SUPPLIES OR SERVICES AND PRICES/COSTS

Quantity Range Note: The current required quantity is **11 ea.** However, the required quantity may change therefore contractor shall provide proposed prices to the following ranges. If the quantity ranges provided in this solicitation do not provide the best pricing option then the contractor shall submit quantity ranges that yield the best prices to the Government based on the Min quantity of **3 ea.** and Max quantity of **17 ea.** See Clause 52.207-4. The quantity of this solicitation will be re-evaluated upon receipt of the contractor's proposal.

The Final fixed-quantity of this requirement is at the sole discretion of the Government and the Government reserves the right to award no contract at all depending on the quality and prices of proposal(s) received. The final buy quantity will be re-evaluated and determined upon receipt of proposal(s) and the closing date of the Solicitation.

PRICING NOTE 1: If certified cost and pricing data is required to determine a fair and reasonable price, the contractor will submit along with the proposal IAW 15-408 Table 15-2. If offeror does not comply with the requirement to submit data for a contract or subcontract in accordance IAW FAR 15.403-3(a)(4), and DFARS 252.215-7009 they will be considered ineligible for award

PRICING NOTE 2: Any NRE expenses shall be proposed separately. NRE expenses as defined by FAR 17.106-1(c)(2) shall be submitted at time of proposal submission. If offeror does not comply with a requirement to submit data for a contract or subcontract in accordance IAW FAR 15.403-3(a)(4), they will be considered ineligible for award.

PRICING NOTE 3: If uncertified cost and pricing data is required to determine a fair and reasonable price, the contractor will submit along with proposal submission IAW FAR 15-403-3. As specified in Section 808 of Public Law 105-261, an offeror who does not comply with a requirement to submit information for a contract or subcontract in accordance with paragraph (a)(1) of this subsection and Strom Thurmond Act is ineligible for award.

PRICING NOTE 4: The Government will not pay excessive pass-through charges IAW FAR 52.215-22. The Contracting Officer, or authorized representative, shall have the right to examine and audit all the Contractor's records (as defined at FAR 52.215-2(a) necessary to determine whether the Contractor proposed, billed, or claimed excessive pass-through charges.

DLAD Procurement Notes

C01 Superseded Part Numbered Items (FEB 2025)

When the award identifies supplies by manufacturer's name, Commercial and Government Entity (CAGE) code, and part number, the specified item(s) are the only item(s) acceptable under this contract. If an item part number is superseded during the term of this contract, the contractor shall advise the contracting officer immediately upon determination. The notice shall include complete information on the superseding item form, fit, function, configuration, application, or physical nature. The contracting officer will determine whether the item is acceptable to the Government, advise the contractor within seven days, and modify the contract accordingly.

C02 Manufacturing Phase-Out or Discontinuation of Production, Diminishing Sources, and Obsolete Materials or Components (DEC 2016)

The contractor shall notify the contracting officer immediately upon determining the unavailability of obsolete materials or components. The contractor may recommend a solution to include the impact on the contract price and delivery. The contractor shall not initiate any item redesign or incur any additional costs without the express, written authorization of the contracting officer. In the event that manufacturing phase-out or discontinuance of production of such items is contemplated, the contractor is required to notify the contracting officer and publish the discontinuance in the Government-Industry Data Exchange Program (GIDEP), where feasible; and to provide immediate advance notice of production phase-out to DLA DMSMS at dsc.dmsms@dlamail.

C03 Contractor Retention of Supply Chain Traceability Documentation (JUN 2023)

- (1) By submitting a quotation or offer, the contractor is confirming it currently has, or will obtain before delivery, and shall retain supply chain traceability documentation, as described in paragraph (2) of Defense Logistics Acquisition

Directive (DLAD) Procurement Notes Effective April 3, 2025 2 this procurement note, demonstrating the item conforms to the technical requirements, and, for part numbered items, is from an approved manufacturer.

- (2) Supply Chain Traceability Documentation (i) Supply chain traceability documentation shall include basic item description; part number; drawing or specification; national stock number; manufacturing source; manufacturing source's Commercial and Government Entity (CAGE) code; and clear identification of the name and location of all supply chain intermediaries between the manufacturer to the contractor to Government acceptance. (ii) Supply chain traceability documentation shall also include, when available, the manufacturer's batch identification for the item(s), such as date codes, lot codes, or serial numbers. For part numbered items, contractors can find examples of acceptable supply chain traceability documentation at the Counterfeit Detection and Avoidance Program (CDAP) website (<<http://www.dla.mil/LandandMaritime/Business/Selling/Counterfeit-Detection-AvoidanceProgram/>>). (iii) In addition, the contractor will obtain, retain, and provide to the contracting officer written documentation of all inspections and tests necessary to substantiate that the supplies furnished under this contract conform to contract requirements, including any applicable technical requirements for specified manufacturers' parts. Such records shall include, without limitation, test reports, test data, material certification, and manufacturing process sheets, in addition to any other information identified in the technical specifications applicable to the item.
- (3) The contractor shall make supply chain traceability documentation available to the contracting officer within three business days upon the contracting officer's request. The contracting officer determines the acceptability and sufficiency of documentation. The contractor shall retain supply chain traceability documentation for ten years after final payment under this contract for audit and other valid government purposes. If the contractor fails to retain or provide the documentation, or the contracting officer finds the documentation to be unacceptable, the contracting officer may take corrective action, including, but not limited to, cancellation of undelivered orders or rejection of delivered supplies.

C14 Correction of Nonconforming Packaging or Marking (MAY 2020)

(1) The Government may correct nonconforming packaging or marking for receipts of DLA owned materiel if the estimated costs of correction are \$1,000 or less. The contracting officer will advise the contractor of the discrepancy and that the Government has corrected the packaging or marking. The contracting officer will make a determination concerning appropriate reimbursement by the contractor for the Government's costs to correct the deficiencies. Upon determining that reimbursement is required, the contracting officer will send a notice to the contractor. Upon receipt of notice from the contracting officer, the contractor shall reimburse the Government for the costs incurred by the Government to correct the deficiencies.

(2) If the estimated costs of correction for receipts of DLA-owned materiel are more than \$1,000, the contracting officer will advise the contractor of the discrepancy and have the materiel returned to the contractor for correction/resubmittal; or, if there are urgent requirements, have the Government remediate the discrepancy at the contractor's expense. If the Government remediates the discrepancy, the contracting officer will make a determination concerning appropriate reimbursement by the contractor for the Government's costs to correct the deficiencies. Upon determining that reimbursement is required, the contracting officer will send a notice to the contractor. Upon receipt of notice from the contracting officer, the contractor shall reimburse the Government for the costs incurred by the Government to correct the deficiencies.

H04 Sourcing for Critical Safety Items (APR 2024)

The contractor procuring, modifying, repairing, or overhauling a critical safety item shall only use a source approved by the head of the design control activity.

L06 Agency Protests (DEC 2016)

Interested parties may file an agency level protest with the contracting officer or may request an independent review by the chief of the contracting office (CCO). Independent review by the CCO is an alternative to consideration by the contracting officer and is not available as an appellate review of a contracting officer decision on a protest previously filed with the contracting officer. Absent a clear indication of the intent to file an agency level protest with the CCO for independent review, protests will be presumed to be protests to the contracting officer.

CONTRACT CLAUSES

5352.201-9101 OMBUDSMAN (JUN 2023)
(IAW DAFFARS 5301.9103)

(a) An ombudsman has been appointed to hear and facilitate the resolution of concerns from offerors, potential offerors, and others for this acquisition. When requested, the ombudsman will maintain strict confidentiality as to the source of the concern. The existence of the ombudsman does not affect the authority of the program manager, contracting officer, or source selection official. Further, the ombudsman does not participate in the evaluation of proposals, the source selection process, or the adjudication of protests or formal contract disputes. The ombudsman may refer the interested party to another official who can resolve the concern.

(b) Before consulting with an ombudsman, interested parties must first address their concerns, issues, disagreements, and/or recommendations to the contracting officer for resolution. Consulting an ombudsman does not alter or postpone the timelines for any other processes (e.g., agency level bid protests, GAO bid protests, requests for debriefings, employee-employer actions, contests of OMB Circular A-76 competition performance decisions).

(c) The Competition Advocate (CA) at each contracting activity/office (as defined in DLAD 2.101) shall act as the ombudsman and attempt to resolve contractor complaints. DLA AVIATION/AOCA's CA/ombudsman can be reached at (405) 855-3552. Complaints which cannot be so resolved shall be forwarded to the HQ through J-72 for resolution by the DLA competition advocate. Each activity is responsible for developing procedures for executing the duties and responsibilities of its local ombudsman.

(d) The ombudsman has no authority to render a decision that binds the agency.

(e) Do not contact the ombudsman to request copies of the solicitation, verify offer due date, or clarify technical requirements. Such inquiries shall be directed to the contracting officer.

(The above Clause/Provision has been modified.)

252.204-7022 EXPEDITING CONTRACT CLOSEOUT (MAY 2021)
(IAW DFARS 204.804-70)

(a) At the conclusion of all applicable closeout requirements of Federal Acquisition Regulation 4.804, the Government and Contractor shall mutually agree on the residual dollar amount remaining on the contract. Both the Government and Contractor agree to waive payment of any residual dollar amount of \$1,000 or less to which either party may be entitled at the time of contract closeout.

(b) A residual dollar amount includes all money owed to either party at the end of the contract and as a result of the contract, excluding amounts connected in any way with taxation or a violation of law or regulation.

(c) For purposes of determining residual dollar amounts, offsets (e.g., across multiple contracts or orders) may be considered only to the extent permitted by law.

52.209-1 QUALIFICATION REQUIREMENTS (FEB 1995)
(IAW FAR 9.206-2)

(a) *Definition:* "Qualification Requirement," as used in this clause, means a Government requirement for testing or other quality assurance demonstration that must be completed before award.

(b) One or more qualification requirements apply to the supplies or services covered by this contract. For those supplies or services requiring qualification, whether the covered product or service is an end item, the product, manufacturer, or source

must have demonstrated that it meets the standards prescribed for qualification before award of this contract. The product, manufacturer, or source must be qualified at the time of award whether or not the name of the product, manufacturer, or source is actually included on a qualified products list, qualified manufacturers list, or qualified bidders list. Offerors should contact the agency activity designated below to obtain all requirements that they or their products or services, or their subcontractors or their products or services, must satisfy to become qualified and to arrange for an opportunity to demonstrate their abilities to meet the standards specified for qualification.

Item No	Agency Name/Address
0001	AFSC/SB Attn: Source Development Specialist 3001 Staff Drive Ste 1AG85A Tinker AFB, OK 73145

(c) If an offeror, manufacturer, source, product or service covered by a qualification requirement has already met the standards specified, the relevant information noted below should be provided.

Offeror's Name _____

Manufacturer's Name _____

Source's Name _____

Item Name _____

Service Identification _____

Test Number _____ (to the extent known)

(d) Even though a product or service subject to a qualification requirement is not itself an end item under this contract, the product, manufacturer, or source must nevertheless be qualified at the time of award of this contract. This is necessary whether the Contractor or a subcontractor will ultimately provide the product or service in question. If, after award, the Contracting Officer discovers that an applicable qualification requirement was not in fact met at the time of award, the Contracting Officer may either terminate this contract for default or allow performance to continue if adequate consideration is offered and the action is determined to be otherwise in the Government's best interests.

(e) If an offeror, manufacturer, source, product, or service has met the qualification requirement but is not yet on a qualified products list, qualified manufacturers list, or qualified bidders list, the offeror must submit evidence of qualification prior to award of this contract. Unless determined to be in the Government's interest, award of this contract shall not be delayed to permit an offeror to submit evidence of qualification.

(f) Any change in location or ownership of the plant where a previously qualified product or service was manufactured or performed requires reevaluation of the qualification. Similarly, any change in location or ownership of a previously qualified manufacturer or source requires reevaluation of the qualification. The reevaluation must be accomplished before the date of award.

- 52.209-10 PROHIBITION ON CONTRACTING WITH INVERTED DOMESTIC CORPORATIONS**
(NOV 2015)
(IAW FAR 9.108-5(b))
- 252.209-7004 SUBCONTRACTING WITH FIRMS THAT ARE OWNED OR CONTROLLED BY THE GOVERNMENT OF A COUNTRY THAT IS A STATE SPONSOR OF TERRORISM**
(MAY 2019)
(IAW DFARS 209.409)
- 252.209-7010 CRITICAL SAFETY ITEMS** (AUG 2011)
(IAW DFARS 209.270-5)

(b) *Identification of critical safety items.* One or more of the items being procured under this contract is an aviation or ship critical safety item. The following items have been designated aviation critical safety items or ship critical safety items by the designated design control activity:

Line Item	Description
0001	NSN: 2840-01-347-2206

52.211-5 MATERIAL REQUIREMENTS (AUG 2000)
(IAW FAR 11.302)

52.211-15 DEFENSE PRIORITY AND ALLOCATION REQUIREMENTS (APR 2008)
(IAW FAR 11.604(b))

This is a rated order certified for national defense, emergency preparedness, and energy program use, and the Contractor shall follow all the requirements of the Defense Priorities and Allocations System regulation (15 CFR 700).

252.211-7003 ITEM UNIQUE IDENTIFICATION AND VALUATION (JAN 2023)
(IAW DFARS 211.274-5(a), DFARS 212.301(f)(xii))

(a) *Definitions.* As used in this clause—

“DoD recognized unique identification equivalent” means a unique identification method that is in commercial use and has been recognized by DoD. All DoD recognized unique identification equivalents are listed at <https://www.acq.osd.mil/asda/dpc/ce/ds/unique-id.html>.

“Unique item identifier type” means a designator to indicate which method of uniquely identifying a part has been used. The current list of accepted unique item identifier types is maintained at <https://www.acq.osd.mil/asda/dpc/ce/ds/unique-id.html>.

(c) *Unique item identifier.*

(1) The Contractor shall provide a unique item identifier for the following:

(i) Delivered items for which the Government’s unit acquisition cost is \$5,000 or more, except for the following line items:

Contract Line, Subline, or Exhibit Line Item Number	Item Description
	See Schedule as Applicable

(ii) Items for which the Government’s unit acquisition cost is less than \$5,000 that are identified in the Schedule or the following table:

Contract Line, Subline, or Exhibit Line Item Number	Item Description
*Items less than \$5000, which require UID, will be specifically identified in the schedule.	See Schedule as Applicable

(iii) Subassemblies, components, and parts embedded within delivered items, items with warranty requirements, DoD serially managed reparable and DoD serially managed nonreparable as specified in Attachment Number _____ (or See Schedule as Applicable).

(iv) Any item of special tooling or special test equipment as defined in FAR 2.101 that have been designated for preservation and storage for a Major Defense Acquisition Program as specified in Attachment Number _____ (or See Schedule as Applicable).

(v) Any item not included in paragraphs (c)(1)(i), (ii), (iii), or (iv) of this clause for which the contractor creates and marks a unique item identifier for traceability.

(f) The Contractor shall submit the information required by paragraphs (d) and (e) of this clause as follows:

(1) End items shall be reported using the receiving report capability in Wide Area WorkFlow (WAWF) in accordance with the clause at 252.232-7003. If WAWF is not required by this contract, and the contractor is not using WAWF, follow the procedures at <http://dodprocurementtoolbox.com/site/uidregistry/>.

(2) Embedded items shall be reported by one of the following methods—

(i) Use of the embedded items capability in WAWF;

(ii) Direct data submission to the IUID Registry following the procedures and formats at <http://dodprocurementtoolbox.com/site/uidregistry/>; or

(iii) Via WAWF as a deliverable attachment for exhibit line item number _____, Unique Item Identifier Report for Embedded Items, Contract Data Requirements List, DD Form 1423.

52.213-4

TERMS AND CONDITIONS--SIMPLIFIED ACQUISITIONS (OTHER THAN COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES) (DEVIATION 2025-O0003 and 2025-O0004) (MAR 2025) (IAW FAR 13.302-5(d))

52.219-28

POST-AWARD SMALL BUSINESS PROGRAM REREPRESENTATION (SEP 2023) (IAW FAR 19.309(c))

(h) If the Contractor does not have representations and certifications in SAM, or does not have a representation in SAM for the NAICS code applicable to this contract, the Contractor is required to complete the following rerepresentation and submit it to the contracting office, along with the contract number and the date on which the rerepresentation was completed:

(1) The Contractor represents that it [] is, [] is not a small business concern under NAICS Code _____ assigned to contract number _____.

(2) *[Complete only if the Contractor represented itself as a small business concern in paragraph (h)(1) of this clause.]*
The Contractor represents that it [] is, [] is not, a small disadvantaged business concern as defined in 13 CFR 124.1002.

(3) *[Complete only if the Contractor represented itself as a small business concern in paragraph (h)(1) of this clause.]*
The Contractor represents that it [] is, [] is not a women-owned small business concern.

(4) Women-owned small business (WOSB) joint venture eligible under the WOSB Program. The Contractor represents that it [] is, [] is not a joint venture that complies with the requirements of 13 CFR 127.506(a) through (c). [The Contractor shall enter the name and unique entity identifier of each party to the joint venture: _____.]

