

Attachment J.P-5: Functional Areas and Sub-Areas (Amendment 0008)

This document details distinct functional areas and sub-areas for the purposes of claiming evaluation credit for "Integrated Experience" in accordance with solicitation Section L.5.2.3.3. With the exception of Enterprise Solutions, each Domain included in this solicitation is considered a distinct functional area, as detailed in Section 1 of this document. Additional functional areas are detailed in Section 2 of this document. See solicitation Section C.5 for Services Not in Scope.

Section 1: Functional Areas and Sub-areas Included in this Solicitation (Domains)

1. C.2.1 Management & Advisory Domain

This Domain includes a full range of management and consulting services that can improve a federal agency's performance, its endeavors to meet mission goals, and provide operating advice and assistance on administrative and management issues. **Sub-areas** include, but are not limited to:

• Acquisition & grants management support • Business case development/analysis support • Business consulting • Business intelligence support • Business process improvement • Business process reengineering • Change management • Concept development & requirements analysis • Configuration management • Cost/schedule/performance analysis & improvement • Cost estimation & analysis • Cost/performance trade-off analysis & studies • Decision analysis • Earned value management (EVM) analysis • Ebusiness support • Executive-level administrative support • Facilitating events • Governance • Horizontal analysis & protection activities • Information analytics • Integration of support systems	• Interface management • Investigative services • Knowledge based acquisition • Knowledge management • Leadership & organizational assessments • Long range planning, futures, & forecasting • Manpower estimating • Policy analysis • Project management, program management, integrated program management • Program documentation • Coordination with law/policy making entities • Regulatory compliance support • Requirements management • Risk assessment, mitigation, & management • Stakeholder requirements analysis • Strategy development • Strategic forecasting & planning • Technical & analytical support • Vulnerability assessment
---	---

1.C.2.2 Technical and Engineering Domain

This Domain includes requirements to provide specific engineering, geoscience, or other technical professional skills, such as those performed by engineers, geologists, geophysicists, and technicians, required to handle specific operating conditions and problems for the benefit of the Government. Work under this Domain typically involves the application of physical laws and principles of engineering in the design, development, and utilization of machines, materials, instruments, processes, and systems; and

providing expert advice and assistance on technical functions and issues. **Sub-areas** include, but are not limited to:

• Advanced technology pilot & trials • Alternative energy sources & engineering • Capabilities integration & development • Communications engineering • Configuration management • Concept development • Data analytics & management • Design documentation & technical data • Energy services to include management planning & strategies, audit services & metering • Engineering (aeronautical, astronomical, chemical, civil, electrical, materials, mechanical, Etc.) • Engineering process improvement • Environmental engineering • Human factors/usability engineering • Human systems integration • Independent verification & validation • Integration support • Interoperability • Life cycle management • Mission assurance • Modeling & simulation	• Operation & maintenance or direct support of an existing weapon system or major system • Operational test & evaluation • Optical engineering • Program analysis • Quality Assurance • Radar engineering • Red Teaming & wargaming • Requirements analysis (technical) • Risk management • Scientific (non-R&D) analysis & support • Software development (for IT services involving 40 USC § 11103 (a) activities) • Mapping (except Geophysical) services • System design & integration • System effectiveness & analysis • System engineering • System safety engineering • System security & information assurance • System verification & validation • Technical assessment, data management, & planning • Technical documentation
--	---

1.C.2.3 Research and Development (R&D)

This Domain includes any requirements in support of Research and Development (R&D) activities. R&D activities may be aimed at achieving either specific or general objectives. The term R&D includes basic research, applied research and experimental development. Services include conducting R&D in: the physical, engineering and life sciences; Nanotechnology; Biotechnology; and social sciences and humanities. **Sub-areas** include, but are not limited to:

• Cell & tissue culture & engineering • Conceptual design & modification of product or process alternatives • Design & specification development • Conducting clinical tests to satisfy requirements prior to commercialization • Decision support sciences • Design & improvement of manufacturing or production technologies, processes, techniques • Design, construction, & testing of preproduction prototypes & models • Design, development & implementation of new reagents, testing methods or protocols	• Environmental science research • Experimental development • Laboratory & clinical research • Life science research • Mathematical science research • Physical science research • Biotechnology research & process development • Product experimentation & modification • Psychological science research • R&D advanced training • R&D of automated processes or robotics • Protein/peptide sequencing & synthesis • Research of new applications for existing
--	---

• Design of tools & materials involving new technology • Development of new experimental therapeutic drugs, compounds, or molecules • Development of tools, resources & procedures relating to advanced biologics, assays & testing • Development of new methods for drug delivery • DNA: genomics, gene probes, DNA sequencing, genetic engineering	• products • Software development or I.T. initiatives related to experimental product or process improvements • Social science research • Special studies & analysis • Technical research consulting, development, and facilitation services • Technology transfer/insertion, training & consulting • Test & evaluation (non-routine) services • Regulatory requirements compliance testing
--	--

1.C.2.4 Intelligence Services Domain

This Domain focuses on Command, Control, Communications, Intelligence, Surveillance, and Reconnaissance mission requirements. Organizational and technological capabilities improve situational awareness and enhance command and control strategies within defense and intelligence environments. **Sub-areas** include, but are not limited to:

• Assured positioning, navigation & timing capabilities support • Prototyping, integrating & testing • Command, power & integration support • Counter-IED & minefield detection & neutralization • Counterintelligence (CI) • Cyberspace operational support • Cyber & tactical network science • Detection & neutralization of explosive hazards • Electro-optical/infrared surveillance • Electronic countermeasures • Information superiority support • Electromagnetic spectrum operations • Field & enterprise intelligence support • Geospatial intelligence (GEOINT) • Human intelligence (HUMINT) • Imagery intelligence (IMINT) • Integrated power support services • Intelligence, information and electronic warfare • Intelligence production, collection, analysis, exploitation & dissemination • Intelligence, surveillance, reconnaissance, & targeting (ISRT) development & support • Intelligence analysis	• Intelligence archiving • Intelligence cataloging • Intelligence retrieval • Intelligence management • Measurement and signature intelligence (MASINT) • Mission command, planning & application • Network visualization • Night vision, electronic, & optical surveillance • Offensive & defensive cyber operations • Open source intelligence (OSINT) • Power/energy generation & management • Product realization engineering • Secure correspondence management • Signals intelligence (SIGINT) • Software development (for IT services involving 40 USC § 11103 (a) activities) • Standardized software framework implementation • Space & terrestrial communications • Specialized functional training • Tactical & strategic network support • Tactical cyberspace operations • Technical Intelligence (TECHINT) • Threat modeling & simulation • Unmanned systems
--	--

1.C.2.5 [Reserved]

1.C.2.6 Environmental Domain

This Domain supports agencies in meeting their environmental requirements and streamlining the contracting process by providing a faster, more cost-efficient means to meet environmental objectives. Requirements typically involve multi disciplined teams of scientists, engineers, and other technicians with expertise in areas, such as air and water quality, asbestos contamination, remediation, ecological restoration, and environmental law. Environmental consulting could consist of support such as Planning and Documentation Services for the development, facilitation, and coordination of and/or for environmental initiatives or mandates in areas of chemical, radiological, and/or hazardous materials.

Sub-areas include, but are not limited to:

• Air monitoring • Air toxicology & criteria pollutants strategy & analyses • Archeological/cultural resource management plans • Archaeological site consulting & preservation • Biomass & biofuel energy strategy & analyses • Carbon capture, utilization & storage • Cleanup and assessment of emerging contaminants (PFAS) • Consulting on endangered species, wetland & watershed protection • Crop & tree migration • Cultural resource geographic information services • Emissions reduction strategy & analyses (locomotives, marine vessels, aircraft, etc.) • Environmental consulting • Environmental education • Environmental emergency response • Environmental engineering • Environmental information management • Environmental impact assessment • Environmental management & monitoring • Environmental remediation • Environmental risk assessment • Environmental toxicology • Forest land fire management planning	• Geographical information systems (GIS) support • Hazardous material management, planning, disposal & remediation • Laboratory (environmental) testing • Land use planning • Mapping, cartography & integrated mapping from various data sources • Migration pattern analysis • Munitions / Unexploded Ordnance Cleanup • Natural resource management & planning • Pollutant contamination planning, assessment & mitigation • Reclamation services • Regulatory development and compliance • Remote sensing for environmental studies • Terrestrial, marine, atmospheric measuring & management • Thermal mapping • Sea-level rise analysis & response • Sediment management • Storage tank (above & below ground) removal • Stormwater management • Sustainability & decarbonization strategy & reporting • Vegetation & topography mapping • Vehicle fleet electrification support • Water and/or wastewater and/or groundwater monitoring • Water and/or wastewater infrastructure • Water conservation and/or pollution prevention • Watershed characterization & assessment
--	--

1.C.2.7 Facilities Domain

Services in this Domain include any and all services required to maintain and operate buildings, paved services, utilities infrastructure, and real property assets and equipment. This could include major facilities support such as Department of Defense (DoD) installations, hospitals, cemeteries, and other federal or industrial real property, but does not include major/primary purpose construction. GSA has included a wide range of services found in facilities contracts because of their historical use to support total facilities solutions. **Sub-areas** include, but are not limited to:

• Airfield lighting services • Airport security services & surveillance • Alarm and security system maintenance • Architectural & framework building maintenance services • Base operation support services • Building inspection services (including OSHA) • Building management services • Cathodic protection & corrosion control • Cemetery maintenance • Civil engineering services • Commissioning services • Communication services - general • Communication services - telecommunications • Community center management • Conference center support • Custodial services • Electrical services (electrical maintenance) • Elevator services (elevator maintenance) • Elevator inspection services • Emergency management services • Energy Management Control Systems (EMCS) • Energy and water conservation management and reporting • Engineering management services • Engineering to support installation of Facility Resource & Optimization (R&O) decisions to distribute limited & scarce future funding • Engineering to support construction cost estimates • Engineering services to provide general management over current & future maintenance • Environmental compliance & conservation • Environmental pollution prevention • Equipment and electronics maintenance • Facility & installation maintenance services • Fire alarm/fire suppression (fire suppression System preventative maintenance & repair) • Fire alarm system maintenance & repair • Fire protection and emergency services	• Force protection assets & entry control points • Fuels Management • Grounds maintenance • HVAC services (HVAC maintenance) • Infrastructure planning • Insect & pest control • Integrated waste management services • Janitorial services • Landscaping/grounds maintenance • Locksmiths • Logistics Planning • Ground Transportation Services • Installation Deployment Readiness Center (IDRC) • Mailroom Services • Maintenance of fuel distribution & grounding systems • Material Management • Operations & maintenance (O/M) of facilities • O/M of aerospace facilities & equipment • O/M of airfields • O/M of electrical distribution & HVAC systems • O/M engineering • O/M of fresh water system • O/M of historic facilities • O/M of utility & sanitation systems • Plumbing & pipefitting services • Pollution prevention & remediation programs. • Real property management • Refuse collection and disposal • Renewable energy systems • Repair & restoration projects • Roofing services • Security forces services • Sensitive Compartmented Information Facilities (SCIF) • Septic services • Snow removal • Street sweeping & maintenance • Traffic Management • Vehicle management • Water distribution
--	--

● Fitness / Sport Center Management	● Water tanks ● Waste management & recycling services
---	--

1.C.2.8 Logistics Domain

Services in this Domain include comprehensive logistics solutions, including planning and designing, implementing, or operating systems or facilities for the movement of supplies, equipment or people by road, air, water, rail, or pipeline. **Sub-areas** include, but are not limited to:

● Analysis & recommendation of support equipment ● Cold chain medical supply services ● Deployment logistics ● Disaster management/contingency operations ● Distribution & transportation ● Food & perishable goods supply services ● Industrial relocation/expansion services ● Infrastructure Services (including transportation & delivery) ● Integrated Product Support (IPS) technical requirement creation ● Integrated Product Support ● Integrating public & private resources ● IPS system design, risk assessment, schedules creation & Performance tracking ● Inventory management ● Life cycle sustainment	● Logistical studies & evaluation ● Logistics design ● Logistics management & support services ● Logistics operations support & maintenance ● Logistics optimization ● Logistics services ● Logistics training services ● Rapid deployment of supplies & equipment through communication & logistics systems ● Repair & alteration ● Resource sourcing - global, regional, local, etc. ● Specialized cargo management ● Supply chain management & provisioning ● Supportability analysis & implementation ● Technology & Industrial base ● Test range support ● Value chain management
---	---

1.C.2.9 Business Administration Domain

This Domain includes requirements to provide assistance with administrative, clerical, and business management services. This includes an array of language services, document management, administrative support, and data services. **Sub-areas** include, but are not limited to:

● Actuarial services ● Administrative tasks & support ● Archiving ● Billing and record keeping ● Business profiles ● Business reporting ● Captioning & subtitles ● Clerical duties ● Data entry & processing ● Document scanning, processing, & conversion ● Employee suitability ● File management ● Foreign language services ● Institutional ranking	● Library support ● Linguist screening & recruitment ● Note taking ● Paralegal services ● Patent agent services ● Reception services ● Scheduling ● Secretarial services ● Secure shredding & destruction ● Sign language translation ● Survey facilitation & assessment ● Temporary staffing ● Translator & interpreter service ● Travel preparation ● Trial and jury consulting services
--	--

1.C.2.10 Marketing & Public Relations (M&PR) Domain

This Domain includes marketing & public relations services that span advertising, marketing, production and media services. **Sub-areas** include, but are not limited to:

• Advertising • Animations • Branding initiatives • Broadcast media • Business & trade shows • Commercial art/photography • Conference & event planning • Convention management support • Corporate identification & logos • Creating public awareness of an agency's mission & initiatives • Digital & multimedia conversion and duplication services • Direct mail services • Editing/editorial services • Email marketing • Exhibit planning & installation • Film treatment & processing services • Focus groups • Graphic design, custom & stock artwork • Illustrations & Imaging • Interactive marketing • Marketing consulting services • Marketing database creation	• Narration • Online media management • Packaging design • Photographic services • Portable displays • Public relations services • Press conferences & releases • Press kits • Publication designs & services • Search engine optimization • Signage systems and design • Social media campaigns • Sound/audiovisual services • Special effects • Speech writing services • Strategic marketing plans • Survey preparation & distribution • Telemarketing • TV/radio broadcasting & print interviews • Video & audio production services • Visual communication • Webcasting • Website design & maintenance • Writing services
---	--

1.C.2.11 Human Capital Domain

This Domain includes training and development services, human capital strategy services, and organizational performance improvement. Services aim to support human capital objectives through hiring and talent acquisition of non-governmental employees, proper background investigations, and career and leadership development. Additionally, this functional area includes career services in employee monetary disbursement management, including those related to payroll, benefits, and retirement management. **Sub-areas** include, but are not limited to:

• Background investigations • Business process improvement • Business process reengineering • Change management • Career development, coaching & management • Career guides & mapping • Certifications & licensure • Collaborating, Learning, & Adapting (CLA) • Compensation & benefits management • Competency development & management	• Leadership & organizational assessments • Learning management systems • Long range planning, futures, & forecasting • Management associations, unions & bargaining units • Merits, rewards & recognition • Online course development • Organizational assessment & transformation • Organizational performance improvement & knowledge management
---	---

