

STATEMENT OF WORK

SECTION C – DESCRIPTION/SPECIFICATION/WORK STATEMENT

C.1 BACKGROUND

Integrated Combat Systems (ICS) Department (V) performs combat system engineering, combat system certification, combat system test and evaluation, mission/force/System-of-Systems analysis and engineering, interoperability engineering, and human system integration. The Department provides a lead role in developing, fielding, and sustaining operationally superior warfare systems and performing the full spectrum of warfare analysis, research, development, integration, test and evaluation, and certification to provide quality system engineering and war fighting products to the Navy, Marine Corps, and Coast Guard.

The ICS Department promotes synergy across warfare and combat system development and ship acquisition programs within the Navy Surface Warfare Center Dahlgren Division (NSWCDD). They achieve this synergy in two parts. In the first part, they provide strategic planning, coordination, collaboration, and programmatic execution of similar complex warfare and combat system program efforts, including the associated weapons and systems for those programs, executed across all NSWCDD technical departments. The ICS Department works with various sponsors including Naval Sea Systems Command (NAVSEA), Program Executive Office (PEO) Integrated Warfare Systems (IWS), PEO Ships, PEO Unmanned and Small Surface Combatants (USC), PEO Carriers, Fleet, Marine Corp, Coast Guard, and the Missile Defense Agency (MDA) to advocate their requirements and promote NSWCDD technical capability, as appropriate to render efficient and effective solutions to their requirements. In the second part of the synergy, the ICS Department consolidates business, financial management and associated support functions under a centralized Business Office. The Business Office works collaboratively with the NSWCDD Corporate and Department business offices for financial planning, execution, and reporting. The ICS Department promotes commonality of business operations across multiple NSWCDD programs and technical departments as well as sponsor organizations.

The technical and engineering expertise in the areas of combat and weapons systems engineering will provide support focused on enabling synergy across the combat system portfolio through successful programmatic and technical execution.

C.2 SCOPE

The Contractor provides technical and engineering experts in support of systems engineering trades, analyses and planning for current and future naval surface combat and warfare systems definition, design, modernization, and sustainment for the technical Departments and Command at NSWCDD.

The technical and engineering expertise in the areas of combat and weapons systems engineering must understand the Digital Systems Engineering Transformation (DSET) effort that the Navy is currently undergoing. The Naval DSET Strategy defines digital engineering as "an integrated, computation-based approach that uses authoritative sources of system data and models across

disciplines to support lifecycle activities from concept through disposal." Digital Engineering will be a key to managing increasingly complex systems and ensuring future naval surface combat and warfare systems are defined, designed, updated, and sustained as necessary. This transformation will require the contractor to understand how current processes, tools, and tasking might transform from document-driven to model-driven. In that regard, the Contractor also must understand Model-Based Systems Engineering (MBSE) as part of Digital Engineering. MBSE is "formalized application of modeling to support system requirements, design, analysis, verification and validation, beginning in the conceptual design phase and continuing through development and later lifecycle phases." The Contractor must understand and assist in this transformation but this contract does not require specific expertise in MBSE nor does it require the Contractor to develop software.

C.2.1 APPLICABLE DOCUMENTS

The following documents are applicable to this SOW. The most current versions of these documents are accessible through the internet or will be provided to the Contractor upon request.

Other Department of Defense Specifications/Standards/Other Applicable Documents may become applicable throughout the life of the Task Order and may be added to the Task Order via modification.

The Contractor shall ensure compliance with the most current versions of these documents throughout the life of the Task Order:

Number	Document Name
DOD 8570.01-M	Information Assurance Workforce Improvement Program
SAE AS5553	SAE Aerospace Standard 5553
NISPOM – 32 Code of Federal Regulation Part 117	National Industrial Security Program Operating Manual (NISPOM)
NSWCDDINST 5510.4B	NSWCDD Command Security Manual
SEAD-3	Security Executive Agent Directive 3 – Reporting Requirements for Personnel with Access to Classified Information or Who Hold a Sensitive Position
SEAD-3 Implementation Memo	Implementation of Security Executive Agent Directive 3, Reporting Requirements for Personnel with Access to Classified Information or Who Hold a Sensitive Position
DODI 5200.48	Controlled Unclassified Information
SECNAVINST 5210.8F	Department of Navy Records Management Program
NSWCDDINST 5100.1F	Occupational Safety and Health Program
NAVADMIN 216/15	Cyber Hygiene Authorization to use Personal Wearable Fitness Devices

Number	Document Name
NAVSEA S0420-AA-RAD-010 – REV 2A	Radiological Affairs Support Program (RASP) Manual
DODI 8510.01	Risk Management Framework for DOD Systems
CJCSI 6211.02D	Defense Information Systems Network (DISN) Responsibilities
DODM 1000.13	Department of Defense Identification (ID) Cards
NAVSEAINST 4200.19 (series)	Planning, Use and Control of Services Contracting
COMUSFLTFORCOM/COMPACFLT 6320.3B	Medical Screening for U.S. Government Civilian Employees, Contractor Employees, Guests and Visitors Prior to Embarking Fleet Units
DoD 5000.02 (series)	Operation of the Adaptive Acquisition Framework
DoDI 5000.80	Operation of the Middle Tier of Acquisition, 25 November 2024
DoDI 5000.87	Operation of the Software Acquisition Pathway, 2 October 2020
DoDI 5000.95	Human Systems Integration in Defense Acquisition, 1 Apr 2022
MIL-STD-1472	Department of Defense Design Criteria Standard, Human Engineering
MIL-STD-46855	Department of Defense Standard Practice, Human Engineering Requirements for Military Systems, Equipment, and Facilities
PEOIWSINST 4732.1A	Element Certification Policy
PEOIWSINST 4730.1B	Combat System Certification Policy
DoD 8570.01-M	Cyberspace Workforce Management - DoDD 8140.018. Information Assurance Workforce Improvement Program

C.3 REQUIREMENTS

C.3.1. Technical and Engineering Support

C.3.1.1. The Contractor shall develop System-of-Systems concepts, System-of-Systems architectures and frameworks, System-of-Systems requirements definitions, and System-of-Systems engineering solutions to ensure current and next generation naval and Coast Guard surface ships, shore based training sites, and Marine Corps combat and warfare systems meet coalition, joint, and force war-fighting mission integration and interoperability requirements and are seamlessly integrated into the joint environment.

C.3.1.1.1. The Contractor shall develop System-of-Systems top-level functional requirements necessary to conduct multi-warfare command and control warfighting on current and future naval and Coast Guard surface ships, shore-based training sites, and Marine Corps systems. (CDRLs A001 – Technical Report-Study/Services and A002 – Report Record of Meeting/Minutes)

C.3.1.1.2. The Contractor shall identify System-of-Systems impacts in the areas of

surface Navy combat system computer program certification, radar and combat systems engineering, integrated air and battle management, open architecture, operator capabilities and limitations, strategic planning and organizational alignment.

C.3.1.1.3. The Contractor shall perform operations analysis to support multi-discipline incorporation of mission integration and interoperability requirements to aid in ensuring delivered capability meets Key Performance Parameters, and to proactively eliminate/mitigate element and system level issues within the lifelines. (CDRL A001 – Technical Report- Study/Services)

C.3.1.1.4. The Contractor shall perform analysis to support mission requirements, mission need definition, development of concepts, trade-off studies, and engineering analyses at coalition, joint, force and platform levels, for acquisition and lifecycle engineering efforts. (CDRL A001 – Technical Report-Study/Services)

C.3.1.1.5. The Contractor shall perform program lifecycle analysis including project planning, system engineering, analysis, design, system integration, verification and validation (V&V), and deployment tasks on a variety of products including those at the Top Secret level. (CDRLs A001 – Technical Report-Study/Services and A002 – Report Record of Meeting/Minutes)

C.3.1.1.6. The Contractor shall require access to Restricted Data, Critical Nuclear Weapons Design Information, and Formerly Restricted Data information in order to provide system engineering support for High Altitude Exoatmospheric Nuclear Survivability-related requirements in the contract. (CDRL A002 – Report Record of Meeting/Minutes)

C.3.1.1.7. The Contractor shall conduct systems engineering activities for combat systems, including analysis, design, integration, verification, and documentation throughout the lifecycle. (CDRL A001 – Technical Report-Study/Services)

C.3.1.1.8. The Contractor shall develop and review system concepts, Concepts of Operations (ConOps), Concept of Employment (ConEmps) designs, and architectures that address emerging warfighting capabilities and provide feedback on trade studies. (CDRL A001 – Technical Report-Study/Services)

C.3.1.1.9. The Contractor shall support the development and update of design and requirements documentation, including Program Management, Systems Engineering, Risk Management, and Configuration Management material. (CDRL A001 – Technical Report-Study/Services)

C.3.1.1.10. The Contractor shall prepare material for and participate in a wide range of

technical reviews, working groups, and meetings, including but not limited to design, specification, lifecycle support, program status, and safety. (CDRLs A002 – Report Record of Meeting/Minutes and A003 – Presentation Material)

C.3.1.1.11. The Contractor shall coordinate and collaborate with internal and external organizations (e.g., OPNAV, PEO IWS, NAVSEA, S&T community) to collect and interpret technical inputs. (CDRLs A002 – Report Record of Meeting/Minutes and A003 – Presentation Material)

C.3.1.1.12. The Contractor shall develop status reports indicating plans, accomplishments, and issues associated with the development, integration, and test efforts. (CDRL A001 – Technical Report-Study/Services)

C.3.2. System Interoperability, System Testing, System Certification, and Fleet Feedback Support

