52.212-1 Instructions to Offerors—Commercial Products and Commercial Services.

As prescribed in [12.301\(b\)\(1\)](#), insert the following provision:

INSTRUCTIONS TO OFFERORS—COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (SEP 2023)

(a) *North American Industry Classification System (NAICS) code and small business size standard.* The NAICS code(s) and small business size standard(s) for this acquisition appear elsewhere in the solicitation. However, the small business size standard for a concern that submits an offer, other

than on a construction or service acquisition, but proposes to furnish an end item that it did not itself manufacture, process, or produce is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition—

- (1) Is set aside for small business and has a value above the simplified acquisition threshold;
- (2) Uses the HUBZone price evaluation preference regardless of dollar value, unless the offeror waives the price evaluation preference; or
- (3) Is an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(b) *Submission of offers.* Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the [SF 1449](#), letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show—

- (1) The solicitation number;
 - (2) The time specified in the solicitation for receipt of offers;
 - (3) The name, address, and telephone number of the offeror;
 - (4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;
 - (5) Terms of any express warranty;
 - (6) Price and any discount terms;
 - (7) "Remit to" address, if different than mailing address;
 - (8) A completed copy of the representations and certifications at Federal Acquisition Regulation (FAR) [52.212-3](#) (see FAR [52.212-3\(b\)](#) for those representations and certifications that the offeror shall complete electronically);
 - (9) Acknowledgment of Solicitation Amendments;
 - (10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and
 - (11) If the offer is not submitted on the [SF 1449](#), include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.
- (c) *Period for acceptance of offers.* The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) *Product samples*. When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.

(e) *Multiple offers*. Offerors are encouraged to submit multiple offers presenting alternative terms and conditions, including alternative line items (provided that the alternative line items are consistent with FAR [subpart 4.10](#)), or alternative commercial products or commercial services for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) Late submissions, modifications, revisions, and withdrawals of offers.

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)

(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and-

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If

the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) *Contract award (not applicable to Invitation for Bids)*. The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) *Multiple awards*. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(i) Availability of requirements documents cited in the solicitation.

(1)

(i) The GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, FPMR Part 101–29, and copies of Federal specifications, standards, and product descriptions can be downloaded from the ASSIST website at <https://assist.dla.mil>.

(ii) If the General Services Administration, Department of Agriculture, or Department of Veterans Affairs issued this solicitation, a copy of specifications, standards, and commercial item descriptions cited in this solicitation may be obtained from the address in paragraph (i)(1)(i) of this provision.

(2) Most unclassified Defense specifications and standards may be downloaded from the ASSIST website at <https://assist.dla.mil>.

(3) Defense documents not available from the ASSIST website may be requested from the Defense Standardization Program Office by—

(i) Using the ASSIST feedback module (<https://assist.dla.mil/feedback>); or

(ii) Contacting the Defense Standardization Program Office by telephone at 571–767–6688 or email at assisthelp@dlamail.

(4) Nongovernment (voluntary) standards must be obtained from the organization responsible for their preparation, publication, or maintenance.

(j) *Unique entity identifier*. (Applies to all offers that exceed the micro-purchase threshold, and offers at or below the micro-purchase threshold if the solicitation requires the Contractor to be registered in the System for Award Management (SAM).) The Offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation "Unique Entity Identifier" followed by the unique entity identifier that identifies the Offeror's name and address. The Offeror also shall enter its Electronic

Funds Transfer (EFT) indicator, if applicable. The EFT indicator is a four-character suffix to the unique entity identifier. The suffix is assigned at the discretion of the Offeror to establish additional SAM records for identifying alternative EFT accounts (see FAR [subpart 32.11](#)) for the same entity. If the Offeror does not have a unique entity identifier, it should contact the entity designated at www.sam.gov for unique entity identifier establishment directly to obtain one. The Offeror should indicate that it is an offeror for a Government contract when contacting the entity designated at www.sam.gov for establishing the unique entity identifier.

