or substances.

1.27.3 The Contractor shall report all accidents and occupational illnesses immediately to the Fort Irwin Safety Office through the Contracting Officer's Representative (COR).

1.28 Task Order Placement Procedures: Task orders will be awarded in accordance with FAR 16.505, Ordering.

1.29 Ordering Procedures: The Non-Sewer Portable Latrines, Hand Wash Stations, Task Order Contract Ordering Guide for placing individual task orders is available at the local MICC.

PART 2 DEFINITIONS & ACRONYMS

2. Definitions and Acronyms

2.1 Definitions:

Contractor - means a supplier or vendor awarded a contract to provide specific supplies or service to the Government. The term used in this contract refers to the prime.

Contracting Officer (KO) - means a person with the authority to enter into, administer, and/or terminate contracts and make related determinations and findings on behalf of the Government. Note: The only individual who can legally bind the Government.

Contracting Officer's Representative (COR) - As defined in DFARS 202.101, means an individual designated and authorized in writing by the Contracting Officer to perform specific technical or administrative functions. DoD Instruction (DoDI) 5000.72, Part II Definitions states the following when defining a COR: "Defined in subpart 202.101 of Reference (f). Any individual delegated responsibilities pursuant to subpart 1.602-2 of Reference (e), regardless of local terminology, must be certified in accordance with this instruction. For example, local terminology can be COR, Contracting Officer's technical representative, technical point of contact, technical representative, alternate COR, administrative COR, assistant COR, line item manager, task order manager, quality assurance personnel, quality assurance evaluator, or COR management." In addition, Army Regulation 70-13, Chapter 2, paragraph 2-2g, states, in part, the following when providing other surveillance support personnel to assist the COR when needed, "...These other surveillance support personnel may serve as on-site representatives of the COR in performance of actual contract surveillance if they meet all COR requirements and have been appointed by the Contracting Officer as alternate CORs."

Contractor-acquired Property - means property acquired, fabricated, or otherwise provided by the Contractor for performing a contract and to which the Government has title.

Day - means, unless otherwise specified, a calendar day.

Defective Service - means a service output that does not meet the standard of performance associated with the Performance Work Statement.

Deliverable - means anything that can be physically delivered but may include non-manufactured things such as meeting minutes or reports.

Government-furnished Property - As reflected in FAR 52.245-1, Government-furnished Property means property in the possession of, or directly acquired by, the Government and subsequently furnished to the Contractor for performance of a contract. Government-furnished property includes, but is not limited to, spares and property furnished for repair, maintenance, overhaul, or modification. Government-furnished property also includes contractor-acquired property if the contractor-acquired property is a deliverable under a cost contract when accepted by the Government for continued use under the contract

Government Property - means all property owned or leased by the Government. Government property includes both Government-furnished and Contractor-acquired property. Government property includes material, equipment, special tooling, special test equipment, and real property. Government property does not include intellectual property and software.

Key Personnel - Contractor personnel that are evacuated in a source selection process and that may be required to be used in the performance of a contract by the Key Personnel listed in the PWS. When key personnel are used as an evaluation factor in best value procurement, an offer can be rejected if it does not have a firm commitment from the people that are listed in the proposal.

Performance Work Statement (PWS) - A statement of work for performance-based acquisitions that describes the required results in clear, specific, and objective terms with measurable outcomes.

Physical Security - means that part of security concerned with physical measures designed to safeguard personnel; to prevent unauthorized access to equipment, installations, material, and documents; and to safeguard against espionage, sabotage, damage, and theft.

Point of Contact (POC) - POC must have authority to act on behalf of the organization.

Property Administrator - means an authorized representative of the Contracting Officer appointed in accordance with agency procedures, responsible for administering the contract requirements and obligations relating to Government property in the possession of a Contractor.

Quality Assurance - (or Government contract quality assurance) means the various functions, including inspection, performed by the Government to determine whether a Contractor has fulfilled the contract obligations pertaining to quality and quantity.

Quality Assurance Surveillance Plan (QASP) - means the key Government-developed surveillance process document and is applied to Performance-Based Service Contracting (PBSC). The QASP is used for managing Contractor performance assessment by ensuring that systematic quality assurance methods validate that Contractor quality control efforts are timely, effective, and are delivering the results specified in the contract or task order. The QASP directly corresponds to the performance objectives and standards (i.e., quality, quantity, timeliness) specified in the Performance Work Statement (PWS). It provides specific details on how the Government will survey, observe, test, sample, evaluate, and document Contractor performance results to determine if the Contractor has met the required standards for each objective in the PWS. The QASP, with very few if any exceptions, is an internal to Government document.

Quality Control - means all necessary measures taken by the Contractor to assure that the quality of an end product or service shall meet contract requirements.

Service Day - A standard 24-hour period (or fraction thereof) in which a unit is deployed, physically on the ground, and available for use by Government personnel.

Shall - An imperative command; has a duty to or is required to. Denotes that a regulation must be followed unless the contracting officer has obtained a deviation

Subcontractor - means one that enters into a contract with a prime Contractor. The Government does not have privity of contract with the subcontractor.

Work Day - The number of hours per day the Contractor provides services in accordance with the contract.

Work Week - NTC Fort Irwin work week is specified as Sunday to Saturday, as per Task Order.

2.2 Acronyms: Although not inclusive of every term used within this PWS, or that may be included in an acquisition, the following provides a list of acronyms commonly used in the acquisition field.