• Contract-to-Hire, permanent placement, & temporary staffing • Credit history checks • Cultural transformation • Customized training solutions • Employee assessment consulting services • Employee misconduct remediation • Employee engagement • Employee placement • Employee support services • Employee value proposition • Employee relations • Evaluation reporting • Executive leadership programs • Executive services • Facilitation & organizational data analytics • General skills & knowledge training, development & coaching • Human capital management • Human resources development, strategy, support & transformation • Human resources and personnel policies and management consulting services • Integrated business management • Knowledge & information sharing • Labor relations • Leadership & coaching tasks • Leadership, management & supervisory training & development	• Payroll • Performance management, improvement & promotion • Position classification • Records management & disclosure • Retirement planning & processing • Security clearance processes • Separation management • Site selection • Staff acquisition • Strategy development • Strategic forecasting, planning & alignment • Talent management & recruiting help services • Technical skills & knowledge development • Training program management support • Traditional academic coursework • Workforce analysis, development, & planning • Workers compensation • Workforce reform tasks • Work schedule & leave administration • Unemployment insurance claims • Virtual workforce planning
--	---

1.C.2.12 Financial Services Domain

This Domain includes requirements designed to support financial objectives, such as accounting, budgeting, financial advising, loan servicing, asset management services and complementary financial services. **Sub-areas** include, but are not limited to:

• Accounting services • Affordability analysis • Analysis of cost alternatives • Assessment & improvement of budget formulation & execution processes • Assistance in devising or revising accounting policies & procedures • Asset marketability • Audit services/review - General/Financial • Budget analysis & tracking • Business information systems • Contract audits, both Generally Accepted Government Auditing Standards (GAGAS) & non-GAGAS • Cost estimating & analysis support	• Financial Planning, Programming, Budgeting, & Execution (PPBE) • Grant management (processing, audit, oversight) • Life cycle cost determination • Loan management • Oversight & fraud detection • Performance audits • Portfolio management • Program management for financial services • Recovery audits • Return on investment analysis • Remittance processing • Servicing & restructuring troubled loans • Servicing, monitoring & maintaining loan
---	--

• Cost performance risk assessments • Debt collection services • Disbursement & reconciliation support • Economic analysis • Equity monitoring • Financial data analysis • Financial impact statement development • Financial risk analysis • Financial management services & training	- assets • Should-Cost determinations • Transportation audits • Total ownership cost determination • Transaction analysis & processing
--	--

1.C.2.13 Social Services Domain

This Domain includes social services requirements. These requirements involve government services provided for the benefit of the community and society, such as education, medical care, and housing services. These public services aim to create more effective organizations, build stronger communities, and promote equality and opportunity. **Sub-areas** include, but are not limited to:

• Addiction recovery services • Behavioral health consultant training • Behavioral health professionals services • Beneficiary satisfaction surveys • Child and youth services • Disabled veterans driver rehabilitation services • Employee assistance program services • Educational & public health program administration • Emergency response & social advocacy services • Employee health benefits assessment • Health insurance services • Intellectual property handling • Interpretation services • Mental health provider support services	• Medicare Improvement for Patients and Providers (MIPPA) improvement assessment • Outpatient recovery • Pension/insurance administration • Personal and family support • Physical/occupational/educational therapy • Psychotherapy • Readjustment services • Review of internal controls for programs • Settlement services • Separation counseling • Vocational and psychological rehabilitation • Wellness coaching
---	---

Section 2: Additional Functional Areas and Sub-areas for Claiming Integrated Experience

The following Functional Areas and Sub-areas are detailed for the purposes of claiming evaluation credit for “Integrated Experience” in accordance with Section L.5.2.3.3. Note that the OASIS + Domains’ scope currently includes only those functional areas and sub-areas included in Section C.2.1 through C.2.8 of the solicitation. Should future Domains be added, Section C will be updated accordingly via subsequent solicitation(s) and/or amendment(s) to formally define the scope of those Domains.

