I.	<u>DESCRIPTION</u>
----	---------------------------

THIS IS A NOTICE OF INTENT FOR REQUEST FOR QUOTE. This is a combined synopsis/solicitation for commercial construction services prepared in accordance with FAR Part 12. This announcement constitutes the only solicitation. Offers are being requested and a separate written solicitation will not be issued.

Solicitation number **140P1526Q0092** is issued as a request for quote (RFQ) for ADDRESSING DEFERRED MAINTENANCE AND REPLACEMENT OF SELECTIVE COMPONENTS AT QUARTERS 29 at Chiricahua National Monument (CHIR).

This acquisition is set-aside for small business concerns. This solicitation incorporates provisions and clauses by reference. The full text of provisions and clauses may be accessed electronically at www.acquisition.gov.

This requirement is a 100% total small business set-aside. The associated NAICS code is **238160**. The small business size standard is **\$19M**. Provisions and clauses are incorporated in this solicitation document.

Anticipated Award Date: On or before 6/22/2026

Magnitude of Construction: \$100,000 to \$250,000.00.

To be considered for award your company must obtain a Unique Entity Identifier (UEI). Your company must also be registered in the System for Award Management (SAM) and be considered a small business for the size standard associated with the NAICS code found in block 10 on page one (1) of this solicitation, and this registration must be “active” in SAM at the time of quote/proposal close date/time - as well as, at the time of award and throughout the entire award/contract performance.

Website: <https://www.sam.gov>

If you have any registration questions or if you need assistance with registration or updating SAM, please contact the National APEX Accelerator nearest you.

Website: [Home - National Apex Accelerator Alliance](#) // [APEX Accelerators](#)

GENERAL INFORMATION:

This solicitation is a Request for Quote (RFQ) Solicitation issued on Standard Form (SF) 1442. Award of this contract will be made according to FAR Part 12 Acquisition of Commercial Products and Commercial Services. All references to “proposal” in this solicitation shall be understood to mean “quotation.” Quotations shall be evaluated in an impartial manner and consideration given to those with the highest perceived value to the government.

Contract Type

The contract awarded as a result of this solicitation will be a firm-fixed price commercial contract/award.

Construction Contract Administration

Federal Acquisition Regulation (FAR) 36.211(b) and RFO FAR 36.101-4 requires agencies provide description of policies and procedures that apply to definitization of equitable adjustments for change orders under construction contracts and data on the time required to definitize equitable adjustments for change orders under construction contracts. This information can be found at: [FAR Overhaul - Part 36 | Acquisition.GOV](#)

COMPLIANCE WITH RECENT EXECUTIVE ORDERS 14148/14208

System updates may lag policy updates. The System for Award Management (SAM) may continue to require entities to complete representations based on provisions that are not included in agency solicitations, including 52.223-22, Public Disclosure of Greenhouse Gas Emissions and Reduction Goals—Representation, and paragraph (t) of 52.212-3, Offeror Representations and Certifications—Commercial Products and Commercial Services. Agencies will not consider or use these representations. Entities are not required to, nor are they able to, update their entity registration to remove these representations in SAM.

The following Federal Acquisition Regulation (FAR) provisions and clauses shall be applicable to this solicitation and award: For full text version of these provisions and clauses, please go to the following internet address: www.acquisition.gov

II.	<u>SUBMISSION REQUIREMENTS</u>
------------	---------------------------------------

Closing Response Date/Time:	Quotes are due by 12 June 2026 @ 1:00 PM AZ time
Contact Point or Contracting Officer:	Taylor Jones - email – taylor_jones@ios.doi.gov
Questions regarding this solicitation:	All questions shall be received no later than 3 calendar days following the organized site visit to be considered.
Submission Requirements / How to Submit an Offer:	Offers to be submitted via email Please see page #10 of this solicitation for submission requirement details.

III.	<u>LIST OF LINE-ITEMS</u>
-------------	----------------------------------

<u>ITEM NUMBER</u>	<u>ITEM</u>	<u>QUANTITY</u>	<u>UNIT OF MEASURE</u>
0010:	Base; See SOW for detailed work required	1	LS
0020:	Option Line item; See SOW for detailed optional work	1	LS

IV.	<u>DESCRIPTION OF REQUIREMENT(S)</u>
------------	---

Independently, and not as an agent of the Government, the contractor/vendor shall furnish all labor, materials, and equipment necessary to provide ADDRESSING DEFERRED MAINTENANCE AND REPLACEMENT OF SELECTIVE COMPONENTS AT QUARTERS 29 at Chiricahua National Monument (CHIR).

Please see attached Statement of Work and other supporting documentation for details outlining additional pertinent information of this requirement.

V.	<u>DELIVERY INFORMATION/TERMS / PERIOD OF PERFORMANCE</u>
-----------	--

Please see attached Statement of Work and other supporting documentation for details outlining terms/instructions and period of performance, to include place of performance.

VI.	<u>LIST OF PROVISIONS (BY REFERENCE)</u>
------------	---

52.252-1 Solicitation Provisions Incorporated by Reference (Feb 1998)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es): www.acquisition.gov

(End of provision)

52.252-5 Authorized Deviations in Provisions (Nov 2020)

As prescribed in [52.107\(e\)](#), insert the following provision in solicitations that include any FAR or supplemental provision with an authorized deviation. Whenever any FAR or supplemental provision is used with an authorized deviation, the contracting officer shall identify it by the same number, title, and date assigned to the provision when it is used without deviation, include regulation name for any supplemental provision, except that the contracting officer shall insert "(DEVIATION)" after the date of the provision.

Authorized Deviations in Provisions (Nov 2020)

- (a) The use in this solicitation of any Federal Acquisition Regulation (48 CFR Chapter 1) provision with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the provision.
- (b) The use in this solicitation of any _____ *[insert regulation name]* (48 CFR Chapter _____) provision with an authorized deviation is indicated by the addition of "(DEVIATION)" after the name of the regulation.

(End of provision)

52.203-18 Prohibition on Contracting with Entities that Require Certain Internal Confidentiality Agreements or Statements-Representation (Jan 2017)
52.204-7 System for Award Management - Registration (Nov 2024) (DEVIATION Mar 2026)
52.209-2 Prohibition on Contracting with Inverted Domestic Corporations – Representation (Nov 2015)
52.212-1 Instructions to Offerors - Commercial Products and Commercial Services (Sep 2023) (DEVIATION Mar 2026)
52.214-34 Submission of Offers in the English Language (Apr 1991)

52.223-4 Recovered Material Certification (May 2008)
52.225-2 Buy American Certificate (Oct 2022)
52.225-20 Prohibition on Conducting Restricted Business Operations in Sudan-Certification (Aug 2009) DEVIATION DATE
52.225-25 Prohibition on Contracting with Entities Engaging in Certain Activities or Transactions Relating to Iran-Representation and Certifications (Jun 2020) DEVIATION DATE
52.240-90 Security Prohibitions and Exclusions Representations and Certifications (Dec 2025) (DEVIATION Mar 2026)

VII.	<u>LIST OF CLAUSES (BY REFERENCE)</u>
-------------	--

52.252-2 Clauses Incorporated by Reference (Feb 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address (es): www.acquisition.gov

(End of clause)

52.252-6 Authorized Deviations in Clauses (Nov 2020)

As prescribed in [52.107\(f\)](#), insert the following clause in solicitations and contracts that include any FAR or supplemental clause with an authorized deviation. Whenever any FAR or supplemental clause is used with an authorized deviation, the contracting officer shall identify it by the same number, title, and date assigned to the clause when it is used without deviation, include regulation name for any supplemental clause, except that the contracting officer shall insert "(DEVIATION)" after the date of the clause.

Authorized Deviations in Clauses (Nov 2020)

- (a) The use in this solicitation or contract of any Federal Acquisition Regulation (48 CFR Chapter 1) clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the clause.
- (b) The use in this solicitation or contract of any _____ *[insert regulation name]* (48 CFR _____) clause with an

authorized deviation is indicated by the addition of "(DEVIATION)" after the name of the regulation.

(End of clause)

III.	PROVISIONS AND CLAUSES INCORPORATED BY FULL TEXT
------	---

52.209-11 Representation by Corporations Regarding Delinquent Tax Liability or a Felony Conviction under any Federal Law (Feb 2016) DEVIATION DATE

(a) As required by sections 744 and 745 of Division E of the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L 113-235), and similar provisions, if contained in subsequent appropriations acts, the Government will not enter into a contract with any corporation that--

(1) Has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability, where the awarding agency is aware of the unpaid tax liability, unless an agency has considered suspension or debarment of the corporation and made a determination that suspension or debarment is not necessary to protect the interests of the Government; or

(2) Was convicted of a felony criminal violation under any Federal law within the preceding 24 months, where the awarding agency is aware of the conviction, unless an agency has considered suspension or debarment of the corporation and made a determination that this action is not necessary to protect the interests of the Government.

(b) The Offeror represents that—

(1) It is ☐ is not ☐ a corporation that has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability; and

(2) It is ☐ is not ☐ a corporation that was convicted of a felony criminal violation under a Federal law within the preceding 24 months.

(End of provision)

ADDENDUM TO 52.212-1 INSTRUCTIONS TO OFFERORS - COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (Sep 2023) (DEVIATION Mar 2026)**GENERAL INFORMATION**

The National Park Service (NPS) is seeking quotations for construction services as attached in the accompanying Statement of Work/Project Specifications. The NPS intends to conduct this acquisition by use of simplified acquisition procedures in accordance with FAR Part 12.

To assure timely and equitable evaluation of quotes, offerors must follow the instructions contained herein. Offerors are required to meet all requirements, including terms and conditions, representations and certifications, and technical requirements. The offeror shall submit in the quote all requested information specified in this section of the Request for Quote (RFQ) at or before the exact time specified. There will be no public opening of the quotes received as a result of this RFQ. Failure to adhere to quotation requirements, at the time of submission, may result in the quotation being unacceptable to the Government and eliminated or ineligible from consideration for award.