ACOR	Alternate Contracting Officer's Representative
ADA	Americans with Disabilities Act
ALMS	Army Learning Management System
ANSI	American National Standards Institute
AOR	Area of Responsibility
AT	Anti-Terrorism
ATCTS	Army Training Certification Tracking System
AFARS	Army Federal Acquisition Regulation Supplement
AR	Army Regulation
CAC	Common Access Card
CCR	California Code of Regulations
CFR	Code of Federal Regulations
CI	Counter Intelligence
CLIN	Contract Line Item Number

CONUS	Continental United States (excludes Alaska and Hawaii)
COR	Contracting Officer Representative
COTS	Commercial-Off-the-Shelf
DA	Department of the Army
DD250	Department of Defense Form 250 (Receiving Report)

PART 3

GOVERNMENT FURNISHED EQUIPMENT (GFE), GOVERNMENT FURNISHED PROPERTY (GFP) AND GOVERNMENT FURNISHED SERVICES

3. Government Furnished Items and Services: Reserved.

3.1 Services: Reserved.

3.1 Emergency and Rescue: Reserved.

3.2 Telecommunications/Utilities: Reserved.

3.3 Government Owned Vehicles: Reserved.

3.4 GFE Tools, Hand Tools, Equipment; Test, Measurement and Diagnostic Equipment (TDME) Calibration Services: Reserved.

3.6 Government Furnished Facilities and Real Property: Reserved.

3.7 Material: Reserved.

PART 4

CONTRACTOR FURNISHED ITEMS AND SERVICES

4. Contractor Furnished Items and Responsibilities:

4.1 General: The Contractor shall provide all equipment, supplies, tools, materials, repair parts, labor, transportation, and personnel oversight for leased latrines and hand-wash stations under this contract.

4.2 Secret Facility Clearance: Reserved.

4.3 Materials: Reserved.

4.4 Vehicles and Equipment:

4.4.1 Storage Area: On-site storage area will not be provided by the Government. Storage of equipment and materials is the responsibility of the Contractor.

4.4.2 Communications Equipment: The Contractor shall provide communications capability for their personnel to allow constant communications contact between the Contractor's POC, Range Operations, KO, identified COR, and the Live Fire Operations Point of Contact. Contractor employees shall not use Government telephones at the work site for personal reasons or make any toll or long-distance calls.

4.4.3 Vehicles: The Contractor shall have registered vehicles in accordance with all current applicable Federal, State, and Local laws, ordinances, and regulations. All vehicle operators shall possess valid state driver's licenses to operate on the installation. The contractor shall provide a list of all vehicles that will be utilized on the contract for the leased latrines and hand wash stations at time of proposal (**Deliverable #7**). Each of the contractor's vehicles shall be equipped with communication equipment to allow for constant communication between the contractor's POC, Range Operations, vehicle drivers, KO and identified COR. If the contractor utilizes cellular phones, the numbers must be provided to Range Operations, vehicle drivers, KO and identified COR prior to starting the POP. If the contractor uses radios for the method of communication, radio frequencies must be coordinated through the frequency control office (G6). A 10-pound ABC type fire extinguisher shall be provided by the contractor for all contract vehicles in operation of portable latrines and hand wash stations. The fire extinguisher shall be tested, approved, labeled, and fully charged and are subject to Government inspection without advance notice by the Government. Information regarding vehicle list requirements can be found in NTC Regulation 385-63 or by contacting Range Operations at 760-380-3878. All vehicles must have a Training Area Vehicle Access Pass to enter the training area.

4.4.4 Latrine Specifications: Latrines shall be desert sand-colored and painted with lusterless enamel finish on the exterior. Each latrine shall be enclosed completely with screened roof ventilation window for release of odors and to prevent entry of insects. Vents will be fitted with a minimum size 16 mesh screening material. Material used for construction of the latrines shall be heavy gauge galvanized metal, plastic, or fiberglass and be impervious to moisture or treated with an effective sealer. Collapsible latrines are not acceptable. All construction joints shall be sealed and contoured to prevent accumulation of dirt. Latrine tank capacity shall be 60 gallons or greater. Container tanks shall be watertight without side vents secured to the tanks. Latrines shall be free of any holes in the walls or doors, have no chemical leaks, and all doors, hinges, and latches shall operate as intended in manufacturer's design. The doors shall be self-closing, tight fitting within ½ inch of the doorframe and shall have an inside fully operational lock and outside handle. All hinges shall be securely attached and tamper resistant. Each latrine shall be equipped with wall-mounted toilet tissue holder, wall-mounted toilet-seat dispenser with disposable toilet seat protective covers, a wall-mounted coat hook and a urinal. Urinals shall be securely fastened to the tank or structure. Toilet tissue holder shall hold a minimum of two (2) rolls of toilet tissue and be constructed in a manner to prevent free reeling of the tissue paper. The urinals and toilet seat shall be rust proof and of a material having a non-absorbent finish. Urinal drains shall have adequate drain flow and/or gravity feed to the holding tank to prevent overflow from the urinal fixture. The contractor shall firmly anchor individually or in groups, each portable latrine with tie-downs, rope, and staking equipment to minimize unforeseen circumstances, which might capsize or cause spillage, see **Attachment 3**.

4.4.5 Hand Wash Station Specifications: All Hand Wash stations shall be desert sand-colored and painted with lusterless enamel finish on the exterior with two (2) countertop areas. Tank capacity shall be not less than 24-gallon potable water capacity and 24 gallons of gray water capacity. Hand wash stations shall have two (2) liquid soap dispensers and a two-capacity paper towel dispenser filled with single-fold towels. Paper towel supply shall be sufficient to last until the next day's service. Soap dispensers shall be fully restocked to 100% capacity during each scheduled daily service. Hand wash stations shall have a foot pump that can pump no less than 1.8 gallon/minute of fresh water, see **Attachment 3**.

4.4.6 Handicap Latrines and Hand Wash Specifications: See paragraphs 4.4.4 and 4.4.5. Additionally, handicap latrines shall be American Disabilities Act (ADA) compliant.

