CLAUSES INCORPORATED BY FULL TEXT

52.212-1 INSTRUCTIONS TO OFFERORS--COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (FEB 2026)

(a) Submission of offers. Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. As a minimum, offers shall include—

- (1) The solicitation number;
- (2) The name, address, telephone number of the Offeror;
- (3) The Offeror's Unique Entity Identifier (UEI) and, if applicable, Electronic Funds Transfer (EFT) indicator;
- (4) Information necessary to evaluate the factors contained in the provision at 52.212-2 or as described in the solicitation;
- (5) Responses to provisions that require Offeror completion of information, representations, and certifications (other than those collected via the System for Award Management (SAM)); and
- (6) A statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation and any solicitation amendments.

(b) Period for acceptance of offers. The Offeror agrees to hold the prices in its offer firm for 60 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(c) Late submissions, modifications, revisions, and withdrawals of offers.

(1) Offerors are responsible for submitting offers and any modifications or revisions to the Government office designated in the solicitation by the time specified in the solicitation.

(2) Any offer, modification, or revision received after the time specified for receipt of offers is "late" and will not be considered unless it is received before award is made and the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition. However, a late modification of an otherwise successful offer that makes its terms more favorable to the Government will be considered at any time it is received and may be accepted.

(3) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(4) Offerors may withdraw their offers by written notice to the Government received at any time before award.

(d) Contract award (not applicable to Invitation for Bids). The Government intends to evaluate offers and award a contract without discussions with Offerors. Therefore, the Offeror's initial offer should contain the Offeror's best terms. However, the Government reserves the right to conduct discussions, if necessary. The Government may reject any or all offers if such action is in the public interest, accept other than the lowest offer, and waive informalities and minor irregularities in offers received.

(e) Debriefings. If a postaward debriefing is given to requesting Offerors, the Government will disclose the following information, if applicable:

(1) The agency's evaluation of the significant weak or deficient factors in the debriefed Offeror's offer.

(2) The overall evaluated cost or price and technical rating of the successful Offeror and the debriefed Offeror and past performance information on the debriefed Offeror.

(3) The overall ranking of all Offerors when any ranking was developed by the agency during source selection.

(4) A summary of the rationale for award.

(5) For acquisitions of commercial products, the make and model of the product to be delivered by the successful Offeror.

(6) Reasonable responses to relevant questions posed by the debriefed Offeror as to whether the agency followed source-selection procedures set forth in the solicitation, applicable regulations, and other applicable authorities.

(End of provision)

52.212-2 EVALUATION--COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (FEB 2026)

(a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

REFER TO ADDENDUM TO 52.212-2(a)

(b) Options (if applicable). The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) Notice of award. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of provision)

52.222-18 CERTIFICATION REGARDING KNOWLEDGE OF CHILD LABOR FOR LISTED END PRODUCTS (FEB 2021)

(a) Definition.

Forced or indentured child labor means all work or service--

(1) Exacted from any person under the age of 18 under the menace of any penalty for its nonperformance and for which the worker does not offer himself voluntarily; or

(2) Performed by any person under the age of 18 pursuant to a contract the enforcement of which can be accomplished by process or penalties.

(b) Listed end products. The following end product(s) being acquired under this solicitation is (are) included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, identified by their country of origin. There is a reasonable basis to believe that listed end products from the listed countries of origin may have been mined, produced, or manufactured by forced or indentured child labor.

Listed end product	Listed countries of origin
Electronics	China

(c) Certification. The Government will not make award to an offeror unless the offeror, by checking the appropriate block, certifies to either paragraph (c)(1) or paragraph (c)(2) of this provision.

() (1) The offeror will not supply any end product listed in paragraph (b) of this provision that was mined, produced, or manufactured in a corresponding country as listed for that end product.

() (2) The offeror may supply an end product listed in paragraph (b) of this provision that was mined, produced, or manufactured in the corresponding country as listed for that product. The offeror certifies that it has made a good faith effort to determine whether forced or indentured child labor was used to mine, produce, or manufacture such end product. On the basis of those efforts, the offeror certifies that it is not aware of any such use of child labor.

(End of provision)

52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE (FEB 1998)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es):

FAR: <https://www.acquisition.gov/far-overhaul>

DFARS: https://www.acq.osd.mil/dpap/dars/dfars_far_overhaul_class_deviations.html

(End of provision)

52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

FAR: <https://www.acquisition.gov/far-overhaul>

DFARS: https://www.acq.osd.mil/dpap/dars/dfars_far_overhaul_class_deviations.html

(End of clause)

252.204-7017 PROHIBITION ON THE ACQUISITION OF COVERED DEFENSE TELECOMMUNICATIONS EQUIPMENT OR SERVICES--REPRESENTATION (MAY 2021)

The Offeror is not required to complete the representation in this provision if the Offeror has represented in the provision at 252.204-7016, Covered Defense Telecommunications Equipment or Services--Representation, that it “does not provide covered defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument.”

(a) Definitions. Covered defense telecommunications equipment or services, covered mission, critical technology, and substantial or essential component, as used in this provision, have the meanings given in the 252.204-7018 clause, Prohibition on the Acquisition of Covered Defense Telecommunications Equipment or Services, of this solicitation.

(b) Prohibition. Section 1656 of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115-91) prohibits agencies from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service to carry out covered missions that uses covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

(c) Procedures. The Offeror shall review the list of excluded parties in the System for Award Management (SAM) at <https://www.sam.gov> for entities that are excluded when providing any equipment, system, or service to carry out covered missions that uses covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless a waiver is granted.

(d) Representation. If in its annual representations and certifications in SAM the Offeror has represented in paragraph (c) of the provision at 252.204-7016, Covered Defense Telecommunications Equipment or Services--Representation, that it “does” provide covered defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument, then the Offeror shall complete the following additional representation:

The Offeror represents that it [] will [] will not provide covered defense telecommunications equipment or services as a part of its offered products or services to DoD in the performance of any award resulting from this solicitation.

(e) Disclosures. If the Offeror has represented in paragraph (d) of this provision that it “will provide covered defense telecommunications equipment or services,” the Offeror shall provide the following information as part of the offer:

(1) A description of all covered defense telecommunications equipment and services offered (include brand or manufacturer; product, such as model number, original equipment manufacturer (OEM) number, manufacturer part number, or wholesaler number; and item description, as applicable).

(2) An explanation of the proposed use of covered defense telecommunications equipment and services and any factors relevant to determining if such use would be permissible under the prohibition referenced in paragraph (b) of this provision.

(3) For services, the entity providing the covered defense telecommunications services (include entity name, unique entity identifier, and Commercial and Government Entity (CAGE) code, if known).

(4) For equipment, the entity that produced or provided the covered defense telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known).

(End of provision)

252.204-7998 ALTERNATE A, ANNUAL REPRESENTATIONS AND CERTIFICATIONS (FEB 2026)

Include the following paragraphs (e), (f), and (g) in the provision at FAR 52.204-7:

(e)(1) If the provision at FAR 52.204-7, System for Award Management –Registration, is included in this solicitation, paragraph (g) of this provision applies.

(2) If the provision at FAR 52.204-7, System for Award Management –Registration, is not included in this solicitation, and the Offeror has an active registration in the System for Award Management (SAM), the Offeror may choose to use paragraph (g) of this provision instead of completing the corresponding individual representations and certifications in the solicitation. The Offeror shall indicate which option applies by checking one of the following boxes:

____ (i) Paragraph (g) applies.

____ (ii) Paragraph (g) does not apply and the Offeror has completed the individual representations and certifications in the solicitation.

(f)(1) The following representations or certifications in the SAM database are applicable to this solicitation as indicated:

(i) 252.204-7016, Covered Defense Telecommunications Equipment or Services—Representation. Applies to all solicitations.

(ii) 252.216-7008, Economic Price Adjustment—Wage Rates or Material Prices Controlled by a Foreign Government. Applies to solicitations for fixed-price supply and service contracts when the contract is to be performed wholly or in part in a foreign country, and a foreign government controls wage rates or material prices and may during contract performance impose a mandatory change in wages or prices of materials.

(iii) 252.225-7042, Authorization to Perform. Applies to all solicitations when performance will be wholly or in part in a foreign country.

(iv) 252.225-7049, Prohibition on Acquisition of Certain Foreign Commercial Satellite Services—Representations. Applies to solicitations for the acquisition of commercial satellite services.

(v) 252.225-7050, Disclosure of Ownership or Control by the Government of a Country that is a State Sponsor of Terrorism. Applies to all solicitations expected to result in contracts of \$150,000 or more.

(vi) 252.229-7012, Tax Exemptions (Italy)—Representation. Applies to solicitations when contract performance will be in Italy.

(vii) 252.229-7013, Tax Exemptions (Spain)—Representation. Applies to solicitations when contract performance will be in Spain.

(2) The following representations or certifications in SAM are applicable to this solicitation as indicated by the Contracting Officer:

XX (i) 252.209-7002, Disclosure of Ownership or Control by a Foreign Government.

____ (ii) 252.225-7000, Buy American—Balance of Payments Program Certificate.

____ (iii) 252.225-7020, Trade Agreements Certificate.

____ Use with Alternate I.

____ (iv) 252.225-7031, Secondary Arab Boycott of Israel.

____ (v) 252.225-7035, Buy American—Free Trade Agreements—Balance of Payments Program Certificate.

____ Use with Alternate I.

____ Use with Alternate II.

____ Use with Alternate III.

____ Use with Alternate IV.

____ Use with Alternate V.

____ (vi) 252.226-7002, Representation for Demonstration Project for Contractors Employing Persons with Disabilities.

____ (vii) 252.232-7015, Performance-Based Payments—Representation.

(g) The Offeror has completed the annual representations and certifications electronically via the SAM website at <https://www.sam.gov> After reviewing the SAM database information, the Offeror verifies by submission of the offer that the representations and certifications currently posted electronically that apply to this solicitation as indicated in

FAR 52.204-7 and paragraph (f) of this provision have been entered or updated within the last 12 months, are current, accurate, complete, and applicable to this solicitation (including the business size standard applicable to the NAICS code referenced for this solicitation), as of the date of this offer, and are incorporated in this offer by reference (see FAR 4.203-1); except for the changes identified below [Offeror to insert changes, identifying change by provision number, title, date]. These amended representation(s) and/or certification(s) are also incorporated in this offer and are current, accurate, and complete as of the date of this offer.

FAR/DFARS provision No.	Title	Date	Change

Any changes provided by the Offeror are applicable to this solicitation only, and do not result in an update to the representations and certifications located in the SAM database.

(End of provision)

252.211-7003 ITEM UNIQUE IDENTIFICATION AND VALUATION (JAN 2023)

(a) Definitions. As used in this clause-

Automatic identification device means a device, such as a reader or interrogator, used to retrieve data encoded on machine-readable media.

Concatenated unique item identifier means--

(1) For items that are serialized within the enterprise identifier, the linking together of the unique identifier data elements in order of the issuing agency code, enterprise identifier, and unique serial number within the enterprise identifier; or

(2) For items that are serialized within the original part, lot, or batch number, the linking together of the unique identifier data elements in order of the issuing agency code; enterprise identifier; original part, lot, or batch number; and serial number within the original part, lot, or batch number.