(5) Economically disadvantaged women-owned small business (EDWOSB) joint venture. The Contractor represents that it [] is, [] is not a joint venture that complies with the requirements of 13 CFR 127.506(a) and through (c). [The Contractor shall enter the name and unique entity identifier of each party to the joint venture: _____.]

(6) *[Complete only if the Contractor represented itself as a small business concern in paragraph (h)(1) of this clause.]*
The Contractor represents that it [] is, [] is not a veteran-owned small business concern.

(7) *[Complete only if the Contractor represented itself as a veteran-owned small business concern in paragraph (h)(6) of this clause.]*
The Contractor represents that it [] is, [] is not a service-disabled veteran-owned small business concern.

(8) *[Complete only if the Contractor represented itself as a small business concern in paragraph (h)(1) of this clause.]*
The Contractor represents that—

(i) It [] is, [] is not a HUBZone small business concern listed, on the date of this representation, on the List of Qualified HUBZone Small Business Concerns maintained by the Small Business Administration, and no material changes in ownership and control, principal office, or HUBZone employee percentage have occurred since it was certified in accordance with 13 CFR part 126; and

(ii) It [] is, [] is not a HUBZone joint venture that complies with the requirements of 13 CFR part 126, and the representation in paragraph (h)(8)(i) of this clause is accurate for each HUBZone small business concern participating in the HUBZone joint venture.

[The Contractor shall enter the names of each of the HUBZone small business concerns participating in the HUBZone joint venture: _____.]

Each HUBZone small business concern participating in the HUBZone joint venture shall submit a separate signed copy of the HUBZone representation.

[Contractor to sign and date and insert authorized signer's name and title.]

52.222-50 COMBATING TRAFFICKING IN PERSONS (NOV 2021)
(IAW FAR 22.1705(a)(1))

**52.223-11 OZONE-DEPLETING SUBSTANCES AND HIGH GLOBAL WARMING POTENTIAL
HYDROFLUOROCARBONS (MAY 2024)**
(IAW FAR 23.109(d)(1))

(a) *Definitions.* As used in this clause--

"Global warming potential" means how much a given mass of a chemical contributes to global warming over a given time period compared to the same mass of carbon dioxide. Carbon Dioxide's global warming potential is defined as 1.0.

"High global warming potential hydrofluorocarbons" means any hydrofluorocarbons in a particular end use for which EPA's Significant New Alternatives Policy (SNAP) program has identified other acceptable alternatives that have lower global warming potential. The SNAP list of alternatives is found at 40 CFR part 82, subpart G, with supplemental tables of alternatives available at (<https://www.epa.gov/snap/>).

"Hydrofluorocarbons" means compounds that only contain hydrogen, fluorine, and carbon.

"Ozone-depleting substance" means any substance the Environmental Protection Agency designates in 40 CFR Part 82 as--

- (1) Class I, including, but not limited to, chlorofluorocarbons, halons, carbon tetrachloride, and methyl chloroform; or
- (2) Class II, including, but not limited to hydrochlorofluorocarbons.

(b) The Contractor shall label products which contain or are manufactured with ozone-depleting substances in the manner and to the extent required by 42 U.S.C. 7671j (b), (c), (d), and (e) and 40 CFR Part 82, Subpart E, as follows:

Warning

Contains (or manufactured with, if applicable) * _____, a substance(s) which harm(s) public health and environment by destroying ozone in the upper atmosphere.

* The Contractor shall insert the name of the substance(s).

(c) The Contractor shall refer to EPA's SNAP program to identify alternatives. The SNAP list of alternatives is found at 40 CFR part 82, subpart G, with supplemental tables available at <https://www.epa.gov/snap/>.

52.223-20 AEROSOLS (MAY 2024)
(IAW FAR 23.109(d)(3))

52.223-21 FOAMS (MAY 2024)
(IAW FAR 23.109(d)(4))

52.223-23 SUSTAINABLE PRODUCTS AND SERVICES (DEVIATION 2025-O0004) (MAR 2025)
(IAW 23.109(a))

252.223-7008 PROHIBITION OF HEXAVALENT CHROMIUM (JAN 2023)
(IAW DFARS 223.7306, DFARS 212.301(f)(xxi))

**252.223-7009 PROHIBITION OF PROCUREMENT OF FLUORINATED AQUEOUS FILM-FORMING
FOAM FIRE-FIGHTING AGENT FOR USE ON MILITARY INSTALLATIONS**
(MAR 2024)
(IAW DFARS 223.7404)

5352.223-9000 ELIMINATION OF USE OF CLASS I OZONE DEPLETING SUBSTANCES (ODS)
(JUN 2024)
(IAW DAFFARS 5323.804-90)

(a) Contractors shall not:

- (1) Provide any service or product with any specification, standard, drawing, or other document that requires the use

of a Class I ODS in the test, operation, or maintenance of any system, subsystem, item, component, or process; or

(2) Provide any specification, standard, drawing, or other document that establishes a test, operation, or maintenance requirement that can only be met by use of a Class I ODS as part of this contract/order.

(b) For the purposes of Department of the Air Force policy, the following products that are pure (i.e., they meet the relevant product specification identified in AFI 32-7086) are Class I ODSs:

(1) Halons: 1011, 1202, 1211, 1301, and 2402;

(2) Chlorofluorocarbons (CFCs): CFC-11, CFC-12, CFC-13, CFC-111, CFC-112, CFC-113, CFC-114, CFC-115, CFC-211, CFC-212, CFC-213, CFC-214, CFC-215, CFC-216, and CFC-217, and the blends R-500, R-501, R-502, and R-503; and

(3) Carbon Tetrachloride, Methyl Chloroform, and Methyl Bromide.

[NOTE: Material that uses one or more of these Class I ODSs as minor constituents do not meet the Department of the Air Force definition of a Class I ODS.]

52.224-3	PRIVACY TRAINING (JAN 2017) (IAW FAR 24.302(a))
252.225-7001	BUY AMERICAN AND BALANCE OF PAYMENTS PROGRAM--BASIC (FEB 2024) (IAW DFARS 225.1101(2)(i) and (2)(ii))
252.225-7002	QUALIFYING COUNTRY SOURCES AS SUBCONTRACTORS (MAR 2022) (IAW DFARS 225.1101(3))
252.225-7048	EXPORT-CONTROLLED ITEMS (JUN 2013) (IAW DFARS 225.7901-4)
252.225-7061	RESTRICTION ON THE ACQUISITION OF PERSONAL PROTECTIVE EQUIPMENT AND CERTAIN OTHER ITEMS FROM NON-ALLIED FOREIGN NATIONS (JAN 2023) (IAW DFARS 225.7023-4)
252.225-7972	PROHIBITION ON THE PROCUREMENT OF FOREIGN-MADE UNMANNED AIRCRAFT SYSTEMS (AUG 2024) (DEVIATION 2024-O0014) (AUG 2024) (IAW Deviation 2024-O0014)

(a) *Definition.* As used in this clause—

Covered foreign country means any of the following:

- (1) The People's Republic of China.
- (2) The Russian Federation.
- (3) The Islamic Republic of Iran.
- (4) The Democratic People's Republic of Korea.

(b) *Prohibition.* In accordance with section 848 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2020 and section 817 of the NDAA for FY 2023, the Contractor shall not—

- (1) Provide or use an unmanned aircraft system (UAS), or any related services or equipment, that—
 - (i) Is manufactured in a covered foreign country, or by an entity domiciled in a covered foreign country;
 - (ii) Uses flight controllers, radios, data transmission devices, cameras, or gimbals manufactured in a covered foreign country, or by an entity domiciled in a covered foreign country;

- (iii) Uses a ground control system or operating software developed in a covered foreign country, or by an entity domiciled in a covered foreign country; or
- (iv) Uses network connectivity or data storage located in, or administered by an entity domiciled in, a covered foreign country;
- (2) Provide or use a system for the detection or identification of a UAS, or any related services or equipment, that is manufactured in a covered foreign country or by an entity domiciled in a covered foreign country; or
- (3) On or after October 1, 2024, be an entity that operates equipment, as determined by the Secretary of Defense, from—
 - (i) Da-Jiang Innovations, or any subsidiary or affiliate of Da-Jiang Innovations;
 - (ii) Any entity that produces or provides unmanned aircraft systems and is included on the Consolidated Screening List maintained by the International Trade Administration of the Department of Commerce (<https://www.trade.gov/consolidated-screening-list>); or
 - (iii) Any entity that produces or provides unmanned aircraft systems and—
 - (A) Is domiciled in a covered foreign country; or
 - (B) Is subject to unmitigated foreign ownership, control, or influence by a covered foreign country, as determined by the Secretary of Defense in accordance with the National Industrial Security Program.
- (c) *Subcontracts.* The Contractor shall insert the substance of this clause, including this paragraph (c), in all subcontracts or other contractual instruments, including subcontracts for the acquisition of commercial products and commercial services.

(End of clause)

- 52.226-7** **DRUG-FREE WORKPLACE** (MAY 2024)
(IAW FAR 26.506)
- 52.226-8** **ENCOURAGING CONTRACTOR POLICIES TO BAN TEXT MESSAGING WHILE DRIVING** (MAY 2024)
(IAW FAR 26.605)
- 52.229-3** **FEDERAL, STATE, AND LOCAL TAXES** (FEB 2013)

- 52.232-23** **ASSIGNMENT OF CLAIMS** (MAY 2014)
(IAW FAR 32.806(a)(1))
- 52.232-25** **PROMPT PAYMENT** (JAN 2017)
(IAW FAR 32.908(c))

(a) *Invoice payments—*

(5) *Computing penalty amount.* The Government will compute the interest penalty in accordance with the Office of Management and Budget prompt payment regulations at 5 CFR part 1315.

- (i) For the sole purpose of computing an interest penalty that might be due the Contractor, Government acceptance is deemed to occur constructively on the 7th day (unless otherwise specified in this contract) after the Contractor delivers the supplies or performs the services in accordance with the terms and conditions of the contract, unless there is a disagreement over quantity, quality, or Contractor compliance with a contract provision. If actual acceptance occurs within the constructive acceptance period, the Government will base the determination of an interest penalty on the actual date of acceptance. The constructive acceptance requirement does not, however, compel Government officials to accept supplies or

services, perform contract administration functions, or make payment prior to fulfilling their responsibilities.

52.232-39 UNENFORCEABILITY OF UNAUTHORIZED OBLIGATIONS (JUN 2013)
(IAW FAR 32.706-3)

52.232-40 PROVIDING ACCELERATED PAYMENTS TO SMALL BUSINESS SUBCONTRACTORS (MAR 2023)
(IAW FAR 32.009-2)

252.232-7003 ELECTRONIC SUBMISSION OF PAYMENT REQUESTS AND RECEIVING REPORTS (DEC 2018)
(IAW DFARS 232.7004(a))

(a) Definitions. As used in this clause—

“Contract financing payment” means an authorized Government disbursement of monies to a contractor prior to acceptance of supplies or services by the Government.

(1) Contract financing payments include—

(i) Advance payments;

(ii) Performance-based payments;

(iii) Commercial advance and interim payments;

(iv) Progress payments based on cost under the clause at Federal Acquisition Regulation (FAR) 52.232-16, Progress Payments;

(v) Progress payments based on a percentage or stage of completion (see FAR 32.102(e)), except those made under the clause at FAR 52.232-5, Payments Under Fixed-Price Construction Contracts, or the clause at FAR 52.232-10, Payments Under Fixed-Price Architect-Engineer Contracts; and

(vi) Interim payments under a cost reimbursement contract, except for a cost reimbursement contract for services when Alternate I of the clause at FAR 52.232-25, Prompt Payment, is used.

(2) Contract financing payments do not include—

(i) Invoice payments;

(ii) Payments for partial deliveries; or

(iii) Lease and rental payments.

“Electronic form” means any automated system that transmits information electronically from the initiating system to affected systems.

“Invoice payment” means a Government disbursement of monies to a contractor under a contract or other authorization for supplies or services accepted by the Government.

(1) Invoice payments include—

(i) Payments for partial deliveries that have been accepted by the Government;

(ii) Final cost or fee payments where amounts owed have been settled between the Government and the contractor;

(iii) For purposes of subpart 32.9 only, all payments made under the clause at 52.232-5, Payments Under Fixed-Price Construction Contracts, and the clause at 52.232-10, Payments Under Fixed-Price Architect-Engineer Contracts; and

(iv) Interim payments under a cost-reimbursement contract for services when Alternate I of the clause at 52.232-25, Prompt Payment, is used.

(2) Invoice payments do not include contract financing payments.

“Payment request” means any request for contract financing payment or invoice payment submitted by the Contractor under this contract or task or delivery order.

“Receiving report” means the data prepared in the manner and to the extent required by Appendix F, Material Inspection and Receiving Report, of the Defense Federal Acquisition Regulation Supplement.

(b) Except as provided in paragraph (d) of this clause, the Contractor shall submit payment requests and receiving reports in electronic form using Wide Area WorkFlow (WAWF). The Contractor shall prepare and furnish to the Government a receiving report at the time of each delivery of supplies or services under this contract or task or delivery order.

- (c) Submit payment requests and receiving reports to WAWF in one of the following electronic formats:
- (1) Electronic Data Interchange.
 - (2) Secure File Transfer Protocol.
 - (3) Direct input through the WAWF website.
- (d) The Contractor may submit a payment request and receiving report using methods other than WAWF only when—
- (1) The Contractor has requested permission in writing to do so, and the Contracting Officer has provided instructions for a temporary alternative method of submission of payment requests and receiving reports in the contract administration data section of this contract or task or delivery order;
 - (2) DoD makes payment for commercial transportation services provided under a Government rate tender or a contract for transportation services using a DoD-approved electronic third party payment system or other exempted vendor payment/invoicing system (e.g., PowerTrack, Transportation Financial Management System, and Cargo and Billing System);
 - (3) DoD makes payment on a contract or task or delivery order for rendered health care services using the TRICARE Encounter Data System; or
 - (4) The Governmentwide commercial purchase card is used as the method of payment, in which case submission of only the receiving report in WAWF is required.
- (e) Information regarding WAWF is available at <https://wawf.eb.mil/>.
- (f) In addition to the requirements of this clause, the Contractor shall meet the requirements of the appropriate payment clauses in this contract when submitting payment requests.

252.232-7006

WIDE AREA WORKFLOW PAYMENT INSTRUCTIONS (JAN 2023)
(IAW DFARS 232.7004(b), PGI 232.7004(b)(1), DFARS 212.301(f)(liii))

- (a) *Definitions.* As used in this clause—
- “Department of Defense Activity Address Code (DoDAAC)” is a six position code that uniquely identifies a unit, activity, or organization.
- “Document type” means the type of payment request or receiving report available for creation in Wide Area WorkFlow (WAWF).
- “Local processing office (LPO)” is the office responsible for payment certification when payment certification is done external to the entitlement system.
- (b) *Electronic invoicing.* The WAWF system is the method to electronically process vendor payment requests and receiving reports, as authorized by DFARS 252.232-7003, Electronic Submission of Payment Requests and Receiving Reports.
- (c) *WAWF access.* To access WAWF, the Contractor shall—
- (1) Have a designated electronic business point of contact in the Central Contractor Registration at <https://www.acquisition.gov> ; and
 - (2) Be registered to use WAWF at <https://wawf.eb.mil/> following the step-by-step procedures for self-registration available at this web site.
- (d) *WAWF training.* The Contractor should follow the training instructions of the WAWF Web-Based Training Course and use the Practice Training Site before submitting payment requests through WAWF. Both can be accessed by selecting the “Web Based Training” link on the WAWF home page at <https://wawf.eb.mil/> .
- (e) *WAWF methods of document submission.* Document submissions may be via web entry, Electronic Data Interchange, or File Transfer Protocol.
- (f) *WAWF payment instructions.* The Contractor must use the following information when submitting payment requests and receiving reports in WAWF for this contract/order:
- (1) *Document type.* The Contractor shall use the following document type(s).
- SEE DFARS CLAUSE 252.232-7003 (b)
- (2) *Inspection/acceptance location.* The Contractor shall select the following inspection/acceptance location(s) in WAWF, as specified by the contracting officer.

SEE SCHEDULE, SECTION B

(3) *Document routing.* The Contractor shall use the information in the Routing Data Table below only to fill in applicable fields in WAWF when creating payment requests and receiving reports in the system.

Routing Data Table*

**SOLICITATION PROVISIONS
REPRESENTATIONS, INSTRUCTIONS AND EVALUATIONS**

252.203-7005 **REPRESENTATION RELATING TO COMPENSATION OF FORMER DOD OFFICIALS**
(SEP 2022)
(IAW DFARS 203.171-4(b))

52.204-7 **SYSTEM FOR AWARD MANAGEMENT** (OCT 2018)
(IAW FAR 4.1105(a)(1))

52.204-8 **ANNUAL REPRESENTATIONS AND CERTIFICATIONS (DEVIATION 2025-O0003 and 2025-O0004)** (MAR 2025)
(IAW FAR 4.1202(a))

(a)(1) The North American Industry Classification System (NAICS) code for this acquisition is **336412**.