(k) [Reserved]

(l) *Debriefing*. If a post-award debriefing is given to requesting offerors, the Government shall disclose the following information, if applicable:

(1) The agency's evaluation of the significant weak or deficient factors in the debriefed offeror's offer.

(2) The overall evaluated cost or price and technical rating of the successful and the debriefed offeror and past performance information on the debriefed offeror.

(3) The overall ranking of all offerors, when any ranking was developed by the agency during source selection.

(4) A summary of the rationale for award;

(5) For acquisitions of commercial products, the make and model of the product to be delivered by the successful offeror.

(6) Reasonable responses to relevant questions posed by the debriefed offeror as to whether source-selection procedures set forth in the solicitation, applicable regulations, and other applicable authorities were followed by the agency.

(End of provision)

52.212-2 Evaluation—Commercial Products and Commercial Services.

As prescribed in [12.301](#)(c), the Contracting Officer may insert a provision substantially as follows:

EVALUATION—COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (NOV 2021)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

Lowest Price Technically Acceptable (LPTA)

(b) *Options*. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of provision)

(h) *Certification Regarding Responsibility Matters (Executive Order 12689)*. (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) ☐ Are, ☐ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ☐ Have, ☐ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at [9.104-5\(a\)\(2\)](#) for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples.*

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) *Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). (iv) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract is the same as that used for these employees and equivalent employees servicing commercial customers.

(3) If paragraph (k)(1) or (k)(2) of this clause applies—

(i) If the offeror does not certify to the conditions in paragraph (k)(1) or (k)(2) and the Contracting Officer did not attach a Service Contract Labor Standards wage determination to the solicitation, the offeror shall notify the Contracting Officer as soon as possible; and

(ii) The Contracting Officer may not make an award to the offeror if the offeror fails to execute the certification in paragraph (k)(1) or (k)(2) of this clause or to contact the Contracting Officer as required in paragraph (k)(3)(i) of this clause.

(1) The Secretary of Homeland Security may issue FASCSA orders applicable to civilian agencies, to the extent not covered by paragraph (2) or (3) of this definition. This type of FASCSA order may be referred to as a Department of Homeland Security (DHS) FASCSA order.

Information Technology Baseline Compliance Contract Guidelines

July 202

Introduction

This document provides guidance regarding requirements that must be reviewed and considered for incorporation, where applicable, in all Department of the Interior (DOI, Department) contract actions that involve information technology (IT) products or services. Contracting Officer Representatives (CORs) and/or the requirement owners should work closely with their Bureau or Office Associate Chief Information Officer and Contracting Officer (CO) to ensure the below requirements are properly addressed in IT contracts within the appropriate sections. Any referenced regulation or policy should be provided to the Contractor via hypertext link or other means.

Section 1.0 – Information Technology and Cybersecurity Requirements

A. Applicability

This term applies to the Contractor, its subcontractors, and Contractor employees (hereafter referred to collectively as “Contractor”). The Contractor shall use these terms in all subcontracts.

B. Requirements

Information systems and system services provided to the Department by the Contractor must comply with DOI IT Cybersecurity and Privacy Control Standards, privacy policies, and other related guidance. Contracts that involve Industrial Control System (ICS) products and services should be evaluated on an individual basis and contain language specific to ICS. Please contact the Bureau of Reclamation (BOR) at ICSsecurity@usbr.gov for ICS issues and guidance.

The Contractor and the contractor-managed systems shall comply with all federal regulations and guidance, including but not limited to:

C. Information Systems

The Contractor shall manage information in accordance with applicable laws, regulations, executive orders, and policies regarding the marking, safeguarding, and dissemination of

Controlled Unclassified Information (CUI). Personally Identifiable Information (PII) is a subset of information designated as CUI, and Sensitive PII is a subset of PII that requires additional controls and safeguards. (See section 3, Privacy Requirements)

The Contractor shall not use or redistribute any sensitive information processed, stored, and/or transmitted by the Contractor except as specified in the contract.