Data Matrix means a two-dimensional matrix symbology, which is made up of square or, in some cases, round modules arranged within a perimeter finder pattern and uses the Error Checking and Correction 200 (ECC200) specification found within International Standards Organization (ISO)/International Electrotechnical Commission (IEC) 16022.

Data qualifier means a specified character (or string of characters) that immediately precedes a data field that defines the general category or intended use of the data that follows.

DoD recognized unique identification equivalent means a unique identification method that is in commercial use and has been recognized by DoD. All DoD recognized unique identification equivalents are listed at <https://www.acq.osd.mil/asda/dpc/ce/ds/unique-id.html>.

DoD item unique identification means a system of marking items delivered to DoD with unique item identifiers that have machine-readable data elements to distinguish an item from all other like and unlike items. For items that are serialized within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier and a unique serial number. For items that are serialized within the part, lot, or batch number within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier; the original part, lot, or batch number; and the serial number.

Enterprise means the entity (e.g., a manufacturer or vendor) responsible for assigning unique item identifiers to items.

Enterprise identifier means a code that is uniquely assigned to an enterprise by an issuing agency.

Government's unit acquisition cost means--

- (1) For fixed-price type line, subline, or exhibit line items, the unit price identified in the contract at the time of delivery;
- (2) For cost-type or undefinitized line, subline, or exhibit line items, the Contractor's estimated fully burdened unit cost to the Government at the time of delivery; and
- (3) For items produced under a time-and-materials contract, the Contractor's estimated fully burdened unit cost to the Government at the time of delivery.

Issuing agency means an organization responsible for assigning a globally unique identifier to an enterprise, as indicated in the Register of Issuing Agency Codes for ISO/IEC 15459, located at http://www.aimglobal.org/?Reg_Authority15459.

Issuing agency code means a code that designates the registration (or controlling) authority for the enterprise identifier.

Item means a single hardware article or a single unit formed by a grouping of subassemblies, components, or constituent parts.

Lot or batch number means an identifying number assigned by the enterprise to a designated group of items, usually referred to as either a lot or a batch, all of which were manufactured under identical conditions.

Machine-readable means an automatic identification technology media, such as bar codes, contact memory buttons, radio frequency identification, or optical memory cards.

Original part number means a combination of numbers or letters assigned by the enterprise at item creation to a class of items with the same form, fit, function, and interface.

Parent item means the item assembly, intermediate component, or subassembly that has an embedded item with a unique item identifier or DoD recognized unique identification equivalent.

Serial number within the enterprise identifier means a combination of numbers, letters, or symbols assigned by the enterprise to an item that provides for the differentiation of that item from any other like and unlike item and is never used again within the enterprise.

Serial number within the part, lot, or batch number means a combination of numbers or letters assigned by the enterprise to an item that provides for the differentiation of that item from any other like item within a part, lot, or batch number assignment.

Serialization within the enterprise identifier means each item produced is assigned a serial number that is unique among all the tangible items produced by the enterprise and is never used again. The enterprise is responsible for ensuring unique serialization within the enterprise identifier.

Serialization within the part, lot, or batch number means each item of a particular part, lot, or batch number is assigned a unique serial number within that part, lot, or batch number assignment. The enterprise is responsible for ensuring unique serialization within the part, lot, or batch number within the enterprise identifier.

Type designation means a combination of letters and numerals assigned by the Government to a major end item, assembly or subassembly, as appropriate, to provide a convenient means of differentiating between items having the same basic name and to indicate modifications and changes thereto.

Unique item identifier means a set of data elements marked on items that is globally unique and unambiguous. The term includes a concatenated unique item identifier or a DoD recognized unique identification equivalent.

Unique item identifier type means a designator to indicate which method of uniquely identifying a part has been used. The current list of accepted unique item identifier types is maintained at <https://www.acq.osd.mil/asda/dpc/cc/ds/unique-id.html>.

(b) The Contractor shall deliver all items under a contract line, subline, or exhibit line item.

(c) Unique item identifier. (1) The Contractor shall provide a unique item identifier for the following:

(i) Delivered items for which the Government's unit acquisition cost is \$5,000 or more, except for the following line items:

Contract line, subline, or exhibit line item No.	Item description
.....	

(ii) Items for which the Government's unit acquisition cost is less than \$5,000 that are identified in the Schedule or the following table:

Contract line, subline, or exhibit line item No.	Item description
.....	

(If items are identified in the Schedule, insert "See Schedule" in this table.)

(iii) Subassemblies, components, and parts embedded within delivered items, items with warranty requirements, DoD serially managed repairables and DoD serially managed nonrepairables as specified in Attachment Number ----.

(iv) Any item of special tooling or special test equipment as defined in FAR 2.101 that have been designated for preservation and storage for a Major Defense Acquisition Program as specified in Attachment Number ----.

(v) Any item not included in paragraphs (c)(1)(i), (ii), (iii), or

(iv) of this clause for which the contractor creates and marks a unique item identifier for traceability.

(2) The unique item identifier assignment and its component data element combination shall not be duplicated on any other item marked or registered in the DoD Item Unique Identification Registry by the contractor.

(3) The unique item identifier component data elements shall be marked on an item using two dimensional data matrix symbology that complies with ISO/IEC International Standard 16022, Information technology--International symbology specification--Data matrix; ECC200 data matrix specification.

(4) Data syntax and semantics of unique item identifiers. The Contractor shall ensure that--

(i) The data elements (except issuing agency code) of the unique item identifier are encoded within the data matrix symbol that is marked on the item using one of the following three types of data qualifiers, as determined by the Contractor:

(A) Application Identifiers (AIs) (Format Indicator 05 of ISO/IEC International Standard 15434), in accordance with ISO/IEC International Standard 15418, Information Technology--EAN/UCC Application Identifiers and Fact Data Identifiers and Maintenance and ANSI MH 10.8.2 Data Identifier and Application Identifier Standard.

(B) Data Identifiers (DIs) (Format Indicator 06 of ISO/IEC International Standard 15434), in accordance with ISO/IEC International Standard 15418, Information Technology--EAN/UCC Application Identifiers and Fact Data Identifiers and Maintenance and ANSI MH 10.8.2 Data Identifier and Application Identifier Standard.

(C) Text Element Identifiers (TEIs) (Format Indicator 12 of ISO/IEC International Standard 15434), in accordance with the Air Transport Association Common Support Data Dictionary; and

(ii) The encoded data elements of the unique item identifier conform to the transfer structure, syntax, and coding of messages and data formats specified for Format Indicators 05, 06, and 12 in ISO/IEC International Standard 15434, Information Technology-Transfer Syntax for High Capacity Automatic Data Capture Media.

(5) Unique item identifier.

(i) The Contractor shall--

(A) Determine whether to--

(1) Serialize within the enterprise identifier;

(2) Serialize within the part, lot, or batch number; or

(3) Use a DoD recognized unique identification equivalent (e.g. Vehicle Identification Number); and

(B) Place the data elements of the unique item identifier (enterprise identifier; serial number; DoD recognized unique identification equivalent; and for serialization within the part, lot, or batch number only: Original part, lot, or batch number) on items requiring marking by paragraph (c)(1) of this clause, based on the criteria provided in MIL-STD-130, Identification Marking of U.S. Military Property, latest version;

(C) Label shipments, storage containers and packages that contain uniquely identified items in accordance with the requirements of MIL-STD-129, Military Marking for Shipment and Storage, latest version; and

(D) Verify that the marks on items and labels on shipments, storage containers, and packages are machine readable and conform to the applicable standards. The contractor shall use an automatic identification technology device for this verification that has been programmed to the requirements of Appendix A, MIL-STD-130, latest version.

(ii) The issuing agency code--

(A) Shall not be placed on the item; and

(B) Shall be derived from the data qualifier for the enterprise identifier.

(d) For each item that requires item unique identification under paragraph (c)(1)(i), (ii), or (iv) of this clause or when item unique identification is provided under paragraph (c)(1)(v), in addition to the information provided as part of the Material Inspection and Receiving Report specified elsewhere in this contract, the Contractor shall report at the time of delivery, as part of the Material Inspection and Receiving Report, the following information:

(1) Unique item identifier.

- (2) Unique item identifier type.
 - (3) Issuing agency code (if concatenated unique item identifier is used).
 - (4) Enterprise identifier (if concatenated unique item identifier is used).
 - (5) Original part number (if there is serialization within the original part number).
 - (6) Lot or batch number (if there is serialization within the lot or batch number).
 - (7) Current part number (optional and only if not the same as the original part number).
 - (8) Current part number effective date (optional and only if current part number is used).
 - (9) Serial number (if concatenated unique item identifier is used).
 - (10) Government's unit acquisition cost.
 - (11) Unit of measure.
 - (12) Type designation of the item as specified in the contract schedule, if any.
 - (13) Whether the item is an item of Special Tooling or Special Test Equipment.
 - (14) Whether the item is covered by a warranty.
- (e) For embedded subassemblies, components, and parts that require DoD unique item identification under paragraph (c)(1)(iii) of this clause, the Contractor shall report as part of, or associated with, the Material Inspection and Receiving Report specified elsewhere in this contract, the following information:
- (1) Unique item identifier of the parent item under paragraph (c)(1) of this clause that contains the embedded subassembly, component, or part.
 - (2) Unique item identifier of the embedded subassembly, component, or part.
 - (3) Unique item identifier type.**
 - (4) Issuing agency code (if concatenated unique item identifier is used).**
 - (5) Enterprise identifier (if concatenated unique item identifier is used).**
 - (6) Original part number (if there is serialization within the original part number).**
 - (7) Lot or batch number (if there is serialization within the lot or batch number).**
 - (8) Current part number (optional and only if not the same as the original part number).**
 - (9) Current part number effective date (optional and only if current part number is used).**
 - (10) Serial number (if concatenated unique item identifier is used).**
 - (11) Description.
- ** Once per item.

(f) The Contractor shall submit the information required by paragraphs (d) and (e) of this clause as follows:

(1) End items shall be reported using the receiving report capability in Wide Area WorkFlow (WAWF) in accordance with the clause at 252.232-7003. If WAWF is not required by this contract, and the contractor is not using WAWF, follow the procedures at <http://dodprocurementtoolbox.com/site/uidregistry/>.

(2) Embedded items shall be reported by one of the following methods--

(i) Use of the embedded items capability in WAWF;

(ii) Direct data submission to the IUID Registry following the procedures and formats at <http://dodprocurementtoolbox.com/site/uidregistry/>; or

(iii) Via WAWF as a deliverable attachment for exhibit line item number (fill in) ----, Unique Item Identifier Report for Embedded Items, Contract Data Requirements List, DD Form 1423.

(g) Subcontracts. If the Contractor acquires by subcontract any item(s) for which item unique identification is required in accordance with paragraph (c)(1) of this clause, the Contractor shall include this clause, including this paragraph (g), in the applicable subcontract(s), including subcontracts for commercial products or commercial services.