(2) The small business size standard is **1,500**.

(3) The small business size standard for a concern that submits an offer, other than on a construction or service acquisition, but proposes to furnish an end item that it did not itself manufacture, process, or produce is 500 employees if the acquisition—

(i) Is set aside for small business and has a value above the simplified acquisition threshold;

(ii) Uses the HUBZone price evaluation preference regardless of dollar value, unless the offeror waives the price evaluation preference; or

(iii) Is an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(b)(1) If the provision at 52.204-7, System for Award Management, is included in this solicitation, paragraph (d) of this provision applies.

(2) If the provision at 52.204-7, System for Award Management, is not included in this solicitation, and the Offeror has an active registration in the System for Award Management (SAM), the Offeror may choose to use paragraph (d) of this provision instead of completing the corresponding individual representations and certifications in the solicitation. The Offeror shall indicate which option applies by checking one of the following boxes:

☐ (i) Paragraph (d) applies.

☐ (ii) Paragraph (d) does not apply and the offeror has completed the individual representations and certifications in the solicitation.

(c)(1) The following representations or certifications in SAM are applicable to this solicitation as indicated:

(i) 52.203-2, Certificate of Independent Price Determination. This provision applies to solicitations when a firm-fixed-price contract or fixed-price contract with economic price adjustment is contemplated, unless—

(A) The acquisition is to be made under the simplified acquisition procedures in Part 13;

(B) The solicitation is a request for technical proposals under two-step sealed bidding procedures;
or

(C) The solicitation is for utility services for which rates are set by law or regulation.

(ii) 52.203-11, Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions. This provision applies to solicitations expected to exceed \$150,000.

(iii) 52.203-18, Prohibition on Contracting with Entities that Require Certain Internal Confidentiality Agreements or Statements—Representation. This provision applies to all solicitations.

(iv) 52.204-3, Taxpayer Identification. This provision applies to solicitations that do not include the provision at 52.204-7, System for Award Management.

(v) 52.204-5, Women-Owned Business (Other Than Small Business). This provision applies to solicitations that—

(A) Are not set aside for small business concerns;

(B) Exceed the simplified acquisition threshold; and

(C) Are for contracts that will be performed in the United States or its outlying areas.

(vi) 52.204-26, Covered Telecommunications Equipment or Services—Representation. This provision applies to all solicitations.

(vii) 52.209-2, Prohibition on Contracting with Inverted Domestic Corporations—Representation.

(viii) 52.209-5, Certification Regarding Responsibility Matters. This provision applies to solicitations where the contract value is expected to exceed the simplified acquisition threshold.

- (ix) 52.209-11, Representation by Corporations Regarding Delinquent Tax Liability or a Felony Conviction under any Federal Law. This provision applies to all solicitations.
- (x) 52.214-14, Place of Performance--Sealed Bidding. This provision applies to invitations for bids except those in which the place of performance is specified by the Government.
- (xi) 52.215-6, Place of Performance. This provision applies to solicitations unless the place of performance is specified by the Government.
- (xii) 52.219-1, Small Business Program Representations (Basic, Alternates I, and II). This provision applies to solicitations when the contract is for supplies to be delivered or services to be performed in the United States or its outlying areas, or
- when the contracting officer has applied part 19 in accordance with 19.000(b)(1)(ii).
- (A) The basic provision applies when the solicitations are issued by other than DoD, NASA, and the Coast Guard.
- (B) The provision with its Alternate I applies to solicitations issued by DoD, NASA, or the Coast Guard.
- (C) The provision with its Alternate II applies to solicitations that will result in a multiple-award contract with more than one NAICS code assigned.
- (xiii) 52.219-2, Equal Low Bids. This provision applies to solicitations when contracting by sealed bidding and the contract is for supplies to be delivered or services to be performed in the United States or its outlying areas, or when the contracting officer has applied part 19 in accordance with 19.000(b)(1)(ii).
- (xiv) [Reserved]
- (xv) [Reserved]
- (xvi) 52.222-38, Compliance with Veterans' Employment Reporting Requirements. This provision applies to solicitations when it is anticipated the contract award will exceed the simplified acquisition threshold and the contract is not for acquisition of commercial products or commercial services.
- (xvii) 52.223-1, Biobased Product Certification. This provision applies to solicitations that require the delivery or specify the use of biobased products in USDA-designated product categories; or include the clause at 52.223-2, Reporting of Biobased Products Under Service and Construction Contracts.
- (xviii) 52.223-4, Recovered Material Certification. This provision applies to solicitations that are for, or specify the use of, EPA- designated items.
- (xix) [Reserved]
- (xx) 52.225-2, Buy American Certificate. This provision applies to solicitations containing the clause at 52.225-1.
- (xxi) (xii) 52.225-4, Buy American-Free Trade Agreements-Israeli Trade Act Certificate. (Basic, Alternates II and III.) This provision applies to solicitations containing the clause at 52.225-3.
- (A) If the acquisition value is less than \$50,000, the basic provision applies.
- (B) If the acquisition value is \$50,000 or more but is less than \$100,000, the provision with its Alternate II applies.
- (C) If the acquisition value is \$100,000 or more but is less than \$102,280, the provision with its Alternate III applies.
- (xxii) 52.225-6, Trade Agreements Certificate. This provision applies to solicitations containing the clause at 52.225-5.
- (xxiii) 52.225-20, Prohibition on Conducting Restricted Business Operations in Sudan--Certification. This provision applies to all solicitations.
- (xxiv) 52.225-25, Prohibition on Contracting with Entities Engaging in Certain Activities or Transaction Relating to Iran--Representation and Certifications. This provision applies to all solicitations.
- (xxv) 52.226-2, Historically Black College or University and Minority Institution Representation. This provision applies to solicitations for research, studies, supplies, or services of the type normally acquired from higher educational institutions.

(2) The following representations or certifications are applicable as indicated by the Contracting Officer:

[Contracting Officer check as appropriate.]

- ☒ (i) 52.204-17, Ownership or Control of Offeror.
- ☒ (ii) 52.204-20, Predecessor of Offeror.
- ☒ (iii) 52.222-18, Certification Regarding Knowledge of Child Labor for Listed End Products.
- (see note) (iv) 52.222-48, Exemption from Application of the Service Contract Labor Standards to Contracts for Maintenance, Calibration, or Repair of Certain Equipment -- Certification.). **(Note: If this clause is applicable it will be listed in the appropriate clause section of this document.)**
- ☐ (v) 52.222-52 Exemption from Application of the Service Contract Labor Standards to Contracts for Certain Services--Certification.

- (vi) 52.227-6, Royalty Information.
 ___(A) Basic.
 ___(B) Alternate I.
 ___(vii) 52.227-15, Representation of Limited Rights Data and Restricted Computer Software.

(d) The Offeror has completed the annual representations and certifications electronically in SAM accessed through <https://www.sam.gov>. After reviewing the SAM information, the Offeror verifies by submission of the offer that the representations and certifications currently posted electronically that apply to this solicitation as indicated in paragraph (c) of this provision have been entered or updated within the last 12 months, are current, accurate, complete, and applicable to this solicitation (including the business size standard applicable to the NAICS code referenced for this solicitation), as of the date of this offer and are incorporated in this offer by reference (see FAR 4.1201); except for the changes identified below [offeror to insert changes, identifying change by clause number, title, date]. These amended representation(s) and/or certification(s) are also incorporated in this offer and are current, accurate, and complete as of the date of this offer.

FAR Clause #	Title	Date	Change

Any changes provided by the offeror are applicable to this solicitation only, and do not result in an update to the representations and certifications posted on SAM.

52.204-16 **COMMERCIAL AND GOVERNMENT ENTITY CODE REPORTING** (AUG 2020)
 (IAW FAR 4.1804(a), FAR 12.301(d))

52.204-22 **ALTERNATIVE LINE ITEM PROPOSAL** (JAN 2017)
 (IAW FAR 4.1008)

52.204-24 **REPRESENTATION REGARDING CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT** (NOV 2021)
 (IAW FAR 4.2105(a))

The Offeror shall not complete the representation at paragraph (d)(1) of this provision if the Offeror has represented that it “does not provide covered telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument” in paragraph (c)(1) in the provision at 52.204–26, Covered Telecommunications Equipment or Services—Representation, or in paragraph (v)(2)(i) of the provision at 52.212–3, Offeror Representations and Certifications—Commercial Products and Commercial Services. The Offeror shall not complete the representation in paragraph (d)(2) of this provision if the Offeror has represented that it “does not use covered telecommunications equipment or services, or any equipment, system, or service that uses covered telecommunications equipment or services” in paragraph (c)(2) of the provision at 52.204–26, or in paragraph (v)(2)(ii) of the provision at 52.212–3.

(a) *Definitions.* As used in this provision-

Backhaul, covered telecommunications equipment or services, critical technology, interconnection arrangements, reasonable inquiry, roaming, and substantial or essential component have the meanings provided in the clause 52.204-25, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment.

(b) *Prohibition.* (1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. Nothing in the prohibition shall be construed to—

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract or extending or renewing a contract with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or

services as a substantial or essential component of any system, or as critical technology as part of any system. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract. Nothing in the prohibition shall be construed to—

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(c) *Procedures.* The Offeror shall review the list of excluded parties in the System for Award Management (SAM) (<https://www.sam.gov>) for entities excluded from receiving federal awards for “covered telecommunications equipment or services.”

(d) *Representations.* The Offeror represents that—

(1) It [] will, [] will not provide covered telecommunications equipment or services to the Government in the performance of any contract, subcontract or other contractual instrument resulting from this solicitation. The Offeror shall provide the additional disclosure information required at paragraph (e)(1) of this section if the Offeror responds “will” in paragraph (d)(1) of this section; and

(2) After conducting a reasonable inquiry, for purposes of this representation, the Offeror represents that—

It [] does, [] does not use covered telecommunications equipment or services, or use any equipment, system, or service that uses covered telecommunications equipment or services. The Offeror shall provide the additional disclosure information required at paragraph (e)(2) of this section if the Offeror responds “does” in paragraph (d)(2) of this section.

(e) *Disclosures.* (1) Disclosure for the representation in paragraph (d)(1) of this provision. If the Offeror has responded “will” in the representation in paragraph (d)(1) of this provision, the Offeror shall provide the following information as part of the offer:

(i) For covered equipment—

(A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the original equipment manufacturer (OEM) or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(ii) For covered services—

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the Product Service Code (PSC) of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(2) Disclosure for the representation in paragraph (d)(2) of this provision. If the Offeror has responded “does” in the representation in paragraph (d)(2) of this provision, the Offeror shall provide the following information as part of the offer:

(i) For covered equipment—

(A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

(ii) For covered services—

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the PSC of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

(End of provision)

**52.204-26 COVERED TELECOMMUNICATIONS EQUIPMENT OR SERVICES -
REPRESENTATION (OCT 2020)**
(IAW FAR 4.2105(c))

(a) *Definitions.* As used in this provision, “covered telecommunications equipment or services” and “reasonable inquiry” have the meaning provided in the clause 52.204-25, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment.

(b) *Procedures.* The Offeror shall review the list of excluded parties in the System for Award Management (SAM) (<https://www.sam.gov>) for entities excluded from receiving federal awards for “covered telecommunications equipment or services”.

(c) *Representations.*

(1) The Offeror represents that it ☐ does, ☐ does not provide covered telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument.

(2) After conducting a reasonable inquiry for purposes of this representation, the offeror represents that it ☐ does, ☐ does not use covered telecommunications equipment or services, or any equipment, system, or service that uses covered telecommunications equipment or services.

**52.204-29 FEDERAL ACQUISITION SUPPLY CHAIN SECURITY ACT ORDERS -
REPRESENTATION AND DISCLOSURES (DEC 2023)**
(IAW FAR 4.2306(b))

252.204-7007 ALTERNATE A, ANNUAL REPRESENTATIONS AND CERTIFICATIONS (OCT 2024)
(IAW DFARS 204.1202)

Substitute the following paragraphs (b), (d), and (e) for paragraphs (b) and (d) of the provision at FAR 52.204-8:

(b)(1) If the provision at FAR 52.204-7, System for Award Management, is included in this solicitation, paragraph (e) of this provision applies.

(2) If the provision at FAR 52.204-7, System for Award Management, is not included in this solicitation, and the Offeror has an active registration in the System for Award Management (SAM), the Offeror may choose to use paragraph (e) of this provision instead of completing the corresponding individual representations and certifications in the solicitation. The Offeror shall indicate which option applies by checking one of the following boxes:

___ (i) Paragraph (e) applies.

___ (ii) Paragraph (e) does not apply and the Offeror has completed the individual representations and certifications in the solicitation.

- (d) (1) The following representations or certifications in the SAM database are applicable to this solicitation as indicated:
- (i) 252.204–7016, Covered Defense Telecommunications Equipment or Services—Representation. Applies to all solicitations.
 - (ii) 252.216–7008, Economic Price Adjustment--Wage Rates or Material Prices Controlled by a Foreign Government--Representation. Applies to solicitations for fixed-price supply and service contracts when the contract is to be performed wholly or in part in a foreign country, and a foreign government controls wage rates or material prices and may during contract performance impose a mandatory change in wages or prices of materials.
 - (iii) 252.225–7042, Authorization to Perform. Applies to all solicitations when performance will be wholly or in part in a foreign country.
 - (iv) 252.225–7049, Prohibition on Acquisition of Certain Foreign Commercial Satellite Services—Representation. Applies to solicitations for the acquisition of commercial satellite services.
 - (v) 252.225–7050, Disclosure of Ownership or Control by the Government of a Country that is a State Sponsor of Terrorism. Applies to all solicitations expected to result in contracts of \$150,000 or more.
 - (vi) 252.229–7012, Tax Exemptions (Italy)--Representation. Applies to solicitations when contract performance will be in Italy.
 - (vii) 252.229–7013, Tax Exemptions (Spain)--Representation. Applies to solicitations when contract performance will be in Spain.

(2) The following representations or certifications in SAM are applicable to this solicitation as indicated by the Contracting Officer; **[Contracting Officer check as appropriate.]**

- ___ (i) 252.209–7002, Disclosure of Ownership or Control by a Foreign Government.
- ☒ (ii) 252.225–7000, Buy American —Balance of Payments Program Certificate.
- ___ (iii) 252.225–7020, Trade Agreements Certificate.
- ___ Use with Alternate I
- ___ (iv) 252.225–7031, Secondary Arab Boycott of Israel.
- ___ (v) 252.225–7035, Buy American —Free Trade Agreements—Balance of Payments Program Certificate.
- ___ Use with Alternate I.
- ___ Use with Alternate II.
- ___ Use with Alternate III.
- ___ Use with Alternate IV.
- ___ Use with Alternate V.
- ___ (vi) 252.226–7002, Representation for Demonstration Project for Contractors Employing Persons with Disabilities.
- ___ (vii) 252.232–7015, Performance-Based Payments—Representation.

(e) The Offeror has completed the annual representations and certifications electronically via the SAM website at <https://www.sam.gov>. After reviewing the SAM database information, the Offeror verifies by submission of the offer that the representations and certifications currently posted electronically that apply to this solicitation as indicated in FAR 52.204–8(c) and paragraph (d) of this provision have been entered or updated within the last 12 months, are current, accurate, complete, and applicable to this solicitation (including the business size standard applicable to the NAICS code referenced for this solicitation), as of the date of this offer, and are incorporated in this offer by reference (see FAR 4.1201); except for the changes identified below [Offeror to insert changes, identifying change by provision number, title, date]. These amended representation(s) and/or certification(s) are also incorporated in this offer and are current, accurate, and complete as of the date of this offer.

FAR/DFARS Provision No.	Title	Date	Change

Any changes provided by the Offeror are applicable to this solicitation only, and do not result in an update to the representations and certifications located in the SAM database.

252.204-7008

COMPLIANCE WITH SAFEGUARDING COVERED DEFENSE INFORMATION CONTROLS (OCT 2016)
(IAW DFARS 204.7304(a))

**252.204-7016 COVERED DEFENSE TELECOMMUNICATIONS EQUIPMENT OR SERVICES --
REPRESENTATION (DEC 2019)**
(IAW 204.2105(a))

(a) Definitions. As used in this provision, covered defense telecommunications equipment or services has the meaning provided in the clause 252.204-7018, Prohibition on the Acquisition of Covered Defense Telecommunications Equipment or Services.

(b) Procedures. The Offeror shall review the list of excluded parties in the System for Award Management (SAM) (<https://www.sam.gov>) for entities excluded from receiving federal awards for “covered defense telecommunications equipment or services”.

(c) Representation. The Offeror represents that it [] does, [] does not provide covered defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument.

**252.204-7017 PROHIBITION ON THE ACQUISITION OF COVERED DEFENSE
TELECOMMUNICATIONS EQUIPMENT OR SERVICES--REPRESENTATION**
(MAY 2021)
(IAW DFARS 204.2105(b))

The Offeror is not required to complete the representation in this provision if the Offeror has represented in the provision at 252.204-7016, Covered Defense Telecommunications Equipment or Services—Representation, that it “does not provide covered defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument.”