C.3.2.1. The Contractor shall perform engineering activities for successful development, certification and deployment of joint interoperable systems including analyzing and identifying issues and the aggregate of effects of issues from the operator to the Strike Group level, including Marine Corps. (CDRL A001 – Technical Report-Study/Services)

C.3.2.2. The Contractor shall perform mission engineering for Combat System development, build and test phases to proactively meet certification requirements and provide solutions to identified issues that will restore mission capability including providing support during Land Based Testing and At-Sea Test events, the post event data gathering, analysis, data analysis tool evaluation, and Fleet generated feedback, plus the development of action recommendations for issue resolution and coordination of the execution of derived actions with systems commands and the Fleet. (CDRL A001 – Technical Report-Study/Services)

C.3.2.3. The Contractor shall provide comprehensive Test and Evaluation (T&E) support, including planning, execution, analysis, and reporting for various test events. (CDRLs A001 – Technical Report-Study/Services and A002 – Report Record of Meeting/Minutes)

C.3.2.4. The Contractor shall review and compare test plans and requirements with hardware, software, and/or external system deliveries. (CDRL A001 – Technical Report-Study/Services). (CDRLs A001 – Technical Report-Study/Services)

C.3.2.5. The Contractor shall participate in, observe, and provide advice during Land Based Testing and At-Sea Test events, including but not limited to safety testing and live-fire Combat System Sea Qualification Trials (CSSQTs). (CDRLs A001 – Technical Report-

Study/Services and A002 – Report Record of Meeting/Minutes)

C.3.2.6. The Contractor shall develop and coordinate programmatic range requirements and documentation, to enable evaluation of candidate test ranges, understanding and coordination of range safety and Range Commander's Council (RCC) guidelines to include preparation for milestones. (CDRL A001 – Technical Report- Study/Services)

C.3.2.7. The Contractor shall provide systems and mission engineering for test scenario development and Modeling & Simulation (M&S) for both land-based and at-sea system testing. (CDRLs A001 – Technical Report-Study/Services and A002 – Report Record of Meeting/Minutes)

C.3.2.8. The Contractor shall investigate, provide technical guidance, and report the sufficiency of system models to ensure the Verification, Validation and Accreditation (VV&A) or registration activities will supply confidence with system performance. (CDRLs A001 – Technical Report-Study/Services)

C.3.2.9. The Contractor shall perform analysis of test data and results, including post-event analysis and participation in Data Analysis Working Groups (DAWG). (CDRLs A001 – Technical Report-Study/Services and A002 – Report Record of Meeting/Minutes)

C.3.2.10. The Contractor shall perform Shipboard Systems Engineering, develop Daily Hot Wash documentation, and develop resolution process documentation to resolve findings and in coordination with the shipboard personnel and Data Analysis Coordinator (DAC). (CDRL A001 – Technical Report-Study/Services)

C.3.2.11. The Contractor shall perform systems engineering in the Data Analysis Center during the CSSQT Events. (CDRL A001 – Technical Report-Study/Services)

C.3.2.12. The Contractor shall conduct TOR adjudication of composed event TORs in coordination with onboard Test Team leadership at the completion of CSSQT Events. (CDRL A001 – Technical Report-Study/Services)

C.3.2.13. The Contractor shall provide Computer Program Readiness Assessments (CPRAs) for all Program Directed At-Sea Test Events and develop documentation outlining the Computer Program Readiness Assessment (CPRA) and the results of the Assessment. (CDRL A003 – Presentation Material)

C.3.2.14. The Contractor shall develop assessment plans and identify the At-Sea Combat

System specification Requirements to be accomplished through observables during CSSQT At-Sea Events and develop documentation supporting which requirements were accomplished during test events. (CDRLs A001 – Technical Report-Study/Services and A003 – Presentation Material)

C.3.2.15. The Contractor shall provide systems engineering support toward the development of High Level Plan of Action and Milestone (POA&M) requirements based on the projected MDA, PEO IWS, or equivalent Program Office calendars including but not limited to the AEGIS Planning Calendar (APC). (CDRL A006 – Briefing Material-POA&M)

C.3.2.16. The Contractor shall provide support of Foreign and U.S. Performance Assessments and test and evaluation requirements. (CDRLs A001 – Technical Report-Study/Services and A003 – Presentation Material)

C.3.3. **Training Support**

C.3.3.1. The Contractor shall generate and deliver products related to training systems for naval surface ships and Marine Corps combat systems including the development and implementation of distributed training strategies and methodologies in the areas of performance measurement and performance including but not limited to using the Kirkpatrick Training Evaluation Model. (CDRLs A001 – Technical Report-Study/Services and A003 – Presentation Material)

C.3.3.2. The Contractor shall provide inputs during NSWCCD training efforts including refresher training appropriate for mid and senior Government employee knowledge base. (CDRLs A001 – Technical Report-Study/Services and A003 – Presentation Material)

C.3.4. **Operational Systems Engineering Support**

C.3.4.1. The Contractor shall provide operational engineering support for the design and/or development of Navy surface ship combat systems including system requirements definition, assessment, data analysis, site and shipboard assessment, shipboard verifications, performance/compliance verifications and baseline computer program authorization and/or certification. Multiple technical disciplines shall provide the full range of operational systems engineering support necessary to assist systems engineering and systems safety engineering design to implement, demonstrate, and characterize the ability of operational personnel to safely, effectively, and efficiently employ systems and capabilities provided to the fleet. (CDRLs A001 – Technical Report-Study/Services, A003 – Presentation Material, and A005 – Briefing Material)

C.3.4.2. The Contractor shall reconcile system engineering and test strategies with programmatic objectives. (CDRLs A001 – Technical Report-Study/Services and A003 – Presentation Material)

C.3.5. Safety Systems Engineering Support

C.3.5.1. The Contractor shall provide comprehensive System Safety support for combat system design, development, integration, testing, and lifecycle maintenance across various programs. (CDRL A001 – Technical Report-Study/Services)

C.3.5.2. The Contractor shall participate in, support, and coordinate a wide range of technical reviews, working groups, and meetings, including System Safety Working Groups (SSWGs), Technical Review Boards (TRBs), Integrated Product Teams (IPTs), Interoperability Assessment and Characterization Groups (ICAGs) and program milestone reviews. (CDRL A002 – Report Record of Meeting/Minutes)

C.3.5.3. The Contractor shall develop, review, and perform various safety and hazard analyses in accordance with MIL-STD-882, including Preliminary Hazard Analysis (PHA), System Hazard Analysis (SHA), and Functional Hazard Analysis (FHA), and document findings in worksheets, assessment reports, and risk reports. (CDRL A001 – Technical Report-Study/Services)

C.3.5.4. The Contractor shall develop, review, and support safety engineering assessments for the implementation and verification of safety-critical functionality within the combat system. (CDRL A001 – Technical Report-Study/Services)

C.3.5.5. The Contractor shall provide support for safety products during all phases of Test & Evaluation (T&E), including planning, execution, observation, analysis of test results, and participation in Test & Evaluation IPTs. (CDRL A001 – Technical Report-Study/Services)

C.3.5.6. The Contractor shall support and provide inputs to Navy and DoW-level safety review boards, including the Weapon System Explosives Safety Review Board (WSESRB) and the Software Systems Safety Technical Review Panel (SSSTRP), and develop supporting documentation and presentations. (CDRL A003 – Presentation Material)

C.3.5.7. The Contractor shall develop, assess, and provide recommendations for a wide range of program and system documentation, including CONOPS, TEMPs, ECPs, and other change and trouble reports, to ensure safety requirements are addressed. (CDRL A001 – Technical Report-Study/Services)

C.3.5.8. The Contractor shall perform safety compliance and verification activities,

including shipboard assessments, to ensure all deliverables and products are developed in accordance with specified Navy and DoW safety policies and standards. (CDRL A001 – Technical Report-Study/Services)

C.3.5.9. The Contractor shall develop, update, and maintain hazard tracking databases and safety records, including assessing tool design requirements and providing recommendations for improvements. (CDRL A001 – Technical Report-Study/Services)

C.3.5.10. The Contractor shall support Foreign Military Sales (FMS) safety programs by leveraging data from U.S. programs, developing FMS-equivalent safety cases and Technical Data Packages, and ensuring compliance with all ITAR and releasability training requirements. (CDRL A001 – Technical Report-Study/Services)

C.3.5.11. The Contractor shall provide engineering and technical support for platform-level safety, with a specific focus on evaluating and mitigating risks associated with electromagnetic hazards (HERO, HERP, HERF) and ordnance handling and stowage. (CDRL A003 – Presentation Material)

C.3.6. Ballistic Missile Defense Systems Engineering

C.3.6.1. The Contractor shall perform BMD analysis and engineering for in-service, development, certification, lifecycle maintenance as well as in-port and at-sea testing and real time missile defense operations. (CDRL A001 – Technical Report-Study/Services)

C.3.6.2. The Contractor shall provide inputs and support scenario development, Modeling and Simulation, and Systems Engineering technical reviews for authorization meetings including Mission Readiness Assessment, Mission Readiness Review, and Mission Planning Review in support of Flight Test Standard Missile Flight Test Mission (FTM), Flight Test (FTX/FTO), Ground Test (GTX/GTI/GTD) and Fleet Events including land based and at-sea system testing. (CDRLs A001 – Technical Report-Study/Services, A002 – Report Record of Meeting/Minutes, and A003 – Presentation Material)

C.3.6.3. The Contractor shall provide technical support in defining AEGIS Combat System (ACS) test requirements, objectives, and requirement traceability for performance assessments to ensure ACS test program compliance with system and program capability specifications. (CDRLs A001 – Technical Report-Study/Services and A003 – Presentation Material)

C.3.6.4. The Contractor shall support specific events including Command, Control, Communications, Computers and Intelligence (C4I) related mission planning, risk

reduction testing, and mission execution for flight test mission(s).