4.4.7 Liquid Waste Hauling Vehicles and Equipment: The Contractor must have Liquid Waste Hauling Vehicles and Equipment resources to successfully support task orders. Four-wheel drive capability is required for all vehicles for rough terrain areas outside of the cantonment to be available throughout the contract period. The contractor shall have California State required permit and tank certification for all liquid waste hauling vehicles in accordance with all current applicable Federal, State, and Local laws, ordinances, and regulations. The contractor shall have equipment capable of moving latrines and hand wash stations to training areas and support area locations. All equipment shall be in accordance with all current applicable Federal, State, and Local laws, ordinances, and regulations. Information regarding these requirements is available at www.sbcounty.gov/dehs. The contractor shall provide an electronic list of all Liquid Waste Hauling Vehicles/Equipment that will be utilized on the contract for the leased latrines and hand wash stations to the KO at time of proposal (**Deliverable #7**).

PART 5 SPECIFIC TASKS

5. Specific Task: This requirement is to provide non-sewer portable latrines and hand wash stations in support of the training mission at various sites within the boundaries of the National Training Center (NTC), Fort Irwin and surrounding areas described in paragraph 1.1. Lease of portable latrines and hand wash stations include delivery, relocation, and pick-up/removal of maintained usable leased equipment. Latrines and hand wash stations are to always be in a usable and functional during the lease period. Historically the ratio of latrines has been one (1) latrine for every 25 males or 18 females. Hand wash stations have been approximately one (1) for every ten (10) latrines. Combined requirements typically consist of placement of 700 to 8,000 latrines and hand wash stations simultaneously.

5.1 Basic Services: The Contractor shall ensure each latrine and hand wash station are always in a usable/functional status. The Contractor shall pump, clean, sanitize, and restock all leased latrines and hand wash stations every 24 hours (daily) for the duration of the Task Order, unless otherwise specified by the Contracting Officer. All latrine and hand wash stations shall be in accordance with (IAW) industry standards and the purpose and intended use as specified by the manufacturer. Immediately after servicing and sanitizing latrines, the

contractor shall document in a database the date, time, and location of each unit serviced. Documented service data shall be submitted to the Government electronically attached in wide area workflow (WAWF) to each invoice for acceptance. All costs associated with the containment and disposal of hazardous waste shall be borne solely by the contractor. Extreme caution shall be taken by the contractor to prevent any spillage of waste during the cleaning process. The contractor shall inspect every site for spillage. Upon any spillage and before proceeding to the next site, the contractor shall complete the Spillage Report. Should the Government have to request one or all of the latrines or hand-wash station on grid to be cleaned due to non-usable/functional status, the contractor shall provide electronically the service data as requested in determining the usable/functional use of the units in question. For being in violation of usable/functional status of each unit, the contractor will be deducted a daily lease rate for the timeframe of a non-usable/functional status, and the contractor will provide immediate service to remedy the violation. The COR shall document the Monthly Status Report in PIEEE/SPM each non-usable/functional status.

5.2 Tasks: Tasks consist of the following:

5.2.1 Initial Delivery and Relocation of Latrines and Hand Wash Stations: Initial deliveries and relocation of latrines and hand wash stations will be coordinated between the KO and/or identified COR. Delivery/placement points or locations will be identified by either building number, vicinity within the cantonment area or by grid coordinates. The contractor shall be required to perform relocations of previously placed latrines hand wash stations within a one (1) mile radius in the same zone area at no additional cost to the Government. A damage fee may be charged for movement of latrines and Hand-Wash Stations in excess of the one-mile (1) radius within the same zone they were initially placed. A relocation fee is only specific to the initial placement zone and a relocation fee shall not be charged for new requirements placed in another zone on the same task order. Delivery/placement of latrines and hand wash stations shall be accomplished within 24 hours of receipt of an order in accordance with the normal duty hours. Orders provided by anyone other than the KO are to be directed back to the Fort Irwin KO for approval for execution. Calls for latrines and hand-wash stations placed after normal duty hours or after the contractor has left the vicinity of Fort Irwin will be referred to the KO or identified COR.

5.2.2 Delivery and Placement of Latrines and Hand Wash Stations: Latrines and hand wash stations shall be placed on a level surface. Latrines shall be placed with the door facing away from prevailing winds and anchored down to prevent tipping over during high wind conditions in excess of 70 miles per hour. IAW Army Field Sanitation standards, the Contractor shall ensure no latrine is placed within 100 meters (downwind) of any dining facility (DFAC) or food service area, and no closer than 30 meters to any natural or man-made water source. The Government will not be responsible for damage caused by winds or other “acts of God.” Upon receipt of an order from the KO, the contractor may coordinate with the on-site task order Point of Contact (POC) for the correct spotting location. If the contractor is unavoidably detained from meeting with the task order POC, it is the contractor’s responsibility to notify the Government KO. The KO or identified COR will determine whether to continue the delivery, reschedule the delivery, or cancel the delivery.

5.2.3 Pick-Up and removal of Latrines and Hand Wash Stations: Upon completion of specified task order period of performance (POP), the contractor shall pick up and remove latrines and hand-wash stations from the installation within 48 hours. This period of time is not chargeable usage time to the Government.

5.2.4 Equipment Markings: Each latrine and hand wash station shall be imprinted with the contractor's name and shall be individually and properly numbered. Letters and numbers shall be white, brown or black in color and a minimum of 3 inches high. Additionally, the latrines and hand wash stations shall be marked with the following: PRIVATE PROPERTY DO NOT REMOVE TO ANOTHER LOCATION. The contractor's vehicles shall be marked with the contractor's name and correct telephone number.

5.2.5 Task Order Requirement: The Contractor shall be notified 24 hours in advance by the KO or identified COR of the number of latrines and hand-wash stations to be furnished and the locations. The contractor's POC shall be accessible by regular or cellular phone 24 hours a day, seven (7) days a week. Contractor shall contact the KO or task order POC/COR for instructions on deliveries, relocations, removal, changes, etc.