(a) Definitions. Covered defense telecommunications equipment or services, covered mission, critical technology, and substantial or essential component, as used in this provision, have the meanings given in the 252.204-7018 clause, Prohibition on the Acquisition of Covered Defense Telecommunications Equipment or Services, of this solicitation.

(b) Prohibition. Section 1656 of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115-91) prohibits agencies from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service to carry out covered missions that uses covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

(c) Procedures. The Offeror shall review the list of excluded parties in the System for Award Management (SAM) at <https://www.sam.gov> for entities that are excluded when providing any equipment, system, or service to carry out covered missions that uses covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless a waiver is granted.

(d) Representation. If in its annual representations and certifications in SAM the Offeror has represented in paragraph (c) of the provision at 252.204-7016, Covered Defense Telecommunications Equipment or Services—Representation, that it “does” provide covered defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument, then the Offeror shall complete the following additional representation:

The Offeror represents that it [] will [] will not provide covered defense telecommunications equipment or services as a part of its offered products or services to DoD in the performance of any award resulting from this solicitation.

(e) Disclosures. If the Offeror has represented in paragraph (d) of this provision that it “will provide covered defense telecommunications equipment or services,” the Offeror shall provide the following information as part of the offer:

(1) A description of all covered defense telecommunications equipment and services offered (include brand or manufacturer; product, such as model number, original equipment manufacturer (OEM) number, manufacturer part number, or wholesaler number; and item description, as applicable).

(2) An explanation of the proposed use of covered defense telecommunications equipment and services and any factors relevant to determining if such use would be permissible under the prohibition referenced in paragraph (b) of this provision.

(3) For services, the entity providing the covered defense telecommunications services (include entity name, unique entity identifier, and Commercial and Government Entity (CAGE) code, if known).

(4) For equipment, the entity that produced or provided the covered defense telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known).

252.204-7019

NOTICE OF NIST SP 800-171 DOD ASSESSMENT REQUIREMENTS

(NOV 2023)

(IAW DFARS 204.7304(d))

(a) *Definitions.*

“Basic Assessment”, “Medium Assessment”, and “High Assessment” have the meaning given in the clause 252.204-7020, NIST SP 800-171 DoD Assessments.

“Covered contractor information system” has the meaning given in the clause 252.204-7012, Safeguarding Covered Defense Information and Cyber Incident Reporting, of this solicitation.

(b) *Requirement.* In order to be considered for award, if the Offeror is required to implement NIST SP 800-171, the Offeror shall have a current assessment (i.e., not more than 3 years old unless a lesser time is specified in the solicitation) (see 252.204-7020) for each covered contractor information system that is relevant to the offer, contract, task order, or delivery order. The Basic, Medium, and High NIST SP 800-171 DoD Assessments are described in the NIST SP 800-171 DoD Assessment Methodology located at <https://www.acq.osd.mil/asda/dpc/cp/cyber/docs/safeguarding/NIST-SP-800-171-Assessment-Methodology-Version-1.2.1-6.24.2020.pdf>

(c) *Procedures.*

(1) The Offeror shall verify that summary level scores of a current NIST SP 800-171 DoD Assessment (i.e., not more than 3 years old unless a lesser time is specified in the solicitation) are posted in the Supplier Performance Risk System (SPRS) (<https://www.sprs.csd.disa.mil/>) for all covered contractor information systems relevant to the offer.

(2) If the Offeror does not have summary level scores of a current NIST SP 800-171 DoD Assessment (i.e., not more than 3 years old unless a lesser time is specified in the solicitation) posted in SPRS, the Offeror may conduct and submit a Basic Assessment to webpmsmh@navy.mil for posting to SPRS in the format identified in paragraph (d) of this provision.

(d) *Summary level scores.* Summary level scores for all assessments will be posted 30 days post-assessment in SPRS to provide DoD Components visibility into the summary level scores of strategic assessments.

(1) *Basic Assessments.* An Offeror may follow the procedures in paragraph (c)(2) of this provision for posting Basic Assessments to SPRS.

(i) The email shall include the following information:

(A) Cybersecurity standard assessed (e.g., NIST SP 800-171 Rev 1).

(B) Organization conducting the assessment (e.g., Contractor self-assessment).

(C) For each system security plan (security requirement 3.12.4) supporting the performance of a DoD contract—

(1) All industry Commercial and Government Entity (CAGE) code(s) associated with the information system(s) addressed by the system security plan; and

(2) A brief description of the system security plan architecture, if more than one plan exists.

(D) Date the assessment was completed.

(E) Summary level score (e.g., 95 out of 110, NOT the individual value for each requirement).

(F) Date that all requirements are expected to be implemented (i.e., a score of 110 is expected to be achieved) based on information gathered from associated plan(s) of action developed in accordance with NIST SP 800-171.

(ii) If multiple system security plans are addressed in the email described at paragraph (d)(1)(i) of this section, the Offeror shall use the following format for the report:

System Security Plan	CAGE Codes supported by this plan	Brief description of the plan architecture	Date of assessment	Total Score	Date score of 110 will be achieved

(2) *Medium and High Assessments.* DoD will post the following Medium and/or High Assessment summary level scores to SPRS for each system assessed:

(i) The standard assessed (e.g., NIST SP 800-171 Rev 1).

(ii) Organization conducting the assessment, e.g., DCMA, or a specific organization (identified by Department of Defense Activity Address Code (DoDAAC)).

(iii) All industry CAGE code(s) associated with the information system(s) addressed by the system security plan.

(iv) A brief description of the system security plan architecture, if more than one system security plan exists.

(v) Date and level of the assessment, i.e., medium or high.

(vi) Summary level score (e.g., 105 out of 110, not the individual value assigned for each requirement).

(vii) Date that all requirements are expected to be implemented (i.e., a score of 110 is expected to be achieved) based on information gathered from associated plan(s) of action developed in accordance with NIST SP 800-171.

(3) *Accessibility.*

(i) Assessment summary level scores posted in SPRS are available to DoD personnel, and are protected, in accordance with the standards set forth in DoD Instruction 5000.79, Defense-wide Sharing and Use of Supplier and Product Performance Information (PI).

(ii) Authorized representatives of the Offeror for which the assessment was conducted may access SPRS to view their own summary level scores, in accordance with the SPRS Software User's Guide for Awardees/Contractors available at https://www.sprs.csd.disa.mil/pdf/SPRS_Awardee.pdf.

(iii) A High NIST SP 800-171 DoD Assessment may result in documentation in addition to that listed in this section. DoD will retain and protect any such documentation as "Controlled Unclassified Information (CUI)" and intended for internal DoD use only. The information will be protected against unauthorized use and release, including through the exercise of applicable exemptions under the Freedom of Information Act (e.g., Exemption 4 covers trade secrets and commercial or financial information obtained from a contractor that is privileged or confidential).

252.204-7024

NOTICE ON THE USE OF THE SUPPLIER PERFORMANCE RISK SYSTEM
(MAR 2023)
(IAW DFARS 204.7604)

(a) *Definitions.* As used in this provision—

Item risk means the probability that a product, based on intended use, will introduce performance risk resulting in safety issues, mission degradation, or monetary loss.

Price risk means a measure of whether a proposed price for a product or service is consistent with historical prices paid for that item or service.

Supplier risk means the probability that an award may subject the procurement to the risk of unsuccessful performance or to supply chain risk (see Defense Federal Acquisition Regulation Supplement 239.7301).

(b) The Supplier Performance Risk System (SPRS), available at <https://piee.eb.mil/>, will be used in the evaluation of the Quoter or Offeror's performance. SPRS retrieves item, price, quality, delivery, and contractor information on contracts from Government reporting systems in order to develop risk assessments.

(c) The Contracting Officer will consider SPRS risk assessments during the evaluation of quotations or offers received in response to this solicitation as follows:

- (1) Item risk will be considered to determine whether the procurement represents a high performance risk to the Government.
- (2) Price risk will be considered in determining if a proposed price is consistent with historical prices paid for a product or a service or otherwise creates a risk to the Government.
- (3) Supplier risk, including but not limited to quality and delivery, will be considered to assess the risk of unsuccessful performance and supply chain risk.

(d) SPRS risk assessments are generated daily. Quoters or Offerors are able to access their risk assessments by following the access instructions in the SPRS user's guide available at <https://www.sprs.csd.disa.mil/reference.htm>. Quoters and Offerors are granted access to SPRS for their own risk assessment classifications only. SPRS reporting procedures and risk assessment methodology are detailed in the SPRS user's guide. The method to challenge a rating generated by SPRS is also provided in the user's guide. SPRS evaluation criteria are available at https://www.sprs.csd.disa.mil/pdf/SPRS_DataEvaluationCriteria.pdf.

(e) The Contracting Officer may consider any other available and relevant information when evaluating a quotation or an offer.

52.207-4

ECONOMIC PURCHASE QUANTITY--SUPPLIES (AUG 1987)
(IAW FAR 7.203)

(a) Offerors are invited to state an opinion on whether the quantity(ies) of supplies on which bids, proposals or quotes are requested in this solicitation is (are) economically advantageous to the Government.

(b) Each offeror who believes that acquisitions in different quantities would be more advantageous is invited to recommend an economic purchase quantity. If different quantities are recommended, a total and a unit price must be quoted for applicable items. An economic purchase quantity is that quantity at which a significant price break occurs. If there are significant price breaks at different quantity points, this information is desired as well.

OFFEROR RECOMMENDATIONS

<u>ITEM</u>	<u>QUANTITY</u>	<u>QUOTATION</u>	<u>PRICE TOTAL</u>

(c) The information requested in this provision is being solicited to avoid acquisitions in disadvantageous quantities and to assist the Government in developing a data base for future acquisitions of these items. However, the Government reserves the right to amend or cancel the solicitation and re-solicit with respect to any individual item in the event quotations received and the Government's requirements indicate that different quantities should be acquired.

52.209-11 REPRESENTATION BY CORPORATIONS REGARDING DELINQUENT TAX LIABILITY OR A FELONY CONVICTION UNDER ANY FEDERAL LAW (FEB 2016)
(IAW FAR 9.104-7(d))

(b) The Offeror represents that—

- (1) It is ☐ is not ☐ a corporation that has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability; and
- (2) It is ☐ is not ☐ a corporation that was convicted of a felony criminal violation under a Federal law within the preceding 24 months.

252.209-7011 REPRESENTATION FOR RESTRICTION ON THE USE OF CERTAIN INSTITUTIONS OF HIGHER EDUCATION (OCT 2023)
(IAW DFARS 209.170-4)

52.211-14 NOTICE OF PRIORITY RATING FOR NATIONAL DEFENSE, EMERGENCY PREPAREDNESS, AND ENERGY PROGRAM USE (APR 2008)
(IAW FAR 11.604(a))

Note: DX or DO rating will be completed on cover page.

252.215-7013 SUPPLIES AND SERVICES PROVIDED BY NONTRADITIONAL DEFENSE CONTRACTORS (JAN 2023)
(IAW DFARS 215.408(6))

THE FOLLOWING IS FILL-IN DATA FOR PROVISION 52.204-8 PARA (c)(2)(iii):

52.222-18 CERTIFICATION REGARDING KNOWLEDGE OF CHILD LABOR FOR LISTED END PRODUCTS (FEB 2021)

(b) *Listed end products.* The following end product(s) being acquired under this solicitation is (are) included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, identified by their country of origin. There is a reasonable basis to believe that listed end products from the listed countries of origin may have been mined, produced, or manufactured by forced or indentured child labor.

<u>Listed end product</u>	<u>Listed countries of origin</u>
_____	_____
_____	_____
_____	_____

(c) *Certification.* The Government will not make award to an offeror unless the offeror, by checking the appropriate block, certifies to either paragraph (c)(1) or paragraph (c)(2) of this provision.

☐ (1) The offeror will not supply any end product listed in paragraph (b) of this provision that was mined, produced, or manufactured in a corresponding country as listed for that end product.

☐ (2) The offeror may supply an end product listed in paragraph (b) of this provision that was mined, produced, or manufactured in the corresponding country as listed for that product. The offeror certifies that it has made a good faith effort to determine whether forced or indentured child labor was used to mine, produce, or manufacture such end product. On the basis of those efforts, the offeror certifies that it is not aware of any such use of child labor.

52.223-22 PUBLIC DISCLOSURE OF GREENHOUSE GAS EMISSIONS AND REDUCTION GOALS--REPRESENTATION (DEC 2016)
(IAW FAR 23.502)

(a) This representation shall be completed if the Offeror received \$7.5 million or more in Federal contract awards in the prior Federal fiscal year. The representation is optional if the Offeror received less than \$7.5 million in Federal contract awards in the prior Federal fiscal year.

(b) Representation. [Offeror is to check applicable blocks in paragraphs (b)(1) and (2).]

(1) The Offeror (itself or through its immediate owner or highest-level owner) ☐ **does**, ☐ **does not** publicly disclose greenhouse gas emissions, i.e., make available on a publicly accessible Web site the results of a greenhouse gas inventory, performed in accordance with an accounting standard with publicly available and consistently applied criteria, such as the Greenhouse Gas Protocol Corporate Standard.

(2) The Offeror (itself or through its immediate owner or highest-level owner) ☐ **does**, ☐ **does not** publicly disclose a quantitative greenhouse gas emissions reduction goal, i.e., make available on a publicly available Web site a target to reduce absolute emissions or emissions intensity by a specific quantity or percentage.

(3) A publicly accessible Web site includes the Offeror's own Web site or a recognized, third-party greenhouse gas emissions reporting program.

(c) If the Offeror checked "does" in paragraphs (b)(1) or (b)(2) of this provision, respectively, the Offeror shall provide the publicly accessible Web site(s) where greenhouse gas emissions and/or reduction goals are reported:_____.

52.225-18 PLACE OF MANUFACTURE (AUG 2018)
(IAW FAR 25.1101(f))

(a) *Definitions.* As used in this provision—

"Manufactured end product" means any end product and service codes (PSCs) 1000-9999, except—

- (1) PSC 5510, Lumber and Related Basic Wood Materials;
- (2) Product Service Group (PSG) 87, Agricultural Supplies;
- (3) PSG 88, Live Animals;
- (4) PSG 89, Subsistence;
- (5) PSC 9410, Crude Grades of Plant Materials;
- (6) PSC 9430, Miscellaneous Crude Animal Products, Inedible;
- (7) PSC 9440, Miscellaneous Crude Agricultural and Forestry Products;
- (8) PSC 9610, Ores;
- (9) PSC 9620, Minerals, Natural and Synthetic; and
- (10) PSC 9630, Additive Metal Materials.

“Place of manufacture” means the place where an end product is assembled out of components, or otherwise made or processed from raw materials into the finished product that is to be provided to the Government. If a product is disassembled and reassembled, the place of reassembly is not the place of manufacture.

(b) For statistical purposes only, the offeror shall indicate whether the place of manufacture of the end products it expects to provide in response to this solicitation is predominantly—

- (1) ☐ **In the United States** (Check this box if the total anticipated price of offered end products manufactured in the United States exceeds the total anticipated price of offered end products manufactured outside the United States); or
- (2) ☐ **Outside the United States.**

252.225-7973

PROHIBITION ON THE PROCUREMENT OF FOREIGN-MADE UNMANNED AIRCRAFT SYSTEMS-REPRESENTATION (AUG 2024) (DEVIATION 2024-O0014) (AUG 2024)
(IAW DEVIATION 2024-O0014)

(a) *Definition.* As used in this provision, “covered foreign country” has the meaning given in the 252.225-7972, Prohibition on the Procurement of Foreign-Made Unmanned Aircraft Systems (DEVIATION 2024-O0014), clause of this solicitation.

(b) *Prohibition.* Section 848 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2020 (Pub. L. 116-92) and section 817 of the NDAA for FY 2023 (Pub. L. 117-263) prohibit DoD from—

- (1) Using or procuring an unmanned aircraft system (UAS), or any related services or equipment, that—
 - (i) Is manufactured in a covered foreign country, or by an entity domiciled in a covered foreign country;
 - (ii) Uses flight controllers, radios, data transmission devices, cameras, or gimbals manufactured in a covered foreign country, or by an entity domiciled in a covered foreign country;
 - (iii) Uses a ground control system or operating software developed in a covered foreign country, or by an entity domiciled in a covered foreign country; or
 - (iv) Uses network connectivity or data storage located in, or administered by an entity domiciled in, a covered foreign country;
- (2) Using or procuring a system for the detection or identification of a UAS, or any related services or equipment, that is manufactured in a covered foreign country or by an entity domiciled in a covered foreign country; or
- (3) On or after October 1, 2024, entering into or renewing a contract with an entity that operates, as determined by the Secretary of Defense, equipment from—
 - (i) Da-Jiang Innovations (or any subsidiary or affiliate of Da-Jiang Innovations);
 - (ii) Any entity that produces or provides unmanned aircraft systems and is included on the Consolidated Screening List maintained by the International Trade Administration of the Department of Commerce (<https://www.trade.gov/consolidated-screening-list>); or
 - (iii) Any entity that produces or provides unmanned aircraft systems and—
 - (A) Is domiciled in a covered foreign country; or
 - (B) Is subject to unmitigated foreign ownership, control, or influence by a covered foreign country, as determined by the Secretary of Defense in accordance with the National Industrial Security Program.