C.3.6.5. The Contractor shall support the development of digital data link and other communication architectures as necessary to accomplish all mission objectives. (CDRLs A001 – Technical Report-Study/Services and A003 – Presentation Material)

C.3.6.6. The Contractor shall support the development and evaluation of ship and test laboratory requirements such as Test Ship Positions (TSPs), Doctrine Statements, and other set up requirements for participants (lab assets, live assets, etc.) prior to risk reduction testing and mission execution. (CDRLs A001 – Technical Report-Study/Services and A003 – Presentation Material)

C.3.6.7. The Contractor shall provide coordination of C4I efforts during all phases of designated events to include dry and dress rehearsals and mission day execution. (CDRLs A001 – Technical Report-Study/Services and A003 – Presentation Material)

C.3.6.8. The Contractor shall collaborate with the quality assurance team to support the Combat System developer's delivery of quality products (CDRL A001 – Technical Report-Study/Services)

C.3.6.9. The Contractor shall provide support with MDA Mission Readiness, conduct assessments, and report findings. (CDRLs A001 – Technical Report-Study/Services and A003 – Presentation Material)

C.3.6.10. The Contractor shall document processes and technical approaches that support the design, development, and delivery of Ballistic Missile Defense (BMD) capability as part of AEGIS Weapon System (AWS) Baselines by providing input into an AW Systems Engineering Plan (SEP). (CDRL A001 – Technical Report-Study/Services)

C.3.7. AEGIS Ashore and Ashore Foreign Military Sales (FMS)

C.3.7.1. The Contractor shall provide a range of systems engineering and analysis activities, review of pre-test predictions, participation in studies and analyses, and other such systems engineering and analysis tasking for all AEGIS Ashore (AA) sites. (CDRLs A001 – Technical Report-Study/Services, A002 – Report Record of Meeting/Minutes, and A003 – Presentation Material)

C.3.7.2. The Contractor shall support the tracking of Aegis Ashore Missile Defense System Complex (AAMDSC) Element Specification (ES) verification progress, archiving of verification documentation, and briefing of completed verification reports to leadership at NSWCD and MDA (Program Office Code ABZ). (CDRLs A001 – Technical Report-

Study/Services and A003 – Presentation Material)

C.3.7.3. The Contractor shall conduct Planning Yard activities for AA Missile Defense Test Complex (AAMDTC) to include (1) Assisting in the coordination, integration, and completion verification of modernization efforts; (2) Updating configuration drawings to reflect status of combat system and facility upon completion of modernization efforts; (3) Participating in AA working group forums, Technical Interface Meetings (TIMs), and various Integrated Product Teams (IPTs) including Engineering, Integrated Logistics Support (ILS)); (4) Reviewing technical artifacts including concept white papers, technical reports, requirements documents, specifications, change requests, and design review packages; and (5) Conducting engineering analysis to support design resolution, integration, and reviews. (CDRLs A001 – Technical Report-Study/Services, A002 – Report Record of Meeting/Minutes, and A003 – Presentation Material)

C.3.7.4. The Contractor shall conduct predictive Reliability, Maintainability, and Availability (RMA) analyses in support of AEGIS Ashore Missile Defense Test Complex (AAMDTC) and future AA activities. This will include intermittent to nearly continuous analysis to address emergent issues as fielding. (CDRLs A001 – Technical Report-Study/Services and A003 – Presentation Material)

C.3.7.5. The Contractor shall conduct top-level System-of-Systems availability analysis, as directed, to provide decision support relative to mitigation alternatives for ILS key issues including mission conditions and durations. Example analyses include implications to Mean Time To Repair (MTTR) and Inherent Availability based on sparing location decisions (Reconstitutable Deckhouse (RDH) vs. Deckhouse Support Building (DHSB) vs. Warehouse) and Nuclear, Biological, Chemical (NBC) operations. Use government directed Reliability, Maintainability, and Availability (RMA) model to conduct sensitivity analysis to support development of priority-focused high fidelity analysis as required for issue resolution. (CDRLs A001 – Technical Report-Study/Services, A002 – Report Record of Meeting/Minutes, and A003 – Presentation Material)

C.3.7.6. The Contractor shall participate in LCL IPTs and review RMA analysis plans, documented analyses conducted in support of AA ILS planning and sustainment including the support of reviews and adjudication of ILS documents and deliverables including RMA analyses. (CDRLs A001 – Technical Report-Study/Services, A002 - Report Record of Meeting/Minutes, and A003 – Presentation Material)

C.3.8. Surface Ship Pointing & Fire Cutout (P&FCO)

C.3.8.1. The Contractor shall perform analysis, design, implementation, verification, and documentation for new and existing shipboard combat weapons systems point and firing

cutout zones. (CDRL A001 – Technical Report-Study/Services)

C.3.8.2. The Contractor shall provide engineering support during shipboard topside surveys and inspections of weapons systems pointing and firing cutout zones. (CDRL A001 – Technical Report-Study/Services)

C.3.8.3. The Contractor shall perform analyses of ship's plans and drawings, calculating safe standoff angles from ships' structures for guns and missiles, preparing weapons checkout forms, coordinating with local government and contractor support personnel, and update associated documentation. (CDRLs A001 – Technical Report-Study/Services and A003 – Presentation Material)

C.3.8.4. The Contractor shall develop and provide alternative solutions to potential deficiencies during ship or weapon topside safety survey inspections. (CDRL A001 – Technical Report-Study/Services)

C.3.8.5. The Contractor shall develop white papers and other documentation to support potential ship alterations effecting ships' P&FCO zones. (CDRL A001 – Technical Report-Study/Services)

C.3.8.6. The Contractor shall track action items and maintain records reflecting ships' weapons systems certification progress. (CDRL A002 – Report Record of Meeting/Minutes)

C.3.8.7. The Contractor shall provide Topside safety meeting support for ships' systems configurations changes or other issues effecting point and firing cutout zones. (CDRLs A001 – Technical Report-Study/Services and A005 – Briefing Material)

C.3.8.8. The Contractor shall provide support toward the development, verification, validation, update and document pointing and firing cutout zone integrated chips designed for various weapons systems. (CDRL A001 – Technical Report-Study/Services)

C.3.8.9. The Contractor shall utilize and update various Navy ship/platform structures configuration changes into software program and design models. (CDRL A001 – Technical Report-Study/Services)

C.3.8.10. The Contractor shall perform boresight data collection using specific specialized weapons specific test equipment and fixtures for the various missile and gun weapon systems aboard various surface ships. (CDRL A001 – Technical Report-Study/Services)

C.4 Task Order Management

The Contractor shall provide sufficient supervision to ensure all personnel work instructions and schedules originate with the Contractor rather than with the Government technical office. This supervision shall ensure that the Contractor's personnel are not assigned work instructions and schedules outside this SOW. Any perceived conflicts with the SOW shall be directed to the Contracting Officer and Contracting Officer's Representative (COR).

C.4.1 Progress Report

The Contractor shall submit a Contracting Officer's Management Report. **(CDRL A010 – Contracting Officer's Management Report)** The Contractor shall maintain and provide a list of all personnel assigned to the Task Order. The Contractor shall provide copies of invoices received from Sub-contractors and consultants as well as evidence of its review to ensure that all invoiced costs represent services that have been performed and deliverable items. In accordance with G-232-H005 and FAR 52.216-7, the Contractor shall provide the COR supporting documentation, including receipts, for all travel and material purchases with each invoice submission.

C.4.2 In Progress Reviews (IPRs)

The Contractor shall participate in both formal and informal In Progress Reviews (IPRs) of work being performed. IPRs may be conducted at the overall Task Order level or for specific projects/work areas. Reviews will be scheduled by the Government. An initial formal IPR is planned within 90 days of the Task Order award date and will follow the agenda agreed to by the COR. Subsequent formal IPRs shall be held approximately every six (12) months thereafter unless waived by the Government. The IPRs shall be conducted at a location mutually agreed upon by the Contractor and the Government. At the time the review is scheduled, the Government will communicate the specific purpose of the review and advise the Contractor as to the desired content of the presentation. **(CDRLs A001 – Technical Report-Study/Services, A002 – Report Record of Meeting/Minutes, and A003 – Presentation Material)**

C.4.3 Task Prioritization Meetings

The Contractor shall participate in periodic Task Prioritization Meetings with the COR and Subject Matter Experts (SMEs). The purpose of these meetings is to convey the Government's technical program schedules and priorities and to identify corresponding task priorities for this Task Order. The Contractor shall document meeting minutes of the meetings. **(CDRL A002– Report Record of Meeting/Minutes)**

C.4.4 Telework

In accordance with H-216-H002 Level of Effort -- Alternate I (NAVSEA) teleworking at an alternative worksite is permitted. Telework is also dependent upon the type of work being performed.

C.5 SKILLS AND TRAINING

C.5.1 The Contractor shall provide capable personnel with qualifications, experience levels, security clearances, and necessary licenses, certifications, and training required by Federal, State, and Local laws and regulations. Information assurance functions require certifications specified in Defense Federal Acquisition Regulation Supplement (DFARS) 252.239-7001 Information Assurance Contractor Training and Certification.