5.2.6 Spillage: The Contractor shall clean the area contaminated by the spillage. The contractor shall also report the type and kind of spill and provide a sample of the waste product to the Department of Public Works, Environmental Office (DPW-ENV), 760-380-3410, within 12 hours of incident., Contractor is liable for the costs associated with clean-up of any spills (POL, solvents, waste water, battery acids, paints, lubricants, refrigerant oils, hydraulic fluids, anti-freeze, etc.). Any spilled chemicals must be cleaned up in accordance with all Federal, State, and local laws, ordinances and regulations. Contact Range Operations at (760) 380-3878. See **Attachment 4**, Spillage Notification Form.

5.2.7 Dumping of Water: The Contractor may dump waste products (grey water and sewage) at Fort Irwin Sewage Treatment Plant sewage-dumping station located off 5th Street and behind Building 704. Waste will be dumped during scheduled business hours (currently between the hours of 0600-1500). The last dump must be completed prior to closing (no new dumping in last 30 min). This dumping station will be the only authorized dumping site on Fort Irwin. Exceptions to either the source or the times must be coordinated by DPW-ENV at 760-380-3410. The Contractor is strictly prohibited from dumping anything other than the waste collected on the NTC. The Contractor will be required to follow the Fort Irwin Sewage Treatment Plant rules in order to be authorized to dump at their facility. These requirements include filling out a sewage-dumping log at the dumping station each time waste is to be dumped and cleaning up the dumpsite after dumping. Fort Irwin Sewage Treatment Plant personnel will provide briefing/tour/training for operators the first time they use the facility. All work performed under this contract, including dumping, shall be in accordance with all applicable Federal, State, and Local laws, ordinances and regulations. Any violations may result in termination of dumping privileges and require the contractor to dump waste at an approved county or city waste disposal site at no cost to the Government. Any waste collected from locations other than on Fort Irwin shall be dumped at an approved county or city waste disposal site.

5.3 Special Requirements:

5.3.1 Off Limits Areas: The Contractor shall not enter “RESTRICTED” or “OFF LIMITS” areas. The contractor shall not utilize facilities requiring DoD identification such as AAFES facilities, Commissary, etc. unless the individual has the required Military Identification. Information regarding Off Limits Areas can be found in NTC Regulation 385-63 or by contacting Range Operations at 760-380-3878.

5.3.2 Safety Plan, Federal and State Regulation Standards: The Contractor shall comply with the California Occupational Safety & Health Administration (Cal/OSHA) and Army Safety Regulations. The NTC Safety Office shall verify that these regulations and standards are met. Each item of equipment or property furnished under this contract shall be in safe operational condition and shall comply with all Federal Safety Standards, the American National Standards, and all State Safety Regulations applicable to the equipment and or property. Due to live fire restrictions, air and ground delivered munitions, UXO risk, high operational TEMPO of aviation and ground forces, and other safety requirements, access to the training areas will be controlled by Range Control. In accordance with Range Control guidance, contractors will be given access during daylight hours. Contractors will not be allowed access during the hours with limited visibility unless pre-approved by Range Control. The contractor shall provide a digital copy of the safety plan to the KO and identified COR within Seven (7) days after award (**Deliverable #8**).

5.3.3 Foreign Objects: During the course of rotations, there are occasional incidences of foreign objects being disposed of in the latrine tanks. The contractor shall screen waste effluent to be dumped to ensure that cans, bottles, rags, cloth or any foreign objects are not in the waste tank. The contractor shall provide documentation with photos to the KO and task order COR of the foreign objects found in the latrines or hand-wash stations.

CAUTION: If any type of ordinance is discovered, the contractor shall stop work immediately and notify the emergency ordinance disposal squad at 760-380-4092 and or Range Operations at 760-380-3878. (24 hours a day).

5.3.4 Use of Chemicals: The Contractor shall use only approved chemical toilet additives in accordance with the California Code of Regulations (CCR), Title 22, and Division 4.5. The contractor shall not use any prohibited chemical toilet additives outlined in chapter 41, paragraphs 67410.1, 67410.2, 67410.3, and 67410.4. The Contractor shall submit a list of chemicals used five (5) days after award (**Deliverable #9**) in accordance with FAR 52.223-3, DFAR 52.223- 7001 and Cal/OSHA to the KO and identified COR.

5.3.5 Point of Contact (POC): The Contractor shall designate a Point of Contact for performance of all work under the contract. The Point of Contact shall be responsible for total contract management and coordination. The Point of Contact shall have full authority to act on behalf of the contractor during performance of work. The contractor shall provide, in digital copy, the name of the Point of Contact and telephone number to the KO and identified COR within five (5) days after award of contract. The Point of Contact shall respond within two (2) hours of a request from the KO or identified COR (**Deliverable #10**).

5.3.6 Identification of Employee: Contractor personnel shall visibly always wear contractor-furnished employee identification badges while physically on the installation. Each badge shall include the company's name, employee name, contract number, and expiration of the badge. Contractor employees shall not wear any part of a current authorized military uniform while on the installation. The contractor shall provide a digital copy to the KO and identified COR a list of all contractor employees no later than five (5) days after the contract award (**Deliverable #11**). The list shall state each employee's complete legal name and job title. The contractor shall provide a digital copy to the KO and identified COR any personnel changes within one (1) workday of the change. All personnel shall be legal residents of the United States and shall be able to speak, read, write, and comprehend the English language. Minors shall not be permitted to perform contract services. The contractor shall not employ any person who is an employee of the U.S. Government or an employee of the Department of the Army as the employment of that person would create a conflict of interest or be contrary to the policies contained in DODD 5500.7-R. Contractors may be barred from entering the installation because of misconduct or breaches of security violations. This will be enforced by the Military Police and local law enforcement agencies as necessary.

5.3.7 Lost and Found Property: It is the responsibility of the contractor to ensure all articles of possible personal or monetary value found by the contractor's personnel are turned into the Security Office and notify the KO and identified COR simultaneously within 24 hours.

5.3.8 Post or Range Closures: When an unforeseen post or range closure occurs on a contractor's regular scheduled day of work, the contractor will be notified by the KO or identified COR as to whether the contractor will be required to continue performance of service.