North American Industry Classification System (NAICS) code and small business size standard. The NAICS code for this acquisition is **238160** with a size standard of **\$19 Million**.

To be considered for award your company must obtain a Unique Entity Identifier (UEI). Your company must be registered in the System for Award Management (SAM) and be considered a small business for the size standard associated with the NAICS code stated above/utilized throughout this solicitation - this registration must have an "active" status in SAM, NO EXCEPTIONS, at the time of RFQ/RFP submission close date – as well as, at the time of award and throughout the entire award/contract performance.

The direct SAM website for registration is: [SAM.gov | Home](https://sam.gov). If you have any registration questions or need assistance, please call the SAM helpdesk. You may also receive assistance by contacting the Procurement Technical Assistance Center nearest you at their website: [Home - National Apex Accelerator Alliance](#) // [APEX Accelerators](#)

Submit, at a minimum, an offer that conforms to the solicitation documents. By submission of an offer, the offeror unconditionally assents to the terms and conditions in this solicitation and in any solicitation attachments. Quotes offering alternative stipulations to the requirements of this solicitation will NOT be considered or accepted.

This RFQ does not commit the Government to any costs incurred in the preparation and submission of a quote or for any other costs incurred by any firm submitting a quote in response to this solicitation. Note specifically that the Offeror will **not** be participating in a sealed bid procurement process under this acquisition method. Issuance of this RFQ does not constitute an award commitment on the part of the Government.

All firms, prime contractors or subconsultants, involved in developing the design or specifications for this construction solicitation are not eligible and prohibited from receiving any part of this construction award. Quotes from or containing firms under these circumstances will not be considered for award.

If a respondent believes that requirements in these instructions contain an error, omission, or are otherwise flawed, the respondent shall immediately notify the Contracting Officer in writing (email is the preferred method) with supporting rationale prior to the closing of this RFQ.

Quotation must be valid for a minimum of **60 days**.

Award is subject to and based on the availability of funds. This project is currently funded based upon an independent cost estimate.

Respondents shall not contact any government personnel related to this requirement other than the Contracting Officer and Contracting Specialist.

All questions should be emailed directly to the Contracting Specialist. Only written RFI's will be considered and responded to by the Government. NPS responses to RFIs will be posted as an amendment to the solicitation.

A) **OFFER DUE DATE**

1. To be considered for award, all quotes for this solicitation must be received no later than the **date and time noted in the solicitation** unless changed by amendment. Offerors are responsible for submitting quotes so as to reach the Government office designated in the solicitation by the time specified in the solicitation. Offerors should consider and account for potential delays in transmissions between when an electronic submission is submitted and when an electronic submission is received. Late quotes will not be accepted.

B) **QUESTIONS**

Contractor questions regarding this solicitation will be accepted in writing by email to: **taylor_jones@ios.doi.gov**. All questions shall be received **no later than 3 calendar days following the organized site visit** to be considered.

(Please reference provision 52.236-27 – Site Visit (Construction)(Feb 1995) for site visit date).

C) **TO SUBMIT AN OFFER / SUBMISSION REQUIREMENTS**

1. Delivery of Offers:

Quotes shall be submitted via email. Quotes submitted via any means other than email shall not be accepted.

2. Quotes shall be sent to the following:
 - i. Contract Specialist: **taylor_jones@ios.doi.gov**
3. Title subject line for all quote submissions shall contain the solicitation number, project name and number of total emails (this is if the size limit of the attachment is too large to send in one email – please see size limits below), per the following example:
 - i. **Subject: 140P1525Q092 – CHIR – email 1 of 2**
4. Submit quote documents in one quote package, PDF format, containing contents required as listed below in the CHECKLIST FOR QUOTE SUBMITTAL section.
 - i. **Document titled as “QUOTE PACKAGE” in PDF format**
5. Size Limits:
 - i. The total size limit of each email containing all attachments cannot/shall not exceed 25MB; so please ensure that the total size limit of individual attachments in the email conform with the size limitation for the total email attachment limit
 - ii. Page Format Restrictions and Limitations: Quotes will be 8 ½ " x 11" paper except for foldouts used for charts, tables, or diagrams, which may not exceed 11" x 17".

CHECKLIST FOR QUOTE SUBMITTAL:

Document to Complete in Quote Package	Check Box
Checklist for Quote Submittal – the checklist is this page of the solicitation completed as the first page in the package	☐
Signed acknowledgement of SF1442	☐
Signed amendments (if applicable): Offeror shall <u>acknowledge all solicitation amendments</u> by signing the amendment and provide it with quote package	☐
Price/Bid Schedule: provide pricing on the attached Price/Bid Schedule. Total price shall be cited and if listed on the Solicitation Form, it must be the same amount listed. All pricing to be rounded to the nearest dollar. Alternate pricing and alternate quotes will not be accepted.	☐
Completed Provisions in this solicitation as applicable	☐
Provide Technical Capability:	☐

Complete a project narrative that demonstrates proposed schedule and approach for conducting the project activities that describes how the company will successfully meet the needs of the project specifications/statement of work. NOTE: Vendors are encouraged to provide detailed specific information. Failure to provide sufficient information so that the evaluation team cannot discern if the offeror has a thorough understanding of the work in question may lead to this item being deemed unacceptable. Information provided should be relevant to the project specifications and supporting documents.	
Provide Prior Experience: Complete a compiled list with prior experience references - preferably a minimum of 3 and/or a maximum of 5, which are most recent projects within the past five (5) years that provide information on the performance quality of work on relevant similar projects in size and scope as outlined in the project specifications: • Brief description of project • Point of contact information NOTE: Contact information SHALL be provided, to include a brief description of the project, as well as point of contact information so that the Government may contact and confirm the information provided. Additionally, the Government may consider any and all other sources of information, including, but not limited to, contacting the contractor or contracting officer of the projects provided or some other means.	☐
If quoting an “or equal” item, must submit a detailed product specifications document/literature and ensure it is provided to confirm the item(s) are comparable	☐

Contractor Core Data:

Offerors Company Name: _____

Cage Code / Offerors Unique Entity Identifier (UEI): _____

Offerors POC: _____

Offerors POC Email/Phone: _____

(a) Evaluation factors: The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

- (i) price;
- (ii) technical capability of the item offered to meet the Government requirement.
- (iii) prior experience

SEE AWARD SELECTION PROCESS section below

(b) *Options (if applicable)*. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) *Notice of award*. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of provision)

AWARD SELECTION PROCESS

BASIS FOR AWARD

Award will be made in accordance with Simplified Acquisition evaluation procedures as set forth by FAR Part 12 to the offeror that provides the best value and most advantageous to the government based on price, technical, and prior experience. This solicitation is not stating nor required to state the relative importance assigned to each evaluation factor and/or sub factor (FAR 12.203(c)(2)). The government reserves the right to consider any offer submitted in response to the solicitation, regardless of date/time prior to making a final award decision.

1. **Price:** a detailed breakdown of offeror's price may be requested by the CO during evaluation
2. **Technical Capability:** Technical is the factual documentation of the firm's ability to meet the specifications.
 - a. Offeror should submit any relevant evidence sufficient of technical capability which validates the offeror possesses, or has the ability to obtain, the technical knowledge, capability, business and managerial acumen, and experience to successfully perform a contract of the size and scope as described in this solicitation.
 - b. Failure to provide sufficient information so that the evaluation team cannot discern if the offeror has a thorough understanding of the work in question may lead to this item being deemed unacceptable.
 - c. Further documentation may include, but is not limited to, additional references, identification of previous government contracts performed, licenses and or certifications, company capability statement/bio, photographs of relevant completed projects and awards, certificates of achievement, and letters of recognition pertinent to the disciplines/trades required of the work described in this

solicitation.

3. **Prior Experience:** is the factual documentation or narrative of a firm's experience, qualifications, and capability, along with providing examples of their firm's most recent and relevant projects within the past five (5) years of similar size and scope.
 - a. Failure to provide sufficient information may lead to this item being deemed unacceptable.

The government will evaluate quotes in groups of three (3), starting with the lowest priced quotes, proceeding upward, incrementally in price, until an awardee is selected. At that point, the evaluation process stops, and award will be made to the selected Offeror.

Price Reasonableness. A contract may not be awarded if the offeror's price results in a cost to the government which is determined by the government not to be fair and reasonable. In determining the reasonableness and fairness of the offeror's price, the contracting officer shall use competition and comparison of offers submitted or review prices found reasonable on previous purchases, the contracting officer's personal knowledge of the products being purchased, and services being performed, comparison to an independent Government estimate, or any other reasonable basis. If multiple contract line items are included in the price schedule, prices will also be evaluated to determine whether any line items are unbalanced. Offerors are cautioned to distribute costs appropriately. The contracting officer will determine whether the final price is fair and reasonable and constitutes a fair market price.

The Government intends to evaluate quotations and award a contract without exchanges with offerors. Therefore, the offeror's initial quotation should contain the offeror's best terms from a cost or price and technical standpoint. The Government reserves the right to conduct exchanges if the Contracting Officer later determines them to be necessary. The Contracting Officer will also review the contractor's past performance prior to making a final award decision.

The Government reserves the right to select a quote that provides benefit to the Government that exceeds the minimum but is not required to do so.

A written notice of award or acceptance of an offer mailed or otherwise furnished to the successful offeror within the time for acceptance specified constitutes an offer by the government. The contractor and Contracting Officer will both sign the final award to bind both parties. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether there are exchanges or negotiations after its receipt, unless a written notice of withdrawal is received before award.

**** Evaluation of Options:** The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s). **

52.225-9 -- Buy American--Construction Materials (Oct 2022) DEVIATION DATE

(a) *Definitions.* As used in this clause—

Commercially available off-the-shelf (COTS) item—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” at Federal Acquisition Regulation (FAR) 2.101);

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in [46 U.S.C. 40102\(4\)](#), such as agricultural products and petroleum products.

"Construction material" means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

Cost of components means—

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the construction material (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

Critical component means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

Critical item means a domestic construction material or domestic end product that is deemed critical to U.S. supply chain resiliency. The list of critical items is at FAR 25.105.