Contractor Information Systems shall comply with FISMA. The Contractor shall provide an Assessment and Authorization (A&A) documentation package for each system that complies with Federal Information Processing Standard (FIPS) 199, National Institute of Standards and Technology (NIST) Special Publication (SP) 800-34, NIST SP 800-37, NIST SP 800-53, NIST SP 800-60, et al.

The Contractor cryptographic modules used to protect DOI information shall comply with the current NIST FIPS 140 version and be validated by the Cryptographic Module Validation Program.

Access to all government data stored outside the confines of a DOI-managed data center shall comply with Trusted Internet Connections (TIC) requirements.

All Contractor personnel requiring access to DOI information data and/or systems shall be cleared at appropriate levels as set forth:

1. Low Risk position will require a National Agency Check with Written Inquiries (NACI) or equivalent investigation.
2. Moderate Risk position will require either a Limited Background Investigation (LBI) or a Minimum Background Investigation (MBI).
3. High Risk position will require a Background Investigation (BI).

Vulnerability Scanning - All IT systems providing services to or on behalf of the Department or storing, processing, or routing DOI CUI information must be scanned monthly with a vulnerability analysis tool using authenticated scans that are acceptable to DOI. Vulnerabilities and weaknesses shall be remediated in accordance with (IAW) Department-mandated time frames commensurate with the level of risk.

D. Cloud

All Contractor cloud-hosted Infrastructure as a Service (IaaS), Platform as a Service (PaaS), Software as a Service (SaaS) or other “as a Service” offerings shall comply with applicable language within the DOI cloud hosting program guidelines.

E. Internet Protocol Version 6 (IPv6)

The applicability of IPv6 to DOI-related components (networks, infrastructure, and applications) specific to individual acquisitions shall be in accordance with the Department Acquisition, Arts, and Asset Policy DOI-AAAP-0055, *Procuring Internet Protocol Version 6 (IPv6)*, (per OMB Memorandum M-05-22, August 2, 2005) and with subsequent federal requirements (OMB Memorandum M 21-07 *Transition to IPv6*, September 28, 2010) regardless of whether the

acquisition is for modification, upgrade, or replacement. All Enterprise Architecture related component acquisitions shall be IPv6-compliant as defined in the U.S. Government Version 6 (USGv6) Profile (NIST SP 500-267) and the corresponding declarations of conformance defined in the USGv6 Test Program. In cloud service procurements, IPv6 compliance should be pursued where practicable.

F. Continuous Monitoring

All Contractor-operated systems that input, store, process, output, and/or transmit DOI CUI shall meet or exceed the continuous monitoring requirements identified in the DOI Continuous Monitoring Plan or the Bureau or Office Continuous Monitoring Plan, whichever best fits mission, security, and risk management needs.

Contractor-managed systems are required to have an assigned Information System Security Officer (ISSO) and System Owner (SO) to support the processes described in the contract. While the procuring organization designates government personnel to serve in these roles, the contractor must provide functionally equivalent personnel to enable effective day-to-day operation, management, and monitoring of the system. The Contractor ISSO and SO resources are required to comply with DOI- or other-approved annual and Role Based Security Training (RBST) requirements.

Contractors managing systems on behalf of the Department are required to submit Continuous Monitoring Reports per the Continuous Monitoring Plan to the federal point of contact designated in the contract per the timelines prescribed in the Continuous Monitoring Plan. The Contractor-managed systems may be required to submit to a penetration test (at the discretion of the awarding program) in coordination with DOI cybersecurity personnel or approved contract officials.

