

**Combined Synopsis/Solicitation
W911RZ-26-Q-A016
RNEC ABSOLYTE VRLA BATTERY CELLS BLDG. 1014**

This is a combined synopsis/solicitation for commercial services prepared in accordance with the format in FAR Subpart 12.6, as supplemented with additional information included in this notice. This announcement constitutes only solicitation.

The quotes shall refer to the solicitation number W911RZ-26-Q-A016. This solicitation document incorporated provisions and clauses that are in effect through Federal Acquisition Regulation FAC # 2026-01, dated 03/13/2026 and Defense Federal Acquisition Regulation Supplement (DFARS) Change # DFARS Change 01/01/2026.

The Mission Installation Contracting Command (MICC) - Fort Carson intends to award a Firm-Fixed-Price Contract to a total small business set-aside for the acquisition of the brand name ABSOLYTE VRLA BATTERY CELLS BLDG. 1014 at Fort Carson, Colorado. See Performance Work Statement (PWS) for details. The North American Industrial Classification System (NAICS) code for this procurement is NAICS Code: 335910, Battery Manufacturing, size standard 1250 Employees. This will be a totally small business set aside. The Product Service Code (PCS) is for Service J059 Maintenance, Repair, and Rebuilding of Equipment-Electrical and Electronic Equipment Components and for Product 6140 Batteries Rechargeable.

This contract is being solicited for: **Period of Performance for Installation from 1 September 2026 to 1 December 2026.**

Your points of contact regarding this requirement are as follows:

Contract Specialist, George Hargis at george.e.hargis.civ@army.mil

Contracting Officer, Farah Surin at farah.surin.civ@army.mil.

This solicitation will close at **10:00 AM MDT on 22 May 2026.**

Site visit recommended due to site conditions before submitting quotes.

The site visit is scheduled for **10:00 AM MDT on 18 May 2026 at Building 1014 aboard Fort Carson (See Attachment 3-Fort Carson Installation Map. Contractor's need to go to the main gate visitor center located at 6012 Nelson Blvd, Fort Carson to get a visitor pass.** All questions must be submitted no later than **10:00 AM MDT on 20 May 2026.**

The contractor shall provide all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision, and other items and non-personal services necessary to perform replacement of batteries as defined in this PWS. The contractor shall meet the standards in this contract.

Continuation of Description

Requirements

The contractor is required to conduct an on-site survey. The contractor shall provide labor, material, and personnel for dismantle and removal of existing GNB Absolyte VRLA battery cells model 100A29, modular steel tray housings, Positive +/-Negative - terminate plate, hazmat sorbent pillows, and Frame Retardant Transparent Module Cover (plexiglass) with standoff. The contractor shall remove existing Alarm/Control unit cable harness from battery cells system, place aside and protect for future installation. Contractor shall provide all personnel, equipment, supplies, transportation, tools, materials, supervision, and labor to install new Absolyte VRLA battery cells, modular steel tray housings, Positive +/-Negative - terminate plate, hazmat sorbent pillows, and Frame Retardant Transparent Module Cover (plexiglass) with standoff. Transport all materials and hardware to the site location. The battery cells shall be the same brands name and equal in amp hours. The battery cells shall not be refurbished or renewed. New Absolyte VRLA Battery cells model and requirements - Model 100G29 - one (1) String of 24 Battery cells. The contractor shall confirm the purchase order on hand before transport and install the new Absolyte VRLA battery cells to job site.

Continuation of Inspection and Acceptance

Overall Contract Inspection/Acceptance Locations

0001	Inspection and Acceptance Location Both Destination Instructions: IAW 52.212-4 The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. If repair /replacement or reperformance will not correct the defects or is not possible, the Government may seek an equitable price reduction or adequate consideration for acceptance of nonconforming supplies or services. The Government must exercise its post-acceptance rights- (1) Within a reasonable time after the defect was discovered or should have been discovered; and (2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item. 252.211-7003	Item Unique Identification and Valuation.	2023-01		

ITEM UNIQUE IDENTIFICATION AND VALUATION (JAN 2023)

(a) Definitions. As used in this clause-

"Automatic identification device" means a device, such as a reader or interrogator, used to retrieve data encoded on machine-readable media.

"Concatenated unique item identifier" means-

(1) For items that are serialized within the enterprise identifier, the linking together of the unique identifier data elements in order of the issuing agency code, enterprise identifier, and unique serial number within the enterprise identifier; or

(2) For items that are serialized within the original part, lot, or batch number, the linking together of the unique identifier data elements in order of the issuing agency code; enterprise identifier; original part, lot, or batch number; and serial number within the original part, lot, or batch number.

"Data matrix" means a two-dimensional matrix symbology, which is made up of square or, in some cases, round modules arranged within a perimeter finder pattern and uses the Error Checking and Correction 200 (ECC200) specification found within International Standards Organization (ISO)/International Electrotechnical Commission (IEC) 16022.

"Data qualifier" means a specified character (or string of characters) that immediately precedes a data field that defines the general category or intended use of the data that follows.

"DoD recognized unique identification equivalent" means a unique identification method that is in commercial use and has been recognized by DoD. All DoD recognized unique identification equivalents are listed at <https://www.acq.osd.mil/asda/dpc/ce/ds/unique-id.html>.

"DoD item unique identification" means a system of marking items delivered to DoD with unique item identifiers that have machine-readable data elements to distinguish an item from all other like and unlike items. For items that are serialized within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier and a unique serial number. For items that are serialized within the part, lot, or batch number within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier; the original part, lot, or batch number; and the serial number.

" Enterprise " means the entity (e.g., a manufacturer or vendor) responsible for assigning unique item identifiers to items.

" Enterprise identifier" means a code that is uniquely assigned to an enterprise by an issuing agency.

"Government's unit acquisition cost" means-

(1) For fixed-price type line, subline, or exhibit line items, the unit price identified in the contract at the time of delivery;

(2) For cost-type or undefinitized line, subline, or exhibit line items, the Contractor's estimated fully burdened unit cost to the Government at the time of delivery; and

(3) For items produced under a time-and-materials contract, the Contractor's estimated fully burdened unit cost to the Government at the time of delivery.

"Issuing agency" means an organization responsible for assigning a globally unique identifier to an enterprise, as indicated in the Register of Issuing Agency Codes for ISO/IEC 15459, located at http://www.aimglobal.org/?Reg_Authority15459.

"Issuing agency code" means a code that designates the registration (or controlling) authority for the enterprise identifier.

"Item" means a single hardware article or a single unit formed by a grouping of subassemblies, components, or constituent parts.

" Lot or batch number" means an identifying number assigned by the enterprise to a designated group of items, usually referred to as either a lot or a batch, all of which were manufactured under identical conditions.

"Machine-readable" means an automatic identification technology media, such as bar codes, contact memory buttons, radio frequency identification, or optical memory cards.

"Original part number" means a combination of numbers or letters assigned by the enterprise at item creation to a class of items with the same form, fit, function, and interface.

"Parent item" means the item assembly, intermediate component, or subassembly that has an embedded item with a unique item identifier or DoD recognized unique identification equivalent.

"Serial number within the enterprise identifier" means a combination of numbers, letters, or symbols assigned by the enterprise to an item that provides for the differentiation of that item from any other like and unlike item and is never used again within the enterprise.

"Serial number within the part, lot, or batch number" means a combination of numbers or letters assigned by the enterprise to an item that provides for the differentiation of that item from any other like item within a part, lot, or batch number assignment.

"Serialization within the enterprise identifier" means each item produced is assigned a serial number that is unique among all the tangible items produced by the enterprise and is never used again. The enterprise is responsible for ensuring unique serialization within the enterprise identifier.

"Serialization within the part, lot, or batch number" means each item of a particular part, lot, or batch number is assigned a unique serial number within that part, lot, or batch number assignment. The enterprise is responsible for ensuring unique serialization within the part, lot, or batch number within the enterprise identifier.

"Type designation" means a combination of letters and numerals assigned by the Government to a major end item, assembly or subassembly, as appropriate, to provide a convenient means of differentiating between items having the same basic name and to indicate modifications and changes thereto.

"Unique item identifier" means a set of data elements marked on items that is globally unique and unambiguous. The term includes a concatenated unique item identifier or a DoD recognized unique identification equivalent.

"Unique item identifier type" means a designator to indicate which method of uniquely identifying a part has been used. The current list of accepted unique item identifier types is maintained at <https://www.acq.osd.mil/asda/dpc/ce/ds/unique-id.html>.

(b) The Contractor shall deliver all items under a contract line, subline, or exhibit line item.

(c) Unique item identifier.

(1) The Contractor shall provide a unique item identifier for the following:

(i) Delivered items for which the Government's unit acquisition cost is \$5,000 or more, except for the following line items:

Contract Line, Subline, or

Exhibit Line Item Number Item Description

(ii) Items for which the Government's unit acquisition cost is less than \$5,000 that are identified in the Schedule or the following table:

Contract Line, Subline, or

Exhibit Line Item Number Item Description

(If items are identified in the Schedule, insert "See Schedule in this table.")

