652.239-801 DISCLOSURE OF AI USE CLAUSE (DEVIATION) (SEP 2025)

(a) *Definitions.* As used in this clause-

Artificial Intelligence (AI): The term "artificial intelligence" has the meaning provided in Section 238(g) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019.

- i. This definition of AI encompasses, but is not limited to, the AI technical subfields of machine learning (including deep learning as well as supervised, unsupervised, and semi-supervised approaches), reinforcement learning, transfer learning, and generative AI.
- ii. This definition of AI does not include robotic process automation or other systems whose behavior is defined only by human-defined rules or that learn solely by repeating an observed practice exactly as it was conducted.
- iii. For this definition, no system should be considered too simple to qualify as covered AI due to a lack of technical complexity (e.g., the smaller number of parameters in a model, the type of model, or the amount of data used for training purposes).
- iv. This definition includes systems that are fully autonomous, partially autonomous, and not autonomous, and it includes systems that operate both with and without human oversight.

(b) Disclosure of AI Use in Contract Performance. When the Contractor or any of its subcontractors, vendors, or agents intends to incorporate AI into the performance of the contract, the Contractor shall provide the following disclosures in its offer:

Disclose the intended use of AI and provide a description of the AI system or capability and its purpose within the contract scope; specify whether the system was developed internally, acquired from a third party, or is publicly/commercially available; indicate if the AI system will process PII or be used in ways that may affect privacy, civil rights, safety, or public interaction; detail the governance, oversight, and human-in-the-loop mechanisms to be applied; and describe any applicable testing, evaluation, risk management, or bias mitigation measures that have been or will be implemented.

These disclosures must be updated promptly to the Contracting Officer during the period of performance upon any new use of AI or significant material change to the existing AI capability, its functionality, its use case, or its data inputs/outputs during the life of the contract.

The Government reserves the right to review the proposed AI use, request additional safeguards or controls, and/or disallow its use if it is deemed inconsistent with agency policy, legal requirements, or federal AI governance standards.

(End of Clause)

652.242-73 AUTHORIZATION AND PERFORMANCE (AUG 1999)

(a) The Contractor warrants the following:

- (1) That it has obtained authorization to operate and do business in the country or countries in which this contract will be performed;

- (3) That it shall comply fully with all laws, decrees, labor standards, and regulations of said country or countries during the performance of this contract.

(b) If the party actually performing the work will be a subcontractor or joint venture partner, then such subcontractor or joint venture partner agrees to the requirements of paragraph (a) of this clause.

(End of clause)

- (8) Temporary wiring, use of portable electric tools, or other recognized electrical hazards. Temporary wiring and portable electric tools require the use of a ground fault circuit interrupter (GFCI) in the affected circuits; other electrical hazards may also require the use of a GFCI;
- (9) Work in confined spaces (limited exits, potential for oxygen less than 19.5 percent or combustible atmosphere, potential for solid or liquid engulfment, or other hazards considered to be immediately dangerous to life or health such as water tanks, transformer vaults, sewers, cisterns, etc.);
- (10) Hazardous materials - a material with a physical or health hazard including but not limited to, flammable, explosive, corrosive, toxic, reactive or unstable, or any operation creates any kind of contamination inside an occupied building such as dust from demolition activities, paints, solvents, etc.; or

(b) Safety and Health Requirements. The contractor and all subcontractors shall comply with the latest edition of the U.S. Army Corps of Engineers Safety and Health manual EM 385-1-1, or OSHA 29 CFR parts 1910 or 1926 if no EM 385-1-1 requirements are applicable, and the accepted contractor's written safety program.

The plan required by paragraph (f)(1) of the clause entitled "Accident Prevention Alternate I" shall be known as the Site Safety and Health Plan (SSHP) and shall address any activities listed in paragraph (a) of this clause, or as otherwise required by the contracting officer/COR.

(1) The SSHP shall be submitted at least 10 working days prior to commencing any activity at the site.

