Basis For Decision That Only One Source Is Available

EATON FILTRATION LLC (CAGE 4X3T2), a small business, is the Original Equipment Manufacturer (OEM) and retains proprietary rights and knowledge to the technical data of the strainer parts for fire pump #3. The work contemplated in this contract is on the following critical safety items: 13 – Fixed Fire Fighting Extinguishing Systems/Fire Detection Systems. Per COMSCINST 4490.1C, MSC N7, the Design Control Activity, has determined that only qualified sources may produce these critical safety items in order for parts to be compatible in terms of form, fit, and function with existing equipment or configurations. This ensures equipment reliability. Improperly installed or deficient parts could cause system failure and loss of the affected system or equipment while at sea.

The replacement parts are necessary to maintain functionality, safety, and compliance with the original equipment specifications. Only parts manufactured or authorized by the original manufacturer are guaranteed to be fully compatible with the existing equipment. Use of non-OEM components may result in system failure or degraded performance.