(c) *Representations.*

- (1) By submission of its offer, the Offeror represents that—
 - (i) It will not provide or use a UAS, as described in paragraph (b)(1) of this provision, in the performance of any contract, subcontract, or other contractual instrument resulting from this solicitation; and

(ii) It will not provide or use a system for the detection or identification of a UAS, as described in paragraph (b)(2) of this provision, in the performance of any contract, subcontract, or other contractual instrument resulting from this solicitation.

(2) It is not an entity described in paragraph (b)(3) of this provision.

(End of provision)

52.232-15 PROGRESS PAYMENTS NOT INCLUDED (APR 1984)
(IAW FAR 32.502-3(c))

52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE (FEB 1998)
(IAW FAR 52.107(a))

This solicitation incorporated one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available.

The full text of a clause may be accessed electronically at this/these address(es): Regulations URLs: (Click on the appropriate regulation.)

NOTE: After selecting the appropriate regulation above, at the "Table of Contents" page conduct a search for the desired regulation reference, using your browser's **FIND** function. When located, click on the **regulation reference** (hyperlink).

SECTION L
INSTRUCTIONS TO OFFERORS (ITO) AND INSTRUCTIONS FOR QUOTE PREPARATION
USING BEST VALUE PROCESS, PERFORMANCE PRICE TRADEOFF (PPT) SOURCE SELECTION PROCEDURES

General Instructions

Instructions to the Offerors (ITO):

This section of the ITO provides general guidance for preparing quotes as well as specific instructions on the format and content of the quote. The offeror's quote must include all data and information requested by the ITO and must be submitted in accordance with these instructions. The offeror shall be compliant with the requirements as stated in the Solicitation and the attachments of the solicitation. Non-conformance with the instructions provided in the ITO may result in an unfavorable quote evaluation.

Include Sufficient Detail:

The quote shall be clear, concise, and shall include sufficient detail for effective evaluation and for substantiating the validity of stated claims. The quote should not simply rephrase or restate the Government's requirements. Offeror shall assume that the Government has no prior knowledge of their facilities and experience, and will base its evaluation on the information presented in the offeror's quote.

Embellishment Not Desired:

Elaborate brochures or documentation, binding, detailed artwork, or other embellishments are unnecessary and are not desired.

Quote Acceptance and Validity Dates:

The quote acceptance period is specified in Section A of the solicitation. The offer shall make a clear statement in Section A of the quote documentation that the quote is valid for at least the number of days identified in Section A, starting from the closing date of the solicitation.

Disposition of Quotes:

In accordance with FAR Subpart 4.803(a)(10) (Contents of Contract Files), the Government will retain one copy of all unsuccessful quotes. Unless the offeror requests otherwise, the Government will destroy extra copies of such unsuccessful quotes.

Electronic Reference Documents

All referenced documents for this solicitation are available on the Beta Sam Website under Contract Opportunities (formerly FedBizOpps) at sam.gov, unless indicated otherwise. Potential Offerors are encouraged to subscribe for real-time e-mail notifications when information has been posted to the website for this solicitation.

Amendments to Solicitation

If this RFQ is amended, all terms and conditions that are not amended remain unchanged and in full force and effect. Offerors shall acknowledge receipt of any amendment and provide confirmation upon submission of the offeror's quote.

General Information

Point of Contact:

The Buyer identified in Block 5b is the **sole** point of contact for this acquisition. Address any questions or concerns you may have to the buyer. Written requests for clarification may be sent to the buyer at the address located in Section A of the solicitation.

Discrepancies:

If an offeror believes that the requirements in these instructions contain an error, omission, or are otherwise unsound, the offeror shall immediately notify the buyer in writing with supporting rationale. The offeror is reminded that the Government reserves the right to award this effort based on the initial quote, as received, without discussions.

Electronic Offers:

Quotes may be emailed to **keith.russ@us.af.mil** by the closing date.

Technical Quote

Offerors shall bid IAW requirements in Section B. Your responses to the factors will be evaluated in accordance with Section M of the solicitation. All the requirements specified in the solicitation are mandatory.

FACTOR 1 - Technical

Formal technical quotes are not required. Offers shall propose IAW requirement in Section B and all attachments herein. Your quote will be evaluated in accordance with Section M of the solicitation. All the requirements specified in the solicitation are mandatory.

FACTOR 2 - Price

Completion of the RFP, Section B Schedule will represent the price quote.

FACTOR 3 – Past Performance

The offeror is not required to provide Past Performance information. Past performance information will be determined primarily based on the offeror's "Supplier Risk Score" in the Supplier Performance Risk System (SPRS) at the time of the close of the solicitation period. Past performance may also be obtained through the contractor Performance Assessment Reporting System (CPARS), similarly systems of other Government departments and agencies (MOCAS, etc), questionnaires tailored to the circumstances of this acquisition, Defense Contract Management Agency (DCMA) channels, interviews with program managers and contracting officers, and other sources known to the Government, including commercial sources.

Contract Documentation

The purpose of this section is to provide information to the Government for preparing the contract document and supporting file. The offeror's quote shall include a signed copy of the solicitation, and Sections A through K. This includes:

Section A – Solicitation/Contract Form (Pages 1 & 2)

Completion of blocks 12, 13, 14, 15, and 16 of the SF 18 is required. Signature by the offeror on the SF 18 constitutes an offer which the Government may accept.

Section B – Supplies or Services and Costs/Prices

All pricing information shall be addressed in Section B – The Schedule of the solicitation. Information shall be limited to Contract Line Item Number (CLIN), Sub-CLIN or ELIN level pricing, including unit and extended pricing as specified in Section B.

Section C – Description/Specifications/Statement of Work

Not applicable

Section D – Packaging and Marking

Not applicable

Section E – Inspection and Acceptance

Complete Inspection and Acceptance address.

Section F – Deliveries or Performance

Complete F.O.B. Origin Clause IAW FAR 47.305(b).

Section G – Contract Administration Data

Complete Activity Address Clause.

If applicable, annotate remittance address within quote.

Section H – Special Contract Requirements

Not applicable

Section I – Contract Clauses

Section J – Attachments

Section K – Representation, Certifications, and Other Statement of Offeror's

Completed representations, certifications, acknowledgements and statements.

Exceptions to Terms and Conditions

Exceptions taken to terms and conditions of this prospective contract, to any of its formal attachments or to other parts of the solicitation shall be identified. Each exception shall be specifically related to each paragraph and/or specific part of the solicitation to which exception is taken. Provide rationale in support of the exception and fully explain its impact, if any, on the performance, schedule, cost and specific requirements of the solicitation. This information shall be provided in the format shown below. Failure to comply with the terms and conditions of the solicitation may result in the offeror being removed from consideration for award.

Table 1 - Solicitation Exceptions

Solicitation Document	Paragraph/Page	Requirement/ Portion	Rationale
Model Contract, ITO, etc.	Applicable Page and Paragraph Numbers	Identify the requirement or portion to which exception is taken	Justify why the requirement will not be met

--	--	--	--

Other Information Required

Authorized Offeror Personnel

Provide the name, title, and telephone number of the company/division point of contact regarding decisions made with respect to your quote and who can obligate your company contractually. Also, identify those individuals authorized to negotiate with the Government.

Person(s) that can obligate your company:

Name: _____

Title: _____

Telephone: _____

Person(s) authorized to negotiate with the Government:

Name: _____

Title: _____

Telephone: _____

Government Offices

Provide the mailing address, telephone and fax numbers and facility codes for the cognizant Contract Administration Office, DCAA, and Government Paying Office. Also, provide the name and telephone and fax number for the Administrative Contracting Officer (ACO).

Company/Division address, Identifying Codes, and Applicable and Designations

Provide company/division's street address, county and facility code; CAGE code; Unique Entity ID (UEI); size of business (large or small); and labor surplus area designation. This same information must be provided if the work for this contract will be performed at any other location(s). List all locations where work is to be performed and indicate whether such facility is a division, affiliate, or subcontractor, and the percentage of work to be performed at each location.

SECTION M
EVALUATION FACTORS FOR AWARD USING BEST VALUE PROCESS, PERFORMANCE PRICE TRADEOFF
(PPT) SOURCE SELECTION PROCEDURES

A. Basis for Contract Award

This acquisition will utilize the Best Value Process, Performance price Tradeoff source selection procedures in accordance with Federal Acquisition Regulation (FAR) Part 15.101-1, as supplemented, to make an assessment for a best value award decision. Tradeoffs will be made only between price and past performance among those offerors who have been determined technical acceptable. Award will be made to the offeror who is deemed responsible in accordance with FAR Part 15.101, as supplemented, whose quote conforms to the solicitation requirements and is judged, based on the evaluation factors, to represent the best value to the Government. The Government seeks to award to the offeror who gives the Defense Logistics Agency the greatest confidence that it will best meet the requirements affordably. This may result in an award to a higher rated, higher priced offeror, where the decision is consistent with the evaluation factors and the Source Selection Authority (SSA) reasonably determined that the technical acceptable offeror, superior past performance of the higher price offeror outweighs the cost difference. While the Government source selection evaluation team and the SSA will strive for maximum objectivity, the source selection process, by its nature, is subjective and, therefore, professional judgement is implicit throughout the entire process. The Government intends to award without discussions/reserves the right to award without discussions. Therefore, each initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if determined necessary by the Contracting Officer.

B. Number of Contracts to be Awarded

The Government intends to select one contractor for the program. However, the Government reserves the right to award no contract at all, depending on the quality of the quotes and prices submitted and the availability of funds.

C. Rejection of Unrealistic Offers

The Government may reject any quote that is evaluated to be unrealistic in terms of program commitments, including contract terms and conditions, or unrealistically high or low in cost/price when compared to Government estimates,

such that the quote is deemed to reflect an inherent lack of competence or failure to comprehend the complexity and risks of the program.

D. Correction Potential of Quotes

The Government will consider, throughout the evaluation, the “correction potential” of any deficiency or quote inadequacy. The judgment of such “correction potential” is within the sole discretion of the Government. If an aspect of an offeror’s quote not meeting the Government’s requirements is not considered correctable, the offeror may be eliminated from the competitive range.

PRE-AWARD SURVEY

The Government may conduct a pre-award survey (PAS) as part of this source selection. Results of the PAS (if conducted) will be evaluated to determine each offeror’s capability to meet the requirements of the solicitation.

PLANT VISITS

In the event discussions are necessary, plant visits may be conducted during the evaluation phase to develop knowledge for judging the potential for correction of the deficiencies.

SOLICITATION REQUIREMENTS, TERMS AND CONDITIONS

Offerors are required to meet all solicitation requirements; such as terms and conditions, representations and certifications, and technical requirements, in addition to those identified as factors, subfactors to be eligible for award. Any aspect of the quote judged to be unacceptable would render the entire quote unacceptable. Failure to comply with the terms and conditions of the solicitation may result in the offeror being removed from consideration for award. Any exceptions to the solicitation’s terms and conditions must be fully explained and justified.

EVALUATION CRITERIA FOR AWARD

(IAW FAR 13.106-2(b), 14.201-5(c), and 15.204-5(c))

For the purposes of award, offers will be evaluated for acceptability of evaluation factors described below:

FACTOR 1: Technical

FACTOR 2: Cost/Price

FACTOR 3: Past Performance

Order of Importance

For this solicitation, technical acceptability is a prerequisite to the best value analysis and potential trade-off between Price and Past Performance. The Order of importance is used to explain how the other factors will be traded off on technically acceptable quotes.

For all technically acceptable quotes, Factor 2 (Cost/Price) will be evaluated on a basis approximately equal to Factor 3 (Past Performance). Tradeoffs may only be made between price and past performance among those offerors who have been determined technically acceptable.

b. Evaluation Methodology

All quotes will first be evaluated for technical acceptability. Second, price and past performance will be evaluated. A decision will then be made as to which quote provides the best value to the Government.

c. Technical Factor

Technical quotes are not required. Technical acceptability will be determined based on the offerors compliance with the requirement as stated in Section B Schedule and/or any referenced specifications, engineering notes and all other attachments herein.

The delivery schedule will be evaluated based on the dates established in Section B of the solicitation. It should be noted that the Government’s required delivery is based on the Requirements’ need date and may not be attainable. Therefore, if a quoted delivery does not meet the Government’s required delivery, the quoted delivery may be considered responsive.

Qualification Requirements must be met IAW Clause 52.209-1, “QUALIFICATION REQUIREMENTS (FEB 1995)” prior to award. Contract award will not be delayed to allow an offeror completion of qualification requirements/process. Technical acceptability will be ascertained based on one of the ratings described below. Quotes will be evaluated for compliance with

solicitation; receipt of a responsive quote to deliver the supplies in accordance with the solicitation and all other attachments herein.

Acceptable – The quote meets specified minimum requirements necessary for acceptable contract performance.

Unacceptable – The quote fails to meet specified minimum requirements necessary for contract performance. Quotes with an unacceptable rating are not awardable.

d. Cost/Price Factor (IAW 5315.305(a)(1))

(1) The offeror's cost/price quote will be evaluated for award purposes by multiplying the quoted unit price by the total quantity. The quantity utilized for evaluation will be based on the firm quantity incorporated in Schedule B.

(2) Unrealistically low quoted costs or prices, initially or subsequently, may be grounds for eliminating a quote from competition either on the bases that the offeror does not understand the requirement or the offeror has made an unrealistic quote.

(3) Offerors are cautioned against submitting an offer that contains unbalanced pricing. Unbalanced pricing may increase performance risk and could result in payment of unreasonably high prices. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly over or understated as indicated by the application of cost or price analysis techniques. The Government shall analyze offers to determine whether they are unbalanced with respect to separately priced line items or subline items. Offers that are determined to be unbalanced may be rejected if the contracting officer determines that the lack of balance poses an unacceptable risk to the government.

(4) Cost/price quotes submitted by vendors shall be evaluated by multiplying the quoted unit price by the quantity desired by the Government to determine the contractor's total price.

The contractor's quote for the quantities under CLIN 0001 is the price factor that will be used in evaluation. Evaluation of award will be based on the quoted unit price multiplied by the required quantity.

(5) If incidental or miscellaneous expenses not related to specific CLIN structure accompany vendor quotes, these charges shall be added to the total CLIN cost/price to reach the final total cost/price quoted to the Government. In addition, 'Price Analysis' shall be conducted in accordance with FAR 15.404-1, to determine 'Reasonableness' on all offers submitted by vendors.

*Unrealistically low costs/prices quoted, either initially or subsequently, may be grounds for elimination of an offer from the competition and shall be based upon the vendor not understanding requirements or because an unrealistic quote was submitted.

e. Past Performance Factor

The Past Performance Evaluation is accomplished by reviewing aspects of an offeror's (1) relevant past performance and (2) recent past performance, focusing on and targeting performance, which is relevant to the technical requirement. In determining relevance, consideration will be given to the likeliness and similarity of the effort to include contract scope, contract type, and contract schedule. This information may include data on parts manufactured by other divisions, critical subcontractors, or teaming contractors, if such resources significantly influence the quoted requirement. The Government may consider relevant work as those performed for agencies of the federal, state, or local governments and commercial customers. Where relevant performance record indicates performance problems, the Government will consider the number and severity of the problems and the appropriateness and effectiveness of any corrective actions taken (not just planned or promised). The Government may review more recent contracts or performance evaluations to ensure corrective actions have been implemented and to evaluate their effectiveness.

The Government will evaluate the offeror's past performance by reviewing the offeror's record of supplying products that comply with contract requirements, including cost and schedule. Under the Past Performance factor, a Performance Confidence Assessment Rating represents the evaluation of an offeror's present and past work record to assess the Government's confidence in the offeror's probability of successfully performing as quoted. The offeror is not required to provide Past Performance information. Past performance information will be determined primarily based on the offeror's "Supplier Risk Score" in the Supplier Performance Risk System (SPRS) at the time of the close of the solicitation period. Past performance may also be obtained through the contractor Performance

Assessment Reporting System (CPARS), similarly systems of other Government departments and agencies (MOCAS, etc), questionnaires tailored to the circumstances of this acquisition, Defense Contract Management Agency (DCMA) channels, interviews with program managers and contracting officers, and other sources known to the Government, including commercial sources.

Each offeror will receive an integrated Performance Confidence Assessment rating, which is the rating for the Past Performance factor. Although the past performance evaluation focuses on performance that is recent and relevant to the technical requirement, the resulting Performance Confidence Assessment is made at the factor level and represents an overall evaluation of contractor performance. The Past Performance factor will receive one of the following performance confidence assessment ratings IAW the Department of Defense (DoD) Source Selection Procedures.