(End of clause)

252.232-7006 WIDE AREA WORKFLOW PAYMENT INSTRUCTIONS (JAN 2023)

(a) Definitions. As used in this clause—

“Department of Defense Activity Address Code (DoDAAC)” is a six position code that uniquely identifies a unit, activity, or organization.

“Document type” means the type of payment request or receiving report available for creation in Wide Area WorkFlow (WAWF).

“Local processing office (LPO)” is the office responsible for payment certification when payment certification is done external to the entitlement system.

“Payment request” and “receiving report” are defined in the clause at 252.232-7003, Electronic Submission of Payment Requests and Receiving Reports.

(b) Electronic invoicing. The WAWF system provides the method to electronically process vendor payment requests and receiving reports, as authorized by Defense Federal Acquisition Regulation Supplement (DFARS) 252.232-7003, Electronic Submission of Payment Requests and Receiving Reports.

(c) WAWF access. To access WAWF, the Contractor shall—

(1) Have a designated electronic business point of contact in the System for Award Management at <https://www.sam.gov>; and

(2) Be registered to use WAWF at <https://wawf.eb.mil/> following the step-by-step procedures for self-registration available at this web site.

(d) WAWF training. The Contractor should follow the training instructions of the WAWF Web-Based Training Course and use the Practice Training Site before submitting payment requests through WAWF. Both can be accessed by selecting the “Web Based Training” link on the WAWF home page at <https://wawf.eb.mil/>.

(e) WAWF methods of document submission. Document submissions may be via web entry, Electronic Data Interchange, or File Transfer Protocol.

(f) WAWF payment instructions. The Contractor shall use the following information when submitting payment requests and receiving reports in WAWF for this contract or task or delivery order:

(1) Document type. The Contractor shall submit payment requests using the following document type(s):

(i) For cost-type line items, including labor-hour or time-and-materials, submit a cost voucher.

(ii) For fixed price line items—

(A) That require shipment of a deliverable, submit the invoice and receiving report specified by the Contracting Officer.

COMBO

(B) For services that do not require shipment of a deliverable, submit either the Invoice 2in1, which meets the requirements for the invoice and receiving report, or the applicable invoice and receiving report, as specified by the Contracting Officer.

N/A

(iii) For customary progress payments based on costs incurred, submit a progress payment request.

(iv) For performance based payments, submit a performance based payment request.

(v) For commercial financing, submit a commercial financing request.

(2) Fast Pay requests are only permitted when Federal Acquisition Regulation (FAR) 52.213-1 is included in the contract.

[Note: The Contractor may use a WAWF “combo” document type to create some combinations of invoice and receiving report in one step.]

(3) Document routing. The Contractor shall use the information in the Routing Data Table below only to fill in applicable fields in WAWF when creating payment requests and receiving reports in the system.

Routing Data Table*

<i>Field Name in WAWF</i>	<i>Data to be entered in WAWF</i>
Pay Official DoDAAC	HQ0810
Issue By DoDAAC	HC1019
Admin DoDAAC**	HC1019
Inspect By DoDAAC	HC1003
Ship To Code	HC1003
Ship From Code	_____
Mark For Code	_____
Service Approver (DoDAAC)	_____

Service Acceptor (DoDAAC)	HC1003
Accept at Other DoDAAC	HC1003
LPO DoDAAC	_____
DCAA Auditor DoDAAC	_____
Other DoDAAC(s)	_____

(4) Payment request. The Contractor shall ensure a payment request includes documentation appropriate to the type of payment request in accordance with the payment clause, contract financing clause, or Federal Acquisition Regulation 52.216-7, Allowable Cost and Payment, as applicable.

(5) Receiving report. The Contractor shall ensure a receiving report meets the requirements of DFARS Appendix F.

(g) WAWF point of contact.

(1) The Contractor may obtain clarification regarding invoicing in WAWF from the following contracting activity's WAWF point of contact.

valerie.n.pettit.civ@mail.mil

(2) Contact the WAWF helpdesk at 866-618-5988, if assistance is needed.

(End of clause)

252.239-7009 REPRESENTATION OF USE OF CLOUD COMPUTING (SEPT 2015)

(a) Definition. Cloud computing, as used in this provision, means a model for enabling ubiquitous, convenient, on-demand network access to a shared pool of configurable computing resources (e.g., networks, servers, storage, applications, and services) that can be rapidly provisioned and released with minimal management effort or service provider interaction. This includes other commercial terms, such as on-demand self-service, broad network access, resource pooling, rapid elasticity, and measured service. It also includes commercial offerings for software-as-a-service, infrastructure-as-a-service, and platform-as-a-service.

(b) The Offeror shall indicate by checking the appropriate blank in paragraph (c) of this provision whether the use of cloud computing is anticipated under the resultant contract.

(c) Representation. The Offeror represents that it--

___ Does anticipate that cloud computing services will be used in the performance of any contract or subcontract resulting from this solicitation.

___ Does not anticipate that cloud computing services will be used in the performance of any contract or subcontract resulting from this solicitation.

(End of provision)

252.239-7017 NOTICE OF SUPPLY CHAIN RISK (DEC 2022)

(a) Definition. Supply chain risk, as used in this provision, means the risk that an adversary may sabotage, maliciously introduce unwanted function, or otherwise subvert the design, integrity, manufacturing, production, distribution, installation, operation, or maintenance of a covered system so as to surveil, deny, disrupt, or otherwise degrade the function, use, or operation of such system (see 10 U.S.C. 3252).

(b) In order to manage supply chain risk, the Government may use the authorities provided by 10 U.S.C. 3252. In exercising these authorities, the Government may consider information, public and non-public, including all-source intelligence, relating to an offeror and its supply chain.

(c) If the Government exercises the authority provided in 10 U.S.C. 3252 to limit disclosure of information, no action undertaken by the Government under such authority shall be subject to review in a bid protest before the Government Accountability Office or in any Federal court.

(End of provision)

252.239-7018 SUPPLY CHAIN RISK (DEC 2022)

(a) Definitions. As used in this clause--

Information technology (see 40 U.S.C 11101(6)) means, in lieu of the definition at FAR 2.1, any equipment, or interconnected system(s) or subsystem(s) of equipment, that is used in the automatic acquisition, storage, analysis, evaluation, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or information by the agency.

(1) For purposes of this definition, equipment is used by an agency if the equipment is used by the agency directly or is used by a contractor under a contract with the agency that requires—

(i) Its use; or

(ii) To a significant extent, its use in the performance of a service or the furnishing of a product.

(2) The term “information technology” includes computers, ancillary equipment (including imaging peripherals, input, output, and storage devices necessary for security and surveillance), peripheral equipment designed to be controlled by the central processing unit of a computer, software, firmware and similar procedures, services (including support services), and related resources.

(3) The term “information technology” does not include any equipment acquired by a contractor incidental to a contract.

Supply chain risk means the risk that an adversary may sabotage, maliciously introduce unwanted function, or otherwise subvert the design, integrity, manufacturing, production, distribution, installation, operation, or maintenance of a covered system so as to surveil, deny, disrupt, or otherwise degrade the function, use, or operation of such system (see 10 U.S.C. 3252).

(b) The Contractor shall mitigate supply chain risk in the provision of supplies and services to the Government.

(c) In order to manage supply chain risk, the Government may use the authorities provided by 10 U.S.C. 3252. In exercising these authorities, the Government may consider information, public and non-public, including all-source intelligence, relating to a Contractor's supply chain.

(d) If the Government exercises the authority provided in 10 U.S.C. 3252 to limit disclosure of information, no action undertaken by the Government under such authority shall be subject to review in a bid protest before the Government Accountability Office or in any Federal court.

(End of clause)

252.240-7998 PROHIBITION ON THE PROCUREMENT OF COVERED SEMICONDUCTOR PRODUCTS AND SERVICES FROM COMPANIES PROVIDING COVERED SEMICONDUCTOR PRODUCTS AND SERVICES TO HUAWEI—REPRESENTATION (SEP 2025) (DEVIATION 2025-O0007)

(a) Prohibition. Section 853 of the National Defense Authorization Act for Fiscal Year 2025 (Pub. L. 118-159) prohibits DoD from entering into or renewing a contract for the procurement of any covered semiconductor products and services for the Department of Defense with any entity that knowingly provides covered semiconductor products and services to Huawei.

(b) Definitions.

(1) “Covered semiconductor products and services” means—

- (i) Semiconductors;
- (ii) Equipment for manufacturing semiconductors; and
- (iii) Tools for designing semiconductors.

(2) “Huawei” means—

- (i) Huawei Technologies Company;
- (ii) Any entity that is a subsidiary, owner, beneficial owner, affiliate, or successor of Huawei Technologies Company; and
- (iii) Any entity that is directly or indirectly controlled by Huawei Technologies Company.

(c) Representation. By submission of its offer, the Offeror represents that it will not knowingly provide covered semiconductor products and services to Huawei, as described in paragraphs (a) and (b) of this provision, in the performance of any contract resulting from this solicitation.

(End of provision)

252.240-7999 PROHIBITION ON THE PROCUREMENT OF COVERED SEMICONDUCTOR PRODUCTS AND SERVICES FROM COMPANIES PROVIDING COVERED SEMICONDUCTOR PRODUCTS AND SERVICES TO HUAWEI (SEP 2025)(DEVIATION 2025-O0007)

(a) *Prohibition.* In accordance with section 853 of the National Defense Authorization Act for Fiscal Year 2025, during the performance of this contract, the Contractor shall not knowingly provide any covered semiconductor products and services to Huawei.

(b) *Definitions.*

(1) “Covered semiconductor products and services” means—

- (i) Semiconductors;
- (ii) Equipment for manufacturing semiconductors; and
- (iii) Tools for designing semiconductors.

(2) “Huawei” means—

- (i) Huawei Technologies Company;
- (ii) Any entity that is a subsidiary, owner, beneficial owner, affiliate, or successor of Huawei Technologies Company; and
- (iii) Any entity that is directly or indirectly controlled by Huawei Technologies Company.

(End of clause)

G1 POINTS OF CONTACT (FEB 2025)

Communications with the Contractor will be conducted with the identified Point(s) of Contact (POC). Should a change in POC be required, the Contractor shall initiate this request through notification to the Contracting Officer.

G2 LINE ITEM AND CONTRACT/ORDER CLOSEOUT (OCT 2021)

Dormant and/or excess funds consist of funds that are primarily in “expired” or “cancelled” status. Expired funds are no longer available for new obligations, but are available for upward adjustments and payments on prior obligations to include payments on contractor invoices. Cancelled funds are no longer available for upward adjustments to obligations or to pay contractor invoices.