5.3.9 Range Clearance and Road Closures: The Contractor shall attend the Range Operations Safety Briefing training and obtain a Permanent Range Pass from Range Operations prior to delivery under this contract. The contractor shall contact Range Operations directly by the primary communication of a Range Communication System (RCS) radio issued by Range Operations or alternate communication by cell phone at 760-380-3875/4724, before entering any range or training area. Contractors must possess an operational knowledge of map reading to obtain a Range Operations pass. Use of private GPS is not a substitute for this requirement. Contractors that fail to comply with Range Operations procedures will be denied access to down-range areas.

5.3.10 Safeguarding Equipment: The Contractor shall be responsible for safeguarding all equipment from wildlife and environmental impacts to ensure equipment is 100% functional and usable for the contracted period of performance.

5.4 Deliverables: See Attachment 2.

5.4.1 Reports: The Contractor shall maintain accurate electronic reports of portable latrines and hand wash stations of each task order. Electronic reports shall be provided to the government in the form of a logical understandable report relevant to a specific task order. These records shall be made available to the Government as requested for the duration of this

contract. The contractor shall invoice the Government per month via Wide Area Workflow (WAWF) instructions upon completion of each Task Order. Invoices will be submitted via WAWF and mark the last invoice as the "Final Invoice." Copies of all required reports will be uploaded into Wide Area Workflow when invoices are submitted.

5.4.2 Vandalism and Damages: The Contractor shall provide written documents with photos to the KO and COR of any damage or vandalism to the latrines and Hand-Wash Stations. Contractor shall provide a verbal report to the KO and COR immediately of any accident or incident that results in damage to Government property, injury, or death. The contractor shall provide a written report of the accident or incident no later than two (2) business days after the incident.

5.4.3 Service Contract Reporting (SCR): The Contractor shall report all manpower data into the System for Award Management (SAM.gov) annually by October 31st in accordance with FAR 52.204-14 and PWS Attachment 8.

5.4.4 System for Award Management (SAM): Reserved.

PART 6 APPLICABLE PUBLICATIONS

6. Applicable Publications (Current Editions): The following publications, manuals, regulations, etc. are mentioned in this PWS and are listed below. The Contractor must abide by all applicable regulations, publications, manuals, and local policies and procedures.

- 6.1** DOD Commercial Use of Imagery Guidelines
- 6.2** AR 190-13, The Army Physical Security Program
- 6.3** AR 530-1 Operations Physical Security
- 6.4** Army Directive 2014-05, Policy and Implementation Procedures for CAC Credentialing Access for Uncleared Contractors
- 6.5** California Code of Regulations (CCR), Title 22, and Division 4.5
- 6.6** DFARS 217.74 Definitized Contract Actions, UCAs
- 6.7** DFARS 252.217-7027 Contract Definitization
- 6.8** DOD 8140, Cyberspace Workforce Management
- 6.9** DOD 8140.03, Cyberspace Workforce Qualification and Management System: Department of Defense
- 6.10** AR 25-2, Information Assurance
- 6.11** DODI 3020.41, Operational Contract Support Outside the United States
- 6.12** DODI 2000.16 DoD Antiterrorism (AT) Program Implementation: DoD Force Protection Condition (FPCON) System
- 6.13** FAR 16.505, Ordering
- 6.14** FAR 52.223-3, Hazardous Material Identification and Material Safety Data

PART 7 ATTACHMENT AND TECHNICAL EXHIBIT LISTING

7. Attachment and Technical Exhibit List:

7.1 Attachments:

7.1.1 Attachment 1 - Performance Requirements Summary (PRS) Table.

7.1.2 Attachment 2 - Contract Deliverable Requirements Listing (CDRL)

7.1.3 Attachment 3 - Minimum Specifications for all Hand Wash Stations and Latrines.

7.1.4 Attachment 4 - Spill Notification Form.

7.1.5 Attachment 5 - General Locations by Contract Line Item Number (CLIN) Structure.

7.1.6 Attachment 6 - Latrine Contract Map.

7.1.7 Attachment 7 - Fort Irwin Access Request Memorandum Example.

7.1.8 Attachment 8 – After Award Instructions

7.2 Technical Exhibit List: Reserved.

Attachment 1

Attachment 1: Performance Requirements Summary (PRS)

This Performance Requirements Summary (PRS) establishes the Acceptable Quality Levels (AQL) and the evaluation criteria that the Government will utilize to assess the Contractor's performance under this Performance Work Statement (PWS) for Non-Sewer Portable Latrines and Hand Wash Stations at the National Training Center (NTC).

The Government reserves the right to evaluate the Contractor's performance through various methods of surveillance, including but not limited to random inspections, 100% inspections, customer complaints, and direct observations by the Contracting Officer's Representative (COR). Failure to meet the established Performance Thresholds may result in re-performance requirements, formal deductions in daily lease rates, or negative Contractor Performance Assessment Reporting System (CPARS) entries.

Performance Objective	PWS Reference	Performance Threshold (AQL)	Method of Surveillance	Incentive / Deduction
1. Basic Servicing Pump, clean, sanitize, and restock (potable water, soap,	4.4.5 & 5.1	95% of all contracted units are serviced daily in accordance with PWS standards.	Random Inspection / COR Validation	Contractor will re-perform service within 2 hours of notification. If uncorrected, Government will deduct the