C.5.2 Per the requirements set forth in DOD 8570.01-M Information Assurance Workforce Improvement Program, as a condition of meeting requirements, personnel performing Information Assurance (IA) functions outlined in the manual will be tracked for compliance, designated in writing from the Local Command Authority as Cyberspace Workforce (CWF), shall already be in possession of an approved commercial certification for their environment at time of performance start, and shall satisfy both preparatory and sustaining DOD IA training and certification requirements as outlined in Chapters 2-5 of DOD 8570.01-M. Additionally, personnel with Privileged Access must sign acknowledging duties on a "Privileged Access Agreement", be able to maintain the appropriate investigation type, sign a System Authorization Access Request-Navy (SAAR-N) with "privileged" indicated, complete applicable Operating System/Computer Environment (OS/CE) training to Navy's standards, and maintain a valid commercial certification that meets outlined designations. Failure to maintain all requirements at the appropriate level may result in the removal of elevated access and removal from tasks being performed. Non-privileged Information Assurance Workforce (IAWF) members may be removed from tasks being performed. In both situations, access will be returned once the failure(s) are corrected.

C.5.3 Training necessary to ensure that personnel performing under this Task Order maintain the knowledge and skills to successfully perform the required functions is the responsibility of the Contractor. Training necessary to maintain professional certification is the responsibility of the Contractor. The Contractor shall provide training opportunities to maintain Contractor capabilities and/skills to coincide with changing technology environments. All costs for DOD 8570.01-M certification shall be borne by the Contractor for new employees on this Task Order.

C.5.4 Training on non-commercial and department-specific tools and procedures will be provided by the Government.

C.5.5 Notwithstanding the above, it is understood that the Government may require services requiring knowledge and skills of a newly emergent technology. The Contracting Officer may, on a case-by-case basis, authorize the expenditure of Government funds for the training of Contractor personnel. Advance approval is required. The Contractor is encouraged to suggest a cost-sharing arrangement that addresses registration, tuition, travel, and labor costs.

C.5.6 The Contractor shall complete all mandatory training as prescribed by the Government. These training requirements are accessed through Government web-based training (WBT), classroom training, or combination of both.

C.5.7 Mandatory Training Completion Log - The Contractor shall submit a CWF report (CDRL A008). The CWF report shall address required CWF training including annual continuous

learning training requirements. The Contractor shall also submit Mandatory Training Completion Log (CDRL A008). The Mandatory Training Completion Log shall address all mandatory training completed as directed by the COR.

C.6 OTHER DIRECT COSTS

During the performance of this Task Order the Contractor will have to travel and procure material and consumables to perform the tasking of the SOW.

C.6.1 Travel

The Contractor shall be required to travel in performance of this Task Order. The numbers of trips and types of personnel traveling shall be limited to the minimum required to accomplish work requirements and shall be requested of and authorized in advance by the COR by email. All requests shall show the appropriate Task Order number, the number of people traveling, the number of days for the trip, the reason for the travel, an estimated cost (with G&A separate), and any high cost or unusual costs expected. The Contractor is not authorized to perform any travel that is not in conjunction with this effort. All travel shall be conducted in accordance with Federal Acquisition Regulation (FAR) 31.205-46 Travel Costs. Locations will be determined by the Government and are subject to change.

Representative travel locations may include:

- San Diego, CA
- Port Hueneme, CA
- Colorado Springs, CO
- Washington, DC
- Jacksonville, FL
- St. Petersburg, FL
- Kauai, Hawaii
- O'ahu, Hawaii
- Pearl Harbor, Hawaii
- Moorestown, NJ
- Dam Neck, VA
- Everett, WA
- Norfolk, VA
- Charlottesville, VA
- Tewksbury, MA
- Marinette, WI
- Portsmouth, RI
- Tucson, AZ
- Seattle, WA

- West Bethesda, MD
- Manassas, VA
- Dahlgren, VA
- White Sands, NM
- Panama City Beach, FL
- Las Cruces, NM
- Patuxent River, MD
- College Park, MD
- Laurel, MD
- Mobile, AL
- Corona, CA
- Philadelphia, PA
- Charleston, SC
- Bath, ME
- Crystal City, VA
- Huntsville, AL
- Riverdale, MD
- Pelham, NH
- Syracuse, NY
- Seal Beach, CA
- Baltimore, MD
- Picatinny Arsenal, NJ
- Korea
- Australia
- Norway
- Poland
- Italy
- Japan
- Bahamas
- Guam
- Romania
- Spain
- Germany
- Bahrain
- Qatar
- Sweden
- Canada

Fleet Concentration Area

** Norfolk is considered the Tidewater area (Newport News, Suffolk, Chesapeake, Portsmouth and Virginia Beach) The contractor shall submit trip reports following any travel under this effort. (CDRL A004 – Trip and Travel Report)

The Contractor shall submit trip reports following any travel under this effort. (**CDRL A004 – Trip and Travel Report**)

C.7 GOVERNMENT FURNISHED SPACE/GOVERNMENT FURNISHED PROPERTY/GOVERNMENT FURNISHED INFORMATION

C.7.1 Government Furnished Space

(a) Government Furnished Office Space, will be provided for the following labor categories and number of personnel. This office space will be the primary work location for these positions.

Labor Category	Number	Location
Lead Principal Systems Engineer	1	Dahlgren, VA
Lead Senior Systems Engineer	2	Dahlgren, VA
Principal Systems Engineer	3	Dahlgren, VA
Senior Systems Engineer	3	Dahlgren, VA
Systems Engineer	7	Dahlgren, VA

(b) Access to Government Lab Space will be provided. Lab space does not constitute office space. Government Furnished Lab Space will be provided for the following labor categories and number of personnel. No separate office space will be provided.

Labor Category	Number	Location
Lead Senior Systems Engineer	1	Colorado Springs, CO
Lead Senior Systems Engineer	1	Dahlgren, VA
Principal Systems Engineer	4	Dahlgren, VA
Principal Systems Engineer	1	FFC Norfolk, VA
Senior Systems Engineer	2	Dahlgren, VA
Engineer	1	Dahlgren, VA

(c) Government Furnished Property (GFP) (hardware, software, firmware) will be provided to support access to NMCI/other Government computer resources as required during performance of this Task Order.

C.7.2 Government Furnished Property (GFP)

(a) GFP may be issued under this Task Order. The Government will make available the Government Property identified in the attachment J.X, Government Furnished Property on a rent-free basis in performance of the Task Order. The Contractor is responsible for all costs related to making the property available for use, such as payment of all transportation, installation, or rehabilitation costs.

(b) The Contractor shall maintain and report the inventory of GFP (**CDRL A011**) issued under this Task Order. This requirement is in addition to anything required by regulation, statute, or the assigned Government Property Administrator.

C.7.3 Government Furnished Information (GFI)

(a) The Government will provide access to information and documentation required for Task Order performance (Attachment J.X, Government Furnished Information).

(b) All information and documentation shall be retained at the Government work site.

C.8 SECURITY

C.8.1 Personnel and Facility Clearance Requirements

(a) Facility Clearance Level (FCL) Requirement: The Prime Contractor supporting this Task Order is required to have an FCL of TOP SECRET and safeguarding clearance level of SECRET at the primary facility supporting this Task Order.

(b) Personnel Clearance Level (PCL) Requirement: All personnel directly supporting this Task Order, except Management and Support personnel, are required to have, as a minimum, a current SECRET security clearance in the Defense Industrial Security System (DISS). Interim clearances are acceptable. Personnel performing in the following labor categories shall have a final TOP SECRET security clearance with Sensitive Compartmented Information (SCI) eligibility in DISS: Program Manager (1 FTE); Lead Senior System Engineer (2 FTE); Principal Systems Engineer (7 FTE); Senior Systems Engineer (2 FTE) Personnel performing in the following labor categories shall have a final TOP SECRET security clearance eligibility in DISS: Lead Principal Systems Engineer (4 FTE); Lead Senior Systems Engineer (1 FTE); Principal Systems Engineer (1 FTE); and Engineer (1 FTE).

C.8.2 The Contractor will have access to information and compartments with a SECRET / TOP SECRET / SCI classification. All deliverables associated with this Task Order are unclassified unless otherwise specified. Access to classified spaces and material and generation of classified material shall be in accordance with the attached DD Form 254 (Attachment J.X).

C.8.3 The Department of Defense Contract Security Classification Specification (DD Form 254) provides the security classification requirements for this effort. The Contractor shall obtain facility and personnel security clearances as required by the National Industrial Security Program prior to starting to work on tasks requiring clearances. Access to classified spaces and material and generation of classified material shall be in accordance with the National Industrial Security Program Operating Manual (NISPOM) 32 Code of Federal Regulation (CFR) Part 117 and the NSWCDD Command Security Manual.

C.8.4 Some work accomplished under this Task Order will be classified up to the level of TOP SECRET. The Contractor shall maintain the capability to store information up to and including SECRET. All data generated under this Task Order shall be classified in accordance with the guidance in the NISPOM 32 CFR Part 117 and the NSWCDD Command Security Manual.

C.8.5 The Contractor must comply with guidelines specified on the DD Form 254. Contractors SCI indoctrinated in support of this contract shall comply with the reporting requirements as outlined in DOD policies Security Executive Agent Directive (SEAD)-3 dtd 12 June 2017 and SEAD-3 Implementation memo dtd 02 Nov 2020. All deliverables associated with this Task Order will be non-SCI.

