0002	DATA REQUIREMENTS Data Requirements for ITEM 0001 <i>In Accordance with Attachments</i>	1 SET	<u><i>Not Separately Priced</i></u>	

- Required Delivery Date: 09/11/2026
- Place of performance is: Portsmouth Naval Shipyard, Kittery, Maine, 03904
- For evaluation purposes, please provide any applicable procedures and technical information. If no information is provided, your quotation may be determined to be unresponsive.
- Award may be made on the basis of adherence to the schedule and/or soonest mobilization.

REQUEST FOR QUOTATION

N3904026RX19769

- Please provide published commercial labor rates and breakdown of total prices, if applicable, for Price Justification purposes.
- See Below for Detailed Statement of Work and Applicable Clauses.

ALL OFFERS SHALL INCLUDE THIS FORM FILLED OUT IN ITS ENTIRETY (HIGHLIGHTED YELLOW FIELDS ARE REQUIRED).

INSTRUCTIONS FOR SUBMISSION

Offers shall be **emailed** to Sarashea Thibodeau at sarashea.thibodeau.civ@us.navy.mil. Vendors will be required to submit a quote that will be evaluated in accordance with the specifications provided in this request-for-quote.

System for Award Management (SAM): Vendors must be registered in the SAM database to be considered for award. Registration is free and can be completed on-line at <http://www.sam.gov/>.

Technical Confidence Submission:

Vendors must provide the following:

- i) Applicable Non-Destructive Testing procedures written by the Party to be conducting them:
 - (1) Ultrasonic Testing Procedure in accordance with MIL-STD-2132D (including acceptance criteria per MIL-DTL-32386), and
 - (2) Applicable Liquid Penetrant Test Procedure in accordance with MIL-STD-2132D (including acceptance criteria per MIL-DTL-32386); and
- ii) Provide evidence of compliance with the Higher-Level Contracting Quality Requirements of (1) MIL-I-45208 or (2) ISO 9001/9002 with STR-ISO 9000 Supplement A, or B, or C.

Delivery Schedule:

Offerors must indicate whether they minimally meet the requested delivery schedule of 50 weeks after receipt of order. If no offeror can meet the requested delivery schedule, the Contracting Officer may decide to resolicit under revised delivery terms.

Price:

Please provide your lowest pricing terms for the items being requested.

Past Performance:

The Contracting Officer will utilize any available information, public or otherwise, to evaluate Vendor Responsibility. The vendor should include in their proposal submission at least three (3) previous projects or contracts for the Vendor and any subcontractors that have been performed within the last five (5) years and are relevant to the effort required by this solicitation. The Government will only evaluate projects or contracts that have been performed.

REQUEST FOR QUOTATION

N3904026RX19769

EVALUATION

The Government will award a delivery order resulting from this solicitation to the responsible vendor whose quote offers the best value to the government. Quotes will be evaluated based on the Lowest Price Technically Acceptable (LPTA):

1. Technical Capability
2. Delivery Schedule
3. Price
4. Past Performance

Technical Capability:

Technical Capability Confidence Ratings	
Rating	Description
Acceptable	The Offeror has provided the following: i) Technically acceptable Non-Destructive Testing; and ii) Evidence of compliance with the Higher Level Contracting Quality Requirements of (1) MIL-I-45208 or (2) ISO 9001/9002 with STR-ISO 9000 Supplement A, or B, or C.
Unacceptable	Based on the Offeror's lack of acceptable technical data, the Government has an unacceptably low level of confidence as to whether the Offeror may be technically capable of successfully performing the required effort.

Delivery Schedule:

The Government seeks to award to a vendor that can meet its requested production schedule.

Delivery Schedule Ratings	
Rating	Description
Acceptable	The Offeror's quote proposes the ability to meet the requested delivery schedule
Unacceptable	The Offeror's proposed Delivery schedule does not meet the schedule requested by Government

Price:

Pricing data will be evaluated as Lowest Price Technically Acceptable. Failure to include pricing for all line items shall be cause for rejection of the quote for all line items.

Past Performance:

The Government will consider vendor responsibility information obtained from sources including Federal, State and local Government agencies, better business bureaus, published media and electronic databases including, but not limited to, Contractor Performance Assessment Reporting System (CPARS), the Product Data Reporting and

Evaluation Program (PDREP), and the Supplier Performance Risk System (SPRS) in order to determine whether a vendor's past performance information indicates potential risk to delivery under this contract. Vendors with no past performance information in the systems will be rated as "Acceptable". A vendor that receives an "Unacceptable" rating will no longer be considered for further competition or award

Past Performance Confidence Ratings	
<u>Rating</u>	<u>Description</u>
Acceptable	Based on the Offeror's recent/relevant performance record, the Government has reasonable confidence that the Offeror will successfully perform the required effort.
Unacceptable	Based on the Offeror's recent/relevant performance record, the Government has an unacceptable lack of confidence as to whether the Offeror may be able to successfully perform the required effort.

