

#	Date	Document	Paragraph	Page Number	Question	Answer
1	4/21/2026	Attachment A - Statement of Need			For all of the builds mentioned in that attachment, it doesn't specify what vehicles the equipment would be going into.	Vehicles will consist of SUV's (large and small) and full size pickup trucks of various makes and models.
2	4/21/2026	Attachment B - Performance Work Statement (PWS)	1		PWS Clarifies that the Springfield, VA location needs 2x 2025 Ford Explorer Interceptors to be upfitted. So, I was wondering if each location would also be using Ford Explorer Interceptors or if there were any differences.	Either location may have operations and tactical response vehicles to be upfitted.
3	4/22/2026	Attachment B - Performance Work Statement (PWS)	Bullet One		NGA Emblem - Would vendor receive the emblems from Sign at Work, then to be installed? Or would we be printing off their artwork?	Vendor will coordinate with "Sign at Work" to obtain decals for vehicle upfits
4	4/28/2026	Attachment C- SECTION 4 – Instructions to Offerors	4.4.1 Proposal Volumes and Organization	3	Please clarify whether CPARs can stand in for PPQs since the timeline for PPQs is very short.	Section 4 request is for Past Performance.
5	4/28/2026	Attachment B- PWS_uplifts	PWS	1	Please provide an estimated number of vehicles requiring uplift per year.	We will routinely complete one to five vehicles per year.
6	4/28/2026	N/A	N/A	N/A	Please provide historical data regarding the number of vehicles requiring uplift for the past 5 years.	NGA doesn't provide that information.
7	4/28/2026	Attachment B- PWS_uplifts	PWS	1	Are there other vehicle platforms NGA expects to be included within this scope of work?	We currently do not expect any other platforms.
8	4/28/2026	Attachment C- SECTION 4 – Instructions to Offerors	4.4 Proposal Documents/ Volume 2- Past Performance	4	Our most highly-relevant past performance are multiple task orders under a single contract number. Please confirm we can use task orders / call orders as individual past performance.	Relevant Past Performance under task/call orders is acceptable.
9	4/28/2026	Attachment C- SECTION 4 – Instructions to Offerors		4	Should the documents listed in paragraph A.2 (i.e. SF1449, Quote, and Clauses and provisions) be included with the cover letter or in a separate volume? Could you also confirm the requirements of the Quote included in Section A2 if the CLINs are to be priced at \$0?	Yes, can be included with cover letter. CLINs should be left blank on 1449.
10	4/28/2026	HM047626R0029_SIP Upfits		3	Please confirm that a new CLIN Period of Performance will be identified with each CLIN that is added to the BOA.	BOA will have a 5 year ordering period. Each order against the BOA will have its own performance period.
11	4/28/2026	HM047626R0029_SIP Upfits		3	Please Confirm there is no pricing template.	There is no pricing template.
12	4/28/2026				With our additive manufacturing capability and machine shop, we often create custom components for specific vehicle make and models. Is there a process for proposing custom components in lieu of OEM or after-market components?	We are not opposed to custom-created components if they meet or exceed the standards established by the OEM components. I would recommend listing the custom work as an alternative to the OEM. You could list the prices comparably within your proposal; ensure that you include the time, labor and purchase price to clearly define the true cost of the custom work against purchasing an OEM part.
13	4/28/2026				Should we assume the two vehicles identified in the solicitation are the only vehicles we are to price for proposal submission?	The quote should be for the two vehicles.
14	4/28/2026				Should we assume that all other vehicles will be built to either one of the two specifications that are in the SoN? Or will there be different build specifications in the future?	We have two primary vehicle builds. One is focused on Patrol and the other is K9 units. That said there are usually minor requested changes to vehicles as technology improves.