Domestic construction material means—

(1) For construction material that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured construction material mined or produced in the United States; or

(ii) A construction material manufactured in the United States, if—

(A) The cost of its components mined, produced, or manufactured in the United States exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic. Components of unknown origin are treated as foreign; or

(B) The construction material is a COTS item; or

(2) For construction material that consists wholly or predominantly of iron or steel or a combination of both, a construction material manufactured in the United States if the cost of foreign iron and steel constitutes less than 5 percent of the cost of all components used in such construction material. The cost of foreign iron and steel includes but is not limited to the cost of foreign iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the construction material and a good faith estimate of the cost of all foreign iron or steel components excluding COTS fasteners. Iron or steel components of unknown origin are

treated as foreign. If the construction material contains multiple components, the cost of all the materials used in such construction material is calculated in accordance with the definition of "cost of components".

Fastener means a hardware device that mechanically joins or affixes two or more objects together. Examples of fasteners are nuts, bolts, pins, rivets, nails, clips, and screws.

Foreign construction material means a construction material other than a domestic construction material.

Foreign iron and steel means iron or steel products not produced in the United States. Produced in the United States means that all manufacturing processes of the iron or steel must take place in the United States, from the initial melting stage through the application of coatings, except metallurgical processes involving refinement of steel additives. The origin of the elements of the iron or steel is not relevant to the determination of whether it is domestic or foreign.

Predominantly of iron or steel or a combination of both means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

Steel means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

"United States" means the 50 States, the District of Columbia, and outlying areas.

(b) Domestic preference.

(1) This clause implements [41 U.S.C. chapter 83](#), Buy American, by providing a preference for domestic construction material. In accordance with [41 U.S.C. 1907](#), the domestic content test of the Buy American statute is waived for construction material that is a COTS item, except that for construction material that consists wholly or predominantly of iron or steel or a combination of both, the domestic content test is applied only to the iron and steel content of the construction materials, excluding COTS fasteners. The Contractor shall use only domestic construction material in performing this contract, except as provided in paragraphs (b)(2) and (b)(3) of this clause.

(2) This requirement does not apply to information technology that is a commercial product or to the construction materials or components listed by the Government as follows: **NONE**

_____[Contracting Officer to list applicable excepted materials or indicate "none"]

(3) The Contracting Officer may add other foreign construction material to the list in paragraph (b)(2) of this clause if the Government determines that-

(i) The cost of domestic construction material would be unreasonable.

(A) *For domestic construction material that is not a critical item or does not contain critical components.*

(1) The cost of a particular domestic construction material subject to the requirements of the Buy American statute is unreasonable when the cost of such material exceeds the cost of foreign material by more than 20 percent;

(2) For construction material that is not a COTS item and does not consist wholly or predominantly of iron or steel or a combination of both, if the cost of a particular domestic construction material is determined to be unreasonable or there is no domestic offer received, and the low offer is for foreign construction material that is manufactured in the United States and does not exceed 55 percent domestic content, the Contracting Officer will treat the lowest

offer of foreign construction material that exceeds 55 percent domestic content as a domestic offer and determine whether the cost of that offer is unreasonable by applying the evaluation factor listed in paragraph (b)(3)(i)(A)(1) of this clause.

(3) The procedures in paragraph (b)(3)(i)(A)(2) of this clause will no longer apply as of January 1, 2030.

(B) For domestic construction material that is a critical item or contains critical components.

(1) The cost of a particular domestic construction material that is a critical item or contains critical components, subject to the requirements of the Buy American statute, is unreasonable when the cost of such material exceeds the cost of foreign material by more than 20 percent plus the additional preference factor identified for the critical item or construction material containing critical components listed at FAR 25.105.

(2) For construction material that does not consist wholly or predominantly of iron or steel or a combination of both, if the cost of a particular domestic construction material is determined to be unreasonable or there is no domestic offer received, and the low offer is for foreign construction material that does not exceed 55 percent domestic content, the Contracting Officer will treat the lowest foreign offer of construction material that is manufactured in the United States and exceeds 55 percent domestic content as a domestic offer, and determine whether the cost of that offer is unreasonable by applying the evaluation factor listed in paragraph (b)(3)(i)(B)(1) of this clause.

(3) The procedures in paragraph (b)(3)(i)(B)(2) of this clause will no longer apply as of January 1, 2030.

(ii) The application of the restriction of the Buy American statute to a particular construction material would be impracticable or inconsistent with the public interest; or

(iii) The construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality.

(c) Request for determination of inapplicability of the Buy American statute.

(1)

(i) Any Contractor request to use foreign construction material in accordance with paragraph (b)(3) of this clause shall include adequate information for Government evaluation of the request, including-

(A) A description of the foreign and domestic construction materials;

(B) Unit of measure;

(C) Quantity;

(D) Price;

(E) Time of delivery or availability;

(F) Location of the construction project;

(G) Name and address of the proposed supplier; and

(H) A detailed justification of the reason for use of foreign construction materials cited in accordance with paragraph (b)(3) of this clause.

(ii) A request based on unreasonable cost shall include a reasonable survey of the market and a completed price comparison table in the format in paragraph (d) of this clause.

(iii) The price of construction material shall include all delivery costs to the construction site and any applicable duty (whether or not a duty-free certificate may be issued).

(iv) Any Contractor request for a determination submitted after contract award shall explain why the Contractor could not reasonably foresee the need for such determination and could not have requested the determination before contract award. If the Contractor does not submit a satisfactory explanation, the Contracting Officer need not make a determination.

(2) If the Government determines after contract award that an exception to the Buy American statute applies and the Contracting Officer and the Contractor negotiate adequate consideration, the Contracting Officer will modify the contract to allow use of the foreign construction material. However, when the basis for the exception is the unreasonable price of a domestic construction material, adequate consideration is not less than the differential established in paragraph (b)(3)(i) of this clause.

(3) Unless the Government determines that an exception to the Buy American statute applies, use of foreign construction material is noncompliant with the Buy American statute or Balance of Payments Program.

(d) *Data*. To permit evaluation of requests under paragraph (c) of this clause based on unreasonable cost, the Contractor shall include the following information and any applicable supporting data based on the survey of suppliers:

(End of clause)

52.216-1 – Type of Contract (Apr 1984) DEVIATION DATE

The Government contemplates award of a Firm Fixed Price Contract resulting from this solicitation.

(End of provision)

52.222-5 -- Construction Wage Rate Requirements—Secondary Site of the Work (May 2014) DEVIATION DATE

(a)

(1) The offeror shall notify the Government if the offeror intends to perform work at any secondary site of the work, as defined in paragraph (a)(1)(ii) of the FAR clause at 52.222-6, Construction Wage Rate Requirements, of this solicitation.

(2) If the offeror is unsure if a planned work site satisfies the criteria for a secondary site of the work, the offeror shall request a determination from the Contracting Officer.

(b)

(1) If the wage determination provided by the Government for work at the primary site of the work is not applicable to the secondary site of the work, the offeror shall request a wage determination from the Contracting Officer.

(2) The due date for receipt of offers will not be extended as a result of an offeror's request for a wage determination for a secondary site of the work.

(End of provision)

52.225-10 -- Notice of Buy American Requirement--Construction Materials (May 2014)

(a) *Definitions.* “Commercially available off-the-shelf (COTS) item,” “construction material,” “domestic construction material,” and “foreign construction material,” as used in this provision, are defined in the clause of this solicitation entitled “Buy American--Construction Materials” (Federal Acquisition Regulation (FAR) clause 52.225-9).

(b) *Requests for determinations of inapplicability.* An offeror requesting a determination regarding the inapplicability of the Buy American statute should submit the request to the Contracting Officer in time to allow a determination before submission of offers. The offeror shall include the information and applicable supporting data required by paragraphs (c) and (d) of the clause at FAR 52.225-9 in the request. If an offeror has not requested a determination regarding the inapplicability of the Buy American statute before submitting its offer, or has not received a response to a previous request, the offeror shall include the information and supporting data in the offer.

(c) *Evaluation of offers.*

(1) The Government will evaluate an offer requesting exception to the requirements of the Buy American statute, based on claimed unreasonable cost of domestic construction material, by adding to the offered price the appropriate percentage of the cost of such foreign construction material, as specified in paragraph (b)(3)(i) of the clause at FAR 52.225-9.

(2) If evaluation results in a tie between an offeror that requested the substitution of foreign construction material based on unreasonable cost and an offeror that did not request an exception, the Contracting Officer will award to the offeror that did not request an exception based on unreasonable cost.

(d) *Alternate offers.*

(1) When an offer includes foreign construction material not listed by the Government in this solicitation in paragraph (b)(2) of the clause at FAR 52.225-9, the offeror also may submit an alternate offer based on use of equivalent domestic construction material.

(2) If an alternate offer is submitted, the offeror shall submit a separate Standard Form 1442 for the alternate offer, and a separate price comparison table prepared in accordance with paragraphs (c) and (d) of

the clause at FAR 52.225-9 for the offer that is based on the use of any foreign construction material for which the Government has not yet determined an exception applies.

(3) If the Government determines that a particular exception requested in accordance with paragraph (c) of the clause at FAR 52.225-9 does not apply, the Government will evaluate only those offers based on use of the equivalent domestic construction material, and the offeror shall be required to furnish such domestic construction material. An offer based on use of the foreign construction material for which an exception was requested—

(i) Will be rejected as nonresponsive if this acquisition is conducted by sealed bidding; or

(ii) May be accepted if revised during negotiations.

(End of provision)

52.228-13 -- Alternative Payment Protections (Jul 2000)

(a) The Contractor shall submit **one** of the following payment protections:

Payment Bond

OR

Irrevocable Letter of Credit (ILC)

(b) The amount of the payment protection shall be 100 percent of the contract price.

(c) The submission of the payment protection is required **within 10 days after contract award**.

(d) The payment protection shall provide protection for the full contract performance period plus a one-year period.