When required by the contract, the Contractor must provide the following in alignment with DOI's continuous monitoring strategy:

1. account management
2. vulnerability management
3. patch management
4. antivirus
5. malware detection
6. event management
7. configuration management
8. license management
9. incident management

G. Security Training and Reviews

All users of federal information systems are required by Title 5, Code of Federal Regulations, Part 930.301, as amended, to be exposed to security awareness materials annually or whenever system security changes occur, or when the user's responsibilities change. The Department requires that Contractor employees take an annual Information Technology Security Awareness Training course before accessing federal information systems under the contract. Unless otherwise specified, the training shall be completed within thirty (30) days of contract award and

be completed on an annual basis thereafter. New Contractor employees assigned to the contract shall complete the training before accessing federal information systems under the contract. The Contractor shall maintain copies of training certificates for all Contractor and subcontractor employees as a record of compliance. Unless otherwise specified, initial training certificates for each Contractor and subcontractor employee shall be provided to the COR not later than thirty (30) days after contract award. Subsequent training certificates to satisfy the annual training requirement shall be submitted to the COR via e-mail notification each year. The e-mail notification shall state that all Contractor and subcontractor employees have completed the required training.

The government may elect to conduct random periodic reviews to ensure that the security requirements contained in this contract are being implemented and enforced, particularly when contractors build and operate or maintain systems on behalf of the Department. In such cases, the Contractor shall afford DOI, the Office of the Inspector General, and other government organizations access to the Contractor's facilities, installations, operations, documentation, databases, and personnel used in the performance of this contract. The Contractor shall provide access, to the extent necessary as determined by the government, for the government to carry out a program of inspection, investigation, and audit to safeguard against threats and hazards to the integrity, availability, and confidentiality of government data or the function of computer systems used in performance of the contract and to preserve evidence of computer crime. Cloud Service Providers should not be expected to grant physical access to government inspectors.

H. Contractor Reporting Requirements

The Contractors operating information systems on behalf of the Department shall comply with FISMA reporting requirements. Department system owners shall coordinate annual and quarterly data collection. Contractors must provide DOI with the requested information based on the timeframes provided with each request. The Contractor systems shall comply with near real time feeds in accordance with Department of Homeland Security (DHS) Continuous Diagnostics and Mitigation (CDM) requirements as coordinated by DOI. Reporting requirements are determined by OMB and may change each reporting period.

The Contractor-managed systems shall adhere to NIST 800-53 and submit to an annual assessment performed in coordination with DOI cybersecurity personnel or approved contract officials. All results of the annual assessment become the property of the Department.

The Contractor shall comply with DHS or other government oversight bodies regarding cybersecurity-related mandates and directives (Binding Operational Directives [BOD], etc.) or any additional ad-hoc reporting requirements.

Section 2.0 – Cybersecurity Incident Response

A. Applicability

This term applies to the Contractor, its subcontractors, and Contractor employees (hereafter referred to collectively as "Contractor"). The Contractor shall use these terms in all subcontracts.

B. Definitions.

As used in this term-

“Incident” means an occurrence that

1. actually or imminently jeopardizes, without lawful authority, the integrity, confidentiality, or availability of information or an information system; or
2. constitutes a violation or imminent threat of violation of law, security policies, security procedures, or acceptable use policies.

C. Requirements

All Contractor employees and information system service providers shall be responsible for recognizing and reporting security incidents. Information system service providers shall receive the current version of the DOI Incident Response Plan, Policy, and Handbook at the time of award, in addition to bureau- or office-specific guidance for appropriate reporting and response at all levels. All suspected or confirmed information security incidents shall be reported in accordance with the requirements listed below, even if it is believed the incident may be limited, small, or insignificant. For hosting environments, including cloud systems and services, this includes incidents occurring on the service provider’s underlying infrastructure supporting containers utilized by the Department. In such cases, the vendor’s primary security operations and/or incident response unity shall engage directly with the DOI Cyber Security Operations (CSO) Section and provide DOI CSO with security and event logs covering the period of the incident and up to six months prior. The DOI CSO and Bureau or Office Incident Response Teams will determine when an incident requires additional focus and attention.

All Contractor employees and information system service providers shall report all information security incidents to the appropriate Bureau or Office Incident Response Team and to the DOI Computer Incident Response Center (DOI CIRC) immediately, no later than 1 hour after “becoming aware of the incident,” at DOICIRC@ios.doi.gov, (703) 648-5655, regardless of day or time. Any contractor action to investigate, identify, respond to, contain, remediate, or recover from a security event (which includes “suspected” incidents) constitutes “becoming aware of the incident.”

