E.2 52.212-2 EVALUATION – COMMERCIAL ITEMS (OCT 2014)

- (A) BASIS OF AWARD: This procurement is a best value source selection and is being conducted pursuant to FAR Part 12 procedures. The Government intends to award a single contract as a result of this solicitation, based on the evaluation factors listed below and whose offer represents the best value to the Government. A contract may be awarded to the offeror whose offer conforms to the solicitation's

requirements (to include all stated terms, conditions, representations, certifications, and all other information required in the Performance Work Statement of this solicitation) and is judged by an overall assessment of the evaluation factors to represent the most advantageous to the Government. As part of making the assessment, a comparative analysis will be performed to determine whether exceeding the minimum requirements at the quoted price will provide the best value to the Government.

- (B) AWARD FOR ALL OF THE WORK. The Government intends to award a single award contract as a result of this solicitation. Offers received for less than the stated number of items listed in the schedule may be considered ineligible for award. The Government, however, reserves the right to make an award for any item from any offeror for a quantity less than or equal to the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(C) EVALUATION PROCESS:

Evaluation Factors. Evaluation of offers will be made using procedures under FAR Part 12.203(c)(2). Offers will be evaluated in accordance with the following factors:

Factor 1: Past Performance

Factor 2: Technical Capability

Factor 3: Price

FACTOR 1 - Past Performance: The Government will evaluate the Past Performance of the Prime vendor (i.e. the offeror) proposed to perform a major portion of the requirement. The past performance evaluation factor assesses the degree of confidence the Government has in an offeror's ability to supply products and services that meet users' needs, based on a demonstrated record of performance. For evaluation of Past Performance, the Government may use information from any sources available to it including, but not limited to, the Contract Performance Assessment Reporting System (CPARS) and the attached **Past Performance Questionnaire**.

Past performance questionnaire (see attachment). Offerors should provide no less than two (2) relevant past performance information for work performed comparable to the **Los Angeles National Cemetery** under contracts completed during the last five (5) years and **signed by the entity who completed the questionnaire**. The Government reserves the right to verify statements and representations made in an offeror's proposal. The offeror may include Federal, State and Local Government and private sector contracts. However, the Government will evaluate contract(s) the offeror has/had with a Federal Government Agency more favorably.

To obtain information, the Government may contact the points of contact listed by offerors, however, the Government is not required to contact the points of contact provided by offerors and may limit the number of references it decides to contact. The Government is also free to contact references other than those provided by the offeror to evaluate past performance of offerors.

FACTOR 2 – Technical Capability:

The Offeror shall demonstrate understanding of the requirements of the Performance Work Statement and produce an offer that will meet those objectives. The offer will be evaluated based on the proposed approach to performing the work. Please provide documentation evidencing: (1) proposed performance work schedule; (2) materials/uniforms (include photos) to be used at the cemetery; (3) list of equipment to be used at the cemetery to include of patrol vehicle(s)(include photos); (4) a quality control plan to monitor the Contractor's performance in meeting the cemetery's goals; (5) Qualification of Technical Personnel (training, experience, certifications, licenses, permits, insurance).

The Government may determine that a proposal is unacceptable if the option prices are significantly unbalanced or if the proposed price for the basic requirement or any option exceeds the amount of funding available for any of those requirements. Evaluation of options shall not obligate the Government to exercise the option(s).