Rating	Description
SATISFACTORY CONFIDENCE	Based on the offeror's recent/relevant performance record, the Government has a reasonable expectation that the offeror will successfully perform the required effort.
NEUTRAL CONFIDENCE	No recent/relevant performance record is available or the offeror's performance record is so sparse that no meaningful confidence assessment rating can be reasonably assigned. The offeror may not be evaluated favorably or unfavorably on the factor of past performance.
LIMITED CONFIDENCE	Based on the offeror's recent/relevant performance record, the Government has a low expectation that the offeror will successfully perform the required effort.
NO CONFIDENCE	Based on the offeror's recent/relevant performance record, the Government has no expectation that the offeror will be able to successfully perform the required effort.

Note: With regards to the best value award decision, all offerors receiving the same past performance rating will be considered equal for the Past Performance Factor.

Offerors without a record of relevant past performance or for whom information on past performance is not available will not be evaluated favorably or unfavorably on past performance and, as a result, will receive a "Neutral confidence" rating for the Past Performance factor. In the context of acceptability/unacceptability, a neutral rating shall be considered "acceptable."

Offerors with adverse past performance information to which they have not previously had an opportunity to respond will be given the opportunity to provide clarifications concerning the adverse information.

E. Discussions

It is the Government's intent to award without discussions, therefore, it is imperative that offeror's submit their best terms initially. However, if during the evaluation period, it is determined to be in the best interest of the Government to hold discussions, offeror responses to Evaluation Notices (ENs), and the Final Quote Revisions (FPRs) will be considered in making the source selection decision.

PACKAGING REQUIREMENTS																		
PURCHASE INSTRUMENT NUMBER: FD20302500943-00												VERSION: 1						
MIL-STD 129 REVISION: R												MIL-STD 2073-1 REVISION: E

MANUFACTURE QUALIFICATION REQUIREMENTS (MQR) FOR PROPULSION CRITICAL SAFETY ITEMS (CSI) & CRITICAL APPLICATION ITEMS (CAI)

WARNING: This Qualification Requirement (QR) does not apply to any items with an Acquisition Method Suffix Code (AMSC) of G, A, B, H, L, U or Y. AFLCMC/LPS Engineering Support Activity (ESA) must obtain a waiver for these items, except for G coded items, from the appropriate authorization office, AFLCMC/LPS or AFSC/PK, depending upon the item criticality.

1. APPLICATION. This QR applies to CSI and CAI with an AMSC code of C, D, K, M, N, P, Q, R, S, V and Z. This QR does not apply to items with an AMSC of G, A, B, H, L, U and Y.

1.1. The intent of this QR is to meet the Operational Safety, Suitability and Effectiveness (OSS&E) requirement, while maximizing competition and complying with AFMCI 23-113, Pre-Award Qualification of New or Additional Parts Sources and the Use of the Source Approval Request (SAR) and the Joint Aeronautical Commander's Group Aviation Sources Approval and Management (SAM) Handbook.

1.2. This QR sets Qualification Waiver, SAR and Source Resubstantiation Request (SRR) requirements.

2. SCOPE.

2.1. This QR establishes the minimum technical requirements, which Potential Sources (PS) must satisfy in order to obtain ESA approval to manufacture propulsion items for the specific applications.

2.2. The PS may qualify for a number of waivers. The waiver conditions are defined in section 7. PS should submit a waiver request when one of the waiver conditions applies.

2.3. If the PS does not qualify for any of the waivers, then the PS must submit a SAR package. The SAR requirements are defined in section 8.

2.4. Approved sources shall submit SRR packages prior to expiration of the current approval period or when any significant changes to ownership, address, process sequence, process parameters, technical data, Sub-Tier Supplier (STS) and/or significant quality deficiencies occur. The re-substantiation requirements are defined in section 9.

2.4.1. Significant changes, as defined in FAR 9.207, or unresolved quality deficiencies may result in additional testing, or revocation of source approval status, depending on the nature and extent of the changes and/or quality deficiencies.

2.4.2. If an SRR is not submitted prior to the expiration date or after significant changes have occurred, the associated CAGE shall be removed from the approved sources listing.

2.5. ESA source approval expiration is defined in section 12.

3. CONTRACTOR RESPONSIBILITY STANDARDS (FAR 9.104).

- 3.1. PS must submit a complete waiver request or SAR data package as defined per the category selected.
- 3.2. General standards as specified in FAR 9.104-1 apply.
- 3.3. Special standards as specified in FAR 9.104-2 apply.
- 3.4. Certification Regarding Responsibility Matters as specified in FAR 9.105-1 apply.
- 3.5. Qualifications Requirements as specified in FAR 9.2 apply.
- 3.6. Higher-Level Contract Quality Requirement as specified in FAR 52.246-11 apply.

4. POTENTIAL SOURCE SUBMITTAL DETERMINATION.

4.1. The forecasts contained on the Requirement Projections on the Web (RPOW) through the Strategic Alternate Sourcing Program Office (SASPO) website may or may not generate due to variability in customer demands and priorities. The forecast data is for planning purposes only and does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase the described items.

4.2. The PS should consider submitting a SAR package for evaluation after considering the following:

4.2.1. Has the United States Air Force (USAF) listed a requirement in the Federal Business Opportunities (FEDBIZOPPs) at www.fbo.gov or the RPOW through SASPO's website (<http://www.tinker.af.mil/Home/429SMCSSASPO>)?

4.2.2. Has the procurement history for the item been researched and determined to be active?

4.2.3. Has the PS established that they can conduct business with the Government?

4.3. Technical Data Request.

4.3.1. Requests Related to Procurement Announcements. Request should be submitted to the announcing Contracting Officer and specify the solicitation, specific drawing(s) and specification(s) for verification and authorization of requested data on company letter head. The PS must provide an approved DD Form 2345.

4.3.2. Requests Related to SAR Package Approval –The PS must provide a justification letter identifying specific drawing(s) and specification(s) on company letter head to the Tinker Engineering Drawing Public Sales. The PS must provide an approved DD Form 2345.

4.3.2.1. SAR Data Request can be submitted via Mail to:

AFLCMC/LZPES
Tinker Engineering Drawing Public Sales
3001 Staff Drive, Suite 1AB82A
Tinker AFB, OK 73145
Phone: 405-736-4402

4.3.2.2. SAR Data Requests can be submitted via Email to:

OCALC.LGLDO.PUBLIC@US.AF.MIL

4.4. Small Business office (SBO) contact information can be found at www.tinker.af.mil/sbo.asp and the SASPO contact information can be found at www.tinker.af.mil/429scms.saspo, along with other helpful tips.

5. SAR, WAIVER, OR RE-SUBSTANTIATION FORMAT. All financial data must be redacted from all documents submitted.

5.1. SAR(s), WAIVER(s), OR RE-SUBSTANTIATION(s) packages can be submitted in one of three ways:

5.1.1. The packages can be submitted in a 3 ring binder. The three-ring binder or a similar product will contain a table of contents and 21 A-U element tabs. This will significantly reduce the turn-around time for engineering evaluation as well as reduce the likelihood of oversight or loss of valuable data that could have a significant bearing on the outcome of the evaluation.

5.1.2. The package can be submitted on a Compact Disc (CD) in a .pdf file format. The package can be a single .pdf file with index to each element or a series of folders for each element.

5.1.3. The package can be a combination of the physical paper and CD with .pdf files.

5.2. The documentation should follow the MQR call out order. Quality Manual and supporting documentation can be submitted on a CD in .pdf file format. All CDs should be scanned for viruses prior to submitting the documentation.

5.3. A table of contents is required for both physical paper and electronic submittal.

5.4. Each package will have the required tabs. If an element is not required by the category selected, it must be labeled and the PS must state that the element does not apply.

6. USE OF PROPRIETARY DATA IN SOURCE APPROVAL REQUESTS. PSs are not to utilize intellectual property (IP) of any third parties without appropriate authorization of the IP owner. The PSs are cautioned that no part of the government QR is intended to endorse or encourage the improper use of IP developed by the Original Equipment Manufacturer (OEM) or any other third party.

7. QUALIFICATION WAIVER REQUIREMENTS. All required waiver elements are listed in Table 1 and defined in section 8.

7.1. QUALIFICATION WAIVER REQUEST DETERMINATION. The PS may apply for a waiver for part of the qualification requirements, if any of the following Source Qualification Waiver Criteria (QWC) apply.

7.1.1. QWC1: The PS submits written certification that the articles have been supplied within three (3) years for CSI or within seven (7) years for CAI to the DOD or OEM (e.g., DD Form 250, Material Inspection and Receiving Report, Purchase Order, invoice, e.g.). This waiver condition will be used to meet the AFI 20-106 waiver conditions.

7.1.2. QWC2: The PS is qualified on the right-hand article and requests to be qualified on the left-hand article. If the right-hand and left-hand articles are mirror images of each other, then approval can generally be given.

7.1.3. QWC3: A source qualified to provide an assembly is usually qualified to provide subassemblies, major components and items of that assembly. Applies only if all the manufacturing or repair for subcomponents is conducted in-house and elements G, H, K L and M were provided during the qualification of the assembly.

7.1.4. QWC4: A source qualified to provide earlier dash numbers of a basic P/N may be qualified to provide other dash numbers of that same basic P/N, provided there is no increase in complexity, criticality or other relevant requirements.

7.1.5. QWC5: Does not Apply, PS must submit SAR CAT II.

7.1.6. QWC6: A previously qualified source, which has been purchased, sold, merged, absorbed, reformed, split, etc., may qualify, if it can be established that the qualification is currently with the PS and that the PS has the same or equivalent facilities, tooling, equipment, personnel and utilizes the original forging, castings, etc., in the manufacturing process.

7.1.7. QWC7: Other.

7.1.7.1. The PS will provide a cover letter detailing the specifics of how the waiver category applies.

7.1.7.2. SBO will forward the request to the ESA, who will determine if the QWC7 applies. If it is determined that the QWC7 applies, the ESA will specify the elements required for the waiver and the submitter will provide the required data.

7.1.8. If the waiver is granted and the offeror is awarded a contract, the offeror may be required to undergo First Article Testing (FAT) to verify production capability.

7.2. QUALIFICATION WAIVER REQUEST (QWR) REQUIREMENTS. QWC elements are listed in Table 1 and defined in section 8. The CSI production documentation will be frozen, after the ESA has granted approval or after the FAT is completed, if required. Filled in block designates a mandatory requirement.

Table 1. Qualification Waiver Request Requirements

8. SOURCE APPROVAL REQUEST REQUIREMENTS. SAR elements are listed in Table 2 and defined below.

8.1. SAR Categories Determination. There are three (3) SAR categories and three (3) formats:

8.1.1. ACTUAL ITEM (Category I). This category covers PSs who manufacture the exact (Subject) item, using OEM technical data, for the prime contractor, OEM, another service, civil agencies, foreign governments or for the civil sector under Federal Aviation Administration (FAA). Category applies to CSI and CAI. The item will be manufactured and evaluated against the ESA approved technical data.

8.1.2. SIMILAR ITEM (Category II). This category covers the PSs who have not previously manufactured the subject item, but have manufactured other items similar in complexity, design, criticality, industrial processes, materials and application for the prime contractor, OEM, another service, civil agencies, foreign governments or for the civil sector under FAA. Category applies to CSI and CAI. The item will be manufactured and evaluated against the ESA approved technical data.

8.1.3. NEW MANUFACTURER OF ITEM (Category III). This category covers the PSs, who do not meet Category I or II criteria, but have the legal access to the OEM's technical data and intends to manufacture to the ESA approved technical data with the same part number. Category applies to CAI only, and **cannot** be used for CSI. The item will be manufactured and evaluated against the ESA approved technical data.

NOTE: Category IV (REVERSE ENGINEERING) SARs as defined by AFMCI 23-113 are NOT covered by this QR document. The ESA will direct sources when a need arises for reverse engineered components and will provide relevant requirements at that time. CAT IV SARs submitted under this QR will not be evaluated by the ESA.

8.2. SAR Format Determination.

8.2.1. If multiple SAR packages are to be submitted within a three month period, then the PS can submit one Master SAR (MSAR) package and a series of SAR lite packages for each additional output NSN that is submitted.

8.2.2. MSAR Package is the same as individual SAR packages.

8.2.2.1. The MSAR must be constructed in a manner that allows for the reduction of data in SAR lites by including all part numbers or providing an enterprise point of view.

8.2.2.2. The MSAR should be the most complex of parts within the set of parts that will be submitted.

8.2.3. SAR lite packages. The SAR lite packages must be submitted within three months of the MSAR submittal.

8.2.3.1. The SAR lite package will only contain the unique part data for each additional NSN.

8.2.3.2. Each SAR lite package cover letter will reference the MSAR.

8.2.4. ASSEMBLY SAR PACKAGE REQUIREMENTS. The PS may submit a SAR package for an assembly that is separable into multiple procurable items, such as a whole engine or an engine module, using the following format. Required assembly elements are defined in Table 2.

8.2.4.1. HIGHEST LEVEL ASSEMBLY (HLA). The assembly SAR package must contain a Master SAR for the highest level assembly.

8.2.4.1.1 The HLA Master SAR must contain a matrix of all embedded parts with assigned significant Industrial processes (Appendix B) along with certifications used throughout the assembly. Methods of certification include, but are not limited to, NADCAP, OEM, DOD (Air Force, DCMA, Navy, or Army certification and/or audit), or other external audit and/or certification, will be reviewed by the ESA for process control and acceptability.

8.2.4.1.2 The HLA Master SAR must contain a matrix of all embedded parts with assigned sub-tier supplier list for all embedded parts within the HLA.

8.2.4.1.3 The HLA Master SAR must contain a matrix of all embedded parts with assigned tooling list for all embedded parts within the HLA.

8.2.4.2. ASSEMBLY SAR LITE PACKAGES. A SAR lite package must be turned in for each critical safety item (CSI) embedded within the assembly. A SAR lite package must also be turned in for any embedded part that the PS desires to become an approved source. Filled in block designates a mandatory requirement.

		CAT I		CAT II		CAT III		Remarks
	CRITICALITY APPLICABILITY	CI		CI		CAI ONLY		CI – Critical Safety & Application Items

Table 2. Source Approval Request Requirements

8.3 Element A, Cover Letter. Provide a cover letter that includes the following information:

Solicitation Number (if applicable):
Contracting Officer POC (if applicable):
Engine Type:
Company Name:
Company CAGE:
Company Address:
Company Point of Contact: (Name, phone, fax and email):
Company Size: (Large or Small),
Qualification Requirement Designation and Revision: (i.e. MQR-PSD-1, Rev 1)
Qualification Waiver Criteria: (if Applicable)
SAR: (SAR, Master SAR or SARlite (Master SAR Date: _____))
Technical Data Proprietary: No, Yes or Partial (Select One)
NSN(s):
Part Number(s):
Nomenclature:
Type: (New or Distributor (New))
Submittal Category: (Cat I (Subject), Cat II (Similar) or (Cat III (New Manufacturer))
ERRC Code (if known):
SAR Package Inventory: (Paper/Binder, CDs, Electronic or sample parts).
Disposition: (Return to Vendor or Destroy)

8.3.1. For proprietary technical data, the PS must provide a statement that proprietary data or processes will be used and submit an ownership statement or a Licensing Agreement that conveys the rights to specifically use the data or process in element O.

8.3.2. PS must provide a statement that the contractor is willing to provide a technical briefing on the SAR package submittal to the procuring activity or ESA, if required.

8.3.3. PS must provide a disposal statement that directs the destruction/shredding of the submitted material or the return of the submitted material at their expense after the evaluation is complete.

8.3.3.1. If no disposal statement is provided, the SAR will be shredded, after the evaluation is complete.

8.3.3.2. If the SAR is to be returned, SBO will contact the cover letter POC to obtain the authorization shipping code or label to return the submitted material.

8.4. Element B, TECHNICAL DATA RIGHTS CERTIFICATION STATEMENT. The PS must provide a certification of rights to use technical data in the format provided in Appendix A, signed on company letterhead by an authorized binding company official, President, Owner or Facility General Manager. This certificate states the data was obtained by legal means and the company has the rights to use the data supplied in the SAR for manufacture purposes.

8.5. Element C, BROCHURE AND CORRESPONDENCE.

8.5.1. Provide a company brochure and website if available.

8.5.2. Provide a synopsis outlining the applicant firm's capabilities, experience, facilities including location, number of buildings and square footage.

8.6. Element D, QUALITY ASSURANCE DOCUMENTATION. Provide a synopsis of the proposed PS's Quality Assurance System (QAS) capabilities, reporting system and its certifications.

8.6.1. Quality Assurance System (QAS)

8.6.1.1. Provide a statement that the DOD site survey approval letter with a current expiration date has been attached in Tab Q or

8.6.1.2. Provide a copy of the PS's QAS manual and all supporting/referenced documentation. A copy of the documentation may be kept by the ESA.

8.6.2. The PS's QAS must comply with the requirements as described in this document and meet one of the following, AS9100, ISO 9001:2008, NATO AQAP-2070 or equivalent. Provide a copy of the QAS certificate with a valid expiration date.

8.6.3. Significant Industrial Process must be certified per 8.2.4.1.1. Provide a copy of Significant Industrial Process approvals, certifications, and relevant documentation for those that require certification as denoted in Appendix B.