When notifying the DOI CIRC and the appropriate Bureau or Office Incident Response Team, the Contractor shall include the CO and COR on the correspondence email to DOICIRC@ios.doi.gov and the appropriate Bureau or Office Incident Response Team. If the Contractor reported the incident by phone, then immediately following the reporting, the Contractor shall notify the CO and COR via e-mail. The Contractor is responsible for verifying that all notification was received and acknowledged by the CO or COR. If the Contractor has any questions regarding these procedures, they shall contact the CO or the COR.

The Contractor shall not include any controlled information in the subject or body of any e-mail. Contractor shall transmit controlled information using validated encryption methods compliant with the current NIST FIPS 140 version to protect controlled information in e-mail attachments. Passwords must not be communicated in the same email as the attachment. Contractor shall contact the CO or COR if encryption software is needed for guidance on appropriate, federally approved encryption methods.

Section 3.0 – Privacy Requirements

A. Applicability.

This term applies to the Contractor, its subcontractors, and Contractor employees (hereafter referred to collectively as “Contractor”). The Contractor shall use these terms in all subcontracts.

B. Definitions.

As used in this term-

Breach: the loss of control, compromise, unauthorized disclosure, unauthorized acquisition, or any similar occurrence where (1) a person other than an authorized user accesses or potentially accesses PII or (2) an authorized user accesses or potentially accesses PII for an other-than-authorized purpose.

1. PII - information that can be used to distinguish or trace an individual's identity, either alone or when combined with other information that is linked or linkable to a specific individual.
2. Sensitive PII (SPII) is a subset of PII that, if lost, compromised, or disclosed without authorization could result in substantial harm, embarrassment, inconvenience, or unfairness to an individual. SPII is CUI and requires additional controls and safeguards to protect the privacy of individuals. Sensitivity of PII may depend on specific PII elements, groupings of PII, context or use of PII, or requirements under applicable federal laws, regulations, and policy such as the Privacy Act of 1974 and the CUI Rule. SPII includes but is not limited to full or truncated Social Security Number (SSN), driver's license or state identification number; financial account number; date of birth; citizenship; ethnic or religious affiliation; biometric identifiers such as fingerprint, voiceprint, or iris scan; medical information; criminal history; and system authentication information such as passwords, personal identification numbers or mother's maiden name.

C. Privacy Act Requirements

The Contractor shall comply with the requirements of the Privacy Act of 1974 and shall not remove PII or Privacy Act material from government facilities or systems, or facilities or systems operated or maintained on the government's behalf, without the express written permission of the Head of the Contracting Activity. When Privacy Act records, information, data, documentary material, and equipment is no longer required, the Contractor shall return it to the Department's control or hold it until otherwise directed. Items returned to the government shall be hand carried, mailed, emailed, or securely electronically transmitted to the CO.

D. Privacy Controls

The Contractor shall meet the privacy requirements of the E-Government Act, FISMA, applicable federal privacy laws, NIST, OMB, and DOI (including but not limited to those listed in the contract table of authorities) for the collection, handling, processing, and sharing of PII, and ensure compliance with the privacy controls requirements of NIST SP 800- 53, FIPS 199,

FIPS 200, and DOI Privacy Control standards as appropriate for the sensitivity of the system. The Contractor shall monitor the information system and update controls for continued privacy compliance on an ongoing basis and shall provide status reports to the Department upon request.

The Contractor shall be required to provide all necessary support to assist the Department in meeting the requirements of the Privacy Act and related laws and shall provide supporting documentation and access to information upon request by authorized agency officials. Support in this context includes timely responding to requests for information from the Department about the access, creation, collection, use, storage, maintenance, transmission, sharing, or disposition of PII on the Contractor's system or processes, and providing timely review of relevant compliance documents for factual accuracy.