C.8.6 The Contractor shall require access to Communications Security (COMSEC) and a COMSEC account in order to access COMSEC information, which includes accountable or non-accountable COMSEC information and Controlled Cryptographic Items (CCI). Contractors shall use crypto keying material and have access to Secure Terminal Equipment (STE) and associated encryption device(s) COMSEC and have a COMSEC account at the Contractor sites. The Contractor requires access to SCI Intelligence in order to perform analysis of weapons systems. Access to Non-SCI intelligence is needed in order to utilize intelligence documents related to foreign government weapons systems. Access to the North Atlantic Treaty Organization (NATO) is required to obtain a SIPRnet account and to utilize the Defense Technical Information center (DTIC) system to obtain documents on intelligence. Access to Foreign Government Information is required to obtain United Kingdom documents on specific weapon systems. Controlled Unclassified Information (CUI) to include Personally Identifiable Information (PII) generated and/or provided under this Task Order shall be safeguarded and marked as specified in DOD Instruction 5200.48 Controlled Unclassified Information (CUI). All above accesses are needed to support and provide the system engineering, software development, and maintenance of Navy tactical initiatives and spiral and baseline developments to support NSWCDD. In performing under this Task Order, the Contractor shall have access to U.S. classified information outside the U.S., Puerto Rico, U.S. Possessions, and Trust Territories (*have to list the specific countries - i.e. UNITED KINGDOM, BAHRAIN, AFGHANISTAN, etc*).

C.8.7 Facility Clearance: The Contractor shall possess and maintain a *TOP SECRET* facility clearance as verified within the National Industrial Security System (NISS).

C.8.8 Physical Security: The Contractor shall be responsible for safeguarding all Government information or property provided for Contractor use. At the end of each work period, Government information, facilities, equipment and materials shall be secured as specified by the 32 CFR Part 117 and the NSWCDD Command Security Manual. Top Secret storage is required

at the Contractor's facility in order to meet requirements of receiving and generating classified material in accordance with this Task Order.

C.8.9 Contractors working in Open Storage Secret (OSS) spaces with Open/Close privileges shall be aware of their responsibility and be trained in procedures for end-of-day security checks to include Closing OSS spaces.

C.8.10 Electronic Spillage

C.8.10.1 Electronic Spillages (ES) are unacceptable and pose a risk to national security. An electronic spillage is defined as classified data placed on an information system (IS), media or hardcopy document possessing insufficient security controls to protect the data at the required classification level, thus posing a risk to national security (e.g., sensitive compartmented information (SCI) onto collateral, Secret onto Unclassified, etc.). The Contractor's performance as it relates to ES will be evaluated by the Government. ES reflects on the overall security posture of NSWCDD and a lack of attention to detail with regard to the handling of classified information of IS security discipline and will be reflected in the Contractor's performance rating. In the event that a Contractor is determined to be responsible for an ES, all direct and indirect costs incurred by the Government for ES remediation could be charged to the Contractor.

C.8.10.2 NSWCDD Security will continue to be responsible for the corrective action plan in accordance with the security guidance reflected on the DOD Contract Security Classification Specification – DD Form 254. NSWCDD Security will identify the Contractor facility and contract number associated with all electronic spillages that involve the Contractor. NSWCDD Security will notify the Contracts Division with the Contractor facility name and contract number, incident specifics and associated costs for clean-up. The Contracting Officer will be responsible to work with the Contractor Facility to capture the costs incurred during the spillage clean up. The Contractor is also responsible for taking Information Security Awareness training annually, via their Facility Security Officer (FSO), as part of the mandatory training requirements. If a spillage occurs additional training will be required to prevent recurrence.

C.8.11 Portable Electronic Devices (PEDs)

C.8.11.1 Non-Government and/or personally owned portable electronic devices (PEDs) are prohibited in all NSWCDD buildings with the exception of personally owned cell phones which are authorized for use in General Office Spaces (GOS). All personnel need to be aware of the PEDs policy and being permitted in a building by asking authorized personnel or reviewing the entrance area signs and instructions. The Contractor/personnel visiting shall ensure the onsite personnel remain compliant with this PED policy. NSWCDD instruction defines PEDs as the following: any electronic device designed to be easily transported, with the capability to store, record, receive or transmit text, images, video, or audio data in any format via any transmission medium. PED's include, but are not limited to, pagers, laptops, radios, compact discs and cassette players/recorders. In addition, this includes removable storage media such as flash memory, memory sticks, multimedia cards and secure digital cards, micro-drive modules, ZIP drives, ZIP disks, CD-RWs, DVD-RWs, MP3 players, iPads, digital picture frames, electronic book readers, kindle, nook, cameras, external hard disk drives, and floppy diskettes.

C.8.11.2 Personal Wearable Fitness Devices (PWFDs) marketed primarily as fitness or sleep devices are allowed in all Navy spaces, if they are compliant with NAVADIN 216/15, where collateral non-Sensitive Compartmented Information (SCI), classified information is processed, stored, or discussed up to and including SECRET. The user must ensure the PWFD is compliant with all requirements in NAVADMIN 216/15, Cyber Hygiene Authorization to use Personal Wearable Fitness Devices (e.g., FitBit, Jawbone UP, etc.) in Navy Spaces, dated 14 September 2015 and register PWFD in the NSWCDD Fitness Device Tracker.

C.8.11.3 Personnel requiring the use of Medical Portable Electronic Devices (MPEDS) must submit Form NSWCDD 5239/4 for SCIF authorization to the SCIF authorizations to the Special Security Officer (SSO). For Special Access Program Facility (SAPF) authorizations, follow the guidance provided by the Government Special Access Program Security Officer (GSSO). Authorizations for use in SAPFs that are co-utilized within NSWCDD SCIFS require coordination between both the GSSO and SSO. For authorizations to use MPED in Collateral Classified spaces, submit form to the Special Programs Branch, Code 1053.

C.8.11.4 PED's belonging to an external organization shall not be connected to NSWCDD networks or infrastructure without prior approval from the NSWCDD Information Assurance and Compliance Branch. This approval will be granted using the Temporary Approval Request for Information System (TARIS) form and action tracker process.

C.8.11.5 Personally owned hardware or software shall not be connected or introduced to any NSWCDD hardware, network or information system infrastructure.

C.8.11.6 Navy-issued peripheral:

C.8.11.6.1 Government procured headsets with or without microphones must be wired, use either a 3.5 millimeter (mm) audio jack or universal serial bus (USB) port, cannot contain active-noise cancelling functionality and may be used on systems of classification up to and including collateral Top Secret. The headsets are considered unclassified when unplugged, and must be unplugged when not in use.

C.8.11.6.2 Government procured Bluetooth earbuds and headsets that do not require a USB dongle or any other physical connection to enable wireless connectivity are allowed for use on Government issued tablets, phones, and personal devices in telework environments or unclassified general office space where no classified discussion are occurring.

C.8.11.6.3 Web cameras may only be used on systems at the classification level of the space. For example, in a collateral SECRET open storage area an external web camera may be connected to the SECRET workstation only. No camera pass is required for these devices.

C.8.11.6.4 Government provided printers and/or scanners are authorized in a telework environment. Users must ensure that any paper or media containing CUI or unclassified information not authorized for public release is safeguarded by locking in a drawer, cabinet or

room. CUI and unclassified information not approved for public release must be returned to the worksite for destruction.

C.8.11.6.5 Government issued peripherals may be used on personal devices.

C.8.11.6.6 While connected to any Navy network, whether on site or while in a telework environment, the use of headsets with microphones and web cameras are restricted to official Government duties.

C.8.12 Operations Security (OPSEC)

Contractor personnel shall follow OPSEC concepts and principles in the conduct of this requirement to protect critical information, personnel, facilities, equipment, and operations from compromise. All Contractors (including Sub-contractors) shall supplement their current security practices by requiring any personnel involved in executing this Task Order to complete Government-sponsored and administered Operations Security (OPSEC) training. In addition, all Contractors shall be aware of the Critical Information and Indicators List (CIIL) for the organization they are supporting as well as the OPSEC plan for NSWCDD. These OPSEC requirements will be in effect throughout the life of the procurement from award through the conclusion of services at the end of the period of performance (PoP) or other procurement termination. The Contractor must immediately notify the Government upon the discovery of any nonconformance with the OPSEC manual.

C.8.13 Privacy Program Training

Privacy training is mandatory for all NSWCDD personnel (military, civilian, and Contractor) and must be completed annually. Total Workforce Management Services (TWMS) is the official database for workforce training and is the tool for taking and recording Privacy Act training. The Contractor is responsible for ensuring individual annual privacy training requirements are met.

C.8.14 IT-1 Designation Requirements

C.8.14.1 In accordance with (IAW) DON Chief Information Officer (CIO), NSWC Headquarters, and NSWCDD guidance, IT Level-1 positions are defined as users with privileged access. Contractor employees assigned to an IT Level-I designated position with SECRET access will be required to have a favorably adjudicated T5/T5R completed every 5 years. Contractor employees that require a SECRET Clearance as part of their job duties, with IT Level-I designation, will be initiated by the Government, and will be at the Government's expense. Contractor employees that require a Top Secret Clearance as part of their job duties, with IT Level-I designation, shall be initiated by the Contracting Company.

C.8.14.2 Any Contractor employee, who has a final clearance and submitted T5/T5R that is accepted by Office of Personnel Management (OPM) along with a favorable fingerprint check (SAC), is eligible for IT-1 designation. The Command Security Office will review all SF-86

paperwork for all Contractor employees nominated for IT Level-I designations if the T5/T5R is not completed.

C.8.14.3 Contractor employees that do not have a final clearance investigation within DISS are ineligible for IT Level-I designation until the T5/T5R has been favorably adjudicated, shall remain at IT level-II status and shall not be assigned to a contract position requiring IT Level-I designation.

C.8.15 Visits by Foreign Nationals and Foreign Representatives

C.8.15.1 Task Order performance may require that the Contractor host, at an off-base location, foreign nationals and/or foreign representatives. A foreign national is a person who is a citizen of a foreign nation, and who is not a citizen of the United States. A foreign representative is a person who represents a foreign interest in dealings with the U.S. Government, either directly or through dealings with a U.S. Government Contractor. A foreign representative may be a United States citizen.

