**Department of the Army
Limited Source Justification
Order under
General Services Administration
Multiple Award Schedules**

1. Contracting Activity: U.S. Army Contracting Command – Rock Island (ACC-RI), Rock Island Arsenal, Rock Island, IL 61299-8000.

2. Description of Action The U.S. Army Office of the Chief Information Officer (CIO), requests a firm-fixed-price delivery order under the Department of Defense Enterprise Software Initiative (DoD ESI) Blanket Purchase Agreement (BPA) #N66001-19-A-0049, executed against General Services Administration (GSA) Federal Supply Services (FSS) Information Technology (IT) Schedule 70 contract number 47QTCA18D008L held by Gartner, Inc. This acquisition will be awarded under the authority of the multiple award schedules program. The [REDACTED] and will be fully funded with fiscal year [REDACTED] Operations and Maintenance, Army (OMA) funding. An acquisition plan is not required because this procurement does not meet the threshold at Defense Federal Acquisition Regulation Supplement 207.103-70(a)(2).

The Government did not compete the requirement prior to this action, under the authority of FAR 8.405-6(a)(1)(i)(B), as supported by Limited Source Justification (LSJ) signed by the Contracting Officer. That justification's paragraph 7, Actions to Increase Competition stated: *"On-going market research will continue to find additional companies that possess the unique capabilities to meet future IT research and advisory requirements."* Those actions were accomplished by conducting market in January 2026 to see if market conditions changed since the last procurement, which is further discussed in paragraph 8 below.

3. Description of Supplies/Services: The U.S. Army office of the CIO leads the way in executing the Army CIO and Chief Information Security Officer (CISO) duties per Army Regulation 25-2 and duties per the Federal Information Security Modernization Act (FISMA), across the entire cybersecurity spectrum. CIO's mission is to provide cybersecurity product and policy expertise, tactics, techniques, procedure expertise, technical management, supply chain risk management (SCRM), and administrative support services to support cybersecurity initiatives. CIO must maintain an accurate and complete awareness of the best operational and management practices and new technologies being used and planned in the commercial marketplace as well as the Federal Government. Therefore, in order to guide key decisions, the CIO requires access to research and advisory services focused on strategic planning, cost reduction, and understanding of cybersecurity products.

This requirement will provide Army CIO with Gartner IT Research and Advisory Services Subscriptions which will equip senior IT executives with the necessary insight, advice, and actionable recommendations to maximize the mission impacts of IT services. Gartner is a technological research and consulting firm that offers subscriptions that provide objective research, advisory, and executive support services to implement the newest ideas, best practices, and innovations in IT. [REDACTED]

4. Authority Cited: FAR 8.401(b); when placing an order against a FSS, agencies must follow the ordering procedures established by GSA and found at subpart 538.71. GSAR 538.7104-3(b)(1)(ii); Only one source is capable of providing the supplies or services required at the level of quality required because the supplies or services are unique or highly specialized.

5. Reason for Authority Cited: Gartner has been the solution for the Army's research and analytical service requirements for [REDACTED] IT spending, staffing levels project performance, and technology maturity have been benchmarked against Gartner's consistent, proprietary datasets. [REDACTED]

an invaluable longitudinal view [REDACTED] As such, [REDACTED] to track progress, identify long-term trends, and demonstrate considerable return on investment (ROI) on past initiatives. It is this unique combination of [REDACTED]

Contractor: Gartner, Inc

Supply/Service: Gartner IT Research and Advisory Services Subscription

[REDACTED] that makes Gartner the only one with the necessary breadth and depth of research coverage across all of CIO's critical IT mission.

[REDACTED]

[REDACTED]

[REDACTED] Attempting to replicate this breadth would necessitate subscribing to multiple, specialized firms, leading to siloed advice and significant administrative burdens.

[REDACTED] Furthermore, proprietary tools

[REDACTED]

For a contractor other than Gartner to be awarded a contract, it would first need to obtain a top-security facility clearance. [REDACTED] estimates this process to take [REDACTED]. Upon receiving clearance, it would take an additional [REDACTED] to award [REDACTED]. Overall, this would create a significant administrative burden as [REDACTED] would have to be issued to receive the same comprehensive services as received from Gartner. Additionally, any other contractor other than Gartner would have to [REDACTED]

[REDACTED] As such, Gartner is

the only vendor positioned to perform the required research and advisory services needed to support the Army CIOs IT and cybersecurity mission.

[REDACTED]

6. Market Research: Market Research was conducted by CIO from [REDACTED]. Market research included researching existing FSS and DoD ESI vendors and contract vehicles, research of vendor websites, and requesting information from Subject Matter Experts. As a result, [REDACTED] vendors, [REDACTED] were identified; Gartner Inc. [REDACTED] as providing licenses for "Research and Advisory Services". A technical evaluation conducted by CIO's Cybersecurity Directorate Technical High Quality Expert (HQE) is provided as follows:

[REDACTED]

Based on this market research and as described in paragraph 5 above, Gartner is the only available source that can provide the requested research and advisory services [REDACTED]

[REDACTED] to meet the Government's needs.

7. Actions to Increase Competition: CIO will continue to conduct on-going market research in an effort to find additional companies that possess the unique capabilities to meet future IT Research and Advisory requirements.
