The awardee shall be required to perform the services per the written scope and terms and conditions of the resulting task order. As such is the case, the COR will review, for completeness, preliminary, draft and final documentation that the Contractor submits, and may return it to the contractor for correction. Absence of any comments by the COR will not relieve the contractor of the responsibility for complying with the requirements of this performance work statement. Final approval and acceptance of documentation required herein shall be by letter of approval and acceptance by the COR.

The contractor shall not construe any letter of acknowledgment of receipt material as a waiver of review, or as an acknowledgment that the material is in conformance with this performance work statement. Any approval given during preparation of the documentation, or approval for shipment shall not guarantee the final acceptance of the completed documentation.

In general, all contract deliverables shall meet the following quality standards:

- ❖ Accuracy: Work products shall be accurate in presentation, technical content, and adherence to accepted elements of style.

This may involve daily oversight to ensure work is performed in accordance with the delivery/task order request(s) and provide any other necessary technical guidance to the contractor. A Task Monitor does not have authority to request or authorize work to be performed outside the scope of the task order. Each Task Monitor works in conjunction with the COR, however, if any discrepancies exist between the direction given by a COR and a Task Monitor to the Contractor, the COR's direction shall take precedence. If the Contractor is unclear as to the direction provided by a Task Monitor or believes the direction to be out of scope, the Contractor shall contact either the COR or the Contracting Officer as appropriate.

performance. At these meetings the contracting officer will apprise the contractor of how the Government views the Contractor's performance and the Contractor will apprise the Government of problems, if any, being experienced.

B.19 NOTIFICATION OF DEBARMENT AND SUSPENSION

The Contractor shall provide immediate notice to the Contracting Officer in the event that the Contractor or a subcontractor is suspended, debarred or declared ineligible by any Federal government Agency or Department, or upon receipt of a notice of proposed debarment from any Federal Agency or Department.

B.20 DEFENSE PRODUCTION ACT (DPA)

task orders under this contract may include a priority rating under the Defense Priorities and Allocations System (DPAS) regulation (15 CFR, part 700). Contractors receiving a DPAS rated order are required to follow all provisions of the DPAS regulation. The priority rating will be identified in the task order proposal request and subsequent task order standard form issued.

The DPAS provides that DHS/FEMA contracts are assigned priority ratings to assure that these contracts are afforded service priorities ahead of unrated orders. Ratings will be assigned per individual task order. The Contractor is obligated to accept the rated order, to schedule service operations to satisfy requirements of each rated order, and to extend the priority rating to subcontractors to assure that the required services are performed in the timeframe requested.

The DPAS provides for two levels of rated order priority: "DX" and "DO". The symbols "DX" and "DO" are not acronyms for any terms. They simply indicate the level of priority. DX rated orders take precedence over DO rated orders and unrated orders (commercial orders without a DPAS priority rating). DO rated orders only take precedence as necessary over unrated (commercial) orders as necessary to meet delivery or performance requirements of the DO rated orders. All DX rated orders have equal priority with each other and all DO rated orders have equal priority with each other. DHS has eight DPA programs eligible for the Priorities and Allocations Authority (N-1 through N-8).

B.21 DISASTER ASSISTANCE ACTIVITIES

In accordance with FAR 26.2, Contractors shall give preference to the maximum extent feasible and practicable to local firms. Preference may be given through a local area set-aside or an evaluation preference.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the Government will consider the certification in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror non-responsible.

(d) This provision does not require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a). The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. PHASE I

Factor 1: Demonstrated Experience

Demonstrated Experience shall be evaluated by assessing how well the Offeror has showcased in their proposal that it possesses experience managing disaster logistics and transportation requirements, to include cross dock, empty trailer yards, trailer management, and/or incident support facilities/base's (or similar) requirements in Continental United States (CONUS) and Outside Continental United States (OCONUS) locations to support the scope and complexity identified in the Performance Work Statement (PWS).

For each example/project of experience referenced in the proposal, the Offeror shall describe:

7. If any conflict or challenges occurred and how these were resolved or mitigated.
8. How open lines of communication were maintained with the customer.
9. How the contractor maintained In Transit Visibility (ITV) of trailers and commodities.