(e) Except for escrow agreements and payment bonds, which provide their own protection procedures, the Contracting Officer is authorized to access funds under the payment protection when it has been alleged in writing by a supplier of labor or material that a nonpayment has occurred, and to withhold such funds pending resolution by administrative or judicial proceedings or mutual agreement of the parties.

(f) When a tripartite escrow agreement is used, the Contractor shall utilize only suppliers of labor and material that signed the escrow agreement.

(End of clause)

52.233-2 Service of Protest Department of the Interior (Sep 2006) (DEVIATION) (Jul 1996)

(a) Protests, as defined in section 33.101 of the Federal Acquisition Regulation, that are filed directly with an agency, and copies of any protests that are filed with the Government Accountability Office (GAO), shall be served on the Contracting Officer (addressed as follows) by obtaining written and dated acknowledgment of receipt from Taylor Jones –taylor_jones@ios.doi.gov or at the address in Block 8 of Form 1442.

(b) The copy of any protest shall be received in the office designated above within one day of filing a protest with the GAO.

(c) A copy of the protest served on the Contracting Officer shall be simultaneously furnished by the protester to the Department of the Interior Assistant Solicitor, Acquisitions and Intellectual Property, 1849 C Street, NW., Room 6511, Washington, DC 20240.

(End of provision)

52.236-15 Schedules for Construction Contracts (Apr 1984) (DEVIATION Jan 2026)

(a)

(1) Within five days after the work commences on the contract or another period of time determined by the Contracting Officer, the Contractor shall prepare and submit to the Contracting Officer for approval a practicable schedule showing the order in which the Contractor proposes to perform the work, and the dates on which the Contractor contemplates starting and completing the work (including acquiring materials, plant, and equipment).

(2) The schedule shall be in the form of a progress chart of suitable scale to indicate appropriately the percentage of work scheduled for completion by any given date during the period.

(3) If the Contractor fails to submit a schedule within the time prescribed, the Contracting Officer may withhold approval of progress payments until the Contractor submits the required schedule.

(b) The Contractor shall continually update the actual progress in the schedule and shall submit it to the Contracting Officer by the means prescribed in the contract for transmittals or as directed by the Contracting Officer.

(c)

(1) If the Contractor falls behind the approved schedule, the Contractor shall take steps necessary to recover lost time and execute in accordance with the approved schedule, without additional cost to the Government.

(2) Such steps may include increasing the number of shifts, overtime operations, days of work, and/or the amount of construction plant.

(3) The Contractor shall submit, for approval, supplementary schedule(s) that demonstrate how the lost time will be recovered.

(d) If the Contractor does not recover the lost time, the Contracting Officer may determine that the Contractor is not prosecuting the work with sufficient diligence to ensure completion within the time specified in the contract. Upon making this determination, the Contracting Officer may terminate the Contractor's right to proceed with the work, or any separable part of it, in accordance with the default terms of this contract.

(End of clause)

52.236-27 – Site Visit (Construction) (Feb 1995)

(a) The clauses at 52.236-2, Differing Site Conditions, and 52.236-3, Site Investigations and Conditions Affecting the Work, will be included in any contract awarded as a result of this solicitation. Accordingly, offerors or quoters are urged and expected to inspect the site where the work will be performed.

(b) An organized site visit has been scheduled for—

Site Visit Date and Time:	May 27th, 2026 at 10:00 AM AZ time
Site Visit Location:	<u>Chiricahua National Monument (CHIR)</u> 12856 E Rhyolite Road 38 Miles SE of Wilcox Willcox AZ 85643 Meeting location: CHIR Visitor Center parking lot
National Park Service POC:	Ben J. Bledsoe; Cell: 520-633-2550; Ben_Bledsoe@nps.gov
Contracting POC:	Taylor Jones – taylor_jones@ios.doi.gov
THIS SITE VISIT DATE AND INFORMATION IS SUBJECT TO CHANGE – PLEASE MONITOR THIS POSTING ON SAM.gov FOR ANY AND ALL AMENDMENTS THAT MAY CHANGE THIS DATE/TIME AND INFORMATION.	

(End of provision)

52.242-14 -- Suspension of Work (Apr 1984)

(a) The Contracting Officer may order the Contractor, in writing, to suspend, delay, or interrupt all or any part of the work of this contract for the period of time that the Contracting Officer determines appropriate for the convenience of the Government.

(b) If the performance of all or any part of the work is, for an unreasonable period of time, suspended, delayed, or interrupted (1) by an act of the Contracting Officer in the administration of this contract, or (2) by the Contracting Officer's failure to act within the time specified in this contract (or within a reasonable time if not specified), an adjustment shall be made for any increase in the cost of performance of this contract (excluding profit) necessarily caused by the unreasonable suspension, delay, or interruption, and the contract modified in writing accordingly. However, no adjustment shall be made under this clause for any suspension, delay, or interruption to the extent that performance would have been so suspended, delayed, or interrupted by any other cause, including the fault or negligence of the Contractor, or for which an equitable adjustment is provided for or excluded under any other term or condition of this contract.

(c) A claim under this clause shall not be allowed—

(1) For any costs incurred more than 20 days before the Contractor shall have notified the Contracting Officer in writing of the act or failure to act involved (but this requirement shall not apply as to a claim resulting from a suspension order); and

(2) Unless the claim, in an amount stated, is asserted in writing as soon as practicable after the termination of the suspension, delay, or interruption, but not later than the date of final payment under the contract.

(End of clause)

52.246-12 -- Inspection of Construction. Inspection of Construction (Aug 1996)

(a) *Definition.* "Work" includes, but is not limited to, materials, workmanship, and manufacture and fabrication of components.

(b) The Contractor shall maintain an adequate inspection system and perform such inspections as will ensure that the work performed under the contract conforms to contract requirements. The Contractor shall maintain complete inspection records and make them available to the Government. All work shall be conducted under the general direction of the Contracting Officer and is subject to Government inspection and test at all places and at all reasonable times before acceptance to ensure strict compliance with the terms of the contract.

(c) Government inspections and tests are for the sole benefit of the Government and do not --

(1) Relieve the Contractor of responsibility for providing adequate quality control measures;

(2) Relieve the Contractor of responsibility for damage to or loss of the material before acceptance;

(3) Constitute or imply acceptance; or

(4) Affect the continuing rights of the Government after acceptance of the completed work under paragraph (i) of this section.

(d) The presence or absence of a Government inspector does not relieve the Contractor from any contract requirement, nor is the inspector authorized to change any term or condition of the specification without the Contracting Officer's written authorization.

(e) The Contractor shall promptly furnish, at no increase in contract price, all facilities, labor, and material reasonably needed for performing such safe and convenient inspections and tests as may be required by the Contracting Officer. The Government may charge to the Contractor any additional cost of inspection or test when work is not ready at the time specified by the Contractor for inspection or test, or when prior rejection makes reinspection or retest necessary. The Government shall perform all inspections and tests in a manner that will not unnecessarily delay the work. Special, full size, and performance tests shall be performed as described in the contract.

(f) The Contractor shall, without charge, replace or correct work found by the Government not to conform to contract requirements, unless in the public interest the Government consents to accept the work with an appropriate adjustment in contract price. The Contractor shall promptly segregate and remove rejected material from the premises.

(g) If the Contractor does not promptly replace or correct rejected work, the Government may --

(1) By contract or otherwise, replace or correct the work and charge the cost to the Contractor; or

(2) Terminate for default the Contractor's right to proceed.

(h) If, before acceptance of the entire work, the Government decides to examine already completed work by removing it or tearing it out, the Contractor, on request, shall promptly furnish all necessary facilities, labor, and material. If the work is found to be defective or nonconforming in any material respect due to the fault of the Contractor or its subcontractors, the Contractor shall defray the expenses of the examination and of satisfactory reconstruction. However, if the work is found to meet contract requirements, the Contracting Officer shall make an equitable adjustment for the additional services involved in the examination and reconstruction, including, if completion of the work was thereby delayed, an extension of time.

(i) Unless otherwise specified in the contract, the Government shall accept, as promptly as practicable after completion and inspection, all work required by the contract or that portion of the work the Contracting Officer determines can be accepted separately. Acceptance shall be final and conclusive except for latent defects, fraud, gross mistakes amounting to fraud, or the Government's rights under any warranty or guarantee.

(End of clause)

Electronic Invoicing and Payment Requirements – Invoice Processing Platform (IPP) (Feb 2021)

Payment requests must be submitted electronically through the U. S. Department of the Treasury's Invoice Processing Platform System (IPP).

"Payment request" means any request for contract financing payment or invoice payment by the Contractor. To constitute a proper invoice, the payment request must comply with the requirements identified in the applicable Prompt Payment clause included in the contract, or the clause 52.212-4 Contract Terms and Conditions - Commercial Products and Commercial Services included in commercial item contracts. The IPP website address is: <https://www.ipp.gov>.

Under this contract, the following documents are required to be submitted as an attachment to the IPP invoice:

1. Copy of vendor invoice document in PDF format, which shows pricing breakdown for all items being

invoiced for and must include the contract number, date(s) of service (if applicable), date of invoice, and the vendor's standard invoice letterhead.

The Contractor must use the IPP website to register access and use IPP for submitting requests for payment. The Contractor Government Business Point of Contact (as listed in SAM) will receive enrollment instructions via email from the Federal Reserve Bank of St. Louis (FRBSTL) within 3 - 5 business days of the contract award date. Contractor assistance with enrollment can be obtained by contacting the IPP Production Helpdesk via email IPPCustomerSupport@fiscal.treasury.gov or phone (866) 973-3131.

If the Contractor is unable to comply with the requirement to use IPP for submitting invoices for payment, the Contractor must submit a waiver request in writing to the Contracting Officer with its proposal or quotation.

(End of clause)

1452.201-70 Authorities and Delegations (Sep 2011)

(a) The Contracting Officer is the only individual authorized to enter into or terminate this contract, modify any term or condition of this contract, waive any requirement of this contract, or accept nonconforming work.