8.7. Element E, SUBJECT ITEM TECHNICAL DATA. The subject item technical data may include references to materials, mandatory inspections, inspection intervals, processes and specifications.

Note: Before proprietary data is submitted, the PS should determine if the data is available (see section 4.3). If so, it should be submitted in place of the proprietary marked data, else a license agreement or ownership statement will be required in Element L.

8.7.1. For Government Technical Data.

8.7.1.1. If located within the United States or Canada, provide the PS's DD form 2345 with a valid expiration date, Engineering Data List (EDL) and the latest legible revision of all technical data required to clean, inspect, manufacture, assemble and test the subject item or a copy of the sales receipt detailing the data purchased.

8.7.1.2. If not located within the United States or Canada, provide a copy of the export control license, EDL, and the latest legible revision of all technical data required to clean, inspect, manufacture, assemble and test the subject item or a copy of the sales receipt detailing the data purchased.

8.7.2. For Proprietary Technical Data.

8.7.2.1. If proprietary data can be submitted, provide EDL and the latest legible revision of all technical data required to clean, inspect, manufacture, assemble and test for the subject item.

8.7.2.2. If proprietary data cannot be provided, submit a statement declaring that the data cannot be submitted and the licensing agreement or ownership statement that ensures the most current data will be used to perform the required work, EDL and a copy of the title page. The images may be redacted to only reveal the technical data number, title, revision and proprietary statement.

8.7.3. Provide a special tool statement detailing the tooling or tooling drawings availability, ownership, usage rights and state if the special tools will be leased, purchased or manufactured.

8.8. Element F, SUBJECT ITEM SPECIFICATIONS.

8.8.1. For Government available Subject specifications, provide:

8.8.1.1. For CAT I and III, Subject Item, provide a complete list of the applicable specifications identified on the subject item technical data and a copy of the title page of the latest revision of each specification.

8.8.1.2. For CAT II, Similar Item, provide a complete list of the applicable specifications identified on the subject and similar item(s) technical data and a copy of the title page of the latest revision of each specification.

8.8.2. For Proprietary, OEM or Prime Subject Specifications, provide:

8.8.2.1. For CAT I and III, Subject Item, provide a complete list of the applicable specifications identified on the subject item technical data and a copy of the title page of the latest revision of each specification. The images may be redacted to reveal the Specification Number, Title, Revision and proprietary statement.

8.8.2.2. For CAT II, Similar Item, provide a complete list of the applicable specifications identified on the subject and similar item(s) technical data and a copy of the title page of the latest revision of each specification. The images may be redacted to reveal the Specification Number, Title, Revision and proprietary statement.

8.8.3. For PS or Internal specifications, identify the commercial or government equivalent specification (if known/available) and provide a copy of the latest revision of each specification.

8.9. Element G, SUB-TIER SUPPLIER (STS) INFORMATION. Significant Industrial Processes approval/certification is required for those processes denoted in Appendix B. AS9100, ISO 9001:2008, NATO AQAP-2070 or equivalent is required for all STS used to perform work on CSIs and CAIs. Provide a matrix, figure 1, with the CAGE, STS Name, Specification/Process, certification/approval date, ISO 9001:2008, and AS 9100 or equivalent for all STSs. Please select all that apply.

G. SUB-TIER SUPPLIER (STS) (SUB-VENDOR) INFORMATION:					Yes	No	N/A
1. Are STS used for manufacture or repair?					☐	☐	☐
2. If STS are used for manufacture or repair, enter data below (all that apply):					Certifications or Approval (Expiration Date)		
CAGE	STS Name	Specification/Process	Prime/ OEM	DOD	NADCAP	AS9100	ISO 9001:2008+

Figure 1. Sub-Tier Supplier Qualifications

8.9.1. For raw material STS, provide CAGE, STS Name and material specification/process only.

8.9.2. For STS(s) of castings or forgings, substantiate that the source(s) are currently OEM or DOD approved. If not approved by the OEM or DOD provide a rationale proving to the ESA that the casting or forging source is capable of manufacturing the replacement part to the established OEM or DOD quality standards.

8.9.3. For laboratory testing STS, provide CAGE, STS Name, specification/process, ISO/IEC 17025 or NADCAP certification only.

8.9.4. Provide copies of the current certificates or approval letter(s) and all conditions and restrictions imposed for the significant industrial processes with the expiration date highlighted.

8.9.4.1. It should be noted that ESA may specify additional testing.

8.9.4.2. If the approval does not have a defined expiration date, enter IND for indefinite.

8.9.5. Provide a copy of ISO 9001:2008, AS9100, or equivalent certifications for the STS used to perform work on Critical Items.

8.9.6. Provide a copy of NDI Level III certificate for all certified employees for all NDI Methods for the PS or/and STS.

8.9.7. For assemblies, identify all sub-assembly component sources. All Critical Item sub-components must only be supplied by government approved suppliers.

8.9.8. For STS providing proprietary industrial process support, provide a letter of support, capability and an expiration date.

8.10. Element H, QUALITY HISTORY.

Note: Nonconformance is not necessarily perceived as an increase in risk when considering alternate source qualification. In fact, identification of nonconformance can illustrate a successful quality assurance program.

8.10.1. If the PS and STS facilities have not experienced any quality deficiencies within the last three (3) years, provide a statement stating such.

8.10.2. Else, provide a PS and all STS quality history summary of Deficiency Reports experienced for the three (3) years including but not limited to, internal deficiencies, commercial deficiencies, FAA Service Bulletins, MRB actions, Quality Deficiency Reports (QDR), Laboratory Quality Review Orders (LQRO), Offeror Report of Nonconformance (ORON), Supplier Report of Nonconformance (SRON), Material Deficiency Reports (MDR), statistical reports of nonconformance and nonconforming material rejection reports for the subject and/or similar item(s).

8.10.2.1. The Company President, Facility General Manager or the Quality Assurance Manager must coordinate on the summary. If the government source inspections were conducted, the Government Quality Assurance Representative will coordinate on the summary.

8.10.2.2. The summary will include the following data: P/N, Nomenclature, feature, deficiency, quantity, date and corrective action. It can be provided for the entire company or the specific part number or NSN.

8.10.3. Provide all corrective action requests and corrective action plans or resolutions for identified deficiencies.

8.10.4. Provide the PS's and the STS's scrap rates.

8.11. Element I, SIMILAR ITEM TECHNICAL DATA. For Category II SARs Only

NOTE: This information may include repair manuals, technical orders, drawings (casting, forging, detail, assembly, source controlled, masters, airfoil data, schematics, etc.), specification, configuration (revision), parts list and Quality Assurance Document (QAD), etc. as applicable.

8.11.1. For Government Similar Item Technical Data, provide:

8.11.1.1. The similar item EDL and the front page of the all similar item technical data or a copy of the sales receipt detailing the data purchased.

8.11.1.2. If not located within the United States or Canada, provide a copy of the export control license.

8.11.2. For Proprietary Similar Item Technical Data, provide:

8.11.2.1. The similar item EDL, the latest legible revision of all drawings and specifications required to clean, inspect, manufacture, assemble and test the similar item.

8.11.2.2. If proprietary similar item data cannot be provided, submit a statement declaring that the data cannot be submitted, EDL and a copy of the title page, the licensing agreement or ownership statement ensuring the most current data was used to perform the required work. The images may be redacted to only reveal the technical data number, title, revision and proprietary statement.

8.11.3. For Non-Proprietary or Non-Government Similar Item Technical Data, provide EDL, the latest legible revision of drawings and specification required to clean, inspect, manufacture, assemble and test the similar item.

8.12. Element J, SIMILARITIES AND DIFFERENCES BETWEEN SUBJECT AND SIMILAR ITEMS.

8.12.1. For CAT II SARs Only, provide a comparison matrix identifying the specific similarities and differences in materials, coatings, design features, industrial processes, operating environment, etc. between the subject and similar item. Multiple similar items can be used to illustrate the capability necessary to perform work on the subject item.

8.12.2. For Proprietary industrial processes supported by a STS place an * next the process. Ensure Element G has a support letter for that process.

8.13. Element K, PURCHASE ORDERS AND SHIPPING DOCUMENTS. The contract performance documentation provided for CSI shall be within three (3) years and within seven (7) years for CAI, as evidenced by latest shipping document. The threshold should apply on the date the SAR is received by the Small Business Office. All financial information must be removed, else the SAR may be returned. Highlight the date on all documents in this section and ensure all items are accounted for. The data provided in this section should be from the same contract(s) as those provided in SAR Elements L and M.

8.13.1. For Cat I or II, provide copies of at least one purchase order(s), all amendments and shipping documents from the Prime/OEM, DOD, foreign government, or other commercial customers for the Subject or Similar item.

8.13.2. For Cat III, provide a statement stating no manufacture has been conducted for the Subject item.

8.13.3. If a contract was terminated, state the reason for the termination.

8.14. Element L, TRAVELERS AND PROCESS/OPERATION SHEETS (POS). The data provided in this section pertaining to the manufacture history should be from the same contract(s) as those provided in SAR Elements K and M.

Note: Travelers that may be enclosed in this section are not to be considered a replacement for detailed POS. Lack of detailed POS(s) pertaining to manufacture is cause for disapproval of the PS's SAR.

8.14.1. The subject item travelers and/or POS must have the Name, Address and CAGE for the PS on the top of every page. The following requirements must be met:

8.14.1.1. The documentation must be from the actual manufacturer.

8.14.1.2. The traveler and POS must include all part numbers that are covered by the production documentation.

8.14.1.3. The traveler must include a detailed step-by-step account of the proper sequenced procedures necessary for the manufacture.

8.14.1.4. The traveler must include the operation number, process description, location, STS Name and CAGE; software data file name, etc. necessary to control the manufacture operations and must be signed or stamped off by in-process operator and/or inspector. For Proprietary Travelers and POS, the process description may be redacted.

8.14.1.5. The traveler must track the disposition of all parts during the entire manufacture operation to include rejects and laboratory samples.

8.14.2. Any sub-vended process listed in the traveler must identify the STS by name and CAGE at each applicable operational step with clearly identified process or procedure.

8.14.3. For Category I, provide copies of the actual subject item traveler and POS used for the manufacture submitted.

8.14.4. For Category II provide copies of the actual similar item(s) manufacture traveler and POS and detailed proposed subject item traveler and POS to be used.

8.14.5. For Category III, provide the proposed subject item detailed traveler and POS sheets to be used.

8.15. Element M, MANUFACTURE PROCESS SHEETS (MPS) and INSPECTION METHOD SHEETS (IMS). The MPS and IMS should include the nomenclature, part number, characteristics inspected, special instructions, zone, tolerances and actual measurements, inspection tooling/method, frequency and inspector's stamp. MPS and IMS may be included as an integral part of the POS(s) in SAR Element L. The data provided in this section should be from the same contract(s) as those provided in SAR Elements K and L.

8.15.1. The subject item IMS or MPS must have the Name, Address and CAGE for the PS on top of every page. The following requirements must be met:

8.15.1.1. The documentation must be from the actual PS.

8.15.1.2. The IMS or MPS must include part number(s), dimensions and proper units.

8.15.1.3. The IMS or MPS must include a detailed step-by-step account of the proper sequenced procedures necessary to inspect the subject and/or similar item.

8.15.1.4. If a sampling plan is used, provide the sampling plan and the approval letter.

8.15.2. For Category I, provide the actual subject item MPS and IMS with the manufacture data. Blank Subject MPS and IMS do not meet this requirement.

8.15.3. For Category II, provide the actual similar item MPS and IMS with the manufacture data and proposed MPS and IMS for subject item. Blank similar item MPS and IMS do not meet this requirement.

8.15.4. For Category III, provide proposed detailed MPS and IMS for subject item.

8.16. Element N, PRIME/OEM CONTRACTOR'S QUALITY RATING SYSTEM REPORT.

8.16.1. If the company has not manufactured the item(s) for a Prime/OEM and thus no quality rating is available, provide a statement stating that no quality rating is available.

8.16.2. Provide the PS's quality system report or rating from the Prime/OEM responsible for the subject item. If no rating is available for the subject part from Prime /OEM, provide alternate quality ratings from another prime contractor, OEM and/or commercial customer.

8.17. Element O, LICENSEE AGREEMENT (If applicable).

8.17.1. If there is no proprietary data or process used, provide a statement stating as such.

8.17.2. For an item with an AMSC Code of V or where proprietary data is used, provide an ownership statement or a copy of the licensee agreement between the PS and the data owner.

8.17.2.1. If an ownership statement or a copy of the entire licensee agreement cannot be provided, at a minimum provide a redacted portion showing the details of Material Review Board (MRB) activity, data rights, configuration control, source control, etc.

8.17.3. If a STS will be supporting a proprietary process, the PS will provide a letter of support from the STS. The letter should state the duration of the proprietary process support, availability and capacity.

8.18. Element P, VALUE ADDED (By Prime OR OEM).

8.18.1. If there is no Prime/OEM value added, provide a statement stating as such.

8.18.2. Provide a statement identifying any value added provided by the Prime, OEM or any Proprietary Industrial Process STS in the manufacture of the subject or similar item(s).

8.19. Element Q, GOVERNMENT/PRIME CONTRACTOR SURVEYS. This section can include any available DOD technical evaluations of the PS's manufacture capability, quality assurance procedures, industrial resources, material purchasing and STS controls.

8.19.1. If no onsite inspection, site survey or self-assessment has been performed within the last seven (7) years, provide a statement stating as such.

8.19.2. If applicable, provide a copy of the latest onsite inspection, site survey, self-assessment (survey, findings and corrective actions) or DOD site survey acceptance letter performed within the past seven (7) years.

8.20. Element R, PRE-QUALIFICATION TEST PLANS. Not Applicable.

8.21. Element S, TEST RESULTS. Not Applicable.

8.22. Element T, MASTER TOOLING CERTIFICATIONS.

8.22.1. Provide a list for all equipment/tooling requiring calibration to include the part number, serial number, location and date of calibration and expiration for each item.

8.22.2. If no master tooling is required, provide a statement stating as such.

8.22.3. Provide certification of access to and the right to use any required master tooling, special tooling/test equipment, Mylars (stable base drawings), glass layout, and loft data/contour data as applicable to the latest item technical data or drawing required for manufacture.

8.23. Element U, GOVERNMENT QUALITY ASSURANCE COMPLIANCE. Provide a statement that the PS will comply with all government imposed quality assurance provisions, testing requirements, etc. as identified in the solicitation or contract for the subject item.

NOTE: Elements V-Z Left Blank Intentionally

8.24. Element AA, ESA/OEM APPROVAL LETTER. Provide a copy of the ESA/OEM approval letter or certificate with the expiration or issuance date circled.

8.25. Element AB, NOVATION LETTER. Provide a copy of the novation letter submitted to the PCO for the given NSN.

9. SOURCE RESUBSTANTIATION REQUEST (SRR). Only Approved Source that have produced CSI within three (3) years or CAI within seven (7) years can submit a SRR. SRR elements are listed in Table 3 and defined in section 8.

9.1. SRR DETERMINATION.

9.1.1. SRR packages can be requested for two different types of sources, producing and qualified.

9.1.2. Producing Sources

9.1.2.1. A producing source is defined as an approved source that has been on a contract with the USAF. If a source is currently producing and delivering for the USAF, there is no need for resubstantiation.

9.1.2.2. If a source stops production and within three (3) years for CSI or seven (7) years for CAI from the last time the item was produced by that source, the source may resubstantiate. If a PS lapses past this timeframe, a full SAR submittal will be required for approval.

9.1.2.3. The ESA may request resubstantiation of producing sources if any of the criteria listed in Section 14 of this document are observed.

9.1.3. Qualified Sources

9.1.3.1. A qualified source is defined as an approved source that has not delivered the subject item(s) to the USAF.

9.1.3.2. A qualified source may resubstantiate within three (3) years for CSI and seven (7) years for CAI from the time of qualification. If a PS lapses past this timeframe, a full SAR submittal will be required for approval.

9.2. SRR Requirements. SRR elements are listed in Table 3 and defined in section 8. Filled in block designates a mandatory requirement.