C.8.15.2 A Contractor-hosted visit of a foreign national or foreign representative may be either an “official” visit or an “unofficial” visit. An official visit is a visit where the foreign national or foreign representative is representing a foreign government in an official capacity. An unofficial visit is a visit where the foreign national or foreign representative is not representing a foreign government.

C.8.15.3 A visit by a foreign national or a foreign representative may be either “DOD Sponsored” or “Non-DOD Sponsored”. A DOD Sponsored visit is a visit that is coordinated by a DOD entity. A Non-DOD Sponsored visit is a visit that does not involve DOD coordination (A visit by either a foreign national or a foreign representative pursuant to performance by the Contractor under this Task Order is not considered to be, by itself, a sponsored visit).

C.8.15.4 The Contractor hosting a visit by either a foreign national or a foreign representative is responsible for adherence to Department of Defense and Department of the Navy directives, instructions, regulations, and manuals that govern foreign disclosure. “Foreign Disclosure” is defined as the disclosure of Classified Military Information (CMI) and Controlled Unclassified Information (CUI) to foreign nationals and/or foreign representatives. Disclosure of such information may be accomplished orally, visually, in writing, or by any other medium.

C.8.15.5 Classified Military Information (CMI). This is information that is originated by or for the Department of Defense, or a Military Department, or an entity under its jurisdiction and control, and which requires protection in the interest of national security. Such information is designated as TOP SECRET, SECRET, or CONFIDENTIAL.

C.8.15.6 Controlled Unclassified Information (CUI). This is information that although unclassified is subject to access or distribution limitations in accordance with statute or regulation. Included is information exempt from mandatory release to the public under the Freedom of Information Act, or information that is subject to export control.

C.8.15.7 NSWCDD Foreign National Visitor and Foreign Disclosure Application process. The NSWCDD has established a foreign national visitor approval and foreign disclosure process. Whenever, pursuant to the terms of this Task Order, a visit to a Contractor facility or Contractor workspace by a foreign national or foreign representative is anticipated, and one or more NSWCDD employees will be in attendance at this visit/meeting for the purpose of potential discussions, above the public release level, resulting in disclosure of either CMI or CUI, a completed "NSWCDD Foreign National Visitor and Foreign Disclosure Application" e-form must be supplied to the Contractor's Facility Security Officer (FSO). The accountable NSWCDD personnel attending the meeting must ensure that the NSWCDD disclosure process has been complied with and an approved copy of the "NSWCDD Foreign National Visitor and Foreign Disclosure Application" generated e-form has been provided to the COR and the Contractor's FSO. The Contractor's FSO should ensure that approved copies of the e-form are maintained at their facility as a record of compliance with requirements set forth in 32 CFR Part 117 as well as the requirements set forth above.

C.8.16 SECURE LINK

C.8.16.1 The Contractor shall provide their own secure facility at the SECRET (or higher) level. The Contractor is advised that in order to perform in accordance with the SOW requirements, the Contractor must be able to participate in a classified network connection to the computing environment.

C.8.16.2 In order to participate in the network, the Contractor shall have a secure line or secure data connection from their facility (the primary facility/facilities proposed to support this Task Order) to NSWCDD. The following paragraphs delineate the basic requirements that must be met before network access will be permitted.

C.8.16.2.1 The Contractor shall have or be willing to provide no later than 180 days after Task Order award:

C.8.16.2.1.1 A data transmission line connecting the Contractor's classified IT environment to NSWCDD's computing environment via Type 1 approved encryption device. The data transmission line shall be capable of carrying data at a rate commensurate in efficiently transferring large data files. The following options are acceptable for providing the required connectivity:

(a) Connection to the fiber distribution system that directly connects from the IWSL to select office buildings.

(b) An existing Secret Internet Protocol Router (SIPR) Point of Presence (POP) (if a SIPR POP is not already in place, the time required to put a SIPR POP in place would fail to meet the schedule requirements).

(c) Utilize any current technology or most efficient connectivity available (I.E. Encrypted over Internet Service Provider (ISP) connection).

The Government will cover the non-recurring costs necessary to establish the secure data transmission link up to the established Not-to-Exceed (NTE) ODC amount. The Contractor shall be responsible for all recurring costs relating to the operation or maintenance of the secure data transmission link.

C.8.16.2.1.2 Access to an approved fiber connection providing connectivity to NSWCDD:

(a) The fiber connection must be encrypted utilizing National Security Agency (NSA) Type 1 encryption and must be approved at the Secret (or higher) level. The encryption device must be stored in a secure area that meets the construction requirements of the CFR Part 117, Section 117.15 and be accredited by the Defense Counterintelligence and Security Agency (DCSA) (IS Specialist, Capital Area phone 1-888-282-7682).

(b) Stand-alone PCs or Local Area Networks (LANs) used in the secure area must meet the minimum security requirements of CFR Part 117, Section 117.15 and be accredited by DCSA. System configuration must be approved by NSWCDD.

(c) A COMSEC account is required for the receipt of the hardware and keying material necessary to support the encrypted connectivity. The Contractor shall have a Defense Courier Service (DCS) account to support the receipt and shipment of the operational key.

(d) As part of the NSWCDD Security Office's Memorandum of Agreement (MOA) with DCSA, the Contractor shall complete a Network Participants' Data Sheet (NPDS) and submit it to the NSWCDD Network Security Representative for approval.

(e) The Contractor shall attend or have attended Tactical Local Area Network Encryptor (TACLANE) encryptor training at the Contractor's expense within 90 days of Task Order award.

C.9 ON-SITE ENVIRONMENTAL REQUIREMENTS

C.9.1 The Contractor shall strictly adhere to all Federal, State and local laws and regulations, Executive Orders, and Department of Defense and Navy policies.

C.9.2 The Contractor shall ensure that each Contractor employee who has been or will be issued a Common Access Card (CAC), performs work in direct support of NSWCDD programs under the NSWCDD Commanding Officer, and sits on-site at NSWCDD, completes the NAVSEA Environmental Awareness Training (TWMS-695388) within 30 days of commencing Task Order performance and at least every three (3) years thereafter or as directed by their NSWCDD training coordinator or their COR.

C.9.3 The Contractor shall ensure that each Contractor employee not required to complete the training described above (i.e., those who do not have and will not be issued a CAC, do not perform work in direct support of NSWCDD programs under the NSWCDD Commanding Officer, and do not sit on-site at NSWCDD) reads the NSWCDD Environmental Policy Statement within 30 days of commencing Task Order performance. This document will be available from the COR, however, the policy is also provided on the publicly-available

NSWCDD website, <https://www.navsea.navy.mil/Home/Warfare-Centers/NSWC-Dahlgren/Resources/>.

C.9.4 Within 30 days of commencing Task Order performance, the Contractor shall certify by email to their COR that the requirements captured above have been met. The email shall include each employee name and work site and shall indicate which requirement each employee has satisfied.

C.9.5 Contractor copies of the records generated by the actions described above will be maintained and disposed of by the Contractor in accordance with Secretary of Navy Instruction (SECNAVINST) 5210.8F Department of the Navy Records Management Program.

C.9.6 The Contractor shall perform work under this Task Order consistent with the relevant policy and objectives identified in the NSWCDD environmental management system (EMS). The Contractor shall perform work in a manner that conforms to all appropriate EMS Plans of Actions and Milestones identified by the NSWCDD EMS Plan. In the event an environmental nonconformance or noncompliance associated with the contracted services is identified, the Contractor shall respond and take immediate corrective and/or preventative actions to ensure the actions do not continue. In addition, the Contractor shall ensure that their employees are aware of their roles and responsibilities identified by the NSWCDD EMS and how these requirements affect their work performed under this Task Order.

C.10 ON-SITE SAFETY REQUIREMENTS

C.10.1 The Contractor shall strictly adhere to Federal Occupational Safety and Health Agency (OSHA) Regulations, Environmental Protection Agency (EPA) Regulations, NSWCDDINST 5100.01 Occupational Safety and Health Program (current revision), and all applicable state and local requirements.

C.10.2 The Contractor shall ensure that each Contractor employee reads the document entitled, "Occupational Safety and Health (OSH) Policy Statement" within 30 days of commencing performance at NSWCDD. This document is available at: https://flankspeed.sharepoint-mil.us/sites/NAVSEA_NSWCDD_SE/SitePages/OSH-Bulletin-Board.aspx.

C.10.3 The Contractor shall provide each Contractor employee with the training required to do his/her job safely and in compliance with applicable regulations. The Contractor shall document and provide, upon request, qualifications, certifications, and licenses as required. Contractors conducting lead or asbestos abatement activities shall also provide a written abatement plan to the Safety & Environmental Branches for review and approval.

C.10.4 The Contractor shall provide each Contractor employee with the personal protective equipment required to do their job safely and in compliance with all applicable regulations.

C.10.5 Contractors working with ionizing radiation (radioactive material or machine sources) must comply with the latest revision of NAVSEA S0420-AA-RAD-010 (provided upon request).

Prior to bringing radioactive materials or machine sources on base, the Contractor must notify the Command Radiation Safety Officer in the Safety Branch.

C.10.6 Contractors shall not procure hazardous material (HAZMAT) on behalf of NSWCDD without following the approved HAZMAT procurement process and obtaining approval from the Safety & Environmental Branches. For emergency HAZMAT purchases only, the Contractor shall alert the Safety & Environmental Branches and request a waiver to procure outside the HAZMAT procurement process. For emergency purchases, the Contractor shall submit an Authorized Use List Addition form and the Safety Data Sheet to the Safety & Environmental Branches for approval. Once the HAZMAT arrives onsite, the Contractor shall alert the Environmental Branch so that it can be barcoded and added to the inventory.