E. Privacy Breach Reporting Requirements

The Contractor shall provide notice to DOI CIRC or the appropriate Bureau or Office Incident Response Team of any known or suspected breach of PII and meet breach reporting and mitigation requirements in accordance with the DOI Privacy Breach Response Plan or bureau or office applicable response plan. The report of a breach of PII shall not, by itself, be interpreted as evidence that the Contractor has failed to provide adequate information security safeguards for sensitive information or has otherwise failed to meet the requirements of the contract.

The Contractor shall report all known or suspected breaches in electronic or physical form to the CO, COR, and the DOI CIRC or bureau or office point of contact no later than one hour following discovery via email at DOICIRC@ios.doi.gov or (703) 648-5655, regardless of day or time and as specified within the DOI Privacy Breach Response Plan and the applicable bureau or office response plan.

The Contractor shall not include any controlled information in the subject or body of any e-mail and shall not include any SPII. Where necessary, SPII shall be transmitted using encryption methods to protect CUI in attachments in accordance with cryptographic requirements prescribed by the current NIST FIPS 140 version. Passwords shall be securely communicated separately.

The Contractor shall not contact individuals impacted by a breach involving PII until directed by the government. Department officials will make all determinations related to response activities, appropriate notifications to individuals and federal agencies and other organizations, and any remedial actions.

The Contractor shall take immediate action to contain and mitigate the impact of the breach and cooperate with DOI officials to investigate the breach and determine remedial measures as follows:

- The Contractor shall provide full access and cooperation for all activities—determined by the Department to be required—to ensure an effective breach response, including providing all requested images, log files, and event information to facilitate rapid resolution of breaches.
- Breach response activities—determined to be required by the Department—may include but are not limited to inspections, investigations, forensic reviews, data analyses and

processing, and final determinations of responsibility for the breach and/or liability for any additional response activities.

- The Department, at its sole discretion, may obtain the assistance of federal agencies and/or third-party firms to aid in breach response activities, as needed.

The Contractor shall provide a detailed written analysis with the following data elements available at the time of the breach, and a follow up report with any additional information or updates within 24 hours of the initial breach report, that shall address all relevant information concerning the compromise:

- Government programs, platforms, or systems involved
- Location(s) of the breach
- Date and time the breach was discovered
- Nature of the event (loss, theft, or unauthorized access)
- Description or summary of events
- Description of PII involved, such as name, Social Security number, date of birth, etc.
- Number of potentially impacted individuals
- Estimated number of records exposed or compromised

The Contractor shall collaborate with DOI officials on breach remedial activities to include notifications, credit monitoring, establishing a call center, or other relief to affected individuals as appropriate under the circumstances of the breach as prescribed in the contract. The Contractor shall have the capability to notify individuals whose PII resided in the Contractor system at the time of the breach not later than five business days after being directed by DOI officials to notify affected individuals. The Contractor shall not proceed with notifications unless the CO has directed in writing that notification is appropriate, subject to prior approval by DOI Privacy Officials, in accordance with the DOI Privacy Breach Response Plan. Notification may require the Contractor's use of address verification and/or address location services. All determinations, including response activities, notifications to affected individuals and/or federal agencies, and related services will be made by authorized DOI officials at DOI's discretion.

If an SPII or PII breach occurs because of the violation of a term of the contract by the Contractor or its employees, or the Contractor's covered persons, the Contractor shall, as directed by the CO and at no cost to the government, without delay correct or mitigate the violation. If the Department incurs a cost for individual notifications and remediation services procured as the result of a breach of SPII or PII, the COR will contact the CO to coordinate appropriate remedies per contract terms and conditions.

F. Privacy Training Requirements

All Contractor and subcontractor employees are required to take privacy awareness training prior to accessing DOI information or information systems. All Contractor and subcontractor employees must also complete role-based privacy training prior to accessing PII or Privacy Act data. All required privacy training shall be completed within 30 days of contract award and prior

to granting access to DOI information systems or any PII, and must be completed on an annual basis thereafter, not later than September 30th of each year. Any new Contractor employees assigned to the contract shall also meet these privacy training requirements. Privacy training shall meet the requirements of FAR 52.224-3 Privacy Training (January 2017).