(iii) Subassemblies, components, and parts embedded within delivered items, items with warranty requirements, DoD serially managed reparables and DoD serially managed nonreparables as specified in Attachment Number ____.

(iv) Any item of special tooling or special test equipment as defined in FAR 2.101 that have been designated for preservation and storage for a Major Defense Acquisition Program as specified in Attachment Number ____.

(v) Any item not included in (i), (ii), (iii), or (iv) for which the contractor creates and marks a unique item identifier for traceability.

(2) The unique item identifier assignment and its component data element combination shall not be duplicated on any other item marked or registered in the DoD Item Unique Identification Registry by the contractor.

(3) The unique item identifier component data elements shall be marked on an item using two dimensional data matrix symbology that complies with ISO/IEC International Standard 16022, Information technology - International symbology specification - Data matrix; ECC200 data matrix specification.

(4) Data syntax and semantics of unique item identifiers. The Contractor shall ensure that-

(i) The data elements (except issuing agency code) of the unique item identifier are encoded within the data matrix symbol that is marked on the item using one of the following three types of data qualifiers, as determined by the Contractor:

(A) Application Identifiers (AIs) (Format Indicator 05 of ISO/IEC International Standard 15434), in accordance with ISO/IEC International Standard 15418, Information Technology - EAN/UCC Application Identifiers and Fact Data Identifiers and Maintenance and ANSI MH 10.8.2 Data Identifier and Application Identifier Standard.

(B) Data Identifiers (DIs) (Format Indicator 06 of ISO/IEC International Standard 15434), in accordance with ISO/IEC International Standard 15418, Information Technology - EAN/UCC Application Identifiers and Fact Data Identifiers and Maintenance and ANSI MH 10.8.2 Data Identifier and Application Identifier Standard.

(C) Text Element Identifiers (TEIs) (Format Indicator 12 of ISO/IEC International Standard 15434), in accordance with the Air Transport Association Common Support Data Dictionary; and

(ii) The encoded data elements of the unique item identifier conform to the transfer structure, syntax, and coding of messages and data formats specified for Format Indicators 05, 06, and 12 in ISO/IEC International Standard 15434, Information Technology - Transfer Syntax for High Capacity Automatic Data Capture Media.

(5) Unique item identifier.

(i) The Contractor shall-

(A) Determine whether to-

(1) Serialize within the enterprise identifier;

(2) Serialize within the part, lot, or batch number; or

(3) Use a DoD recognized unique identification equivalent (e.g. Vehicle Identification Number); and

(B) Place the data elements of the unique item identifier (enterprise identifier; serial number; DoD recognized unique identification equivalent; and for serialization within the part, lot, or batch number only: original part, lot, or batch number) on items requiring marking by paragraph (c)(1) of this clause, based on the criteria provided in MIL-STD-130, Identification Marking of U. S. Military Property, latest version;

(C) Label shipments, storage containers and packages that contain uniquely identified items in accordance with the requirements of MIL-STD-129, Military Marking for Shipment and Storage, latest version; and

(D) Verify that the marks on items and labels on shipments, storage containers, and packages are machine readable and conform to the applicable standards. The contractor shall use an automatic identification technology device for this verification that has been programmed to the requirements of Appendix A, MIL-STD-130, latest version.

(ii) The issuing agency code-

(A) Shall not be placed on the item; and

(B) Shall be derived from the data qualifier for the enterprise identifier.

(d) For each item that requires item unique identification under paragraph (c)(1)(i), (ii), or (iv) of this clause or when item unique identification is provided under paragraph (c)(1)(v), in addition to the information provided as part of the Material Inspection and Receiving Report specified elsewhere in this contract, the Contractor shall report at the time of delivery, as part of the Material Inspection and Receiving Report, the following information:

(1) Unique item identifier.

(2) Unique item identifier type.

(3) Issuing agency code (if concatenated unique item identifier is used).

(4) Enterprise identifier (if concatenated unique item identifier is used).

(5) Original part number (if there is serialization within the original part number).

(6) Lot or batch number (if there is serialization within the lot or batch number).

(7) Current part number (optional and only if not the same as the original part number).

(8) Current part number effective date (optional and only if current part number is used).

(9) Serial number (if concatenated unique item identifier is used).

(10) Government's unit acquisition cost.

(11) Unit of measure.

(12) Type designation of the item as specified in the contract schedule, if any.

(13) Whether the item is an item of Special Tooling or Special Test Equipment.

(14) Whether the item is covered by a warranty.

(e) For embedded subassemblies, components, and parts that require DoD item unique identification under paragraph (c)(1)(iii) of this clause or when item unique identification is provided under paragraph (c)(1)(v), the Contractor shall report as part of the Material Inspection and Receiving Report specified elsewhere in this contract, the following information:

(1) Unique item identifier of the parent item under paragraph (c)(1) of this clause that contains the embedded subassembly, component, or part.

(2) Unique item identifier of the embedded subassembly, component, or part.

(3) Unique item identifier type.**

(4) Issuing agency code (if concatenated unique item identifier is used).**

(5) Enterprise identifier (if concatenated unique item identifier is used).**

(6) Original part number (if there is serialization within the original part number).**

(7) Lot or batch number (if there is serialization within the lot or batch number).**

(8) Current part number (optional and only if not the same as the original part number).**

(9) Current part number effective date (optional and only if current part number is used).**

(10) Serial number (if concatenated unique item identifier is used).**

(11) Description.

** Once per item.

(f) The Contractor shall submit the information required by paragraphs (d) and (e) of this clause as follows:

(1) End items shall be reported using the receiving report capability in Wide Area WorkFlow (WAWF) in accordance with the clause at 252.232-7003. If WAWF is not required by this contract, and the contractor is not using WAWF, follow the procedures at <http://dodprocurementtoolbox.com/site/uidregistry/>.

(2) Embedded items shall be reported by one of the following methods-

(i) Use of the embedded items capability in WAWF;

(ii) Direct data submission to the IUID Registry following the procedures and formats at <http://dodprocurementtoolbox.com/site/uidregistry/>; or

(iii) Via WAWF as a deliverable attachment for exhibit line item number (fill in) ____, Unique Item Identifier Report for Embedded Items, Contract Data Requirements List, DD Form 1423.

(g) Subcontracts. If the Contractor acquires by subcontract, any item(s) for which item unique identification is required in accordance with paragraph (c)(1) of this clause, the Contractor shall include this clause, including this paragraph (g), in the applicable subcontract(s), including subcontracts for commercial products or commercial services.

(End of clause)

252.232-7006	Wide Area WorkFlow Payment Instructions. (Tailored)	2023-01
--------------	--	---------

WIDE AREA WORKFLOW PAYMENT INSTRUCTIONS (JAN 2023)

(a) *Definitions.* As used in this clause-

"Department of Defense Activity Address Code (DoDAAC)" is a six position code that uniquely identifies a unit, activity, or organization.

"Document type" means the type of payment request or receiving report available for creation in Wide Area WorkFlow (WAWF).

"Local processing office (LPO)" is the office responsible for payment certification when payment certification is done external to the entitlement system.

"Payment request" and "receiving report" are defined in the clause at 252.232-7003, Electronic Submission of Payment Requests and Receiving Reports.

(b) *Electronic invoicing.* The WAWF system provides the method to electronically process vendor payment requests and receiving reports, as authorized by Defense Federal Acquisition

Regulation Supplement (DFARS) 252.232-7003, Electronic Submission of Payment Requests and Receiving Reports.

(c) *WAWF access.* To access WAWF, the Contractor shall-

(1) Have a designated electronic business point of contact in the System for Award Management at <https://www.sam.gov>; and

(2) Be registered to use WAWF at <https://wawf.eb.mil/> following the step-by-step procedures for self-registration available at this web site.

(d) *WAWF training.* The Contractor should follow the training instructions of the WAWF Web-Based Training Course and use the Practice Training Site before submitting payment requests through WAWF. Both can be accessed by selecting the "Web Based Training" link on the WAWF home page at <https://wawf.eb.mil/>

(e) *WAWF methods of document submission.* Document submissions may be via web entry, Electronic Data Interchange, or File Transfer Protocol.

(f) *WAWF payment instructions.* The Contractor shall use the following information when submitting payment requests and receiving reports in WAWF for this contract or task or delivery order:

(1) *Document type.* The Contractor shall submit payment requests using the following document type(s):

(i) For cost-type line items, including labor-hour or time-and-materials, submit a cost voucher.

(ii) For fixed price line items-

(A) That require shipment of a deliverable, submit the invoice and receiving report specified by the Contracting Officer.

Combo

(B) For services that do not require shipment of a deliverable, submit either the Invoice 2in1, which meets the requirements for the invoice and receiving report, or the applicable invoice and receiving report, as specified by the Contracting Officer.

