MEMORANDUM FOR RECORD

SUBJECT: STATEMENT OF WORK

REFERENCES: DDNV – Raymond SB-CSR30T Tear Down and Removal; Asset 20013140

1. Name of site where work is to be performed:

Site 1: Norfolk Naval Station, Building Y-109

2. Project History and Justification

DLA Distribution Norfolk, Virginia, is requesting outside vendor services to come to Naval Station Norfolk to perform the tear down and removal of a Raymond SB-CSR30T that has been NMC for over 5 years. This asset is no longer needed and is beyond the reasonable repair cost to return it back to service.

3. Scope of work to be accomplished/Justification/End results to be achieved

The contractor shall provide all necessary repair material, personnel, and equipment to perform the requested tear down and removal. The government requestor will provide the trailer for loading of the asset after the disassembly process has been completed.

Site 1: DLA Distribution Norfolk (DDNV) has a requested service for the tear down and removal of a DLA DDNV owned and operated Raymond SB-CSR30T. The vendor performing the action will go to BLDG Y-109, on Naval Station Norfolk, to perform the requested service. Once the complete disassembly has occurred and all fluids are removed from the asset. The DLA DDNV Transportation Department will have a government provided trailer ready for loading of the torn down Raymond SB-CSR30T.

IMPACT: The asset is taking up valuable space for warehousing of material for DDNV customers. Along with creating a hazardous environment for unwanted rodents to reside in.

4. Quantity of items needing service

1x Raymond SB-CSR30T

6. Estimated cost

\$3,650.00