The Contractor shall maintain copies of training certificates for all Contractor and subcontractor employees as a record of compliance. Initial training certificates for each Contractor and subcontractor employee shall be provided to the COR not later than 30 days after contract award. Subsequent training certificates to satisfy the annual training requirement shall be submitted to the COR via e-mail notification not later than October 30th of each year. The e-mail notification shall state the required training has been completed for all Contractor and subcontractor employees.

Section 4.0 – Accessibility Requirements (Section 508)

Section 508 of the Rehabilitation Act of 1973, as amended (29 U.S.C § 794 (d)) requires that when federal agencies develop, procure, maintain, or use information and communication technology (ICT), it must be accessible to people with disabilities. Federal employees and members of the public who have disabilities must have access to and use of information and data that is comparable to people without disabilities.

When ICT conforming to one or more requirements in the Revised 508 Standards is not commercially available, the agency shall procure the ICT that best meets the agency's business needs and the Revised 508 Standards, in accordance with 36 CFR 1194 E202.7 and FAR 39.2. Any selection of a product or service that meets less accessibility standards due to a significant difficulty or expense shall only be permitted under an undue burden claim and requires authorization from the DOI Section 508 Office according to 375 DM 8.

A. Applicability

This term applies to the Contractor, its subcontractors, and Contractor employees (hereafter referred to collectively as "Contractor"). The Contractor shall use these terms in all subcontracts.

B. Requirements

1. Products, platforms, and services delivered as part of a statement of work that are ICT, or contain ICT, shall conform to the Revised 508 Standards, which are located at 36 CFR § 1194.1 and Appendices A, C and D and available at <https://www.access-board.gov/ict/>. In the revised regulation, ICT replaced the term Electronic and Information Technology (EIT) used in the original 508 standards.
 - a. Applicable Functional Performance Criteria: All functional performance criteria in chapter 3 of the Revised 508 Standards apply when using an alternative design or technology that results in substantially equivalent or greater accessibility and usability by individuals with disabilities than would be provided by conformance to one or more of the requirements in chapters 4 and 5 of the Revised 508 Standards, or when chapters 4 or 5 do not address one or more functions of ICT.
 - b. Applicable 508 requirements for electronic content features and components (including electronic training materials): All requirements in E205 of the revised

508 Standards apply, including all Web Content Accessibility Guidelines (WCAG) 2.0 Level AA Success Criteria.

- c. Applicable 508 requirements for software features and components (including Software infrastructure): All requirements in chapter 5 apply, including all WCAG 2.0 Level AA Success Criteria, 502 Interoperability with Assistive Technology, and 503 Application.
 - d. Applicable 508 requirements for hardware features and components: All requirements in chapter 4 apply.
 - e. Applicable 508 requirements for support services and documentation: All requirements in chapter 6 apply.
2. When providing installation, configuration or integration services for ICT, the Contractor shall not reduce the original ICT item's level of Section 508 conformance prior to the services being performed.
 3. When providing maintenance upgrades, substitutions, and replacements to ICT, the Contractor shall not reduce the original ICT's level of Section 508 conformance prior to upgrade, substitution, or replacement. The agency reserves the right to request an Accessibility Conformance Report (ACR) for proposed substitutions and replacements prior to acceptance.
 4. Contractors shall provide an ACR for each commercially available ICT item offered through this contract. The ACR should be created using the Voluntary Product Accessibility Template (VPAT) Version 2.4 Rev 508 (or later), located at <https://www.itic.org/policy/accessibility/vpat>.
 5. When developing or modifying ICT for the government, the Contractor shall ensure the ICT fully conforms to the applicable Section 508 Standards. When modifying a commercially available or government-owned ICT, the Contractor shall not reduce the original ICT item's level of Section 508 conformance.
 6. When developing or modifying web and software ICT, the Contractor shall demonstrate Section 508 conformance by providing Section 508 test results based on the versions of the DHS Trusted Tester Methodology currently approved for use, as defined at <https://www.dhs.gov/compliance-test-processes>. The Contractor shall use testers who are certified by DHS on how to use the DHS Trusted Tester Methodology (e.g., "DHS Certified Trusted Testers") to conduct accessibility testing. Information on how testers can become certified is located at <https://www.dhs.gov/publication/trusted-tester-resources>.
 7. Contractor personnel shall possess the knowledge, skills, and abilities necessary to address the applicable revised Section 508 Standards for each ICT.
 8. Exceptions for statements of work have been determined by DOI and only the exceptions described in 375 Departmental Manual (DM) 8 DOI Section 508 Program and Responsibilities, dated February 5, 2016, may be applied. Any request for additional exceptions shall be sent to the COR and a determination will be made according to 375 DM 8.

