Section B: Description of the Supplies/Services Required

[REDACTED] is requesting the purchase of a new pump and engine to repair the [REDACTED] Distributor & Water Tank Vehicle, Model 1500R. ENGINE ONLY NO INSTALLATION/SERVICE REQUIRED:

****PUMP & ENGINE PACKAGE DARLEY HE 500 350 - 500 GPM, SINGLE STAGE CENTRIFUGAL PUMP, W/ KUBOTA V3600 ENGINE, 84.5 H.P. W/CTRL PANEL, 4" VICEeither T. PORTS, JP8 FUEL.****

Section C: Justification for Soliciting from a Single Source or Brand Name

Justification for the BNO requirement is as follows:

The technical specifications for the engine are mandatory because the 1500 International Water Distribution Truck is engineered specifically to accommodate only two direct-fit engine models: the V3600-E3 and V3600-T-E3. These engines match the truck's existing mounting points, powertrain configuration, and spatial tolerances without requiring alteration. No other engine models are compatible with the vehicle's factory design, and any alternative would necessitate major structural modifications to the engine bay, integration of additional components, and reengineering of supporting systems. Such changes would significantly increase cost, downtime, and technical risk. For these reasons, only the V3600-E3 or V3600-T-E3 engines meet the requirement. Therefore, it is in the government's best interest to solicit utilizing brand name only.

Although the template being used references the previous FAR Part 13, the requirement has changed with the RFO. We are now applying RFO 12.102(a), which states: "Document decisions to restrict competition, including the use of **brand-name descriptions** without allowing for 'equal' products, as follows: (a) For acquisitions valued at or **below the simplified acquisition threshold (SAT)**, document the decision that only one source is available and the basis for the decision."

Section D: Efforts to Obtain Competition

Recommend that this be procured with Brand Name Only justification as there are multiple Service Disabled Veteran Owned Small Businesses that are capable and interested in providing the requirement. Thorough market research was conducted, and multiple SDVOSBs were found capable of fulfilling this requirement with the requested or similar specifications.

Section E: Steps to Preclude Future Single Source or Brand Name Awards

The goal of 355 CONS is to utilize the most efficient and affordable method of procuring supplies in an effort to meet the customer's needs and mission in a timely manner. We are consistently utilizing all available avenues to identify vendors via previous purchase history, market research, known resources, and approved innovative methods.