(iii) For customary progress payments based on costs incurred, submit a progress payment request.

(iv) For performance based payments, submit a performance based payment request.

(v) For commercial financing, submit a commercial financing request.

(2)) Fast Pay requests are only permitted when Federal Acquisition Regulation (FAR) 52.213-1 is included in the contract.

[Note: The Contractor may use a WAWF "combo" document type to create some combinations of invoice and receiving report in one step.]

(3) *Document routing.* The Contractor shall use the information in the Routing Data Table below only to fill in applicable fields in WAWF when creating payment requests and receiving reports in the system.

Routing Data Table*

<i>Field Name in WAWF</i>	<i>Data to be entered in WAWF</i>
Pay Official DoDAAC	HQ0490
Issue By DoDAAC	W911RZ
Admin DoDAAC	W911RZ
Inspect By DoDAAC	W5K9BH
Ship To Code	<u>N/A</u>
Ship From Code	<u>N/A</u>
Mark For Code	<u>N/A</u>

Service Approver (DoDAAC)	W5K9BH
Service Acceptor (DoDAAC)	W5K9BH
Accept at Other DoDAAC	<u>N/A</u>
LPO DoDAAC	<u>N/A</u>
DCAA Auditor DoDAAC	<u>N/A</u>
Other DoDAAC(s)	<u>N/A</u>

(4) *Payment request.* The Contractor shall ensure a payment request includes documentation appropriate to the type of payment request in accordance with the payment clause, contract financing clause, or Federal Acquisition Regulation 52.216-7, Allowable Cost and Payment, as applicable.

(5) *Receiving report.* The Contractor shall ensure a receiving report meets the requirements of DFARS Appendix F.

(g) *WAWF point of contact.*

(1) The Contractor may obtain clarification regarding invoicing in WAWF from the following contracting activity's WAWF point of contact.

COR: Mr. Ryan L Watson, ryan.l.watson.cov@army.mil

KO: Farah Surin; Farah.surin.civ@army.mil

KS: Mr. George Hargis, george.e.hargis.civ@army.mil

(2) Contact the WAWF helpdesk at 866-618-5988, if assistance is needed.

(End of clause)

REGIONAL NETWORK ENTERPRISE CENTER (RNEC)
ABSOLYTE VALUE REGULATED LEAD-ACID (VRLA)
BATTERY CELLS RELACEMENT
BUILDING 1014 COMMUNICATIONS NODE 1

25 MARCH 2026

PART 1

GENERAL INFORMATION

1. GENERAL: This is a non-personal service contract under which the personnel rendering the services are not subject, either by the contract's terms or by the manner of its administration, to the supervision and control usually prevailing in relationships between the Government and its employees. The United States (U.S.) Government shall not exercise supervision or control over the Contractor's employees performing the tasks herein. Such contract employees shall be accountable solely to the Contractor who, in turn shall be responsible to the U.S. Government.

1.1 Description of Services/Introduction: The contractor shall provide all personnel, equipment, supplies, transportation, tools, materials, supervision, and other items and non-personal services necessary to remove, furnish, and labor to install Absolyte Value Regulated lead-acid (VRLA) battery cells 24 each, modular steel tray housings, Positive +/Negative - terminate plate, hazmat sorbent pillows, Alarm/control cable hardness, and Frame Retardant Transparent Module Cover (plexiglass) with standoff as defined in this PWS except for those items specified as government furnished property (GFP) and government furnished services (GFS). The contractor shall perform to the standard in this contract.

1.2 Background: Upgrade the Fort Carson Regional Network Enterprise Center (RNEC) 48V Direct Current (DC) emergency power backup battery cells systems for Communications Node 1 building 1014. The current 48V Direct Current (DC) battery cells are over 12+ years old and due to environmental changes, this is causing failure of these battery cells require to be replaced every 15-20 years. Without battery backup, a power failure will cause an uncontrolled shutdown of core network distribution devices, risking equipment corruption that could prevent a successful restart even after generator power is restored. This failure would render all 85 downstream switches inoperable indefinitely, halting services for all organizations including Fort Carson Installation Garrison Commander and emergency services, impacting core logistical and emergency response capabilities.

1.3 Objectives: The objective of this contract is to provide, delivery, and installation new Absolyte VRLA battery cells, modular steel tray housings, Positive +/Negative - terminate plate, hazmat sorbent pillows, and Frame Retardant Transparent Module Cover (plexiglass) with standoff for Communications Node 1 building 1014 on Fort Carson containment area. The contractor shall ensure the new battery cells are configured and connected to the existing power supply and control system, maintaining a minimum of 54 volts DC throughout the system, upon completion of this contract.

1.4 Scope: The contractor shall provide labor, material, and personnel for dismantle and removal of existing GNB Absolyte VRLA battery cells model 100A29, modular steel tray housings, Positive +/Negative - terminate plate, hazmat sorbent pillows, and Frame Retardant Transparent Module Cover (plexiglass) with standoff. The contractor shall remove existing Alarm/Control unit cable hardness from battery cells system, place aside and protect for future installation.

Contractor shall provide all personnel, equipment, supplies, transportation, tools, materials, supervision, and labor to install new Absolyte VRLA battery cells, modular steel tray housings, Positive +/Negative - terminate plate, hazmat sorbent pillows, and Frame Retardant Transparent Module Cover (plexiglass) with standoff. Transport all materials and hardware to the site location.

The battery cells shall be the same brands name and equal in amp hours. The battery cells shall not be refurbished or renewed.

New Absolyte VRLA Battery cells model and requirements - Model 100G29 - one (1) String of 24 Battery cells.

The contractor shall confirm the purchase order on hand before transport and install the new Absolyte VRLA battery cells to job site.

The contractor shall visually inspect the new Absolyte VRLA battery cells for cracks, leakage, bulges, swelling, which indicate potential internal damage. If damage is noted, immediately request an inspection by the carrier and file a concealed damage claim.

The contractor shall visually inspect the new modular steel tray housing for staining from leaking battery cells and damage to the steel tray housing,

Inspecting the terminals and connection for cleanliness and corrosion buildup can hinder proper battery function. If there is a deficiency, the battery cell shall be replaced.

The contractor shall confirm that all miscellaneous hardware components are onsite.

The contractor shall be responsible for all necessary equipment for transportation loading and unloading new Absolyte VRLA battery cells and components to site location.

The contractor shall protect floor surface (parquetry floor, tiles floor, etc.) by mean of PVC foil or soft fiberboards during dismantle and removal work. Remove the protective measures after completion of work and clean the floor surface.

The contractor shall provide labor, material, and personnel for installation of the new Absolyte VRLA battery cells 24 each, modular steel tray housing, Positive +/Negative - terminate plate, and Hazmat sorbent pillows underneath one (1) string.

The contractor shall provide and install new Frame Retardant Transparent Module Cover (plexiglass) with standoff over battery cells terminals for protection. Match to existing configuration design.

The contractor shall reconnect existing Alarm/ Control unit cable hardness.

The contractor shall Bonding and Grounding battery Stacks to the existing Busbar using # 6 AWG IAW Absolyte GP Installation and Operation Manual Appendix C.

The contractor shall ensure the proper float voltage is maintained after being fully charged the ranch of 2.23 to 2.27 Volts Per Cell (VPC). The contractor shall document all battery charge levels, before, during, and after each test. Provide the documentation to the Government for review and comments.

The contractor shall create a report for a battery load test on each new battery and provide a report to RNEC POC for approval.

The Battery Load Test is to verify the new batteries as a system will support 500A for 2.00 hours and to ensure the power remains uninterrupted during load test and the battery system returns to normal state. The Contractor shall take readings from each of the battery cells and document the readings. Connect the load bank to the DC Power Plant and turn it up to 500A, the rectifiers will be shut off at this time, and the load test will begin. Take readings of the batteries at 30-minute intervals and document until a full 2.00-hour discharge test is reached - Attachment 2 Absolyte Battery Maintenance Report.

The contractor shall be responsible for labeling each battery with its own unique Identification (ID) number, match to existing design. Labeling shall be mechanically printed, not handwritten, and must be legible.

Perform fine cleaning of working area, remove all debris, and trash prior to final inspection. The government will accept the project at final inspection.

All hardware, materials and workmanship provided by the Contractor shall be warranted for a period of five -ten years or for the duration of the Original Equipment Manufacturer (OEM) warranty, whichever is longer for the new Absolyte Value Regulated Lead -acid (VRLA) Battery cells. The warranty shall cover all materials and labor necessary to resolve any problems resulting from defects in materials or workmanship. The warranty period shall commence upon successful completion of the requirements/provisions of this contract, receipt of all documentation and Government acceptance.

Provide a copy of the warranty after completion of this project.

The contractor shall recycle old batteries IAW Colorado and EPA Environmental guidelines.

1.5 Period of Performance: **1 September 2026 - 1 December 2026** or Please refer to the contract schedule for the contract's period of performance.