Timely contract closeout of the entire contract/order and of completed individual contract line item number(s) (CLIN) and/or sub line item number(s) (SLIN) is a priority under this contract/order. As such, the Contractor shall submit a final invoice no later than ninety (90) calendar days after the expiration of this contract/order and/or at the expiration of any individual CLIN(s)/SLIN(s) that expire before the final expiration of the contract/order (i.e., end item(s) was scheduled to be delivered or the period of performance (base or option year) was completed), unless the Contractor requests and is granted a written extension by the Contracting Officer. In addition, and concurrent with the submission of the final invoice for a specific CLIN/SLIN or for the contract/order in its entirety, the Contractor shall notify the Contracting Officer of the amount of excess funds that can be deobligated from the CLIN/SLIN or contract/order so the deobligation of any excess funds can be completed as soon as possible.

After ninety (90) days from expiration of a CLIN/SLIN, end item delivery, or contract/order in its entirety, unless an extension had been requested and granted by the Contracting Officer in writing, a bilateral contract/order modification to deobligate excess funds and/or closeout the contract/order in its entirety will be forwarded to the Contractor by the Contracting Officer. The modification must be signed and returned to the Contracting Officer within thirty (30) calendar days of receipt. A Contractor's failure to respond and/or sign the bilateral modification within thirty (30) calendar days of receipt will constitute approval of the terms of the modification and the modification will subsequently be processed unilaterally by the Contracting Officer to deobligate excess funds and/or closeout the contract/order.

For cost reimbursement CLINs/SLINs, contracting officers will use FAR 42.708, Quick-closeout procedures to the maximum extent possible after the contract/order is physically complete. Should the contract/order require audit/review (e.g., audits conducted by the Defense Contract Audit Agency), excess funds/balances from CLIN(s)/SLIN(s) that are not required to satisfy potential adjustments as a result of the review/audit will be removed from the CLIN(s)/SLIN(s) through a bilateral modification. The modification will be forwarded by the Contracting Officer and must be signed by the Contractor and returned within thirty (30) calendar days of receipt. A Contractor's failure to respond within thirty (30) calendar days of receipt will constitute approval of the terms of the modification and the modification will subsequently be processed unilaterally by the Contracting Officer to remove the excess funds/balances on the associated CLINs/SLINs. If the Contractor disagrees with amount for deobligation they will notify the Contracting Officer promptly with the proposed amount and rationale for deobligation.

Communications with the Contractor will be conducted with the identified Point(s) of Contact (POC) identified in G1 of this contract/order. Should a change in POC be required, the Contractor shall immediately notify the Contracting Officer.

(End of Text)

H1 ORGANIZATIONAL AND CONSULTANT CONFLICTS OF INTEREST (OCCI) (JAN 2020)

If the contractor or a subcontractor breaches any of the OCCI restrictions of the contract, to include any OCCI mitigation plan submitted with its offer, or does not disclose or misrepresents any relevant facts concerning its conflict of interest, the government may take appropriate action, including terminating the contract, in addition to any remedies that may be otherwise permitted by the contract or operation of law.

(End of text)

H2 REQUIREMENT TO SUBMIT AN ELECTRONIC PRODUCT LIST (OCT 2021)

The contractor shall submit the following in addition to complying with all requirements of DFARS 252.211-7003, Item Identification and Valuation:

- (a) Complete the Electronic Product List (EPL) attached to this contract for all products delivered under this contract. If a copy of the EPL has not been provided with the contract document, the EPL should be obtained from the Contracting Officer. A separate EPL shall be submitted each time products are delivered under this contract, including when products are replaced through a warranty or service support agreement.
- (b) The EPL shall be delivered electronically for review and approval to the Acceptor. The Acceptor is the Customer/COR/TM Point of Contact identified in the DITCO additional text titled: Points of Contact, if method of payment is via the government purchase card, or the WAWF point of contact identified in the clause at DFARS 252.232-7006, Wide Area Work Flow Payment Instructions for contracts processed through WAWF. A copy of the EPL shall also be submitted to the DISA Workforce Services and Development Directorate (WSD) at the following email address: disa.meade.mps.list.mps31-warehouse-branch-cam-l@mail.mil
- (c) The contractor shall submit the EPL to the Acceptor and WSD in advance of or concurrently with delivery of products. The Acceptor will not accept products delivered under this contract until the EPL is approved.
- (d) If the EPL is delivered in advance of the products, the Acceptor will notify the contractor via email if the list is approved or disapproved. If the EPL is delivered concurrently with the products, acceptance of the products delivered via WAWF will also serve as approval of the EPL.

(End of text)

NMR CLASS WAIVER LIST

In accordance with 19.104(f)(3)(iv) - Notification of waiver. This requirement under NAICS 334310 is covered by a class waiver of the Non-Manufacturer Rule (NMR).

Class waiver: <https://www.sba.gov/document/support-non-manufacturer-rule-class-waiver-list>

BAA TAA APPLICABILITY

This requirement is for commercial information technology (IT) products.

Per FAR 25.103(e), the Buy American Act (BAA) does not apply to this requirement

Per FAR 25.401(a)(1), the Trade Agreements subpart of the FAR does not apply to this requirement.

- b. Alternate MP POC. See DITCO Additional Text G1 - Points of Contact
- c. Property Administrator. See DITCO Additional Text G1 - Points of Contact

2. Contract Title. Defense Network Center Pacific (DNC PAC) Video Wall Tech Refresh

3. Background. The video walls in the DNC at Defense Information Systems Agency Pacific (DISA PAC) allows the Watch Officers to share valuable information with the engineers/technicians on the video walls. However, the video walls have reached end of life/end of service (EOL/EOS). Therefore, this contract will tech refresh both video walls in the DNC to ensure the audio/video (A/V) system in the DNC remains fully operational.

4. Objectives. Procure two new video walls and two new video processors and provide incidental installation of the commercial information technology (IT) products in DISA PAC, Ford Island, Building 77, Room 228/229.

5. Scope. Procure equipment for two video walls, two video processors, and miscellaneous A/V equipment/materials. Remove and dispose of existing video walls in the DNC. Install two new video walls, two video processors, and all associated cabling. Label all new cabling. Assist with programming of the control system and test and checkout of the video walls and A/V system in the DNC. Provide product and incidental installation warranty.

6. Performance Requirements.

6.1 Task 1 - Tech Refresh DNC PAC Video Walls. All on-site work requires the Contractor to have an interim or final SECRET clearance due to the workspace access requirements.

6.1.1 Subtask 1 - Disassembly/disposal. Disassemble and remove the two existing video walls from the DNC. Contractor shall dispose of existing video walls.

6.1.2 Subtask 2 - Installation. Install two new video walls, two video processors, and all associated A/V equipment and cabling meeting all salient characteristics and brand name specifications in the attached Product List. Video walls shall be mounted on the same walls as the existing video walls. The existing video walls are on slightly concaved walls. Each new video wall shall be 6' 7.72" H X 23' 7.46" W X 0.95" D (approximate dimensions), 2160x7680 pixels LED. Required brightness: min 1,000 nits each cabinet (cd/sm). Each video wall shall support up to 18 inputs in HDMI format supporting up to 4K. The Contractor shall provide remote power modules and remote video modules for video walls. Existing equipment cabinets are installed in a comm room behind each wall, and all cabinets are supplied with building (Government) uninterruptible power supply (UPS) circuits. The Contractor shall label all new cabling.

6.1.3 Subtask 3 - Programming/Testing. Assist with programming of the control system and test and checkout of the video walls and A/V system in the DNC. Existing control system in place is Extron Electronics. The controller is an Extron IPCP Pro 555Q xi. The video matrix switch is an Extron XTP II Crosspoint 6400. The contractor shall connect to both Government-owned devices, not replace them.

6.1.4 Subtask 4 – Reporting. Provide an equipment installation project plan with proposed schedule. A final updated plan is due no later than two (2) weeks after contract award. Provide weekly updates to the MP POC and additional updates, as necessary, upon request of the Contracting Officer until installation completion.

Deliverables:

PWS Task#	Deliverable Title	Format	Due Date	Distribution/Copies	Frequency and Remarks
6.1.4	Equip Install Project Plan	Written Contractor-Determined Format with Contracting Officer approval	Draft – with proposal Final – 2 weeks after award	1 copy to the Contracting Officer; 1 copy to the MP POC	Draft – with proposal Final – 2 weeks after award
6.1.4	Weekly Status Update	Written Contractor-Determined Format with Contracting Officer approval	Weekly after Government approval of Equip Install Project Plan	1 copy to the Contracting Officer; 1 copy to the MP POC	Weekly

6.2 Task 2 - Installation Warranty. The Contractor shall provide a 12-month warranty on the system and associated installation. Warranty shall include 8 x 5 telephone helpdesk support and remote engineering support for critical system troubleshooting during standard federal government business hours between 7:00 a.m. to 3:30 p.m. HST. The Contractor shall be capable of on-site response time within 8 business hours (7:00 a.m. to 3:30 p.m. HST) of a trouble call if needed. On-site support requires the responder to have an interim or final SECRET clearance due to the workspace access requirements. The Contractor shall acquire and maintain an inventory of spare parts meeting the video wall manufacturer's recommended on-hand replacement parts (15% Video Modules and 10% for Other Parts). The spare parts shall be readily available to support the on-site response within 8 business hours. The Contractor shall store spare parts off-site of the Government's facility. The Government will not provide storage space for the spare parts.

7. Performance Standards.

Performance Standard	Acceptable Quality Level (AQL)	Methods of Calculation
6.1 Task 1 – DNC PAC Video Wall Tech Refresh	Performance occurs with no required re-performance or re-work at least 80% of the time. Problems that occur are minor and are resolved in a satisfactory manner.	Routine/periodic inspection.
6.1 Task 1 – DNC PAC Video Wall Tech Refresh (upon completion of all Subtasks)	All video wall components function 100% in the system.	100% inspection of all delivered products/equipment and testing upon completion of Task 1.
6.2 Task 2 – Installation Warranty	8x5 telephone support provided between 7:00 a.m. to 3:30 p.m. HST and on-site support with proper replacement parts within 8 business hours is provided at least 95% of the time.	Routine/periodic inspection.

8. Incentives. This contract will be evaluated in the Contractor Performance Assessment Reporting System (CPARS).

9. Place of Performance.

Mission Location: DISA PAC, 477 Essex Street, JBPHH, Building 77, Ford Island

Place of Performance: All installation and removal work will be completed on-site at mission location. Installation warranty place of performance shall be in accordance with Task 2: off-site unless on-site response within 8 business hours (7:00 a.m. to 3:30 p.m. HST) of a trouble call is deemed necessary.

10. Period of Performance. The required installation completion date is 12 months from Date of Contract Award. The installation warranty shall be valid for one (1) year after Government acceptance of the newly installed video walls, video processors, and all associated A/V equipment and cabling.

Recognized Federal Holidays: The contractor is not required to perform services on Federal Holidays (as specified on the U.S. Office of Personnel Management website), unless otherwise specified by the Contracting Officer.

Unplanned Federal Government Closure: In the event an authorized official, by either executive or legislative order, declares Federal offices closed (treated as a holiday for pay and leave purposes), the order only applies to Federal employees (unless otherwise stated in the order).

11. Security Requirements.

The work will be UNCLASSIFIED. The following security requirements shall apply to this effort.