(2) The plan must address developing activity hazard analyses (AHAs) for specific tasks. The AHAs shall define the activities being performed and identify the work sequences, the specific anticipated hazards, site conditions, equipment, materials, and the control measures to be implemented to eliminate or reduce each hazard to an acceptable level of risk. Work shall not begin until the AHA for the work activity has been accepted by the COR and discussed with all engaged in the activity, including the Contractor, subcontractor(s), and Government on-site representatives.

(3) The names of the Competent/Qualified Person(s) required for a particular activity (for example, excavations, scaffolding, fall protection, other activities as specified by EM 385-1-1) shall be identified and included in the AHA. Proof of their competency/qualification shall be submitted to the contracting officer or COR for acceptance prior to the start of that work activity. If the contractor's personnel work on a holiday, no form of holiday or other premium compensation will be reimbursed either as a direct or indirect cost, unless authorized pursuant to an overtime clause elsewhere in this contract.

(c) When the Department of State grants administrative leave to its Government employees, assigned contractor personnel in Government facilities shall also be dismissed. However, the contractor agrees to continue to provide sufficient personnel to perform round-the-clock requirements of critical tasks already in operation or scheduled and shall be guided by the instructions issued by the contracting officer or his/her duly authorized representative.

ADDENDUM TO FAR 52.212-2 EVALUATION - COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (DEVIATION JAN 2026)

The Government will evaluate offers in accordance with FAR Part 12 using a comparative evaluation approach to determine which offer represents the best overall value to the Government. All offers received will first undergo a compliance review to assess completeness and conformity with the requirements of this solicitation. Offers that are incomplete or fail to comply with solicitation requirements may be rejected in accordance with FAR 52.212-1(c).

Offers determined to be compliant will be evaluated through a direct comparison against the stated evaluation factors to identify relative strengths, weaknesses, and price considerations. This acquisition is not conducted using a Lowest Price Technically Acceptable (LPTA) or trade-off source selection method. However, the Government may award to the lowest-priced offer if it is determined to represent the best overall value based on the evaluation criteria.

Award will be made to the responsible offeror whose offer conforms to the solicitation and is determined to be most advantageous to the Government, price and other factors considered. The following factors will be used in the evaluation:

(1) Technical Capability

The Government will evaluate the offeror's Technical Proposal to determine the extent to which the offeror demonstrates the capability to successfully perform the requirements of the Statement of Work.

The Government will also evaluate the offeror's approach to tracking and reporting BPA Call activity to ensure accurate and timely reporting in accordance with contract requirements.

(2) Past Performance and Experience

The Government will evaluate the Offeror's experience and past performance on contracts for services similar in scope, size, and complexity to the requirements of this solicitation. Experience will be evaluated to determine the extent to which the Offeror has previously performed similar work. Past performance will be evaluated to assess the quality of the Offeror's performance on relevant contracts. The Government may consider information obtained from references provided by the Offeror, CPARS, or other relevant sources. If past performance information is unavailable or limited, the Offeror will receive a rating of "Unknown" (Neutral) which will not be considered favorable or unfavorable in the evaluation.

(3) Price

Price will be evaluated based on the total price submitted in accordance with the pricing structure established in this solicitation. The Government will evaluate proposed prices to determine whether they are fair and reasonable.

For Blanket Purchase Agreements, pricing established at the time of BPA award will serve as the basis for pricing under future BPA calls unless otherwise specified in the solicitation.

Responsibility Determination:

The Government will determine contractor responsibility in accordance with FAR 9.104. The apparent successful offeror shall demonstrate adequate financial resources, the ability to meet performance requirements and schedules, a satisfactory performance record, integrity and business ethics, and the necessary organization, experience, technical capability, equipment, and resources to perform the requirement. The offeror must also be otherwise qualified and eligible for award under applicable laws and regulations.

Award Without Discussions:

In accordance with FAR 52.212-1(d), the Government intends to evaluate offers and establish the Blanket Purchase Agreement (BPA) without conducting discussions and may base its decision on the initial submissions. The Government reserves the right to conduct discussions if the Contracting Officer determines that discussions are necessary.

This acquisition is conducted using commercial procedures under FAR Part 12. Post-award debriefings, if provided, will be handled in accordance with FAR 52.212-1(e).

Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For