1.6 General Information:

1.6.1 Quality Control Plan (QCP): The Contractor shall develop, implement, and maintain a QCP and program to ensure all work described in this contract is performed at or above the standard defined in the Performance Requirements Summary (PRS). The QCP is developed by the contractor for its internal use to ensure that it performs and delivers a high-quality service. The contractor's QCP is the means by which the contractor ensures all work complies with the requirements of the contract. The QCP identifies and corrects potential and actual problem areas throughout the entire scope of the contract.

1.6.1.1 The contractor shall develop and implement procedures to identify, prevent, and ensure non-recurrence of defective services. The QCP shall be submitted within thirty (30) days of contract award. After acceptance of the QCP, the contractor shall receive the contracting officer's (KO) acceptance in writing of proposed changes to the QC procedures. The contractor shall submit QCP changes within five (5) days to the KO and Contracting Officer's Representative (COR) for review and approval prior to implementation.

1.6.1.2 The Quality Control Plan shall address as a minimum:

1.6.1.2.1 Inspection Program. Included shall be a quality control inspection program covering all general and specific tasks included in the contract scope of work. It shall specify tasks or areas to be inspected on a scheduled or unscheduled basis, the manner in which inspections are to be conducted, the titles of the individuals who will perform the inspections, and the percentage of the work that will be inspected on a recurring basis. In developing this inspection program, the Contractor shall identify the key activities and associated characteristics in each process that have a significant influence on specific services and provide for methods for evaluation of the selected characteristics.

1.6.1.2.2 Deficiency Identification. The QCP shall include a method of identifying deficiencies in the quality of services performed before the level of performance becomes unacceptable as defined in the PRS. This shall contain processes for corrective action without dependence upon Government direction.

1.6.1.2.3 Deficiency Correction. The program shall contain process control and process performance measurement procedures that shall include how the Contractor shall implement preventive corrective actions. The Contractor shall demonstrate that it has designed quality into the delivery of services thereby mitigating the risk(s) associated with delivery of deficient or nonconforming services.

1.6.1.2.4 Documentation and Enforcement. The QCP shall include a method of documenting and enforcing quality control operations of both prime contractor and subcontractor work, including inspection and testing.

1.6.1.2.5 Trend Analysis. The QCP shall include a method of performing trend analysis and assessments using metrics.

1.6.1.2.6 Surveillance Methods. The QCP shall contain specific surveillance techniques for all contract services. The surveillance methods shall be comprehensive and adaptable to the reporting system of the plan.

1.6.2 Quality Assurance (QA): The government shall evaluate the contractor's performance under this contract in accordance with (IAW) the Quality Assurance Surveillance Plan. This plan is primarily focused on what the Government must do to ensure that the contractor has performed IAW the performance standards and contract quality requirements are met. Contract quality requirements" means the technical requirements in the contract relating to the quality of the product or service and those contract clauses prescribing inspection, and other quality controls incumbent on the contractor, to ensure the product or service conforms to the contractual requirements. It defines how the performance standards will be applied, the frequency of surveillance, the performance threshold, and deductions, if applicable.

1.6.3 Recognized Holidays: The contractor is not required to perform services on Federal holidays.

New Year's Day Labor Day

Martin Luther King Jr.'s Birthday Columbus Day

President's Day Veteran's Day

Memorial Day Thanksgiving Day

Independence Day Christmas Day

Juneteenth

1.6.4 Hours of Operation: The contractor is responsible for conducting business between the hours of 08:00 am - 5:00 pm Monday through Friday, except Federal holidays or when the Government facility is closed due to local or national emergencies, administrative closings, or similar Government directed facility closings. For other than firm fixed price contracts, the contractor will not be reimbursed when the government facility is closed for the above reasons. The Contractor must always maintain an adequate workforce for the uninterrupted performance of all tasks defined within this PWS when the Government facility is not closed for the above reasons.

1.6.5 Place of Performance: The work to be performed under this contract will be performed at Fort Carson, Colorado Installation see location below:

a. Communications Node 1 address - 5709 Wetzel Ave, Building 1014 Fort Carson, Co.

1.6.6 Type of Contract: Type of contract to be determined by Contracting Office and customer.

1.6.7 Security Requirements:

1.6.7.1 Access and general protection/security policy and procedures: Contractor and all associated subcontractor employees shall provide all information required for background checks to meet installation access requirements to be accomplished by installation Provost Marshal Office, Director of Emergency Services or Security Office. The contractor workforce must comply with all personal identity verification requirements (FAR clause 52.2049, Personal Identity Verification of Contractor Personnel) as directed by DOD, HQDA and/or local policy. In addition to the changes otherwise authorized by the changes clause of this contract, should the Force Protection Condition (FPCON) at any individual facility or installation change, the Government may require changes in contractor security matters or processes. The contractor and subcontractor shall receive a visitor installation pass or Badges at Main Gate 1, Visitor Center Building 6012 off Highway 115 and Nelson Boulevard before entering Fort Carson installation.

The contractor is responsible for being aware of and complying with the requirements associated with Installation Access Control.

The contractor must consider delays caused by checks when entering and leaving the US installations, as this will not be separately reimbursed.

All personnel entering Fort Carson Installation are subject to random vehicle searches IAW the Fort Carson Random Anti-Terrorism Measures Program (RAMP)

1.6.7.2 Physical Security: The contractor shall be responsible for safeguarding; storage of materials and equipment provided for contractor use. The contractor will arrive at each site locations with the new Absolyte VRLA battery cells, modular steel tray housings, Positive + /Negative - plates, and Frame Retardant Transparent Module Cover (plexiglass) with standoff at the time of installation. There is no long-term storage or staging area for the materials; therefore, the contractor shall plan the work so that the battery cells and other materials are installed shortly after being delivered to the building.

The U.S. Government is not liable for any costs associated with performance delays due solely to a firm's failure to comply with Installation Access Control (IAC) processing requirements.

At the close of each work period, government facilities, equipment, and materials shall be secured IAW Army Regulation (AR) 190-13, "The Army Physical Security Program.

1.6.7.3 Escorts: The Contractor and all associated sub-contractor employees performing services under this contract shall be escorted at all times by Fort Carson Government representative while accessing U.S. facilities or activities.

1.6.7.4 Personnel Security Clearance Requirements: Reserved

1.6.7.4.1 The contractor shall follow DOD Federal Acquisition Regulation Supplement (DFARS) clause 252.223-7004, Drug-free Work Force.

1.6.7.5 Background Checks: The Contractor shall ensure contractor employees and subcontractor employees performing services under this contract have passed a security check conducted by the State Police Department of their U.S. residence. Security checks that have been completed as part of a personnel security clearance background investigation, or a previous background check that was a condition of employment, meet this requirement. Documentation of these checks will be made available to KO or COR upon request. The Government retains the right to exclude any employee from performance of duties under this contract if a background security check reveals an employee is a security risk. The exclusion of an employee for security reasons will not relieve the Contractor from performance of services required under this contract. If the Government determines additional background checks are required, at a minimum, and upon request from the Government, the Contractor shall provide the KO or COR with the following information on any contractor or subcontractor employees performing services under this contract:

Full birth name

Married name (if applicable)

SSN or local equivalent (ID card number)

Date of birth

Place of birth (city, country)

1.6.7.5.1 Background Check Notification Requirements: If a background check on any employee or subcontractor employee performing services under this contract, whether the check was conducted as a condition of employment or as part of the contract with the Government, reveals any information from any source (including host country law enforcement) of criminal activity by Contractor employees, subcontractors, or subcontractor employees, the Contractor shall immediately notify the KO and COR of that information. The Contractor shall make notification of:

(1) Traffic violations, other than parking, will be reported to the KO or COR only if the contract is for drivers for the Government.

(2) Any suspicious activity by Contractor employees, subcontractors, or subcontractor employees the Contractor believes may pose a risk to U.S. or host nation national security or imminent risk of deadly bodily harm to any person; and

(3) Any actions taken against Contractor employees, subcontractors, or subcontractor employees pursuant to this requirement.

1.6.7.5.2 Remedies. In addition to other remedies available to the Government, the Contractor's failure to comply with the requirements of this paragraph may result in requiring the Contractor to remove a contractor, employee or employees from the performance of the contract.

1.6.7.5.3 Subcontracts. The Contractor shall include the substance of this paragraph and the preceding paragraph in all subcontracts.