- Recent is any contract or project that has been performed within five (5) years, measured from the date this solicitation was issued. Information that fails to meet this condition will not be evaluated
- Relevant is defined as any contractor or project that is similar in scope and complexity to this effort
- Scope: Measures the similarity between the Past Performance information and requirements or tasks to be performed in the solicited effort.
- Complexity: Measures the similarity of technical and managerial intricacy and required coordination and disciplines between the Past Performance information and the solicited effort.

(End of Submission Instructions and Evaluation Factors)

CLAUSES:

Responsibility and Inspection: unless otherwise specified in the order, the supplier is responsible for the performance of all inspection requirements and quality control. The following FAR provisions and clauses are applicable to this procurement:

52.203-18 Prohibition on Contracting with Entities that Require Certain Internal Confidentiality Agreements or Statements—Representation
52.203-19 Prohibition on Requiring Certain Internal Confidentiality Agreements or Statements
52.204-7 System for Award Management
52.204-10 Reporting Executive Compensation and First-Tier Subcontract Awards
52.204-13 System for Award Management Maintenance
52.204-19 Incorporation by Reference of Representations and Certifications
52.209-2 Prohibition on Contracting with Inverted Domestic Corporations—Representation
52.209-6 Protecting the Government's Interest When Subcontracting with Contractors Debarred, Suspended, or Proposed for Debarment
52.209-10 Prohibition on Contracting with Inverted Domestic Corporations
52.209-11 Representation by Corporations Regarding Delinquent Tax Liability or a Felony Conviction under any Federal Law
52.211-5 Material Requirements
52.211-14 Notice of Priority Rating for National Defense, Emergency Preparedness, and Energy Program Use

52.244-6	Subcontracts for Commercial Products and Commercial Services
52.246-1	Contractor Inspection Requirements
52.246-2	Inspection of Supplies—Fixed-Price: Inspection of Supplies-Fixed-Price (Aug 1996)

(a) Definition. "Supplies," as used in this clause, includes but is not limited to raw materials, components, intermediate assemblies, end products, and lots of supplies.

(b) The Contractor shall provide and maintain an inspection system acceptable to the Government covering supplies under this contract and shall tender to the Government for acceptance only supplies that have been inspected in accordance with the inspection system and have been found by the Contractor to be in conformity with contract requirements. As part of the system, the Contractor shall prepare records evidencing all inspections made under the system and the outcome. These records shall be kept complete and made available to the Government during contract performance and for as long afterwards as the contract requires. The Government may perform reviews and evaluations as reasonably necessary to ascertain compliance with this paragraph. These reviews and evaluations shall be conducted in a manner that will not unduly delay the contract work. The right of review, whether exercised or not, does not relieve the Contractor of the obligations under the contract.

(c) The Government has the right to inspect and test all supplies called for by the contract, to the extent practicable, at all places and times, including the period of manufacture, and in any event before acceptance. The Government shall perform inspections and tests in a manner that will not unduly delay

REQUEST FOR QUOTATION

N0010425RX19780

the work. The Government assumes no contractual obligation to perform any inspection and test for the benefit of the Contractor unless specifically set forth elsewhere in this contract.

(d) If the Government performs inspection or test on the premises of the Contractor or a subcontractor, the Contractor shall furnish, and shall require subcontractors to furnish, at no increase in contract price, all reasonable facilities and assistance for the safe and convenient performance of these duties. Except as otherwise provided in the contract, the Government shall bear the expense of Government inspections or tests made at other than the Contractor's or subcontractor's premises; provided, that in case of rejection, the Government shall not be liable for any reduction in the value of inspection or test samples.

(e) (1) When supplies are not ready at the time specified by the Contractor for inspection or test, the Contracting Officer may charge to the Contractor the additional cost of inspection or test.

(2) The Contracting Officer may also charge the Contractor for any additional cost of inspection or test when prior rejection makes reinspection or retest necessary.

(f) The Government has the right either to reject or to require correction of nonconforming supplies. Supplies are nonconforming when they are defective in material or workmanship or are otherwise not in conformity with contract requirements. The Government may reject nonconforming supplies with or without disposition instructions.