The contractor shall coordinate visits with site Point of Contract (POC)s providing at least a 72-hour notice (or according to each site security requirements) prior to any site access. Contractor personnel performing any task under this PWS must have interim or final SECRET clearance.

11.1 Background Investigation. All personnel performing on or supporting a DISA contract in any way shall be U.S. citizens. The personnel security requirements for this contract cover the individuals supporting the Task Areas delineated in the table below. Contractor personnel must possess the interim or final background investigation eligibility delineated in the table below at the time of offer/proposal.

PWS Task / Subtask	Clearance Level	Access	Justification for Access
PWS 6.1, Subtasks 1-3	SECRET	Work site clearance requirements	Contractor will not require access to classified information; however, the workspace requires

			someone to have at a minimum a SECRET clearance.
PWS 6.2	SECRET	Work site clearance requirements	Contractor will not require access to classified information; however, the workspace requires someone to have at a minimum a SECRET clearance.

11.2 Investigation Requirements. All personnel requiring access to SECRET workspace under this contract shall undergo a favorably adjudicated Tier 3 (T3) investigation as a minimum requirement. Enrollment into Continuous Evaluation current within 5 years and reflected in Defense Information System for Security (DISS), would meet the requirement for a current Periodic Reinvestigation (PR).

11.2.1 The contractor is required to have personnel with an interim or final SECRET clearance (as specified in the table located in section 11.1) at contract start date. If contractor personnel are replaced during performance of the contract, replacement personnel shall also have interim or final SECRET clearance.

11.3 Visit Authorization. Visit requests shall be processed and verified through the DISS to Security Management Office (SMO) DKASAA. DISS visits for contracts are identified as “Other” or “TAD/TDY” and will include the contract number in the Additional Information section. Contractors that do not have access to DISS may submit visit authorizations by e-mail in a password protected .pdf to the MP POC specified in PWS Section 1.0.

***Prior coordination with the MP POC should be made via e-mail to ensure the Visit Authorization Letter (VAL)/ Visit Authorization Request (VAR)/ Visit Termination Notification (VTN) process is agreed upon and properly secure.**

11.3.1 VAR Package. VARs must be received via e-mail and require pre-approval from the assigned MP POC five business days in advance of the report date. The VAL/VAR/VTN should be sent via email to the appropriate MP POC. The VAL/VAR/VTN should be sent using in a locked “Zip” file in one e-mail and then followed-up by another e-mail with the password to unlock the Zipped file, because it contains sensitive information covered by the Privacy Act.

Documents to include in the VAR Package:

1. Inter-office Memorandum (IOM)
2. DISS verification of Visit Authorization by Security Manager (if available)
3. Contractor VAL signed by the Contractor Facility Security Officer (FSO) or Program Manager.

NOTE: If DISS is not available, the VAL must contain the following information on company letterhead:

- Company name, address, telephone number, facility security clearance
- CAGE CODE (if available)
- Contract Number
- Name, SSN, date and place of birth, and citizenship of the employee intending to visit, email address, and phone number
- Certification of personnel background investigation authorizations required for the visit (type of investigation & date and adjudication date & agency)
- Name of MP POC
- Dates or period the VAL is to be valid (i.e., Start date / End date)

11.3.2 VTN Package. The Contractor FSO or PM will forward a VTN letter to the DISA MP POC identified in the PWS for all employees leaving the contract.

11.3.2.1 In addition, the DISA MP POCs and security managers shall inform the DISA Security Office when contractor personnel are removed for cause from a contract supporting DISA. This step is being added to prevent contractor personnel removed for security related issues from returning to DISA without appropriate vetting. This step will also provide security with pertinent information to make an informed decision regarding potential contractor employees’ access to secure facilities and sensitive information. “For Cause” is information regarding an

individual that falls into one or more of the actions or incidents that are within one of the 13 adjudicative guidelines as cited in the Security Executive Agent Directive (SEAD) 4:

- a. Allegiance to the United States
- b. Foreign Influence
- c. Foreign Preference
- d. Sexual Behavior
- e. Personal Conduct
- f. Financial Considerations
- g. Alcohol Consumption
- h. Drug Involvement and Substance Misuse
- i. Psychological Conditions
- j. Criminal Conduct
- k. Handling Protected Information
- l. Outside Activities
- m. Use of Information Technology

Other actions:

- Incidents involving violence in the workplace or harassment.
- Misuse of time.
- Inspector General or General Counsel related inquiries.
- Failure to comply with security policies and procedures.
- Other reasons that prompted removal of a contractor.

The VTN must contain the following information on company letterhead:

- Company name, address, telephone number, facility security clearance
- CAGE CODE (if available)
- Contract Number
- Name, SSN, date and place of birth, and citizenship of the employee, email address, phone number
- Date contractor CAC was collected
- Name of MP POC
- Termination Date
- Reason for Termination: <insert reason from the 13 adjudicative guidelines, other actions, or type "No longer working on contract">

Any VAL/VAR submitted without the above information will be denied.

11.4 Security Contacts. DISA PAC Security Personnel can be contacted for Industrial or Personnel Security related issues at: Timothy Boulay, 808-786-9393, timothy.p.boulay.civ@mail.mil or disa.jbphh.pac.mbx.security-managers@mail.mil

11.5 Information Security and other miscellaneous requirements.

11.5.1 Contractor personnel shall comply with all local security requirements including entry and exit control for personnel and property at the Government facility.

11.5.2 Contractor employees shall be required to comply with all Government security regulations and requirements. Initial and periodic safety and security training and briefings will be provided by Government security personnel. Failure to comply with Government security regulations and requirements shall require the company to provide the Government with a written remediation/corrective action plan; furthermore, failure to comply with such requirements can be cause for removal and the contractor will not be able to provide service on this contract.

11.5.3. Contractor employees with an incident report in DISS who have had their access to classified suspended will not be permitted to fill positions requiring access to classified information on a DISA contract.

11.5.4 The Contractor shall not divulge any information, classified or unclassified, about DoD files, data processing activities or functions, user identifications, passwords, or any other knowledge that may be gained, to anyone who is not authorized to have access to such information. The Contractor shall observe and comply with the security provisions in effect at the DoD facility. Identification shall be worn and displayed as required.

11.5.5 The authority for the contractor personnel to regain access must be granted by DISA Chief of Security.

11.5.5.1 DISA retains the right to request removal of contractor personnel regardless of prior clearance or adjudication status, whose actions, while assigned to this contract, clearly conflict with the interest of the Government.

11.5.5.2 DISA retains the right to revoke contractor personnel access to DISA facilities and networks, who violates one or more of Security Personnel Adjudicative guidelines, harassment or violence in the workplace while assigned to a contract clearly conflict with the interest of the Government.

11.5.5.3 If contractor employee is accused of violating state or federal laws and/or Government professional conduct policies or regulations, then the Government may require that such contractor employee be removed from Government premises and/or that such contractor employee be removed from supporting this contract, pending the duration and outcome of a Government investigation if the Contracting Officer finds that the conduct or violation alleged has the potential to negatively interfere with contract performance or operations at a Government facility. Only the Contracting Officer can make such a request on behalf of the Government. Removal of contractor employee shall not negatively impact contract performance.

11.5.6 Contractor personnel may generate or handle documents that contain Controlled Unclassified Information (CUI) at the Government facility. All contractor deliverables shall be marked in accordance with DoDM 5200.01, Vol. 1, DoD Information Security Program: Overview, Classification, and Declassification; DoDM 5200.01, Vol. 2, DoD Information Security Program: Marking of Information; DoDI 5200.48, Controlled Unclassified Information (CUI) and DoDM 5400.07, Freedom of Information Act Program, unless otherwise directed by the Government. The contractor shall comply with the provisions of the DoD Industrial Security Manual for handling classified material and producing deliverables. The contractor shall comply with DISA Instruction 630-230-19, Cybersecurity.

11.5.7 The Contractor shall afford the Government access to the contractor's facilities, installations, operations, documentation, databases and personnel used in performance of the contract. Access shall be provided to the extent required to carry out a program of IT inspection (to include vulnerability testing), investigation and audit to safeguard against threats and hazards to the integrity, availability and confidentiality of data or to the function of information technology systems operated on behalf of DISA or DoD, and to preserve evidence of computer crime.

12. Government Furnished Property (GFP)/Government-Furnished Equipment (GFE)/ Government-Furnished Information (GFI). None. This section is N/A.

13. Other Pertinent Information or Special Considerations.

a. Identification of Possible Follow-on Work. N/A

b. Identification of Potential Conflicts of Interest (COI). N/A

c. Identification of Non-Disclosure Requirements. N/A

d. Packaging, Packing and Shipping Instructions. N/A

e. Inspection and Acceptance Criteria. N/A

f. Property Accountability. The contractor shall submit the Consolidated Product Listing for IGCE/RFQ/EPL/MI&RR (see below) in addition to complying with all requirements of DFARS 252.211-7003. See DITCO Additional Text H2, Requirement to Submit an Electronic Product List for additional information.

g. Transitioning. N/A

h. Supply Chain Risk Management (SCRM).

This contract is subject to the Federal SCRM policies and regulations including the Defense Federal Acquisition Regulation Supplement (DFARS) 252.239-7017 Notice of Supply Chain Risk, DFARS 252.239-7018 Supply Chain Risk, DoD Instruction 5200.44 Protection of Mission Critical Functions to Achieve Trusted Systems and Networks, Section 806 of the FY2011 NDAA Requirements for Information Relating to Supply Chain Risk, and internal DISA SCRM Processes and Procedures.

The contractor shall submit a SCRM plan as part of its technical proposal that describes how the contract will reduce and mitigate Supply Chain Risk using the security controls outlined below (further described in CNSSI 1253, Appendix D and NIST SP 800-53), as applicable to your contract.

