- 2) Extend the delivery schedule as required and take consideration if deemed necessary.
- 3) Initiate order close out when actions required in paragraph 4) are completed.
- 4) ACO is to verify Commercial Asset Visibility Air Force (CAVAF) inputs have been made before authorizing payment on the contract. Inputs can be verified by emailing 415thCMS.PMS.Contract@us.af.mil.
- 5) ACO is authorized to take consideration from the contractor for failure to comply with CAVAF inputs.

NOTE: In the event funds on the order are insufficient based on the contractor's proposal and the judgment of the PCO, the PCO will document what is a fair and reasonable price and provide the pricing documentation to the PCO for action. The PCO will then address funding and supplemental agreement when approved and will direct the contractor for commencement of work.

In the case of a Beyond Economical Repair (BER) determination, DCMA QAR shall request disposition instructions and/or condemnation approvals from the cognizant USAF Program Manager or customer, and supply disposition/condemnation instructions to the contractor.

**OMBUDSMAN** (JUN 2023)  
(IAW DAFFARS 5301.9103)

(a) An ombudsman has been appointed to hear and facilitate the resolution of concerns from offerors, potential offerors, and others for this acquisition. When requested, the ombudsman will maintain strict confidentiality as to the source of the concern. The existence of the ombudsman does not affect the authority of the program manager, contracting officer, or source selection official. Further, the ombudsman does not participate in the evaluation of proposals, the source selection process, or the adjudication of protests or formal contract disputes. The ombudsman may refer the interested party to another official who can resolve the concern.

(b) Before consulting with an ombudsman, interested parties must first address their concerns, issues, disagreements, and/or recommendations to the contracting officer for resolution. Consulting an ombudsman does not alter or postpone the timelines for any other processes (e.g., agency level bid protests, GAO bid protests, requests for debriefings, employee-employer actions, contests of OMB Circular A-76 competition performance decisions).

(c) If resolution cannot be made by the contracting officer, the interested party may contact the ombudsman, **Regina E. Marquardt-Chihuahua** at **801 777-5087**, FAX **000 000-0000**, email **regina.marquardt-chihuahua@us.af.mil**. (d) The ombudsman has no authority to render a decision that binds the agency.

(e) Do not contact the ombudsman to request copies of the solicitation, verify offer due date, or clarify technical requirements. Such inquiries shall be directed to the contracting officer.

(1) “Contract financing payment” and “invoice payment” have the meanings given in section 32.001 of the Federal Acquisition Regulation.

(2) “Electronic form” means any automated system that transmits information electronically from the initiating system to all affected systems. Facsimile, e-mail, and scanned documents are not acceptable electronic forms for submission of payment requests. (3) “Payment request” means any request for contract financing payment or invoice payment submitted by the Contractor under this contract.

(b) Except as provided in paragraph (c) of this clause, the Contractor shall submit payment requests and receiving reports using WAWF, in one of the following electronic formats that WAWF accepts: Electronic Data Interchange, Secure File Transfer Protocol, or World Wide Web input. Information regarding WAWF is available on the Internet at <https://wawf.eb.mil/>.

(c) The Contractor may submit a payment request and receiving report using other than WAWF only when—

(1) The Contracting Officer authorizes use of another electronic form. With such an authorization, the Contractor and the Contracting Officer shall agree to a plan, which shall include a timeline, specifying when the Contractor will transfer to WAWF;

(2) DoD is unable to receive a payment request or provide acceptance in electronic form;

(3) The Contracting Officer administering the contract for payment has determined, in writing, that electronic submission would be unduly burdensome to the Contractor. In such cases, the Contractor shall include a copy of the Contracting Officer’s determination with each request for payment; or

(4) DoD makes a payment for commercial transportation services provided under a Government rate tender or a contract for transportation services using a DoD-approved electronic third party payment system or other exempted vendor payment/invoicing system (e.g., PowerTrack, Transportation Financial Management System, and Cargo and Billing System).

(e) In addition to the requirements of this clause, the Contractor shall meet the requirements of the appropriate payment clauses in this contract when submitting payment requests.

As prescribed in 40.303-2, insert the following clause:

Basic Safeguarding of Covered Contractor Information Systems (Deviation Date)

(a) Definitions. As used in this clause—

Covered contractor information system means an information system that is owned or operated by a contractor that processes, stores, or transmits Federal contract information.

Federal contract information—

(1) Means information, not intended for public release, that is provided by or generated for the Government under a contract to develop or deliver a product or service to the Government; but

(2) Does not include information provided by the Government to the public (such as on public websites) or simple transactional information (such as information necessary to process payments). Information means any communication or representation of knowledge such as facts, data, or opinions, in any medium or form, including textual, numerical, graphic, cartographic, narrative, or audiovisual (Committee on National Security Systems Instruction (CNSSI) 4009).

Information system means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information (44 U.S.C. 3502).

Safeguarding means measures or controls that are prescribed to protect information systems.

(b) Safeguarding requirements.

(1) Basic requirements. The Contractor shall safeguard its covered contractor information systems by implementing, at minimum, the following security controls:

(i) Limit information system access to authorized users, processes acting on behalf of authorized users, or devices (including other information systems).

