

Amendment Number 008
RFP Number 75N98026R00042
Title: NIH PROFESSIONAL, SCIENTIFIC AND TECHNICAL SUPPORT SERVICES (PSTSS)

Amendment Issue Date:	Wednesday, May 6, 2026
Issued By:	Kishan Patel Contracting Officer OLAO/OALM/NIH 6701B Rockledge Drive Bethesda, Maryland 20817
Points of Contact:	Matt Lear, Contracting Officer Email Address: matt.lear@nih.gov Kishan Patel, Contracting Officer Email Address: kishan.patel@nih.gov
Proposal Due Date/Time:	Friday, May 8, 2026, at 3:00 PM ET.

The purpose of this amendment is to address an additional question pertaining to RFP #75N98026R00042 and to provide clarity regarding Attachment 5, page 147 and Attachment 10 - Table of Labor Rates and Unit Prices. Additionally, Attachment 10 has been revised to adjust quantity of labor hours. Please see attachment titled "Amendment 8, Attachment 10."

Question:

In Amendment 7, the Government provided clarification that the labor categories and associated annual hours in Attachment 10 (LCAT Table) are provided for reference only to assist in estimating labor categories and hours. The Government states that Offerors are responsible for proposing the labor categories and corresponding hours they deem sufficient to meet the requirements of the RFP. However, in Attachment 5, page 2, the Government instructs the Offeror not to adjust hours/quantities in Attachment 10 (LCAT Table) and requires the Offeror to multiply its labor rates by the pre-set hours and multiply its per unit prices by the pre-set quantities, the results of which shall be added together to arrive at the offeror's total price.

For an IDIQ contract, where quantities are, by definition, indefinite, it is unclear how Offerors are expected to estimate labor hours for a multi-award IDIQ.

If it is the Government's intent to change its initial pricing instructions, does the Government require any justification from the Offeror to reduce the LCAT hours? Is there a more specific requirement that the Offeror can propose to level the playing field and ensure that the Government will be able to gauge price reasonableness through price competition?

Answer:

The Government is refining its proposal instructions on page 147 to clearly communicate this flexibility to offerors. “The final agreed upon schedule of prices will be incorporated into the contract. The escalation factor will remain the same throughout the Delivery Period of the contract. Consequently, the awardee will not be able to propose cost adjustments or profit mark-up on top of its labor rates when it later proposes in response to each task order. The spreadsheet provides pre-set hours/quantities for the labor rates and unit prices. **Do not adjust those hours/quantities.** Rather, the spreadsheet requires that the offeror multiply its labor rates by the pre-set hours, and multiply its per unit prices by the pre-set quantities, the results of which shall be added together to arrive at the offeror’s total price. That total price is what the Agency shall consider for source selection, but it does not guarantee hours or quantities which shall be later sought in task orders. “

The above has been revised to read as follows.

The final agreed upon schedule of prices will be incorporated into the contract. The escalation factor will remain the same throughout the Delivery Period of the contract. Consequently, the awardee will not be able to propose cost adjustments or profit mark-up on top of its labor rates when it later proposes in response to each task order. The spreadsheet provides **pre-established hours/quantities for labor rates and unit prices, which are provided as a reference framework.** Offerors **may** use the spreadsheet as a template to structure their pricing approach, but are **encouraged** to tailor their proposed labor mix, hours, and unit assumptions as appropriate to best fulfill the requirements of the Statement of Work (SOW). **It is suggested** that the offeror multiply its labor rates by the pre-set hours and multiply its per unit prices by the pre-set quantities, the results of which shall be added together to arrive at the offeror’s total price. That total price is what the Agency shall consider for source selection, but it does not guarantee hours or quantities which shall be later sought in task orders.

The Government will not be accepting any additional questions.

Offerors must acknowledge receipt of this amendment by identifying this amendment number and date of the amendment on each copy of the proposal submitted. Failure to receive your acknowledgement may result in the rejection of your proposal. Except as provided herein, all terms and conditions of the solicitation remain unchanged and in full force and effect.

Attachment 10: Table of Labor Rates and Unit Prices
Title: NIAID Professional, Scientific and Technical Support Services (PSTSS)