(b) The Contracting Officer will **designate a Contracting Officer's Representative (COR) at time of award**. The COR will be responsible for technical monitoring of the contractor's performance and deliveries. The COR will be appointed in writing, and a copy of the appointment will be furnished to the Contractor. Changes to this delegation will be made by written changes to the existing appointment or by issuance of a new appointment. The COR for this contract will be:

(c) The COR is not authorized to perform, formally or informally, any of the following actions:

(1) Promise, award, agree to award, or execute any contract, contract modification, or notice of intent that changes or may change this contract;

(2) Waive or agree to modification of the delivery schedule;

(3) Make any final decision on any contract matter subject to the Disputes Clause;

(4) Terminate, for any reason, the Contractor's right to proceed;

(5) Obligate in any way, the payment of money by the Government.

(d) The Contractor shall comply with the written or oral direction of the Contracting Officer or authorized representative(s) acting within the scope and authority of the appointment memorandum. The Contractor need not proceed with direction that it considers to have been issued without proper authority. The Contractor shall notify the Contracting Officer in writing, with as much detail as possible, when the COR has taken an action or has issued direction (written or oral) that the Contractor considers to exceed the COR's appointment, within 3 days of the occurrence. Unless otherwise provided in this contract, the Contractor assumes all costs, risks, liabilities, and consequences of performing any work it is directed to perform that falls within any of the categories defined in paragraph (c) prior to receipt of the Contracting Officer's response issued under paragraph (e) of this clause.

(e) The Contracting Officer shall respond in writing within 30 days to any notice made under paragraph (d) of this clause. A failure of the parties to agree upon the nature of a direction, or upon the contract action to be taken with respect thereto, shall be subject to the provisions of the Disputes clause of this contract.

(f) The Contractor shall provide copies of all correspondence to the Contracting Officer and the COR.

(g) Any action(s) taken by the Contractor, in response to any direction given by any person acting on behalf of the Government or any Government official other than the Contracting Officer or the COR acting within his or her appointment, shall be at the Contractor's risk.

(End of clause)

1452.203-70 -- Restrictions on Endorsements (Jul 1996)

Restriction on Endorsements—Department of the Interior

The Contractor shall not refer to contracts awarded by the Department of the Interior in commercial advertising, as defined in FAR 31.205-1, in a manner which states or implies that the product or service provided is approved or endorsed by the Government, or is considered by the Government to be superior to other products or services. This restriction is intended to avoid the appearance of preference by the Government toward any product or service. The Contractor may request the Contracting Officer to make a determination as to the propriety of promotional material.

(End of clause)

1452.204-70 -- Release of Claims – Department of Interior (Jul 1996)

Release of Claims—Department of the Interior

After completion of work and prior to final payment, the Contractor shall furnish the Contracting Officer with a release of claims against the United States relating to this contract. The Release of Claims form (DI-137) shall be used for this purpose. The form provides for exception of specified claims from operation of the release.

(End of clause)

1452.228-70 Liability Insurance – Department of the Interior (Jul 1999)

(a) The Contractor shall procure and maintain during the term of this contract and any extension thereof liability

insurance in form satisfactory to the Contracting Officer by an insurance company which is acceptable to the Contracting Officer. The named insured parties under the policy shall be the Contractor and the United States of America. The amounts of the insurance shall be not less than as follows:

\$100,000.00 each person

\$500,000.00 each occurrence

\$500,000.00 property damage

(b) Each policy shall have a certificate evidencing the insurance coverage. The insurance company shall provide an endorsement to notify the Contracting Officer 30 days prior to the effective date of cancellation or termination of the policy or certificate; or modification of the policy or certificate which may adversely affect the interest of the Government in such insurance. The certificate shall identify the contract number, the name and address of the Contracting Officer, as well as the insured, the policy number and a brief description of contract services to be performed. The contractor shall furnish the Contracting Officer with a copy of an acceptable insurance certificate prior to beginning the work.

(End of clause)

1452.236-71 – Additive or Deductive Items – Department of the Interior (Jul 1996)

So that the Government may obtain the most desirable features of work within the limit of its funds available at time of bid evaluation, award may be made to the bidder having the lowest total of the base bid and a combination of additive and deductive items. All bids shall be evaluated on the basis of the same additive and deductive bid items using the order of priority of the items listed in the schedule.

(End of provision)

Prohibition of All Terrain Vehicles (ATVs) (Jul 1996)

The contractor is prohibited from utilizing All-Terrain Vehicles (ATVs) on National Park Service lands. ATV is defined as: A motorized off-highway vehicle (OHV) traveling on four or more low-pressure tires, having a seat to be straddled by the operator and a handlebar for steering control.

Use of Utility Terrain Vehicles (UTVs) are permitted. UTV (also called a side-by-side) is defined as: A motorized OHV having four or more low pressure tires, designed with side-by-side seats, seatbelts, steering wheel, and optional cab, brush cage, or ROPS.

(End of clause)

IX.	<u>ANY OTHER PERTINENT INFORMATION</u>
------------	---

LIST OF ATTACHMENTS: (please view and download all applicable attachments from <https://www.sam.gov>)

1. Statement of Work (if applicable)
2. Construction Prevailing Wage Determination

Contract Administration Data**(a) Contact Information:**

Contracting Officer administering the Contract:

Taylor Jones
Contracting Officer
National Park Service
Telephone No. (520) 780-9294
Email: taylor_jones@ios.doi.gov

(b) The Contracting Officer (CO) is the only person authorized to approve changes or modify any of the requirements under this contract and notwithstanding any provisions contained elsewhere in this contract, the said authority remains solely with the CO. In the event the contractor effects any such change at the direction of any

person other than the CO, the change will be considered made without authority and no adjustment will be made in the contract price to cover increase in costs incurred as a result thereof.

(c) Contractual problems, of any nature, which might occur during the life of the contract, must be handled in conformance with very specific public laws and regulations (e.g., Federal Acquisition Regulation), and must be referred to the CO for resolution. Only the CO is authorized to formally resolve such problems. Therefore, the contractor is hereby directed to bring all such contractual problems to the immediate attention of the CO.

(d) Any request for contract changes/modifications shall be submitted to the CO.

(e) The contractor and the Government may agree to perform a no-cost field change. Field changes are made when the change appears to be mutually beneficial to all parties and would not require changing the negotiated line items. All field changes must be approved by the CO prior to execution.

(f) All correspondence concerning this contract, such as requests for information (RFI), explanation of terms, and contract interpretation, shall be submitted to the CO.

FINAL PAYMENT

Final payment will be made only after receipt of all payrolls to include subcontractors, SF 1413 Statement of Acknowledgement for each subcontractor, project schedule, updated progress reports, material submittals, test reports, as-built drawings, warranty of construction, release of claims and any other documents requested by the contracting office as applicable. Contractor must provide a signed copy of the 'Release of Claims' to the Contract Administrator upon submittal of final invoice.

AVAILABILITY OF UTILITIES SERVICES

Notwithstanding the provisions of contract clause FAR 52.236-14, Availability and Use of Utility Services, all reasonable required amounts of water, gas, electricity, etc., essential to contract performance shall be made available, at no cost to the contractor, from existing systems, outlets, and supplies. All temporary connections, outlets, and distribution lines as may be required will be installed by the contractor at the contractor's own expense.

UTILITIES CONSERVATION

The contractor will be required to participate in government energy conservation programs. For the purpose of this contract, utilities such as water, electricity, etc., will be furnished by the government at no cost to the contractor.

OCCUPATIONAL SAFETY AND HEALTH ACT (OSHA) INSPECTIONS

The contractor shall be subject to inspections under the OCCUPATIONAL SAFETY AND HEALTH ACT (OSHA) program by inspectors of the Department of Labor.

INTERIM AND FINAL INSPECTIONS

1. Prior to covering, enclosing, or hiding any of type work, the Contractor must contact the Government representative to perform an interim inspection. Failure to contact the Government representative perform an interim inspection prior to concealment may result in the Contractor being required to uncover performed work sufficiently to allow for proper inspection.

2. When ready for final inspection, the Contractor shall notify the CO and COR, requesting a final inspection in writing to the CO. The final inspection shall normally be requested a minimum of three (3) calendar days before the desired date or as otherwise negotiated with the Contracting Officer.

3. The final inspection will be onsite with the Contractor, the Contracting Officer's Representative, and Contract Specialist/Contracting Officer (when possible).

1 Project Overview

1.1 Location, Facilities, and Key Personnel

This project involves the 612-sf housing unit #29 within Chiricahua National Monument. Housing unit #29 (Q29) is located within Chiricahua National Monument (CHIR) at 12707 E. Faraway Ranch Road, Willcox, AZ 85643.

Points of contact:

SEAZ Facilities Manager: Sam Bell

Email: sam_bell@nps.gov

Office: (520) 824-3560 ext. 9303

Cell: (520) 274-0535

Contracting Officers Representative (COR): Ben Bledsoe

Email: ben_bledsoe@nps.gov

Office: (520) 824-3560 ext. 9403

Cell: (520) 503-8030

Contracting Officer: Taylor Jones, taylor_jones@ios.doi.gov, 520 780 9294

1.2 Project Description

This project addresses numerous deficiencies in the 1910 historic structure used as government housing. The building is 1200 square feet (SF) in size and located in the Faraway Historic District. Hillside groundwater is entering the rock wall siding causing moisture damage. The project will replace the French drain on the hillside behind the structure to redirect rain runoff. The buried rock foundation will be exposed, repaired, and sealed. Exterior wood surfaces will be patched, prepped and painted. The heating and air conditioning duct work will be cleaned and repaired to prevent pest entry. Rodents entering attic and foundation will be excluded with wire mesh.

The Contractor shall be responsible for all necessary work to achieve required project outcomes, including labor, equipment, tools, personal protective equipment (PPE), coordination with Authorities Having Jurisdiction (AHJ), internal construction permits, incidental design, travel, and other related expenses.

2 Summary of Requirements and Objectives

Project requirements and required outcomes are described in this SOW. The Contractor shall site verify all existing conditions prior to commencing work on site. Refer also to general notes provided on the project sketches.

