

Request for Information:

Next-Generation Air Operations Center (AOC) Weapon System

Questions and Answers, 11 March 2026

Questions Received	Government Response
Can you clarify if this is a Small Business set-aside or is it open to Large Business as well?	This is a Request for Information. The RFI is not a small business set-aside.
The RFI identified March 2026 initial industry engagement and feedback. Has the event been scheduled and how can we participate?	The Program Announcement schedule is subject to change. There is not a specific industry engagement event scheduled for this effort at this time.
Will the Government please include the referenced technical questions? (Attachment 3, Question 7)	The word “following” in Question 7 should be replaced with the word “preceding.” The referenced technical questions are the same questions 1-6 included in Attachment 3.
Paragraph 3 of the Documentation Request and Disclaimer Form states that transfer includes uploading government information into third-party applications such as large language model AI which retain the contents of uploaded prompts. [Company name] utilizes a purpose-built large language model AI platform that is CMMC Level 2 compliant and authorized to host, process, and store Controlled Unclassified Information. The platform operates in a dedicated [company name] tenant environment, does not retain prompts for model training, and does not use uploaded data to improve foundation models. If the platform meets applicable CMMC and CUI safeguarding requirements, and no government data is retained for model training or shared outside the controlled tenant, would use of such a platform for	Yes, this is permissible.

internal analysis and proposal development be considered permissible under Paragraph 3?	
Instructions for response seem to have conflicting guidance. Please confirm vendors should provide a response to: 1. Technical Requirements in SAM.gov; 2. Program/Contract Management Requirements cited in SAM.gov; 3. and a response to the seven Technical Questions found in Attachment 3.	Please respond to the Requested Information posted on SAM.gov and to the Technical Questions (Attachment 3).
If we aren't able to get the JCP processed/issued before [the RFI response due date], would it still be possible or worthwhile for us to submit a response to the RFI?	Not having JCP certification does not preclude a company from responding to the portions of the RFI that are publicly available at SAM.gov.