C.10.7 HAZMAT owned by the Contractor and brought into NSWCDD work spaces for temporary use shall be reviewed and approved by the Safety & Environmental Branches prior to use. The Contractor shall submit the Safety Data Sheet that must be routed through the Government supervisor responsible for the specific work area. This HAZMAT must clearly be marked that it is Contractor owned and shall not be stored in NSWCDD spaces.

C.10.8 Contractors shall not procure lithium batteries on behalf of NSWCDD without first receiving an approved Initial Procurement Report or certification letter and obtaining approval from the Safety & Environmental Branches.

C.10.9 Applicable Contractors shall submit Total Case Incident Rate (TCIR) and Days Away, Restricted and Transfer (DART) rates for the past three (3) years upon request by the Safety Branch. A Contractor meets the definition of applicable if its employees worked 1,000 hours or more in any calendar quarter onsite and where oversight is not directly provided in day-to-day activities by the command.

C.10.10 The Contractor shall report all work-related injuries/illnesses that occurred while working at NSWCDD, or an off-site location (including shipboard), to the Safety Branch.

C.11 INFORMATION SYSTEMS (IS) AND COMPUTER USAGE

In accordance with U.S. Navy policy, any personnel, including the Contractor, who utilizes DOD owned systems, shall assume responsibility for adherence to restrictions regarding internet and email usage. Navy policy prohibits racist, sexist, threatening, pornographic, personal business, subversive or politically partisan communications. All personnel, including the Contractor, are accountable and must act accordingly. DOD computer systems are monitored to ensure that the use is authorized, to facilitate protection against unauthorized access, and to verify security procedures, survivability and operational security. During monitoring, information may be examined, recorded, copied, and used for authorized purposes. All information, including personal information, placed on or sent over a DOD system may be monitored. Use of a DOD system constitutes consent to monitoring. Unauthorized use may result in criminal prosecution. Evidence of unauthorized use collected during monitoring may be used as a basis for recommended administrative, criminal or adverse action.

C.12 USE OF INFORMATION SYSTEM (IS) RESOURCES

Except in special circumstances explicitly detailed elsewhere in this document, the Contractor shall provide all IS resources needed in the performance of this Task Order. This includes, but is not limited to computers, software, networks, certificates, and network addresses.

C.12.1 CONTRACTOR USE OF NSWCD D IS RESOURCES

(a) In the event that the Contractor is required to have access to NSWCD D IS resources, the login name used for access shall conform to the NMCI login naming convention. If the Contractor requires access to applications/systems that utilize client certificates for authentication, the Contractor is responsible for obtaining requisite certificates from a DOD or External Certificate Authority

(b) If this Task Order requires that the Contractor be granted access and use of NSWCD D IS resources (at any site), the IS shall be accredited for Contractor use in accordance with procedures specified by the Information Assurance Office.

C.12.2 CONNECTIONS BETWEEN NSWCD D AND CONTRACTOR FACILITIES

If there is a requirement (specifically delineated elsewhere in this **Task Order**) for interconnection (e.g., link level or Virtual Private Network (VPN)) between any facilities and/or ISs owned or operated by the Contractor and ISs owned or operated by NSWCD D, such interconnection shall take place only after approval from the Information Assurance Office. All such connections as well as the ISs connected thereto will be accredited in accordance with DOD policy (DODI 8510.01 Risk Management Framework for DoD Systems) by the cognizant Designated Approving Authority (DAA) and comply with the requirements of Chairman Joint Chiefs of Staff Instruction (CJCSI) 6211.02D Defense Information Systems Network (DISN) Responsibilities regarding Memorandums of Agreement. All such connections will be made outside the appropriate NSWCD D firewall.

C.13 PRIVACY INFORMATION

Work under this Task Order may require that personnel have access to Privacy Information. Contractor personnel shall adhere to the Privacy Act, Title 5 of the U.S. Code Section 552a, FAR 52.224-2 Privacy Act, and applicable agency rules and regulations.

C.14 NON-DISCLOSURE AGREEMENTS (NDAs)

(a) Access to and preparation of sensitive information subject to Privacy Act and Business Sensitive safeguarding and destruction may be required in the execution of tasking associated with this Task Order. NDAs may be utilized to allow for access to company sensitive/proprietary or Privacy Act data. For tasks requiring NDAs, the Contractor shall obtain appropriate agreements for all their employees that are associated with the task requiring such an agreement.

(b) Contractor personnel may be required, from time to time, to sign NDAs as applicable to specific SOW tasking. The COR will notify the Contractor of the number and type of personnel that will need to sign the NDAs. The signed NDAs shall be executed prior to accessing data or providing support for information that must be safeguarded. Copies of all executed NDAs shall be provided to the COR for endorsement and retention.

C.15 NON-PERSONAL SERVICES/INHERENTLY GOVERNMENT FUNCTIONS

(a) The Government will neither supervise Contractor employees nor control the method by which the Contractor performs the required tasks. The Government will not direct the hiring, dismissal or reassignment of Contractor personnel. Under no circumstances shall the Government assign tasks to, or prepare work schedules for, individual Contractor employees. It shall be the responsibility of the Contractor to manage its employees and to guard against any actions that are of the nature of personal services or give the perception that personal services are being provided. If the Contractor feels that any actions constitute, or are perceived to constitute personal services, it shall be the Contractor's responsibility to notify the Contracting Officer immediately in accordance with FAR 52.243-7 Notification of Changes.

(b) Inherently-Governmental functions are not within the scope of this Task Order. Decisions relative to programs supported by the Contractor shall be the sole responsibility of the Government. The Contractor may be required to attend technical meetings for the Government; however, they are not, under any circumstances, authorized to represent the Government or give the appearance that they are doing so.

C.16 CONTROL AND ADMINISTRATION OF CONTRACTOR PERSONNEL

(a) The Contractor shall comply with the requirements of NAVSEA and NSWCDD instructions regarding performance in Government facilities. All Contractor personnel engaged in work while on Government property shall be subject to all applicable DOD and Navy Standards of Conduct.

(b) The Contractor shall be required to obtain identification badges from the Government for all Contractor personnel requiring regular access to Government property. When on-site in Government office spaces, laboratories, test facilities, or ship assets, Contractor employees shall be clearly identified as a Contractor (e.g., utilizing badge identifications and sign identifications in office spaces). The identification badge shall be visible at all times while employees are on Government property. The Contractor shall furnish all requested information required to facilitate issuance of identification badges and shall conform to applicable regulations in the Department of Defense Manual (DODM) 1000.13 DoD Identification (ID) Cards ID Card Life-Cycle concerning the use and possession of the badges.

(c) The Contractor shall ensure that all identification badges issued to Contractor employees are returned to the appropriate Security Office within 48 hours following completion of the Task Order, relocation or termination of an employee, and upon request by the Contracting Officer.

(d) All Contractor personnel shall identify their company affiliation when answering or making telephone calls and sending email and when attending meetings where Government personnel or representatives from other Contractors are present. In addition, Contractor personnel cannot lead/manage/supervise Government personnel. Contractor program/project managers shall be clearly identified and known as such by Government employees.

(e) All persons engaged in work while on Government property shall be subject to search of their persons (no bodily search) and vehicles at any time by the Government and shall report any known or suspected security violations to the appropriate Security Department. Assignment, transfer, and reassignment of Contractor personnel shall be at the discretion of the Contractor. However, when the Government directs, the Contractor shall remove from Task Order performance any person who endangers life, property, or national security through improper conduct.

C.17 TERMINATION OF EMPLOYEES WITH U.S. GOVERNMENT BADGES

(a) The Contractor shall ensure that all employees who have a DOD Common Access Card (CAC), turn in the CAC immediately upon employee separation and/or termination of their employment under this Task Order. The above requirement shall be made a part of the standard employee facility clearance procedures for all separated personnel. The Contractor shall advise Command Physical Security of all changes in their personnel requiring DOD base access.

(b) For involuntarily separated personnel and those separated under adverse circumstances, the Contractor shall notify Command Physical Security in advance of the date, time, and location where the Command representative retrieve the DOD CAC prior to the employee departing the Contractor's facility. In the event the employee is separated in his or her absence, the Contractor shall immediately notify Command Physical Security of the separation and make arrangements between the former employee and Command Physical Security for the return of the CAC. If circumstances arise which necessitate urgent revocation of a CAC after normal business hours, the Mission Partner Identity, Credential and Access Management (MP ICAM) Mission Partner Affiliation Sponsor (MPAS) shall be immediately contacted. MPAS contact information will be provided by the COR after Task Order award.

C.18 LABOR CATEGORIES/QUALIFICATIONS

See **Attachment J.X, Labor Category Qualifications.**

C.19 POST AWARD CONTRACTOR PERSONNEL APPROVAL

(a) See NAVSEA C-237-H002 Substitution of Key Personnel, regarding substitution of key personnel. Requests for post award approval of additional and replacement key personnel shall be submitted via email. Email submissions shall be made simultaneously to the Contract Specialist, COR, and the Alternate COR. Electronic notification via email from the Contract Specialist will serve as written approval or disapproval on behalf of the Contracting Officer. This approval is required before an individual may begin charging to the Task Order.

(b) Resumes shall be submitted in the format required in C.20. However, minor deviations in formatting may be overlooked, providing sufficient information is submitted for an independent comparison of the individual's qualifications with Labor Category requirements.

(c) Prior to charging non-key personnel labor to this Task Order, the Contractor shall provide written documentation stating the individual's name, Labor Category, and certification that the individual meets or exceeds the minimum qualifications of the Labor Category. This written documentation/certification shall be made by email to the Contract Specialist and the COR.