The evaluation is based on the demonstrated experience examples provided. Offerors shall submit a minimum one (1) example or up to (3) three recent Government and/or commercial examples of demonstrated experience in the proposal as prime or subcontractor, clearly identifying their roles and responsibilities. recommendation. The intent of this advice is to minimize quote development costs for those Offeror s with little to no chance of receiving an award.

The Government's advice will be a recommendation only, and those Offeror s who are advised not to proceed may elect to continue their participation in the procurement.

Phase II submissions will not be accepted from Offeror s who have not submitted a Phase I proposal by the due date and time stated in the solicitation. For those Offeror s that are rated most highly and advised to proceed to Phase II of the proposal submission process, the Contracting Officer will include the Phase II submission instructions on the advisory notification, including the date, time, and exact location of the scheduled oral presentation.

The Government recommends Offeror's to begin preparation of Phase II proposals only after receipt of the Phase I advisory down-select notice.

The advisory down-select notifications will include further information, but the Government intends to allow Offeror s 24-48 hours to decide whether it wishes to proceed with a Phase II submission.

FAR 2.101 defines Past Performance as an Offeror's or contractor's performance on active and physically completed contracts. Past Performance will assess how well an Offeror has performed relevant work in the past.

The Offeror s must provide past performance information. The government intends to use this information to determine your performance in having supported a large-scale quantity delivery of supplies and services or similar products to CONUS locations.

The Offeror s may submit up to three (3) Past Performance Questionnaires (PPQ) and their respective reference information. The past performance must be for projects completed in the last three (3) years or currently in progress, which are relevant to this requirement by being similar in size and scope of complexity. Past performance listed may include those entered into by Federal government, agencies of State and local governments. If the Offeror does not have Federal, State or local government experience, commercial experience can be substituted, but they must be clearly identified. Contracts performed by the parent, or an affiliate of the Offeror may not be used.

For each PPQ being submitted, the Offeror shall provide reference information to include:

- Project title or product provided
- Contract Number
- Contract Type and Contract Dollar Value
- Period of Performance
- Summary of work performed and how it is relevant to this RFP
- Project Point of Contact Information (name, phone number, email address)

No more than three PPQs will be evaluated for each Offeror. At least one (1) PPQ shall be submitted for the work performed by the prime Offeror. No more than one (1) PPQ may be submitted for the work performed by a subcontractor.

The evaluation will consider the extent of the Offeror's recent, relevant experiences that are similar in scope and complexity as this requirement. Past performance will be evaluated as a measure of the Offeror's ability to successfully perform this requirement based on demonstrated relevant performance for Cross Docks or similar services. The Offeror's past performance will be evaluated based on the information received as part of past performance questionnaires. As part of evaluation, the Government may conduct phone or email interviews with identified past performance references provided.

The Government will not restrict its consideration to the information provided in the proposal and may consider any other available information, such as the Contractor Performance Assessment Reporting System (CPARS). The Government reserves the right to obtain and utilize information obtained by the Government from sources other than those identified by the Offeror. The evaluation of past performance will focus on how well the Offeror completed work

Source Selection Information - See FAR 2.101 and 3.104 performed under its experience. The Offeror will not be evaluated either favorably or unfavorably if it lacks relevant past performance.

In the event that Past Performance Questionnaires are not received timely or not received at all, a neutral rating will be assigned for this evaluation factor.

Using the following descriptive ratings and definitions below, an overall past performance rating will be based on the average of everyone's prior performance, and the Past Performance Factor will be assessed against the specified criteria:

Relevance - The Government is not bound by the Offeror's opinion of relevance. The following definitions apply:

- *Relevant:* Past/present performance effort involved the same or much of the magnitude of effort, complexities, and contract dollars this RFP requires.
- *Not Relevant:* Past/present performance effort did not substantially involve the effort, complexities and contract dollars this RFP requires. An Offeror with no relevant past performance history will receive a rating of "Neutral."