2.1 Definition of Contract Line Items

A. Contractor proposal shall list each line item included in base bid and bid options separate

2.2 Base Bid Line Items 10

- A. Replacement of existing and installation of a new Heat pump heating, ventilation, and air-conditioning (HVAC) system to include condensing unit, air handler, line sets, electrical disconnect, and thermostat. Inspection of existing HVAC ductwork throughout entire structure and replacement where needed. Testing and balancing of ductwork See sections 5.1 and 5.2 for product and material specifications regarding this bid item.
- B. Existing propane system to gas furnace will be disconnected, evacuated, and capped.
- C. Removal and replacement of weathered exterior Board and Batten exterior. Contractor shall remove and replace in-kind the damaged exterior siding on the east side. Inspect sheathing and install a vapor permeable moisture barrier and flashing under new siding. All exterior wood will be painted and sealed. It shall be painted to match existing. See section 5.3 for product and material specifications regarding this bid item.
- D. Remove and replace flashing covering roof shingles on south side utility room. Remove board and batten from headwall and install house wrap, new headwall flashing and counterflashing to transition over existing roof shingles. Replace board and batten to match new siding from item C. Replace deteriorated siding on the west wall above this roof section. Install step and kickout flashing to direct water into gutter. Paint and caulk to match the rest of house.
- E. Excavate approximately 60 linear feet of building foundation and retention wall along the south side of building to address foundation leaking. Extend the foundation and gutter drains to daylight away from the building to the east that will not cause erosion and/or ponding in the road or parking areas. Clean-outs will be provided for system maintenance. Contractor shall provide corrections to existing gutter drains to ensure longevity of stabilization and prevent water intrusion into the foundation. No open grate systems will be allowed. Direct all gutter run-off into downspout cleanouts with closed leaf filters. New gutter drain will be directed to the east in the same location as the foundation drain. See section 5.4 for product and material specifications regarding this bid item.

2.3 Bid Option Line Items 20

- A. Repair of sinking floor in kitchen along the south foundation wall. The flooring in the kitchen will be removed and replaced. There looks to be sheathing above the original floor. Determine if any old flooring can be recovered. Expose floor joists and install new subfloor. Install new vinyl flooring. Remove wainscoting from the south wall. Inspect and paint concrete foundation wall and replace board and batten style wainscoting. Re-install all cabinetry and plumbing removed to access floor.

3 Codes and Standards

The Contractor is responsible for securing all needed permits and for ensuring compliance with all federal, state, and local codes and design standards, latest editions, including the following. If discrepancies are found between the SOW and codes or standards as referenced in this SOW, the codes or standards shall govern, unless noted otherwise.

- A. International Building Code (IBC, International Code Council)
(Most current edition)
- B. International Mechanical Code (IMC, International Code Council)
(Most current edition)
- C. International Plumbing Code (IPC, International Code Council)
(Most current edition)
- D. National Electrical Code (NFPA 70) (Most current edition)
- E. National Fire Protection Association Codes (NFPA)
- F. American Society of Heating, Refrigerating, and Air-Conditioning Engineers Standards (ASHRAE)
- G. Air-Conditioning, Heating, & Refrigeration Institute Standards (AHRI)
- H. Sheet Metal & Air Conditioning Contractors' National Association Standards (SMACNA)
- I. National Environmental Balancing Bureau Standards (NEBB)
- J. National Electrical Equipment and Medical Imaging Manufacturers (NEMA)
- K. Occupational Safety and Health Administration (OSHA)
- L. National Air Duct Cleaners Association Standards (NADCA)
- M. US Department of Transportation Manual on Uniform Traffic Control Devices (MUTCD)

4 Approved Equivalents

- A. Contractors proposed equivalents shall be submitted for review during the solicitation period as Requests for Information (RFI). Proposed equivalents shall not be reviewed after the solicitation period.

5 Product and Material Specifications

5.1 Heat Pump Systems (3 ton) - Ducted

- A. General: Heat pump systems comprising indoor air handling units, auxiliary electric resistance coils, evaporator coils, and outdoor condensing units with two stage compressors. Outdoor units shall be fully compatible with indoor units. Verify operation of existing UV system and replace UV lamps. Manual J should be performed to determine the correct system size. Must be able to heat and cool in local temperature conditions.

B. Indoor Units

1. General: Indoor mounted, draw- through, packaged air- handling unit that can be used with ductwork in a free- standing vertical configuration. Unit shall be indoor component of a heat pump system. Unit shall consist of forward-curved belt or direct driven centrifugal fan(s), motor and drive assembly, prewired fan motor contactor, factory- installed refrigerant metering devices, bypass check valves, cooling coil, 2- in. disposable air filters, and condensate drain pans for vertical or horizontal configurations.
2. Chassis: Galvanized steel with flanged edges, removable panels for servicing, and insulation on back of panel.
3. Insulation: Faced, glass-fiber duct liner.
4. Refrigerant Coil: Copper tube, with mechanically bonded aluminum fins and thermal-expansion valve. Comply with ARI 206/110.
5. Auxiliary Electric Coil: Helical, nickel-chrome, resistance-wire heating elements; with refractory ceramic support bushings, automatic-reset thermal cutout, built-in magnetic contactors, manual-reset thermal cutout, airflow proving device, and one-time fuses in terminal box for overcurrent protection.
6. Airstream Surfaces: Surfaces in contact with the airstream shall comply with requirements in ASHRAE 62.1.
7. Condensate Drain Pans:
 - a. Fabricated with slope in at least two planes to collect condensate from cooling coils (including coil piping connections, coil headers, and return bends), and to direct water toward drain connection.
 - 1) Length: Extend drain pan downstream from leaving face to comply with ASHRAE 62.1-2016
 - 2) Depth: A minimum of 2 inches deep.
 - b. Drain Connection: Located at lowest point of pan and sized to prevent overflow.
 - c. Minimum Connection Size: 3/4 inch.
8. Fan: Direct drive, centrifugal
 - a. Fan Motors:
 1. Multitapped, multispeed with internal thermal protection and permanent lubrication.
9. Air Filtration Section:
 - a. General Requirements for Air Filtration Section:
 1. Comply with NFPA 90A.
 - b. Filter-Holding Frames: Arranged for flat orientation, with access doors on front. Filters shall be removable from one side or lifted out from access plenum.
 - c. Extended-Surface, Disposable Panel Filters:
 1. Factory-fabricated, dry, extended-surface type.
 2. Thickness: 2 inches
 3. MERV according to ASHRAE 52.2: 8
 4. Media: Fibrous material formed into deep-V-shaped pleats and held by self-supporting wire grid.

5. Media-Grid Frame: Nonflammable cardboard

C. Air-cooled, Compressor-Condenser Components

1. Casing: Steel, finished with baked enamel, with removable panels for access to controls, weep holes for water drainage, and mounting holes in base. Provide brass service valves, fittings, and gage ports on exterior of casing.
2. Compressor: Hermetically sealed with crankcase heater and mounted on vibration isolation device. Compressor motor shall have thermal- and current-sensitive overload devices, start capacitor, relay, and contactor.
 - a. Compressor Type: Scroll. Minimum 2 stage.
 - b. Refrigerant: A2L: R32, R454b
 - c. Refrigerant Coil: Copper tube, with mechanically bonded aluminum fins and liquid subcooler. Comply with ARI 206/110.
3. Fan: Aluminum-propeller type, directly connected to motor.
4. Motor: Permanently lubricated, with integral thermal-overload protection.
5. Mounting Base: Polyethylene.
6. Electrical Characteristics
 - a. Volts: 208/230
 - b. Phase: 1
 - c. Hertz: 60
 - d. Disconnect: Provide new NEMA Type 3R knife blade type electrical disconnect for each outdoor condensing unit as noted in **Appendix A**. Disconnects shall be located adjacent to each unit (on walls where indicated) and shall be ABB, Eaton, Square D or Approved Equivalent.
7. Minimum SEER: 16

D. Unusual Service Conditions:

1. Ambient Temperature: 10F to 115F.
2. Altitude: Contractor shall coordinate.

E. Acceptable Manufacturers: Carrier, Trane, Daikin, or Approved Equivalent.

5.1.1 Thermostat

- A. General: Thermostat/Controllers shall be fully compatible with all installed systems and shall be selected to achieve the sequences of operations described later in this SOW. Contractor shall provide all required components, sensors, accessories, wiring, interface modules, etc. as required for fully operational systems in accordance with this SOW. Provide one thermostat/controller for installed system.
- B. Where noted, Thermostat/Controllers shall enable the changeover between heat pump operation and evaporative cooler operation.
- C. Key Characteristics: Fully programmable. Multi-stage capacity heating and cooling functionality. 7-day scheduler.
- D. Acceptable Manufacturers: Carrier, Trane, Honeywell or approved equivalent.
- E. Locate Thermostat in efficient central location.

5.2 Ductwork and Accessories

- A. General: Contractor shall inspect all existing ductwork in accordance with the following specifications. Clean rigid ductwork and replace all flexible ductwork.
- B. Rigid Ductwork: Clean rigid ductwork construction, including all fittings and components that comply with SMACNA standards. Provide volume control dampers at all flexible ductwork connections. Provide fittings, branches, inlets and outlets in such a manner that air turbulence is reduced to a minimum.
 - 1. Galvanized Steel Ductwork: ASTM A653, A924 mill galvanized steel sheet, 1.25 oz per sq. ft. zinc coating on each side in conformance with coating designation G-90. Minimum steel rectangular duct gage shall be as follows:
 - a. Ducts through 12 in. wide: 24 Gage
 - b. Ducts 13 in. through 30 in. wide: 22 Gage.
- C. Flexible Ductwork: Flexible duct shall be UL listed and shall maintain shape when installed. Sagging shall not exceed 1/2 in. per linear foot when installed horizontally. Insulated flex shall have a gray fire-retardant polyethylene outer jacket with an 8 oz. density, 1-1/3 in. thick fiberglass insulation blanket, factory wrapped. Fully support all flexible ductwork from existing structure.
- D. Hangers and Support Installation and Spacing: Comply with SMACNA's "HVAC Duct Construction Standards – Rigid and Flexible," Chapter 5, "Hangers and Supports." Support ductwork from building structure, not services.
- E. Test and Balance system to provide adequate heating and cooling to each existing duct location.