1.6.7.6 Uncleared Contractor Common Access Card (CAC) Credentialing and Access Procedures:

1.6.7.6.1 Contractor Common Access Card (CAC) Eligible Requirements: Not applicable

1.6.7.6.1.1 Federal Installation/Facility Access: Contractor and all associated sub-contractor employees shall comply with applicable installation, facility and area commander installation/facility access and local security policies and procedures (provided by government representative). The employees performing services under this contract shall also provide all information required for background checks to meet installation access requirements to be accomplished by installation Provost Marshal Office, Director of Emergency Services, or Security Office. All personnel are required to show a Department of Defense (DOD) issued picture ID, Real ID Act compliant driver's license from a state to enter Fort Carson Installation. Prime Contractor and subcontractor are responsible to adhere to the Real ID Act, or any others Department of Defense (DOD) security requirement, when applying for access to the installation

Personnel who present an ID from a state is not compliance and does not have an extension will need to provide a second form of valid photo ID with their state ID. Acceptance form of ID to be used as a secondary ID are U.S. Passport or Passport Cars, Personnel Identity Verification (PIV) by the Federal Government, Veterans Health ID Card issued by the Depart of Veterans AFFAIR AND any other ID card issued by a Federal, State, or Local Government agency provided it contains s photograph and biographic information such as date of birth, gender, height, eye, color, and address.

1.6.7.6.2. Contractor Non CAC Eligible Requirements for DOD Facility and Installation Access: Contractor and all associated sub-contractors employees shall comply with adjudication standards and procedures using the National Crime Information Center Interstate Identification Index (NCIC-III) and Terrorist Screening Database (TSDB) (Army Directive 2014-05/AR 190-13), applicable installation, facility and area commander installation/facility access and local security policies and procedures (provided by government representative), or, at OCONUS locations, in accordance with status of forces agreements and other theater regulations.

1.6.7.7 Access to Government Information Systems: Reserved

1.6.7.8 Key Control: Reserved

1.6.7.9 Lock Combinations: Reserved

1.6.8 Post Award Conference/Contract Periodic Progress Meetings: The Contractor shall attend the post award conference convened by the contracting activity or contract administration office IAW Federal Acquisition Regulation (FAR) Subpart 42.5. The KO, COR, with other Government personnel, as appropriate, may meet periodically with the Contractor to review the Contractor's performance. At these meetings the KO will apprise the contractor of how the government views the Contractor's performance and the Contractor will appraise the Government of problems, if any,

being experienced. Appropriate action shall be taken to resolve outstanding issues. These meetings shall be at no additional cost to the government.

1.6.9 Contracting Officer Representative (COR): The COR will be identified by separate letter. The COR monitors all technical aspects of the contract and assists in contract administration. The COR is authorized to perform the following functions: ensure the Contractor performs the technical requirements of the contract; perform inspections necessary in connection with contract performance; maintain written and oral communications with the Contractor concerning technical aspects of the contract; issue written interpretations of technical requirements, including Government drawings, designs, specifications; monitor Contractor's performance and notifies both the KO and Contractor of any deficiencies; coordinate availability of government furnished property; and provide site entry of Contractor personnel. A letter of designation issued to the COR, a copy of which is sent to the Contractor, states the responsibilities and limitations of the COR, especially regarding changes in cost or price, estimates, or changes in delivery dates. The COR is not authorized to change any of the terms and conditions of the resulting order.

1.6.10 Key Personnel: The Contractor shall provide a Quality Manager who shall be responsible for the performance of the work. The name of this person and an alternate, who shall act for the Contractor when the manager is absent, shall be designated in writing to the Contracting Officer prior to start of contract performance. The Contract Manager and alternate shall have full authority to act for the contractor on all contract matters relating to the daily operation of this contract. The Contract Manager or alternate shall be available between 08:00 am - 5:00 pm Monday through Friday except Federal Holiday days.

Quality Manager: Must demonstrate a minimum of 5 years' experience in quality control or working as a Program Manager. Strong attention to detail, excellent communication skills, data analysis capabilities, and good interpersonal skills are important. Inspecting products at various stages and writing report documenting production issues. The Quality Manager shall be able to read and write at English Language fluency level 5.

1.6.11 Special Qualifications or Certifications: Reserved

1.6.11.1 IA/IT Training Certification: Reserved

1.6.12 Identification of Contractor Employees: Contractor employees shall identify themselves as Contractor personnel and shall avoid representing themselves as Government employees. This identification includes meeting attendance, answering Government telephones, email communications, and working in other situations where Contractor status is not obvious. Contractor personnel identification shall be easily identifiable through the display of badges, name tags, lanyards, etc.

1.6.12.1 Badging of Contractor Employees: The contract personnel and all associated subcontractors' employees accessing U.S. facilities or activities, shall be issued an installation badge provided by the Government while accessing Government owned or contracted facilities and shall adhere to facility security policies and restrictions. The Government issued access badges will not be worn outside designated facility where visible to the public.

The contractor is responsible for returning installation passes or Badges to the issuing Installation Access Control Office (IACO) to the Main Gate 1 Building 6012 when the contract is completed or when a contract employee no longer requires access or within one (1) day of the end of their contractual duties, if required.

1.6.12.2 Uniform: The Contractor shall provide a standard uniform for all Contractor and subcontractor employees performing services under this contract, and ensure they wear the uniform during appointed duty hours. The uniform may consist of the same type and color shirt and slacks for all workers. The company logo is optional.

1.6.13 Contractor Travel: Contractor shall be required to travel Fort Carson installation during the performance of this contract. The Contractor may be required to travel to off-site Fort Carson installation training locations in support of this PWS. Contractors will be authorized for travel expenses consistent with the substantive provisions of the Joint Travel Regulation (JTR) and the limitation of funds specified in this contract. All travel requires Government approval/authorization and notification to the COR prior to the contract being awarded. The Government anticipates four (4) trips will be required to support this contract.

1.6.14 Other Direct Costs (ODC): Reserved

1.6.15 Data Rights: The Government has unlimited rights to all documents/material produced under this contract. All documents and materials, to include the source codes of any software, produced under this contract shall be Government owned and are the property of the Government with all rights and privileges of ownership/copyright belonging exclusively to the Government. These documents and materials may not be used or sold by the Contractor without written permission from the Contracting Officer. All materials supplied to the Government shall be the sole property of the Government and may not be used for any other purpose. This right does not abrogate any other Government rights.

1.6.16. Non-Disclosure Requirements: Reserved

1.6.16.1 Non-Disclosure Statements: Reserved

1.6.16.2 Advertisement and Social Media: The Contractor shall NOT post information to public websites or social media locations, personal or professional, that in any way disclose names, locations, hotel data, participants, discussions, pictures, etc. before, during or after the contract period of performance without the express consent of the Government. The use of propaganda violates DOD Commercial Use of Imagery Guidelines stated at (<http://www.defenseimagery.mil/products/DODimagery/commercialuse.html>). The Contractor shall not cite any information (e.g., contract information, pictures, locations, etc.) obtained through this contract on any marketing tools to include its company website.

1.6.16.3 INFORMATION ASSURANCE: At no time will the Contractor or associated sub-contractor employees transmit government documents or information using methods that do not meet the security requirements specified in the National Institute of Standards and Technology (NIST) Special Publication

(SP) 800-171, "Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations" such as personal electronic mail accounts, public digital data storage sites (cloud storage), social media platforms or instant messaging. Approved government sites such as U.S. Army Aviation and Missile Research Development and Engineering Center (ARMDEC) Safe Exchange at <https://safe.amrdec.army.mil/SAFE/About.aspx>, or All Partners Access Network (APAN) at <https://community.apan.org/>, or other transmission means determined by the government must be used.

1.6.17 Organizational Conflict of Interest (OCI): Contractor and subcontractor personnel performing work under this contract may receive, have access to, or participate in the development of proprietary or source selection information (e.g., cost or pricing information, budget information or analyses, specifications or work statements, etc.) or perform evaluation services which may create a current or subsequent Organizational Conflict of Interests (OCI) as defined in FAR Subpart 9.5. The Contractor shall notify the KO immediately whenever it becomes aware that such access or participation may result in any actual or potential OCI and shall promptly submit a plan to the KO to avoid or mitigate any such OCI. The Contractor's mitigation plan will be determined to be acceptable solely at the discretion of the KO and in the event the KO unilaterally determines that any such OCI cannot be satisfactorily avoided or mitigated, the KO may affect other remedies as he or she deems necessary, including prohibiting the Contractor from participation in subsequent contracted requirements which may be affected by the OCI.

1.6.18 Phase-in/Phase-Out (PIPO) Period: Reserved

1.6.19 General Training Requirements: Reserved

1.6.19.1 Anti-Terrorism (AT) Level I Training: Reserved

1.6.19.2 OPSEC Awareness: If the Contractor, or a subcontractor, or employees of either disclose any information that disrupts or harms the Government's operations or activities, then the Government retains the right to exclude any employee from performance of duties under this contract. The exclusion of an employee for security reasons will not relieve the Contractor from performance of services required under this contract. By way of example, personnel shall not sketch or take photos of government facilities or activities, unless related to service to be provided. All government paper products and removable digital storage material that are received, generated, or stored during the contract will be destroyed completely when no longer needed to preclude recognition of information.

