- (ii) The information is otherwise in the public domain before the date of release.

(b) Request Format and Timing: Requests for approval shall identify the specific information to be released, the medium to be used, and the purpose for the proposed release. This authority does not authorize the contractor to release any information under or related to the subject contract/purchase order to any entity not specified above, or not specifically affiliated with the contractor under the subject contract/purchase order through a contractual or prospective contractual relationship. In addition, this authority does not authorize the contractor to release any information under or related to the subject contract/purchase order to a foreign source prior to submitting their request for release to and receiving written approval from the NAVSUP WSS Contracting Officer.

(d) Approval for release of information to sub-tiers and other entities with which the contractor has a contractual or prospective contractual relationship does not extend to those entities who, regardless of relationship, do not have in place proper safeguards and procedures for receipt and handling of the sensitive information.

(f) Litigation: Should any information described in Paragraph 2(a) above be requested, subpoenaed, or otherwise sought by a court or other Judicial or administrative authority, this request must be promptly brought to the attention of the NAVSUP WSS Contracting Officer to permit appropriate measures to be taken to protect the information. Under no circumstances should information, other than that authorized in Paragraph 2(a)(ii), be released to such authority without prior notification to, and approval from the NAVSUP WSS Contracting Officer.

(g) Survivability: The contractor agrees to perform this contract/purchase order in accordance with the requirements of this local term. - (ii) a malicious code infection that successfully executed and impacted the security controls on any system,
- (iii) confirmed or suspected incidents of fraud involving a system processing NNPI, and
- (iv) intentional or unintentional public release via such methods as theft, improper disposal (e.g., material not shredded, disks lost), placement on a website, transmission via email, or violation of the information system containing NNPI.

(b) Contractors shall immediately report any attempts to elicit NNPI by unauthorized persons to the NAVSUP WSS Contracting Officer or to the local federal law enforcement agency.

4. SECURITY REVIEW

(a) NAVSUP WSS may conduct periodic security reviews of the contractor's facilities, information systems, and information technology resources (to include media containing or storing NNPI) for compliance with the contractor's security plan and the requirements of the most current versions of OPNAVINST N9210.3, NN-801, NN-802, and NN-817, unless otherwise authorized by the NAVSUP WSS Contracting Officer.

(b) NAVSUP WSS shall contact the contractor at least 30 days prior to any security review, and the contractor shall, within 14 days, provide any documents or other information requested by NAVSUP WSS to aid in the security review process. Responding to such requests and participating in the security review process shall not be a basis for a change in price, delivery schedule, or any other modification to the terms or conditions of the contract.

(c) NAVSUP WSS shall notify the contractor, in writing, of any non-compliances identified by the security review and shall provide recommendations for remedying those non-compliances. Contractor or sub-contractor non-compliances or the failure to remedy previously identified non-compliances may, at the NAVSUP WSS Contracting Officer's discretion, constitute grounds for termination of the contract for default or for cause.