Control Number	Control Name Control Enhancement Name
CM-4	Impact Analysis
IR-4(10)	Incident Handling/Supply Chain Coordination
IR-6(3)	Incident Reporting/Supply Chain Coordination
MA-6	Timely Maintenance
PE-3(5)	Physical Access Control/Tamper Protection
PL-8(2)	Security and Privacy Architectures/Supplier Diversity
PM-16	Threat Awareness Program
RA-9	Criticality Analysis
RA-3(1)	Risk Assessment/Supply Chain Risk Assessment
RA-3(2)	Risk Assessment/Use of All-source Intelligence
SA-11	Developer Testing and Evaluation
SA-5	System Documentation
SA-9(3)	External System Services/Establish and Maintain Trust Relationship with Providers
SI-7	Software, Firmware, and Information Integrity
SR-11(2)	Component Authenticity/Configuration Control for Component Service and Repair
SR-11(3)	Component Authenticity/Anti-Counterfeit Scanning
SR-12	Component Disposal
SR-2(1)	Supply Chain Risk Management Plan/Establish SCRM team
SR-3(1)	Supply Chain Controls and Processes/Diverse Supply Base
SR-3(2)	Supply Chain Controls and Processes/Limitation of harm
SR-3(3)	Supply Chain Controls and Processes/Sub-Tier Flow Down
SR-4(1)	Provenance/Identity
SR-4(2)	Provenance/Track and Trace
SR-4(3)	Provenance/Validate as Genuine and not Altered
SR-4(4)	Provenance/Supply Chain Integrity — Pedigree
SR-5	Acquisition Strategies, Tools, and Methods
SR-5(1)	Acquisition Strategies, Tools, and Methods/Adequate Supply
SR-5(2)	Acquisition Strategies, Tools, and Methods/Assessments prior to Selection, Acceptance, Modification, or Update
SR-6	Supplier Assessments and Reviews
SR-6(1)	Supplier Assessments and Reviews/Testing and Analysis
SR-7	Supply Chain Operations Security
SR-8	Notification Agreements

Control Number	Control Name Control Enhancement Name
SR-9(1)	Tamper Resistance and Detection/Multiple Stages of System Development Life Cycle

DELIVERABLES:

PWS Task#	Deliverable Title	Format	Due Date	Distribution/Copies	Frequency and Remarks
13.h.	SCRM Plan	Written Contractor-Determined Format	With proposal	1 copy to the Contracting Officer with the proposal	Once with proposal; updates within 5 business days of a change, if applicable

SUPPLY CHAIN RISK MANAGEMENT PLAN UPDATE: The contractor shall provide an updated SCRM Plan to the Contracting Officer and MP POC within five (5) business days whenever there is a change that affects one or more security controls as described in the Committee on National Security Systems Instructions (CNSSI) 1253 Appendix D (companion publication to National Institute of Standards and Technology (NIST) Special Publication (SP)). At a minimum, the following events will require a SCRM Update: changes in company ownership, changes in senior company leadership, supplier changes, subcontractor changes, and Information and Communications Technology (ICT) supply chain compromises.

i. Training. N/A

14. Section 508 Accessibility Standards.**E201 Application**

E201.1 Scope. ICT that is procured, developed, maintained, or used by agencies shall conform to the Revised 508 Standards.

E202 General Exceptions

E202.5 ICT Functions Located in Maintenance or Monitoring Spaces. Where status indicators and operable parts for ICT functions are located in spaces that are frequented only by service personnel for maintenance, repair, or occasional monitoring of equipment, such status indicators and operable parts shall not be required to conform to the Revised 508 Standards.

E206 Hardware

E206.1 General. Where components of ICT are hardware and transmit information or have a user interface, such components shall conform to the requirements in Chapter 4.

E207 Software

E207.1 General. Where components of ICT are software and transmit information or have a user interface, such components shall conform to E207 and the requirements in Chapter 5.

Exception from E207.1 General: Software that is assistive technology and that supports the accessibility services of the platform shall not be required to conform to the requirements in Chapter 5.

E207.2 WCAG Conformance. User interface components, as well as the content of platforms and applications, shall conform to Level A and Level AA Success Criteria and Conformance Requirements in WCAG 2.0 (incorporated by reference, see 702.10.1).

Exceptions from E207.2 WCAG Conformance:

- Software that is assistive technology and that supports the accessibility services of the platform shall not be required to conform to E207.2.
- Non-web software shall not be required to conform to the following four Success Criteria in WCAG 2.0: 2.4.1 Bypass Blocks; 2.4.5 Multiple Ways; 3.2.3 Consistent Navigation; and 3.2.4 Consistent Identification.
- Non-Web software shall not be required to conform to Conformance Requirement 3 Complete Processes in WCAG 2.0.

E208 Support Documentation and Services

E208.1 General. Where an agency provides support documentation or services for ICT, such documentation and services shall conform to the requirements in Chapter 6.

E301 General

E301.1 Scope. The requirements of Chapter 3 shall apply to ICT where required by 508 Chapter 2 (Scoping Requirements), 255 Chapter 2 (Scoping Requirements), and where otherwise referenced in any other chapter of the Revised 508 Standards or Revised 255 Guidelines.

E302 Functional Performance Criteria

302.1 Without Vision. Where a visual mode of operation is provided, ICT shall provide at least one mode of operation that does not require user vision.

302.2 With Limited Vision. Where a visual mode of operation is provided, ICT shall provide at least one mode of operation that enables users to make use of limited vision.

302.3 Without Perception of Color. Where a visual mode of operation is provided, ICT shall provide at least one visual mode of operation that does not require user perception of color.

302.4 Without Hearing. Where an audible mode of operation is provided, ICT shall provide at least one mode of operation that does not require user hearing.

302.5 With Limited Hearing. Where an audible mode of operation is provided, ICT shall provide at least one mode of operation that enables users to make use of limited hearing.

302.6 Without Speech. Where speech is used for input, control, or operation, ICT shall provide at least one mode of operation that does not require user speech.

302.7 With Limited Manipulation. Where a manual mode of operation is provided, ICT shall provide at least one mode of operation that does not require fine motor control or simultaneous manual operations.

302.8 With Limited Reach and Strength. Where a manual mode of operation is provided, ICT shall provide at least one mode of operation that is operable with limited reach and limited strength.

302.9 With Limited Language, Cognitive, and Learning Abilities. ICT shall provide features making its use by individuals with limited cognitive, language, and learning abilities simpler and easier.

401 General

401.1 Scope. The requirements of Chapter 4 shall apply to ICT that is hardware where required by 508 Chapter 2 (Scoping Requirements), 255 Chapter 2 (Scoping Requirements), and where otherwise referenced in any other chapter of the Revised 508 Standards or Revised 255 Guidelines.

Exception from E401.1 Scope: Hardware that is assistive technology shall not be required to conform to the requirements of this chapter.

402 Closed Functionality

402.1 General. ICT with closed functionality shall be operable without requiring the user to attach or install assistive technology other than personal headsets or other audio couplers, and shall conform to 402.

402.2 Speech-Output Enabled. ICT with a display screen shall be speech-output enabled for full and independent use by individuals with vision impairments.

Exceptions from E402.2:

1. Variable message signs conforming to 402.5 shall not be required to be speech-output enabled.
2. Speech output shall not be required where ICT display screens only provide status indicators and those indicators conform to 409.
3. Where speech output cannot be supported due to constraints in available memory or processor capability, ICT shall be permitted to conform to 409 in lieu of 402.2.
4. Audible tones shall be permitted instead of speech output where the content of user input is not displayed as entered for security purposes, including, but not limited to, asterisks representing personal identification numbers.
5. Speech output shall not be required for: the machine location; date and time of transaction; customer account number; and the machine identifier or label.
6. Speech output shall not be required for advertisements and other similar information unless they convey information that can be used for the transaction being conducted.

402.2.1 Information Displayed On-Screen. Speech output shall be provided for all information displayed on-screen.

402.2.2 Transactional Outputs. Where transactional outputs are provided, the speech output shall audibly provide all information necessary to verify a transaction.

402.2.3 Speech Delivery Type and Coordination. Speech output shall be delivered through a mechanism that is readily available to all users, including, but not limited to, an industry standard connector or a telephone handset. Speech shall be recorded or digitized human, or synthesized. Speech output shall be coordinated with information displayed on the screen.

402.2.4 User Control. Speech output for any single function shall be automatically interrupted when a transaction is selected. Speech output shall be capable of being repeated and paused.

402.2.5 Braille Instructions. Where speech output is required by 402.2, braille instructions for initiating the speech mode of operation shall be provided. Braille shall be contracted and shall conform to 36 CFR part 1191, Appendix D, Section 703.3.1.

Exception from E402.2.5 Braille Instructions: Devices for personal use shall not be required to conform to 402.2.5.

402.3 Volume. ICT that delivers sound, including speech output required by 402.2, shall provide volume control and output amplification conforming to 402.3.

402.3.1 Private Listening. Where ICT provides private listening, it shall provide a mode of operation for controlling the volume. Where ICT delivers output by an audio transducer typically held up to the ear, a means for effective magnetic wireless coupling to hearing technologies shall be provided.

402.3.2 Non-private Listening. Where ICT provides non-private listening, incremental volume control shall be provided with output amplification up to a level of at least 65 dB. A function shall be provided to automatically reset the volume to the default level after every use.

402.4 Characters on Display Screens. At least one mode of characters displayed on the screen shall be in a sans serif font. Where ICT does not provide a screen enlargement feature, characters shall be 3/16 inch (4.8 mm) high minimum based on the uppercase letter "I". Characters shall contrast with their background with either light characters on a dark background or dark characters on a light background.

402.5 Characters on Variable Message Signs. Characters on variable message signs shall conform to section 703.7 Variable Message Signs of ICC A117.1-2009 (incorporated by reference, see 702.6.1).

403 Biometrics

403.1 General. Where provided, biometrics shall not be the only means for user identification or control.

Exception from E403.1 General: Where at least two biometric options that use different biological characteristics are provided, ICT shall be permitted to use biometrics as the only means for user identification or control.

404 Preservation of Information Provided for Accessibility

404.1 General. ICT that transmits or converts information or communication shall not remove non-proprietary information provided for accessibility or shall restore it upon delivery.

405 Privacy

405.1 General. The same degree of privacy of input and output shall be provided to all individuals. When speech output required by 402.2 is enabled, the screen shall not blank automatically.

406 Standard Connections

406.1 General. Where data connections used for input and output are provided, at least one of each type of connection shall conform to industry standard non-proprietary formats.

407 Operable Parts

407.1 General. Where provided, operable parts used in the normal operation of ICT shall conform to 407.

407.2 Contrast. Where provided, keys and controls shall contrast visually from background surfaces. Characters and symbols shall contrast visually from background surfaces with either light characters or symbols on a dark background or dark characters or symbols on a light background.

407.3 Input Controls. At least one input control conforming to 407.3 shall be provided for each function. Exception from E407.3 Input Controls: Devices for personal use with input controls that are audibly discernable without activation and operable by touch shall not be required to conform to 407.3.

407.3.1 Tactilely Discernible. Input controls shall be operable by touch and tactilely discernible without activation.

407.3.2 Alphabetic Keys. Where provided, individual alphabetic keys shall be arranged in a QWERTY-based keyboard layout and the “F” and “J” keys shall be tactilely distinct from the other keys.

407.3.3 Numeric Keys. Where provided, numeric keys shall be arranged in a 12-key ascending or descending keypad layout. The number five key shall be tactilely distinct from the other keys. Where the ICT provides an alphabetic overlay on numeric keys, the relationships between letters and digits shall conform to ITU-T Recommendation E.161 (incorporated by reference, see 702.7.1).

407.4 Key Repeat. Where a keyboard with key repeat is provided, the delay before the key repeat feature is activated shall be fixed at, or adjustable to, 2 seconds minimum.

407.5 Timed Response. Where a timed response is required, the user shall be alerted visually, as well as by touch or sound, and shall be given the opportunity to indicate that more time is needed.

407.6 Operation. At least one mode of operation shall be operable with one hand and shall not require tight grasping, pinching, or twisting of the wrist. The force required to activate operable parts shall be 5 pounds (22.2 N) maximum.

407.7 Tickets, Fare Cards, and Keycards. Where tickets, fare cards, or keycards are provided, they shall have an orientation that is tactilely discernible if orientation is important to further use of the ticket, fare card, or keycard.