5.3 Siding

- A. Board-and-batten siding constructed of clear pine. Boards nominal 12 x 1 inch with 4 x 1 inch battens.
- B. Fasteners shall be stainless steel ring-shank nails.
- C. Removal and replacement: Contractor shall remove approximately 400 square feet of deteriorated exterior siding and replace in-kind with new siding. Existing material shall be disposed of appropriately at contractor's expense.
- D. Install vapor permeable moisture barrier and flashing following manufacturers installation instructions under new siding.
- E. Caulking and painting: Contractor shall caulk all seams to create a weathertight barrier and apply exterior primer and paint to match existing color.

5.4 Drainage

- A. General: Contractor shall excavate approximately 60 linear feet of foundation on the south side of the structure to diagnose and abate the cause of leaking through the foundation into the kitchen and storage room south wall.
 - 1. Excavation: Either mechanically or by hand, contractor shall excavate foundation deep enough to inspect the structural condition of the stem wall,

footing, and retaining wall on the south side of the house. Extend the length of trenching to daylight drainage to the east of the house.

2. Bracing: Contractor shall install temporary bracing as necessary, in accordance with industry standards, to support the stem wall during excavation and repair.
3. Repair: Contractor shall make necessary repairs to footing and stem wall to prevent water intrusion. Install a membrane system applied to the foundation to resist water penetration.
4. Install a French drain along the entire length behind the south wall that drains away from the foundation with virgin plastic slotted corrugated drain pipe.
5. Install new drainage for the gutter run-off closer to the house in same area of excavation as foundation drain. This will avoid over excavation of site. Daylight to the same location with the French drain using solid 4-inch PVC pipe. These joints must be glued or taped with couplers to contain water. This method depends on pipe used. (corrugated or smooth wall PVC).
6. Drainage: Contractor shall correct existing slopes to drain away from building. Use positive slope away from foundation, 5% grade, or 6 inch drop over 10 feet.
7. Specifications of French Drain System Plan:
 - a. Trench Width / Depth / Slope: 18" wide, as deep as needed to achieve minimum 1% slope to where outlet pipe connects to existing drain pipe exiting to the west and another drain pipe exiting the east past the existing driveway, and deep enough to allow minimum of 3" of topsoil placed on top of geo textile fabric wrap to support new sod. No soil fill allowed in trench.
 - b. Fabric: to fully line bottom, sides and top of trench with one seamless piece (available in 6'x100' roll). Drainage pipes and surrounding rock are installed within the fabric, which is then folded over the top (like a burrito wrap) and secured with double landscaping pins at the top. Fabric must be a 4 oz. non-woven geo-textile filter fabric with copper mesh to deter roots and screen soil intrusion.
 - c. Drainage pipes: Install (2) corrugated 8-slot single wall 4" corrugated drain pipes side by side (i.e. two parallel runs) in the bottom of the trench directly on top of the geotextile fabric liner with no aggregate under the pipe. Use appropriate FITTINGS from the same manufacturer to assure best fit and quality at all joints, connections and structures.
 - d. Rock: Washed silt-free smooth rounded rock of a minimum 2" sized diameter. All aggregate to be placed within the geo-textile fabric on the sides and top of the piping, but not on the bottom of the piping to prevent frost heave & root attraction. Piping is to rest on the floor of the trench with only the geo-textile fabric under it. Trench to be filled with aggregate to within 3" from top of grade surface level of rear yard (i.e. from top edge of trench) with geo-textile fabric folded and pinned on top over it. Rock should fill entire length of trench

throughout its East to West linear location in the rear of the yard.

- e. Structures / Drain Inlets: There will be no open-grate catch basins in this system nor any “blind inlet” surface drain covers (that sit directly on top of the fabric at grade level). Instead, this is intended as a closed French drain system. The entire trench serves as a collector generating sufficient inlet volume that gravity flows away from the foundation and through to daylight. Clean-outs of the trench system are to be installed at grade level for future maintenance but completely enclosed with solid covers. Chosen product should be compatible with specified drainage pipes and appropriate fittings utilized. Cover daylighted drain pipes with hardware cloth for rodent prevention.
- f. Yard Grading: provide and install needed amount of fill and grading as required to facilitate overall positive surface flow to the French drain system along its entire length. Fill area should start as close to the house as required to achieve gradual gradient throughout yard.

5.5 Kitchen floor repair

- A. General: The Floor in the kitchen along the south wall is subsiding. The current floor needs to be removed to determine the cause of the sinking and determine the proper method for repair. It is assumed that the leaking in the foundation wall has damaged sections of sub-floor.
 - 1. Remove all Lower cabinets, plumbing, appliances to access entire kitchen floor.
 - 2. Remove and replace damaged floor components.
 - 3. Install new sub-floor.
 - 4. Install flooring to match existing kitchen floor.
 - 5. Reinstall kitchen cabinets and return kitchen to functional.

6 Additional Requirements

6.1 Project Schedule

- A. The Contractor shall develop a detailed project schedule. This schedule shall include key milestones of the project, including start and finish dates, as well as proposed work times. The Contractor shall submit this schedule for review and approval prior to work proceeding. The Contractor shall actively maintain and update the schedule as required by the COR.

6.2 Safety

- B. The Contractor shall submit the following prior to work proceeding and maintain a copy onsite during the project:
 - 1. Material Safety Data Sheets (MSDS)
 - 2. Project specific site safety plan. This plan shall include the following at a minimum:
 - a. Description of work
 - b. Nomination of project management staff, including site safety representative
 - c. Contact information for project management staff
 - d. Contact and location information for local emergency services
 - e. Description of anticipated high safety risk activities, including activity hazard analyses and safety control measures
 - f. Site protection and traffic control measures, including sketches to illustrate provisions.
- C. Contractor shall be responsible for complete strict compliance with the park policies.
- D. The Contractor shall fully comply with 29 CFR 1926.
- E. The Contractor shall provide temporary safety barriers, as necessary, to provide a safe, hazard-free space for workers, pedestrians, and vehicles during construction.
- F. The Contractor shall install protective measures to contain dust and debris during construction to assure a safe and irritant free work environment for building occupants. Return all areas to the original condition at the conclusion of work.
- G. The Contractor shall remove and dispose of excess materials, debris, or waste at an approved off-site location in accordance with applicable Local, Tribal, State and Federal laws and regulations, and pay any related fees. Burning or burial of materials is not permitted.

6.3 Security

- A. The Contractor shall secure new equipment and materials. Limited storage space is available in the maintenance yard for Contractor. However, the location of trailers, storage, sheds and staging areas shall be approved by the COR.
- B. The Contractor shall comply with all park security policies.

6.4 Quality Assurance

- A. The Contractor shall develop and maintain a quality program to ensure services are performed in accordance with commonly accepted commercial practices. The quality of all work shall be the responsibility of the Contractor. Inspect and test all work as needed to ensure that the quality of materials, workmanship, work, finish,

- and functional performance is in compliance with the SOW.
- B. The Government shall periodically evaluate the Contractor's performance in accordance with this SOW.
 - C. All new equipment shall conform to the manufacturer's instructions and guidelines for installation and start-up.

6.5 Travel

- A. Contractor shall be responsible for all travel related expenses for this project, including mobilization of equipment, tools, materials, manpower, lodging, meals, and per diem.

6.6 Progress Payments

- A. Progress payments during work will be based on the percentage of work completed on items listed on the approved Bid Schedule, Schedule of Values or by Contract Line Item. Actual work completed and in place will form the basis for payment. Verification of the percentage (%) complete shall be initiated by the Contractor for approval by the COR. The Contractor shall make the computations for payment based on the Government's verification of work completed and in place for any periods for which progress payments are requested.
- B. The Contractor shall furnish the originals of all field notes, invoices and payroll reports, and all other records relating to the basis for payment, to the CO, who shall use them as necessary to determine the final amount of progress payments. The Contractor shall retain copies of all such material furnished to the CO.

6.7 Project Meetings

- A. Pre-construction meeting: The CO will arrange an on-site pre-construction meeting with the Contractor. Notes of the meeting shall be recorded by the Contractor and will be distributed after the meeting. The meeting agenda shall include the following as a minimum:
 - 1. Park rules and regulations
 - 2. Correspondence procedures
 - 3. Progress meetings
 - 4. Lines of authority
 - 5. Roles and responsibilities
 - 6. Coordination of sub-contractors
 - 7. Submittal process
 - 8. Project schedule
 - 9. Progress payments
 - 10. Acceptance/rejection of the work
 - 11. Labor standards and labor law application
 - 12. Payroll reports
 - 13. Modifications
 - 14. Accident Prevention Plan and accident reporting

15. Medical emergency processes, availability, emergency numbers, and contacts
16. Park permits, burning work waste, rules of the road, alcohol use, housekeeping, firearms, pets, natural and cultural resource concerns
17. Visitation, access, and public relations

6.8 Substantial Completion and Final Inspection

- A. Submit written certification that project, or designated portion of project, is substantially complete, and request, in writing, a final inspection. Upon receipt of written request that project is substantially complete, the CO will proceed with inspection within 10 calendar days of receipt of request or will advise the Contractor of items that prevent the project from being designated as substantially complete.
- B. When work is determined to be substantially complete, the COR will prepare a list of deficiencies ("Punch List") to be corrected before final acceptance. The CO will issue a Letter of Substantial Completion. If work is not determined to be substantially complete, the CO will notify the Contractor in writing. After completing work, the Contractor shall resubmit certification and request a new final inspection.
- C. If, following final inspection, the work is determined to be substantially complete, CO will prepare a list of deficiencies to be corrected before final acceptance and issue a Letter of Substantial Completion. Contractor shall complete the work described on the list of deficiencies within 15 calendar days, as weather permits. If the Contractor fails to complete the work within this time frame, the CO may either replace or correct the work with an appropriate reduction in the contract price or charge for re-inspection costs in accordance with the Inspection of Work clause of the contract.

