NOTE 1: A signature block will appear here (replacing these notes) based on the "Dollar Value of this Acquisition" selected above. Since most digital signatures that include date/time-stamps are redacted before they are made publicly available, always insert the date in the "Date" cell when affixing a digital signature to this document.

Department of the Air Force: Justification for Other Than Full and Open Competition

I. Agency and Contracting Activity (RFO 6.104-1(a)(1)):

Requiring Activities: USAFE-AFAFRICA Spectrum Operations (A663), 1st Combat Communications Squadron (1 CBCS), and the 1st Engineering Installation Squadron (1 EIS)
 Contracting Activity: 700th Contracting Squadron (700 CONS)
 Contracting Officer: Aubreeana Taylor (700 CONS/PKC)

II. Nature and/or description of the action being approved (RFO 6.104-1(a)(2)):

This document approves the award of a firm-fixed price Indefinite Delivery, Indefinite Quantity (IDIQ) contract on a brand-name basis to authorized vendors capable of providing software support services for CRFS, Inc. brand Radio Frequency (RF)-eye nodes in support of the USAFE-AFAFRICA (see listing of Mission Partners in Section III). This justification is made on an Individual basis.

III. Description of supplies/services required to meet agency needs (RFO 6.104-1(a)(3)):

The USAFE EVRS (Electromagnetic Spectrum Visualization and Reporting System) program requires a multiple-year IDIQ contract for renewal of CRFS, Inc. brand software support services. The USAFE EVRS program consists of three (3) mission partners (USAFE-AFAFRICA Spectrum Operations (A663), 1st Combat Communications Squadron (1 CBCS), and the 1st Engineering Installation Squadron (1 EIS)). These mission partners have existing equipment that interface with the EVRS known to as RFeye Nodes, or radio sensors that monitor and receive radio frequency information [REDACTED]. The collective RFeye Node asset inventory of these mission partners consists of 68 RFeye nodes (see Attachment 1 - USAFE RFeye Node Asset List provided with this justification document).

These 68 total RFeye Nodes that are currently in use by these mission partners require software support renewals at various times due to differing expiration dates. The Contracting Officer has considered the establishment of a multiple-year IDIQ contract vehicle as a viable contract structure that would allow the Government to issue task orders corresponding to the individual renewal timelines while working toward aligning renewals to a common schedule in future periods of performance. The contemplated contract would support a base period of four (4) months with four 12-month option periods. The total independent Government Estimate for the overall period of performance is [REDACTED] summarized as follows:

Multiple-year IDIQ Contract: CRFS, Inc. Brand RFeye Nodes

Base Period Software Support (08 April 2026 - 07 September 2026)

Quantity: 27 Nodes

Total Estimate: [REDACTED]

Option Year 1 Software Support (08 September 2026 - 07 September 2027)

Quantity: 68 Nodes

Total Estimate: [REDACTED]

Option Year 2 Software Support (08 September 2027 - 07 September 2028)

Quantity: 68 Nodes

Total Estimate: [REDACTED]

Option Year 3 Software Support (08 September 2028 - 07 September 2029)

Quantity: 68 Nodes

Total Estimate: [REDACTED]

Option Year 4 Software Support (08 September 2029 - 07 September 2030)

Quantity: 68 Nodes

Total Estimate: [REDACTED]

Total IGE Amount: [REDACTED]

Department of the Air Force: Justification for Other Than Full and Open Competition

IV. Statutory Authority Permitting Other Than Full and Open Competition (RFO 6.104-1(a)(4)):

10 U.S.C. 3204(a)(1), Only one responsible source and no other supplies or services will satisfy agency requirements.

V. Rationale for Use of Authority (RFO 6.104-1(a)(5)):

In accordance with (IAW) RFO 6.103-1(d), this justification supports the use of the brand-name requirement for CRFS, Inc for renewal of RFeye Node software support services. The current EVRS system utilized by the requiring mission partners, USAFE-AFAFRICA A663, 1 CBCS, and 1 EIS, is comprised of RFeye Nodes and associated proprietary software. the required software support services are specifically designed for and fully integrated with CRFS, Inc. manufactured equipment, and are necessary to maintain system functionality, performance, and security.