407.8 Reach Height and Depth. At least one of each type of operable part of stationary ICT shall be at a height conforming to 407.8.2 or 407.8.3 according to its position established by the vertical reference plane specified in 407.8.1 for a side reach or a forward reach. Operable parts used with speech output required by 402.2 shall not be the only type of operable part complying with 407.8 unless that part is the only operable part of its type.

407.8.1 Vertical Reference Plane. Operable parts shall be positioned for a side reach or a forward reach determined with respect to a vertical reference plane. The vertical reference plane shall be located in conformance to 407.8.2 or 407.8.3.

407.8.1.1 Vertical Plane for Side Reach. Where a side reach is provided, the vertical reference plane shall be 48 inches (1220 mm) long minimum.

407.8.1.2 Vertical Plane for Forward Reach. Where a forward reach is provided, the vertical reference plane shall be 30 inches (760 mm) long minimum.

407.8.2 Side Reach. Operable parts of ICT providing a side reach shall conform to 407.8.2.1 or 407.8.2.2. The vertical reference plane shall be centered on the operable part and placed at the leading edge of the maximum protrusion of the ICT within the length of the vertical reference plane. Where a side reach requires a reach over a portion of the ICT, the height of that portion of the ICT shall be 34 inches (865 mm) maximum.

407.8.2.1 Unobstructed Side Reach. Where the operable part is located 10 inches (255 mm) or less beyond the vertical reference plane, the operable part shall be 48 inches (1220 mm) high maximum and 15 inches (380 mm) high minimum above the floor.

407.8.2.2 Obstructed Side Reach. Where the operable part is located more than 10 inches (255 mm), but not more than 24 inches (610 mm), beyond the vertical reference plane, the height of the operable part shall be 46 inches (1170 mm) high maximum and 15 inches (380 mm) high minimum above the floor. The operable part shall not be located more than 24 inches (610 mm) beyond the vertical reference plane.

407.8.3 Forward Reach. Operable parts of ICT providing a forward reach shall conform to 407.8.3.1 or 407.8.3.2. The vertical reference plane shall be centered, and intersect with, the operable part. Where a forward reach allows a reach over a portion of the ICT, the height of that portion of the ICT shall be 34 inches (865 mm) maximum.

407.8.3.1 Unobstructed Forward Reach. Where the operable part is located at the leading edge of the maximum protrusion within the length of the vertical reference plane of the ICT, the operable part shall be 48 inches (1220 mm) high maximum and 15 inches (380 mm) high minimum above the floor.

407.8.3.2 Obstructed Forward Reach. Where the operable part is located beyond the leading edge of the maximum protrusion within the length of the vertical reference plane, the operable part shall conform to 407.8.3.2. The maximum allowable forward reach to an operable part shall be 25 inches (635 mm).

407.8.3.2.1 Operable Part Height for ICT with Obstructed Forward Reach. The height of the operable part shall conform to Table 407.8.3.2.1.

407.8.3.2.2 Knee and Toe Space under ICT with Obstructed Forward Reach. Knee and toe space under ICT shall be 27 inches (685 mm) high minimum, 25 inches (635 mm) deep maximum, and 30 inches (760 mm) wide minimum and shall be clear of obstructions.

408 Display Screens

408.1 General. Where provided, display screens shall conform to 408.

408.2 Visibility. Where stationary ICT provides one or more display screens, at least one of each type of display screen shall be visible from a point located 40 inches (1015 mm) above the floor space where the display screen is viewed.

408.3 Flashing. Where ICT emits lights in flashes, there shall be no more than three flashes in any one-second period.

Exception from E408.3 Flashing: Flashes that do not exceed the general flash and red flash thresholds defined in WCAG 2.0 (incorporated by reference, see 702.10.1) are not required to conform to 408.3.

409 Status Indicators

409.1 General. Where provided, status indicators shall be discernible visually and by touch or sound.

410 Color Coding

410.1 General. Where provided, color coding shall not be used as the only means of conveying information, indicating an action, prompting a response, or distinguishing a visual element.

411 Audible Signals

411.1 General. Where provided, audible signals or cues shall not be used as the only means of conveying information, indicating an action, or prompting a response

412 ICT with Two-Way Voice Communication

412.1 General. ICT that provides two-way voice communication shall conform to 412.

412.2 Volume Gain. ICT that provides two-way voice communication shall conform to 412.2.1 or 412.2.2.

Exception from E412.2 Volume Gain: ICT conforming to 412.2 shall not be required to conform to 402.3.

412.2.1 Volume Gain for Wireline Telephones. Volume gain conforming to 47 CFR 68.317 shall be provided on analog and digital wireline telephones.

412.2.2 Volume Gain for Non-Wireline ICT. A method for increasing volume shall be provided for non-wireline ICT.

412.3 Interference Reduction and Magnetic Coupling. Where ICT delivers output by a handset or other type of audio transducer that is typically held up to the ear, ICT shall reduce interference with hearing technologies and provide a means for effective magnetic wireless coupling in conformance with 412.3.1 or 412.3.2.

412.3.1 Wireless Handsets. ICT in the form of wireless handsets shall conform to ANSI/IEEE C63.19-2011 (incorporated by reference, see 702.5.1).

412.3.2 Wireline Handsets. ICT in the form of wireline handsets, including cordless handsets, shall conform to TIA-1083-B (incorporated by reference, see 702.9.1).

412.4 Digital Encoding of Speech. ICT in IP-based networks shall transmit and receive speech that is digitally encoded in the manner specified by ITU-T Recommendation G.722.2 (incorporated by reference, see 702.7.2) or IETF RFC 6716 (incorporated by reference, see 702.8.1).

412.5 Real-Time Text Functionality. [Reserved].

412.6 Caller ID. Where provided, caller identification and similar telecommunications functions shall be visible and audible.

412.7 Video Communication. Where ICT provides real-time video functionality, the quality of the video shall be sufficient to support communication using sign language.

413 Closed Caption Processing Technologies

413.1 General. Where ICT displays or processes video with synchronized audio, ICT shall provide closed caption processing technology that conforms to 413.1.1 or 413.1.2.

413.1.1 Decoding and Display of Closed Captions. Players and displays shall decode closed caption data and support display of captions.

413.1.2 Pass-Through of Closed Caption Data. Cabling and ancillary equipment shall pass through caption data.

414 Audio Description Processing Technologies

414.1 General. Where ICT displays or processes video with synchronized audio, ICT shall provide audio description processing technology conforming to 414.1.1 or 414.1.2.

414.1.1 Digital Television Tuners. Digital television tuners shall provide audio description processing that conforms to ATSC A/53 Digital Television Standard, Part 5 (2014) (incorporated by reference, see 702.2.1). Digital television tuners shall provide processing of audio description when encoded as a Visually Impaired (VI) associated audio service that is provided as a complete program mix containing audio description according to the ATSC A/53 standard.

414.1.2 Other ICT. ICT other than digital television tuners shall provide audio description processing.

415 User Controls for Captions and Audio Descriptions

415.1 General. Where ICT displays video with synchronized audio, ICT shall provide user controls for closed captions and audio descriptions conforming to 415.1.

Exception from E415.1 General: Devices for personal use shall not be required to conform to 415.1 provided that captions and audio descriptions can be enabled through system-wide platform settings.

415.1.1 Caption Controls. Where ICT provides operable parts for volume control, ICT shall also provide operable parts for caption selection.

415.1.2 Audio Description Controls. Where ICT provides operable parts for program selection, ICT shall also provide operable parts for the selection of audio description.

501 General

501.1 Scope. The requirements of Chapter 5 shall apply to software where required by 508 Chapter 2 (Scoping Requirements), 255 Chapter 2 (Scoping Requirements), and where otherwise referenced in any other chapter of the Revised 508 Standards or Revised 255 Guidelines.

Exception from E501.1 Scope: Where Web applications do not have access to platform accessibility services and do not include components that have access to platform accessibility services, they shall not be required to conform to 502 or 503 provided that they conform to Level A and Level AA Success Criteria and Conformance Requirements in WCAG 2.0 (incorporated by reference, see 702.10.1).

602 Support Documentation

602.1 General. Documentation that supports the use of ICT shall conform to 602.

603 Support Services

603.1 General. ICT support services including, but not limited to, help desks, call centers, training services, and automated self-service technical support, shall conform to 603.

ADDENDUM TO 52.212

ADDENDUM TO 52.212-1(a)

Addendum to 52.212-1(a), Submission of Offers is tailored as follows:

(a) Submission of offers:

(7) Other Instructions

(i) General Information

(A) Points of Contact: The contracting officer (KO) and contract specialist (CS) listed in the Points of Contact Instruction are the sole points of contact for this procurement. Submit any questions, concerns, or requests for clarification in writing to the CS/KO.

(B) Discrepancies: If an offeror believes that the requirements in these instructions contain an error, omission, or are otherwise unsound, the offeror shall immediately notify the KO in writing with supporting rationale. The Government reserves the right to award this effort based on the initial proposal, as received, without discussion.

(C) Electronic Reference Documents: All referenced documents for this solicitation are available on the Contract Opportunities section on www.sam.gov. Potential offerors are encouraged to subscribe/follow for real-time e-mail notifications when information has been posted to the website for this solicitation.

(D) Communications: Exchanges of source selection information between Government and offerors will be controlled by the KO and CS. E-mail will be used to transmit such information to the offeror and will include "Source Selection Information – See FAR 2.101 & 3.104" in the Subject line.

(ii) Offerors are requested to submit a written technical proposal and a price proposal in response to the attached Performance Work Statement (PWS). The Quality Assurance Surveillance Plan (QASP) is provided for contractor reference. Information on submission of the technical and price proposals is provided below. The proposal shall be clear, concise, and include sufficient detail for effective evaluation and for substantiating the validity of statements asserted in the proposal. The proposal should not simply rephrase or restate the Government's requirements but rather shall provide convincing rationale to address how the offeror intends to meet these requirements. Offerors shall assume the Government has no prior knowledge of their facilities and capabilities and will base its evaluation on the information presented in the offeror's proposal. The offeror's proposal must include all data and information requested by the solicitation and must be submitted in accordance with these instructions. The proposal should sufficiently address the requirements as stated in the PWS. **Non-conformance with these instructions may result in removal of the proposal from further evaluation.**

(iii) IAW DISA Instruction, Organizational and Consultant Conflicts of Interest (OCCI), each offeror shall specifically identify in its proposal whether or not any potential or actual organizational and consultant conflicts of interest, as described in Federal Acquisition Regulation (FAR) Subpart 9.5, exists for this instant procurement. If the offeror believes that no OCCI exists, the OCCI response shall set forth sufficient details to support such a position. If an offeror believes that an actual or perceived OCCI does exist on the instant procurement, the offeror shall submit an OCCI plan with the proposal, explaining in detail how the OCCI will be mitigated and/or avoided.

