

United States Department of Agriculture
Decision to Restrict Competition under the Simplified Acquisition Threshold
Identification Number: 12639526Q0057

In accordance with the Revolutionary Federal Acquisition Regulation (FAR) Overhaul (RFO) FAR 12.102 (a), the following documents the decision to restrict competition for this acquisition.

(1) Mission Area and Contracting Activity.

Requisition Number: 1162326

Requesting Activity Agency:
North Carolina State Office
USDA, APHIS, WS
6213-E Angus Drive
Raleigh, NC 27617

Contracting Activity:
USDA APHIS
250 Marquette Ave
Suite 410
Minneapolis, MN 55401

(2) Estimated Value

Period	Fiscal Year	Total
BASE	FY26	\$ [REDACTED]
Option 1	FY27	\$ [REDACTED]
Option 2	FY28	\$ [REDACTED]
Option 3	FY29	\$ [REDACTED]
Option 4	FY30	\$ [REDACTED]
Grand Total		\$ [REDACTED]

(3) Brief Description of Supplies or Services

The U. S. Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Wildlife Services (WS) North Carolina (NC) program annually removes over 650 beaver dams using binary explosives to manage problems caused by beaver on private and public lands to prevent loss or repair costs of an estimated \$18 million in roads, bridges, timber, agriculture crops, railroad trestles, dams, sewer systems, water treatment facilities, homes, airport runways, golf courses etc. every year.

The USDA APHIS WS NC has a requirement for the following explosives and accessories:

- Kinepak K12 liquid
- Kinepak K12 solid
- Kinepak K1 liquid
- Kinepak K1BB solid
- Dyno Nonel EZdet
- Dyno Nonel Lead Line
- Dyno Nonel MS
- Primacord
- IBQ Britanite

United States Department of Agriculture

Identification Number: 12639526Q0057

- Martin & Shaft 2020 fuse lighters
- Maxam Riodet 12'
- M700 safety fuse

(1) Suggested Source

The suggested contractor is:
Dimension Supply, Inc.
1034 Oak Grove Rd
Morrisdale, PA 16858-8229
UEI: NJNDSPHFHL34

(4) Justification for Restricting Competition and the Basis for that Decision.

- A. Explain the unique qualifications/characteristics of the proposed contractor or product and why no other contractor or product/service can meet the Government's need.

Binary explosive components must be compatible in all aspects where two components consisting of nitromethane and finely divided ammonium nitrate are combined to form a cap sensitive explosive. Dimension Supply, is the owner, manufacturer, and distributor of Kinepak. There is no other binary explosive that is equivalent to Kinepak because of the safety concerns provided below under examples. Similar options would not be a viable option for consideration due to toxicity of the components and/or detonation products, stability of the components before and after mixing, shelf life, cost, ease/difficulty of mixing, and no advantages when compared to ammonium/nitromethane systems.

Alternative products do not meet these size or configuration requirements, require specialized PPE, and do not achieve required stability or compatibility as validated by the USDA WS Explosives Sub-Committee. Furthermore, Kinepak is manufactured and distributed exclusively by Dimension Supply under proprietary formulation, and no other contractor can supply a product meeting these specifications.

- B. Describe market research conducted and the results or the reason why no market research was conducted.

A RFI was posted on GSA eBuy from March 11, 2026, through March 13, 2026, with no responses being received. Previous market research from the original BPA was conducted to verify the availability of binary explosives from other vendors. This included analyzing product specifications, consulting with peer institutions, and the USDA Wildlife Services Explosives Sub-Committee. The responses and findings confirmed that no other binary explosives met our required compatibility and performance criteria.