1.6.19.3 Information Assurance (IA) Training: Reserved

1.6.19.4 Information Assurance (IA)/Information Technology (IT) Training: Reserved

1.6.19.5 Threat Awareness Reporting Program (TARP Training): Reserved

1.6.19.6 iWATCH Training (As determined by AT/OPSEC Review): Reserved

1.6.19.7 OPSEC Training (As determined by AT/OPSEC Review): Reserved

PART 2

DEFINITIONS & ACRONYMS

2. DEFINITIONS AND ACRONYMS:

2.1. Definitions:

2.1.1. Contractor. The total contractor organization or a separate entity of it, such as an affiliate, division, or plant that performs its own purchasing.

2.1.2. Contracting officer (KO). A person with the authority to enter, administer, and/or terminate contracts and make related determinations and findings.

2.1.3. Contracting Officer's Representative (COR). An individual designated and authorized in writing by the contracting officer to perform specific technical or administrative functions.

2.1.4. Defective Service. A service output that does not meet the standard of performance associated with the Performance Work Statement.

2.1.5. Deliverable. Anything that can be physically delivered but may include non-manufactured things such as meeting minutes or reports.

2.1.6. Key Personnel. Contractor personnel that are evaluated in a source selection process and that may be required to be used in the performance of a contract by the Key Personnel listed in the PWS. When key personnel are used as an evaluation factor in best value procurement, an offer can be rejected if it does not have a firm commitment from the people that are listed in the proposal.

2.1.7. Performance Work Statement (PWS). A statement of work for performance-based acquisitions that describes the required results in clear, specific, and objective terms with measurable outcomes.

2.1.8. Physical Security. Protection of the perimeter area, government property, and assets that prevent the loss or damage of Government property.

2.1.9. Quality Assurance. The various functions, including inspection, performed by the government to determine whether a Contractor has fulfilled the contract obligations pertaining to quality and quantity.

2.1.10. Quality Assurance Surveillance Plan (QASP). A plan describing how the agency will survey, observe, test, sample, evaluate and document the Contractor's performance in meeting critical performance standards identified in the contract.

2.1.11. Quality Control (QC). Tasks performed by the Contractor to improve the quality of the organization's output.

2.1.12. Shall. An imperative command: has a duty to or is required to. Denotes that a regulation must be followed unless the contracting officer has obtained a deviation.

2.1.13. Subcontractor. Any supplier, distributor, vendor, or firm that furnishes supplies or services to or for a prime contractor or another subcontractor.

2.1.14. Workday. The number of hours per day the Contractor provides services in accordance with the contract.

2.1.15. Work Week. Monday through Friday, unless specified otherwise.

2.1.16 Regional Network Enterprise Center. Provides responsive, secure, and reliable information technology services and supports Government customers.

PART 3

GOVERNMENT FURNISHED PROPERTY AND SERVICES

3.1 Government Furnished Property:

3.1.1 The Government will provide access to the facility in the performance of this contract.

3.2 Emergency and Rescue:

3.2.1 The Government will furnish emergency medical and rescue services to prevent loss of life, limb, or undue suffering within areas serviced by the applicable installation emergency services provider. The Government will seek reimbursement for medical services rendered, as appropriate.

3.2.2 The Government will provide installation fire services to include firefighting, fire prevention inspections and investigations; Installation security services; confined space rescue; and Hazardous Material (HAZMAT) first response.

3.3 Telecommunications/Utilities:

3.3.1 The Government will not provide Telecommunications line services, software, and computers in the performance of this contract. The Government will provide temporary backup power during battery cells removal and installation.

3.4 Government Owned Vehicles:

3.4.1 The Government will not provide Government Owned Vehicles.

3.5 GFE Tools, Hand Tools, Equipment; Test, Measurement and Diagnostic Equipment (TDME) Calibration Services:

3.5.1 The Government will not provide any GFE Tools, Hand Tools, Equipment; Test, Measurement and Diagnostic Equipment (TMDE) Calibration Services in the performance of this contract.

3.6 Government Furnished Facilities and Real Property

3.6.1 The Government will provide the facilities listed in Technical Exhibit - Attachment 1 Government Furnished Facilities. The Government will provide an installation Base map showing facilities locations - Attachment 3 Fort Carson Base Map.

3.6.2 The contractor shall not make alterations to GFF without the prior written approval of RNEC PM or DPW.

3.6.3 The contractor is directly responsible for coordinating all facility repairs with the local DPW Work Order Section (emergency or normal work orders) for required repairs.

3.6.4 The contractor shall submit all other facility maintenance, repair, new construction, and major equipment installation requests using DA Form 4283 to the appropriate Facility Coordinator for processing.

3.6.5 The contractor shall establish and maintain an up-to-date GFF work order log on-site for each major functional area and equipment maintenance shop for all DPW work and service orders submitted. The contractor shall ensure the DPW work order logs contain the following information: work order number, date and time work order(s) submitted, name of person initiating work order(s), reason for work order(s), any follow-up data and date of work order closeout.

3.6.6 The Government will provide parking areas for privately owned vehicles (POV). Contractor personnel shall comply with all local regulations and directives concerning POV traffic and parking.

3.6.7 The contractor shall clear areas adjacent to GFF as required to gain safe access to facilities from parking areas. This may include sidewalks, walkways, or other incidental areas.

3.7 Government Furnished Services:

3.7.1 The Government will provide preventive maintenance and repair of GFF in accordance with AR 420-1. The contractor shall provide the name and telephone number of its designated point of contact that will be requesting repairs / opening work orders to the appropriate Facility Coordinator during the transition-in period.

3.7.2 The Government will provide emergency power backup for the 48V DC system prior to, during, and after replacement of battery cells.

3.7.3 The Government will provide pest control services as required.

3.8 The Government will provide available containers at specific contractor occupied facilities for collection of recyclable paper and cardboard, on-hand scrap metal, non-hazardous waste wood and wood by-products, and trash pickup.

PART 4

CONTRACTOR FURNISHED ITEMS AND SERVICES

4. Contractor Furnished Property and Services

4.1 General: The Contractor shall furnish all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision, and other items necessary to perform services as described in the PWS and associated contract documents, except for those items specified in Part 3 Government Property and Services.

4.2 Secret Facility Clearance: Not applicable

4.3 Materials: The Contractor shall provide new modular steel tray housing, Positive+/Negative Plate Frame Retardant Transparent Module Cover (plexiglass) with standoff and new Absolyte Value Regulated lead-acid (VRLA) battery cells with the followings Salient Characteristics.

a. Model 100G29 Specifications - 1400 amp-hours to 1.75 Volts Per Cell (VPC) at 8-hour rate at 25C (77F). Positive plate - Patented lead calcium tin silver grid alloy. Negative Plate -Lead calcium grid alloy. 20-year design life expectancy in float applications at 25C (77F). Must be stackable with 3 cells per string for a total of 24 each. Rate and float voltage of 2.23.to 2.27 Volts Per Cell. Cycle life 1200 cycles to 80% DOD at 25C (77F). Operating Temperature Range: -40C (-40F) to + 50C (122F) allowed. Container and cover- Polypropylene is standard.

4.4 Vehicles and Equipment: The Contractor shall provide all necessary vehicles (no GSA vehicles provided for Contractor for use on this contract) and equipment to perform the work described in this PWS. All Contractor provided vehicles, and equipment shall have the company name prominently displayed on both sides of the vehicle or equipment and present a neat, professional appearance. The contractor's vehicles and equipment used in the performance of this contract shall meet all local and Host Nation traffic, safety, and environmental requirements. Vehicles and equipment found to be unsafe shall be removed from the installation and replaced. The Contractor shall not use any Government-owned tools, materials, or parts to maintain Contractor vehicles and equipment without prior written approval of the Contracting Officer. The COR may inspect the Contractor's vehicles and equipment at any time.

4.5 Background Checks: The Contractor shall provide Background Checks in accordance with this PWS and as determined by the Government.

PART 5

SPECIFIC TASKS

5. Specific Tasks:

The contractor is required to conduct an on-site survey.

The contractor shall provide labor, material, and personnel for dismantle and removal of existing GNB Absolyte VRLA battery cells model 100A29, modular steel tray housings, Positive +/-Negative - terminate plate, hazmat sorbent pillows, and Frame Retardant Transparent Module Cover (plexiglass) with standoff. The contractor shall remove existing Alarm/Control unit cable hardness from battery cells system, place aside and protect for future installation.

Contractor shall provide all personnel, equipment, supplies, transportation, tools, materials, supervision, and labor to install new Absolyte VRLA battery cells, modular steel tray housings, Positive +/-Negative - terminate plate, hazmat sorbent pillows, and Frame Retardant Transparent Module Cover (plexiglass) with standoff. Transport all materials and hardware to the site location.

The battery cells shall be the same brands name and equal in amp hours. The battery cells shall not be refurbished or renewed.

New Absolyte VRLA Battery cells model and requirements - Model 100G29 - one (1) String of 24 Battery cells.

