SUMMARY OF CHANGES

SECTION SF 30 - BLOCK 14 CONTINUATION PAGE

The purpose of this Amendment is as follows:

a. Provide an extension to the RFQ due date to 08 MAY 2026, by 11am (Pacific).

b. Provide answer to the following questions:

- 1) **Contract Question:** Will this require an ASME U-stamp/U-1A Data Report or would a standard Manufacturer Certificate of Conformance (CoC) be acceptable?
Government Answer: Needs to meet the requirements in NAVSEA drawing 551-7318355 for dental air receiver
- 2) **Contract Question:** This is for a new replacement of the air receiver, not just a recertification, correct?
Government Answer: For new tanks
- 3) **Contract Question:** For delivery, will KTR be expected to provide their own forklift support?
Government Answer: Delivery will be at MACMO warehouse
- 4) **Contract Question:** How will this unit be supported? Legs, Lugs, no supports needed?
Government Answer: Fabricate the tank IAW the reference drawing. This is to replace existing tanks onboard the USS Green Bay
- 5) **Contract Question:** This is a rather small unit, using SA516-70 Plate would be impractical. Is using SA106-B Grade pipe with pipe caps an acceptable alternative? This material is also P1 and is regularly used in conjunction with vessels that use SA516-70 plate.
Government Answer: Deviation from the reference drawing is not acceptable
- 6) **Contract Question:** Can you advise on any nozzle requirements? Inlets / Outlets / Drains?
Government Answer: Please refer to the reference drawing
- 7) **Contract Question:** Are there any special requirements or additional testing beyond standard ASME requirements that need to be performed? 100% RT? PWHT?
Government Answer: Testing requirements are located in the general notes
- 8) **Contract Question:** Are there any painting / coating requirements?
Government Answer: Coating requirements are located in the general notes