Section 5.0 – Records Management Requirements

When federal agencies acquire goods or services, they need to determine what federal records management requirements should be included in the contract. Federal contractors often create, send, or receive federal records. Federal contracts should provide clear legal obligations describing how the contract employees must handle federal records.

Agency records officers, procurement counsel, and acquisitions officers must discuss how to integrate records management obligations into their existing procurement processes. The National Archives and Records Administration (NARA) has developed language to be included as an agency-specific term and condition in federal contracts for a variety of services and products. Most contracts should include language on records management obligations, but each contract should be evaluated individually as not all conditions will be appropriate for all contracts. For example, the data-rights paragraph may not be appropriate for all contracts. Instead, agencies may be better served by one of the established data-rights clauses in the Federal Acquisition Regulations.

This language should not replace specific records management requirements included within federal information system contracts.

A. Applicability

This term applies to all Contractors whose employees create, work with, or otherwise handle federal records, as defined in section B, regardless of the medium in which the record exists. The Contractor shall use these terms in all subcontracts.

B. Definitions

Federal record – (as defined in 44 U.S.C. § 3301) includes all recorded information, regardless of form or characteristics, made or received by a federal agency under federal law or in connection with the transaction of public business and preserved or appropriate for preservation by that agency or its legitimate successor as evidence of the organization, functions, policies, decisions, procedures, operations, or other activities of the United States Government or because of the informational value of data in them.

The term federal record:

- includes all departmental records
- does not include personal materials
- applies to records created, received, or maintained by Contractors pursuant to their Department contract
- may include deliverables and documentation associated with deliverables

C. Requirements

1. Contractors shall comply with all applicable records management laws and regulations, as well as NARA records policies, including but not limited to the Federal Records Act (44 U.S.C. chapters 21, 29, 31, 33), NARA regulations at 36 CFR Chapter XII Subchapter B, and Departmental policy.

2. The Contractor shall coordinate with the appropriate Departmental and Bureau Records Management Programs to ensure the identification, storage, retrieval, preservation, access, control markings, and disposition of records using the official Departmental record keeping system(s). This includes the implementation of all technical aspects to appropriately interconnect and or transfer records to the system(s). Any exceptions to using this system must be expressly presented by the Contractor in writing to and approved by the Departmental and/or Bureau Records Management Programs. Thereafter, each major or minor variance must be expressly presented in writing.
3. When the Department or a bureau contracts for the design, development, or operation of a system on behalf of the Department, the Contractor must make and preserve records to sufficiently document all planning, design, development, or operation of the system.
 4. In accordance with 36 CFR 1222.32, all data created for government use and delivered to, or falling under the legal control of, the government are federal records subject to the provisions of 44 U.S.C. chapters 21, 29, 31, and 33, the Freedom of Information Act (FOIA) (5 U.S.C. 552), as amended, the Privacy Act of 1974 (5 U.S.C. 552a), as amended, and Executive Order 13556 Controlled Unclassified Information.
