

Limited-Sources Justification

1. Identification of the agency and the contracting activity:

Uniformed Services University of the Health Sciences' (USU) Acquisitions Directorate

2. Nature and/or description of the action being approved:

Issuance of an in-scope firm fixed price modification to limited-source BPA call order HU000125FE019 to Carahsoft Technology Corp. (Carahsoft) under the Department of Defense (DoD) Enterprise Software Initiative (ESI) Blanket Purchase Agreement (BPA) N6600119A0120.

3. Description of the supplies or services required to meet the agency's needs (including estimated value and all options):

The Uniformed Services University (USU) has a requirement to add ServiceNow Tailored Implementation/Expansion Services and Data Optimization Services to an existing task order. CSDM/CMDB contains data on all systems in support of ServiceNow. These services will improve optimization of that data in these systems. The period of performance is 21 April 2026 - 12 September 2026.

The estimated value of this action is [REDACTED]

4. Identification of the statutory authority permitting other than full and open competition:

10 U.S.C. 2304(c)(1).

5. Demonstration that the proposed contractor's unique certifications or the nature of the acquisition requires use of the authority cited.

The Federal Chief Information Officer (CIO) issued a memo dated 8 December 2011 establishing federal policy as it relates to the procurement of cloud services. The ServiceNow platform complies with the policy because it holds the Joint Authorization Board (JAB) type of Federal Risk and Authorization Management Program (FedRAMP) authorization. FedRAMP is a government-wide program that provides a standardized approach to security assessment, authorization, and continuous monitoring for cloud products and services. Members of the JAB include the chief information officers (CIOs) from the DoD, Department of Homeland Security, and General Services Administration. The platform also meets the USU's Authorization to Operate (ATO), a DoD network.

ServiceNow's ITSM and IT Asset Management (ITAM) solutions collectively provide the OCIO's required end-to-end IT service process workflows. ServiceNow is USU's OCIO current enterprise platform of record.

Additionally, IAW DFARS PGI 208.7403(1), if the requirement is available on DoD's ESI the requirements user shall fulfill the requirement via DoD ESI. Under DoD ESI, Carahsoft is the only vendor that can meet the ServiceNow requirements for USU.

6. Contracting officer determination that the anticipated cost to the Government will be fair and reasonable.

The total quoted price of [REDACTED] matches Carahsoft's DoD Enterprise Software Initiative (ESI) Blanket Purchase Agreement (BPA) pricing, which was negotiated IAW FAR Part 8. All prices proposed have been determined to be fair and reasonable IAW FAR 8.404(d), but the Contracting Officer will establish an additional fair and reasonable determination prior to issuance of the modification.

7. Description of market research conducted and the results, or a statement of the reason market research was not conducted:

Not applicable to this action. This is a modification to an existing task order.

8. Any other facts supporting the use of other than full and open competition:

N/A.

9. Listing of the sources, if any, that expressed, in writing, an interest in the acquisition.

No other sources have expressed an interest, in writing, in the proposed acquisition.

10. Statement of the actions, if any, the agency may take to remove or overcome any barrier to competition before any subsequent acquisition for the supplies or services required.

With any future requirements, the Government will continue to monitor the marketplace to remove the barriers of competition. However, the ServiceNow Software via the Navy's BPA N6600119A0120 is the only software that currently meets all of the Government's needs.