CRFS, Inc. is the Original Equipment Manufacturer (OEM) and sole provider of the proprietary software, updates, and technical support required to sustain the existing EVRS infrastructure. This software must originate from CRFS to ensure compatibility with the existing system/RFeye Nodes. CRFS, Inc. is the only responsible source and no other supplies or services will satisfy agency requirements.

As such, this requirement is limited to CRFS, Inc. and other authorized resellers, as no other sources can provide the proprietary software and support necessary to maintain system functionality, integration, and mission readiness. In FY25, the below vendors provided interest and capability in this previous procurement for CRFS, INC software support services and were contacted in Request for Information (RFI) efforts for this current FY26 effort:

- i. CRFS, Inc. (OEM)
- ii. Integration Technologies Group (ITG)
- iii. New Tech Solutions (NTS)

The Government anticipates that there at at least two (2) or more vendors capable of competing for this requirement and that there is reasonable expectation that a competitive solicitation will be successful upon the publication of a combined/ synopsis/solicitation to the GPE (SAM.gov).

VI. Integrated Market Analysis and Efforts to Solicit Competition (RFO 6.104-1(a)(6), (8), and (10)):

Market research was conducted to identify potential sources capable of providing RFeye node software support services, assess industry capability, and support acquisition planning decisions. The below market research methods were utilized:

a. Research of acquisition background:

The RFeye Node Hardware was previously procured under FY19 Order No. FA248719F4403/Basic Contract No. FA248718D4400, awarded to Wavelink Inc and valued at \$7M. For reference, this order was an R&D type contract action administered by Eglin AFB and was pivotal in delivering the CRFS, Inc. brand Electromagnetic Spectrum Visual Recording System (EVRS) complete with equipment, installation, training, equipment warranties and software support/update services for a duration of 5 years (expired September 2024). Since this expiration, USAFE A667 renewed only some of the software support services due to budget constraints. These were supported under FY25 contract no. FA561225P0115 ([REDACTED]). All others have either expired or are supported by longer support agreements that were handled by Eglin AFB. As this is no longer an R&D effort, this software support renewal must be procured by the 700 CONS.

b. Industry outreach through Request for Information (RFI) efforts :

RFI outreach efforts were conducted by the 700 CONS to determine the availability of capable vendors and identify an appropriate acquisition strategy. The following vendors were contacted:

Department of the Air Force: Justification for Other Than Full and Open Competition

i. CRFS, Inc. (OEM)

ii. Integration Technologies Group (ITG)

iii. New Tech Solutions (NTS)

The above vendors are vendors who provided offers in support of the FY25 renewal of partial quantities for hardware warranties and software support services FA561225P0115 (b)(6)

c. Review of vendor capability and evaluation of vendor feedback regarding the contemplated contract structure: Market research results indicate multiple vendors are capable of supporting the requirement. Each vendor referenced below provided their interest and capability in the renewal of software support services and can support intended multiple-year IDIQ contract structure.

i. CRFS, Inc. (OEM)

Preliminary Price Quote: (b)(6)

ii. Integration Technologies Group (ITG)

Preliminary Price Quote: (b)(6)

The above referenced vendors were verified for active SAM.gov registrations.

VII. Determination of Fair and Reasonable Cost (RFO 6.104-1(a)(7)):

The Contracting Officer is responsible for evaluating, determining, and documenting the anticipated contract cost/price is fair and reasonable in accordance with RFO Subpart 15.4, Contract Pricing.

VIII. Any Other Facts Supporting the Justification (RFO 6.104-1(a)(9)):

N/A.

IX. Actions to Overcome Barriers to Competition (RFO 6.104-1(a)(11)):

The Government will continue to monitor the market as well as maintain awareness of any enterprise-wide tools put in place to see if acceptable alternatives to CRFS, Inc. brand OEM software support services become available. Acquisitions for the purchase of future CRFS, Inc. brand OEM software support services will be scrutinized to ensure the accuracy of the above information.