C.20 POST AWARD RESUME FORMAT AND CONTENT REQUIREMENTS

In order to facilitate evaluation of resumes submitted in accordance with C.19 and C-237-H002, all résumés shall be provided in the following format and are not to exceed three (3) pages each. The page limit does not apply to the certification and signature.

(a) HEADER

- Complete Name
- Current Employer
- Task Order Labor Category
- Contractor Labor Category
- Percentage of time to be allocated to this effort upon award of this Task Order
- Current security clearance level per DISS (identify if interim or final)
- Current work location
- Planned work location upon award of this Task Order

Note if the individual is key on another contract with a Period of Performance that will overlap this requirement. Note plans to satisfy both contracts if the candidate is approved.

(b) EDUCATION/PROFESSIONAL DEVELOPMENT

Show any degrees, honors, publications, professional licenses, specialized certifications, and other evidence of professional accomplishments that are directly relevant and will impact the Offeror's qualifications to perform under the Task Order. For education and training, the following format is preferred:

- Academic: degree(s); date(s); institution; major/minor
- Academic: course title, date(s), approximate length (as cited in labor categories)
- Non-Academic: course title, date(s), approximate length
- Professional licenses and specialized certifications. (Note the date obtained for each, as well as the date when each license/certification requires renewal.)

(c) CHRONOLOGICAL WORK HISTORY/EXPERIENCE

(i) Employer: dates (month/year); title(s) held

(ii) Work experience shall be presented separately for each employer, clearly marked with proper category of experience (i.e., relevant experience; nonrelevant experience.). If relevant and nonrelevant experience were obtained while at the same employer, separate time periods shall be noted for each assignment. Responsibilities shall be discussed in sufficient detail for each assignment so as to permit comparison with experience levels in Attachment J.X, Labor Category Qualifications. Specific examples of work assignments, accomplishments, and products shall be provided.

(iii) Phrases such as “assisted with,” “participated in,” or “supported” are unacceptable except as introductory to a detailed description of the actual work performed. If no such description is provided, the sentence or bulleted information will not be considered in the résumé evaluation process.

(iv) Résumé information is encouraged to be presented in bullet format.

(v) Lack of specific definition in job responsibilities, services performed, or products produced may be viewed as a lack of understanding of the Labor Category requirements.

(vi) All relevant military experience claimed shall be described such that each relevant tour is treated as a separate employer. Time frames/titles /responsibilities shall be provided in accordance with the level of detail prescribed above. Military experience not documented in this manner will not be considered.

(vii) Gaps in experience shall be explained.

(viii) Certification of correctness of information signed and dated by both the person named and the Contractor. The employee certification shall include the following statement:

CERTIFICATION: “I certify that the experience and professional development described herein are complete and accurate in all respects. I consent to the disclosure of my résumé for NSWCCD Task Order TBD by [insert company name] and intend to make myself available to work under the Task Order.”

Employee Signature and Date

Contractor Signature and Date

(ix) Résumés without this certification, together with either a handwritten or digital signature, will be unacceptable and will not be considered.

(x) If the employee is not a current employee of the Contractor (or a Sub-contractor), a copy of the accepted offer letter shall be provided. The letter shall identify the projected start date.

C.21 LABOR TRIPWIRE JUSTIFICATIONS

The Contractor shall monitor monthly average actual spend rates compared to monthly average fully burdened proposed rates on a per CLIN basis. The Contractor shall advise the COR and the Contract Specialist, by email, of any variation of actual-to-proposed rate averages greater than 15 percent. The Contractor's notification shall include the following information:

- (a) an actual vs. proposed average dollar per hour comparison;
- (b) the percentage variation between the actual and proposed average;
- (c) explanation of what is causing the variation;
- (d) whether or not the Contractor expects this condition is temporary or permanent;
- (e) the Contractor's plan for addressing and correcting the variation; and
- (f) additional information as requested by the Government to assist in reporting per the NAVSEAINST 4200.19(series) Planning, Use, and Control of Services Contracting.

C.22 DATA RIGHTS

- (a) This is a Task Order for the provision of services by the Contractor. In accordance with law and policy and with the provisions of this Task Order, Contractor personnel shall perform as required by this Task Order, and such work shall include working in cooperation and collaboration with Government Personnel.
- (b) Performance of this Task Order work shall require, among other things, the Contractor to access and use Government-owned data such as software, documentation, technical data, process and report templates, and the like. Any and all software, documentation, technical data, and the like generated from such access and use shall also be and remain Government-owned data and shall be included in an appropriate technical report or other deliverable. The Contractor's use of and access to Government-owned data shall neither constitute nor create any Contractor rights in or license to such data; the only Contractor permissions to use and access the data shall be those necessarily required by the Contractor to perform the work herein.
- (c) On occasion and incidental to the provision of support services by the Contractor, the Contractor may be tasked to independently create discrete new data products (e.g., technical analysis, drawings) that do not derive from existing data. Such products shall be specifically identified by the Government in writing and shall be delivered pursuant to the appropriate Contract Data Requirements List (CDRL) document. Rights in such products shall be governed by the appropriate Task Order clauses.

C.23 DIGITAL DELIVERY OF DATA

- (a) Delivery by the Contractor to the Government of certain technical data and other information is now frequently required to be made in digital form rather than in hardcopy form. The method of delivery of such data and/or other information (i.e., in electronic, digital, paper hardcopy, or

other form) shall not be deemed to affect in any way either the identity of the information (i.e., as “technical data” or “computer software”) or the Government’s and the Contractor’s respective rights therein.

(b) Whenever technical data and/or computer software deliverables required by this contract are to be delivered in digital form, any authorized, required, or permitted markings relating to the Government’s rights in and to such technical data and/or computer software must also be digitally included as part of the deliverable and on or in the same medium used to deliver the technical data and/or software. Such markings must be clearly associated with the corresponding technical data and/or computer software to which the markings relate and must be included in such a way that the marking(s) appear in human-readable form when the technical data and/or software is accessed and/or used. Such markings must also be applied in conspicuous human-readable form on a visible portion of any physical medium used to effect delivery of the technical data and/or computer software. Nothing in this paragraph shall replace or relieve the Contractor’s obligations with respect to requirements for marking technical data and/or computer software that are imposed by other applicable clauses such as, where applicable and without limitation, DFARS 252.227-7013 Rights in Technical Data – Other Than Commercial Products and Commercial Services and/or DFARS 252.227-7014 Rights in Other Than Commercial Computer Software and Other Than Commercial Computer Software Documentation.

(c) Digital delivery means (such as but not limited to Internet tools, websites, shared networks, and the like) sometimes require, as a condition for access to and/or use of the means, an agreement by a user to certain terms, agreements, or other restrictions such as but not limited to “Terms of Use,” licenses, or other restrictions intended to be applicable to the information being delivered via the digital delivery means. The Contractor expressly acknowledges that, with respect to deliverables made according to this contract, no such terms, agreements, or other restrictions shall be applicable to or enforceable with respect to such deliverables unless such terms, agreements, or other restrictions expressly have been accepted in writing by the Contracting Officer; otherwise, the Government’s rights in and to such deliverables shall be governed exclusively by the terms of this Task Order.

C.24 SHIPBOARD PROTOCOL

(a) This tasking may involve platform engineering and fleet support onboard ship. As such, the Contractor is reminded of its responsibility to assure that shipboard protocol is stringently followed. Specifically, visit clearances must be arranged through the Government sponsor and must be forwarded to the individual command being visited as well as to all supporting commands, such as the base, squadron, tender, etc. that the visitor must pass through to get to the ship; the Contractor is responsible for obtaining and maintaining specialized training (i.e. nuclear awareness, safety, quality control, etc.) and certification (i.e. Submarine Safety Program (SUBSAFE) certificates etc.); personnel performing on board US Navy Ships must have at a minimum, a current SECRET Security Clearance; if not led by a Government representative the Contractor is responsible for briefing the ship/command upon arrival; and the Contractor is responsible for debriefing the ship/command upon departure to include operational status of the equipment.

- (b) The Contractor shall ensure its personnel adhere to these requirements when performing shipboard tasking. Compliance shall be reported in the trip report (CDRL A004- Trip Report).
- (c) All assigned personnel must possess, at a minimum, a current SECRET Security Clearance.
- (d) All personnel, while shipboard, shall conform to the rules and regulations of the ship. It is the responsibility of the Contractor to determine the proper rules, regulations, actions, policy and procedures.
- (e) Alarms - actual or drill - shall be reported and procedures appropriately adhered.
- (f) Safety - hardhats, tag-outs, safety shoes, goggles, safety harnesses, etc., as appropriate - shall be utilized.
- (g) Some shipboard tasking may require ascending and descending vertical ladders to and from the highest points of the ship both pier side and underway.
- (h) Each Contractor employee must be able stand; walk; climb stairs; balance; stoop; kneel; crouch or crawl around and lift a maximum of 50 lbs. (single person) in the test environment.
- (i) HAZMAT must be used safely according to local Standard Operating Procedures (SOPs).
- (j) The designated team lead shall, upon arrival, brief the Commanding Officer or his/her designated representative as to the purpose of the visit and expected duration.
- (k) The designated team lead shall, upon final departure, debrief the Commanding Officer or his/her designated representative as to the success of the tasking and the operational condition of affected equipment.
- (l) The Contractor shall comply with the Commander, U.S Fleet Forces Command (COMUSFLTFORCOM)/Commander, U.S. Pacific Fleet (COMPACFLT) INSTRUCTION 6320.3B regarding the medical and dental screening of all personnel that may embark aboard any U.S. Navy vessel.
- (m) The Contractor shall ensure that repair and maintenance employees working aboard vessels, dry docks and piers shall have a valid 10 hour OSHA Maritime Shipyard Employment Course #7615 completion card within 60 days of employment.