The contractor shall confirm the purchase order on hand before transport and install the new Absolyte VRLA battery cells to job site.

The contractor shall visually inspect the new Absolyte VRLA battery cells for cracks, leakage, bulges, swelling, which indicate potential internal damage. If damage is noted, immediately request an inspection by the carrier and file a concealed damage claim.

The contractor shall visually inspect the new modular steel tray housing for staining from leaking battery cells and damage to the steel tray housing,

Inspecting the terminals and connection for cleanliness and corrosion buildup can hinder proper battery function. If there is a deficiency, the battery cell shall be replaced.

The contractor shall confirm that all miscellaneous hardware components are onsite.

The contractor shall be responsible for all necessary equipment for transportation loading and unloading new Absolyte VRLA battery cells and components to site location.

The contractor shall protect floor surface (parquetry floor, tiles floor, etc.) by mean of PVC foil or soft fiberboards during dismantle and removal work. Remove the protective measures after completion of work and clean the floor surface.

The contractor shall provide labor, material, and personnel for installation of the new Absolyte VRLA battery cells 24 each, modular steel tray housing, Positive +/-Negative - terminate plate, and Hazmat sorbent pillows underneath one (1) string.

The contractor shall provide and install new Frame Retardant Transparent Module Cover (plexiglass) with standoff over battery cells terminals for protection. Match to existing configuration design.

The contractor shall reconnect existing Alarm/ Control unit cable hardness.

The contractor shall Bonding and Grounding battery Stacks to the existing Busbar using # 6 AWG IAW Absolyte GP Installation and Operation Manual Appendix C.

The contractor shall ensure the proper float voltage is maintained after being fully charged the ranch of 2.23 to 2.27 Volts Per Cell (VPC). The contractor shall document all battery charge levels, before, during, and after each test. Provide the documentation to the Government for review and comments.

The contractor shall create a report for a battery load test on each new battery and provide a report to RNEC POC for approval.

The Battery Load Test is to verify the new batteries as a system will support 500A for 2.00 hours and to ensure the power remains uninterrupted during load test and the battery system returns to normal state. The Contractor shall take readings from each of the battery cells and document the readings. Connect the load bank to the DC Power Plant and turn it up to 500A, the rectifiers will be shut off at this time, and the load test will begin. Take readings of the batteries at 30-minute intervals and document until a full 2.00-hour discharge test is reached - Attachment 2 Absolyte Battery Maintenance Report.

The contractor shall be responsible for labeling each battery with its own unique Identification (ID) number, match to existing design. Labeling shall be mechanically printed, not handwritten, and must be legible.

Perform fine cleaning of working area, remove all debris, and trash prior to final inspection. The government will accept the project at final inspection.

All hardware, materials and workmanship provided by the Contractor shall be warranted for a period of five -ten years or for the duration of the Original Equipment Manufacturer (OEM) warranty, whichever is longer for the new Absolyte Value Regulated Lead -acid (VRLA) Battery cells. The warranty shall cover all materials and labor necessary to resolve any problems resulting from defects in materials or workmanship. The warranty period shall commence upon successful completion of the requirements/provisions of this contract, receipt of all documentation and Government acceptance.

Provide a copy of the warranty after completion of this project.

The contractor shall recycle old batteries IAW Colorado and EPA Environmental guidelines.

5.1. Basic Services. The contractor shall provide labor, material, and personnel for dismantle and removal of existing GNB Absolyte VRLA battery cells, Positive +/Negative - plates, modular steel tray housings, and Frame Retardant Transparent Module Cover (plexiglass) with standoff.

The contractor shall provide services for new installation of Absolyte VRLA battery cells, modular steel tray housings, Positive +/Negative - plates, Hazmat sorbent pillows, and Frame Retardant Transparent Module Cover (plexiglass) with standoff. Reconnect existing Alarm/control unit cable harness and reinstall the Ni-Cad Neutra Mat back underneath stacks pit locations.

The contractor shall be responsible for all necessary equipment for transportation loading and unloading new VRLA battery cells to each site location.

Perform final cleaning of working area, remove all debris, and trash prior to final inspection. The government will accept the project at final inspection.

The contractor shall ensure the new Absolyte VRLA battery cells are configured and connected to the existing power supply and control system, maintaining a minimum of 54 volts DC throughout the entire system, document and provide test results to the upon completion of this contract.

Recycle old batteries in accordance with Colorado and EPA environmental guidelines.

5.2. Task Heading: Reserved

5.3. Service Contract Reporting (SCR): Reserved

AMC LEVEL PROTEST PROGRAM

If you have complaints about this procurement, it is preferable that you first attempt to resolve those concerns with the responsible contracting officer. However, you can also protest to Headquarters, AMC. The HQ, AMC-Level Protest Program is intended to encourage interested parties to seek resolution of their concerns within AMC as an Alternative Dispute Resolution forum, rather than filing a protest with the Government Accountability Office or other external forum. Contract award or performance is suspended during the protest to the same extent, and within the same time periods, as if filed at the GAO. The AMC protest decision goal is to resolve protests within 20 working days from filing. To be timely, protests must be filed within the periods specified in FAR 33.103. If you want to file a protest under the AMC-Level Protest Program, the protest must request resolution under that

program and be sent to the address below. All other agency-level protests should be sent to the contracting officer for resolution.

Headquarters U.S. Army Materiel Command

Office of Command Counsel

4400 Martin Road

Rm: A6SE040.001

Redstone Arsenal, AL 35898-5000

Fax: (256) 450-8840

Packages sent by FedEx or UPS should be addressed to:

Office of Command Counsel

4400 Martin Road

Rm: A6SE040.001

Redstone Arsenal, AL 35898-5000

Fax: (256) 450-8840

Program/ If internet access is not available, contact the contracting officer or HQ, AMC to obtain the AMC-Level Protest Procedures

ACQUIRING ACCESS TO FT CARSON

Acquiring Access to Fort Carson Installation (One-Time Service/Supply) Effective 1 May 2015, individuals that do not have a Department of Defense (DoD) Identification (ID) Card and require entry on to Fort Carson Installation will be subjected to a National Crime Information Center Check (NCIC Check). The individual must have a valid U.S. or State issued photo ID, or U.S. Passport to show for proof of identity. If the individual is driving a vehicle, it must have a valid driver's license with current registration and insurance for the vehicle being driven on the installation.

Everyone in the vehicle will be required to go through this process.

1. If the vendor only requires one-time access, then the vendor is highly encouraged to access the base through Gate 3. Gate 3 will perform the NCIC checks. In order for the NCIC check to be performed at the gate:

- a. The individual must have a valid U.S. or State issued photo ID, or U.S. Passport to show

for identity proof.

b. If the individual is driving a vehicle, it must have a valid driver's license with current registration and insurance for the vehicle being driven onto the installation.

c. Foreign National Visitors must present their passport or foreign military identification badge. Foreign National Visitors or Contractors/Vendors must be escorted by a DoD ID card holder at all times while on the installation.

2. All identification presented must meet the requirements of the Real ID Act: The REAL ID Act of 2005 establishes minimum standards for the production and issuance of state issued driver licenses

and identification cards which include requirements for a photograph and certain biographic information, such as name, DOB, gender, height, eye color and address.

a. State-issued driver license and identification (ID) cards from states not meeting the standards cannot be used for accessing Federal facilities beginning 10 January 2016, unless the issuing state's compliance deadline had been extended by the Department of Homeland Security (DHS). As of 18 September 2020, DHS indicates that Driver Licenses and ID cards for all 50 states states are REAL ID compliant. <https://www.dhs.gov/real-id#>).

Accepted secondary forms of identification include a U.S. passport or U.S. passport card

b. Permanent Resident Card/Alien Registration Receipt Card (Form I-551)

c. foreign passport with a temporary (I-551) stamp or temporary (I-551) printed notation on a machine-readable immigrant visa

d. Employment authorization document that contains a photograph (Form I-766)

e. In the case of a non immigrant alien authorized to work for a specific employer incident to status, a foreign passport with Form I-94 or Form I-94A bearing the same name as the passport and containing an endorsement of the person's non immigrant status, as long as the endorsement

has not yet expired and the proposed employment is not in conflict with any restrictions or limitation identified on the form.

f. Current/valid driver's license from a REAL ID Act state or a state with a REAL ID Act extension for implementation.

g. Driver's license or ID card issued by federal or local government agencies meeting REAL ID standards with photo, name, date of birth, gender, height, eye color and address

h. School ID card with photograph

i. U.S military or draft record

j. U.S. Coast Guard Merchant Mariner Cards

k. Transportation worker ID card

l. Native American Tribal Document

All persons requesting unescorted access will continue to be vetted through the NCIC not have REAL ID Act compliant form of identification and cannot provide supplemental identity proofing documents, they must be escorted at all times while on the installation. The vendor will only be granted access onto Fort Carson Installation if the NCIC III check on the individual shows no disqualifying issues in the check. Gate 3 will allow them to enter the base. If there are disqualifying issues Gate 3 access control will notify the individual contractor that they are being denied access.