(ii) Limit information system access to the types of transactions and functions that authorized users are permitted to execute.

(iii) Verify and control/limit connections to and use of external information systems.

(iv) Control information posted or processed on publicly accessible information systems.

(v) Identify information system users, processes acting on behalf of users, or devices.

(vi) Authenticate (or verify) the identities of those users, processes, or devices, as a prerequisite to allowing access to organizational information systems.

(vii) Sanitize or destroy information system media containing Federal Contract Information before disposal or release for reuse.

(viii) Limit physical access to organizational information systems, equipment, and the respective operating environments to authorized individuals.

(ix) Escort visitors and monitor visitor activity; maintain audit logs of physical access; and control and manage physical access devices.

(x) Monitor, control, and protect organizational communications (i.e., information transmitted or received by organizational information systems) at the external boundaries and key internal boundaries of the information systems.

(xi) Implement subnetworks for publicly accessible system components that are physically or logically separated from internal networks.

(xii) Identify, report, and correct information and information system flaws in a timely manner.

(xiii) Provide protection from malicious code at appropriate locations within organizational

information systems.

(xiv) Update malicious code protection mechanisms when new releases are available.

(xv) Perform periodic scans of the information system and real-time scans of files from external sources as files are downloaded, opened, or executed.

(2) Other requirements. This clause does not relieve the Contractor of any other specific safeguarding requirements specified by Federal departments and agencies relating to covered contractor information systems generally or other Federal safeguarding requirements for controlled unclassified information (CUI) as established by Executive Order 13556.

(c) Subcontracts. The Contractor shall include the substance of this clause, including this paragraph (c), in subcontracts under this contract (including subcontracts for the acquisition of commercial products, other than commercially available off-the-shelf items, or commercial services), in which the subcontractor may have Federal contract information residing in or transiting through its information system.

**PART IV - REPRESENTATIONS AND INSTRUCTIONS**  
**SECTION M**  
**EVALUATION FACTORS FOR AWARD**

## SECTION M EVALUATION FACTORS FOR AWARD

### 7. INTRODUCTION:

This acquisition will utilize Lowest Priced procedures restricted to technically qualified offeror(s), identified as such by being listed as an approved source on the Contract Screening Analysis Worksheet (762).

The government intends to award the requirement(s) represented in this solicitation to one awardee. However, the Government reserves the right to award no contract at all.

### 8. EVALUATION FACTORS AND PROCEDURES:

The government shall evaluate proposals based on the evaluation factor below:

#### Factor 1- Price

The Offeror's price will be evaluated based upon the Total Evaluated Price (TEP). The Offeror's Price Proposal will be evaluated for the criteria of Price Reasonableness and Balance.

**Price Reasonableness:** The proposed prices will be evaluated for Price Reasonableness. For a price to be reasonable, it will represent a price to the Government that a prudent person would pay when consideration is given to prices in the market. Normally, price reasonableness is established through adequate price competition, but may also be determined through cost and price analysis techniques as described in FAR 15.404. For additional information see FAR 31.201-3.

**Balance:** The Government may also determine a proposal unacceptable should the proposed prices be unbalanced. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more items/Contract Line Item Numbers (CLINs) is significantly overstated or understated as indicated by the application of price analysis techniques as those defined by FAR 15.404.

**Total Evaluated Price (TEP):** A TEP will be calculated to be used for evaluation of offers to determine the lowest-priced proposal. The TEP calculation will be a summation of all Contract Line Item Pricing.

**Solicitation Requirements, Terms and Conditions:** In addition to meeting the identified factor above, Offerors are required to meet all solicitation requirements, such as terms and conditions, representations and certifications, and required delivery schedules.

Furthermore, all Offeror's shall be listed as an approved source in the Government's Screening Analysis Worksheet Form 761 or 762 prior to contract award.

A qualification package request is attached to this solicitation for those contractors who are not already qualified; however, per FAR 9.202(e), the government reserves the right not to delay contract award in order to provide a potential offeror with an opportunity to demonstrate its ability to meet the standards.

The process for the evaluation of proposals is as follows:

This award will be made to the offeror that submitted the proposal with the lowest Total Evaluated Price and is a qualified source. In the rare instance where the two lowest-priced proposals from qualified sources are the same, the PCO may enter into discussions to provide both offerors an opportunity to supply a best and final offer.

Past performance record and history will be assessed as one of the multiple standards required for a successful offeror to be determined responsible as described in FAR 9.104. Contractors shall meet the required delivery dates, as well as the terms and conditions in this solicitation, to be determined responsible

**EVALUATION CRITERIA FOR AWARD** (OCT 1997)  
(IAW FAR 13.106-2(b), FAR 14.201-5(c), FAR 15.204-5(c))

For the purposes of award, offers will be evaluated based on the following factors, listed in descending order of importance:

| Evaluation Factors | Order of Importance |
|--------------------|---------------------|
| Price or Cost      | 01                  |
| Mission Capability | 02                  |
| Past Performance   | 03                  |

All evaluation factors other than cost or price, when combined, are \_.

**NOTICE FOR OPTIONS:** Price will be evaluated by adding the extended prices for basic award and option quantities, if applicable.