ELEMENT	SOURCE RESUBSTANTIATION REQUEST	SRR DOCS	REMARKS
A	COVER LETTER	■	
B	TECHNICAL DATA RIGHTS CERTIFICATION STATEMENT (CRITICAL)	□	Include all NSN and PN
C	BROCHURE & CORRESPONDENCE	□	
D	QUALITY ASSURANCE DOCUMENTATION	□*	*Site Survey meets requirement
E	SUBJECT ITEM TECHNICAL DATA	□	For all NSN and PN.
F	SUBJECT ITEM SPECIFICATIONS	□	For all NSN and PN.
G	SUB-TIER SUPPLIER LIST (FROZEN FOR CSI)	■	
H	QUALITY HISTORY	■	Include all NSN and PN.
K	PURCHASE ORDERS & SHIPPING DOCUMENTS	□	Per cognizant engineering request
L	TRAVELERS & PROCESS/OPERATIONS SHEETS (POS) (FROZEN FOR CSI)	■	
M	MANUFACTURE PROCESS SHEETS AND/OR INSPECTION METHOD SHEETS (IMS) (FROZEN FOR CSI)	■	

N	PRIME CONTRACTOR'S QUALITY RATING SYSTEM REPORT	☐	Only submit once for all the SARs.
O	LICENSEE AGREEMENT (IF APPLICABLE)	☐	Include all NSN and PN.
P	VALUE ADDED (BY PRIME OR OEM)	☐	For all NSN and PN. Only submit once for all the SARs.
Q	GOVERNMENT/PRIME CONTRACTOR SURVEYS	☐	Submit once per CAGE.
T	MASTER TOOLING CERTIFICATIONS	☒	
U	GOVERNMENT QUALITY ASSURANCE COMPLIANCE	☐	Include all NSN and PN.
☐ The ESA may request additional data on SRRs; required within three (3) working days from ESA request. See Section 11.2			

Table 3. Source Resubstantiation Request Package Requirements

10. WAIVER, SAR or SRR SUBMITTALS. Waiver, SARs or SRR packages should be submitted to:

10.1. AFSC/SB

Staff Drive, Ste 1AG85A
Tinker AFB, OK 73145-3009

10.2. If in Solicitation:

AFSC/SB
Solicitation Number: (Solicitation Number)
Staff Drive, Ste 1AG85A
Tinker AFB, OK 73145-3009

10.3. The PS shall retain the SAR package or a copy until the approval expires.

11. SAR, WAIVER AND RESUBSTANTIATION EVALUATION.

11.1. The ESA will evaluate the approval request, SAR, Waiver or Resubstantiation packages, submitted using the LPS Form 815 (815), Propulsion Sustainment Directorate Source Request Review. The ESA will tailor the 815 to the type of approval request and category identified in the approval request package. ESA will scan all CD(s) for viruses prior to inserting them into the assigned government computer system.

NOTE: A public release copy of the 815 can be found on the following site: <http://www.tinker.af.mil/429scms.saspo/index.asp>. The 815 can be modified by the ESA in accordance with the established QR.

11.2. The ESA will identify any issues, missing data or discrepancies, found during the evaluation of the approval request package. The ESA will provide the PS a list of issues that need to be resolved.

11.2.1. The PS will be given three (3) working days or an agreed upon time frame to provide either the data required to eliminate the issues identified or provide a date the data will be submitted.

11.2.2. If the PS provides a Data Submission Date (DSD), then the ESA will determine if the established deadline allows for the approval request package to sit in abeyance until

the DSD. If the DSD is acceptable, the ESA will continue the evaluation once the data is provided within the set DSD. If the DSD is not met, then ESA will complete the evaluation and forward a disapproval letter. The PS will be encouraged to resubmit the SAR, waiver or RSS package once all identified issues have been resolved.

11.2.3. If the PS provides the required data, the ESA will complete the evaluation. If the issues were not resolved, the ESA will forward a disapproval letter with a list of issues that need to be resolved. If the issues were resolved, the ESA will approve the approval request package and inform AFSC/SB of the results.

11.3. If the ESA evaluation determines that the approval request package met the requirements established in the QR, then the ESA will approve the source and update the approved source list.

11.4. All transactions required to evaluate the approval request will be documented on the 815. All necessary artifacts will be recorded on the 815 and retained in an ESA designated information system.

11.5. Once all the approval request requirements have been met, the ESA will issue an approval letter with expiration date in accordance with section 12.

12. SAR, WAIVER AND RESUBSTANTIATION APPROVAL DURATION. ESA source approval expiration is defined Table 4. The expiration date will be based on the date affixed on the Propulsion ESA approval letter.

APPROVAL DURATION MATRIX		
Criticality	Approval Duration	Reference
CSI	Three (3) Years	AFI 20-106
CAI	Seven (7) Years	AFMCI 23-113/SAM

Table 4. Propulsion approval duration

13. Self-Assessment Checklist (SAC) and Site Survey Checklist (SSC). The ESA may require a SAC and then a SSC, after determining if one has been conducted by the USAF or another Military Service.

13.1. SAC. The SAC is similar to the Site Survey checklist found in the SAM.

13.1.1. The ESA will forward the SAC to the PS with a 30 day deadline.

13.1.2. The PS will provide a completed SAC to the ESA with all the artifacts required to demonstrate compliance.

13.1.3. The ESA will review the SAC and determine if a follow-on site survey is required.

13.2. SSC. The SSC will use the SAC submitted by the PS to conduct a site survey of the PS facility. The primary focus of the site survey will be to resolve any issues that were discovered during the SAC. The site survey duration will be between one to three days.

14. LOSS OF QUALIFICATION APPROVAL. The PS should be aware that qualification approval may be lost per the conditions detailed in FAR Part 9.207 and the following:

14.1. Products or services, submitted for inspection or acceptance, that do not meet the requirement;

14.2. Products or services that were previously rejected and the defects were not corrected when submitted for inspection or acceptance;

14.3. An approved source fails to request resubstantiation following change of location or ownership of the plant where the product which met the qualification requirement was manufactured (see the FAR clause at 52.209-1, Qualification Requirements);

14.4. If manufacture or repair is discontinued;

14.5. A condition of meeting the qualification requirement was violated; e.g., advertising or publicity contrary to FAR part 9.204(h)(5);

14.6. A revised specification imposes a new qualification requirement;

14.7. Manufacturing, design or repair changes have been incorporated in the qualification requirement;

14.8. Performance of a contract subject to a qualification requirement is otherwise unsatisfactory.

APPENDIX A
TECHNICAL DATA RIGHTS CERTIFICATION LETTER

I am an officer and employee of the above name legal entity with the responsibility for investigating the facts upon which this certification is made. To the best of my knowledge and information obtained from my recent investigation:

I certify that the technical data submitted as a part of my company's request for approval as potential source for the purpose of obtaining a contract were obtained by legal means by my company, without breach of any contractual or confidential relations pertaining to said technical data by my company, its current or recent employees; and

I certify that my company, its current or recent employees did not obtain or receive any technical data marked with a company's proprietary rights legend or a Government limited rights legend from any U.S. Government's agency or employee or other third parties that were used in the preparation of or were incorporated into the request for approval or its supporting technical data other than as described herein; and

I certify that my company has the legal right to use said technical data to manufacture/repair the below identified part for the United States Government. To the extent that said technical data are marked with a company's proprietary rights or a Government limited rights legend or are otherwise believed to be or have in the past been the proprietary data of another company, the following documents which are attached hereto and made a part of the certification have formed the basis for claiming legal right to use said technical data. Such documentation must clearly cover the data necessary for source approval.

THIS CERTIFICATION CONCERNS A MATTER WITHIN THE JURISDICTION OF AN AGENCY OF THE UNITED STATES AND THE MAKING OF A FALSE, FICTITIOUS, OR FRAUDULENT CERTIFICATION MAY RENDER THE MAKER SUBJECT TO PROSECUTION UNDER THE TITLE 18, UNITED STATES CODE, SECTION 1001.

THIS CERTIFICATION APPLIES TO:

NSN _____ P/N _____

Note: If SAR package is for multiple NSNs, all NSNs, Part Numbers, Nouns must be listed. The list can be attached to the letter.

(Signature) (Date)
(Typed or printed name & title)

This document must be signed by the Company President, Owner or Plant Manager

APPENDIX B

SIGNIFICANT INDUSTRIAL PROCESSES

The following examples are typical processes considered significant in that they are capable of producing alterations to material structures, mechanical properties and ultimately, item reliability, if performed improperly and cannot normally be evaluated without destructive testing.

#	SIGNIFICANT INDUSTRIAL PROCESSES	NADCAP
1	Casting Processes	NA
2	Forging Processes	NA
3	Other Forming Processes	NA
4	Disassembly Procedures	NA
5	Blending/Reworking	NA
6	Heat Treatment and Surface Hardening Processes	7102
7	Brazing	7102
8	Chemical Processes: Chemical Cleaning, Anodizing, Conversion/Phosphate Coatings, Paint/Dry Film Coatings, Stripping, Chemical Milling, Surface Treatment/Passivation and Etching (Nital/Pre-Penetrant/Temper/Macrostructure/Blue Etch Anodize)	7108
9	Metal Electroplating (Plating) Processes	7108
10	Coating Processes:	7109
10a	Plasma Spray	7109
10b	Wire Spray	7109
10c	HVOF	7109
10d	Diffusion Coatings	7109
11	Welding/Fusion	7110
12	Non-Destructive Inspections:	7114
12a	Visual Inspection	7130*
12b	Fluorescent Penetrant	7114
12c	Magnetic Particle	7114
12d	Eddy Current	7114
12e	Ultrasonic	7114
12f	Radiography	7114
12g	Laser Holography	NA
13	Electrochemical Machining Processes (Cavity Sinking, Drilling, Grinding, etc.)	7116
14	Electro-Discharge Machining	7116
15	Electro-Stream Drilling	7116
16	Laser Beam Metal Removal Processes	7116
17	Electron Beam Processes	7116
18	Blasting Processes:	NA
18a	Aluminum Oxide	NA
18b	Silicon Carbide	NA
18c	Plastic Bead	NA
18d	Glass Bead	NA
19	Peening Processes	7117
20	Soldering	7120
21	Broaching	7126
22	Grinding	7126
23	Drilling, Reaming and Boring	7126
24	Milling	7126
25	Finish Turning	7126
26	Surface Finishing Processes:	NA
26a	Honing	NA
26b	Sutton Barrel	NA
27	Dimensional Inspection/Tolerancing	7130
28	Water-Jet Stripping	NA
29	Assembly Procedures	NA

APPENDIX C DEFINITIONS

Actual Manufacturer – An individual, activity, or organization that performs the physical material fabrication processes that produce the deliverable part or other items of supply for the Government. The actual manufacturer must produce the part in-house and may or may not be the design control activity.

Approval Part/Item – Part/Item for which source approval is sought.

Critical Application Item – (CAI) An item, part, assembly, installation or production system that is essential to weapon system performance or operation, or the preservation of life or safety of operating personnel, as determined by the military services.

Critical Characteristic – Any feature throughout the life cycle of a Critical Item, such as dimension, tolerance, finish, material, or assembly, manufacture, manufacture or inspection process, operation, field maintenance, or depot overhaul requirement that if non-conforming, missing, or degraded may cause the failure or malfunction of the Critical Item.

Critical Safety Item (CSI) – An item, part, assembly, installation or production system with one or more critical or critical safety characteristics that, if missing or not conforming to the design data or quality requirements, would result in an unsafe condition that could cause loss or serious damage to the end item or major items, loss of control, uncommanded engine shutdown, or serious injury or death to personnel. Unsafe conditions relate to hazard severity categories I and II of MIL-STD-882, System Safety Requirements. The determining factor in CSIs is the consequence of failure, not the probability that the failure or consequence would occur.

Engineering Support Activity (ESA) – The Military Service organization assigned responsibility and authority to perform and approve engineering and quality assurance actions necessary to evolve detail design disclosures for systems, subsystems, equipment and components exhibiting attributes essential for products to meet specific military requirements. During the operational phase, it includes any engineering activity, the results of which would add to or alter the design of equipment in such a manner, or to such an extent, as to change its operational capabilities or its design attributes of performance, reliability, maintainability and parts interchangeability, or to render it capable of alternative or additional use. For the purpose of this QR, the ESA is synonymous with the Designated Air Force Single Manager for the Weapon System, Design Control Activity, the Cognizant Engineering Authority (CEA) and the USAF Propulsion Division Engineering Chief.

Fully Licensed Repair/Overhaul Facility – A repair/overhaul facility with current, formal authorization by the prime contractor or OEM to repair/overhaul CSIs on behalf of the prime contractor. To be a fully licensed repair/overhaul facility, the prime contractor must have reviewed and approved the facility's repair/overhaul processes and controls, technical documentation, quality and inspection capabilities, and item support practices. Licensing must assure that the

prime contractor shall provide technical assistance to the customer, when requested, for items, equipment, or systems repaired/overhauled by the facility under the license agreement.

Inspection Method Sheets (IMS) – document used to describe the steps involved in executing an inspection or series of inspections to include tooling, gages, fixtures, dimensions and other parameters necessary to execute the required inspections(s). Sheets must be certified by an authorized representative empowered to comply with the inspection process.

Major Characteristics – A part feature which, if non-conforming, could compromise the function of the part, resulting in a significant maintenance burden and/or reduction in weapon system performance.

Material – A general term referring to material at any stage in the manufacture/repair process.

Manufacture Process Sheets (MPS) – documents used to describe the steps involved in executing an operation or series of operations to include tooling, machinery, dimensions, speeds, feed rates, coolants, cutters, tape numbers and other operating, process and/or set-up parameters necessary to execute the operation. At a minimum, significant processes in Appendix B shall be fully defined.

National Aerospace & Defense Contractors Accreditation Program (NADCAP) – The Performance Review Institute (PRI), an independent, not-for-profit trade association affiliated with the Society of Automotive Engineers (SAE) through NADCAP, accredits subcontractors and sub-tier suppliers to aerospace and defense industry consensus standards.

NIST – National Institute of Standards and Technology.

Original Equipment Manufacturer (OEM) –An individual, activity, or organization that performs the physical fabrication processes that produce the deliverable part or other items of supply for the prime contractor and performed the original development of the subject item or assembly. The OEM must produce the part in-house. The OEM may or may not be granted design responsibility by the prime contractor for preparation and technical currency of technical data.

Potential Source – Any potential offeror who wants to be considered as a source for a given part, but who has not yet been approved/disapproved. A source of this type would normally be required to meet prequalification requirements prior to contract award and may also be subjected to production inspection or surveillance if a contract is received.

Prime Contractor – A contractor having responsibility for design and/or delivery of a system, subsystem, or equipment such as aircraft, engines, ships, tanks, vehicles, guns and missiles, ground communications and electronics systems and test equipment.

Process/Operation Sheets – Sheets used in manufacturing/repair to reflect the step-by-step process /operation used to manufacture/repair the complete item. Includes detailed shop sketches.

Production Quantities – Quantities that establish a reasonable level of confidence in a prospective source's ability to consistently produce parts whose integrity is equivalent to that exhibited by parts that originally passed substantiation testing. As a minimum it shall be considered representative of several production lots or greater quantities commensurate with those specified in current solicitations or AFSC annual buy projections and shall be exclusive of quantities produced in experimental or developmental programs.

Purchaser – The Purchaser as defined in all applicable government specifications as well as all OEM specifications relative to the part described in this document shall refer to the AFMC contracting activity issuing the procurement requirement.

Qualification Waiver Criteria (QWC) – A set of guidelines that may be used to determine if part or all of the source qualification requirements may be waived.

Raw Material – Ingot, bar, billet, or sheet stock used directly in the fabrication/manufacture/repair of the replacement part or forgings/castings used in the manufacture/repair.

Repair – Necessary preparation, fault correction, disassembly, inspection, replacement of parts, adjustment, reassembly, calibration, or tests accomplished in restoring items to serviceable status.

Repair Process Sheets (RPS) – documents used to describe the steps involved in executing an operation or series of operations to include tooling, machinery, dimensions, speeds, feed rates, coolants, cutters, tape numbers and other operating, process and/or set-up parameters necessary to execute the operation. At a minimum, significant processes in Appendix B shall be fully defined.

Significant Industrial Process – A process which is capable of producing alterations in the material structure of a part which cannot normally be evaluated without destructive testing and which can compromise the mechanical properties and ultimately the reliability of the part. Examples of processes that are considered to be significant by AFLCMC/LPS are listed in Appendix B.

Similar part - The part must be used in a proven aircraft turbofan or turbojet engine. The part must be fabricated from the same or a similar material that is equivalent or more difficult than the subject item to form and finish. The similar part must demonstrate the ability of the prospective source, in conjunction with their STSs, to perform all requisite significant manufacturing/repair processes applicable per the technical data and sub-tier specifications. Significant processes are defined in Appendix B.

Subject Item – The actual item or assembly that the PS is attempting to be qualified for by submitting a SAR, Waiver, or Resubstantiation package.

Sub-Tier Supplier (Sub-Vendor) (STS) – A source supplying material, products and/or services to the PS as required in the performance of the contract. This term applies to all facilities other than the PS's facility including those of the same company.

Technical Data – Data required for the accomplishment of logistics and engineering processes in support of the contract end item. It includes drawings, operating and maintenance instructions, provisioning information, specifications, inspection and test procedures, instruction cards and equipment placards, engineering and support analysis data, special purpose computer programs and other forms of audio visual presentation required to guide personnel in the performance of operating and support tasks.

Technical Order – A technical manual published by the Air Force containing (in this case) technical information required to develop inspection methods processes for aircraft engine parts.

Value Added By OEM – Any action, manufacture, repair or inspection process, data, instructions, or equipment that is essential to the manufacture/repair of the part, but is not documented in the data package. Examples of value added are the use of OEM qualification of sources for forgings, castings and raw materials; the use of OEM tooling, fixtures, gages or inspection master hardware; the use of OEM MPS, RPS, IMS, or other process related data not referenced on the part drawing(s); quality assurance of sub-vendors of significant processes all as related to the performance of manufacture/repair.