The following information can deny an individual entry onto Fort Carson: - The NCIC-III check contains criminal information about the individual that causes the senior commander to determine that the individual presents a potential threat to the good order, discipline, or health and safety of the installation.

- The installation is unable to verify the individual's claimed identity based on the reasonable belief that the individual has submitted fraudulent information concerning his or her identity in the attempt to gain access.

- The individual has a current arrest warrant in NCIC, regardless of the offense or violation.
- The individual is currently barred from entry or access to a Federal installation or facility.
- The individual has been convicted of crimes encompassing sexual assault, armed robbery, rape, child molestation, production or possession of child pornography, trafficking in humans, drug possession with intent to sell or drug distribution.
- The individual has a U.S. conviction of espionage, sabotage, treason, terrorism or murder.
- The individual is a registered sex offender.
- The individual has been convicted of a felony within the past 10 years, regardless of the offense or violation.
- The individual has been convicted of a felony firearms or explosives violation.
- The individual has engaged in acts or activities designed to overthrow the U.S. Government by force.
- The individual is identified in the Terrorist Screening Data Base (TSDB) as a known to be or suspected of being a terrorist or belonging to an organization with known links to terrorism or support of terrorist activity. Contractors who are denied access on to Fort Carson shall immediately contact the Contracting Officer identified in the contract. If more than a one-day pass is required, contact the Contracting Officer for additional procedures. See <https://www.carson.army.mil/> for the latest guidance for COVID-19 Health Protection Requirements.

252.204-7017	Prohibition on the Acquisition of Covered Defense Telecommunications Equipment or Services-Representation. (Tailored)	2021-05		

PROHIBITION ON THE ACQUISITION OF COVERED DEFENSE TELECOMMUNICATIONS EQUIPMENT OR SERVICES-REPRESENTATION (MAY 2021)

The Offeror is not required to complete the representation in this provision if the Offeror has represented in the provision at 252.204-7016, Covered Defense Telecommunications Equipment or Services-Representation, that it "does not provide covered defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument."

(a) *Definitions.* "Covered defense telecommunications equipment or services," "covered mission," "critical technology," and "substantial or essential component," as used in this provision, have the meanings given in the 252.204-7018 clause, Prohibition on the Acquisition of Covered Defense Telecommunications Equipment or Services, of this solicitation.

(b) *Prohibition.* Section 1656 of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115-91) prohibits agencies from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service to carry out covered missions that uses covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

(c) *Procedures.* The Offeror shall review the list of excluded parties in the System for Award Management (SAM) at <https://www.sam.gov> for entities that are excluded when providing any equipment, system, or service to carry out covered missions that uses covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless a waiver is granted.

(d) *Representation.* If in its annual representations and certifications in SAM the Offeror has represented in paragraph (c) of the provision at 252.204-7016, Covered Defense Telecommunications Equipment or Services-Representation, that it "does" provide covered

defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument, then the Offeror shall complete the following additional representation:

The Offeror represents that it will will not provide covered defense telecommunications equipment or services as a part of its offered products or services to DoD in the performance of any award resulting from this solicitation.

(e) *Disclosures.* If the Offeror has represented in paragraph (d) of this provision that it "will provide covered defense telecommunications equipment or services," the Offeror shall provide the following information as part of the offer:

(1) A description of all covered defense telecommunications equipment and services offered (include brand or manufacturer; product, such as model number, original equipment manufacturer (OEM) number, manufacturer part number, or wholesaler number; and item description, as applicable).

(2) An explanation of the proposed use of covered defense telecommunications equipment and services and any factors relevant to determining if such use would be permissible under the prohibition referenced in paragraph (b) of this provision.

(3) For services, the entity providing the covered defense telecommunications services (include entity name, unique entity identifier, and Commercial and Government Entity (CAGE) code, if known).

(4) For equipment, the entity that produced or provided the covered defense telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known).

(End of provision)

Addendum to 52.212-1, Instructions to Offerors - Commercial Products and Commercial Services

ADDENDUM TO FAR 52.212 1 - INSTRUCTIONS TO OFFERORS

1. General

This Request for Quote (RFQ) is issued in accordance with FAR Part 12, Commercial Items.

All offerors shall submit quotes using the required Contract Line-Item Number (CLIN) structure. Quotes must be submitted via email only to the points of contact listed below and received no later than **22 May 2026 at 10:00 am MDT. A sight visit shall be conducted on 18 May 2026 at 10:00 AM MDT.**

Quotes shall remain valid for a minimum of 60 calendar days.

2. Quote Submission Requirements

Each quotation shall include the following:

Offeror name, address, and telephone number

Unit prices and total overall prices

Description of the services offered in sufficient detail to evaluate compliance with the solicitation and the Performance Work Statement (PWS)

Any discount terms

CAGE Code

Unique Entity Identifier (UEID)

Business size/status

Taxpayer Identification Number (TIN)

Acknowledgment of any solicitation amendments

Offerors are responsible for verifying that their quotation was received prior to the closing date and time.

3. Submission Instructions

Email Subject Line: **W911RZ 26 Q A016**

Submit quotes to:

Contracting Specialist: george.e.hargis.civ@army.mil

Contracting Officer: farah.surin.civ@army.mil

Quotes received after the closing date and time will be considered late in accordance with FAR 52.212 1(f) and will not be evaluated.

Offerors who wish their submission to be treated as proprietary under the Procurement Integrity Act should clearly mark each page as "Proprietary Information."

4. Evaluation and Award

The Government intends to evaluate quotations and make an award without discussion. All quotes will be evaluated first on price. The lowest priced quote will be evaluated for technical acceptability on an acceptable/unacceptable basis. If the lowest priced quote is found to be technically acceptable, then no further evaluations will be conducted and award will be made. If the lowest priced quote is not technically acceptable, the next lowest priced quote will be evaluated, and so on until a technically acceptable quote is found. If an offer does not comply with every requirement, that offer will not be technically acceptable. Offerors should therefore submit their best terms with their initial submission. However, the Government reserves the right to conduct discussions if determined necessary by the Contracting Officer.

The Government is not obligated to award a contract because of this RFQ, nor is it responsible for any costs incurred in preparing a quotation.

5. Request for Information (RFI): The Contractor shall submit all questions and concerns in writing via email. Questions shall be emailed to George Hargis at george.e.hargis.civ@army.mil no later than **20 May 2026, at 10:00 am MDT**. The body of the email shall be numbered per question and contain questions in a clear and concise manner with specific reference to the page number and section of the solicitation, if applicable. All questions will be consolidated and answered in one document. Questions and answers will be available in the form of an amendment to the solicitation.

6. SAM Registration

In accordance with FAR 4.1102(a), offerors must be registered in the System for Award Management (SAM) at the time of quote submission.

Offerors shall include their UEID on the cover page of their quotation. If an offeror does not have a UEID, it must obtain one through www.sam.gov.

*** END OF NARRATIVE ***

Addendum to Evaluation - Commercial Product and Commercial Services

ADDENDUM TO FAR 52.212 2 -- EVALUATION OF COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES

The Government intends to award a Firm Fixed Price (FFP) contract to the responsible offeror whose quotation conforms to the solicitation and is most advantageous to the Government, considering price and other factors in accordance with FAR Parts 12.

Award will be made based on the lowest evaluated price among proposals that meet or exceed the Technical Acceptability standard.

1. Evaluation Factors

Offers will be evaluated based on the following factors:

(a) Price - FIRST

Offerors shall complete all CLIN pricing in the solicitation.

Price evaluation will include:

Total evaluated price for the base period only

An additional amount equal to one half of the offeror's base period price, representing the Government's potential use of FAR 52.217 8, Option to Extend Services

Offerors shall not submit a price for the potential six month extension under FAR 52.217 8.

The Government may determine an offer unacceptable if option pricing is significantly unbalanced.

Offerors should assume the Government has no prior knowledge of their experience. Evaluation will be based solely on information provided in the quotation. The Contracting Officer is not responsible for locating or obtaining information not included in the offer.

(b) Technical Ability to Complete the Requirements - Second

The offeror must demonstrate the ability to perform all requirements of the Performance Work Statement (PWS). Technical submissions must include:

Demonstrated understanding of the PWS requirements

Proof of required certifications

Lead time for performance

Merely restating the PWS requirements does not demonstrate technical understanding and will be evaluated accordingly.

To be considered for further evaluation, an offer must be rated Technically Acceptable. Offers that fail to meet all requirements will be rated Unacceptable.

Technical Ratings

Rating Description

Acceptable Offer clearly meets the minimum requirements of the solicitation.

Unacceptable Offer does not clearly meet the minimum requirements of the solicitation.

2. Award Without Discussions

The Government intends to evaluate offers and make an award without discussion. However, the Government reserves the right to conduct discussions if determined to be in its best interest.