Ratings and Definitions for Factor 4:

Rating	Definition
Satisfactory	Based on the Offeror's relevant past performance record, it is likely that the Offeror will successfully perform the required effort.
Unsatisfactory	Based on the Offeror's relevant past performance record, it is not likely that the Offeror will successfully perform the required effort.
Neutral	No relevant performance record is identifiable upon which to base a meaningful performance rating. A search was unable to identify any relevant past performance information for the Offeror or subcontractors. This is neither a negative nor positive assessment.

***Offeror assigned a rating of unsatisfactory may result in an ineligibility for award.**

Factor 5: - Price

The Price Template will be utilized for evaluation. The Price Factor will not receive a confidence rating. The total evaluated price will be calculated by adding the subtotal price for each CLIN. The total evaluated price will be utilized to ensure that the Offeror's price is fair and reasonable.

For the price to be reasonable in its nature and amount, it should not exceed that which would be incurred by a prudent person in the conduct of a competitive business. Offerors are cautioned that unreasonably high prices may cause your proposal to be deemed not fair and unreasonable.

In evaluating price, the Government will utilize one or more proposal analysis techniques from RFO 15.404-1(b). Examples of such techniques include, but are not limited to the following:

- Comparison of proposed prices received in response to the RFP.
- Comparison of proposed prices to historical prices paid, whether by the Government or other than the Government, for the same or similar items. This method may be used for commercial items including those “of a type” or requiring minor modifications for commercial products.
- Use of parametric estimating methods/applications of rough yardsticks (such as dollars per pound, or per horsepower, or other units) to highlight significant inconsistencies that warrant additional pricing inquiry.
- Comparison with competitive published price lists, published market prices of commodities, similar indexes, and discount or rebate arrangements.
- Comparison of proposed prices with independent Government cost estimates.
- Comparison of proposed prices with prices obtained through market research for the same or similar items.
- Analysis of data other than certified cost or pricing data provided by the offeror.

The Evaluation of Options (RFO 52.217-5). The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. Evaluation of options will not obligate the Government to exercise the option(s).

The Option to Extend Services (FAR 52.217-8), is designated to evaluate the 6-month option. For evaluation purposes, the 6-month pricing will be computed at the end of the last option period by dividing the last option price by 2. The Offeror shall not propose the 6-month pricing.

Except when it is determined in accordance with RFO 17.206(b) not to be in the Government’s best interests, the Government will evaluate offers or quotations for award purposes by adding the total price for all options to the total price for the basic requirement to determine the total evaluated price. This includes options under FAR clause 52.217-8, Option to Extend Services, which applies to this solicitation. Evaluation of options will not obligate the Government to exercise the option(s).

The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement.” To account for the option periods possible under FAR 52.217-8 (maximum of six months), Options to Extend Services, the

Government will evaluate the option to extend services by adding six months of the Offeror's final option period price to the Offeror's total price. This amount will be the total evaluated price. The Government may choose to exercise the Option to Extend Services at the end of any performance period (base or option periods). Prices for the base and option periods, including the 6-month option available under FAR 52.217-8, will be evaluated to ensure that they are fair and reasonable for performance of the requirements established in the solicitation and as proposed in the technical submission.

The price for the effort associated with FAR 52.217-8 will not be included in the total value at contract award. If, at the end of the contract's/order's period of performance (the end of the base period or any exercised option period) and within the time period established in the clause, the Government chooses to exercise this option, the pricing will be pursuant to the rates specified in the contract for the preceding performance period.

Evaluation of the non-price factors, (excluding Factor 5), will consider the Offeror's demonstration of understanding of the requirement and completeness of the proposal submission. Each factor will be evaluated separately. Factors 1-4 are equal in importance. Subfactors will be evaluated individually and will be used to determine the Factor rating as a whole. Factor 1-4, when combined, are significantly more important than price.

As the technical merit of competing proposals become more equal, the price factor increases in importance in the award decision. Failure to include required documents such as Quality Control plan or Key Personnel resumes may cause the proposal to be deemed technically unacceptable and removed from competition.

7. *Options (if applicable)*. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).
8. *Notice of award*. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