(g) The Contractor shall remove supplies rejected or required to be corrected. However, the Contracting Officer may require or permit correction in place, promptly after notice, by and at the expense of the Contractor. The Contractor shall not tender for acceptance corrected or rejected supplies without disclosing the former rejection or requirement for correction, and, when required, shall disclose the corrective action taken.

(h) If the Contractor fails to promptly remove, replace, or correct rejected supplies that are required to be removed or to be replaced or corrected, the Government may either (1) by contract or otherwise, remove, replace, or correct the supplies and charge the cost to the Contractor or (2) terminate the contract for default. Unless the Contractor corrects or replaces the supplies within the delivery schedule, the Contracting Officer may require their delivery and make an equitable price reduction. Failure to agree to a price reduction shall be a dispute.

(i) (1) If this contract provides for the performance of Government quality assurance at source, and if requested by the Government, the Contractor shall furnish advance notification of the time-

(i) When Contractor inspection or tests will be performed in accordance with the terms and conditions of the contract; and

(ii) When the supplies will be ready for Government inspection.

(2) The Government's request shall specify the period and method of the advance notification and the Government representative to whom it shall be furnished. Requests shall not require more than 2 workdays of advance notification if the Government representative is in residence in the Contractor's plant, nor more than 7 workdays in other instances.

(j) The Government shall accept or reject supplies as promptly as practicable after delivery, unless otherwise provided in the contract. Government failure to inspect and accept or reject the supplies shall not relieve the Contractor from responsibility, nor impose liability on the Government, for nonconforming supplies.

(k) Inspections and tests by the Government do not relieve the Contractor of responsibility for defects or

REQUEST FOR QUOTATION N0010425RX19780

other failures to meet contract requirements discovered before acceptance. Acceptance shall be conclusive, except for latent defects, fraud, gross mistakes amounting to fraud, or as otherwise provided in the contract.

(l) If acceptance is not conclusive for any of the reasons in paragraph (k) hereof, the Government, in addition to any other rights and remedies provided by law, or under other provisions of this contract, shall have the right to require the Contractor (1) at no increase in contract price, to correct or replace the defective or nonconforming supplies at the original point of delivery or at the Contractor's plant at the Contracting Officer's election, and in accordance with a reasonable delivery schedule as may be agreed upon between the Contractor and the Contracting Officer; provided, that the Contracting Officer may require a reduction in contract price if the Contractor fails to meet such delivery schedule, or (2) within a reasonable time after receipt by the Contractor of notice of defects or nonconformance, to repay such portion of the contract as is equitable under the circumstances if the Contracting Officer elects not to require correction or replacement. When supplies are returned to the Contractor, the Contractor shall bear the transportation cost from the original point of delivery to the Contractor's plant and return to the original point when that point is not the Contractor's plant. If the Contractor fails to perform or act as required in paragraph (l)(1) or (l)(2) of this clause and does not cure such failure within a period of 10 days (or such longer period as the Contracting Officer may authorize in writing) after receipt of notice from the Contracting Officer specifying such failure, the Government shall have the right by contract or otherwise to replace or correct such supplies and charge to the Contractor the cost occasioned the Government thereby.

(End of clause)

52.246-11 Higher-Level Contract Quality Requirement:

(a) The Contractor shall comply with the higher-level quality standard(s) listed below.

i) Applicable Non-Destructive Testing procedures written by the Party to be conducting them:

(1) Ultrasonic Testing Procedure in accordance with MIL-STD-2132D (including acceptance criteria per MIL-DTL-32386), and

(2) Applicable Liquid Penetrant Test Procedure in accordance with MIL-STD-2132D (including acceptance criteria per MIL-DTL-32386); and

ii) Provide evidence of compliance with the Higher-Level Contracting Quality Requirements of (1) MIL-I-45208 or (2) ISO 9001/9002 with STR-ISO 9000 Supplement A, or B, or C

(b) The Contractor shall include applicable requirements of the higher-level quality standard(s) listed in paragraph (a) of this clause and the requirement to flow down such standards, as applicable, to lower-tier subcontracts, in-

(1) Any subcontract for critical and complex items (see [46.203\(b\)](#) and (c)); or

(2) When the technical requirements of a subcontract require-

(i) Control of such things as design, work operations, in-process control, testing, and inspection;
or

(ii) Attention to such factors as organization, planning, work instructions, documentation control, and advanced metrology.
