The body of each wage determination lists the classification and wage rates that have been found to be prevailing type(s) of construction and geographic area coverage determination. The classifications are listed in an order under rate identifiers indicating whether the rate is a union rate (current union negotiated rate, a weighted union average rate, a state adopted supplemental classification rate.

Union Rate Identifiers

A four-letter identifier beginning with characters "SU", "UAVG", "SA", or "SC" denotes that a union prevailing rate for that classification in the survey. PLUM0198-005 07/01/2024. PLUM is an identifier of the local union whose collectively bargained rate prevailed in this classification, which in this example would be 0198 indicates the local union number or district number where applicable, i.e., Plumbers Local 0198 number, 005 in the example, is an internal number processing the wage determination. The date, 07/01 in the example, is the effective date of the most current rate.

Union prevailing wage rates are updated to reflect over time that are reported to WHD in the rates in the collective bargaining agreement (CBA) governing the classification.

Union Average Rate Identifiers

The UAVG identifier indicates that no single rate those classifications, but that 100% of the data r the classifications reflected union rates. EXAMPLE UAVG-OH-0010 01/01/2024. UAVG indicates that the r weighted union average rate. OH indicates the Stat The next number, 0010 in the example, is an intern used in producing the wage determination. The date in the example, indicates the date the wage determ updated to reflect the most current union average

A UAVG rate will be updated once a year, usually i reflect a weighted average of the current rates in collective bargaining agreements on which the rate

Survey Rate Identifiers

The ""SU"" identifier indicates that either a sing rate prevailed (as defined in 29 CFR 1.2) for this classification in the survey or that the rate was computing a weighted average rate based on all the reported in the survey for that classification. As average rate includes all rates reported in the su include both union and non-union rates. Example: S 6/27/2024. SU indicates the rate is a single non-u prevailing rate or a weighted average of survey da classification. FL indicates the State of Florida. year of the survey on which these classifications based. The next number, 007 in the example, is an number used in producing the wage determination. T 6/27/2024 in the example, indicates the survey com for the classifications and rates under that ident

?SU? wage rates typically remain in effect until a is conducted. However, the Wage and Hour Division discretion to update such rates under 29 CFR 1.6(c

State Adopted Rate Identifiers

The ""SA"" identifier indicates that the classific prevailing wage rates set by a state (or local) go adopted under 29 C.F.R 1.3(g)-(h). Example: SAME2 01/03/2024. SA reflects that the rates are state a refers to the State of Maine. 2023 is the year dur state completed the survey on which the listed cla and rates are based.