(iv) Page limitations, if applicable, are identified below and will be treated as maximums. A page is defined as each face of a sheet of paper containing information. When both sides of a sheet display printed material, it shall be counted as two pages. Page size shall be 8.5 x 11 inches. Page limitations are identified below under each evaluation factor and will be treated as maximums. If exceeded, excess pages will not be read or considered in evaluation of the proposal. Although not required, the following items (if submitted) will not be considered when calculating page limits: cover page, table of contents, glossary, executive summary, OCCI mitigation plans, price quote, and responses to any provisions/clauses. In the event any evaluation notices are issued, page limitations may also be placed on those. Page limitations shall not be circumvented by including inserted text boxes/pop-ups or internet links to additional information; such inclusions are not acceptable and will not be considered part of a

proposal. The Government reserves the right not to consider for award any proposal that does not adhere to the administrative requirements of this solicitation.

(v) Organization/Number of Copies/Page Limits. The offeror shall prepare the proposal as set forth in the Proposal Organization Table below. The titles and contents shall be as defined in this table, all of which shall be within the required page limits and with the number of copies as specified. The contents of each required section of the proposal are described in the information to offerors paragraph as noted in the table below. Cross-referencing within a proposal volume is permitted where its use would conserve space without impairing clarity. Tab indexing may be used to identify sections. Additionally, each section may contain a glossary of all abbreviations and acronyms used, and with an explanation for each, if necessary. Glossaries do not count against the page limitations.

Proposal Organization Table

SECTION TITLE	COPIES	PAGE LIMIT
Technical/Management Approach	1 electronic	10 pages
Price Quote	1 electronic	No page limit
Contract Documentation	1 electronic	No page limit

(vi) Electronic Offers. The offeror shall submit the Technical/Management Approach, the Price Quote, and any associated Contract Documentation in electronic format via e-mail and must include "Source Selection Information – See FAR 2.101 & 3.104" in the Subject line. The Proposed Solution, the Price Quote, and any associated Contract Documentation shall each be separate files. Proposals shall be submitted to the KO/CS identified in the Points of Contact Instruction.

(vii) Proposal Organization:

(A) Technical/Management Approach. The Technical/Management Approach should be specific and complete and will be evaluated against the technical/management subfactors defined in FAR 52.212-2, Evaluation – Commercial Products and Commercial Services. The technical/management portion of the proposal is to be submitted as a Microsoft (MS) Word or PDF document. The page format shall have a 1-inch margin using no smaller than an 11-point Ariel, Times New Roman, or Courier New font for all text to include any text contained in a table. The file size of each document shall not exceed 10MB. The Technical/Management Approach shall not exceed 10 pages. Drawings/diagrams are counted in the total pages allowed. Using the instructions provided below, provide, as specifically as possible, the actual methodology you would use for accomplishing/satisfying the factors/subfactors.

In the Technical/Management Approach, address your proposed approach to meeting or exceeding the minimum performance or capability requirements, as well as any risks in your proposed approach in terms of technical/performance, supply chain, price, and/or schedule. Clearly address both subfactors. Address risk by identifying those aspects of the Technical/Management Approach that you consider having the potential for disruption of schedule, increased cost, poor performance, the need for increased Government oversight, increased supply chain risk, and/or the likelihood of unsuccessful contract performance. Describe the impact of each identified risk in terms of its potential to interfere with or prevent the successful accomplishment of other contract requirements (e.g., PWS or specification requirements), whether or not those requirements are identified as subfactors. Propose a realistic "work around" or risk mitigation for identified risks that will eliminate or reduce risk to an acceptable level. Identify any new risks introduced by such risk mitigation.

(B) Price Quote. Offerors shall submit complete price quotations. For a quotation to be complete, all solicitation requirements must be priced, figures correctly calculated, and prices presented in a clear and useful format. Offerors shall use the attached "PRICE QUOTE WORKSHEET" to facilitate quotation preparation and to ensure uniformity across all offerors' submissions. The quotation spreadsheet shall be submitted in MS Excel. All formulas shall remain present in the spreadsheet for verification. The file size of each document shall not exceed 10MB. Information beyond that required by this instruction shall not be submitted unless you consider it essential to

document or support your price. All information relating to the proposed price, including all required supporting documentation must be included in the section of the proposal designated as the Price Quote. Price submissions should be sufficiently detailed to demonstrate their reasonableness. Offerors shall propose a total firm-fixed price and provide a detailed breakdown as indicated on the "PRICE QUOTE WORKSHEET." Labor rates should be fully loaded hourly rates for each labor category that may be required in support of this effort.

Under no circumstances shall pricing information be included elsewhere in the proposal.

Per FAR 12.001(e), the following are included as laws that do not apply to contracts for the acquisition of commercial products or commercial services: 41 U.S.C. 4706(d) and 10 U.S.C. 3841(d), Examination of Records of Contractor. For the list of laws that do not apply to contracts for the acquisition of commercial products or commercial services, acquisitions of COTS items, and acquisitions valued at or below the simplified acquisition threshold (SAT): <https://www.acquisition.gov/inapplicablelaws>

(C) Contract Documentation. The purpose of this proposal section is to provide information to the Government for preparing the contract document and supporting file.

1. You must complete blocks 30 a, b, and c of the SF Form 1449 and return this form with your proposal. Signature by the offeror on the SF 1449 constitutes an offer, which the Government may accept.
2. This solicitation contains provisions that apply and clauses that will be applicable to the resulting award. Offerors shall provide completed representations, certifications, acknowledgments, and statements as required in the solicitation. Some of the provisions and additional DITCO text explicitly require a response from the offeror with this solicitation's resultant proposal: FAR 52.222-18, DFARS 252.204-7016, DFARS 252.204-7017, DFARS 252.239-7009, and DITCO Contract Administration Data G1, Points of Contact.
3. OCCI Mitigation Plan or a statement that OCCI does not exist.
4. Authorized Offeror Personnel. Provide the name, title, and telephone number of the company/division point of contact regarding decisions made with respect to your proposal and who can obligate your company contractually. Also, identify those individuals authorized to negotiate with the Government. Contractor Point of Contract information will be used for Contract Administration Data Item G1, Points of Contact.
5. Company/Division Address, Identifying Codes, and Applicable Designations. Provide company/division's street address; CAGE code; UEI number; TIN; size of business/socioeconomic categories, to include confirmation in writing that the offeror is a small business concern as defined in FAR 52.219-6.

(End of provision revisions)

ADDENDUM TO 52.212-2(A)

Addendum to 52.212-2(a), Evaluation-Commercial Products and Commercial Services, is tailored as follows:

- (a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered, using a lowest price technically acceptable (LPTA) evaluation process. The technical proposal should include all information the offeror wants the Government to consider and evaluate regarding its ability to perform all required tasks and conform to all required terms and conditions. To be eligible for award, the offeror's proposal must sufficiently address all aspects of the PWS. Failure to comply with the terms and conditions of the solicitation may result in the offeror being ineligible for award. With regard to the best value analysis for the award decision, the below evaluation factors and subfactors will be used to determine technical acceptability. Section 508 Accessibility Standards apply to this requirement. Section 508 requirements are listed in the attached PWS. Compliance with Section 508 standards will be considered prior to evaluating any of the selection criteria HC101925R0007 Page 39 of 41 listed below. Any proposal failing to meet the Section 508 Accessibility Standards, as listed in the PWS, may be eliminated from consideration for award. The following factors will be used to evaluate offers:

- (1) **Price Factor.** Price Quotes will be evaluated to determine if they are reasonable and complete. The offeror should ensure the Price Quote includes detailed information regarding the resources required to accomplish the task (e.g., labor categories, labor hours, number of employees for each labor category, rates, etc.). All Other Direct Costs (ODCs) shall annotate the specific detail (e.g., quantity, part number, manufacturer, etc.).

Completeness is defined as: The Government will determine completeness of an offeror's Price Quote by verifying that all solicitation requirements have been priced, figures are correctly calculated, and prices are presented in a clear and useful format.

Reasonableness is defined as: Price Quotes will be evaluated using one or more of the techniques defined in FAR 15.404 to determine price reasonableness.

All travel must show the specific detail, if known (e.g., number of days, locations, number of personnel, etc.). Travel shall be authorized by the KO in writing prior to performance and will be paid IAW FAR Part 31.205-46.

- (2) **Technical/Management Approach.** In order for a contractor's proposal/quotation to be rated Technically Acceptable overall, each of the following subfactors must be rated Acceptable.

(i) **Subfactor 1: Tech Refresh.** In order to be rated Acceptable, the offeror's Technical Solution must clearly demonstrate its ability to complete Task 1 and all associated subtasks in PWS paragraphs 6.1.1 through 6.1.4 no later than the required installation completion date of 12 months after the date of contract award. The offeror's Technical Solution must demonstrate that the contractor personnel performing tasks associated with PWS Task 1 have an interim or final Secret clearance. The offeror's Technical Solution must demonstrate that its proposed commercial information technology (IT) products clearly meet the salient characteristics and brand name requirements in PWS paragraph 6.1.2. The offeror must provide sufficient details for any proposed "equal" products to clearly demonstrate the products meet the salient characteristics. The offeror's Technical Solution must clearly address and mitigate supply chain risk for any proposed video wall manufacturers other than those specified in the attached Product List.

(ii) **Subfactor 2: Warranty.** In order to be rated Acceptable, the offeror's Technical Solution must clearly demonstrate an approach that meets all aspects of the requirements in Task 2 – Installation Warranty.

- (3) **Relative Importance of Factors and Subfactors.** Within the Technical/ Management Approach factor, the subfactors are of equal importance. All non-price factors, when combined, are significantly less important than price.

- (4) Subfactors 1 and 2 will be rated either Acceptable or Unacceptable. In order for a contractor's proposal/quotation to be rated Technically Acceptable overall, each subfactor must be rated Acceptable.

Table 1. Technical/Management Ratings	
Rating	Description
Acceptable	Proposal/quotation clearly meets the minimum requirements of the solicitation.
Unacceptable	Proposal/quotation does not clearly meet the minimum requirements of the solicitation.

- (5) Past performance is not an evaluation factor; it will be used in determining contractor responsibility in accordance with FAR 9.104.

(b) **Discussions/Exchanges.** The Government intends to evaluate proposals and award a contract without exchanges. However, the Government reserves the right to conduct exchanges or seek clarifications if the KO determines they

are necessary. If exchanges are required, the number of proposals being competitively considered may be narrowed to all of the most highly rated proposals. The Government further reserves the right to reduce the number of proposals being competitively considered to the greatest number that will permit efficient competition among the most highly rated proposals. If an offeror's proposal is removed from further consideration for award, written notice of the removal will be provided to the offeror. In the event issues pertaining to the solicitation cannot be resolved to the KO's satisfaction, the Government reserves the right to withdraw and cancel the solicitation. In such event, offerors will be notified in writing.

(c) It is the sole responsibility of the offeror to ensure that the electronic files submitted are virus free and can be opened and read by the Government. Proposal submissions shall not be locked, encrypted, or otherwise contain barriers to opening the file(s). The Government is under no obligation to seek clarification regarding electronic proposal submissions if submissions cannot be opened or accessed. The Government reserves the right not to consider for award any proposal that does not adhere to the administrative requirements of this RFP.

(End of provision revisions)