7 Site Coordination

7.1 Existing Conditions and Coordination

- A. The Contractor shall fully inform himself regarding any and all peculiarities and limitations of the spaces available for the installation of all work and materials furnished and installed under the contract. Coordinate with all other trades, as well as with existing conditions, in advance of the work, including requirements for openings, recesses and chases in the walls, partitions, framing or openings and routing of piping, conduit, etc. relative to each trade to alleviate conflicts.

7.2 Special Construction Conditions

- A. The house will be occupied during most construction. A schedule of when the tenant will be moved for kitchen flooring and support should be kept as short of time to complete repairs as possible.
- B. The park will allow work to take place between 7:00am – 5:00pm. Work shall be scheduled to minimize impact to tenant.
- C. Contractor requests to work after hours shall be approved by the Contracting Officer's Representative (COR). Requests to work outside normal business hours

shall be submitted in writing to the COR and Facility Manager not less than 48 hours in advance of the proposed after-hours work. Any CHIR park staff overtime required may be charged back to the Contractor.

7.3 Staging Areas

- A. Work sites shall be limited to the smallest feasible area. Ground disturbances and site management shall be carefully controlled to prevent undue damage to vegetation, soils, and archeological resources and to minimize air, water, soil, and noise pollution.
- B. Confine storage of work materials and equipment to immediate vicinity of project site, unless directed otherwise by the COR. All staging areas shall be returned to pre-work conditions once work is complete. Standards for this, and methods for determining when the standards are met, shall be developed in consultation with the COR. If used, all temporary water, sewer, sanitary facilities, electric and other utilities and utility connections shall be completely removed upon project completion.

7.4 Work Zones

- A. Do not disturb portions of project site beyond areas in which the work is indicated. Work zones may require work barrier fencing, chain link, plastic or portable fencing as directed by the COR. The fencing shall define the work zone and confine activity to the minimum area required for work. All protection measures shall be clearly stated in the work documents, and workers will be instructed to avoid conducting activities beyond the work zone as defined by the work zone fencing.
- B. Confine limits of work to the smallest safe and efficient working areas. Prevent compaction of soils by equipment, and do not damage existing plantings or their root systems. All left over construction material shall be disposed of by Contractor.
- C. Special barriers should be used to limit disturbance to other sections of the house not under construction.
- D. Establishment of a construction camp shall not be permitted.

7.5 Protection of Public

- A. The Contractor shall fence, barricade, or otherwise block off the immediate work area to prevent unauthorized entry. Erect and maintain fencing, barricades, lights, signals, and warning signs in accordance with MUTCD-2003 as applicable.

7.6 Parking of Work Vehicles

- A. Parking vehicles shall be limited to existing parking lot, in designated areas close to the jobsite, and within approved staging area.

7.7 Temporary Materials, Equipment and Services

- A. Temporary materials may be new or used but shall be adequate in capacity for the required usage, shall not create unsafe conditions, and shall not violate requirements of applicable codes and standards.

7.8 Hot Work Permit

- A. A Hot Work Permit is required for any welding, cutting, brazing, soldering or any work that generates sparks or excessive heat. Contractor shall provide at least a 24 hour advanced notice to obtain a Hot Work Permit. A capable and qualified person shall be placed in charge of fire protection. The responsibilities shall include providing and maintaining fire protection equipment and establishing and maintaining safe torch cutting and welding procedures.

7.9 Smoking

- A. Smoking at the work site is prohibited. Due to drought conditions and the danger of wildland fire, smoking is allowed only within Contractor vehicles.

7.10 Electricity

- A. CHIR will provide electric at mechanical room for construction.

7.11 Telephone

- A. Cell phone service is not available at many of the project sites. Contractor needs an alternate means of communication in the event that emergency services are needed at the site.

7.12 Water

- A. Water is available as advised by CHIR.

7.13 Sanitary Facilities

- A. Contractor should provide temporary restrooms during construction on site.

7.14 Hauling Restrictions

- A. Comply with all legal and local load restrictions in the hauling of materials.

7.15 Waste Management

- A. Employ processes that ensure the generation of as little waste as possible. Minimize waste generation due to over-packaging, poor planning, breakage, mishandling, contamination, error or other factors. Of the waste generated, as much as is economically feasible shall be reused, salvaged or recycled. Waste disposal in landfills shall be minimized. All material unsuitable for recycling shall be disposed of, in a legal manner, at public or private dumping areas outside the park.

8 Submittals

- A. Submit the items listed below for review and approval within 14 calendar days of contract award (unless otherwise noted). Government review comments will be returned within 7 calendar days after receipt of submittals. Note that some submittals are subject to award of bid options or alternate.
1. Schedule of values
 2. Project schedule
 3. Material safety data sheets
 4. Safety plan
 5. Shop drawings
 6. Product data: all new materials used in construction.
 - a. Heat pump system product data
 - b. Electrical disconnects
 - c. Air filters
 - d. Thermostat / Controllers
 - e. Volume Control dampers
 - f. Door Grilles (including color options)
 - g. Temperature sensors
 - h. Ductwork insulation
 - i. Piping insulation
 - j. Louvered doors, frames, and hardware (Bid Add Option A, Bid Add Option B)
 - k. Weather barrier
 - l. Fasteners
 - m. Drain piping, connections, primers, glues, etc.
 - n. Landscaping fabric
 - o. Stone
 - p. Flooring
 7. Pre-Functional testing forms/checklists (submit prior to functional testing)
 8. Test, adjust, and balance deficiencies report (submit prior to functional testing)
 9. Test, adjust, and balance report (submit prior to functional testing)
 10. Functional test report (submit after functional testing and prior to inspection)
 11. Training agenda (submit prior to training)

9 Final deliverables

- A. Contractor shall provide the following within seven (7) calendar days of project completion and prior to final inspection. Submit draft versions of these items electronically (PDF). Once reviewed and approved for each deliverable. Final deliverables will be submitted in electronic form (PDF). Contractor shall provide the following PRIOR TO FINAL PAYMENT.

1. Warranty Certificates –1 digital (PDF)
2. Operation and Maintenance Manual–1 digital (PDF)
3. Record of training attendees

=====

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year.

Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at <https://www.dol.gov/agencies/whd/government-contracts>.

Note: Executive Order 13658 generally applies to contracts subject to the Davis-Bacon Act that were awarded on or between January 1, 2015 and January 29, 2022, and that have not been renewed or extended on or after January 30, 2022. Executive Order 13658 does not apply to contracts subject only to the Davis-Bacon Related Acts regardless of when they were awarded. If a contract is subject to Executive Order 13658, the contractor must pay all covered workers at least \$13.30 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in 2025. The applicable Executive Order minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under Executive Order 13658 is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classifications and wage rates that have been found to be prevailing for the type(s) of construction and geographic area covered by the wage determination. The classifications are listed in alphabetical order under rate identifiers indicating whether the particular rate is a union rate (current union negotiated rate), a survey rate, a weighted union average rate, a state adopted rate, or a supplemental classification rate.

Union Rate Identifiers

A four-letter identifier beginning with characters other than "SU", "UAVG", "SA", or "SC" denotes that a union rate was prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2024. PLUM is an identifier of the union whose collectively bargained rate prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2024 in the example, is the effective date of the most current negotiated rate.

Union prevailing wage rates are updated to reflect all changes over time that are reported to WHD in the rates in the collective bargaining agreement (CBA) governing the classification.

Union Average Rate Identifiers

The UAVG identifier indicates that no single rate prevailed for those classifications, but that 100% of the data reported for the classifications reflected union rates. EXAMPLE: UAVG-OH-0010 01/01/2024. UAVG indicates that the rate is a weighted union average rate. OH indicates the State of Ohio. The next number, 0010 in the example, is an internal number used in producing the wage determination. The date, 01/01/2024 in the example, indicates the date the wage determination was updated to reflect the most current union average rate.

A UAVG rate will be updated once a year, usually in January, to reflect a weighted average of the current rates in the collective bargaining agreements on which the rate is based.

Survey Rate Identifiers

The "SU" identifier indicates that either a single non-union rate prevailed (as defined in 29 CFR 1.2) for this classification in the survey or that the rate was derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As a weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SUFL2022-007 6/27/2024. SU indicates the rate is a single non-union prevailing rate or a weighted average of survey data for that classification. FL indicates the State of Florida. 2022 is the year of the survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 6/27/2024 in the example, indicates the survey completion date for the classifications and rates under that identifier.

?SU? wage rates typically remain in effect until a new survey is conducted. However, the Wage and Hour Division (WHD) has the discretion to update such rates under 29 CFR 1.6(c)(1).

State Adopted Rate Identifiers

The "SA" identifier indicates that the classifications and prevailing wage rates set by a state (or local) government were adopted under 29 C.F.R 1.3(g)-(h). Example: SAME2023-007 01/03/2024. SA reflects that the rates are state adopted. ME

refers to the State of Maine. 2023 is the year during which the state completed the survey on which the listed classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 01/03/2024 in the example, reflects the date on which the classifications and rates under the ?SA? identifier took effect under state law in the state from which the rates were adopted.

WAGE DETERMINATION APPEALS PROCESS

1) Has there been an initial decision in the matter? This can be:

- a) a survey underlying a wage determination
- b) an existing published wage determination
- c) an initial WHD letter setting forth a position on a wage determination matter
- d) an initial conformance (additional classification and rate) determination

On survey related matters, initial contact, including requests for summaries of surveys, should be directed to the WHD Branch of Wage Surveys. Requests can be submitted via email to davisbaconinfo@dol.gov or by mail to:

Branch of Wage Surveys
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

Regarding any other wage determination matter such as conformance decisions, requests for initial decisions should be directed to the WHD Branch of Construction Wage Determinations. Requests can be submitted via email to BCWD-Office@dol.gov or by mail to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2) If an initial decision has been issued, then any interested party (those affected by the action) that disagrees with the decision can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Requests for review and reconsideration can be submitted via email to dba.reconsideration@dol.gov or by mail to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210.
