Evaluation Factors for Award

(a) FAR Clauses Incorporated by Full Text

52.212-2 Evaluation - Commercial Products and Commercial Services (Feb 2026) (Deviation 2026-00038)

The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

Technical Acceptability and Price.

The Government will award a purchase order which represents the Best Value to the government. An offer must be determined "Technically Acceptable" to be considered for award. The evaluation will proceed as follows:

Part I - Price Evaluation

All quotes will first be ranked in order of price, from lowest to highest, based on the Total Evaluated Price (TEP).

- Total Proposed Price: The Government will evaluate the total price for the base CLIN, CLIN 0001.

Part II - Technical Acceptability Evaluation

The Government will evaluate the technical quote of the lowest-priced offeror first. To be determined "Technically Acceptable," the offer must receive a rating of "Acceptable" for all of the following technical factors:

- Factor 1 - Technical: This requirement is being solicited as a "Brand Name or Equal" acquisition. The Government will evaluate the technical quote of the lowest-priced offeror first. To be determined "Technically Acceptable," the offered product must be the specified brand name or an "equal" alternative that meets or exceeds all salient characteristics listed in the solicitation, as demonstrated by the offeror's technical submission.
- Factor 2 - Delivery Adherence: The offeror's delivery timeline will be evaluated to ensure it demonstrates a feasible plan to deliver all of the deliverables 60 Days ARO. A quote that fails to demonstrate the ability to meet this date will be rated "Unacceptable."

If the lowest-priced offer is determined to be Technically Acceptable, its price will be evaluated for reasonableness and it will be considered for award. If the lowest-priced offer is found to be Technically Unacceptable, it will be removed from consideration, and the Government will proceed to evaluate the technical acceptability of the next-lowest priced offeror in the same manner. This process will continue until an offeror is identified as Technically Acceptable whose price is also determined to be fair and reasonable.

(b) Options

The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) Notice of award

A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party.