paper towels) all leased units every 24 hours.				daily lease rate for the affected unit(s).
2. Delivery Deliver latrines and hand washing stations to specified NTC locations.	5.2	95% of routine deliveries accomplished within 24 hours of Task Order request.	100% Inspection	Re-performance. Government will not pay for days the units were ordered but not delivered.
3. Placement Place units safely and in accordance with Army Field Sanitation setback distances.	5.2.2	Zero incidents of improper placement (e.g., within 100m of DFACs or 30m of water sources) per month.	Random Inspection / COR Validation	Contractor must relocate units to a compliant distance within 2 hours of notification at no additional cost to the Government.
4. Removal Remove leased units upon completion of the Task Order.	5.2	95% of all removals accomplished within 48 work hours of the Task Order POP end date.	100% Inspection	Government will not pay lease or service rates for any units left on the installation past the authorized POP end date.
5. Equipment Markings Ensure all units are clearly marked with the Contractor's name, contact info, and unique ID number.	4.4.1	100% of units bear correct contractor markings and ID numbers.	Random Inspection / COR Validation	Contractor will correct markings within 24 hours. Uncorrected units will be deemed non-usable and subject to daily lease rate deduction.
6. Safety Perform all transport, pumping, and disposal operations in a safe manner.	1.22 & 5.2.7	Zero safety violations or uncorrected OSHA/Army safety hazards per month.	Direct Observation / Range Control Reports	Correct immediately. Repeated violations may result in installation access revocation and negative CPARS reporting.

Guidelines for Contract Administration:

The standards defined in this PRS are critical to the successful execution of the National Training Center (NTC) mission. The Contractor is advised that while the Government allows a 5% allowable deviation for routine deliveries and servicing (the 95% standard), any failure that directly impacts troop health and safety (e.g., improper placement near dining facilities, lack of potable water) will be handled with strict enforcement as reflected in the thresholds above.

The Contractor's Quality Control Plan (QCP) must inherently address how the company intends to proactively meet these specific thresholds prior to Government Quality Assurance intervention. Constant communication with the Contracting Officer (KO) and COR will be essential to mitigating any deficiencies.

Attachment 2

Contract Deliverable Requirements List (CDRL)

Number	Deliverable	Frequency	# of Copies	Medium/Format	Submit To
1	Quality Control Program (QCP). PWS Para, 1.5.1	Thirty (30) Days after award.	One (1) original copy.	Digital format.	KO and COR.
2	Work Plan. PWS Para, 1.5.4.3.1	Thirty (30) Days after award.	One (1) original copy.	Digital format.	KO and COR.
3	Fort Irwin Access Request. PWS Para, 1.6.3.2	Three (3) Days after award.	One (1) original copy.	Digital format.	KO and COR.
4	Organizational Conflict of Interest (OCI) Mitigation Plan. PWS 1.21	To be submitted at time of proposal.	One (1) original copy.	Digital format.	KO and COR.

5	Accident Prevention Plan. PWS 1.23.1	Thirty (30) Days after award.	One (1) original copy.	Digital format.	KO and COR.
6	Level I AT Awareness, OPSEC, iWatch, CTIP Brief, TARP, Range Safety Training. PWS 1.25.1, 1.25.2, 1.25.3, 1.25.6, 1.25.7, and 1.25.8	Thirty (30) Days after award.	One (1) original copy.	Digital format.	KO and COR.
7	Vehicles/Equipment: A list of all vehicles that will be utilized in the training area for the service of latrines and hand wash stations. PWS Para, 4.4.3 and 4.4.7	To be submitted at time of proposal.	One (1) original digital copy, one (1) redacted digital copy, one (1) original hard copy and three (3) redacted hard copies.	Hard copy (paper) and digital format.	Submit with proposal in Volume II with Factor 1, Technical Acceptable.
8	Safety Plan. PWS 5.3.2	Seven (7) days after award.	One (1) original copy.	Digital format.	KO and COR.
9	Use of Chemicals. PWS 5.3.4	Five (5) days after award.	One (1) original copy.	Digital format.	KO and COR.
10	Points of Contact (POC). PWS Para, 5.3.5	Five (5) days after award.	One (1) original copy.	Digital format.	KO and COR.
11	Identification of Employee. PWS 5.3.6	Five (5) days after award.	One (1) original copy.	Digital format.	KO and COR.

Spill Notification Form

SPILL NOTIFICATION FORM For use of this form see NTC Reg 200-6; the proponent agency is DPW.					
LIST OF INFORMATION NEEDS FOR UNAUTHORIZED WASTE DISCHARGES SOUTH LAHONTAN BASIN					
1. DISCHARGER					
a. Company:			b. Contact Person:		
c. Address:			d. Telephone:		
2. LOCATION OF DISCHARGE (USE OF THE FOLLOWING LOCATOR METHODS WHICH ARE APPROPRIATE)					
a. Address:			b. Section/Township/Range:		
c. GRID 6 or 8 digits:			d. Map showing General Site Location:		
e. Map showing Aerial and Vertical Extent of affected soil and water, including sample locations attached:				YES	NO
3. PERSON REPORTING DISCHARGE					
a. Name:			b. Agency Name:		
c. Address:			d. Telephone:		
e. DATE AND TIME OF OCCURRENCE:					
4. INITIAL VERBAL NOTIFICATION TO DPW ENVIRONMENTAL (MAJOR SPILLS)					
a. Person Notified:		b. Date:		c. Time:	
d. Other agencies notified (names, dates, & times of notification):					
5. MATERIAL DISCHARGED					
a. Description:		b. Hazardous Discharge:		c. Volume of Discharge:	
		YES NO			
6. DISCHARGED TO					
a. Ground YES NO		b. Ground Water YES NO UNKNOWN		c. Surface Water YES NO UNKNOWN	
d. Name of body of water					
e. Other (describe):					
7. DESCRIPTION OF INCIDENT					
a. Equipment involved:			b. Description of Events:		
c. Cause:		d. Operator Error: YES NO		e. Equipment Failure: YES NO	
				f. Inadequate Design: YES NO	
8. OBSERVABLE IMPACTS OF INCIDENT					
a. Injuries:			b. Odors:		
c. Evacuations:			d. Water systems shut down:		
e. Other impacts:

9. SAMPLES (TAKEN BY DPW)			
a. Samples collected:	b. Samples analyzed by a certified laboratory	c. Samples tested to appropriate detection levels	d. Sample identification numbers:
e. Parameters analyzed (include copies of all lab reports):		f. Describe sample locations (show sampling locations on above referenced map)	
10. PHOTOGRAPHS TAKEN BY DPW		YES	NO
11. STOPPAGE			
a. How:		b. When:	
12. CONTAINMENT			
a. How:	b. When:	c. Where:	d. What Material:
13. REMEDIATION (COMPLETED AND PROPOSED)			
a. Disinfection details:		b. Equipment and facility repairs:	
c. Soil EST POUND REMOVED:		d. Other corrective action:	
e. PREVENTION OF INCIDENT RECURRENCE CHANGES PROPOSED:			
14. TEMPORARY STORAGE OF REMOVED MATERIAL			
a. Where: FT. IRWIN TRANSFER FACILITY, BLDG. 703		b. How Long: LESS THAN 90 DAYS	c. How Stored: ON APPROVED TRANSFER SITE
15. PERMANENT DISPOSAL SITE (COMPLETED BY DPW)			
a. Site location:		b. When:	
c. TIME SCHEDULE FOR COMPLETING ABOVE WORK:			
THIS FORM MUST BE DELIVERED TO DPW ENVIRONMENTAL WITHIN 12 HOURS OF INCIDENT!			
Any questions in regard to spills or report of spills can be directed to DPW Environmental Division Compliance Section, phone #4-5290 or 4-4501.			
SPILL REPORTING GUIDELINES			
1. Cantonment Area - When a spill occurs within the confines of the cantonment area or housing area you must notify the Fire Department at phone #4-3496 immediately.		3. Training Areas - When a spill occurs in the training areas the following guidelines are to be followed:	
2. Spills requiring a Spill Report to be filed out are as follows:		4. Major spills require the spiller or person noticing a major spill to notify ONE of the following:	
a. Gasoline - One gallon b. JP-8 - Five gallons c. Motor oil - Five gallons d. Hydraulic fluid - Five gallons e. Anti-freeze - One gallon f. Cleaning solvents - One pint g. Sulfuric acid (Battery acid) - One pint h. Paint - One pint i. Mercury - Any amount j. Untreated sewage - One thousand gallons k. Any other chemical product (You suspect or know it is hazardous, but don't know what it is) - Any amount.		a. Notify Range Control FM 3890 or phone #4-3878. b. Fill out a Spill Report when the amounts equal or is greater than the above list. a. Range Control - FM 3890 or phone #4-3878 b. Ft. Irwin EOC - phone #4-3750 c. DPW Environmental - phone #4-5290 or 4-3410	
NOTE: All hazardous waste/materials spills SHALL be cleaned up!!		NOTE: Major spills meet or exceed the following quantities: a. JP-8 - 20 or more gallons b. Oils - 20 or more gallons c. Gasoline - 5 or more gallons d. Battery acid - 1 gallon or more e. Solvents - 1 gallon or more	
DPW will make all reports to agencies off Fort Irwin.

General Locations by Contract Line Item Number (CLIN)

CLIN 0001

Zone A - From center of Cantonment out to 7.5 KM (see attachment 6), Latrines and Hand Wash Stations. Common sites include but are not limited to:

- a. Logistics Support Area (LSA) Warrior /Rotational Unit Bivouac Area.
- b. Rotational Unit Field Maintenance Area (RUFMA).
- c. Garmat Ali / Deema Warrior Search Site Zone Cantonment.
- d. Ranges 1-7 located on Goldstone Road – West.
- e. Ranges 8-13 located on Outer Loop Road – Northwest Area.
- f. Ranges 14-18 located on Barstow Rd North of Range Support Bldg 6100.
- g. Range 19 located at the corner of Langford Lake Road and ASP Loop Road.
- h. Range 21 located on the other side of the Ammo Route and the Duck Ponds.
- i. Bicycle Lake Army Airfield (BLAAF).
- j. Ammunition Supply Point (ASP).
- k. Field Ammunition Supply Point (FASP).
- l. Logistic Support Area Santa Fe.
- m. Front Gate.
- n. Painted Rocks.
- o. Land Navigation Course.
- p. Point of Entry (POE) Langford Control Point (English Name) Zone Cantonment.

CLIN 0002

Zone B - From 7.5 KM outside center of Cantonment out to 22.5 KM (see attachment 6), Latrines and Hand Wash Stations. Common sites include but are not limited to:

- a. Junction City (English Name), and Ujen (Turkic Name)
- b. Langford Wells (English Name), and Guba (Turkic Name)
- c. Brigade Support Area (BSA) (English Name), Tactical Assembly Area (TAA)
- d. Kuhnjab, MOUT site Spider Zone Cantonment
- e. Pioneer Valley (English Name), Fuldez (Turkic Name)
- f. Alligator Junction (English Name), Nur (Turkic Name)
- g. Lakeside (English Name), Dezashah (Turkic Name)
- h. FOB Seattle (English Name), FOB Sardakan (Turkic Name)
- i. Tiefort City (NUWC) (English Name), and Razish (Turkic Name)
- j. Check Point (CP) Granite Pass Control Point (English Name)
- k. FOB Marjan (Afghan Name), FOB Sudasht (Turkic Name)
- l. Brigade Support Area (BSA) (English Name), Tactical Assembly Area (TAA) (English Name)

CLIN 0003

Zone C - Any area farther than 22.5 KM (see attachment 6) from the center of Cantonment, Latrines and Hand Wash Stations. Common sites include but are not limited to:

- a. Sacon Village (English Name), Alaqa Ghir (ALG) (Afghan Name), and Sadajan (Turkic Name).
- b. Alpine Valley LF (English Name), Maynj Wola (MWA) (Afghan Name), and Dakan (Turkic Name).
- c. McLean (English Name)/ Hevroq (Turkic Name).
- d. Mars Corner (English Name), Reyalem (Turkic Name).
- e. Red Pass Ranch (English Name), and Nabran (Turkic Name).
- f. Point of Entry (POE) Eastgate Border Crossing (English Name).
- g. Brigade Support Area (BSA) (English Name), Tactical Assembly Area (TAA) (English Name).
- h. Brigade Support Area (BSA) (English Name), Tactical Assembly Area (TAA).
- i. WTA FAARP Site 2 – NV 011 011 -- Copper City entrance is authorized to be used when placing latrines at these two Grid sites.
- j. Eastland (English Name), Barasu (Turkic Name).
- k. Hotdog Convoy LF (English Name), Garm Saq (GS) (Afghan Name), and Huvez (Turkic Name).
- l. Limaville LF (English Name), Cheshma Ghar (CG) (Afghan Name), Zayeb (Turkic Name).
- m. FOB Miami (English Name), FOB Najalaban (Turkic Name) Zone D.
- n. Red Pass Village (English Name), Sadaf (SA) (Afghan Name), and Chalaku (Turkic Name) Outside (east).
- o. Brigade Support Area (BSA) (English Name), Tactical Assembly Area (TAA).
- p. TF Rural LF (English Name), Bada Kalay (TK) (Afghan Name), and Bisyardam (Turkic Name) Puma.
- q. Check Point (CP) C2 Facility Control Point (English Name).
- r. Check Point (CP) Millersville Control Point (English Name) Dashku (Turkic Name).
- s. WTA FAARP Site 1 – MU 974 964 -- Copper City entrance is authorized to be used when placing latrines at these two Grid sites.
- t. Manix Trail (Big Sandy, Spider DZ).
- u. Ft. Irwin Road to Highway 58 into Barstow.
- v. Yermo (Rail Head area, MCLB, Yermo Annex).

CLIN 0004

SCLA - Southern California Logistics Airport (SCLA) is 82.6 miles from Fort Irwin, CA.

CLIN 0005

SEMI-PERM - Semi-Permanent Latrines and Hand Wash Stations (tenant units on monthly rates).

CLIN 0006

ADA - Americans with Disabilities Act (ADA) Compliant Handicap Latrines and Hand Wash Stations.

Fort Irwin Access Request Memorandum

DEPARTMENT OF THE ARMY
HEADQUARTERS, NATIONAL TRAINING CENTER & FORT IRWIN
FORT IRWIN, CALIFORNIA 92310-5109

AFZJ-XX

DATE:

MEMORANDUM FOR DIRECTORATE OF EMERGENCY SERVICES

SUBJECT: Fort Irwin Access Request

1. This office request that the below named individual(s), be granted access to Fort Irwin. The purpose for access is to visit family member.

PRIVACY ACT STATEMENT					
AUTHORITY:		HSPD-12			
PRINCIPAL PURPOSE:		To record names, signatures, and other identifiers for the purpose of validating the trustworthiness of individuals requesting access to NTC & Ft. Irwin, CA. NOTE: Records may be maintained in both electronic and/or paper form.			
ROUTINE USES:		None.			
DISCLOSURE:		Disclosure of this information is voluntary; however, failure to provide the requested information may impede, delay or prevent further processing of this request.			
NAME			DL/ID #, State	Period of Required Access	
				Commencing	Ending
Last	First	MI		mm/dd/yyyy	mm/dd/yyyy

2. The POC for this request is _____ at Phone
Number XXX-XXX-XXXX or [email](#):

Government Requester Signature

Attachment 8

THE TASK ORDER ISSUANCE PROCESS (STEP-BY-STEP), HANDLING DAMAGES & CLAIMS, INVOICING INSTRUCTIONS, AND ANNUAL REPORTING.

- 1. Requirement Generation:** Prior to a rotation, the Contracting Officer's Representative (COR) submits a finalized requirement listing the exact number of Latrines and Handwashing Stations needed, the specific Zones (A, C, SCLA, etc.), and the required delivery/pickup dates.
- 2. TO Issuance:** The KO/Contract Specialist drafts the Task Order applying the locked-in Schedule B rates to the required quantities and days. The TO is signed and issued to the Contractor via the Procurement Integrated Enterprise Environment (PIEE).
- 3. Execution:** The Contractor delivers the assets to the specified grid coordinates.
- 4. Operational Adjustments:** NTC training is dynamic. If the military unit moves and assets must be relocated within the training box, the COR will direct the movement. (Note: Routine relocations are absorbed into the fully burdened daily rate unless otherwise specified). If quantities must increase or decrease mid-rotation, the KO will issue a formal TO Modification.

HANDLING DAMAGES & CLAIMS

Because training environments can be harsh, the base IDIQ includes a Not-To-Exceed (NTE) plug for Damages.

The Rule: The Contractor is responsible for normal wear and tear. The Government is only liable for damages caused by Government negligence (e.g., a tactical vehicle backing into a latrine).

The Process:

1. If a unit is destroyed or heavily damaged, the Contractor must immediately notify the COR and take photographic evidence.
2. The Contractor submits a damage claim with the photos and the depreciated replacement cost of the unit.
3. If approved by the KO, the Government will fund the replacement cost via a modification using the Damages & Claims SubCLIN.

INVOICING INSTRUCTIONS

Billing for Actuals: The Contractor shall invoice in arrears (after services are rendered) via Wide Area Workflow (WAWF) / PIEE.

Rotational TOs: Invoices must reflect the actual number of days the units were on the ground. If a TO estimated 14 days, but the units were picked up early on day 12, the Contractor may only invoice for 12 days.

Semi-Permanent TOs: Invoiced once per month for the duration of the Task Order.

Supporting Documentation: All WAWF invoices must be accompanied by receiving reports or service logs signed/verified by the COR, proving the units were serviced according to the PWS schedule.

ANNUAL REPORTING

Service Contract Reporting (SCR): The Contractor must report all manpower data for the IDIQ into the System for Award Management (SAM.gov) annually by October 31st. Because this requirement is Not Separately Priced (NSP), the Contractor will not submit an invoice for this action.