2.1 Information Technology (IT) Services Functional Area

This functional area includes customized IT services and IT services-based solutions, both commercial and non-commercial, as defined in the Clinger-Cohen Act and FAR 2.101. Customized IT services-based solutions can be tailored to meet an agency’s particular mission needs, such as: Data Management, Information and Communications Technology, IT Operations and Maintenance, IT Security, Software Development, and Systems Design. **Sub-areas** include, but are not limited to:

• 5G Implementation & applications services • Application Integration Services • Assessment, Implementation and Management of AI tools and technologies • Augmented / Virtual Reality • Automated information System Design & Integration • Automated Messaging Services • Automated News, Data and other Info. Services • Blockchain Implementation Solutions • Bring Your Own Device (BYOD) Support • Business logic: JavaScript, Visual Basic • CAD/CAM Services • Cloud Services: Backup Solutions, Governance, Security, Migration, Risk Management, Storage/Hosting, Strategy and Planning • Computer Vision • Configuration Management Services • Continuous Diagnostics and Mitigation (CDM) • Continuous Security Monitoring • Cryptography/Encryption • Data Architecture, Analysis and Design • Data Center Management • Data Cleaning Scripts • Data Governance & management • Data interchange • Data Migration • Data Quality Management • Data Science • Data Security Management • Database planning and design	• IT Security Incident Response • IT Specifications Development • IT Training • Machine Learning • Messaging-Oriented Middleware (MOM) • Mobile Application Development Services • Mobile Backend as a Service • Mobile Device Management • Mobile Threat Protection • Mobility as a Service (MaaS) • Natural Language Processing (NLP) • Network and Individual Storage Management • Network as a Service (NaaS) • Network Infrastructure Design • Network Security Monitoring • Object Request Broker (ORB) • Office Automation Computer Systems Integration Design Services • Online Analytical Processing (OLAP) • Open DataBase Connectivity (ODBC) PC Provisioning • Platform as a Service (PaaS) • Process Automation • Quantum Machine Learning • Resource Description Framework (RDF) support • Robotic Process Automation (RPA) • Secure communications • Security Assessment / Vulnerability Analysis Services • Server and Device Management • Simple Object Access Protocol (SOAP) support
---	---

• Deep Learning • Design of high-performance computers, computer clusters, and networks • Desktop Management • DevOps • Digital Asset Content Management • Digital certificates • Distributed computing in low trust environments • DLT Network Design Services • Edge Services: Analytics, Applications, Architecture Design • Electronic Data Interchange (EDI) • Email and File Server Management • Enterprise Application Integration (EAI) • Extensible Markup Language (XML) • Geospatial Data Practices and Services • Identity and Access Management • Information Assurance • Information Management Computer Systems Integration Design Services • Infrastructure as a Service (IaaS) • Interactive Voice Response (IVR) • Internet of Things (IoT) Services • Intrusion Detection • IPv6 Implementation and Support Services • IT Backup and Security Services • IT Disaster Recovery Services • IT Facility Operation and Maintenance • IT Help Desk / IT Support	• Smart Buildings Systems Integration • Smart Contract Programming Services • Smart Notifications • Software as a Service (SaaS) • Software Defined Wide Area Networking Implementation (SD/WAN) • Software: Design, Maintenance, Programming, Testing • Spatial Computing • Speech Recognition • Structured Query Language (SQL) • Synthetic Environment • Systems analysis, design, development & integration • Telepresence and Video Services • Testing, modeling and versioning services • Universal Description, Discovery & Integration (UDDI) • Virtual Private Network (VPN) and other Remote Network Access Services • Virtualization Services • Voice over IP (VoIP) Services • Web Development • Web Services Description Language (WSDL) • Wireless Services • Zero Trust Architecture Services
--	--

2.2 Security & Protection Services Functional Area

This functional area includes personnel and property protection, law enforcement and military activities, and security services to support law enforcement protection, prevention, apprehension, or investigation needs. Includes protective service occupations to support on-site security operations, such as security guards, alarm monitors, baggage inspectors, corrections and court security officers, etc. **Sub-areas** include, but are not limited to:

• Ballistic analysis • Crowd control services • Emergency & non-emergency Dispatch services: medical, fire, security, and local hazard • Emergency & non-emergency text, paging, radio, & intercom systems operation • Emergency Notification support systems and services • Fingerprinting • Forensic artist services	• Locksmith services • Operation and maintenance of weapons storage facilities • Personal & Document Identification Systems • Personnel, parcel, vehicular, and facility searches, checks, and inspections • Professional Law Enforcement Services • Protective Service Occupations • Security incident response management • Security System Integration, Design, Management, and Life Cycle Support
--	--

