14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.) The purpose of this amendment is to answer questions provide by vendors and extend the solicitation due date. 1. Do you want Generator to be running for 24 hour periods? Answer: The statement regarding "24 hours of power generation at 75% load" refers specifically to the generator's fuel tank capacity. The generator must be able to operate for at least 24 consecutive hours at 75% load, based on its fuel tank capacity, without requiring refueling. However, the expectation is that, in an emergency situation, the generator may need to run continuously for multiple day provided it is properly refueled. In other words, the generator should be capable of sustained operation for an extended not limited to a single 24-hour runtime. See Continuation Sheet Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.
