Department of the Air Force: Justification for Other Than Full and Open Competition

I. Agency and Contracting Activity (RFO 6.104-1(a)(1)):

AFTC/PZZF, 5 South Wolfe Avenue, Building 2800, Edwards AFB, CA 93524

II. Nature and/or description of the action being approved (RFO 6.104-1(a)(2)):

Proposed contract action will be awarded through the Form 9. The proposed contractor is: Curtiss-Wright DS, Inc 2 Highwood Dr. Bldg 2, Suite 200 Tewksbury, MA 01876

Period of Performance: 12 MARO

III. Description of supplies/services required to meet agency needs (RFO 6.104-1(a)(3)):

This procurement is for a Non-Recurring Engineering (NRE) effort to create a software upgrade for the proprietary BOSS® (Battlefield Operations Support System) software. The upgrade will enhance the existing product baseline to support Appendix Z classified messages as defined in Annex 2 of MIL-STD-6016G. The BOSS® software suite is a proprietary product of Curtiss-Wright.

Part #001, BOSS software upgrade for Appendix Z messages, qty 1, \$ [REDACTED]

IV. Statutory Authority Permitting Other Than Full and Open Competition (RFO 6.104-1(a)(4)):

10 U.S.C. 3204(a)(1), Only one responsible source and no other supplies or services will satisfy agency requirements.

V. Rationale for Use of Authority (RFO 6.104-1(a)(5)):

Under the 10 U.S.C 3204 (a)(1) the head of a federal agency may bypass competitive bidding only when the property or services needed are available from a single responsible source of a limited number of responsible sources, and no alternative property or services will satisfy the agency's requirement.

The [REDACTED] at Edwards AFB currently operates [REDACTED] BOSS® systems. To maintain interoperability and ensure the systems are compliant with current military standards, an upgrade is required to process and support new classified message sets. This enhancement is critical for ongoing and future test operations.

Based on the market research, this requirement can only be fulfilled by a single source. The software, BOSS, is a proprietary product of Curtiss-Wright's Tactical Communications Group (TCG), which is the Original Equipment Manufacturer (OEM) and claims exclusive intellectual property rights. The necessary software upgrade is an inseparable part of the legacy system and can only be executed by the OEM.

VI. Integrated Market Analysis and Efforts to Solicit Competition (RFO 6.104-1(a)(6), (8), and (10)):

Market research confirmed this as a sole-source requirement. We engaged directly with Curtiss-Wright, the Original Equipment (OEM), whose proposal verified that their BOSS software is proprietary and they hold the exclusive intellectual property rights. As this is an upgrade to an existing system, this makes them the only source capable of performing the work. The vendor's registration and status were confirmed via SAM.gov on 16 April 2026.

Department of the Air Force: Justification for Other Than Full and Open Competition

VII. Determination of Fair and Reasonable Cost (RFO 6.104-1(a)(7)):

The Contracting Officer is responsible for evaluating, determining, and documenting the anticipated contract cost/price is fair and reasonable in accordance with RFO Subpart 15.4, Contract Pricing.

VIII. Any Other Facts Supporting the Justification (RFO 6.104-1(a)(9)):

N/A

IX. Actions to Overcome Barriers to Competition (RFO 6.104-1(a)(11)):

In compliance with FAR guidance, [REDACTED] will conduct market research and survey all required sources to fulfill the stated requirement.