• Guarded transportation services • Handwriting analysis • Highly Adaptive Cybersecurity Services (HACS)	• Security System Integration, Design, Management, and Life Cycle Support • Security Training
--	--

2.3 Transportation Services Functional Area

This functional area includes services related to the movement of passengers and/or freight (goods or supplies) by various methods (e.g., ground, air, sea, or rail) for a variety of purposes including logistics, entertainment, travel, commerce, public safety, etc. Included services in addition to movement and mode of travel are traffic management services; automotive repair and maintenance services; aircraft inspection, maintenance and repair services. **Sub-areas** include, but are not limited to:

• Air traffic control services (except military) • Aircraft charter services • Aircraft ferrying services • Aircraft fueling (contract or fee basis) • Aircraft hangar rental/parking services • Aircraft inspection, maintenance and repair services (except factory conversion, overhaul, or rebuilding) • Aircraft testing services • Airport operations and maintenance, civil • Airport passenger screening security services • Airport shuttle services • Antique and classic automotive restoration services • Automotive body conversion services • Automotive interior/exterior repair and maintenance services • Automotive servicing stations • Barge transportation services • Bulk mail trucking services • Commuter air carrier/taxi services • Customs broker/shipping agent services • Disabled/elderly passenger transport services • Ferry passenger transportation • Inland waterway towing services • Inland waterway transport for passenger/freight • Intercoastal/intracoastal transportation of passengers/freight - domestic ports • Interurban/rural busing services • Lake passenger/freight transportation	• Line-haul passenger/freight railroads • Marine operations/salvaging/towing services • Nonemergency medical transportation services (except ambulance services) • Nonscheduled passenger/freight spacecraft transportation • Pet transportation services • Pipeline transport • Port facility/seaway operation services • Scheduled/nonscheduled air passenger/cargo/freight/mail carriers (except air couriers) • School or employee busing/car pooling • Ship chartering services • Short-line/beltline passenger/freight railroads • Specialized Freight (except Used Goods) Trucking, Local/long distance • Taxi/ride hailing/ridesharing services • Truck, trailer body services • Trucking and motorcoach transport • Trucking used household, office, or institutional furniture and equipment • Urban/suburban transit systems, mixed mode (e.g., bus, commuter rail, subway combinations, etc.) • Van lines, moving and storage services • Vehicle rental with an operator • Water shuttle or taxi services • Wrecker/towing services, motor vehicle
--	--

2.4 Medical Services Functional Area

This functional area encompasses the health care and social assistance sector comprising establishments providing health care and social assistance for individuals. Included in this functional area are services such as physician's offices, hospitals, medical laboratories, nursing homes, and youth and family service centers. **Sub-areas** include, but are not limited to:

• Advanced practicing registered nurses' (APRNs) offices (e.g., centers, clinics) • Ambulance services • Audiology/hearing testing services • Blood banks • Certified registered nurse anesthetists' (CRNAs) offices (e.g., centers, clinics) • Child care/welfare services • Chiropractic services • Dental services, generalist/surgical • Diabetes education services • Dialysis services • Disaster or Emergency relief services • Electronic Medical/Health Record System management • Family planning and reproductive health services • Generalist/specialist clinics and medical offices • Holistic medical services • Home nursing services • Hospice homes/in-home or on-site palliative care • Imaging and radiology services • Immigrant/refugee resettlement services • Individual and family social services, multi-purpose	• Industrial/Occupational therapy • Licensed practical nurses' (LPNs) offices (e.g., centers, clinics) • Medical coding/billing management services • Medical laboratory testing services(except radiological, x-ray) • Medical prescription delivery services • Mental health and addiction treatment services • Mental health services • Optometry services • Orthopedic and other rehabilitation services • Paramedics/ambulance services (air or ground) • Pharmacy services • Physical/recreational therapy services • Prosthetic/Orthotic/Ocular services • Rape crisis services • Respiratory therapy services • Speech or voice pathology services • Suicide/crisis call/intervention centers • Telehealth and nursing services
---	---
